

### ACCESS TO THE TRUMAN COLLEGE BIKE ROOM

Unfortunately, every year bicycles are stolen from the outdoor bike racks located around our campus. Despite the security camera coverage of our campus, the many preventative patrols conducted, and bike locks used, there have been incidents wherein thieves were able to steal bicycles on our campus.

Fortunately, a bicycle storage facility was built into our garage structure's South side, facing Sunnyside. It is equipped with easy to use bike racks, proximity door locks, security intercom and security camera coverage. In past years, we were prevented from using this Bike Room, because our old ID card technology lacked the necessary proximity chip needed to open the Bike Room doors. Now that all of our IDs have this new technology, we are able to grant access to the Bike Room for interested students, faculty and staff who apply.

Simply fill out the form below, and deposit it at one of our Security Offices: Room 1112 in the Main Building, Room 190A or Room 191 (Photo ID) in the McKeon Building. You will be informed in person or notified by email when access to the Bike Room has been granted.
