

Truman Automotive Technology Job Placement Rates, Class of 2014

Program	No. of Completers	No. of Completers who are Survey Responders	Employed in Related Field
AUTOMOTIVE TECHNOLOGY (AC)	16	10	71.4%
AUTOMOTIVE TECHNOLOGY (BC)	35	16	50.0%

Percent of Students Employed in the Occupational Area of their Training.

Calculation Details

Numerator: Number of respondents indicating they are employed in their field of study

Denominator: Total number of CCC Graduate Follow-Up Survey respondents indicating that are employed in a related field.

Data Source Details:

The Graduate Follow-Up Survey (GFS) asks graduates one year post-award completion whether they are employed and whether or not their employment is related to their program of study. Respondents who answered that they were unemployed or graduates who did not respond to this question are excluded from the calculation.

Tracking Period Details

FY 2014 graduates for one year after they graduated.
