M.S. in Administrative Leadership – Adult and Continuing Education from  
University of Wisconsin - Milwaukee

**What's the best thing about being a College Advisor:** What I enjoy most about being an Advisor is helping students understand their options. College can be very overwhelming and we are here to help.

**Advice:** UTILIZE TUTORING! The common misunderstanding about tutoring is that you should only use it when you are in jeopardy of failing a class. Tutoring can be used to help you better understand concepts that may be slightly confusing to you. In some cases it can also help students increase their B to an A.
