EDUCATION THAT WORKS

Whether you are using a smart phone, computer, or the enormous database that stores information online, professionals are needed to design software, maintain information systems, and troubleshoot network issues. If you are interested in working with technology in an expanding and innovative environment, consider a career in the fast-growing Information Technology industry.

WHY CHOOSE INFORMATION TECHNOLOGY

- Develop strong technical skills in programming, web development, networking, security management, and more.
- Gain real-world insights through on-campus seminars by IT professionals and off-campus visits to IT companies.
- Connect with hundreds of employers looking to hire through our Career Network.
- Prepare to transfer to a four-year university, saving up to \$40,000 on the cost of a bachelor's degree.

HIRING & ACADEMIC PARTNERS

Through the City Colleges of Chicago partnerships, we are able to ensure your education reflects current workforce demands as well as provide internships and job opportunities.
