

District Office
All Hazards Campus Emergency Plan and
Violence Prevention Plan

September 30, 2021

Letter of Promulgation

This plan, which details District Office's All Hazards Campus Emergency Plan and Violence Prevention Plan is approved and adopted by City Colleges of Chicago, District No. 508.

This plan shall govern all emergency preparedness and planning, violence prevention policies, procedures and outreach in accordance with applicable federal and state laws.

Sincerely,

Juan Salgado
Chancellor
City Colleges of Chicago

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

Distribution List of Complete Plans

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

This plan is available electronically to all faculty, staff and students on the District Office web site at:

<http://www.ccc.edu/departments/Pages/Safety-Security.aspx>

In addition, copies have been distributed as indicated below:

- Chancellor
- Provost
- Associate Vice Chancellor-Strategic Communications
- General Counsel
- Director of Risk Management
- Associate Vice Chancellor – Administrative Services
- Chief Financial Officer
- Chief Operating Officer
- Chief Engineer

Overview

City Colleges of Chicago District Office

The City Colleges of Chicago (CCC) District Office provides oversight of the City Colleges system, which includes Daley College, Harold Washington College, Kennedy-King College, Malcolm X College, Olive-Harvey College, Truman College, Wright College, and three satellite campuses distributed throughout the city of Chicago.

Philosophy

The philosophy of District Office, derived from the philosophy of the City Colleges of Chicago as defined by the Illinois Master Plan for Higher Education and the Illinois Public Community College Act, is to accept all eligible students and to provide them with an education appropriate to their needs, that will allow them to achieve the kind of economic, cultural, and social life they desire.

Planning Approach

As part of the development of the *District Office All Hazards Campus Emergency Plan*, the City Colleges of Chicago engaged in a Security and Risk Assessment process. The objective of the Security and Risk Assessment process is to assess the current state of preparedness for dealing with terrorist and criminal threats, to identify gaps where activities fall short, and to propose measures to improve preparedness and abilities to thwart harmful acts targeting their premises.

Purpose of the Plan

The purpose of the *District Office All Hazards Campus Emergency Plan* is to describe the coordinated response and recovery to a range of natural and man-made occurrences with the potential to disrupt normal operations of the District Office and threaten the safety of District Office students, faculty, and staff. This plan contains four short and long-term strategies for implementing all hazards integrated management:

- Identify opportunities for enhancing coordination and communication within the District Office system, with the CCC system at large, as well as with state/local agencies and other industry partners.
- Provide training, education, and outreach to enhance core competencies for safety, security, and emergency preparedness throughout the College and assess the need for integrated training.
- Promote continuous improvement in safety, security, and emergency preparedness throughout the District Office system. Assess and target resources toward the most frequent types of accidents and security incidents and the most catastrophic risks to students, faculty and staff, and community members.

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

- Develop and implement continuous improvement and innovation goals for the management of existing and future programs and projects through data collection and analysis and coordinated program reviews.

These strategies are grounded in the all hazards management approach to safety and security throughout the CCC system. In this approach, programs, projects, and activities are not just related but integrated. Integration means regular communication and coordination of common concerns, strategies, and effective practices for all safety, security, and emergency management activities to ensure that improvements in one area do not duplicate or diminish functionalities in another area.

All Hazards Approach to Safety and Security Management

In addition to an integrated approach to planning, this all hazards plan is based on the framework of the four interconnected phases of emergency management: prevention-mitigation, preparedness, response, and recovery. Each phase influences the other three phases. This plan addresses emergency preparedness activities that take place during all four phases of emergency management.

1. Mitigation

As part of the City Colleges of Chicago, District Office will conduct mitigation activities as an integral part of the emergency management program. Mitigation is intended to eliminate hazards, reduce the probability of hazards causing an emergency situation, or lessen the consequences of unavoidable hazards. Mitigation should be a pre-disaster activity, although mitigation may also occur in the aftermath of an emergency situation with the intent of avoiding repetition of the situation.

2. Preparedness

Preparedness activities will be conducted to develop the response capabilities needed in the event of an emergency. Preparedness is everyone's responsibility. District Office departments and offices must develop plans and procedures to assist in the overall implementation and maintenance of emergency plans. Among the preparedness activities included in the emergency management program are:

- Providing emergency equipment and facilities.
- Emergency planning, including maintaining this plan, its annexes, and appropriate Standard Operating Procedures (SOP).

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

- Conducting or arranging appropriate training for emergency responders, emergency management personnel, other local officials, and volunteer groups who assist this jurisdiction during emergencies.
- Conducting periodic drills and exercises to test emergency plans and training.

3. Response

District Office will respond to emergency situations effectively and efficiently. The focus of most of this plan is on responding to emergencies. Response operations are intended to resolve a situation while minimizing casualties and property damage. Response activities include warnings, emergency medical services, firefighting, law enforcement operations, evacuation, shelter and mass care, Emergency Public Information, search and rescue, as well as other associated functions.

4. Recovery

If a disaster occurs, City Colleges of Chicago will carry out a recovery program that involves both short-term and long-term efforts. District Office will be part of those efforts. Short-term operations seek to restore vital services to the district community and provide for the basic needs of the public. Long-term recovery focuses on restoring the district to its normal state. The federal government, pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act, provides the vast majority of disaster recovery assistance. The recovery process includes assistance to individuals, businesses, and government and other public institutions. Examples of recovery programs include temporary housing, restoration of district services, debris removal, restoration of utilities, disaster mental health services, and reconstruction of damaged roads and facilities.

Assumptions in the Development of the All Hazards Safety and Security Plan

Emergency planning requires a commonly accepted set of assumed operational conditions that provide a foundation for establishing protocols and procedures. It is standard practice to base planning on potential worst-case conditions. For District Office, severe weather hazards pose the most probable threat of emergency conditions. Using this as a basis for planning, the following assumptions were incorporated into this plan:

- The majority of students, faculty and staff have cell phones that can be used for emergency notification.
- An emergency may occur at any time of the day or night, weekend or holiday, with little or no warning.
- Emergencies can be caused by an accident, a natural disaster, or criminal behavior by an individual or group. This can include cyber threats to the District Office.
- The succession of events in an emergency is not predictable. Therefore, this manual will serve as a guide and may require modifications in order to meet the requirements of the emergency.
- Critical lifeline utilities may be interrupted, including water delivery, electrical power, natural gas, telephone communications, microwave and repeater-based radio systems, cellular telephones, and information systems.
- Regional and local services may not be available.

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

- Major roads, overpasses, bridges, rapid transit and commuter rail transit, and local streets may be damaged.
- Buildings and structures, including homes, may be damaged.
- Structural damage may cause injuries and displacement of people.
- Contact with families and households of the CCC community may be interrupted.
- People may become stranded at the Colleges, and conditions may be unsafe to travel.
- A disaster that affects District Office will likely affect the district and the surrounding community, including the city of Chicago and Cook County proper. Therefore, city, county, and federal emergency services may not be available.
- District Office and the CCC will not receive outside assistance in rapid damage assessment and will need to conduct its own situation analysis and deployment of on-site resources and management of emergency operations in the district while emergency conditions exist.
- Communication and exchange of information will be one of the highest priorities for the District Office Emergency Operations Center (EOC).
- In the event of an emergency, communications between colleges, campuses and District Office may be impaired or lost. District Office will establish a designated emergency operations center and emergency response plan.
- If a major incident occurs at the District Office, the Chicago Police Department or the Chicago Fire Department will upon arrival assume control of the situation.

Explanation of Terms

The Incident Command System: Defines the operating characteristics, management components, and structure of emergency management organizations throughout the life cycle of an incident.

Multi-agency Coordination Systems: Defines the operating characteristics, management components, and organizational structure of supporting entities.

Public Information System: Includes the processes, procedures, and systems for communicating timely and accurate information to the public during emergency situations.

CCC Emergency Command Center: Certain incidents may require activation of the District's Emergency Command Center operations. This group of district officials will meet at a specified emergency command center (ECC) designated by the Incident Commander and exercise command and control of the incident. Several emergency operation centers (EOCs) may be established during an emergency. These EOCs are special facilities that will allow District Office and campus officials to direct and coordinate necessary resources and personnel.

Emergency Public Information: Information that is disseminated to the public via the news media before, during, and/or after an emergency or disaster.

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

Hazardous Material (Hazmat): A substance in a quantity or form posing an unreasonable risk to health, safety, and/or property when manufactured, stored, or transported. The substance, by its nature, containment, and reactivity, has the capability for inflicting harm during an accidental occurrence.

Inter-local Agreements: Arrangements, including mutual aid agreements, between the City Colleges of Chicago and governments or organizations, either public or private, for reciprocal aid and assistance during emergency situations where the resources of a single jurisdiction or organization are insufficient or inappropriate for the tasks that must be performed to control the situation.

Standard Operating Procedures (SOP): Approved methods for accomplishing a task or set of tasks. SOPs are typically prepared at the department or agency level.

Emergency Situation: As used in this plan, this term is intended to describe a range of situations, from a minor emergency to a major disaster.

Acronyms

The following is a representative list of acronyms for titles, organizations, functions, teams, committees, and materials that may be encountered during an incident or in responding to an incident at District Office.

AHCEP&VPP: All Hazards Campus Emergency Plan and Violence Prevention Plan

BEM: Building Emergency Manager

CFR: Code of Federal Regulations

AVD: Associate Vice Chancellor of Strategic Communications

ECC: Emergency Command Center

EOC: Emergency Operations Center

FEMA: Federal Emergency Management Administration

GC: General Counsel

Hazmat: Hazardous Material

IC: Incident Commander

NIMS: National Incident Management System

OEMC: Office of Emergency Management and Communications

PIO: Public Information Officer

SIT: Supportive Intervention Team

SOPs: Standard Operating Procedures

Objectives and Goals

The goals of the *District Office All Hazards Campus Emergency Plan* are as follows:

- To provide maximum safety and protection for students, visitors, faculty, and staff.
- To ensure that all individuals requiring medical attention in an emergency situation are attended to promptly and efficiently.
- To provide a chain of command to enable maximum use of resources, both within the District Office system and with district, community, and jurisdictional partners.
- To maintain or restore essential services as quickly as possible following an emergency incident or disaster.
- To protect property, facilities, and equipment.

Community Profile

A number of local and regional authorities, community partners, and first responders help to make up the District Office emergency response team. These include CCC district officials and staff, the Chicago Office of Emergency Management and Communications, the Chicago Police Department, the Chicago Fire Department, and local hospitals.

Concept of Operations

The *District Office All Hazards Campus Emergency Plan* is designed to provide a framework and guidance for coordinated response to minor emergencies, major emergencies, and disasters. This plan does not replace the procedures for safety, hazardous material response, or other emergency measures already established at the District Office. Instead, it supplements these existing procedures with a temporary crisis management structure, which provides for an immediate focus on response operations and an early transition to recovery operations.

The *District Office All Hazards Campus Emergency Plan* is an “all-hazards” document. In other words, it contains concepts, policies, and procedures that apply regardless of the nature or origin of an emergency or disaster, and it is not designed to address unique conditions that result from a particular hazard or event. The plan does, however, provide a framework within which emergency operations staff and other relevant department and agency personnel work together.

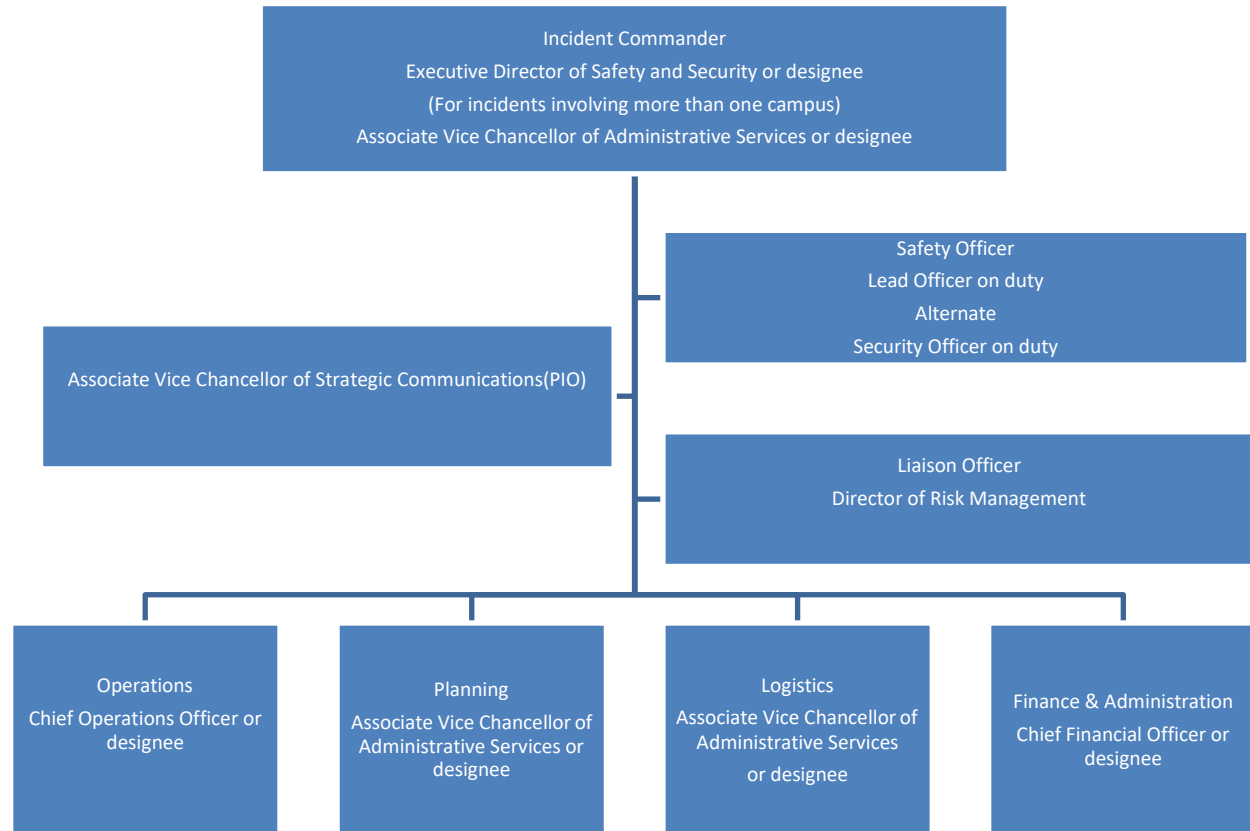

Because this plan is designed as a flexible management system, part or all of it may be activated as appropriate to a situation. Although it is based on a worst-case scenario and provides for the critical functions and roles of District Office during disaster response, its general procedures for the management of information, activities, and operations can be applied as needed during any level of emergency.

The planning in this manual is based on the Incident Command System, a management structure adopted throughout the U.S. and international communities. It also stems from the National Incident Management System and various U.S. Department of Homeland Security Presidential Decision Directives. Accordingly,

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

this plan’s approach to emergency management is rooted in a four-phase structure: mitigation, preparedness, response, and recovery. Each of the phases contains a critical district or college procedure for emergencies. This provides for a smooth transition to restoring normal services and implementing recovery programs.

The City Colleges of Chicago has established an incident command system. In an emergency, the CCC would initiate the incident command system. The CCC incident command system is consistent with National Incident Management System requirements. The CCC incident command system is composed of the Incident Command, command staff, and general staff as shown below.

In an emergency, District Office staff will participate in the CCC District incident command system as directed and appropriate, in alignment with the *District Office All Hazards Campus Emergency Plan*. In the event of an emergency, the District Office internal incident command system will become operational.

Line of Communication and Succession

For emergencies requiring localized response within the District Office system itself, staff members will follow NIMS Incident Command protocol. The District Office Incident Commander is in charge of the response and staff report to the Incident Commander for the duration of the response. The Incident Commander will be the Executive Director of Safety and Security when the incident only impacts the District Office. For incidents involving more than one campus in the CCC system or the scope of the emergency is such that additional external resources are required, the Associate Vice Chancellor of Administrative Services will be the Incident Commander.

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

When incidents require first responders, a unified command structure led by the first responders will be in place. When first responders become involved, the CCC Incident Commander will transfer command to the Unified Command. When the incident response is concluded, command will be transferred back to the CCC Incident Commander, who depending on the nature of the incident and response, may or may not transfer command to the District Office Incident Commander.

The line of succession for District Office is as follows:

- Chancellor
- Chief of Staff

The line of succession for the Associate Vice Chancellor of Administrative Services is as follows:

- Executive Director of Safety and Security
- Director of Security Operations and Compliance

The lines of succession for each department will be in accordance with the SOPs established by those departments.

Plan Development, Review, and Maintenance

The *District Office All Hazards Campus Emergency Plan* will be reviewed annually and revised as appropriate and necessary. The Associate Vice Chancellor Administrative Services is responsible for plan changes, updates, and revisions and will ensure that plan changes are communicated and distributed appropriately.

Interim revisions will be made when one of the following occurs:

- A change in a college site or facility configuration that materially alters the information contained in the plan or materially affects implementation of the plan.
- A material change in response resources.
- An incident occurs that requires a review.
- Internal assessments, third party reviews, or experience in drills or actual responses identify significant changes that should be made in the plan.
- New laws, regulations, or internal policies are implemented that affect the contents or the implementation of the plan or other changes deemed significant.

Levels of Emergency and Response

The City Colleges of Chicago defines and classifies emergencies using a three-level system. Each classification or level of emergency has a corresponding level of response, according to increasing severity. The severity of an incident will be identified by the incident commander (IC) or the first qualified individual to arrive at the scene of the incident. The severity level of the incident may increase or decrease during

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

response activities, requiring the level of response to be adjusted. The severity of an incident is determined by the threat to the safety of the District Office community and property, as well as the ability of the CCC to handle the incident.

- **Level 1 Emergency:** A minor emergency situation that is limited in scope and potential effects, which involve:
 - A limited area and/or limited population.
 - An evacuation or in-place sheltering, typically limited to the immediate area of the incident.
 - The provision of warnings and public instructions in the immediate area, not district-wide.
 - Incident management by one or two local response agencies or departments acting under the IC, with requests for resource support being handled through agency and/or departmental channels and limited external assistance from other local response agencies or contractors.
- **Level 1 Response:** Level 1 incidents/events are the least severe of the three levels of emergencies. Normal district response services will be able to deal with the incident/emergency without activation of an EOC. The incident may result in minor injury to members of a college campus or District Office community and minor damage to district facilities, and will affect a single localized area.
- **Level 2 Emergency:** A major emergency situation that is larger in scope and more severe in terms of actual or potential effects than a Level 1 Emergency. Characteristics of a Level 2 Emergency include:
 - A large area, significant population, or important facilities.
 - The implementation of large-scale evacuation or in-place sheltering, and implementation of temporary shelter and mass care operations.
 - District-wide warning and public instructions.
 - A multi-agency response operating under the IC.
 - External assistance from other local response agencies, contractors, and limited assistance from state or federal agencies.
 - Activation of the ECC and one of the EOCs to provide general guidance and direction, coordinate external support, and provide resource support for the incident.
- **Level 2 Response:** Level 2 incidents/events require activation of one or more EOCs, with the possibility of activating the ECC. Coordination between several district departments will be required for an effective response to the incident. The incident may result in major damage to district facilities or severe injury to members of the District Office or campus community. A Level 2 incident may affect one or more areas of the District Office or campuses.

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

- **Level 3 Emergency:** A disaster involving the occurrence or threat of significant casualties and/or widespread property damage that is beyond the capability of the district and local government to handle with its organic resources. A Level 3 Emergency involves:
 - A large area, sizable population, and/or important facilities.
 - The implementation of large-scale evacuation or in-place sheltering, and implementation of temporary shelter and mass care operations.
 - Community-wide warning and public instructions.
 - Response by multiple local response agencies operating under one or more IC(s).
 - Significant external assistance from other local response agencies, contractors, and extensive state or federal assistance.
 - Activation of the ECC and EOCs to provide general guidance and direction, provide emergency information to the public, coordinate state and federal support, and coordinate resource support for emergency operations.
- **Level 3 Response:** Level 3 incidents/events are those in which disaster conditions are present. Response will require activation of numerous EOCs and activation of the ECC. A Level 3 incident may result in major damage to several district facilities, mass casualties, and severe injury to members of the CCC community. The incident will not be localized to a single area and may affect the entire district. The district may need to request assistance from several external support teams at the local, state, and federal level in order to properly respond to the incident.

Emergency Plan Activation

An emergency is an unplanned event or incident that can shut down operations and cause physical or environmental damage, cause significant injury or death to employees, students, visitors, or the public, or threaten District Office's public image. Emergency management is the process of preparing for, mitigating, responding to, and recovering from an emergency. The *All Hazards Campus Emergency Plan and Violence Prevention Plan* is the cornerstone of this process and provides for a coordinated response and a clear line of command.

The following will trigger implementation of this emergency operations plan:

- Notification of a District Office emergency to the Associate Vice Chancellor of Administrative Services, Executive Director of Safety and Security, senior staff, and/or other appropriate individuals by Safety and Security personnel.
- Notification of a District Office emergency by a reliable source of information.
- A routine outage response that escalates and is deemed major by the Engineering Department.
- Severe weather-related problems that threaten campus operations.
- A major crisis, either man-made or natural.

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

Should an emergency occur requiring the activation of this emergency plan, an Emergency Operations Center (EOC) may need to be established. The Associate Vice Chancellor Administrative Services or designee will establish the EOC and assume the role of Incident Commander (IC). Should the emergency require the implementation of an Emergency Command Center, the Associate Vice Chancellor of Administrative Services or designee will establish the ECC and assume the role of IC.

Communication concerning the activation of the emergency plan, the establishment of the EOC or ECC, and pertinent ongoing messages concerning the emergency will be sent through the CCC Alert system to inform employees, students, and visitors in the affected areas. The communication will include instructions for action. Emergency notifications are prepared and maintained by the Associate Vice Chancellor Strategic Communications to facilitate prompt and thorough communication.

Should the incident affect telephone and computer systems, communication will take place through the Security personnel and Floor Leaders in the affected area via verbal communication, bullhorns and radios.

Hazard Profile and Vulnerability Assessment

CCC District Office Facilities

The District Office occupies the 2nd and 3rd floors and is housed in one 8-story building situated in the Chicago Loop, the second-largest central business district in the United States. The CCC District Office is located next to the State and Lake EL train, across the street from the Chicago Theater, just blocks from Millennium Park (The Bean) and is around the corner from Harold Washington College.

Hazard Identification

As part of the Security and Risk Assessment Process, District Office continually identifies potential hazards that may pose a threat to the students, faculty, staff and visitors of the District Office. These potential hazards have been identified through a process of survey and information gathering as well as on-site observation and analysis.

Preventive and Mitigation Measures

As part of the district Security and Risk Assessment process, the College and the CCC system staff will identify preventive and mitigation measures deemed necessary to reduce the possibility of threat at the

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

District Office. In addition, following any crisis, District Office and CCC will evaluate the incident and response to determine if additional preventive and mitigation measures need to be implemented.

District Office could be affected by natural and man-made hazards which include: tornados and other severe weather, fires, hazardous materials spill, campus violence, contagious diseases, and acts of terrorism. The following table details the risk analysis:

Hazard Type	Risk Level			
	Low	Medium	High	Extreme
Tornado	X			
Severe storm	X			
Bomb Threat or Explosion	X			
Utility failure	X			
Fire	X			
Hazardous materials spill	X			
Violence on campus	X			
Health Emergency	X			
Structural collapse	X			

Core Functional Annexes

Direction and Control

Every District Office student, faculty and staff member plays a role in a campus emergency. All students, faculty and staff are expected to be familiar with emergency procedures required by the *All Hazards Campus Emergency Plan*. This will be accomplished through training and exercises as mandated by the Campus Safety Enhancement Act.

City Colleges of Chicago maintains the district emergency command center (ECC) and the emergency operations centers. During district-wide emergencies, the ECC serves as the command center for the CCC's response and recovery operations. A variety of communications tools are employed by the ECC and EOCs to aid in the receipt and release of vital information. The ECC/ EOC bring together decision makers to coordinate the flow of information and strategy development. A variety of organizations and government agencies may be represented during an ECC or EOC activation, depending on the type and severity of emergency.

Campus emergencies are typically reported to District Office Safety and Security first. This could be through the Chicago Office of Emergency Management and Communications, on-campus emergency phones, local phones, weather radios, weather sirens, or other means. The Safety and Security staff on duty will contact the Associate Vice Chancellor of Administrative Services or designee immediately when the reported incident is expected to have campus-wide impact or involve many resources or multiple hours of time to mitigate.

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

When the director designee determines that the incident falls into the category of major emergency as defined in the *All Hazards Campus Emergency Plan and Violence prevention plan*, he or she will immediately contact members of the Campus Response Team. If the director or designee determines that the threat to the campus is imminent, any one member of the Campus Response Team thus contacted has the authority to activate this plan.

The district's emergency facilities involve the following aspects:

The District Office Emergency Command Center

- The EOC will be located at the Security Desk on the second floor.

The District Office Campus Response Team

The following are the members (or their designee) of the District Office Campus Response Team:

- Associate Vice Chancellor-Administrative Services
- Provost
- Associate Vice Chancellor-Strategic Communications
- General Counsel
- Director of Risk Management
- Chief Financial Officer
- Chief Engineer

General Campus Response Team Responsibilities

- The team will assess the nature and severity of the threat and develop an appropriate plan of response. Team members will be assigned specific responsibilities related to the plan of response. The response plan may include, at a minimum, description of the identified warning signs, establishment of a potential threat risk level, additional investigation as necessary, provision of support services if appropriate, case preparation for hearings as appropriate, and dissemination of warning information.
- The chairperson will oversee the implementation and completion of the action plan and will team progress to committee members and others as needed.
- The team will conduct a final review and evaluation of each case, with follow-up assignments to monitor the progress of the case as appropriate.
- The chairperson will be responsible for overseeing the preparation and proper maintenance of case records. Case records will be maintained as follows:
 - For students, in the Office of the Dean of Students.
 - For faculty, in the Office of Instruction.
 - For staff and members of the public, in the Office of Human Resources.

Emergency Operations Center

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

Upon the occurrence of an incident, an incident command post, referred to in this plan as an Emergency Operations Center (EOC), will be established in the vicinity of the incident site(s). The IC will be responsible for directing the emergency response and managing the resources at the incident scene. The IC will also determine if any other EOCs need to be established.

ECC Activation

The following individuals are authorized to activate the ECC:

- The Associate Vice Chancellor of Administrative Services or designee.

The Associate Vice Chancellor of Administrative Services or designee will serve as the Incident Commander (IC). The IC is responsible for determining, prioritizing, and coordinating all response actions and providing emergency information and communications to CCC district staff and the campus community as appropriate. The IC will utilize appropriate and applicable communications methods as outlined in the Communications Annex of this document.

- The Associate Vice Chancellor of Administrative Services or designee will implement the response actions and will work with Safety and Security personnel to alert and direct the Building Emergency Managers.
- The Building Emergency Managers will direct faculty, staff, and students during an emergency response, including an evacuation, shelter-in-place, or lockdown. The BEMs will report status and activities to the Associate Vice Chancellor of Administrative Services during an emergency response.
- Safety and Security personnel will provide direction, assistance, and communication to BEMs during an emergency response. Safety and Security personnel will also assist first responders, should they be involved in the emergency response.
- The Associate Vice Chancellor of Administrative Services or designee will provide information about available resources and incident status, as well as assist in developing strategies for response.
- The IC will utilize the CCC Alert system to inform students, faculty, and staff in an affected area about the emergency situation and the response, including instructions for action. The District Director of Communications maintains prepared emergency notifications to help facilitate prompt and effective communication during an emergency response.
- In the event that telephone and communications systems are down, communication will take place through the BEMs. Contact will be made with those in the affected area through radio and verbal communication.

General ECC/EOC Responsibilities

The general responsibilities of all ECC/EOCs are to:

- Assemble accurate information on the emergency situation and current resource data to allow local officials to make informed decisions on courses of action.
- Determine and prioritize required response actions and coordinate their implementation,

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

working with representatives of emergency services.

- Provide resource support for emergency operations.
- Suspend or curtail services, or recommend the closure of schools and the cancellation of public events.
- Organize and activate large-scale evacuation and mass care operations.
- Provide emergency information to CCC district staff.

ECC/EOC Staffing

- Representatives of those departments and agencies assigned emergency functions in the District Office Emergency Response Manual will staff the ECC and appropriate EOCs.

Communications

Rapid and timely communication of information to the District Office during emergency situations is critical. In addition, accurate and timely communication of information to incident response personnel is required for adequate response to emergency incidents. City Colleges of Chicago utilizes several means of communication in managing varying levels of incidents. The CCC Alert system is the primary means of communication to all members of the CCC community in the event of an emergency. This system can be activated by the Associate Vice Chancellor of Strategic Communications at the District Office or by the following District Office officials: the Associate Vice Chancellor Administrative Services or their designee.

Through CCC Alert, students, faculty, and staff can receive emergency alerts via email to CCC and personal e-mail accounts, phone calls to mobile and home phone numbers, and text messages to mobile phone numbers. The CCC Alert system will be tested for proper functionality three times per year at the beginning of each semester and summer session in accordance with the Office of Safety and Security. It is the responsibility of each member of District Office and departments involved in emergency management to be familiar with these means of communication. Individuals must also ensure that their personal contact information and the contact information of their subordinates is up to date and accurate in order for proper communication. Discrepancies in contact information will be addressed as soon as possible.

Public Address System

Speakers are located on every floor of the District Office campus in order to alert students, faculty, staff, and visitors on District Office grounds of an emergency. Both warning lights and P.A. System messages will be used to direct students, faculty, staff, and visitors to take planned actions specific for the emergency.

District Office/College Group E-mail

As part of the CCC Emergency Alert System, mass e-mails will be used to provide students, faculty, and staff with information regarding potential threats to the safety and security of the campus community. E-mails will also be used as a way to notify students, faculty, and staff of emergency situations and keep them updated on the situation. The district employs the following types of e-mails:

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

- **Informational:** Any communication that increases the awareness of campus activities, events, or services (e.g., parking disruptions).
- **Operational:** Communication that requires some action on the recipient's part or a required notification by the district (e.g., a message about benefits eligible information).
- **Official:** A non-urgent communication from an executive officer (e.g., a message from the chancellor).
- **Urgent:** An urgent announcement from an executive officer regarding an imminent event, such as the school closing.

Local Media

City Colleges of Chicago sends press releases and makes calls to contacts on a local media list. Because of the transient nature of our population, the district leverages media to notify students, faculty, and staff of emergencies before or during their commutes.

Text Messaging

CCC emergency officials have the ability to disseminate important information via text message directly to the cell phones of users subscribed to the service. This provides emergency officials with another option to communicate with District Office faculty, staff, and students during a crisis.

Voicemail to Office, Home, and Mobile Telephones

This tool leaves a voice message on every faculty and staff member's office phone on campus as well as voice messages to home and mobile phone numbers as provided through CCC Alert.

Telephone Tree

Certain District Office offices implement a telephone tree of departmental contacts that is initiated during an emergency.

Warning

Primary responsibility for these functions is assigned to the campus emergency communications center as supervised by the Associate Vice Chancellor of Administrative Services or their designee and/or the Director of Communications. Emergency tasks to be performed include the following:

- Receive information on emergency situations.
- Alert key district officials of emergency situations.
- Disseminate warning information/instructions to District through available warning systems.
- Disseminate warnings and instructions to special facilities.
- Provide updates to the campus community as directed.

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

In the event of an incident or emergency, the Associate Vice Chancellor of Administrative Services or their designee is responsible for notifying District Office staff so that warnings can be communicated throughout the CCC system as appropriate. The Director of Security or designee announces campus emergency warnings and evacuations via the campus public address system.

Emergency Public Information

Primary responsibility for these functions is assigned to the director of communications who will prepare and maintain the Communications Annex of this plan and supporting SOPs. Emergency tasks to be performed include the following:

- Identify the external communications systems available within the local area and determine the connectivity of these systems.
- Develop plans and procedures for coordinated use of the various communications systems available outside and within the district.
- Determine and implement means of augmenting communications during emergencies, including Support by volunteer organizations.

Evacuation

Primary responsibility for these functions is assigned to the Vice Chancellor of Safety and Security or designee, who will maintain the *College and Campus Emergency Plans* and supporting SOPs. Emergency tasks to be performed include the following:

- **Building Emergency Manager (BEM) Responsibilities:** The Associate Vice Chancellor of Administrative Services or designee will serve as the Building Emergency Manager, and alternate managers should be assigned to perform BEM functions when the primary manager is not available. The BEM is responsible for the following planning activities:
 - Developing an evacuation plan for her/his building.
 - Assigning personnel to perform various evacuation functions.
 - Maintaining a written copy of the evacuation plan.
 - Training building occupants in the evacuation plan.
 - Conducting periodic evacuation drills.
 - Revising the evacuation plan as necessary.
 - Assigning and training floor managers (FM).
 - Assigning and training sector coordinators (SC) when necessary.
- **Faculty Responsibilities:** Faculty members are responsible for notifying their floor/department leader of students who require evacuation assistance. Faculty members are responsible for ensuring that students who require evacuation assistance report to their designated staging area. Faculty members should ensure disabled students are being assisted and notify Safety and Security if students requiring assistance are at the staging area. It is the responsibility of all district faculty members to point out their building emergency evacuation routes and emergency procedures to students at the beginning of each semester.

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

- **Staff Responsibilities:** Upon activation of the building alarm, designated staff members are responsible for ensuring that occupants with special evacuation needs are aware of the alarm condition and respond to their designated staging area. The floor or department leader is responsible for assigning personnel to perform this function.
- **Evacuation Functions:** Primary responsibility for these functions is assigned to the Vice Chancellor of Safety and Security or designee who will prepare and maintain the Evacuation plan and supporting SOPs. To ensure safe evacuation during a high-level emergency or disaster, the Associate Vice Chancellor of Administrative Services or designee shall:
 - Identify areas where evacuation has already taken place or where it is necessary, and determine at-risk population.
 - Perform evacuation planning for known risk areas, including route selection and determination of traffic control requirements.
 - Develop simplified planning procedures for ad hoc evacuations.
 - Determine emergency public information requirements, coordinated with District Communications Director.

Special Populations

Students, Faculty and Staff with Disabilities

Students, faculty, and staff with disabilities who need assistance exiting the building are asked to provide a copy of their schedule and/or office location to the head of the Disability Access Center. The District Director of Specialized Student Services and Wellness Center provides a list of locations of people with disabilities to the District Office Security Office. Faculty and staff are to ensure that people with disabilities are being assisted during an emergency or evacuation.

Shelter-in Place

- A. Purpose: Implemented whenever it is safer inside than outside the building, such as in the case of outdoor fire, explosion, hazardous material spill/emission, or severe weather, and an evacuation or dismissal would place students and staff at risk.
- B. Alarm: A "Shelter in Place" order is issued via intercom, telephones, CCC Alert, email, radio or in person.
 - All Occupants -- students, teachers, staff, contractors and visitors – in the building must proceed to interior Safe Locations.
 - Staff and students who are outdoors, MUST RETURN TO THE BUILDING and proceed to the interior Safe Locations.
 - The Interior Safe Locations will be the hallways, classrooms, and offices, which are not exposed to exterior windows or doorways.
 - The Building's Elevator CANNOT BE USED during an Emergency.

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

All Occupants will be notified when it is safe to return to normal activities by the PA system and CCC Alert.

Lockdown

- A. Purpose: A “lockdown” is a temporary sheltering technique utilized to limit civilian exposure to imminent threat of violence. A lockdown will be made only if there is a serious risk of danger to staff, faculty and students. The general purpose of a lockdown is to convert a building into a large “Safe Room.” The decision to initiate building lockdown procedures may be at the discretion of University officials or in response to a request by local law enforcement officials.
- B. Alarm: A “Lockdown” order is issued via intercom, telephones, CCC Alert, email, radio or in person.
- C. Expectations
- All Occupants - students, teachers, staff, contractors and visitors – in the building(s) where emergency conditions exist must remain inside their respective classroom or office.
 - Staff and Students- who are outdoors, must remain outside of the building(s) and proceed to the designated Alternative Safe Location.
 - Staff and Students who are not inside a classroom or office where the emergency condition exists, must proceed immediately to the nearest classroom or office.
 - All Educators and Staff lock or block the doors and windows of your respective classroom or office.
- D. Responsibilities of Safety and Security
- In the event of a situation requiring the initiation of building lockdown procedures Safety and Security personnel will perform the following tasks to the extent possible:
- Declare and initiate the lockdown.
 - Activate appropriate emergency notification systems.
 - Immediately respond to the scene.
 - Contact and coordinate with the Chicago Police Department.
 - Provide security for the scene, lock and secure perimeter building doors with assistance from facility staff as needed.
 - Attempt to discourage building occupants from exiting the building.

Health Emergency

The City Colleges of Chicago has formulated a Health Emergency Response Plan to address the multiple levels of public safety and college operations should a health emergency occur. The primary concern of this plan is the health and welfare of the entire CCC community. This plan provides general and specific guidelines that will inform the college’s response to a health emergency. This plan summarizes key considerations provided by numerous governmental, medical and emergency response

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan
agencies including the Chicago Department of Public Health (CDPH) and the Centers for Disease Control and Prevention (CDC).

The City Colleges of Chicago will promote the daily practice of everyday preventive actions at all times and will use messages and materials developed by credible public health sources, such as the CDPH or CDC. Public Health officials recommend everyone who is able be vaccinated against the COVID-19 virus, get an annual flu shot and follow certain basic prevention guidelines, including:

- Stay home when you are sick.
- If you have been directed to quarantine by anyone, including a public health official, your employer or CCC's Office of Safety and Security, stay home. Do not come to campus until you have met the return guidelines provided to you.
- when entering and exiting CCC facilities, in lounges, elevators, Wear a face mask that covers your nose and mouth in all CCC public and common areas, such as restrooms, and classrooms, as well as any time in which social distancing cannot be maintained
- Wash your hands with soap and water for at least 20 seconds. If soap and water are not available, use an alcohol-based hand sanitizer
- Avoid touching your eyes, nose and mouth with unwashed hands.
- If you are unvaccinated, participate in the weekly COVID-19 testing mandated by the state of Illinois

The City Colleges will implement all officially recommended public health measures to limit the spread of illness and remove obstacles to student, faculty, staff and employee compliance with these recommendations whenever possible.

In the event a student, employee, visitor or staff member shows the symptoms or states they actually have the related illness, he or she will be informed to return home and seek immediate medical attention. They may only return to CCC once they have met the CDC return guidelines as explained to them by CCC Safety and Security. If the person is unable to physically return home, the Chicago Fire Department (CFD) will be called to assist. The person would then be escorted into isolation into Conference Room #242 until the arrival of CFD. The purpose of the isolation and location of the isolation room is to limit the amount of potential exposure to other individuals. The isolation room will be cleaned and disinfected following use for this purpose. In the event an individual affirms that they have the related illness and refuses to self-isolate, the CDPH will be notified immediately for further instructions. CCC Safety and Security will contact CPD to remove the individual from the campus, if necessary. Notifications will also be immediately made to the AVC of Administrative Services, AVC Strategic Communications and Marketing, Executive Director of Safety and Security, District Director of Specialized Student Services and Wellness Center, as well as the President, Wellness Center and Student Services of the affected campus. If the person is an employee, the VC of Human Resources and campus Human Resources will be notified.

In the event that a person tests positive for the COVID-19 virus and has been on campus within the previous 14 days, CCC's Office of Safety and Security will conduct contact tracing to determine if any individuals have been in close contact on campus at a time when the person may have been contagious. Safety and Security will identify, based on the best available information while also protecting the privacy of the subject, any individuals that were within six (6) feet for fifteen (15) minutes or more in a single day. If close contacts are identified, they will be notified by CCC Safety and Security and provided with the current public health guidance. Written return guidelines will be provided to both the individual that tested positive and close contacts, and notifications will be made to the Deans of Student Services (for students) and HR (for employees). Notification will also be made to the CDPH for review and confirmation of all actions taken, and a general announcement will be made to the college.

The Chancellor, in collaboration with the Provost, VC of Human Resources, and local and state public health officials will:

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

- Develop ways for instruction to continue in-person and/or remotely due to a health emergency, wherever possible
- Suspend face to face or in-person teaching activities and/or other mass gatherings when deemed necessary in accordance with public health guidance
- In some extreme instances, it may be necessary to close the affected campus temporarily, if directed to do so by the CDPH
- Develop employee attendance and sick leave policies, identify critical job functions and positions, and plan for alternative coverage, if necessary

It is the responsibility of the Marketing and Communications department and Safety and Security to identify and respond to health emergency concerns and issues promptly to communicate proactively, openly, accurately and consistently with the City Colleges multiple audiences. Marketing and Communications will:

- Along with the Chancellor's office, Provost, Student Services, and Safety and Security, deliver public health messages to City Colleges students, faculty and staff.
- Follow the lead of the Chicago Public Health Department and communicate as needed to inform City Colleges students, faculty, and staff of the health emergency and maintain consistent and up-to-date communication.

Mass Care

Primary responsibility for these functions is assigned to the Incident Commander or designee, who will coordinate efforts with internal and external partners. Emergency tasks to be performed include the following:

- Performing emergency shelter and mass care planning.
- Coordinating and conducting shelter and mass care operations with other departments, relief agencies, and volunteer groups.

Health and Medical Services

The purpose of Health and Medical Services is to manage, direct and control the provision of medical and counseling services in the event of a major campus emergency.

In the event of a major campus emergency, the District Office Wellness Center and Student Affairs shall assume primary control for the purpose of making medical care and crisis counseling services available to students and Human Resources will be responsible for staff and members of the District Office community.

Upon the declaration of a major emergency, the Associate Vice Chancellor of Administrative Services or designee may assign an employee of Student Affairs and Human Resources to report to the EOC. Safety and Security officers will assist arriving first responders for the aid of seriously injured or suddenly ill students and staff members to be transported to the nearest hospital by Chicago Fire Department.

In addition, the District Office will coordinate with local authorities and emergency medical providers and follow their directives as to the provision of essential medical care and sanitation services.

Mortuary Services

The purpose of the Mortuary Services is to assist families of District Office students and employees in the

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan
event of a major campus emergency resulting in casualties.

In the event that mortuary services are necessary, Safety and Security, Administrative Services and Student Affairs will coordinate with local authorities, including but not limited to the Chicago Police Department, Chicago Fire Department and Cook County Medical Examiner's Office.

Resource Management

Primary responsibility for these functions is assigned to the Associate Vice Chancellor of Administrative Services. Emergency tasks to be performed include the following:

- Maintaining an inventory of emergency resources.
- Locating supplies, equipment, and personnel to meet specific needs during emergency operations.
- Maintaining a list of suppliers for supplies and equipment needed immediately in the aftermath of an emergency.
- Establishing emergency purchasing procedures and coordinating emergency procurements.
- Establishing and maintaining a personnel reserve, and coordinating assignment of reserve personnel to departments and agencies that require augmentation.
- Coordinating transportation, sorting, temporary storage, and distribution of resources during emergency situations.
- Establishing staging areas for resources if required.
- Identifying to the Donations Management Coordinator those goods, services, and personnel that are needed during emergency operations.
- Maintaining records of emergency-related expenditures for purchases and personnel.

Campus Violence Prevention Plan

District Office is committed to a safe, secure, non-violent environment for all students, faculty, staff, and visitors. This plan represents the college's policy on the prevention and reduction of violence. The District Office Violence Prevention Plan (VPP) is based on principles of early intervention and engagement to prevent violence.

In order to help ensure a safe, secure, non-violent environment, District Office has developed a comprehensive Violence Prevention Plan. In developing the plan, District Office followed the policies, guidelines, and statutes listed below.

Members and Structure

As part of the District Office VPP, a designated Violence Prevention Committee, Supportive Intervention Team, and a Campus Response Team have been formed. The Committee members and structure are

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan outlined below.

Violence Prevention Committee

The Violence Prevention Committee serves as a resource to provide support, assistance, research, and policy review in regard to violence prevention on campus. As a part of this plan, the Violence Prevention Committee shall be responsible for the following:

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

- Incorporating violence prevention strategies into related policies and/or procedures.
- Encouraging zero tolerance policy statements that reaffirm violence prevention strategies.
- Integrating existing campus programs and policies that deal with associated issues.e.g., Workplace violence, suicide prevention, anti-bullying, stigma reduction, sexual assault prevention.
- Evaluating physical facilities and grounds and making recommendations to improve safety and further the goal of violence prevention.

The committee shall develop strategies toward the prevention of violence on campus, which may include but not be limited to determining methods of communication and education of the District Office community with regard to violence prevention, safety measures, and environmental security enhancement of college and district property.

The District Office Violence Prevention Committee Members may include representatives from the following departments:

- Safety and Security
- Provost or designee
- Student Services and Wellness Center
- Human Resources
- Administrative Services
- Chief Engineer

Supportive Intervention Team

District Office SIT conducts behavioral threat assessments for persons who might pose a safety risk to themselves or others. Each college's SIT is a collaboration among key college departments and engages the college's resources to:

- Investigate concerning behavior and assess the level of threat.
- Develop and implement an intervention plan for the safety of all.
- Identify sources of support for the person of concern
- Provide ongoing support and monitoring

The following individuals may be members of the District Office Supportive Intervention Team:

- Executive Director of Safety and Security
- Director of Operations for Safety and Security
- Director of Human Resources

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

- District Director of Specialized Student Services and Wellness Center
- Director of Risk Management
- General Counsel

Campus Response Team

The Campus Response Team at District Office is chaired by the Associate Vice Chancellor of Administrative Services. Members of the team are appointed by the Associate Vice Chancellor of Administrative Services. The Campus Response Team provides response and coordinates support services in the event of a crisis or emergency. The Campus Response Team will meet once a semester or whenever appropriate to review issues related to crisis or emergency response.

The District Office Campus Response Team is responsible for the following:

- The committee will assess the nature and severity of the threat and develop an appropriate plan of response. Committee members will be assigned specific responsibilities related to the plan of response. The response plan may include, at a minimum, description of the identified warning signs, establishment of a potential threat risk level, additional investigation as necessary, provision of support services if appropriate, case preparation for hearings as appropriate, and dissemination of warning information.
- The chairperson will oversee the implementation and completion of the action plan and will communicate progress to committee members and others as needed.
- The committee will conduct a final review and evaluation of each case, with follow-up assignments to monitor the progress of the case as appropriate.

The members of the District Office Campus Response Team may include the following:

- Associate Vice Chancellor of Administrative Services
- Provost or designee
- Associate Vice Chancellor of Strategic Communications
- General Counsel
- Director of Risk Management
- Chief Financial Officer
- Chief Engineer

Regional Task Force –Violence on Illinois Campuses Elimination Strategies (VOICES) Program

Member of the Cook County State’s Attorney Task Force meeting quarterly to address concerns about Prosecutorial practices, promote collaboration with law enforcement as well as educate community Stakeholders at large on current practices that are occurring in the county. Also convened is the Cook County Sexual Assault Advisory Group targeting college administrators and Title IX coordinators.

The Title IX District Director is a member of the regional Cook County Violence on Illinois Campuses Elimination Strategy (VOICES) Program to include the combined Cook County Domestic Violence and Sexual Assault Unit into the Special Division on Sexual Assault and Domestic Violence.

Prohibited Conduct and Sanctions

As part of the City Colleges of Chicago, District Office prohibits the possession of weapons, including carrying, maintaining, or storing firearms, on any college or campus facility when not required by the individual's job or in accordance with relevant district policies or state statutes. Appropriate disciplinary action, including arrest and prosecution, will be enacted for any person discovered to possess a firearm or weapon on district property.

Prohibited conduct considered unacceptable by the district and which will subject the individual(s) to disciplinary action in alignment with district policy includes, but is not limited to, the following:

- Threat of or actual physical injury to others.
- Physical or verbal behavior that creates a reasonable fear of injury.
- Physical or verbal behavior that results in significant emotional distress to an individual(s).
- Physical or verbal behavior or threatening violent behavior, whether actual or perceived, based on race, ethnicity, gender, sexual orientation, or other protected status.
- Threat of or actual defacement and/or damage of property.
- Sexual assault or harassment, including stalking and dating or domestic violence.
- Brandishing a weapon or firearm.
- Retaliation against any individual(s) who reports a violation of these guidelines.

In addition to prohibited conduct, the District Office VPP has identified thresholds of conduct that the district deems to be unacceptable as well as indicators of possible future violent action. These include the following:

- Significant violent ideations or the expression of violent ideas or the intent to harm others.
- Suicidal threat, attempt, or significant suicidal ideation.
- Pattern of physical or emotional bullying.
- Attempting to control processes, outcomes, or decisions that are inappropriate given the person's standing or position.
- Delusional ideations or behavior.
- Excessive, inappropriate, and/or illegal alcohol or drug use.
- Violence against Women Act Offenses, which include Criminal Sexual Assault, Domestic Violence, Dating Violence and Stalking.

Retaliation against and/or intimidation of employees, students, program participants, witnesses or any other persons who make complaints or who cooperate in EEO investigations is strictly prohibited. CCC has procedures to ensure that the school, security personnel, employee, or agent of the school, does not retaliate, intimidate, threaten, coerce, or otherwise discriminate against any individual for exercising their rights or responsibilities.

District Office prohibits all forms of sexual misconduct, including, but not limited to, dating violence, domestic violence, sexual assault and stalking. District Office values the health and safety of every individual on campus and expects students and employees to treat other persons with respect and dignity. Any behavior which causes the sexual assault or abuse of another person will not be tolerated, is a

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

violation of the college's policy and may result in sanctions ranging from probation to expulsion or dismissal. Disciplinary action on the part of the college does not preclude the possibility of criminal charges against the individual. In order for the college to deal more effectively with sex offenses, it is essential that these incidents be reported.

Integration of Policies

The District Office VPP is incorporated as part of the District Office *All Hazards Campus Emergency Plan and Violence Prevention Plan*. The activities of the VPP fall under the oversight of the Associate Vice Chancellor of Administrative Services and are in alignment with the overall district emergency management plan as defined in the AHCEP and VPP. Crisis management will be conducted in accordance with the overall policies and procedures outlined in the AHCEP and VPP.

Activities

Based on research in violence prevention, District Office acknowledges the following factors to be key in reducing violence:

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

1. A strong sense of community and connection;
2. An increased sense of security with security/police presence;
3. Crime prevention and awareness program;
4. Reporting and monitoring of crimes.

A common theme of all awareness and prevention programs is to encourage students, faculty and staff to be aware of their shared responsibilities for their own security and the security of others.

District Office Safety and Security will be responsible for evaluating their current college/campus initiatives designed to address these four factors as well as advising college and district staff on new activities or initiatives to increase these four factors.

District Office provides crime prevention and safety and security awareness to include “Security Awareness/Crime Prevention Tips” and “Emergency Evacuation-What You Should Know” presentations at various times throughout the school year to include orientation and registration of each semester. District Office Safety and Security posts crime alerts for awareness when there is a notable trend.

Title IX represents the federal law designed to prevent sexual assault and harassment of students on college campuses and promote gender equity in education. Title IX protects you from sexual assault, sexual harassment, and stalking on campus grounds. This includes protection from gender-based violence between any of the following groups: men, women, transgender people, and gender non-conforming persons. The Violence Against Women Act (VAWA) is the cornerstone of our nation's response to domestic and sexual violence.

District Office EEO/Title IX provides informational programs on “Know Your Title IX Rights”, Federal, State and CCC Policies on Sexual Assault, Domestic Violence, Dating Violence and Stalking. These programs include information on preventing Domestic Violence, Dating, Sexual Assault, Stalking, what to do and procedures to follow if you have been the victim of a Sexual Assault, Domestic Violence, Dating Violence or Stalking incident, bystander intervention, and voluntary and confidential reporting at various times throughout the school year to include orientation and registration of each semester.

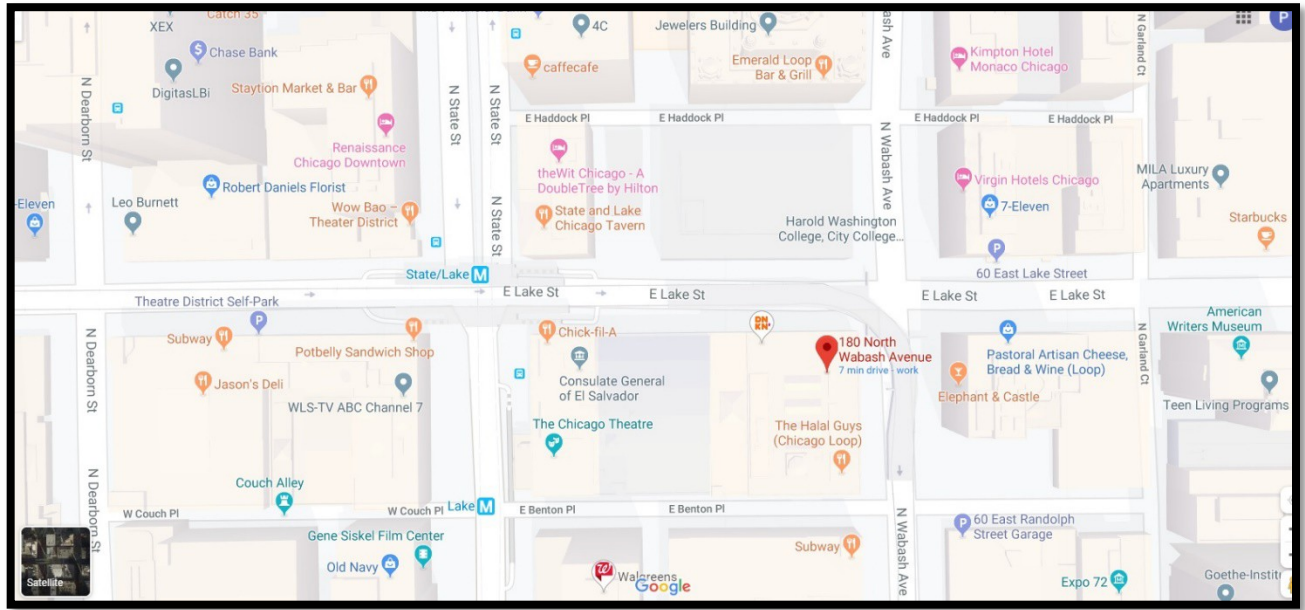

District Office has standards of conduct that clearly prohibit the unlawful possession, use or distribution of illicit drugs and alcohol by students and employees. These include the City Colleges of Chicago District-wide Employee Manual, Board Rules, and Student Policy Manual.

AHCEP and VVP Coordination with Outside Agencies

- A. The All Hazards Campus Emergency Plan and the Campus Violence Prevention Plan will be coordinated with the Chicago Office of Emergency Management and Communications to provide guidance and identify resources.
- B. Upon completion a copy the Plans will be sent to OEMC and the Illinois Community College Board.
- C. The plans will be reviewed annually by the Executive Director of Safety and Security to make updates as necessary.

Specific Emergency Protocols

ACTIVE SHOOTER

The United States Department of Homeland Security defines the **Active Shooter** as "an individual or individuals actively engaged in killing or attempting to kill people in a confined and populated area; in most cases, **active shooters** use firearm[s] and there is no pattern or method to their selection of victims."

- One or more suspect(s) who, as police respond to the scene, are actively killing and/or causing serious, life-threatening bodily injury to multiple victims. The overriding objective of the suspect(s) appears to be that of mass murder, rather than other criminal conduct such as robbery or hostage-taking.
- Threat is not contained and there is immediate risk of death and injury.
- Considered the greatest threat on campuses.

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

- Leaves little or no time for proper planning and requires law enforcement to take immediate action.
- These situations can and often develop into hostage situations upon the arrival of law enforcement. For additional information:
- https://www.youtube.com/watch?v=jvwna1DaV_g

How to respond when an active shooter is in your vicinity:

Quickly determine the most reasonable way to protect your own life. Remember that staff, students and visitors are likely to follow the lead of employees and managers during an active shooter situation.

Evacuate-If there is an accessible escape path, attempt to evacuate the premises. Be sure to:

- Have an escape route and plan in mind.
- Evacuate regardless of whether others agree to follow.
- Leave your belongings behind.
- Help others escape, if possible.
- Prevent individuals from entering an area where the active shooter may be.
- Keep your hands visible.
- Follow the instructions of any police officers.
- Do not attempt to move wounded people.
- Call 911 when you are safe.

Hide Out- If evacuation is not possible, find a place to hide where the active shooter is less likely to find you. Your hiding place should:

- Be out of the active shooter's view.
- Provide protection if shots are fired in your direction (i.e. an office with a closed and locked door).
- Remain calm.
- Dial 911 if possible to alert police to the active shooter's location.
- If you cannot speak, leave the line open and allow the dispatcher to listen.

Take action against the active shooter as a last resort. If your life is in imminent danger, attempt to disrupt and or incapacitate the active shooter by:

- Acting as aggressively as possible against him/her.

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

- Throwing items and improvising weapons.
- Yelling.

How to react when law enforcement arrives:

- Remain calm, and follow officers' instructions.
- Put down any items in your hands.
- Immediately raise hands and spread fingers.
- Keep hands visible at all times
- Avoid making quick movements toward officers such as holding on to them for safety
- Avoid pointing, screaming and or yelling
- Do not stop to ask officers for help or direction when evacuating, just proceed in the direction from which officers are entering the premises
- Do not restrict your options for movement

FIRE

If the fire appears to be small, and you have been trained to use the fire extinguishers, get a fire extinguisher and directly spray at the base of the fire. Do not take any unnecessary risk in doing this. If a fire extinguisher is not readily available, activate the building emergency fire alarm and follow evacuation procedures. Inform the College Safety and Security Officer at: **312-553-2575** of the location of the fire.

If you observe a fire that does not appear controllable:

- Close, but do not lock, all doors to confine the fire.
- Activate the emergency fire alarm.
- Follow the evacuation procedures relayed by Safety and Security and staff.
- Inform the College Safety and Security Officer of any information you have about the location of the fire.

If you become trapped in the building during a fire, remain near the floor where the air will be less toxic:

- Shout at regular intervals to alert Emergency Crews and/or Chicago Fire Department Responders of your location.

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

- If at all possible, place an article of clothing out of the window where it can be seen by Rescue Crews and/or Chicago Fire Department Responders.
- If your clothing catches fire, STOP DROP and ROLL! Immediately drop to the floor and roll repeatedly to extinguish the flames, holding your hands over your face to protect it from the flames.
- Get burned areas under cool water as soon as possible. Get help without delay.

DISTURBANCE OR DEMONSTRATION

Most College or Campus demonstrations are peaceful. Students, faculty and staff should attempt to carry on business as normally as possible. However, College Safety and Security Officers should be notified at: **312-553-2575** if demonstrations:

- Interfere with normal operations of the College.
- Prevent access to offices and other College facilities.
- Threaten physical harm to building occupants.
- Damage College equipment and facilities.

If demonstrations are disruptive or potentially violent, College Safety and Security Officers will be responsible for informing the President of the College. The Dean of Student Services will ask the demonstrators to terminate the disruptive activity. If the demonstration persists, the Dean of Student Services will consult with the College President and Director of Safety and Security. If it appears there is the potential for injury to building occupants or damage to College equipment and facilities, the College President or his designee will determine if the Chicago Police Department is to be contacted. If the disruptive or potentially violent demonstration takes place after business hours, College Safety and Security Officer(s) may contact the Chicago Police Department without counsel from others if it is immediately determined necessary to maintain the safety of building occupants and/or College equipment and facilities.

VIOLENT OR CRIMINAL BEHAVIOR

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

Everyone is asked to assist in making the District Office a safe place to study, learn, work and attend. All building occupants must be alert to suspicious situations and promptly reporting them to the College Safety and Security Officers, **312-553-2575**. If any building occupant observes an individual who is threatening harm to himself/herself or to others, immediately inform a College Safety and Security Officer. Do not try to handle the situations that are potentially dangerous. As a building occupant, if you are a victim or a witness to any offense, promptly notify a College Safety and Security Officer and provide as much information as possible, such as:

- Nature of the incident.
- Location of the incident.
- Description of the person(s) involved.
- Description of the property involved.
- Be available to provide College Safety and Security Officers with any additional information they request.

BOMB THREAT and SUSPICIOUS ITEMS

Building occupants must take any bomb threat seriously and report it immediately to the College Safety and Security Officers **312-553-2675**. College Safety and Security Officers will contact the College President or designee, who will determine if the building must be evacuated, or if other action must be taken.

- Written bomb threat: Do not handle it any more than necessary; place it in an envelope to preserve possible DNA or finger prints.
- Telephone bomb threat: Try to obtain as much information from the caller as possible. Note the exact time of the call and attempt to write down the words of the caller. Ask when the bomb is set to explode, what kind of bomb it is, where it is located, and what it looks like. Note the estimated age and gender of the caller, speech patterns, accent, tone of voice, emotional state (agitated, calm, etc.), and background noises near the caller. Ask the caller why the bomb was set. Immediately contact the College Safety and Security Officers and give them all the information you obtained.

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

- Suspicious package or letter: Inform College Safety and Security Officers immediately if you observe a suspicious package or letter. Do not open it. Some points to recognize are: No return address, insufficient or excessive postage, restrictive markings, such as Confidential, wrapped in brown paper, discoloration on wrapping paper, hand-written or poorly typed/written address, incorrect title, title but no name, excessive weight, rigid envelope, uneven envelope, excessive securing material (masking tape, string, etc.), foreign mail, air mail or special delivery.
- If you observe an object you suspect to be a bomb, immediately contact College Safety and Security Officers. Do not handle any object you suspect to be a bomb. If you have information that leads you to believe a bomb is in your immediate area, do not touch anything! Notify College Safety and Security Officers at once!

WHAT CONSTITUTES A SUSPICIOUS LETTER OR PARCEL?

Some typical characteristics which ought to trigger suspicion include letters or parcels that:

- Have any powdery substance on the outside.
- Are unexpected or from someone unfamiliar to you.
- Have excessive postage, handwritten or poorly typed address, incorrect titles or titles with no name, or misspellings of common words.
- Are addressed to someone no longer with your organization or are otherwise outdated.
- Have no return address or have one that can't be verified as legitimate.

UTILITY FAILURE

In the event of a utility failure, contact College Safety and Security Officers Office **312-553-2575**. Inform them to contact College Engineering Staff of your location and reporting of utility failure. College Safety and Security Officers will notify College Engineering Staff by two-way radio. In the event of a major utility failure, College Safety and Security Officers will also notify the President of the College or his designee and the Director of Auxiliary Services. College Safety and Security Officers will notify the building occupants to evacuate the building, if safe and necessary.

Additional information and instructions are listed regarding specific utility failures:

- Electrical/Light Failure – The College has a secondary source of electricity that is automatically activated when the primary source is interrupted. If both of these systems fail, College Safety and

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

Security Officers will inform the building occupants to evacuate the building. Consider keeping a flashlight located where it can be easily found in the dark to assist in evacuation.

- Plumbing Failure causing Flooding – Do not use any electrical equipment! Notify the College Safety and Security Officers. Inform them to contact College Engineering Staff of your location and report the location of the plumbing failure, immediately.
- Gas Leak – Do not switch on lights or electrical equipment because electrical arcing can trigger an explosion! If you smell gas, vacate the area and contact College Safety and Security Officers immediately. Inform them of your location and report the location of the gas leak failure.
- Ventilation Problems – If smoke or other odors come from the ventilation system, vacate the area and contact College Safety and Security Officers. Inform them of your location and report the location of the ventilation problem area and the type of problem occurring, immediately.

SPILLAGE OF HAZARDOUS CHEMICALS

1. Eyes, if contaminated, should be flushed immediately, contaminated clothes removed, and chemicals washed from the victim. First aid procedures should be started at once by trained personnel.
2. Report spillage of a hazardous chemical or radioactive material immediately by calling **911** and Security at **312-553-2575**. Be specific about the exact location and nature of the spilled material.
3. Try to vacate the area at once and seal it off to prevent further contamination of other areas. If necessary to evacuate the building, follow the evacuation procedures in this manual.

BIOLOGICAL AND CHEMICAL THREATS

Federal Criminal Code defines weapons of mass destruction as:

- Any weapon that is designed or intended to cause death or serious bodily injury through the release, dissemination, or impact of toxic or poisonous chemicals, or their precursors; such as mustard gas, nerve agents, and sarin gas.
- Any weapon involving a disease organism; such as small pox outline toxin, and anthrax.
- Any weapon that is designed to release radiation or radioactivity at a level dangerous to human life.

Building occupants will be notified by Security personnel using the PA system, CCC Alert or verbally to shelter-in-Place or evacuate the building. After the incident is concluded occupants will be given notification to resume normal activities when it is safe.

EARTHQUAKE

In the unlikely event of an earthquake, please immediately react as follows during an earthquake:

- If you are indoors, remain there. Do not run outside. Falling debris may cause injury.
- Take cover underneath a desk or table, or stand in a doorway or corner. Protect your head and neck.
- Stay away from windows, glass dividers and objects that could fall on you.
- Stay away from outside walls.
- Do not use elevators.
- If outdoors, stay in an open area away from power lines, buildings and trees. Do not enter the building.

After the earthquake:

- Be prepared for aftershocks. Do not return to your classroom or work area until directed to do so.
- Give First Aid to injured individuals.
- Do not move victims unless absolutely necessary.
- Replace telephone headsets, but do not use the telephone equipment except to report fires or medical emergencies.
- Go to the interior of the building, staying away from the exterior walls.
- Follow instructions of Emergency Crews.

District Office All Hazards Campus Emergency Plan and Violence Prevention Plan

- Be prepared to evacuate the area if necessary.

Building occupants will be notified by Security personnel using the PA system, CCC Alert or verbally to shelter-in-Place or evacuate the building. After the incident is concluded occupants will be given notification to resume normal activities when it is safe.
