

Department Goals

1. Our goal is to serve the educational needs of the following student segments:
2. Information Technology majors planning to transfer to a 4-year public or private college or university.
3. Students intending to pursue a full-time career in Information Technology.
4. Students with educational goals that are a combination of Segments 1 and 2.
5. Students in other fields that need our courses as part of their education.
6. Individuals interested in taking one or more of our courses to meet the job requirements of their present job, qualify for a promotion, or start a new career.
7. Other students wishing to extend their knowledge of Information Technology.
