# Radiography 102 Research Guide

## Table of Contents

- Getting to the Library Page
- Finding Books
  - Finding Books Using the LC Call Number (Library Congress Call Number)
- Finding Articles
- Find Articles from Home
- Recommended Radiography Books
- MLA Citations
  - One-author book format
  - Book with More Than One Author
  - Article in a Reference Book (e.g. Encyclopedias, Dictionaries)
  - A Page on a Web Site
  - An Article from an Online Database (or Other Electronic Subscription Service)
- Recommended Radiography Websites
- Need help? Ask a Librarian

## Getting to the Library Page

- Go to the Wright College Library Page at [wright.ccc.edu/library](http://wright.ccc.edu/library).
- The Wright College Library page will load.
Finding Books
Use the Wright College Library catalog to search for books on the library’s shelves.

- Once on the library page click the **Find Books** link under **Start your research**.
  
  ![Find Books Link]

- The library catalog will open. Enter your **Keywords** in the search box provided.

  **What is a keyword?**
  
  A keyword is a term or phrase related to the topic you are researching.
  
  To develop keywords, think of the core ideas of your topic.
You can also do searches using the title, author, subject, call #, or ISBN/ISSN. You will see these tabs above the search box.

Finding Books Using the LC Call Number (Library Congress Call Number)

- When you find a book you would like to read in the library catalog locate the call number.

- A call number is an address for a book or other material. In LC classification, numbers before the decimal point are read in ordinary numerical sequence, but after the decimal point, they are read decimally and not as whole numbers. The following represents how these books are arranged on the shelf:
Finding Articles

- Click the **Find Articles** under **Start your research** on the library homepage.

  ![Find Articles](image)

- A new page will load. Scroll down until you see **Find Articles** which contains a list of the library’s databases.

- Click the **CINAHL & Health Science** link to open the health database search page.
- The database will load. Enter your keywords in the search box provided.

What is a keyword?

A keyword is a term or phrase related to the topic you are researching. To develop keywords, think of the core ideas of your topic.

- Some keywords you may like to try are:

  Search tip: Use AND when you want to combine search terms. AND always narrows a search.

</tbody>
</table>

- Once you have entered your keywords click the search button to submit your search.

- To find scholarly or peer reviewed articles click the check box on the left under Refine your results.

- Results will load. Click the full text link under the description of the database to open the article.
The article will open. On the right you will see the **Tools** menu.

- Click the **white envelope** to email the article.

- Click the **cite** icon to get the citation format you would use for your list of References or Works Cited page. **Note: Citations generated from the database are not completely accurate compare with a source your instructor recommends.**

- Click the **printer** icon to print the article. **Note: Do not click the print icon in the Tools menu. It does not print the full-text of the article.**
Find Articles from Home
You can access the library’s databases from home.

- Click **Find Articles from Home** link under **Start your research** on the library’s home page.

  ![Login Page](image)

  - The login page will open.

  ![Library System Patron Login](image)

  - In the **Your username** and **Your password** box enter the username and password you use for student email, Blackboard, and My.CCC.edu (the student portal).

  ![Submit Button](image)

  - Click the **Submit** button once you have entered your username and password.
Note: If you need assistance with logging in please contact the library.

- Click the **Begin your search** link to go to the list of library databases.

  ![Search Bar](image)

- The list of library databases will open. Click the linked name of the database to access it.

**Radiographic Image Analysis Workbook** (2006)  
Kathy McQuillen-Martensen  
Location: Wilbur Wright College  
Call #: REF RC78 .M3266
MLA Citations
These are examples of how to format books and articles in MLA format. These citations are included in your Works Cited page.

One-author book format
Lastname, Firstname. Title of Book. City of Publication: Publisher, Year of Publication. Medium of Publication.

Example

Book with More Than One Author
The first given name appears in last name, first name format; subsequent author names appear in first name last name format.

Lastname, Firstname, and Firstname Lastname. Title of Book. City of Publication: Publisher, Year of Publication. Medium of Publication.

Example

If there are more than three authors, you may choose to list only the first author followed by the phrase et al. (Latin for "and others") in place of the subsequent authors' names, or you may list all the authors in the order in which their names appear on the title page. (Note that there is a period after "al" in "et al." Also note that there is never a period after the “et” in “et al.”).

or

**Article in a Reference Book (e.g. Encyclopedias, Dictionaries)**
For entries in encyclopedias, dictionaries, and other reference works, cite the piece as you would any other work in a collection but do not include the publisher information. Also, if the reference book is organized alphabetically, as most are, do not list the volume or the page number of the article or item.

**A Page on a Web Site**
For an individual page on a Web site, list the author or alias if known, followed by the information covered above for entire Web sites. Remember to use n.p. if no publisher name is available and n.d. if no publishing date is given.

**An Article from an Online Database (or Other Electronic Subscription Service)**
Cite articles from online databases (e.g. Medline with Full-Text, CINAHL Plus with Full-Text, and EBSCO Academic Premier and Complete) and other subscription services just as you would print sources. Since these articles usually come from periodicals, be sure to consult the appropriate sections of the Works Cited: Periodicals page, which you can access via its link at the bottom of this page. In addition to this information, provide the title of the database italicized, the medium of publication, and the date of access.

Note: Previous editions of the MLA Style Manual required information about the subscribing institution (name and location). This information is no longer required by MLA.
