

Address Changes or Modifications

To modify or update your address, SURS highly advises members to log into their secure website for making the necessary changes (refer to the screenshot below).

Additionally, members may contact the SURS Call Center at 800-275-7877 to request that an address change form be sent to their new address.

Access your SURS account by entering your sign-in credentials. Navigate to the 'make changes' tab—see below—and click on the specific change you wish to update.
