What’s the best thing about being a College Advisor: I became an advisor because, I am standing on the shoulders of giants who took the time to grant me numerous opportunities to achieve success academically, personally, and professionally. Furthermore, advising is about passing the baton of knowledge onward. So, I must pay it forward to those who are embarking on their collegiate and vocational/occupational journeys here at Harold Washington College. Without reservation, from here (HWC), you can go anywhere.

Advice: Today you create tomorrow’s hindsight. So, take this time and opportunity to do it right. Understand and utilize the five “P’s” i.e. Proper – Preparation – Prevents – Poor – Performance!
