

# Corona Agila

A.A. in Spanish from Harold Washington College  
B.A. in Foreign Language- Spanish from Eastern Illinois University  
M.A. in Linguistics from Northeastern University

**What's the best thing about being a College Advisor:** The best thing about being a college advisor is having the opportunity to help students achieve their personal, professional, and academic goals.

**Advice:** ASK questions!!!! I cannot emphasize this point enough. Asking questions will get the results...sometimes it may take it a while, but don't give up. Nothing beats a trial than a failure, so try and try some more. Use campus resources: Tutoring and Writing Centers, Library, Transfer Center, Wellness Center, Career Planning and Placement Center, and the Legal Clinic.

Talk to your lovely instructors and advisor and develop a relationship with them. Make an appointment to meet your academic advisor your first semester. We are here to help you succeed. We want to see that success. Remember, we were in your position, and we too had to ask and sometimes learned the hard way. Lastly, have fun while studying. Join one of the clubs and interact with other students and faculty. It will only make your studies more interesting.
