

Regina Lira

B.S. Speech Communication from Southern Illinois University Carbondale

What's the best thing about being a College Advisor: The relationship I had with my advisor in college was instrumental in helping me succeed and I fully believe in the services we provide our students. I enjoy being an advisor because I can continue to build meaningful relationships while helping students navigate their future.

Advice: Do not underestimate the importance of having an advisor whom is dedicated to seeing you succeed. Use the free resources available to you. Did I mention they are FREE? Also, never be embarrassed to seek help.
