Take the bridge to a career in healthcare! The Healthcare Career Bridge Program will help you:

- Master skills employers want, including problem solving, time management and computer knowledge
- Explore career options in healthcare
- Improve your reading, writing and math to prepare for college entrance exams and job success while you begin learning the basics for health professions
- Prepare for the GED test if you need high school equivalency

How does the Healthcare Career Bridge Program work?

- We help you get ready to start your training in: Certified Nursing Assistant (CNA), Phlebotomy Technician, Pharmacy Technician, EKG Technician, or Medical Billing and Coding
- We connect you with the services you need to succeed: financial aid (if applicable), college advisors, and tutoring
- You can earn a basic certificate to qualify for your first job in the healthcare field and continue studying to advance your career!

You provide:

- Your time and effort
- Excellent attendance
- Completed assignments and homework

We provide:

- Free classes that prepare you for health professions training
- Reading, writing, and math skills for healthcare jobs and training
- Preparation for the GED test if you need to take it
- Preparation for the COMPASS (college entrance) exam

Healthcare Career Bridge classes are available at six locations across the city: Daley, Kennedy-King, Malcolm X, Olive-Harvey, Truman, and Wright all offer the classes either at the main campus or at the college’s satellite center. Bridge classes are held Monday through Friday during daytime hours, morning or afternoon, depending on location.

How long is the program?
The Bridge Program runs 16 to 24 weeks, 20 hours or more per week. Our intensive schedule gives you the opportunity to make fast progress.

How do I apply?
To find out if this program is right for you, talk to us. Our staff will:

- Help you identify your career goals
- Walk you through the application process
- Administer your placement test

We look forward to speaking with you soon!
