Welcome to the Interactive Academic Catalog

For the convenience of readers, this Catalog is enabled with interactive bookmarks that navigate to tagged pages and sections when clicked. To utilize this function, open the Catalog in a PDF-compatible application such as Adobe Reader or Adobe Acrobat and the Bookmarks panel should open automatically.
At City Colleges of Chicago, we strive to provide students with the most up-to-date Academic Catalog possible. Below is a list of revisions, in chronological order, made to the Academic Catalog since its original publishing date of September 29th, 2015. Changes are denoted by pink asterisks (♣). To view an edit, hover over the asterisk.

**NOTE:** revisions are not viewable on web browsers or mobile devices. Please download and view the catalog in Adobe Acrobat or another PDF-compatible application.

If you have any questions or concerns about this edition of the City Colleges of Chicago Academic Catalog, or believe that you may have found an error, please contact the Academic Catalog team at catalog@ccc.edu. For more information, please visit www.ccc.edu. This information is subject to change.

### Errata # | Program/Section | Program # | Revision Date | Description of Revision
--- | --- | --- | --- | ---
E01 | Architectural Drafting | 122 | 10/01/2015 | Credit hours changed from 3 to 2–3 for art course
E02 | Architectural Drafting | 122 | 10/01/2015 | Credit hours changed from 5–6 to 5 for mathematics course
E03 | Architectural Drafting | 122 | 10/01/2015 | Credit hours changed from 3 to 2–3 for required electives
E04 | Management/Marketing | 203 | 10/13/2015 | DA, KK, OH, TR, and HW added to list of college locations
E05 | L’art de la Pâtisserie | 746 | 10/13/2015 | College location switched from French Pastry School to KK
E06 | L’art du Gâteau | 749 | 10/13/2015 | College location switched from French Pastry School to KK
E07 | Construction Management | 375 | 10/13/2015 | Semester map for program added to catalog
E08 | Computerized Numerical Control | 748 | 10/15/2015 | Program requirements added to catalog
E09 | Computer Numeric Control Technician | 826 | 10/15/2015 | Program requirements added to catalog
E10 | Industrial Maintenance | 790 | 10/15/2015 | Program requirements added to catalog
E11 | Manufacturing Technology | 771 | 10/15/2015 | Program requirements added to catalog
E12 | Welding (Industrial Technology) | 827 | 10/15/2015 | Program requirements added to catalog
E13 | Paralegal | 829 | 10/15/2015 | Program requirements added to catalog (negated by #E77)
E14 | Food Sanitation | 253 | 10/15/2015 | Program requirements added to catalog
E15 | Food Sanitation Recertification | 891 | 10/15/2015 | Program requirements added to catalog
E16 | Accelerated Phlebotomy | 866 | 10/15/2015 | Program requirements added to catalog
E17 | Basic Nursing Assistant–Health Sciences | 403 | 10/15/2015 | Program requirements added to catalog
E18 | Basic Nursing Assistant–Nursing Fundamentals | 404 | 10/15/2015 | Program requirements added to catalog
E19 | Dental Assistant | 868 | 10/15/2015 | Program requirements added to catalog
E20 | Dental Assisting | 399 | 10/15/2015 | Program requirements added to catalog
E21 | EKG Technician | 820 | 10/15/2015 | Program requirements added to catalog (negated by #E81)
E22 | Emergency Medical Technician (EMT) | 867 | 10/15/2015 | Program requirements added to catalog
E23 | Homemaker/Home Health Aide | 895 | 10/15/2015 | Program requirements added to catalog
E24 | Obstetrics and Gynecologic Technology | 221 | 10/15/2015 | Program requirements added to catalog
E25 | Phlebotomy Technician | 803 | 10/15/2015 | Program requirements added to catalog
E26 | Physical Therapist Assistant | 406 | 10/15/2015 | Program requirements added to catalog
E27 | Physician Assistant | 262 | 10/15/2015 | Program requirements added to catalog
E28 | Social Work: Youth Work | 372 | 10/15/2015 | Program requirements added to catalog
E29 | Computer Information Systems | 011 | 10/15/2015 | Program requirements added to catalog
E30 | Computer Information Systems | 013 | 10/15/2015 | Program requirements added to catalog
E31 | Computer Information Systems | 012 | 10/15/2015 | Program requirements added to catalog
E32 | Criminal Justice: Public Police Services | 296 | 10/15/2015 | HW added to list of college locations
E33 | Basic Nursing Assistant | 801 | 10/15/2015 | DA, KK, OH, TR, and WR added to list of college locations (partially negated by #78)
E34 | Management/Marketing | 022 | 10/16/2015 | OH, TR, and HW added to the list of college locations
E35 | Alternative Fuel Vehicle Technology | 099 | 10/16/2015 | OH added to list of college locations
E36 | Environmental Technology | 160 | 10/16/2015 | Changed Biology 226 to Biology 115 in program requirements
E37 | Pharmacy Technician | 802 | 10/16/2015 | OH removed from list of college locations
E38 | Information Processing | 719 | 10/16/2015 | Program requirements added to catalog
E39 | Psychiatric Rehabilitation | 258 | 10/16/2015 | Program requirements added to catalog
E40 | Course Descriptions | N/A | 10/19/2015 | Added Psychiatric Rehabilitation 104 to Course Descriptions
E41 | Course Descriptions | N/A | 10/19/2015 | Added Psychiatric Rehabilitation 105 to Course Descriptions
E42 | Fire Science Management | 413 | 10/20/2015 | Updated the Program Finder hyperlink
E43 | Fire Service Operations | 414 | 10/20/2015 | Updated the Program Finder hyperlink
E44 | Digital Multimedia Design | 350 | 10/28/2015 | Removed HD requirement from Social Sciences course
E45 | Digital Multimedia Design | 350 | 10/28/2015 | Changed “Social Sciences” to “Social & Behavioral Sciences course”
E46 | Digital Multimedia Design | 350 | 10/28/2015 | Changed “Biology OR Physical Science” to “Physical & Life Sciences course”
E47 | Course Descriptions | N/A | 11/02/2015 | Added MX as a location to Dental Hygiene 243
E48 | Course Descriptions | N/A | 11/02/2015 | Added MX as a location to Dental Hygiene 250

Dear City Colleges of Chicago Students,

I want to commend you for pursuing further education and let you know that the faculty and staff at City Colleges are dedicated to helping you reach your goal—whether it is to move on to a four-year college or immediately head into the workforce.

As a City Colleges graduate myself, I understand the kind of obstacles you may face along the way to earning your degree or certificate, but I also know that hard work at City Colleges pays off. Since we launched Reinvention, we have worked to put in place resources that make it easier for you to succeed. Resources like the Student GPS system that creates clear pathways through the institution to your end goal.

This catalog reflects this system and is structured by a series of academic focus areas, incorporating specific semester-by-semester maps for each area. These are the same materials that you will discuss with your advisor as you create and track your progress along an education plan. Be sure to follow your plan to ensure that you maximize your time and money at City Colleges and graduate ready for your next step.

In a review of the catalog, you may also notice that some programs are new or revised. Through College to Careers, faculty and staff have worked closely with industry leaders and four-year colleges to ensure our programs prepare you with the relevant skills needed to succeed in the high-demand careers of today and tomorrow.

I hope you take full advantage of the academic programs, faculty expertise, and numerous student resources at City Colleges of Chicago. I also look forward to welcoming you to the proud group of City Colleges alumni at the end of your journey.

Sincerely,

Cheryl L. Hyman
CHANCELLOR

Ensuring Student Success

Today, under the leadership of Chancellor Cheryl Hyman, City Colleges of Chicago is in the midst of a Reinvention, a collaborative effort to review and revise CCC programs and practices to ensure students leave CCC college-ready, career-ready, and prepared to pursue their goals.

Through Reinvention, City Colleges of Chicago aims to ensure student success and to become an economic engine for the city of Chicago. To this end, Reinvention seeks to accomplish four main goals:

- To increase the number of students earning college credentials of economic value
- To increase the rate of transfer to bachelor’s degree programs following CCC graduation
- To dramatically improve outcomes of students requiring remediation
- To increase the number and share of adult basic education/GED/ESL students who advance to and succeed in college-level courses

These goals are designed to empower City Colleges students, whether they are looking to transfer to a four-year institution, move directly into the professional workforce, or build skills in developmental or adult education for future success.

### STUDENT SERVICES

The Student Services team at each college provides a broad range of services to support the achievement of students’ academic, career, and life goals. They can also refer students to external support agencies when needed. More information may be found at [ccc.edu/studentservices](http://ccc.edu/studentservices). Some of the many services offered by the Student Services team are listed below and on subsequent pages.

### FINANCIAL AID AND TUITION

At City Colleges of Chicago, we believe your education is an investment, one that pays dividends throughout your lifetime. That’s why we are dedicated to helping students get the assistance they may need to attend one of our seven colleges. The Financial Aid Offices at City Colleges of Chicago work closely with students and families to provide financial assistance in the form of grants, loans, and work-study from federal and state resources. The Financial Aid Office is your guide and resource to help you make college affordable. Please visit your respective college’s Financial Aid Office for more information regarding the financial aid process.

ACADEMIC CATALOG
Effective Fall 2014 term, all students are assigned an academic career, program, and plan upon enrolling (consistent with Focus Area and Pathway choices made by the student). Students are required to follow the academic program/plan requirements in the Academic Catalog in effect at the time of their enrollment, subject to CCC Academic Policy: www.ccc.edu/menu/pages/policies.aspx

STUDENT POLICY MANUAL
All students at all times are subject to the current Student Policy Manual, unless a new board rule has superseded the text in the policy manual. The manual includes detailed policies related to student procedures and protocols including transfer policies, financial aid policies, grade designation, graduation, responsible computer use, and more. The complete Student Policy Manual can be found at: www.ccc.edu/menu/pages/policies.aspx.

ACADEMIC POLICY MANUAL
A full listing of City Colleges’ policies related to academic procedures and protocols can be found at: www.ccc.edu/menu/pages/policies.aspx.
Adult Education provides tuition-free programs that help adults become literate, learn English as a second language, obtain high school equivalency, and gain the knowledge, skills, and guidance necessary for transition to college and career pathways.

Included are courses in Adult Basic Education (ABE), General Educational Development (GED) in both English and Spanish, English as a Second Language (ESL), Citizenship Preparation, sector specific Career Bridge classes, and career exploration courses. To enroll in adult education classes, students must be at least 18 years of age. Students who are 16 or 17 years of age may enroll if they are no longer enrolled in other secondary educational programs and have been officially released from their high school.

Classes are offered in a variety of schedules and credit hour formats at each college. Classes are also available at over 70 locations CCC operates in partnership with community and faith-based organizations throughout the city. Before enrolling in classes, all students must complete a placement examination to ensure placement in the classes that will be most appropriate for them. For more information about classes and schedules, please call the colleges listed to the left, or visit the Adult Education website at: www.ccc.edu/departments/Pages/Adult-Education.aspx

The Adult Education Program offers the following classes and programs:

**The English as a Second Language (ESL) courses** teach English language and civics skills to non-native English language learners. Courses are offered for students at all skill levels, from those who do not speak or understand any English to those who are more advanced, and include speaking, listening, reading, writing, vocabulary development, grammar and civics. Transition level ESL courses are available for students who are preparing to enter college-level studies. Citizenship courses are available at some colleges for students preparing to pass the US Citizenship and Immigration Services naturalization exam.

**General Educational Development or Adult Secondary Education (ASE/GED) courses** prepare students for the GED exam or high school equivalency credential. Courses build skills in reading, writing, math, social studies, science, and civics. Students also learn computer, test taking, and study skills. Students who complete these classes will be prepared to succeed on the high school equivalency exam and also to move on to college level work. This level of instruction is offered in English and Spanish.

The official GED exam is administered through the GED Testing Service. Students who are interested in applying for a test date may go to [https://ged.com/](https://ged.com/) to sign up; the test is now offered only on a computer and costs $120. Scholarships are available to eligible students. CCC has GED testing centers at a number of its colleges; however, CCC does not set fees or policies relating to test administration.

**Adult Basic Education courses** serve students who are seeking to become literate or build basic mathematics and English skills on their way to earning a GED® or high school equivalency credential. Our programs teach reading, writing, and math, and computer skills; we also offer programs that assist students in beginning the transition to college-level work while still in adult education.

**i-Pathways (formerly known as GED-i)** — The i-Pathways program is an online GED program that allows students to learn at their own pace at home or another place with computer access. It integrates a broader variety of curriculum options, a solid study plan and helpful tips that are designed to prepare students for their official GED credential, transition into higher education and/or transition into the workforce. To be eligible for i-Pathways, applicants must register on campus and score at least at the Adult Secondary Education (ASE) level.

**Gateway to the City Colleges of Chicago Program** — The Gateway Program provides Adult Education students an opportunity to transition to credit at the City Colleges of Chicago by taking some college credit or career program courses with financial assistance while still in Adult Education. Gateway Scholars can begin their academic careers while developing English language skills or preparing for the GED exam, and can continue pursuing their academic goals once they have completed the Adult Education Program. Depending on the length of time in the program, students will be able to earn credits toward or complete a basic or advanced certificate and/or earn an Associate degree.

**Career Bridge Programs** — Career bridges are intensive programs for students who test just below the GED or secondary level, designed to achieve three goals: pass the GED test (if needed); qualify for entry-level jobs in several high-growth career sectors; and prepare for City Colleges of Chicago College to Careers programs offering certificates and degrees that can lead to well-paying jobs. Bridge students receive career development and transition services in addition to classroom instruction. Healthcare bridges are offered through all six colleges with Adult Education programs; additionally, Richard J. Daley College has a Manufacturing bridge, Olive-Harvey College has a Transportation, Distribution, and Logistics bridge, and Kennedy-King College has a Culinary Arts and Hospitality bridge. Other bridges such as Early Childhood Education and an Accounting/Business bridge will be launched in the future.
A degree or certificate from City Colleges of Chicago is your ticket to a rewarding career, either right after graduation, or after a successful transfer to a four-year university. We have the resources to get you there, but you have to make some choices about your path.

City Colleges of Chicago offers over 100 degree and certificate programs. That's a lot of choices! To narrow down your options, 1) choose one of our ten Focus Areas. Your College Advisor can give you tools and ask you the right questions to help you make your decision. Once you have chosen a focus area, you should consult with your College Advisor to 2) decide if you plan to transfer to a four year school and discuss your career goals. With this information, you and your advisor can determine the degree or certificate program that works best for you!

Consider that in 2018, 80% of jobs in Illinois will fall under College to Careers focus areas. The College to Careers (C2C) initiative makes sure that we are training people to fill these positions. C2C also partners with potential employers and transfer institutions to ensure students make smooth transitions to meet their goals.

How do you define your success at City Colleges of Chicago? Once you choose a Focus Area, you will be able to figure out, with your advisor’s assistance, the best courses to take at CCC to achieve your goal of transferring or looking for employment after completion of a certificate or degree.

Students are assigned an academic advisor and are encouraged to meet with their advisor often. As soon as possible, advisors will put students on a pathway, based on their career intention. The pathway shows the general education and other course recommendations that will best prepare students for future success.

If you are undecided about your major or field of interest, but you do know you want to transfer and earn a bachelor’s degree or if you are considering a career program, we can suggest possibilities for your first semesters of college to help you decide.

Learn more by visiting Academic Advising, the Transfer Center and Career Planning and Placement Center at your college. We are here to help you succeed!
A HOW-TO GUIDE
On reading the student semester maps

Below is a sample student semester map representative of those found within the Academic Catalog. Each map will serve as a template to help plan your education at the City Colleges of Chicago. Please note, these maps are only templates, not individualized plans, and you should meet with your advisor to discuss how to customize the map for your personal education goals.

The introduction box details important information for the pathway such as which certificate or degree will be earned.

Many pathways at CCC offer multiple certificates or degrees; this section indicates the degree requirement being satisfied by the listed course.

Each course is listed with several sets of information:
- Course Name
- Catalog Number
- Course Description
- Credit Hours

As you advance through semesters, you will gain achievements such as completion of Basic and Advanced certificates, as well as reach tasks that you should complete to help guide you in your academic progress.

This section will tell you which CCC campuses focus on your degree of choice. School icons in color indicate a campus that offers the mapped pathway.

When you meet with your advisor, you will choose your Focus Area. Each Focus Area helps to place you in courses that are relevant to your field of study and intended degree.
MINIMUM GENERAL EDUCATION CREDIT HOURS

Below is a general framework of all degrees currently offered at CCC. For program-specific requirements and information, please refer to pages 404–481.

Transferring College Credit into City Colleges

A large population of students at City Colleges transfer from another college. Students must submit all college transcripts during the admission process so that the credit can be evaluated. This will help you get placed in the right course while at CCC and complete your degree more efficiently. Be sure to have official transcript sent to the Records Office at the City College at the time of admission.

The General Education Core Curriculum (GECC)

These courses are offered at all seven City Colleges

You can complete the GECC in order to satisfy most core requirements in any major you choose after you transfer. In order to complete the GECC, you are required to take at least 12 to 13 courses (37 to 41 semester credits). If you complete the full package of GECC, more than 100 colleges or universities in Illinois have agreed to accept all of these credits from students transferring from the City Colleges of Chicago. Students take classes in five general areas: Communication; mathematics; physical and life sciences; humanities and fine arts; and social and behavioral sciences. Within each of these general areas, you will choose among many possible classes that qualify as GECC courses.

This set of general education courses is part of the Illinois Articulation Initiative (IAI), a statewide transfer agreement among Illinois colleges and universities, including the City Colleges of Chicago and numerous four-year institutions in Illinois.
TRANSFER CENTERS AT CITY COLLEGES

It’s never too early to begin planning for transfer. City Colleges of Chicago Transfer Centers exist to help students plan for a seamless transition to four-year institutions. The Transfer Director at each college oversees an annual cycle of programs and services. At your Transfer Center you can:

- Find out about City Colleges’ partnerships with four-year institutions
- Identify four-year institutions that might be a good fit
- Match your graduation plan with your transfer goals
- Obtain up to three college application fee waivers (pending eligibility)
- Receive scholarship assistance during the transfer process

TRANSFER EVENTS AT CITY COLLEGES

- Fall and Spring Transfer Fairs: Over 100 colleges and universities come to City Colleges annually to recruit students. Students are encouraged to attend these fairs to plan for transfer.
- College Recruitment Visits: When school is in session, colleges and universities recruit students by making “table visits”, Monday through Thursday, at every City College.
- The District-wide “Transfer-Mation Conference” is an example of a district-wide event where workshops and sessions help students transfer to the best colleges in the nation.
- The Spring College Tour: Each year the Transfer Team and the Student Affairs team collaborate to sponsor a Spring College Tour; students selected for these 4–5 day journeys pay nothing.
- College Success classes include introductions to transferring for new students.

TRANSFER PARTNERSHIPS WITH CITY COLLEGES

Partnerships between City Colleges of Chicago and four-year institutions provide a smooth transition for CCC students into the college or university of their choice. The CCC Transfer Pages are continually updated with new transfer resources.

- Special Transfer Partnerships: Consider signing up for Dual Admission, Guaranteed Admission, and Dual Enrollment partnerships with local, outstanding universities.
- Pathway Partnerships: CCC has partnered with several universities in creating Pathway Partnerships. All students are put on a Pathway at CCC. Once you choose your destination college, using the Pathway Partnership document will show the classes preferred per major.
- Transfer Guides: Almost 50 Universities have created Transfer Guides for CCC students to use when planning for transfer.

Illinois Articulation Initiative (IAI)

City Colleges participates in Illinois Articulation Initiative, or IAI, a comprehensive statewide effort among more than 100 colleges and universities in Illinois to facilitate the transfer of general education credits. Advisors will direct students to take IAI general education courses to fulfill the general education requirements whenever possible, since transfer is guaranteed by so many Illinois colleges.

- Students who complete the AA or AS degree at CCC, and meet the admission requirements of an IAI-participating baccalaureate degree-granting institution to which they transfer, will have completed the lower-division general education requirements for an associate or baccalaureate degree in lieu of the receiving institution’s general education requirements.
- Students who complete the IAI General Education Core Curriculum (GECC) at CCC fulfilling all of the GECC requirements with IAI approved General Education courses and transfer to participating institutions have the assurance that lower-division general education requirements for an associate or baccalaureate degree have been satisfied and the GECC will transfer.

My Credits Transfer Powered by Transferology

MyCreditsTransfer is a statewide initiative designed to facilitate transfer within Illinois using the nationally available tool, Transferology. Within Transferology students can find out how courses transfer between institutions, how courses satisfy degree requirements and the different majors institutions offer. City College students can create an account in Transferology and with the touch of a button can import all of their CCC courses, allowing you to see how they will transfer to colleges by major. City College advisors and students use this system every day to plan for transfer.

Reverse Transfer of Credit

If you transfer to another college or university before completing your degree at City Colleges of Chicago, you can still earn an associate degree through the Reverse Transfer of Credit. Students who transfer to a college or four-year university, can transfer back college credits to satisfy degree requirements at CCC.
Semester Maps
Furniture, appliances, electronics, even the planes and trucks that move these items from place to place, everything must be manufactured somewhere. Much of this work is done by machines, which must be calibrated, programmed, operated, and maintained by skilled technicians. Some of the work must be done by hand, such as welding components together, or checking components for quality control. If you are interested in mechanics and engineering in a hands-on environment, and transforming raw materials into useful products, you should consider the field of Advanced Manufacturing.

PATHWAY: Manufacturing Technology: CNC Machining Emphasis

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a degree in Manufacturing Technology. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn a Basic Certificate (BC) in Quality Assurance (QA), a Basic Certificate and an Advanced Certificate (AC) in Computerized Numerical Control (CNC) Machining, and an Associate in Applied Science (AAS) in Manufacturing Technology. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below.

The AAS degree program in Manufacturing Technology offers the technologies required for maintenance mechanics in the manufacturing or service industries and covers theory and practical projects. The program is appropriate for career changers, high school graduates, general education diploma holders, and machining workers with a need to enhance their careers.

The Advanced Certificate program in Computerized Numerical Control is designed for the study of the basic principles of machine tool technology incorporating basic computer applications to the manufacturing industry, including CNC programming and computer integrated manufacturing (CAD/CAM).

Choose your courses with your College Advisor.

Programs offered at: [CCC.edu](http://www.ccc.edu)
### Example Course Sequence

This is an example course sequence for students interested in earning a degree in Manufacturing Technology. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn a Basic Certificate (BC) in Quality Assurance (QA), a Basic Certificate and an Advanced Certificate (AC) in Factory Automation (FA), and an Associate in Applied Science (AAS) in Manufacturing Technology. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. This does not represent a contract, nor does it guarantee course availability.

The AAS degree program in Manufacturing Technology offers the technologies required for maintenance mechanics in the manufacturing or service industries and covers theory and practical projects. The program is appropriate for career changers, high school graduates, general education diploma holders, and machining workers with a need to enhance their careers.

Factory Automation technicians operate, maintain, repair, and install automated production equipment used through manufacturing. In addition to the traditional mechanical and electrical skills, modern production requires digital, programmable skills such as robotic programming, sensor technology, and the use of Programmable Logic Controllers.

This certificate provides foundational mechanical and electrical skills for entry level jobs in maintenance, repair and installation of manufacturing production equipment. Program completers will be employable as a maintenance mechanic trainee or helper, and as a building maintenance trainee. Students will also have the opportunity to earn the Manufacturing Skill Standards Council’s (MSSC) credential in Maintenance Awareness.

For more information on degree and certificate programs, please visit [www.ccc.edu](http://www.ccc.edu).
PATHWAY: Manufacturing Technology: Welding
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a degree in Manufacturing Technology. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn a Basic Certificate (BC) in Quality Assurance (QA), a Basic Certificate in Welding (W), and an Associate in Applied Science (AAS) in Manufacturing Technology. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below.

The AAS degree program in Manufacturing Technology offers the technologies required for maintenance mechanics in the manufacturing or service industries and covers theory and practical projects. The program is appropriate for career changers, high school graduates, general education diploma holders, and machining workers with a need to enhance their careers.

Welding is a challenging and rewarding career that combines the manual techniques of traditional welding processes with new digital skills used in robotic welding. With continual advances in welding technology, students in this program will study manufacturing materials and processes, including basic metallurgy and electricity, as well as print reading and fundamental quality assurance concepts. The welding processes that students will master include Gas Metal Arc Welding (GMAW or “MIG” welding), Shielded Metal Arc Welding (SMAW or “stick”), and Gas Tungsten Arc Welding (GTAW or “TIG”). Automated welding is taught using a FANUC robot and controller with a Lincoln Electric welder. Basic Certificate completers will be able to gain jobs as welders and entry level jobs in automated (or robotic) welding.

BUSINESS AND PROFESSIONAL SERVICES

From a Fortune 500 company to the corner bakery, every successful business is the result of many professional disciplines working in tandem. Someone must work with the accounts, analyze data to interpret trends, create a marketing strategy, and manage the overall business plan. Whether you prefer keeping track of numbers or you want to let your creativity shine, all of these things can happen in the right business role. If you are interested in accounting, management, marketing, real estate, or starting your own small business, Business and Professional Services is the right focus area for you.

PATHWAY: Accounting
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a degree in Accounting. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Advanced Certificate (AC) in Business Administration/General Business (GB) and a Basic Certificate (BC), Advanced Certificate (AC) and Associate in Applied Science Degree (AAS) in Accounting (A). One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below.

The AAS degree program in Accounting is the study of basic accounting skills. Completion of the program can lead to various levels of accounting positions in accounting firms, retail stores, manufacturing, service business, and small business employment as a junior member of an accounting staff, estimator, credit analyst, budget or general accountant, bank teller, and accounts receivable or accounts payable clerk.

The AC program in Business Administration/General Business is the study of basic business administration which can lead to employment in management positions in business, industry or government such as accounting, economics, finance, labor economics, marketing, and personnel management.

Choose your courses with your College Advisor.

**PATHWAY: Business/Economics**

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This area of study combines business classes with courses in economics. An Associate in Arts with a business emphasis prepares you to transfer to a four-year university to earn a Bachelor’s degree that opens the door to a career in business, management, marketing, accounting, investment banking, stock market trading and lots more. This pathway will supply you with basic tools you need to meet the demands of the workforce economy.

This is an example course sequence for students interested in pursuing Business. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Arts (AA) degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. Following this pathway will help you earn your associate degree, which will increase your chances of transfer to bachelor’s-level programs. Choose Illinois Articulation Initiative (IAI) courses to fulfill general education requirements whenever possible. Visit www.itransfer.org and speak with your college advisor to learn more about IAI.

Choose your courses with your College Advisor.

PATHWAY: Management/Marketing
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a degree in Management/Marketing. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn a Basic Certificate (BC), Advanced Certificate (AC) and Associate in Applied Science Degree (AAS) in Management/Marketing. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. The AAS degree program in Management/Marketing is the study of basic business skills along with more in-depth study in a chosen field such as management, marketing, or entrepreneurship. Completion of the program can lead to employment as assistant, trainee, supervisor, or manager in manufacturing, merchandising, service firms, or government service. The program also prepares graduates to start a business or improve the operations of a currently existing business.

Choose your courses with your College Advisor.

Programs offered at: Mobile, Beverly, Oak Grove, River, Sycamore, Dawn.
PATHWAY: Paralegal
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in Paralegal. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Applied Science (AAS) Degree. All prescribed courses on this pathway are required for the degree. Courses may not be substituted. Students should meet with a College Advisor for selection of elective courses.

The AAS degree program for Paralegal prepares students with the necessary skills to become highly trained paralegals to meet the needs of corporations, law firms and offices, and other sectors where law-related work is performed. Students completing an AAS in Paralegal are employable in any area where law-related work is conducted. Paralegals may not provide legal services directly to the public, except as permitted by law. The AAS program at Wright College is approved by the American Bar Association.

Choose your courses with your College Advisor.

**PATHWAY:** Real Estate Broker Pre-Licensure

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a Basic Certificate (BC) in Real Estate Broker Pre-Licensure. If this pathway is followed as outlined, you will earn a Basic Certificate. It does not represent a contract, nor does it guarantee course availability. The Real Estate program meets the required course content and hours for the Illinois Department of Financial and Professional Regulations (IDFPR). Students who successfully complete the Real Estate Broker course work and hours are eligible to apply for the state licensure exam. The program is for individuals without any prior IDFPR Real Estate license.

**DEGREE CODE:**
BC 833

Choose your courses with your College Advisor.

*This program requires COMPASS TEST SCORES:*
Reading Score: 72 or higher and Mathematics Score: Algebra scores of 49 or higher

D = DEGREE // AC = ADVANCED CERTIFICATE // BC = BASIC CERTIFICATE
Chicago is home to some of the most unique and legendary buildings in the world; each of these buildings are the result of the collaboration of thousands of workers in the construction field. From those using the latest CAD technologies to design and engineer the blueprints, to those managing the construction projects and installing necessary amenities such as heating, ventilation and plumbing, all contribute to the industry, creating structures that generations will walk through. If you have an interest in learning more about the construction process, from planning to completion, you should consider the field of Construction Technology.

PATHWAY: Air Conditioning and Refrigeration

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in pursuing Air Conditioning and Refrigeration. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn Basic Certificates (BC’s) in Commercial Refrigeration (CR), Domestic Refrigeration (DR) and Heating (H), and an Associate in Applied Science (AAS) degree in Air Conditioning and Refrigeration. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below.

The AAS in Air Conditioning and Refrigeration studies the design, selection, maintenance, testing and installation of residential and commercial air conditioning, refrigeration and heating and ventilation systems, and business skills. The degree can lead to self-employment or employment as an assistant to engineers in an industrial or business facility, air conditioning and refrigeration mechanic, furnace installer, oil burner mechanic or a gas furnace mechanic with cooling and heating dealers, contractors, or utility companies.

Choose your courses with your College Advisor.

Programs offered at: [CCC](http://www.ccc.edu)
PATHWAY: Bricklayer *

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in pursuing Bricklayer. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn a Basic Certificate (BC) in Bricklayer.

The courses below will allow you to earn a BC from the City Colleges of Chicago. The BC program for Bricklaying is designed to provide students with an understanding of the bricklaying trade. Students will receive hands on training in the building of solid walls and chimneys, using bricks and block and a range of bonds as well as learning basic blueprint reading. Completion of this degree will prepare students for a career as a Stonemason.

DEGREE CODE:
BC 760

Choose your courses with your College Advisor.

**PATHWAY:** Combination Welder *

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in pursuing welding. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn a Basic Certificate (BC) in Welder (Combination).

The Basic Certificate program in Welder (Combination) is designed to provide students with training in basic welding skills in a shop setting. In addition to learning welding mathematics, blueprint reading, layout and fabrication, students are also introduced to the basic fundamentals of job safety and ethics. Graduates of this program are qualified for entry level employment as an ARC, MIG, or TIG welder.

PATHWAY: Concrete Masonry *
Visit your College Advisor, ccc.edu, or your college's Transfer Center for more information.

This is an example course sequence for students interested in earning the Basic Certificate (BC) in Concrete Masonry. If this pathway is followed as outlined, you will earn a BC. This does not represent a contract, nor does it guarantee course availability.

The BC program in Concrete Masonry includes orientation to the cement masonry trade, industry terminology and blueprint reading. Hands on training includes the proper use and maintenance of tools and instruction in job safety procedures. Students will learn the basic ingredients of concrete, rodding placement and floating, basic set-up and form work and clean-up.

**PATHWAY: Construction Carpentry**

Visit your College Advisor, ccc.edu, or your college's Transfer Center for more information.

This is an example course sequence for students interested in Construction Carpentry. If this pathway is followed as outlined, students will earn a Basic Certificate (BC) for Construction Carpentry. This does not represent a contract, nor does it guarantee course availability.

The BC in Construction Carpentry prepares students for an entry level apprentice position with a construction contractor. The program provides instruction in tool safety and usage, construction materials, work site safety, blueprint reading, and mathematical concepts. Course content also includes an introduction to the trades and basic ARC welding. Theory and practical “hands-on” application are emphasized throughout the program. Students will receive the OSHA construction Safety and Health 10-hour Certification and Scaffold Certification upon successful completion of the program.

**PATHWAY:** Construction Management *

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a degree in Construction Management. If the pathway is followed as outlined, student will earn an Associate in Applied Science degree. Courses may be substituted within the indicated categories (except Communications courses).

This pathway is a suggested set of courses that will allow you to earn an Associate in Applied Science (AAS) in Construction Management degree from the City Colleges of Chicago. This degree is required for construction managers. Construction management and technology is a broad field and this degree will prepare you for well-paying management positions.

Choose your courses with your College Advisor.

Student must be eligible for Mathematics 98 and Reading 99, and English 101 to enter the program.

**PATHWAY:** Gas Utility Worker  
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in gas utility work. If this pathway is followed as outlined, you will earn an Advanced Certificate (AC) in Gas Utility Worker. This does not represent a contract, nor does it guarantee course availability.

The Gas Utility Worker Program consists of general education courses and core courses that feature specific competencies in the safe construction and operation of natural gas distribution systems. The program takes a student through a series of basic and advanced skill sets designed to enhance on-the-job performance and to quickly bring the student to the level of a full-functioning, skilled worker once employed. Upon completion, students who graduate from this program will be prepared to work as a utility worker in the gas utility industry.

Choose your courses with your College Advisor.  
Student must be eligible for Mathematics 98, Reading 99, and English 101 to enter the program.

CULINARY ARTS AND HOSPITALITY

With food and board being such comforting and integral parts of our home lives, it can be easy to forget that Culinary and Hospitality is an enormous industry in America, employing tens of millions of people. From the smallest neighborhood restaurant to the most luxurious metropolitan hotel, skilled chefs, caterers, and hospitality personnel are needed to provide guests and diners with exceptional food and lodging. If you have a passion for cooking, baking, or organizing staff and events, Culinary Arts and Hospitality may be a good fit for you.

PATHWAY: Baking and Pastry Arts
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a degree in Baking and Pastry Arts. If this pathway is followed as outlined, you will earn a Basic Certificate (BC), an Advanced Certificate (AC) and Associate in Applied Science (AAS) degree in Baking and Pastry Arts. It does not represent a contract, nor does it guarantee course availability. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below.

The AAS degree program in Baking and Pastry Arts is a sequential learning program taught over four semesters. All semesters include lecture, discussion, demonstration and hands-on production that allow students to practice the techniques of Baking and Pastry production in a commercial bakeshop environment. This program includes production for restaurant and bakeshop sales, offering the student real-world experience in the field.

Choose your courses with your College Advisor.

Student must be eligible for English 100, Reading 125, and Mathematics 98 to begin core curriculum classes.

Programs offered at: 🎓 🎓 🎓 🎓 🎓
PATHWAY: Culinary Arts
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a degree in Culinary Arts. If this pathway is followed as outlined, you will earn a Basic Certificate (BC), an Advanced Certificate (AC) and an Associate in Applied Science (AAS) degree in Culinary Arts. It does not represent a contract, nor does it guarantee course availability. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below.

The AAS degree program in Culinary Arts is a sequential learning program taught over four semesters. All semesters include lecture, discussion, demonstration and hands-on production that allow students to practice the techniques of food production in a commercial food service environment. The curriculum includes additional methods and techniques that will increase the student’s repertoire of ethnic and classical menus. In addition, the coursework covers management skills, cost control, budgeting techniques, merchandising, business planning, resume writing and interviewing techniques. General education classes must be completed to satisfy the degree requirements. Students will receive the ServSafe® Sanitation Certification and will be eligible for the City of Chicago and State of Illinois Sanitation certificates upon completion.

The AC program in Culinary Arts is comprised of all courses included in the parent Culinary Arts 362 AAS program with the exception of the general education classes and advanced cooking course. The Advanced Certificate Program focuses on advanced techniques and offers extensive practice utilizing contemporary and classical menus. Students will receive the ServSafe® Sanitation Certification and will be eligible for the City of Chicago and State of Illinois Sanitation certificates upon completion.

The Basic Certificate in the Culinary Arts curriculum introduces the student to the commercial kitchen environment by covering safety and sanitation procedures, basic mise en place including knife skills and station set-up, proper use and care of equipment, classical cooking terminology, standard cooking methods, stock preparation, and sauce production. This program is designed to give the student the opportunity to investigate and assess Culinary Arts as a possible career goal.

Choose your courses with your College Advisor.

Student must be eligible for English 100, Reading 125, and Mathematics 98 to begin core curriculum classes.

Culinary Arts and Hospitality

**PATHWAY: Hospitality Management**
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a degree in Hospitality Management. If this pathway is followed as outlined, you will earn a Basic Certificate (BC) in Culinary Arts and an Advanced Certificate (AC) and an Associate in Applied Science Degree (AAS) in Hospitality Management. It does not represent a contract, nor does it guarantee course availability. Courses may be substituted within the indicated categories (except Communications courses). One course will satisfy the Human Diversity (HD) requirement, and is labeled with an “HD” in the sequence below. The Associate in Applied Science degree in Hospitality Management continues to focus on building management skills and provides for jobs as guest service agents, front office supervisors, sales managers, event planners, hotel managers, food and beverage managers, assistant food and beverage directors, food and beverage directors, beverage managers, guest services managers, and directors of catering.

Choose your courses with your College Advisor.

Student must be eligible for English 100, Reading 125, and Mathematics 98 to begin core curriculum classes.

PATHWAY: L’art de la Pâtisserie (Pastry and Baking Program)
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in pastry and baking. If this pathway is followed as outlined, you will earn a Basic Certificate (BC) in Cake Decorating and Baking (L’art de la Pâtisserie). It does not represent a contract, nor does it guarantee course availability. The Basic Certificate program in Professional Pastry and Baking through Kennedy-King College’s French Pastry School offers excellent innovative and effective pastry, baking, and confectionery arts education in the L’art de la Pâtisserie inclusive 24-week certificate program. Instructed by some of the best pastry artisans in the world, students receive intensive hands-on practice, using the finest ingredients and equipment, in order to be optimally prepared to pursue a career in pastry. The Basic Certificate Program offers the rare opportunity to learn the art of pastry in an intimate setting, where students are personally mentored by masters. Students’ skills are finely honed through hands-on practice and repeated exposure to the best pastry techniques, tools, and ingredients.

Choose your courses with your College Advisor.

PATHWAY: L'art du Gâteau  
(Cake Decorating and Baking Program)

This is an example course sequence for students interested in cake decorating and baking. If this pathway is followed as outlined, you will earn a Basic Certificate (BC) in Cake Decorating and Baking (Professional) (L’art du Gâteau). It does not represent a contract, nor does it guarantee course availability. The Basic Certificate program in Professional Cake Decorating and Baking allows students to learn from internationally-renowned master chef instructors in L’art du Gâteau offered by Kennedy-King College’s French Pastry School. This all-inclusive, 16-week, full-time certificate program is custom-designed to meet the needs of students who want to specialize in the prestigious art of cake baking and decorating. This unique hands-on program focuses on all aspects involving the creation of wedding, celebration, and specialty cakes. Personal attention from chef mentors is given every day in the kitchen, providing a comfortable, yet thorough training.

Calling all active listeners, idealists, caregivers, mediators, those who are happiest when they are helping someone else, those who feel most fulfilled when they are improving the lives of those around them, this is the focus area for you. The education sector covers all aspects of teaching, beginning from the very youngest students, reaching across subjects like mathematics, science and languages. Do you remember your favorite teacher? The one you inspired to dream big and then supported you to pursue those dreams? If you have the desire to inspire others, you should definitely consider the field of Education.

**PATHWAY: Child Development: Early Childhood Education**

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

Are you interested in learning about how children learn, grow and thrive? Does the idea of joining the ranks of in-demand child care professionals excite you? If yes, then the Child Development Early Childhood pathway may be right for you. As a Child Development student at City Colleges you will learn about children’s social, emotional, and physical development, and the theories and real world skills required to teach children from birth to age 8.

There are a variety of education pathways students can explore. Outlined here are the steps we suggest you take to earn an Associate in Arts degree with a built-in Basic Certificate in Child Development: Pre-school Education. You can then transfer to a four-year institution. Early Childhood teachers at public schools in Illinois are required to earn a bachelor’s degree from an accredited College of Education and an Early Childhood Professional Educator license from the Illinois State Board of Education. If you are looking for shorter-term degree options, be sure to ask your College Advisor about City the Colleges’ Advanced Certificate and Associate in Applied Science degrees in Early Childhood Education.

This is an example course sequence for students interested in pursuing child development. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Arts (AA) degree and a Basic Certificate (BC) in Child Development: Pre-school Education. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. Following this pathway will help you get your associate degree, which will increase your chances of transfer to Bachelor’s-level programs of study. Choose Illinois Articulation Initiative (IAI) courses to fulfill general education requirements whenever possible. Visit www.itransfer.org and speak with your college advisor to learn more about IAI.

For information regarding teaching, licensure and certification requirements for the State of Illinois, please visit www.isbe.net. It is important to note that students must pass Illinois Certification Testing System (ICTS) Test of Academic Proficiency (TAP) test, or have 22 composite ACT score and 19 English/Writing combined for entrance into four-year College of Education institutions.

**Choose your courses with your College Advisor.**

PATHWAY: Child Development: Pre-school Education
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a degree in Child Development: Pre-school Education. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn a Basic Certificate (BC), an Advanced Certificate (AC) and an Associate in Applied Science (AAS) Degree in Child Development: Pre-school Education. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. The AAS degree program in Pre-school Education provides child development theory and skills for the student who intends to work immediately in a pre-school program as a teacher or teacher assistant in public and private preschools, child care centers, or nursery schools as well as prepare students to work as teacher aides and activities supervisors.

Choose your courses with your College Advisor.

Communications and mathematics pre-credit requirements. Placements based on COMPASS, ACT or department chair recommendation.

**Programs offered at:**

- D = DEGREE
- AC = ADVANCED CERTIFICATE
- BC = BASIC CERTIFICATE
PATHWAY: Child Development: School-Age Childcare
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a degree in Child Development: School-Age Childcare. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Applied Science (AAS) Degree in Child Development: School-Age Childcare. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. The AAS degree program in Child Development: School-Age Childcare provides graduates who have met the educational requirements to qualify as group workers and child care providers of school age children. The settings for which this focus is appropriate are private child-care centers and before-and after-school programs. Graduates of the program will also qualify to be assistant teachers or education support staff in public elementary schools.

Choose your courses with your College Advisor.

FOR MORE INFORMATION ON DEGREE AND CERTIFICATE PROGRAMS, PLEASE VISIT WWW.CCC.EDU
PATHWAY: Elementary Education

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

Are you interested in rewarding work that changes the lives of students? Are you organized, patient, and caring? If yes, then the Elementary Education pathway may be right for you. Elementary school teachers work with students from kindergarten through eighth grade, and teach a variety of subjects. Elementary school teachers are also required to earn a bachelor’s degree from an accredited program and obtain a Professional Educators License with an Elementary Education endorsement from the Illinois State Board of Education. The pathway below is ideal for students planning to transfer to a four-year institution to become teachers, or for students interested in going right to work as a Teacher Assistant.

This is an example course sequence for students interested in pursuing Elementary Education. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Arts (AA) degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. Following this pathway will help you get your associate degree, which will increase your chances of transfer to Bachelor’s-level programs of study. Choose Illinois Articulation Initiative (IAI) courses to fulfill general education requirements whenever possible. Visit www.itransfer.org and speak with your college advisor to learn more about IAI.

For information regarding teaching, licensure and certification requirements for the State of Illinois, please visit www.isbe.net. It is important to note that students must pass Illinois Certification Testing System (ICTS) Test of Academic Proficiency (TAP) test, or have 22 composite ACT score and 19 English/Writing combined for entrance into four-year College of Education institutions.

Choose your courses with your College Advisor.

Programs offered at: 🌐
PATHWAY: French Teacher
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

If you have a passion for the French language and are interested in becoming an educator, the French Teacher Education pathway may be right for you. In addition to taking classes in French literature, language, and culture, you will also study topics such as teaching methodology and educational psychology. French teachers generally work with students in the middle grades and high school. An aspiring French teacher who plans to work in public Illinois schools must earn a bachelor’s degree with a major in the Teaching of French from an accredited program and obtain a Professional Educator License with a Secondary Education endorsement in French from the Illinois State Board of Education.

The pathway below is ideal for students planning to transfer to a four-year institution to become teachers, or for students interested in working as Teacher Assistants.

This is an example course sequence for students interested in pursuing French Education. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Arts (AA) degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. Programs offered at:
PATHWAY: High School Biology Teacher
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

If you love science and want to inspire others to be independent thinkers, you might enjoy a career as a science teacher. The High School Biology Teacher pathway begins your preparation to teach biology to high school students. You’ll find yourself using computers to do research and interactive science lessons, and participating in activities that range from lab experiments to nature field trips. Most aspiring science teachers will need a bachelor’s degree and from an IL teacher certification program. Get started now by earning your associate degree from City Colleges, transfer to a four-year teacher certification program as a junior, and start a career as the mad science teacher in a high school.

This is an example course sequence for students interested in pursuing Biology Education. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Science (AS) degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. Following this pathway will help you get your associate degree, which will increase your chances of transfer to Bachelor’s-level programs of study. Choose Illinois Articulation Initiative (IAI) courses to fulfill general education requirements whenever possible. Visit www.transfer.org and speak with your college advisor to learn more about IAI.

For information regarding teaching, licensure and certification requirements for the State of Illinois, please visit www.isbe.net. It is important to note that students must pass Illinois Certification Testing System (ICTS) Test of Academic Proficiency (TAP) test, or have 22 composite ACT score and 19 English/Writing combined for entrance into four-year College of Education institutions.

PATHWAY: High School English Teacher

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

How can you tell if you’d enjoy turning students on to the wonders of words? If you’re entranced by English and enjoy helping others, consider the High School English Teacher pathway. You’ll learn how to teach English grammar, composition and literature at grades ranging from seventh through twelfth grade. Get started now by earning your associate degree from City Colleges, transfer to a four-year college as a junior, and earn your Bachelor’s degree and teacher certification credential. You could become the middle or high school teacher everyone dreams of having.

This is an example course sequence for students interested in pursuing English Education. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Arts (AA) degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. SEMESTER-BY-SEMESTER PROGRAM PLAN FOR FULL-TIME STUDENTS

All plans can be modified to fit the needs of part-time students by adding more semesters.

D = DEGREE // AC = ADVANCED CERTIFICATE // BC = BASIC CERTIFICATE

Programs offered at: [ CCC ]
PATHWAY: High School Mathematics Teacher
Visit your College Advisor, ccc.edu, or your college's Transfer Center for more information.

Many people think of mathematics as a dry, abstract subject that has little to do with real life. Nothing could be further from the truth. We can thank mathematics for what we know about the reaches of outer space and the depths of the ocean. We need mathematics to build skateboard ramps, balance checkbooks, and bake cookies. And those who take their mathematics studies beyond the basics have a world of great career options ahead of them. If you enjoy puzzling over mathematics problems and explaining concepts to others, the Middle/High School Mathematics Teacher pathway might be for you. This pathway allows you to transfer to a four-year college as a junior, earn your bachelor’s degree and teacher certification and become a mathematics teacher.

This is an example course sequence for students interested in pursuing Mathematics. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Science (AS) degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. For more information on degree and certificate programs, please visit www.ccc.edu.
PATHWAY: High School Social Science Teacher

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

Kids deserve to learn about the world—its history, cultures, behaviors, and politics—so that they can shape the future. They need facts. And they need the skills to analyze and organize those facts so they can form opinions and take action. Can you see yourself empowering kids to become more engaged citizens? If so, consider our social science teacher education pathway. You’ll learn how to teach general social studies to students of various ages. You’ll take social studies courses, such as history and political science, as well as courses in lesson planning, classroom management, and psychology. Get started by earning your associate degree with City Colleges of Chicago, transfer to a four-year university as a junior to earn your bachelor’s degree and teacher certification. You could make a career as a social science teacher.

This is an example course sequence for students interested in pursuing Social Science Education. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Arts (AA) degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. Following this pathway will help you get your associate degree, which will increase your chances of transfer to Bachelor’s-level programs of study. Choose Illinois Articulation Initiative (IAI) courses to fulfill general education requirements whenever possible. Visit www.itransfer.org and speak with your college advisor to learn more about IAI.

For information regarding teaching, licensure and certification requirements for the State of Illinois, please visit www.isbe.net. It is important to note that students must pass Illinois Certification Testing System (ICTS) Test of Academic Proficiency (TAP) test, or have 22 composite ACT score and 19 English/Writing combined for entrance into four-year College of Education institutions.

Choose your courses with your College Advisor.

**D = DEGREE // AC = ADVANCED CERTIFICATE // BC = BASIC CERTIFICATE**
PATHWAY: K–12 Physical Education Teacher
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

What do all of the world class athletes have in common? They all have gifted teachers and coaches behind them, people who have helped them reach the heights of strength, grace, and speed. But coaches and physical education teachers don’t just groom future sports celebrities. By working in schools and youth programs, they help all young people have fun while getting fit. Do you want to help kids become confident, coordinated, and team-spirited? If so, consider our physical education teacher pathway. This pathway is designed so you can transfer to a four-year university as a junior, get your bachelor’s degree, and start a career as a physical education teacher.

This is an example course sequence for students interested in pursuing Physical Education. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Arts (AA) degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. Following this pathway will help you get your associate degree, which will increase your chances of transfer to Bachelor’s-level programs of study. Choose Illinois Articulation Initiative (IAI) courses to fulfill general education requirements whenever possible. Visit www.transfer.org and speak with your college advisor to learn more about IAI.

For information regarding teaching, licensure and certification requirements for the State of Illinois, please visit www.isbe.net. It is important to note that students must pass Illinois Certification Testing System (ICTS) Test of Academic Proficiency (TAP) test, or have 22 composite ACT score and 19 English/Writing combined for entrance into four-year College of Education institutions.

Choose your courses with your College Advisor.

PATHWAY: K–12 Special Education Teacher

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

Interested in helping unlock the mysteries behind misunderstood minds? Do you have great expectations for all children? The special education classroom needs you! You’ll need to be a team-player, someone who celebrates difference and an assertive advocate, since part of your role will be to make sure your students get the services they need. Follow the Special Education Teacher pathway and you will be on your way to be prepared to teach students with special learning needs or disabilities. If you plan to teach in public schools you will need to attain at least a bachelor’s degree, generally in special education, and complete a teacher education program, which includes a student teaching experience. Get started right now by earning your associate degree from City Colleges of Chicago, transfer as a junior to a four-year college, earn your bachelor’s degree and start a career as a life-changing teacher.

This is an example course sequence for students interested in pursuing Special Education. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Arts (AA) degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. Following this pathway will help you get your associate degree, which will increase your chances of transfer to Bachelor’s-level programs of study. Choose Illinois Articulation Initiative (IAI) courses to fulfill general education requirements whenever possible. Visit www.itransfer.org and speak with your college advisor to learn more about IAI.

For information regarding teaching, licensure and certification requirements for the State of Illinois, please visit www.isbe.net. It is important to note that students must pass Illinois Certification Testing System (ICTS) Test of Academic Proficiency (TAP) test, or have 22 composite ACT score and 19 English/Writing combined for entrance into four-year College of Education institutions.

Choose your courses with your College Advisor.

Programs offered at:
**PATHWAY: Middle School Science Teacher**

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

If you love science and want to inspire others to be independent thinkers, you might enjoy a career as a science teacher. The Middle School Science Teacher pathway prepares students to teach general science or a combination of biological and physical science at the middle school grades. You’ll find yourself using computers to do research and interactive science lessons, and participating in activities that range from lab experiments to nature field trips. Most aspiring science teachers will need a bachelor’s degree and from an IL teacher certification program. Get started now by earning your associate degree from City Colleges, transfer to a four-year teacher certification program as a junior, and start a career as the mad science teacher in a middle school.

This is an example course sequence for students interested in pursuing Science Education. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Science (AS) degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. Following this pathway will help you get your associate degree, which will increase your chances of transfer to Bachelor’s-level programs of study. Choose Illinois Articulation Initiative (IAI) courses to fulfill general education requirements whenever possible. Visit www.transfer.org and speak with your college advisor to learn more about IAI.

For information regarding teaching, licensure and certification requirements for the State of Illinois, please visit www.isbe.net. It is important to note that students must pass Illinois Certification Testing System (ICTS) Test of Academic Proficiency (TAP) test, or have 22 composite ACT score and 19 English/Writing combined for entrance into four-year College of Education institutions.

Programs offered at: [ccc.edu](http://ccc.edu)
PATHWAY: Spanish Teacher
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

If you have a passion for the Spanish language and are interested in becoming an educator, the Spanish Teacher Education pathway may be right for you. In addition to taking classes in Spanish literature, language, and culture, you will also study topics such as teaching methodology and educational psychology. Spanish teachers generally work with students in the middle or high school grades. An aspiring Spanish teacher who plans to work in public Illinois schools must earn a bachelor’s degree with a major in the Teaching of Spanish from an accredited program and obtain a Professional Educator License with a Secondary Education endorsement in Spanish from the Illinois State Board of Education. The pathway below is ideal for students planning to transfer to a four-year institution to become teachers, or for students interested in working as Teacher Assistants.

This is an example course sequence for students interested in pursuing Spanish Education. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Arts (AA) degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. Following this pathway will help you get your associate degree, which will increase your chances of transfer to Bachelor’s-level programs of study. Choose Illinois Articulation Initiative (IAI) courses to fulfill general education requirements whenever possible. Visit www.itransfer.org and speak with your college advisor to learn more about IAI.

For information regarding teaching, licensure and certification requirements for the State of Illinois, please visit www.isbe.net. It is important to note that students must pass Illinois Certification Testing System (ICTS) Test of Academic Proficiency (TAP) test, or have 22 composite ACT score and 19 English/Writing combined for entrance into four-year College of Education institutions.

Choose your courses with your College Advisor.

**COMPLETION** of Associate in Arts Degree in Spanish Teacher
**DO THIS**—Apply to four-year schools of your choice
**DO THIS**—Participate in the Oral Proficiency Interview*

16 CREDIT HOURS

**DEGREE MINIMUM: 62 CREDIT HOURS // PATHWAY TOTAL: 63 CREDIT HOURS**

*Upon completion of all 4 semesters of Spanish, Truman College offers its graduates the option to participate in the OPI (Oral Proficiency Interview), a highly regarded measure developed by the American Council of Teachers of Foreign Languages (ACTFL) to determine language speaking proficiency.*

D = DEGREE // AC = ADVANCED CERTIFICATE // BC = BASIC CERTIFICATE

Programs offered at: [CCC](http://www.ccc.edu)
When illness threatens the well-being of yourself or a loved one, nothing can be more comforting than the knowledge and expertise of a qualified healthcare professional. People in the health sciences work to prevent, diagnose, and treat illnesses and injuries. Some work with specific tissues or fluids, like phlebotomists, while others, like morticians, work with human remains. If you value helping others, and you enjoy science classes, consider a career in Healthcare.

**PATHWAY:** Basic Nursing Assistant

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a Basic Certificate in Basic Nursing Assistant. If this pathway is followed as outlined, you will earn a Basic Certificate (BC). It does not represent a contract, nor does it guarantee course availability.

This Illinois Department of Public Health approved certificate program for Basic Nursing Assistant (BNA) prepares students to work in the health care industry as a Certified Nursing Assistant (CNA). Students will be introduced to the discipline of nursing and the basic approaches to patient care. The role of the CNA as an assistant to the licensed nurse and member of the health care team is studied and practiced in the classroom, laboratory and clinical setting. Upon successful completion of all components of the program, the graduate must pass the State competency exam to become certified as a Nursing Assistant in the State of Illinois.

---

**BC SEMESTER 1 CATEGORY ACHIEVEMENTS & NEXT ACTIONS**

- **•** Short-Term Health 624—Fundamentals of Nursing Assistant Personnel (6)  
  Required Program Core  
  **COMPLETION** of Basic Certificate in Nursing Assistant (Basic)
  **DO THIS:** Meet with advisor to discuss academic goals and plan coursework

- **•** Short-Term Health 625—Clinical Nursing Assistive Personnel (2)  
  Required Program Core

**CERTIFICATE MINIMUM: 8 CREDIT HOURS // PATHWAY TOTAL: 8 CREDIT HOURS**

### PATHWAY: Community Health Care Worker

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a degree in Community Health Care Worker. If this pathway is followed as outlined, you will earn a Basic Certificate (BC), an Advanced Certificate (AC) and an Associate in Applied Science (AAS) Degree in Community Health Care Worker. It does not represent a contract, nor does it guarantee course availability. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. The Community Health Care Worker program is designed to focus on competencies universally required for primary and preventive health care. The curriculum also serves students who may wish to enter into a nursing program or other allied health professions. Research shows that many health educator programs at the university level (bachelor, masters) require as a core curriculum the same knowledge and competence areas incorporated into this program.

This program is scheduled for modifications in Spring 2016. Please look for changes come November 2015.

Choose your courses with your College Advisor.

Healthcare

PATHWAY: Dental Hygiene
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a degree in Dental Hygiene. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Applied Science (AAS) Degree in Dental Hygiene.

The Dental Hygiene AAS degree program provides specialized educational, clinical, and therapeutic services in preventive oral healthcare preparing graduates for national, regional, and state board examinations required for licensure as registered dental hygienist. Major responsibilities include examination of the teeth and oral structures; the removal of plaque, calculus and stain from teeth; exposing and developing x-rays; and educating patients in home oral healthcare techniques.

Prospective students must apply for admission into the Dental Hygiene program

Program Admission Requirements

The program is very competitive, and having the minimum requirements does not indicate that you will be accepted into the program. Students having less than minimum requirements will not be considered. In order to enter the program students must:

- Be at least 18 years of age
- Graduate from an accredited high school or earn a GED
- Meet general admissions requirements for Malcolm X College including successful completion of all prerequisite courses for the Dental Hygiene program
- Have a minimum cumulative GPA of 2.5 in all college-level work
- Take the Health Occupations Aptitude Examination and Reading Test
- “C” grade or higher in Biology 121, Chemistry 121, Biology 226 and 227, Human Diversity course, and Microbiology 233

Please note: Semesters 1–3 are “pre-dental hygiene pathway”. Semesters 4–9 occur after acceptance in the Dental Hygiene program. Biology 120 is not required.

Choose your courses with your College Advisor.

Communications and mathematics pre-credit requirements. Placements based on COMPASS, ACT or department chair recommendation.

**COMPLETION of Associate in Applied Science degree in Dental Hygiene**

**13 CREDIT HOURS**

**DEGREE MINIMUM: 72 CREDIT HOURS // PATHWAY TOTAL: 96 CREDIT HOURS**

**D = DEGREE // AC = ADVANCED CERTIFICATE // BC = BASIC CERTIFICATE**

**Programs offered at:**

For more information on degree and certificate programs, please visit [www.ccc.edu](http://www.ccc.edu).
PATHWAY: EMT (II)–Paramedic
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

Malcolm X College offers the only paramedic program in the City of Chicago. It offers an Advanced Certificate (AC) as well as an Associate in Applied Science degree (AAS) in this professional specialty. Successful completion of the Paramedic Core Curriculum culminates in the Advanced Certificate, and additional general education courses enables the paramedic student to attain an AAS degree. Completion of the degree can broaden the student’s marketability as well as provide a strong basis for continued professional learning.

This program is presented as a collaborative effort by Malcolm X College and the Chicago EMS Region XI, which includes the Chicago Fire Department, Advocate Illinois Masonic Medical Center, JHS Cook County Hospital, Northwestern Memorial Hospital, University of Chicago Hospitals and regional Associate Hospitals.

The Malcolm X College Paramedic Program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP). The program is approved by the Illinois Department of Public Health, Division of Emergency Medical Services and Highway through JHS Cook County (Resource) Hospital.

This is an example course sequence for students interested in EMT (II)–Paramedic. If this pathway is followed as outlined, student will earn an Associate in Applied Science degree in EMT (II)–Paramedic. This does not represent a contract, nor does it guarantee course availability.

Prospective students must apply for admission into the Paramedic program

<table>
<thead>
<tr>
<th>PROGRAM ADMISSION REQUIREMENTS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Courses run for three consecutive semesters starting each fall semester. Applications are accepted the previous spring. To be considered for admission the applicant must:</td>
</tr>
<tr>
<td>Be at least 18 years of age</td>
</tr>
<tr>
<td>Graduate from an accredited high school or earn a GED</td>
</tr>
<tr>
<td>Be currently licensed by the State of Illinois as an EMT-B.</td>
</tr>
<tr>
<td>Demonstrate an aptitude in college-level science course by earning a passing grade of C or better in 4 credit hour (with a lab) General Biology, Anatomy and Physiology, General Chemistry, articulated military course or successfully complete an equivalency exam. (CCC courses that apply include Biology 116, 121, 226, and Chemistry 201)</td>
</tr>
</tbody>
</table>

Students enrolled in a current Spring semester EMT class from any other college who have not passed the EMT licensing exam by the application deadline, are not eligible to apply. Students enrolled in the Spring semester EMT class at Malcolm X College are eligible to apply with a current course grade of B or better.

APPLICANT INTERVIEWS AND STUDENT SELECTION

Interviews with the EMS Region XI Admissions Committee are granted to those applicants who have met or exceeded admission criteria. Selection of candidates for this program is highly competitive and selections are made based on interview. Evaluation of applicant ability is based on academic history, EMS work experience, references, and communication skills. Emphasis is placed on academic history as demonstrated by GPA, and motivation as demonstrated by commitment and adaptability to the EMS field.

PARAMEDIC CORE CURRICULUM

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a degree in Fire Science Management. If this pathway is followed as outlined, you will earn an Associate in Applied Science (AAS) degree in Fire Science Management. It does not represent a contract, nor does it guarantee course availability. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below.

The Fire Science Management degree is designed to concentrate on management and officer training with a target population of those who are already employed in a fire service and particularly addressing the specific higher education needs of the Chicago Fire Department (CFD).

PATHWAY: Health Information Management (HIM)
Visit your College Advisor, ccc.edu, or your college's Transfer Center for more information.

This is an example course sequence for students interested in earning a degree in Health Information Management. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn a Basic Certificate (BC) in Medical Billing, an Advanced Certificate (AC) in Medical Coding and an Associate in Applied Science (AAS) Degree in Health Information Management.

The Health Information Management (HIM) program prepares students with the knowledge, skills, and abilities to organize and manage health information data in both paper and electronic systems. Students will acquire knowledge and develop application skills for a variety of classification systems to code for reimbursement, databases and registries, and the maintenance of patients' medical and treatment histories. Program graduates will be eligible to earn the following: a basic certificate in billing, an advanced certificate in coding and/or an AAS degree in Health Information Management. Completion of this program leads to roles in data collection, data abstraction, enhanced coding and monitoring, maintenance and reporting activities. The Basic Certificate will prepare students to obtain entry level positions as medical billers in hospitals, physician private practices, as well as insurance companies. The Advanced Certificate in medical coding equips students for roles as medical coders in hospitals, physician private practices, as well as insurance companies. The AAS will prepare students for advanced biller/coder roles as well as for entry level roles in the information systems department of healthcare systems and insurance companies.

Revisions to these programs will be effective Spring 2016.

Prospective students must apply for admission into the Health Information Management program.

**PROGRAM ADMISSION REQUIREMENTS**
To be considered for admission to the Health Information Management Program of Study, a student must:

- Have at least a GPA of 2.0
- Have an interview with the Health Information Management (HIM) Director or Department Chairperson
- English 101 eligibility
- Students must attend a Healthcare orientation prior to the start of the semester
- Students must receive approval from the Director or Department Chairperson of HIM
- Background Check
- Completion of Biology 120 with a grade of “C” or better
- Students who meet the admission requirements above will be required to receive approval from the Director or Department Chairperson of HIM

**BACKGROUND CHECK**
Students entering most healthcare professions programs will be required to present documentation of health history and vaccination status, to undergo annual tuberculosis screening, to submit to background check, to submit to initial and random drug screening, and to undergo fingerprinting prior to licensing with the state of Illinois. Students should consult with a College Advisor if any of these requirements are a concern.

Communications and mathematics pre-credit requirements. Placements based on COMPASS, ACT or department chair recommendation.

**14 Credit Hours**

**Degree Minimum: 61 Credit Hours // Pathway Total: 61 Credit Hours**
**PATHWAY:** Health Professions–Patient Care Technician

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in health professions. If this pathway is followed as outlined, you will earn a Basic Certificate (BC) in Health Professions–Patient Care Technician. This does not represent a contract, nor does it guarantee course availability.

The Health Professions–Patient Care Technician basic certificate provides the educational background required for pursuing a career in the healthcare industry. The curriculum covers the foundational knowledge, skills, and abilities needed to function as an entry-level healthcare provider. The program focuses on student development in the following competencies essential to all healthcare providers: effective communication, accountability, cultural competence, use of information systems, and patient safety. Upon completion of the BC, students will demonstrate that they can deliver safe, culturally-competent, and evidence-based patient care.

**Prospective students must apply for admission into the Health Professions program**

**PROGRAM ADMISSION REQUIREMENTS**

College reading skills as determined by one or more of the following: MXT Reading/Comprehension Placement test (e.g. COMPASS); grade of “C” or better in English 100. Completion of Basic Nursing Assistant courses at CCC or current certification as a Certified Nursing Assistant. Must attend mandatory orientation for basic certificates in the Health Sciences department before the start of the semester.

Students that meet all of the minimum admission requirements listed above may be scheduled for an interview with the program director. Students that complete this interview will be considered for admission to the program. Students are advised to prepare for the interview, to arrive early, and to dress appropriately for a professional interview.

**BACKGROUND CHECK**

Students entering most healthcare professions programs will be required to present documentation of health history and vaccination status, to undergo annual tuberculosis screening, to submit to a background check, to submit to initial and random drug screening, and to undergo finger printing prior to licensing with the state of Illinois. Students should consult with an advisor if any of these requirements are a concern for the student.

**PATHWAY: Massage Therapy**

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in massage therapy. If this pathway is followed as outlined, student will earn an Advanced Certificate (AC) in Massage Therapy. This does not represent a contract, nor does it guarantee course availability.

The Advanced Certificate Massage Therapy program will provide students with the skills and knowledge to sit for the Massage and Bodywork Licensing Exam (MBLEX). Course completers will be eligible to apply for massage therapy licensing through the Illinois Department of Financial and Professional Regulation.

Provides the educational background required for pursuing a career as a massage therapist. The curriculum covers the foundational knowledge, skills, and abilities needed to function as a licensed massage therapist. The program focuses on student development in therapist-client communication, ethical massage practice, professionalism, business skills, self-care practices, and cultural competence.

Employment opportunities for massage therapist include spas, health clubs, chiropractic practices, physical therapy clinics, hospitals and private practice.

Prospective students must apply for admission into the Massage Therapy program

**PROGRAM ADMISSION REQUIREMENTS**

For admission, students must be eligible for English 101. In addition, students must attend the Healthcare orientation prior to the start of the semester.

**BACKGROUND CHECK**

Students entering most healthcare professions programs will be required to present documentation of health history and vaccination status, to undergo annual tuberculosis screening, to submit to a background check, to submit to initial and random drug screening, and to undergo fingerprinting prior to licensing with the state of Illinois. Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in medical assistant. If this pathway is followed as outlined, you will earn an Advanced Certificate (AC) in Medical Assistant. This does not represent a contract, nor does it guarantee course availability.

The Advanced Certificate program for Medical Assistant prepares students to become multi-skilled health care professionals qualified to perform administrative, clinical, and laboratory procedures in a doctor’s office, clinic, hospital, or other medical setting.

Prospective students must apply for admission into the Medical Assistant program

PROGRAM ADMISSION REQUIREMENTS

- Must complete application with College Advisor at Humboldt Park Vocational Educational Center (HPVEC).
- Fall cohort admission only, application due in the summer.
- COMPASS placement into college level English and Mathematics, otherwise complete Mathematics 99 and English 100 with a “C” or higher.
- Course pre-requisites must be completed with a “C” or higher.
- High School Diploma or GED required.

Choose your courses with your College Advisor.

Communications and mathematics pre-credit requirements. Placements based on COMPASS, ACT or department chair recommendation.

Programs offered at: [List of programs]
PATHWAY: Mortuary Science
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a degree in Mortuary Science. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Applied Science (AAS) Degree in Mortuary Science.

For additional accreditation specific information related to the aims and objectives of the program, please see the following link: www.ccc.edu/colleges/malcolm-x/programs/Pages/Mortuary-Science---Mission.aspx.

Prospective students must apply for admission into the Mortuary Science program

PROGRAM ADMISSION REQUIREMENTS

- Be at least 18 years of age.
- Official high school transcripts or General Education Certificate (GED) showing date of graduation or completion date (as applicable) for first-time college enrollment.
- Completion of 18 semester credit hours in Biology 120 or Health Science 102, Biology 121, English 101, Speech 101, and Mathematics 118 for fall/August day enrollment or, completion of 34 semester credit hours in Biology 120 or Health Science 102, Biology 121, English 101, Mathematics 118, Biology 226, Biology 227, Biology 130 and 131, Entrepreneur 261 and Computer Information Systems 120 for spring/May evening enrollment.
- Grade C or better in English 101 and Mathematics 118.
- Submission of completed application to the Mortuary Science Program.
- Submission of an essay.
- Interview with Program Director and Advisory Council Members
- Electronic notification of acceptance by program: April.
- Transfer status is not a guaranteed acceptance. Malcolm X College admissions performs transcript evaluations at the request of the student. Transcript evaluation forms are available at the Office of Admissions and Student Records on campus.
- Official college transcripts from all institutions attended.
- Grade Point Average must be at least “C” (GPA 2.5) for fall day enrollment or, Grade Point Average must be at least “C” (GPA 3.0) for Spring evening enrollment.
- Biology 226 and 227 general education courses for transferability must have been completed within five years of admission. If more than five years, these courses must be audited or successfully tested out through program assessment. All courses strictly in Mortuary Science must be taken in the program. Transfer students must submit a full application packet and meet with Program Director.
- Completion of all prerequisite electives and general education courses specified in day or evening curriculum.
- Submission of three letters of recommendation.
- Application deadline: April 7 of every year.
- Electronic applicant response to acceptance offer: April.
- Vaccinations are required
- Conviction of a felony: contact the IDFPR (217) 782-8556 to inquire if license would be awarded by state to practice in this profession.

ACCEPTANCE POLICY

- Candidates offered admission may not defer admission to a subsequent year. Applicants who decline admission must reapply.
- To graduate with an Associate in Applied Science degree in Mortuary Science and be eligible to apply to the IDFPR, the student must:
  - Complete the required prerequisite courses.
  - Register and complete the Arts and Sciences National Board Exam (NBE) within 45 days of the City Colleges of Chicago graduation date.
  - Complete the 62 credit hours of the Mortuary Science curriculum.

Application Deadline is April 7 of every year. New students are accepted into the Mortuary Science program during the spring of each year, with the program starting during the spring term in May and during the fall term in August. Courses are offered Monday through Thursday during the fall enrollment in the day from 8:00 am-3:20 pm; during the spring enrollment in the evening from 6:00–8:50 pm; and during the summer enrollment in the evening from 4:00–9:50 pm.

Upon acceptance into the Mortuary Science program, students must provide documentation of current health insurance, immunizations and recent medical examination. The student must exemplify professionalism, good communication and language skills and an overall comprehension of public health and sanitation. Some of the required courses have their own prerequisite course. Please see each course descriptions in the college catalog.

AIMS OF THE PROGRAM

Central aim recognizes the importance of funeral service education personnel as: Members of a human services profession, members of the community in which they serve, participants in the relationship between bereaved families and those engaged in the funeral service profession; Professionals knowledgeable of and compliant with federal, state, provincial, and local regulatory guidelines as well as professionals sensitive to the responsibility for public health, and welfare in caring for human remains.

OBJECTIVES OF THE PROGRAM

To enlarge the background and knowledge of students about the funeral service profession; to educate students in every phase of funeral service and to help enable them to develop proficiency and skills necessary for the profession, as defined by the Preamble above; to educate students concerning the responsibilities of the funeral service profession to the community at large; To emphasize high standards of ethical conduct; to provide a curriculum at the post-secondary level of instruction; and to encourage student and faculty research in the field of funeral service.

Programs offered at: [ ]
PATHWAY: Nursing
Visit your College Advisor, ccc.edu, or your college's Transfer Center for more information.

This is an example course sequence for students who are seeking admission into the Nursing Program in Fall 2015. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn a Basic Certificate (BC) in Basic Nursing Assistant/Health Sciences and an Associate in Applied Science (AAS) Degree in Nursing.

Acceptance into the Nursing Program is competitive and requires an established cumulative GPA at CCC. Nursing prerequisites can be completed at any one of the seven City Colleges of Chicago. Upon admission to the CCC Nursing Program, students will complete the program at one of two campuses, Malcolm X College, or Truman College. Campus preference is not guaranteed, as there are a limited number of available seats at each campus. Any questions regarding application and admissions process please email the CCC Nursing Programs at CCCNursingAdmissions@ccc.edu. In addition, informational sessions are available at Malcolm X, Truman, and Wright College Nursing Programs.

Prospective students must apply for admission into the Nursing program

<table>
<thead>
<tr>
<th>PROGRAM ADMISSION REQUIREMENTS</th>
</tr>
</thead>
<tbody>
<tr>
<td>All prerequisite courses (4) must be completed prior to the posted online application deadline. Prerequisite courses (4) include:</td>
</tr>
<tr>
<td>- Biology 121 with a “C” or higher</td>
</tr>
<tr>
<td>- Chemistry 121 with a “C” or higher</td>
</tr>
<tr>
<td>- English 101 with a “C” or higher</td>
</tr>
<tr>
<td>- Mathematics 118 or 125 or higher with a “C” or higher</td>
</tr>
</tbody>
</table>

**Note:** Co-requisites (3) to be completed before enrolling into the third semester of nursing program:

- Biology 226 with a “C” or higher
- Biology 227 with a “C” or higher

To be eligible to apply to the CCC Nursing Program, a student must have successfully completed 1) All four prerequisite courses, 2) ATI Pre-admission Exam, 3) Background check, and 4) Cumulative GPA at CCC of 2.75 prior to the posted application deadline date. All applications will be reviewed for selection by the Nursing Admission Committee.

**PLEASE NOTE:** Submitting the application and possessing the requirements for the CCC Nursing Program does not guarantee admission.

Before submitting the online application, the online application will request a copy of the applicant’s ATI score, date of Certified Background check, prerequisite grades, and CCC CGPA. The applicant will then certify via application submission that the submitted information is NOT false. Falsification of information will result in disqualification for application review. The Nursing Admission Committee will then refer to the respective databases to confirm the submitted information.

**BACKGROUND CHECK**

Students entering most healthcare professions programs will be required to present documentation of health history and vaccination status, to undergo annual tuberculosis screening, to submit to a background check, to submit to initial and random drug screening, and to undergo fingerprinting prior to licensing with the state of Illinois. Students should consult with a College Advisor if any of these requirements are a concern.

Choose your courses with your College Advisor.

DEGREE MINIMUM: 69 CREDIT HOURS // PATHWAY TOTAL: 69 CREDIT HOURS
PATHWAY: Nursing Home Administration
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in nursing home administration. If pathway is followed as outlined, you will earn a Basic Certificate (BC) in Nursing Home Administration. This does not represent a contract, nor does it guarantee course availability.

The Basic Certificate in Nursing Home Administration addresses the educational needs of managers who will work with the elderly population in health care settings. The program prepares students for employment in long-term care facilities, as well as to sit for the nursing home administrator licensure exam. The program includes both gerontology and business courses based on the requirements of the nursing home administrator’s job description. Career possibilities include: Medical and Health Services Managers.

Programs offered at: 🌐 🌐 🌐 🌐 🌐
PATHWAY: Occupational Therapy Assistant
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a degree in occupational therapy. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Applied Science Degree (AAS) in Occupational Therapy Assistant (OTA). One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below.

The Associate in Applied Science degree program in Occupational Therapy Assistant is the study of occupational therapy as a skilled healthcare service that uses occupation to promote meaningful living. Occupational therapy assistants, under the guidance of occupational therapists, adapt activities, tasks, and the environment in order to enable people of all ages and backgrounds to fulfill their chosen occupations and life roles. Career options can include employment in hospitals, clinics, schools, specialized community care settings, and wellness programs. The program's mission is to prepare competent and effective occupational therapy practitioners who value occupation as both a means and as an end to quality living for self and others through a sound educational experience that includes preparation in:

- The occupational therapy process
- The impact of culture
- Use of self as an agent of change
- Ethical professional practice
- Teaching and learning processes
- Collaborating as a healthcare professional
- Working in a variety of practice environments
- Oral and written communication skills

The Occupational Therapy Assistant Program is accredited by the Accreditation Council for Occupational Therapy Education. Graduates of the program are eligible to sit for the National Certification Exam for Occupational Therapy Assistants administered by the National Board for Certification in Occupational Therapy, Inc. (NBCOT). After successful completion of this exam, an individual becomes a Certified Occupational Therapy Assistant. Determination of exam eligibility for applicants who have a felony related charge or conviction requires individualized review by NBCOT, Inc. Most states require licensure in order to practice. Illinois license issuance is based upon the results of the NBCOT Certification exam.

Prospective students must apply for admission into the Occupational Therapy Assistant program

PROGRAM ADMISSION REQUIREMENTS
Students can make formal application to the program when all pre-admission coursework is completed, or when pre-admission coursework completion will occur before the beginning of Semester I of the program. A minimum grade of "C" is required in each pre-admission and general education course. If more candidates apply than the program can accept, the best qualified will be admitted.

Choose your courses with your College Advisor.

Communications and mathematics pre-credit requirements. Placements based on COMPASS, ACT or department chair recommendation. College-level courses that can be taken while in pre-credit courses.

12 CREDIT HOURS

DEGREE MINIMUM: 75 CREDIT HOURS // PATHWAY TOTAL: 80 CREDIT HOURS

D = DEGREE // AC = ADVANCED CERTIFICATE // BC = BASIC CERTIFICATE

For more information on degree and certificate programs, please visit [www.ccc.edu](http://www.ccc.edu).
PATHWAY: Personal Fitness Trainer

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a certificate in personal fitness training. If pathway is followed as outlined, student will earn a Basic Certificate (BC) in Personal Fitness Trainer. This does not represent a contract, nor does it guarantee course availability.

The courses listed below will allow you to earn a Basic Certificate from the City Colleges of Chicago. The Basic Certificate program provides students with the educational background required for pursuing a career in the health and fitness industry. The curriculum provides the basic foundational skills needed to assess human body mechanics and the ability to develop and implement exercise training programs designed to improve and maintain health-related components of fitness and performance. This knowledge will prepare students to achieve personal trainer certification from the National Academy of Sports Medicine (NASM). Employment opportunities with this certification include personal trainer, group exercise instructor, and/or entry-level positions available at corporate or community fitness centers (i.e. health clubs, hospital fitness centers, YMCA, community recreational centers, etc.).

Prospective students must apply for admission into the Personal Trainer program

PROGRAM ADMISSION REQUIREMENTS

- Official high school transcript or GED certificate showing date of graduation or completion
- 2.0 GPA
- College reading skills as determined by one or more of the following: MXC Reading/Comprehension Placement test (E.g. COMPASS); Grade of “C” or better in English 100.
- Complete the application packet
- Submit program application packet to the Personal Trainer Program coordinator at Malcolm X College to the Fall or Spring semester.

BACKGROUND CHECK

A background check may be required; it is dependent upon the location where the students’ practicum is performed. Students that meet all of the minimum admission requirements listed above will be scheduled for an interview with the program director. Students that complete this interview will be considered for admission to the program. Please note that admission is highly competitive and that not all students who are interviewed will be admitted. Students are advised to prepare for the interview, to arrive early, and to dress appropriately for a professional interview. Students are also advised to carefully prepare their application, giving special attention to content and format.

PATHWAY: Pharmacy Technology
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in Pharmacy Technology. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Advanced Certificate (AC) in Pharmacy Technology.

Pharmacy technicians assist and support licensed pharmacists in providing health care and medications to patients. They may perform many of the same duties as pharmacists, but all technicians’ work must be checked by a pharmacist before medication is dispensed. While Pharmacy Technicians can work everywhere pharmacists work, some state laws may limit the duties they perform.

A special application is required for entry into the program. Upon acceptance into the program, students must provide proof of current health insurance and recent medical examination.

Prospective students must apply for admission into the Pharmacy Technology program

COMPLETION of Advanced Certificate in Pharmacy Technology

CERTIFICATE MINIMUM: 33 CREDIT HOURS // PATHWAY TOTAL: 33 CREDIT HOURS

D = DEGREE // AC = ADVANCED CERTIFICATE // BC = BASIC CERTIFICATE

/// Programs offered at: DEGREE AC BC

FOR MORE INFORMATION ON DEGREE AND CERTIFICATE PROGRAMS, PLEASE VISIT WWW.CCC.EDU.
PATHWAY: Phlebotomy
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in Phlebotomy. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn a Basic Certificate (BC) in Phlebotomy.

The Basic Certificate program in Phlebotomy leads to certification through the National Phlebotomy Association (NPA), the American Society of Clinical Pathologists (ASCP), and the American Society of Phlebotomy Technicians (ASPT).

The phlebotomist is an entry level health care worker who serves as the direct link between the patient and the laboratory. The position is responsible for drawing both venous and arterial blood specimens from patients and sending blood to the laboratory. In some cases, physician approval is required. The laboratory technologist relies on the integrity and accuracy of the phlebotomist in procuring the proper specimens; accurate diagnosis of a patient’s condition can depend on quality work. Phlebotomists can further their education and become laboratory technicians or technologists.

Prospective students must apply for admission into the Phlebotomy program

PROGRAM ADMISSION REQUIREMENTS
- Submit a complete application to the Phlebotomy program
- Provide an official high school transcript or GED certificate showing date of graduation or completion
- College reading skills as determined by one or more of the following: MXC Reading/Comprehension Placement test (e.g. COMPASS); Grade of "C" or better in English 100

Students that meet all of the minimum admission requirements listed above will be considered by the program director for admission into the Phlebotomy program. Please note that admission is highly competitive and that not all students who meet these minimum requirements will be admitted. Students are advised to carefully prepare their application, giving special attention to content and format.

Applications for the program are accepted from March through July. The program begins each fall. For more information on the Phlebotomy program, call (312) 850-7383 or 7354. The application can be found here: ccc.edu/colleges/malcolm-x/departments/Documents/Phlebotomy_Application.pdf

Choose your courses with your College Advisor.

Communications and mathematics pre-credit requirements. Placements based on COMPASS, ACT or department chair recommendation.

Programs offered at:
**PATHWAY:** Practical Nursing

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in nursing. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Advanced Certificate (AC) in Practical Nursing.

The Advanced Certificate program in Practical Nursing provides students with a basic knowledge of nursing theory and practice. Graduates of the practical nursing program meet the educational requirements for the National Council Licensure Examination for Practical Nurses (NCLEX-PN) to become a licensed practical nurse (LPN). Graduates of the program may transfer their credits to an associate or bachelor degree nursing program. If more applicants apply than the program can accept, the most qualified applicants will be accepted.

Prospective students must apply for admission into the Practical Nursing program.

**PROGRAM ADMISSION REQUIREMENTS**

Requirements for consideration into the program:

- High School Diploma or GED
- Program Application
- Official Transcripts
- Proof of eligibility for college-level mathematics by coursework or placement test
- Pre-Admissions Test

Choose your courses with your College Advisor.

---

For more information on degree and certificate programs, please visit [www.ccc.edu](http://www.ccc.edu).
PATHWAY: Radiography
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a degree in Radiography. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Applied Science (AAS) Degree in Radiography.

The study of the theory, technical skills, patient care, and techniques necessary to use radiation in the diagnosis of disease can lead to employment as an X-ray technologist or radiographer in private and public hospitals, clinics, and laboratories. The Associate in Applied Science degree in Radiography provides the necessary professional skills, progressive maturity, and the intellectual, social, and emotional values necessary for a graduate to be a trustworthy member of a healthcare team.

Upon completion of the program of study, graduates become eligible to take the national certification exam offered by the American Registry of Radiologic Technologists (ARRT). In addition, graduates may apply for a license from the Illinois Emergency Management Agency/Division of Nuclear Safety.

Malcolm X College and Wright College have different required program course sequences. While the courses below illustrate what needs to be taken, the order will differ depending on college of admittance. Please speak with an advisor or the Radiography Program Director if you are considering applying to the program.

Prospective students must apply for admission into the Radiography program

PROGRAM ADMISSION REQUIREMENTS

The program is offered at Malcolm X College and Wilbur Wright College. Malcolm X College’s program begins in the summer and Wilbur Wright College’s program begins in the fall. Malcolm X College’s admission applications are accepted February 1 through April 1 of each year for admittance in the program the summer of the same year. Wilbur Wright College’s admission applications are accepted through December 1st of each year for admittance in the program the following fall.

The program is very competitive, and having the minimum requirements does not indicate that you will be accepted into the program. Students having less than minimum requirements will not be considered. In order to enter the program students must:

- 18 years of age or older.
- Official high school transcript or GED certificate showing date of graduation or completion.
- Grade of “C” or better in Mathematics 118 or higher, Biology 121 and Health Professions 102 or Biology 120
- Official college transcripts.
- 2.5 College GPA.
- Complete the application packet.
- Submit program application packet to the Radiography Program director at Malcolm X College or Wilbur Wright College prior to the application deadline (See website for exact application deadline)*.

Students that meet all of the minimum admission requirements listed above will be scheduled for an interview with the program director. Students that complete this interview will be considered for admission to the program. Please note that admission is highly competitive and that not all students who are interviewed will be admitted. Students are advised to prepare for the interview, to arrive early, and to dress appropriately for a professional interview. Students are also advised to carefully prepare their application, giving special attention to content and format.

BACKGROUND CHECK

Students entering most healthcare professions programs will be required to present documentation of health history and vaccination status, to undergo annual tuberculosis screening, to submit to a background check, to submit to initial and random drug screening, and to undergo fingerprinting prior to licensing with the state of Illinois. Students should consult with an advisor if any of these requirements are a concern.

Choose your courses with your College Advisor.

| DEGREE MINIMUM: 75 CREDIT HOURS // PATHWAY TOTAL: 87 CREDIT HOURS |

**D = DEGREE // AC = ADVANCED CERTIFICATE // BC = BASIC CERTIFICATE**

Programs offered at: [CCC.edu](http://www.ccc.edu)

Students who first enroll in the Radiography program at Wright College in Fall 2015 will move to the new Malcolm X program in Spring 2016 to complete their degree for the Associate in Applied Science Degree in Radiography.
PATHWAY: Renal Dialysis Technology
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in pursuing Renal Dialysis Technology. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Advanced Certificate (AC). The Advanced Certificate program Renal Dialysis Technology leads to certification through the Board of Nephrology Examiners Nursing and Technology. It prepares students for employment as Dialysis Technicians or Nephrology Technologists. They perform treatment and services to patients with end stage renal disease and/or dysfunction.

Choose your courses with your College Advisor.

CERTIFICATE MINIMUM: 36 CREDIT HOURS // PATHWAY TOTAL: 36 CREDIT HOURS

D = DEGREE // AC = ADVANCED CERTIFICATE // BC = BASIC CERTIFICATE

Programs offered at: [Institution Logos]
PATHWAY: Respiratory Care
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a degree in Respiratory Care. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Applied Science Degree (AAS) in Respiratory Care.

The Associate in Applied Science in Respiratory Care will offer the study of theory and techniques instrumental in diagnosis, treatment, management, and preventive care of patients with cardiopulmonary problems. It will prepare the students to become a well-rounded professional and competent advanced respiratory therapist. The graduate will be eligible to take the National Board for Respiratory Care Therapist Multiple Choice (TMC) examination to become a Certified Respiratory Therapist and the advanced level respiratory care practitioner examination to become a Registered Respiratory Therapist. Successful completion of the program can lead to employment as a respiratory therapist in hospitals, clinics or home settings or branch off into research, sales, education or other career opportunities.

Prospective students must apply for admission into the Respiratory Care program

PROGRAM ADMISSION REQUIREMENTS

- 18 years of age or older
- Official high school transcript or GED certificate showing date of graduation or completion
- Grade of “C” or better in English 101 or higher, Mathematics 118 or higher, Chemistry 121, and Biology 116 or Biology 226 and 227
- Complete the application packet

*Note: Students enrolled in prerequisite courses in current semester are eligible to apply to the Respiratory Care program, provided they can demonstrate a course grade of “C” or better. However, admission cannot be granted until all requirements are complete. Students that meet all of the minimum admission requirements listed above will be scheduled for an interview with the program admission committee. Students that complete this interview will be considered for admission to the program. Please note that admission is highly competitive and that not all students who are interviewed will be admitted. Students are advised to prepare for the interview, to arrive early, and to dress appropriately for a professional interview. Students are also advised to carefully prepare their application, giving special attention to content and format.

PATHWAY: RN Completion

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in nursing. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Applied Science (AAS) in Registered Nurse (RN) Completion and an Advanced Certificate (AC) in Practical Nursing (also known as Licensed Practical Nursing, LPN).

The AAS degree program in RN Completion provides students who have completed the Practical Nursing Program with the nursing coursework that will result in an Associate in Applied Science degree in Nursing. This is a ladder program designed to provide an opportunity for Practical Nursing graduates to continue their education by building on their previous education rather than repeating previously learned material. The AAS degree in Nursing program prepares students to become registered nurses (RN’s) through licensure from the Illinois Department of Financial and Professional Regulation (IDFPR), and meets critical local, state, and national needs for nursing professionals. Successful completion of the program will allow the student to apply to sit for the National Council Licensure Examination for Practical Nurses (NCLEX-PN).

Prospective students must apply for admission into the Practical Nursing program

PROGRAM ADMISSION REQUIREMENTS

Admission is competitive. The District has one admission policy for all the City Colleges of Chicago RN Programs. Students seeking admission must first successfully complete the entire program of study to become a practical nurse (PN). What makes the RN Completion program unique is that students seeking admission into the program are not required to take the NCLEX-PN Licensure Examination.

The online application process will streamline the admission process and allow prospective students to apply by submitting one single application which will be reviewed by the CCC Nursing Program Admissions Committee. However, receiving and completing the application for a Nursing program does not guarantee admission. In addition, indicating the college preference choices also does not guarantee admission.

Choose your courses with your College Advisor.

SEMIESTER-BY-SEMESTER PROGRAM PLAN FOR FULL-TIME STUDENTS

All plans can be modified to fit the needs of part-time students by adding more semesters.

D AC SEMESTER 1 CATEGORY ACHIEVEMENTS & NEXT ACTIONS

- English 101–Composition I (3) Program Prerequisite
- Biology 121–Biology I (5) Program Prerequisite
  - Biology 120–Terminology for Medical Careers (3) Life Sciences*
- Mathematics 118–General Education Mathematics (4) OR Mathematics 125–Introductory Statistics (4) Program Prerequisite

15 CREDIT HOURS

D AC SEMESTER 2 CATEGORY ACHIEVEMENTS & NEXT ACTIONS

- Nursing 150–Nursing Fundamentals I (4) Required Program Core
- Nursing 151–Nursing Fundamentals II (4) Required Program Core
- Nursing 152–Nursing Perspectives (2) Required Program Core
- Biology 226–Human Structure and Function I (4) Life Sciences
  - Microbiology 233–General Microbiology (4) Program Prerequisite

18 CREDIT HOURS

D AC SEMESTER 3 CATEGORY ACHIEVEMENTS & NEXT ACTIONS

- Nursing 153–Nursing Thru the Life Span I (5) Required Program Core
- Nursing 154–Nursing Thru the Life Span II (5) Required Program Core
- Biology 227–Human Structure and Function II (4) Life Sciences
  - Chemistry 121–Basic Chemistry (4) OR Chemistry 201–General Chemistry I (5) Life Sciences

18–19 CREDIT HOURS

* Biology 120 is not required for the RN program, but is required for the LPN program

Although course prerequisites require a grade of “C” or higher, Chemistry 121 (instead of Chemistry 201) will require a “B” or higher.

**D = DEGREE // AC = ADVANCED CERTIFICATE // BC = BASIC CERTIFICATE**
**PATHWAY:** Sterile Processing Clinical

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an *example course sequence* for students interested in sterile processing. This does not represent a contract, nor does it guarantee course availability. If pathway is followed as outlined, you will earn a Basic Certificate (BC) in Sterile Processing Clinical.

The Basic Certificate program in Sterile Processing Clinical presents the basic concepts and principles for developing skills and competencies required for infection prevention and control in the sterile processing department in a health care facility. The program offers basic knowledge related to instrumentation connected with surgical procedures. Students will be involved in processes such as cleaning, disinfecting, decontamination, sterilization, standard precautions, and universal precautions, as well as gain basic knowledge concerning various types of central service equipment such as ultrasonic cleaning, washer sterilizers, cart washers, autoclaves, steris, sterrad and ethylene oxide (ETO) machines.

**Note:** Graduates are eligible to write the International Association of Healthcare Central Service Material Management Examination (IAHCSMM).

Prospective students must apply for admission into the Sterile Processing Clinical program

**PROGRAM ADMISSION REQUIREMENTS**

- Consent of Program Director
- Submit an application and interview with the Program Director/Program Personnel
- English 101 Composition 1 recommended before the Surgical Technology courses
- Co-enroll in Sterile Processing 216 and 217
- Prerequisite for Sterile Processing 217 is a “C” or better in 216

Choose your courses with your College Advisor.

Communications and mathematics pre-credit requirements. Placements based on COMPASS, ACT or department chair recommendation.

**D = DEGREE // AC = ADVANCED CERTIFICATE // BC = BASIC CERTIFICATE**

Programs offered at: [CCC locations]
PATHWAY: Surgical Technology
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in surgical technology. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Applied Science Degree (AAS) in Surgical Technology.

The AAS degree program in Surgical Technology is designed for surgical technologists (formerly called operating room technicians) who perform many different responsibilities in the operating room. They act as the scrub person, as the circulator, and as the first assistant on the surgical team. Surgical technologists’ responsibilities involve preparing the operating room and instruments, equipment, and supplies that will be needed; positioning and preparing the patient for surgery; and passing instruments, sponges, and sutures to the surgeon. Surgical technologists are the surgical team’s experts in aseptic technique, being constantly vigilant for any break in the technique that could endanger the sterile field. Surgical technologists belong to a separate non-nursing profession and are highly skilled, having completed the necessary specialized education and training focused on working in the operating room. The preferred entry-level education for the surgical technologist is the associate degree.

Prospective students must apply for admission into the Surgical Technology program

PROGRAM ADMISSION REQUIREMENTS

Students can make formal application to the program when all pre-admission coursework is completed, or when pre-admission coursework completion will occur before the beginning of Semester I of the program. A minimum grade of “C” is required in each pre-admission and general education course. If more candidates apply than the program can accept, the best qualified will be admitted.

Submit a complete application to the Surgical Technology program
- Conduct a personal interview with program personnel
- Complete all of the program prerequisites

Prospective students must apply for admission into the Surgical Technology program

Communications and mathematics pre-credit requirements. Placements based on COMPASS, ACT or department chair recommendation.

HUMAN SCIENCES (LIBERAL ARTS)

Liberal Arts is really an umbrella term used by universities to encompass all disciplines of the Social Sciences and Humanities. These studies include human behavior, history, politics, culture, language, literature, fine, performing and studio arts. It is important to note that most students of the human sciences and liberal arts will need to earn at least a bachelor’s degree in their field of study, which, at the two year level, means completing our Associates in Arts (AA) or Associates in Fine Arts (AFA) transfer degree. So, if you plan on studying anything other than math and science and want to work as anything from a psychologist, lawyer, historian, to a performance artist, writer, musician or journalist, this could be a great focus area for you.

* The Associate in Applied Science degree in Media Communications has four different areas of concentration for students to choose from.

** There are two different Basic Certificates in the Visual Media Communications program for students to choose from.
PATHWAY: Addictions Studies
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in Addictions Studies. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn a Basic Certificate (BC), Advanced Certificate (AC) and Associate in Applied Science degree (AAS) in Addictions Studies. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below.

The AAS degree program in Addictions Studies is ideal for prospective mental health practitioners or those already working in the field who wish to receive training and credentials in Addictions Studies. Many Addictions Studies practitioners find employment in medical and non-medical detoxification centers, rehabilitation programs, community mental health centers and family service centers, halfway houses, therapeutic communities, business, or industry. Some combine counseling with such primary professions as nursing, social work, school guidance counseling, or the clergy.

Choose your courses with your College Advisor.

Communications and mathematics pre-credit requirements. Placements based on COMPASS, ACT or department chair recommendation.

**PATHWAY: Advanced Social Services—Addictions Studies**

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning an advanced certificate in Social Services—Addictions Studies. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Advanced Certificate and Associate in Applied Science degree in Advanced Social Services—Addictions Studies which may include a Domestic Violence and/or Anger Management/Conflict Resolution Certification.

The Advanced Social Services—Addictions Studies certificate is ideal for prospective mental health practitioners or those already working in the field who wish to receive training and credentials in Social Services—Addictions Studies. Career possibilities include counselors, social workers, probation officers and correctional treatment specialists, and substance abuse and behavioral disorder counselors.

This program is pending financial aid approval.

If you are fascinated by religious questions and traditions, and enjoy exploring many points of view, consider this area of study. In jobs that require relating to others, reaching out to them, building bridges, or incorporating many perspectives at once, knowledge of religion will provide an excellent foundation.

This is an example course sequence for students interested in pursuing Comparative Religion. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an AA degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. Following this pathway will help you get your associate degree, which will increase your chances of transfer to Bachelor’s-level programs of study. Choose Illinois Articulation Initiative (IAI) courses to fulfill general education requirements whenever possible. Visit www.itransfer.org and speak with your college advisor to learn more about IAI.

As of July 2014, World Language courses are no longer a degree requirement. In the sequence below, World Language courses are called out as suggested electives. World Language courses are included for students who are transferring to a four-year institution with a World Languages requirement. Please talk with your College Advisor to determine the best education plan for you.

Programs offered at: [DH] [KK] [AC] [SH] [WS] [MK]
**PATHWAY: Cosmetology**

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in pursuing an Advanced Certificate (AC) in Cosmetology. It does not represent a contract, nor does it guarantee course availability. The Advanced Certificate program in the field of Cosmetology offers challenging and rewarding opportunities designed to give students thorough training in the art, skill and applied science used in the treatment of hair, nails, and skin. The program meets the standards of the Illinois Department of Finance and Professional Regulation (IDFPR) in total hours, teaching staff, equipment, facilities, libraries, and course content.

Students are required to complete a specific number of hours in the Technical Center Styling Salon. Once students have completed all coursework and laboratory hours, they are ready to sit for the licensure examination through the IDFPR. Students must be licensed in order to practice Cosmetology in Illinois.

Choose your courses with your College Advisor.

PATHWAY: Digital Multimedia Design

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in pursuing Digital Multimedia Design. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn a Basic Certificate (BC), an Advanced Certificate (AC) and an Associate in Applied Science (AAS) in Digital Multimedia Design.

The AAS degree program in Digital Multimedia Design is designed to prepare students for entry-level positions in the field of interactive and multimedia design, as well as for transfer to a four-year institution. Students will learn the necessary skills, both technically and aesthetically, to create digital multimedia presentations for CD’s, DVD’s, video, or web pages. Note: Also see individual Basic Certificate programs for Video and Sound 352, 3D Graphics 352 and Interactive Media 354.

15 CREDIT HOURS

DEGREE MINIMUM: 67 CREDIT HOURS // PATHWAY TOTAL: 67 CREDIT HOURS

D = DEGREE // AC = ADVANCED CERTIFICATE // BC = BASIC CERTIFICATE

Programs offered at: [CCC](https://www.ccc.edu)
PATHWAY: Emergency Management: Emergency Preparedness
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in Emergency Management and Emergency Preparedness. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn a Basic Certificate (BC) in Emergency Management: Emergency Preparedness and an Associate in Applied Science (AAS) Degree in Emergency Management: Emergency Preparedness. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. The AAS degree program in Emergency Management was developed in response to a long recognized need for a systematized approach to preparing emergency managers. Following the recommendations of the model curriculum of the Federal Emergency Management Agency’s Higher Education Program, students choose from one of the three Emergency Management program tracks: 1) Homeland Security, 2) Incident Command, or 3) Emergency Preparedness.

The Emergency Preparedness Basic Certificate is intended for those individuals whose function is in the planning and support sectors of the emergency response field. This is a broad field of activity as it addresses the common needs of all emergency situations, but includes the unique needs of specific types of emergencies, i.e., the needs of planning and response to a hurricane vs. a terrorist attack involving weapons of mass destruction.

Choose your courses with your College Advisor.

PATHWAY: Emergency Management: Homeland Security
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in Emergency Management: Homeland Security. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn a Basic Certificate (BC) in Emergency Management: Homeland Security and an Associate in Applied Science (AAS) Degree in Emergency Management: Homeland Security. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. The AAS degree program in Emergency Management was developed in response to a long recognized need for a systematized approach to preparing emergency managers. Following the recommendations of the model curriculum of the Federal Emergency Management Agency’s Higher Education Program, students choose from one of the three Emergency Management program tracks: 1) Homeland Security, 2) Incident Command, or 3) Emergency Preparedness.

The Homeland Security Basic Certificate is designed to meet new federal requirements for those in law enforcement, emergency response, and public safety fields who perform response activities at the emergency scene relating to the needs of on-scene emergency response regardless of the type of emergency.

Students entering the program with prior workplace or academic experience in Homeland Security topics may substitute the Environmental Technology 150–160–170 sequence of courses for Environmental Technology 100–101–106.

Choose your courses with your College Advisor.

D = DEGREE // AC = ADVANCED CERTIFICATE // BC = BASIC CERTIFICATE

Programs offered at: [CCC](http://www.ccc.edu)
If you love to curl up with a good book, then a pathway in English might be for you. But there’s a lot more to studying English than just reading novels, short stories, plays, and poetry by English-speaking writers. You might choose to focus on the literature of a certain time period, location, or author. Or, you might write on material from film, journalism, and TV. Students in English work as educators, writers, advertising managers, public relations specialists and just about any career that needs people who write well.

This is an example course sequence for students interested in pursuing English. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an AA degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. Following this pathway will help you get your associate degree, which will increase your chances of transfer to Bachelor’s-level programs of study. Choose Illinois Articulation Initiative (IAI) courses to fulfill general education requirements whenever possible. Visit www.itransfer.org and speak with your college advisor to learn more about IAI.

As of July 2014, World Language courses are no longer a degree requirement. In the sequence below, World Language courses are called out as suggested electives. Please talk with your College Advisor to determine the best education plan for you.

Choose your courses with your College Advisor.

### SEMESTER-BY-SEMESTER PROGRAM PLAN FOR FULL-TIME STUDENTS

All plans can be modified to fit the needs of part-time students by adding more semesters.

#### D SEMESTER 1

**CATEGORY**: Communications
- **ACHIEVEMENTS & NEXT ACTIONS**
  - Meet with advisor to confirm plans
  - Begin research on four-year schools
- **ENGLISH**: English 101—Composition I (3)
- **MATH**: Any General Education Mathematics course
- **COMMUNICATIONS**: Speech 101—Fundamentals of Speech Communication (3)
- **HUMANITIES**: Any Literature course (3)
- **ELECTIVE**: World Language course (4)

**CREDIT HOURS**: 17

#### D SEMESTER 2

**CATEGORY**: Communications
- **ACHIEVEMENTS & NEXT ACTIONS**
  - Mid-term check-in with advisor
  - Visit your campus Transfer Center to discuss options and create a short list of four-year schools for potential transfer
- **ENGLISH**: English 102—Composition II (3)
- **PHYSICAL SCIENCES**: Physical Sciences course (3)
- **HUMANITIES**: Any Literature course (3)
- **SOCIAL & BEHAVIORAL SCIENCES**: Social & Behavioral Sciences course (3)
- **ELECTIVE**: World Language course (4)

**CREDIT HOURS**: 16

#### D SEMESTER 3

**CATEGORY**: Life Sciences
- **ACHIEVEMENTS & NEXT ACTIONS**
  - Mid-term check-in with advisor
  - Visit your campus Transfer Center to discuss options and create a short list of four-year schools for potential transfer
- **ENGLISH**: Life Sciences course (4)
- **SOCIAL & BEHAVIORAL SCIENCES**: Social & Behavioral Sciences course (3)
- **HUMANITIES**: Any Literature course that fulfills the Human Diversity requirement (3)
- **ELECTIVE**: World Language course (4)

**CREDIT HOURS**: 14

#### D SEMESTER 4

**CATEGORY**: Social & Behavioral Sciences (HD)
- **ACHIEVEMENTS & NEXT ACTIONS**
  - Apply to four-year schools of your choice
- **ENGLISH**: Social & Behavioral Sciences course (3)
- **COMMUNICATIONS**: Advanced Writing course (3)
- **SOCIAL & BEHAVIORAL SCIENCES**: Program Elective (3)
- **HUMANITIES**: Fine Arts course (3)
- **ELECTIVE**: World Language course (4)

**CREDIT HOURS**: 16

**DEGREE MINIMUM**: 62 CREDIT HOURS // **PATHWAY TOTAL**: 63 CREDIT HOURS

D = DEGREE // AC = ADVANCED CERTIFICATE // BC = BASIC CERTIFICATE
This is an example course sequence for students interested in pursuing History. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an AA degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. Following this pathway will help you get your associate degree, which will increase your chances of transfer to Bachelor’s-level programs of study. Choose Illinois Articulation Initiative (IAI) courses to fulfill general education requirements whenever possible. Visit www.itransfer.org and speak with your college advisor to learn more about IAI.

The history courses required for a history major can vary greatly between colleges, so it is recommended to research the major requirements of the four-year institutions to which you hope to transfer.

As of July 2014, World Language courses are no longer a degree requirement. World Language courses are recommended for students who are transferring to a four-year institution with a World Languages requirement. Please talk with your College Advisor to determine the best education plan for you.

PATHWAY: Human Development and Family Studies
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

Are you interested in learning about human development, and studying the nature of relationships and the role of families? If so, a pathway in Human Development and Family Studies might be right for you. The AA in Human Development and Family Studies can lead to employment as a Human Services Assistant or Family Specialist in social service agencies, Head Start daycares, community-based organizations and non-profits, among others.

This is an example course sequence for students interested in pursuing Human Development and Family Studies. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Arts (AA) degree in Human Development and Family Studies. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. For students interested in earning the Gateways Family Specialist Credential, you must take one additional course—Child Development 107. Health, Safety and Nutrition—added on to the last semester.

Choose your courses with your College Advisor.

- Advanced Certificate
- Basic Certificate

**FOR MORE INFORMATION ON DEGREE AND CERTIFICATE PROGRAMS, PLEASE VISIT ****www.ccc.edu****
If you think geography is all about staring at maps and memorizing state capitols, you couldn’t be more wrong. As a Human Geography student, you’ll study a wide variety of subjects: deserts in the making, the causes of many urban governmental decisions, the paths of tornadoes, and the way international trade agreements affect business in a small town. Human Geographers study how human communities function globally and locally and learn how to read future social and economic trends. Study of Human Geography will allow you to obtain your bachelor’s degree at a four-year college. If you are interested in community development, environmental protection, local government, or in working in organizations like the United Nations Children’s Fund (UNICEF), the Red Cross, the World Health Organization or even the World Bank, the human geography pathway is a great choice for you.

This is an example course sequence for students interested in pursuing Human Geography. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an AA degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. Following this pathway will help you get your associate degree, which will increase your chances of transfer to Bachelor’s-level programs of study. Choose Illinois Articulation Initiative (IAI) courses to fulfill general education requirements whenever possible. Visit www.itransfer.org and speak with your college advisor to learn more about IAI.

As of July 2014, World Language courses are no longer a degree requirement. In the sequence below, World Language courses are called out as suggested electives. Please talk with your College Advisor to determine the best education plan for you.

Choose your courses with your College Advisor.

PATHWAY: International Studies
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

Want to study the delicate dance of diplomacy and look at the way nations interact on military, economic, and cultural levels? If you feel at home in a field with few black-and-white answers, international studies may be for you. International relations is filled with gray areas; you’ll learn to think critically with no fixed set of rules to follow. Students on a pathway in international studies are prepared to enter a four-year institution as a junior, earn their bachelor’s degree and become diplomats, global human rights workers, foreign politics experts, and many other careers that require an understanding of how nations interact with one another internationally.

This is an example course sequence for students interested in pursuing International Studies. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Arts (AA) degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. Following this pathway will help you get your associate degree, which will increase your chances of transfer to Bachelor’s-level programs of study. Choose Illinois Articulation Initiative (IAI) courses to fulfill general education requirements whenever possible. **D = DEGREE // AC = ADVANCED CERTIFICATE // BC = BASIC CERTIFICATE**

Programs offered at: [CCC]
**PATHWAY: Journalism**

Visit your College Advisor, ccc.edu, or your college's Transfer Center for more information.

Are you someone who can't get enough of the latest headlines? If so, you may want to consider study in journalism. If you are a quick study with a keen curiosity who can gather, absorb, and deliver information in the heat of a looming deadline: that's what journalism is all about. People with degrees in journalism work in broadcast news writing, copy editing and design, magazine writing, media law and ethics, reporting and more.

This is an example course sequence for students interested in pursuing Journalism. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Arts (AA) degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. Following this pathway will help you get your associate degree, which will increase your chances of transfer to Bachelor's-level programs of study. Choose Illinois Articulation Initiative (IAI) courses to fulfill general education requirements whenever possible. Visit www.itransfer.org and speak with your college advisor to learn more about IAI.

As of July 2014, World Language courses are no longer a degree requirement. In the sequence below, World Language courses are called out as suggested electives. Please talk with your College Advisor to determine the best education plan for you.

Programs offered at: 🚀🚀🚀🚀🚀🚀
PATHWAY: Media Communications: Audio/Video/Internet Production

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a degree in Media Communications: Audio/Video/Internet/Production (AVIP). If this pathway is followed as outlined, you will earn an Associate in Applied Science (AAS) Degree in Media Communications. It does not represent a contract, nor does it guarantee course availability. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below.

The AAS degree program in Media Communications is a modification and extension of the former Radio and TV Broadcasting Program. Students may choose specialized courses that qualify them in the following areas: 1) Audio/Video/Internet Production (AVIP), which include Television; 2) Radio Production/Broadcasting; 3) Media Sales and Marketing; and 4) Interactive Media Design. All areas emphasize the use of technology, including computers. Therefore, computer literacy is required for successful completion of this program. The program prepares graduates for entry level positions in related fields and for possible transfer to a four-year institution.

In this specialty area, you will learn to create short video and audio projects and learn all facets of video and audio production from program design (pre-production), and hands-on recording (production) through the editing process (post-production). You will take courses in web-casting and streaming media using state-of-the-art digital technology, facilities, and instruction. By the end of the program, you will have basic knowledge of lighting, camera operation, storyboarding and basic scripting, editing, sound, and producing techniques. Students will assume roles as producers, directors, camera operators and video editors. Pre- and post-production, scripting, graphics, lighting, legal requirements, and nonlinear video editing skills will be emphasized.

Choose your courses with your College Advisor.

*Programs offered at:* [CCC]
This is an example course sequence for students interested in earning a degree in Media Communications–Interactive Media Design. If this pathway is followed as outlined, you will earn an Associate in Applied Science (AAS) Degree in Media Communications. It does not represent a contract, nor does it guarantee course availability. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below.

The AAS degree program in Media Communications is a modification and extension of the former Radio and TV Broadcasting Program. Students may choose specialized courses that qualify them in the following areas: 1) Audio/Video/Internet Production (AVIP), which include Television; 2) Radio Production/Broadcasting; 3) Media Sales and Marketing; and 4) Interactive Media Design. All areas emphasize the use of technology, including computers. Therefore, computer literacy is required for successful completion of this program. The program prepares graduates for entry level positions in related fields and for possible transfer to a four-year institution.

In the Interactive Media Design specialty area, you will learn the basic principles of graphic design and e-design as they relate to designing for the Internet and multimedia. The program will introduce time-based interactive design, animation, audio, and digital video. You will learn to create interactive experiences, develop original concepts, and take a project from storyboarding to production. Narrative, linear, and non-linear structures will be analyzed as well as advanced navigation schemes and dynamic web strategies.

PATHWAY: Media Communications: Media Sales and Marketing
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a degree in Media Communications–Media Sales and Marketing. If this pathway is followed as outlined, you will earn an Associate in Applied Science (AAS) Degree in Media Communications. It does not represent a contract, nor does it guarantee course availability. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below.

The AAS degree program in Media Communications is a modification and extension of the former Radio and TV Broadcasting Program. Students may choose specialized courses that qualify them in the following areas: 1) Audio/Video/Internet Production (AVIP), which include Television; 2) Radio Production/Broadcasting; 3) Media Sales and Marketing; and 4) Interactive Media Design. All areas emphasize the use of technology, including computers. Therefore, computer literacy is required for successful completion of this program. The program prepares graduates for entry level positions in related fields and for possible transfer to a four-year institution.

The curriculum for Sales and Marketing as part of the Media Communications program is designed to put graduates on the front lines of the business world and, more specifically, to prepare students to understand and communicate the value of media properties (TV, radio, newspaper and Internet). Each course in the Sales and Marketing program is focused and detailed, yet part of a broad-based curriculum that balances relevant management principles with hands-on marketing procedures and techniques.

Choose your courses with your College Advisor.

**D = DEGREE // AC = ADVANCED CERTIFICATE // BC = BASIC CERTIFICATE**
**PATHWAY:** Media Communications: Radio Production and Broadcasting

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a degree in Media Communications: Radio Production and Broadcasting. If this pathway is followed as outlined, you will earn an Associate in Applied Science (AAS) Degree in Media Communications. It does not represent a contract, nor does it guarantee course availability. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below.

The AAS degree program in Media Communications is a modification and extension of the former Radio and TV Broadcasting Program. Students may choose specialized courses that qualify them in the following areas: 1) Audio/Video/Internet Production (AVIP), which include Television; 2) Radio Production/Broadcasting; 3) Media Sales and Marketing; and 4) Interactive Media Design. All areas emphasize the use of technology, including computers. Therefore, computer literacy is required for successful completion of this program. The program prepares graduates for entry level positions in related fields and for possible transfer to a four-year institution.

The Radio Production/Broadcasting course of study provides a comprehensive overview of the Media Communications industry with a focus in radio. The program provides a real world, hands-on overview of the art and business of radio broadcasting, while developing in-depth knowledge and skills regarding the total operation of a radio station, including the history of radio broadcasting from its inception to the latest radio technology. The program will train students in the areas of on-air talent, production, programming, or business, which includes radio marketing, promotions, and sales.

**Communications and mathematics pre-credit requirements. Placements based on COMPASS, ACT or department chair recommendation.**

PATHWAY: Music Business

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in pursuing Music Business. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn a Basic Certificate (BC). The BC program in Music Business prepares students for the study of the techniques and standards needed for a career as a manager, publisher, professional musician, or agent. Completion of the Music Business program can lead to employment with such businesses as recording companies, management firms, publishing companies, music festivals, or music production companies. Practical experience within the music industry is included. The field is highly competitive, but employment opportunities are expanding rapidly.

Human Sciences (Liberal Arts)

PATHWAY: Music Education
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

From Bach to blues to Bhangra, music is a universal language that is available to anyone willing to lend a hand, ear or voice. Music educators are passionate about developing their students’ musical talents and guiding them in their pursuit of music careers. But they also enjoy helping all students have fun, develop discipline, and enrich their lives by learning to play music. Follow the music education pathway and learn how to teach music and music appreciation to students of various ages and abilities. You might find yourself taking courses in curriculum design, music theory, music history, classroom management, and technology for music teachers. People with degrees in music education can choose to become music teachers, recreational therapists, musicians, sound engineers, and more.

This is an example course sequence for students interested in pursuing Music Education. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Fine Arts (AFA) degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below.

**CERTIFICATE MINIMUM**: 26 CREDIT HOURS // **PATHWAY TOTAL**: 29 CREDIT HOURS

**DEGREE CODE:**

BC 094
**PATHWAY:** Philosophy

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

Philosophy students examine basic questions about topics such as the nature of existence and knowledge, and study the history of human intellectual activities. Philosophy prepares you for all sorts of careers, as you develop greater skills in logic, problem solving, and creative thinking.

This is an example course sequence for students interested in pursuing Philosophy. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an AA degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. Following this pathway will help you get your associate degree, which will increase your chances of transfer to Bachelor’s-level programs of study. Choose Illinois Articulation Initiative (IAI) courses to fulfill general education requirements whenever possible. Visit www.itransfer.org and speak with your college advisor to learn more about IAI.

As of July 2014, World Language courses are no longer a degree requirement. In the sequence below, World Language courses are called out as suggested electives. Please talk with your College Advisor to determine the best education plan for you.

PATHWAY: Political Science
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

Whether they’re conservative or liberal, cynical or idealistic, one common characteristic among students interested in political science and government is their addiction to politics. If active engagement in the political system is for you, a political science emphasis is a great way to get started. Those interested in political science and government study the systems people set up to organize their societies, from neighborhoods to nations. If you are interested in a career in government, law, public policy, civic leadership, campaign organizing or even becoming the next president—political science might be just the ticket.

This is an example course sequence for students interested in pursuing Political Science. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an AA degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. Following this pathway will help you get your associate degree, which will increase your chances of transfer to Bachelor’s-level programs of study. Choose Illinois Articulation Initiative (IAI) courses to fulfill general education requirements whenever possible. PATHWAY: Psychology
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

The psychology pathway examines the way humans feel, think, and learn. Today’s psychologists study all sorts of fascinating questions, such as: Why is learning a language as an infant easier than as a teenager? What are the roots of violence? What is the best way to help someone with depression, or grief? But psychologists also look on the bright side. They encourage, coach and motivate people to change their lives for the better.

This is an example course sequence for students interested in pursuing Psychology. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an AA degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. Following this pathway will help you get your associate degree, which will increase your chances of transfer to Bachelor’s-level programs of study. Choose Illinois Articulation Initiative (IAI) courses to fulfill general education requirements whenever possible. Visit www.itransfer.org and speak with your college advisor to learn more about IAI.

As of July 2014, World Language courses are no longer a degree requirement. In the sequence below, World Language courses are called out as suggested electives. Please talk with your College Advisor to determine the best education plan for you.

Choose your courses with your College Advisor.

Programs offered at: ![Program icons]
PATHWAY: Theater Art
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

If you’ve ever acted in a play, you know how much work it takes to put a production together. A theater pathway is your ticket to every corner of the theater world. Whether you specialize in acting or design, you’ll learn in class, backstage, and onstage. You’ll read, discuss, and write about all kinds of theatrical works. You’ll also get your hands dirty applying what you learn in class as you build sets, design costumes, direct, or act in department productions.

This is an example course sequence for students interested in pursuing Theater Art. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an AA degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. Following this pathway will help you get your associate degree, which will increase your chances of transfer to Bachelor’s-level programs of study. Choose Illinois Articulation Initiative (IAI) courses to fulfill general education requirements whenever possible. **DEGREE MINIMUM: 61 CREDIT HOURS // PATHWAY TOTAL: 60–61 CREDIT HOURS**

D = DEGREE // AC = ADVANCED CERTIFICATE // BC = BASIC CERTIFICATE
If you’d love to change the world, but you don’t know what to do—speak its languages! In this interdisciplinary pathway you will have the chance to study everything from Communications to Fine Art, human behavior to geography and anthropology, political science to philosophy—and of course, the languages the world speaks. In our global economy, this pathway is the first step toward a bachelor’s degree which will prepare you for a career in international business, banking, government service, interpreting, or travel. World language study is also vital to jobs in healthcare professions like nursing, emergency services, criminal justice and social work.

This is an example course sequence for students interested in pursuing World Languages. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an AA degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. Following this pathway will help you get your associate degree, which will increase your chances of transfer to Bachelor’s-level programs of study. Choose Illinois Articulation Initiative (IAI) courses to fulfill general education requirements whenever possible. Visit www.itransfer.org and speak with your college advisor to learn more about IAI.

We strongly recommend that you complete the language sequence in consecutive semesters. If you wait a semester or more for the second course, you risk not being able to continue as prepared as possible in your language of interest.

## SEMESTER-BY-SEMESTER PROGRAM PLAN FOR FULL-TIME STUDENTS

All plans can be modified to fit the needs of part-time students by adding more semesters.

When was the last time you went a day without using a computer? It is the Information Age and our lives are constantly being redefined by breakthroughs and innovations in Information Technology. Whether it’s our smart phones, our work computers, or the enormous databases that store our information online, professionals are needed behind the scenes to design software, maintain information systems, and troubleshoot network issues. If you are interested in working with technology in an expanding and innovative environment, you should certainly consider this focus area.

D = DEGREE // AC = ADVANCED CERTIFICATE // BC = BASIC CERTIFICATE
This is an example course sequence for students interested in Computer and Forensic Investigation (CSFI). It does not represent a contract, nor does it guarantee course availability. The Basic Certificate (BC) program in CSFI consists of two tracks: (1) Information Security and (2) Forensic Investigation (Digital Forensics). CSFI includes a required core group of courses and expands on the Information Security focus and the Forensic Investigation focus. All students are required to complete the core course group prior to selecting one track that fits their objective. If this pathway is followed as outlined, you will earn a Basic Certificate in Computer Security and Forensic Investigation, Track I: Information Security.

The Information Security track focuses on design, implementation, and management of information security in the corporate environment. Students will be prepared for the nationally recognized Certified Information Systems Security Professional (CISSP) Exam. CISSP designation can provide career enhancement, increase marketability, and ensure prospective employers of a certain level of information security knowledge.

### PATHWAY: Computer Security and Forensic Investigation, Track I: Information Security

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

### SEMESTER-BY-SEMESTER PROGRAM PLAN FOR FULL-TIME STUDENTS

All plans can be modified to fit the needs of part-time students by adding more semesters.

**BC SEMESTER 1**

- **CATEGORY:** ACHIEVEMENTS & NEXT ACTIONS
- **Computer Security and Forensic Investigation 101—General Technology Essentials (4)**
  - Required Program Core
  - **DO THIS:** Meet with advisor to choose courses
  - *Students may opt to test out of Computer Security and Forensic Investigation 101 if they have extensive computer and networking education/experience.

- **Computer Security and Forensic Investigation 102—Introduction Security Essentials (3)**
  - Prerequisite(s): Grade of C or better in CIS 101 or 116 OR consent of Department Chairman.
  - Required Program Core

### BC SEMESTER 2

- **CATEGORY:** ACHIEVEMENTS & NEXT ACTIONS
- **Computer Security and Forensic Investigation 202—Introduction to Cybercrime (3)**
  - Required Program Core
  - **ALMOST** halfway through the Basic Certificate

### BC SEMESTER 3

- **CATEGORY:** ACHIEVEMENTS & NEXT ACTIONS
- **Computer Security and Forensic Investigation 213—Information Security Technology (3)**
  - Required Program Core
  - **DO THIS:** Go to Career Center to explore continued education and employment options

- **Computer Security and Forensic Investigation 214—Information Security Systems Analysis (4)**
  - Required Program Core
  - **DO THIS:** Mid-term check-in with advisor

### BC SEMESTER 4

- **CATEGORY:** ACHIEVEMENTS & NEXT ACTIONS
- **Computer Security and Forensic Investigation 215—Information Security Domain (3)**
  - Required Program Core

- **Computer Security and Forensic Investigation 216—Information Security Program Manager (3)**
  - Required Program Core

**CERTIFICATE MINIMUM: 19 CREDIT HOURS // PATHWAY TOTAL: 23 CREDIT HOURS**

**D = DEGREE // AC = ADVANCED CERTIFICATE // BC = BASIC CERTIFICATE**

Programs offered at: [ccc.edu](http://ccc.edu)
This is an example course sequence for students interested in Computer and Forensic Investigation (CSFI). It does not represent a contract, nor does it guarantee course availability. The Basic Certificate (BC) program in CSFI consists of two tracks: (1) Information Security and (2) Forensic Investigation (Digital Forensics). CSFI includes a required core group of courses and expands on the Information Security focus and the Forensic Investigation focus. All students are required to complete the core course group prior to selecting one track that fits their objective. If this pathway is followed as outlined, you will earn a Basic Certificate in Computer Security and Forensic Investigation, Track II: Forensic Investigation (Digital Forensics).

The Digital Forensics (Forensic Investigation) track focuses on computer forensic investigation and provides students, professionals, law enforcement personnel, criminal justice majors, and other interested parties with the procedures and methodology for investigating computer crimes, and handling electronic evidence as it relates to criminal procedures.

PATHWAY: Environmental Geographic Information Systems (GIS)

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in pursuing Environmental Geographic Information Systems (GIS). It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn a Basic Certificate (BC) in Environmental GIS. The Basic Certificate program in Environmental GIS introduces the fundamental concepts of GIS and real world representation, using GIS vector and raster technology via spatial data input, topology, cartographic projections, and coordinate systems. The program prepares students with background information and technological skills to explore, capture, manage, analyze, model, perform spatial operations, and to find trends and patterns on landscape.

Choose your courses with your College Advisor.

PATHWAY: Networking Systems and Technology
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a degree in Networking Systems and Technology. If this pathway is followed as outlined, you will earn a Basic Certificate (BC), an Advanced Certificate (AC), and an Associate in Applied Science (AAS) Degree in Networking Systems and Technology. It does not represent a contract, nor does it guarantee course availability. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below.

The Networking Systems and Technology AAS program is for students interested in administering and maintaining network equipment such as routers, switches, and servers, as well as, maintaining software and services that are common in modern network infrastructures. The curriculum covers both hardware and software components which help prepare students for jobs in the Information Technology (IT) market. It also offers students relevant knowledge and skills required in a variety of industry certifications including: A+, Network+, CCENT, CCNA and CCNP Security.

Choose your courses with your College Advisor.

Information Technology

PATHWAY: Web Development
Visit your College Advisor, ccc.edu, or your college's Transfer Center for more information.

This is an example course sequence for students interested in Web Development. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn a Basic Certificate (BC), Advanced Certificate (AC) and Associate in Applied Science Degree (AAS) in Web Development. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below.

The Web Development AAS program prepares students for entry-level positions in website design, development, and administration. Students will learn various programming principles, languages, and web technologies to effectively create and deploy dynamic websites. Students will also learn how to integrate web and database servers to increase the productivity and interactivity of a website. Potential job opportunities for students in this program include web designer, web developer, e-commerce manager, web technician, or web server administrator.

Choose your courses with your College Advisor.

Communications and mathematics pre-credit requirements. Placements based on COMPASS, ACT or department chair recommendation.

PATHWAY: Web Development

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in pursuing Web Development. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Science (AS) degree in Web Development.

One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. Following this pathway will help you get your associate degree, which will increase your chances of transfer to bachelor’s-level programs of study. Choose Illinois Articulation Initiative (IAI) courses to fulfill general education requirements whenever possible. Visit www.itransfer.org and speak with your college advisor to learn more about IAI.

Since the time of the Ancient Greeks, people have been experimenting in an attempt to define the laws that govern the biological and physical world. Thousands of years later, the field of science has reached frontiers that would boggle the minds of the very first scientists. Science is used to plumb the depths of the ocean, to peer into the smallest building blocks of the human body, to look outward millions of miles into the cosmos and to engineer complex mechanical structures. Some scientists call into question our very perception of time and space. The vast majority of careers in this field will require at least a Bachelor’s degree, so if you are interested in transferring to a four-year school to pursue a career in mathematics, science, or engineering, you should begin in Life and Physical Sciences.

PATHWAY: Biology
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

When you think of life on earth, your first thoughts are probably about familiar animals. That is only a small sample of the types of life on our planet, which include plants, bacteria, fungi, and animals in a vast array of body forms and types. Biology is the study of life, individual organisms, their communities, and the systems, cells, and processes that make up living matter. With an AS degree you can transfer to a four-year college as a junior, obtain your bachelor’s degree and work in fields like biochemistry, genetics, marine biology, zoology, ecology and much more.

This is an example course sequence for students interested in pursuing Biology. This pathway does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Science (AS) degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. Following this pathway will help you get your associate degree, which will increase your chances of transfer to Bachelor’s-level programs of study. Choose Illinois Articulation Initiative (IAI) courses to fulfill general education requirements whenever possible. Visit www.itransfer.org and speak with your college advisor to learn more about IAI.

Choose your courses with your College Advisor.

D SEMESTER 1 CATEGORY ACHIEVEMENTS & NEXT ACTIONS
• English 101--Composition I (3) Communications
  DO THIS—Meet with advisor to discuss academic goals and plan coursework
• Psychology 201--General Psychology (3) Social & Behavioral Sciences
  DO THIS—Begin research on four-year schools
• Mathematics 207--Calculus I (5) Mathematics
• Biology 121--Biology 1 (5) Life Sciences
16 CREDIT HOURS

D SEMESTER 2 CATEGORY ACHIEVEMENTS & NEXT ACTIONS
• English 102--Composition II (3) Communications
• Biology 122--Biology II (5) Social & Behavioral Sciences
• Fine Arts course (3) Fine Arts
• Speech 101--Fundamentals of Speech Communication (3) Communications
• Social & Behavioral Sciences course (3) Social & Behavioral Sciences
17 CREDIT HOURS

D SEMESTER 3 CATEGORY ACHIEVEMENTS & NEXT ACTIONS
• Program Elective (4) Mathematics/Sciences
• Social & Behavioral Sciences (3) Social & Behavioral Sciences (HD)
• Humanities course (3) Humanities
• Chemistry 201--General Chemistry I (5) Physical Sciences
15 CREDIT HOURS

D SEMESTER 4 CATEGORY ACHIEVEMENTS & NEXT ACTIONS
• Fine Arts & Humanities course (3) Fine Arts & Humanities
• Program Elective (4) Elective
• Program Elective (4) Elective
• Chemistry 203--General Chemistry II (5) Mathematics/Sciences
COMPLETION of Associate in Science degree in Biology
16 CREDIT HOURS

DEGREE MINIMUM: 64 CREDIT HOURS // PATHWAY TOTAL: 64 CREDIT HOURS
### PROGRAM ELECTIVES

| Botany 201—General Botany I (4) | Microbiology 233—General Microbiology (4) | |

**D = DEGREE // AC = ADVANCED CERTIFICATE // BC = BASIC CERTIFICATE**
When you think of chemistry, you might think of atoms and bonds, bubbling beakers and smoking test tubes. In reality, chemistry students use mathematics, theory, and experimentation to study the matter that makes up physical substances. People working in the field of chemistry make valuable contributions in a range of fields, including medicine, biology, psychology, and geology. Follow the chemistry pathway and you’ll explore many different topics, from the chemical basis for life to the environmental problems caused by chemicals. The chemistry pathway leads to an associate degree which will allow you to transfer as a junior to a four-year college to complete your bachelor’s degree. You might become a pharmacist, scientist, forensics specialist, food scientist, dentist, materials engineer or hazardous materials specialist.

This is an example course sequence for students interested in earning a degree in Chemistry. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in General Studies (AGS) degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below.

PATHWAY: Environmental Biology

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

Ever been told you can’t see the forest from the trees? When environmental biologists get to work, they not only look at the trees—they look at the animals, the rocks, the soil, and the air. The environmental biology pathway studies the web of living and nonliving things in an environment to understand how the whole system works. Studying environmental biology, you can later transfer to a four-year university as a junior, obtain your bachelor’s degree and work in fields like environmental engineering, forestry, wildlife preservation or national park administration.

This is an example course sequence for students interested in earning a degree in Environmental Biology. This pathway does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Science (AS) degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. Following this pathway will help you get your associate degree, which will increase your chances of transfer to bachelor’s-level programs of study. PATHWAY: Environmental Technology
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in environmental technology. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn a Basic Certificate (BC) and an Associate in Applied Science (AAS) degree in Environmental Technology. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below.

The AAS degree program in Environmental Technology prepares students with the skills and knowledge needed to participate in environmental careers including environmental compliance in public and private sector organizations, pollution prevention, environmental remediation, workplace health and safety, and emergency response preparedness. You will learn to develop procedures for proper hazardous materials handling techniques and design training programs used to implement existing and future regulatory requirements to ensure compliance. Upon graduation, you will be prepared to work in the health and safety field in such positions as compliance officer, environmental safety specialist, laboratory technician, hazardous materials emergency response technician, and environmental coordinator.

Choose your courses with your College Advisor.

FOR MORE INFORMATION ON DEGREE AND CERTIFICATE PROGRAMS, PLEASE VISIT WWW.CCC.EDU
As a geology student, you won’t just study rocks, you’ll explore the Earth’s history and gain valuable insight into some of today’s most pressing concerns, such as global climate change. You’ll study the Earth’s treasures, such as fossils and gems, as well as its dangers, such as volcanoes and earthquakes. You might find yourself becoming a geoscientist, a meteorologist, a mining engineer, or a geological engineer at an oil company.

This is an example course sequence for students interested in pursuing Geology, Earth Science, Earth and Environmental Science. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Science (AS) degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. Following this pathway will help you get your associate degree, which will increase your chances of transfer to Bachelor’s-level programs of study. Choose Illinois Articulation Initiative (IAI) courses to fulfill general education requirements whenever possible. Visit www.itransfer.org and speak with your college advisor to learn more about IAI.

PATHWAY: Horticulture (Sustainable Urban)
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in pursuing Horticulture (Sustainable Urban). It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Advanced Certificate (AC). The Sustainable Urban Horticulture certificate program is designed to provide students with cutting edge opportunities in the area of green technologies. Topics will include green roofs, xeriscaping, rain gardens, and other new emerging technologies in the green industry.

Choose your courses with your College Advisor.

PATHWAY: Mathematics

Visit your College Advisor, ccc.edu, or your college's Transfer Center for more information.

Most of us are comfortable using everyday mathematics, but higher level mathematics, such as calculus, may seem mysterious, a completely unfamiliar language. As a mathematics student, you'll study this language and learn how to use it to describe the world. You'll explore calculus, modern algebra, and other high-level mathematics in the purest light. If you love to solve puzzles, enjoy finding patterns and discovering whether something is true or false, this could be the pathway for you. If it all adds up, you might become a computer scientist, a mathematician, a statistician and more.

This is an example course sequence for students interested in pursuing Mathematics. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Science (AS) degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. Following this pathway will help you get your associate degree, which will increase your chances of transfer to bachelor’s-level programs of study. Choose Illinois Articulation Initiative (IAI) courses to fulfill general education requirements whenever possible. Visit www.itransfer.org and speak with your college advisor to learn more about IAI.

TRANSPORTATION, DISTRIBUTION, AND LOGISTICS

In the late 19th Century, riders of the Pony Express became famous for delivering mail from Missouri to California in ten days, an unbelievable feat at the time. Today, businesses and individuals are so reliant on fast transportation of people and goods that it is virtually impossible to imagine our lives without these services. The industry of Transportation, Distribution, and Logistics has become a mainstay, and workers are needed to manage the movements of products, drive and repair vehicles, and coordinate warehouses and distribution centers. If any of these functions interest you, seriously consider a career in Transportation, Distribution, and Logistics.

* Coming Summer 2016

** The Associate in Applied Science degree in Automotive Technology has three different tracks of study for students to choose from.
PATHWAY: Alternative Fuel Vehicle Technology
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a Basic Certificate (BC) in Alternative Fuel Vehicle Technology (AFVT). If this pathway is followed as outlined, you will earn a Basic Certificate. It does not represent a contract, nor does it guarantee course availability. The AFVT Program has been designed to prepare students to apply their skills and knowledge to correctly diagnose and repair alternative fuel vehicles such as hybrid power units in accordance with manufacturer’s specifications. The AFVT program will also give emergency response, auto insurance and salvage yard personnel working knowledge to safely perform their tasks when working on or inspecting hybrid fuel vehicles. This program will also prepare automotive technicians and instructors to sit for the Automotive Service Excellence (ASE) Advanced Engine Performance examination.

Choose your courses with your College Advisor.

Programs offered at: ✅✅✅✅✅
**PATHWAY:** Automotive Technology, Track I

Visit your College Advisor, [ccc.edu](http://ccc.edu), or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning an Associate in Applied Science degree in Automotive Technology. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn basic certificates (BC) in Automotive Chassis Maintenance (ACM), Automotive Fuel Management (AFM) and Automotive Maintenance (AM) and a Basic Certificate (BC) and Associate in Applied Science (AAS) Degree in Automotive Technology (AT). One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below.

The AAS degree program in Automotive Technology provides the necessary foundation and practical experience to pursue entry-level positions that meet the changing demands of the automotive industry. Entry-level positions may be found in automotive dealerships, automotive franchises, independent service repair shops, auto part stores, or through self-employment. Students will learn the technical skills essential to employment in the field of maintenance technology, auto body care, chassis, diesel, and power train, leading to employment in service, maintenance, and areas of technological specialty such as detailing, auto body paint and refinishing, as well as management occupations or self-employment. Students will also be able to consider transferring Industrial Engineering Technology credits to state universities.

Choose your courses with your College Advisor.

Student must be eligible for English 100, Reading 125, and Mathematics 98 to begin core curriculum classes.

If this pathway is followed as outlined, you will earn basic certificates (BC) in Automotive Chassis Maintenance (ACM) and Automotive Maintenance (AM) and a Basic Certificate (BC), Advanced Certificate (AC) and Associate in Applied Science (AAS) Degree in Automotive Technology (AT). One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below.

The AAS degree program in Automotive Technology provides the necessary foundation and practical experience to pursue entry-level positions that meet the changing demands of the automotive industry. Entry-level positions may be found in automotive dealerships, automotive franchises, independent service repair shops, auto part stores, or through self-employment. Students will learn the technical skills essential to employment in the field of maintenance technology, auto body care, chassis, diesel, and power train, leading to employment in service, maintenance, and areas of technological specialty such as detailing, auto body paint and refinishing, as well as management occupations or self-employment. Students will also be able to consider transferring Industrial Engineering Technology credits to state universities.

Choose your courses with your College Advisor.

Student must be eligible for English 100, Reading 125, and Mathematics 98 to begin core curriculum classes.

### Communications and mathematics pre-credit requirements. Placements based on COMPASS, ACT or department chair recommendation.

### DEGREE TOTAL: 66 CREDIT HOURS // PATHWAY TOTAL: 69 CREDIT HOURS

1. Automotive Technology 108 is a Program Elective for the AAS and a Required Program Core for the BCAM and BCACM
2. Automotive Technology 207 is an Elective for the AAS, but is a Required Program Core for the ACM
3. Automotive Technology 211 is a Required Program Core for the BCCA, but is not required for the AAS

programs offered at:

- [CCC.edu](http://www.ccc.edu)
This is an example course sequence for students interested in earning a Basic Certificate (BC) in Class C Driver Training. If this pathway is followed as outlined, you will earn a Basic Certificate. It does not represent a contract, nor does it guarantee course availability. The Class C Driver Training program is designed to provide students with an in-depth coverage of the laws, rules and regulations that are applicable to the operation of both commercial and non-commercial motor vehicles. Students will gain knowledge and skills in the areas of vehicle inspection, pre-testing, skill operations and defensive driving techniques. Students will be eligible to apply for positions such as delivery driver, para-transit driver and/or medi-car driver.

Choose your courses with your College Advisor.

**SEMESTER-BY-SEMESTER PROGRAM PLAN FOR FULL-TIME STUDENTS**

**PATHWAY:** Commercial Driver Training

Visit your College Advisor, [ccc.edu](http://ccc.edu), or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a Basic Certificate (BC) in Commercial Driver Training. This does not represent a contract, nor does it guarantee course availability.

---

**DEGREE CODE:**

BC 876

---

Prospective students must apply for admission into the Commercial Driver Training Program.

### ADMISSIONS REQUIREMENTS

The Commercial Driver Training certificate program is designed for individuals with little or no commercial driving experience. The Commercial Driver Training program trains students for entry level employment as commercial motor vehicle operators. In partnership with the Illinois Department of Transportation, this program prepares students to obtain a Commercial Driver’s License in the State of Illinois. The basic requirements to enter the program are:

- Must be at least 21 years of age
- Have a valid Illinois driver’s license
- Have a good driving record
- Provide a current Court-Purpose Motor Vehicle Report (MVR) which can be obtained from Secretary of State for $12.00
- Be able to pass a DOT Physical and Drug Screen
- Must be able to read, write and understand English

Choose your courses with your College Advisor.

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a Basic Certificate (BC) in Commercial Passenger Driver: Class B. This does not represent a contract, nor does it guarantee course availability.

DEGREE CODE:
BC 875

Prospective students must apply for admission into the Commercial Driver Training Program.

ADMISSIONS REQUIREMENTS

The Commercial Passenger Driver: Class B certificate program is designed for students with minimum experience who are trained to operate Class B passenger and non-passerger motor vehicles. In partnership with the Illinois Department of Transportation, the program prepares students for a Class B Commercial Driver’s License in the State of Illinois.

- Must be at least 21 years of age
- Have a valid Illinois driver’s license
- Have a good driving record
- Provide a current Court-Purpose Motor Vehicle Report (MVR) which can be obtained from Secretary of State for $12.00
- Be able to pass a DOT Physical and Drug Screen
- Must be able to read, write and understand English

CERTIFICATE MINIMUM: 9 CREDIT HOURS // PATHWAY TOTAL: 9 CREDIT HOURS

PROGRAMS OFFERED AT:
PATHWAY: Defensive Driving: Attitudinal
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a Basic Certificate (BC) in Defensive Driving: Attitudinal. It does not represent a contract, nor does it guarantee course availability. The Defensive Driving Attitudinal certificate program comprises an eight-hour workshop which addresses the needs of those individuals who are repeat violators of traffic rules and regulations and newly licensed chauffeurs who have been driving in the United States for at least three years. This training component is certified by the National Safety Council. Topics include the violation of rules and regulations, cultural sensitivity, anger management and conflict resolution, as well as behavior modification approaches for effective customer service. Additionally, the training also reviews the Illinois Rules of the Road Handbook and prepares the inexperienced chauffeur driver for the road. Students will receive the National Safety Council certificates of completion once they successfully complete the workshop program.

Choose your courses with your College Advisor.

PATHWAY: Forklift Operation and Safety
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a Basic Certificate in Forklift Operation and Safety. This does not represent a contract, nor does it guarantee course availability.

The Forklift Operation and Safety Certificate Program prepares students to become safe and effective forklift operators. Upon completion of the program, students will have working knowledge of the basic use of lift trucks, as well as the ability to safely inspect and operate lift trucks. The curriculum includes theory and practical training.

Choose your courses with your College Advisor.

**PATHWAY:** Limousine–Restricted Chauffeur Training
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in earning a Basic Certificate (BC) in Limousine–Restricted Chauffeur Training. This does not represent a contract, nor does it guarantee course availability.

The Limousine–Restricted Chauffeur Training Certificate Program is an intensive one-day training that prepares individuals to become restricted public chauffeurs. Students participating in this training are eligible to become licensed to drive a livery/limousine. The training is offered four times each month and is intended to serve as a preparatory course to assist individuals with the successful completion of the restricted public chauffeur’s license exam. Students learn current chauffeur rules and regulations, as well as information on new cultural attractions, buildings, hospitals and hotels.

Programs offered at: [CCC Campuses]
PATHWAY: Pre-Aviation
Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

The sky’s the limit with our pre-aviation pathway. Whether you’re following your dream of flying a plane or helicopter, working in aviation technology or air traffic control, the pre-aviation pathway gets you off the runway. With your associate degree, you can transfer to a four-year college, earn your bachelor’s degree and start a career in the airline industry, military, helicopter news reporting, or aerospace technology.

This is an example course sequence for students interested in pursuing Aviation. This does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn an Associate in Science (AS) degree. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below. Following this pathway will help you get your associate degree, which will increase your chances of transfer to Bachelor’s-level programs of study. Choose Illinois Articulation Initiative (IAI) courses to fulfill general education requirements whenever possible. Visit www.itransfer.org and speak with your college advisor to learn more about IAI.

PATHWAY: Transportation, Distribution, and Logistics

Visit your College Advisor, ccc.edu, or your college’s Transfer Center for more information.

This is an example course sequence for students interested in Transportation, Distribution, and Logistics. It does not represent a contract, nor does it guarantee course availability. If this pathway is followed as outlined, you will earn a Basic Certificate (BC), Advanced Certificate (AC) and Associate in Applied Science Degree (AAS) in Transportation, Distribution and Logistics. One course will satisfy the Human Diversity (HD) requirement, and is labeled with an (HD) in the sequence below.

The AAS Degree in Transportation, Distribution and Logistics provides students with a direct experience working in a logistics environment, building skills critical to success including: operations/business development, receiving, shipping, and case analysis. The program prepares students for working from entry level to supervisory positions. Students will receive three semesters of practical logistics operations experience, working at the college’s on-site distribution center, the “Central Store”.

AFRICANA STUDIES

AFRICANA STUDIES 101
Introduction to African-American Studies
Survey of African-American Studies from an interdisciplinary perspective; team-taught course utilizes expertise of African-American Studies staff, embraces five basic categories of the African-American Studies program. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

AFRICANA STUDIES 214
Hip Hop: Culture and Politics
The political significance, globalization and history of Hip-Hop will be examined. Four of the multitude of musical permutations of American Hip-Hop (Rap, consciousness/social awareness, gangsta rap and commercial hip-hop) and their relative/potential impact will be outlined. The materials/social culture that has come to be associated with Hip-Hop will be the primary focus. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101 and Africana Studies 101.
3 LECTURE HOURS. 3 CREDIT HOURS.

AIR CONDITIONING

AIR CONDITIONING 101
Introduction to Air Conditioning I
Fundamentals of heat and measurement; intensity, quantity, and modes of flow; factors of comfort studied and explored in relation to design of a system in connection with function of that system. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

AIR CONDITIONING 102
Introduction to Air Conditioning II
Refrigeration, its theory, systems, components, and control as applied to air conditioning; study of refrigeration equipment, including function, selection, proper installation, maintenance, and service. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

AIR CONDITIONING 103
Duct Design and Layout
Conventional low velocity duct design; high velocity air distribution design and systems using sophisticated design techniques; layout techniques. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Air Conditioning 101 and Air Conditioning 102 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS

Credit Courses

AIR CONDITIONING 151
Commercial Refrigeration
Selection, maintenance, and installation of commercial refrigeration. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Air Conditioning 150.
3 LECTURE HOURS. 3 CREDIT HOURS.

AIR CONDITIONING 155
Refrigeration Laboratory
Gauges, meters, and troubleshooting. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

AIR CONDITIONING 156
Domestic Refrigeration Laboratory
Domestic and hermetic servicing. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

AIR CONDITIONING 157
Analysis Laboratory
Analysis of domestic and commercial hermetic systems, mechanical and electrical servicing. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

AIR CONDITIONING 158
Commercial Refrigeration Laboratory
Installation of components and complete systems, service, and maintenance of those components and systems. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

AIR CONDITIONING 160
Introduction to Principles of Heating
Warm air systems, hot water systems, steam systems, gas fuel, oil fuel, and coal fuel at both residential and commercial levels; control systems and their installation, maintenance, service and sub-electrical systems and their service. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

AIR CONDITIONING 165
Heating Laboratory
General study of domestic and commercial systems. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

AIR CONDITIONING 204
Advanced Control Systems
Theory, maintenance, and repair of advanced electrical, mechanical, and electronic controls, and control systems. Design techniques of control systems explored. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Air Conditioning 104.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

ANTHROPOLOGY

ANTHROPOLOGY 201
Introduction to Biological and Cultural Evolutions of Humans
Survey and analysis of the fundamentals of prehistoric archaeology, fossil primates and primate evolution, primate behavior, human genetics, and the variations of human populations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

ANTHROPOLOGY 202
Cultural Anthropology
Comparative study of human societies and cultures of the world; cross-cultural investigation of social organization and political, economic, religious, and family systems. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

ANTHROPOLOGY 205
Applied Anthropology
This course explores the application of anthropological concepts, perspectives, techniques, and information to understanding and dealing with contemporary issues. Discusses the relevance of anthropology to such practical concerns as healthcare, business, and community development, and illustrates the versatility of its uses in numerous career fields. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

ANTHROPOLOGY 206
Introduction to Archaeology
Introduces the study of past cultures through their material remains. Explores strategies for locating archaeological remains; techniques of excavation; conservation procedures; and methods for analysis and interpretation of these materials. Examines major prehistoric cultures of the world and their patterns of change and development. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

ANTHROPOLOGY 210
North American Archaeology
Prehistoric cultural evolution in North America, including the first arrival of people, distribution, beginnings of settled life and formation of political-religious states; prehistory of Eastern and Western United States and Eastern, Central, and Southern Mexico until arrival of Europeans. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
## ARABIC

### ARABIC 101
**Arabic for Beginners I**
Introduction to Arabic language with emphasis on language of everyday conversation. Focus is on alphabet, vocabulary and structure needed for elementary speaking, listening, and reading. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 100, or consent of Department Chairperson.
4 LECTURE HOURS. 4 CREDIT HOURS.

### ARABIC 102
**Arabic for Beginners II**
Introduction to Arabic language with emphasis on language of everyday conversation. Focus is on alphabet, vocabulary, and structure needed for elementary speaking, listening, reading, and translating. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Arabic 101, Placement test or consent of Department Chairperson.
4 LECTURE HOURS. 4 CREDIT HOURS.

### ARABIC 103
**Intermediate Arabic I**
Introduction to Arabic language with emphasis on language of everyday conversation. Focus is on alphabet, vocabulary, and structure needed for elementary speaking, listening, reading, and translating. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Arabic 102, Placement test or consent of Department Chairperson.
4 LECTURE HOURS. 4 CREDIT HOURS.

### ARABIC 104
**Intermediate Arabic II**
Introduction to Arabic language with emphasis on language of everyday conversation. Focus is on alphabet, vocabulary, and structure needed for elementary speaking, listening, reading, and translating. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Arabic 103, Placement test or consent of Department Chairperson.
4 LECTURE HOURS. 4 CREDIT HOURS.

## ARCHITECTURE

### ARCHITECTURE 104
**History of Architecture I**
The study of the development of early architecture through the mid-18th Century. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

### ARCHITECTURE 105
**History of Architecture II**
The study of architecture since the mid-18th Century. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

### ARCHITECTURE 121
**Architectural Drawing I**
Introduction to techniques of graphic expression, emphasis on using graphic means for communication. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better or concurrent enrollment in Architecture 170, and eligibility for English 100, or consent of Department Chairperson.
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

### ARCHITECTURE 122
**Architectural Drawing II**
Continuation of Architecture 121. Emphasis on developing skills in shading, proportion, pencil and introduction to pictorial and other rendering techniques. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Architecture 121, and completion of or concurrent enrollment in Architecture 171, or consent of Department Chairperson.
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

### ARCHITECTURE 123
**Architectural Drawing III**
Continuation of Architecture 122. Emphasis on developing skills in pictorial and perspective drawing and sketching, color, form, and presentation skills. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Architecture 122, or consent of Department Chairperson.
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

### ARCHITECTURE 166
**Concepts of Planning**
In-depth examination of criteria which influence architecture; programming, site analysis, mechanical and structural considerations; applications of delineation techniques; examination of philosophy of significant architects and their work. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Architecture 121 and grade of C or better or concurrent enrollment in Architecture 171 or consent of Department Chairperson.
4 LECTURE HOURS. 2 LAB HOURS. 5 CREDIT HOURS.

### ARCHITECTURE 170
**Computer-Aided Design I for Architectural Drafting Techniques**
Introduction to design and drafting techniques using computer-aided design (CAD) systems; use of basic command structures, keyboard and menu tablets; text, dimensioning and pen and layer selection. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 100 or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

### ARCHITECTURE 171
**Computer-Aided Design II for Architectural Drafting Techniques**
Intermediate drafting and design techniques using computer-aided design (CAD) systems; dimensioning and text, 3D geometric constructs, advanced editing techniques, file handling and plotter utilization. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Architecture 170 or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.
ARCHITECTURE 172
Computer-Aided Design III for Architectural Drafting Techniques
Advanced drafting and design techniques using computer-aided design/drafting (CAD) programs; techniques of file handling, 3D drawing, solid modeling and rendering. Hardware and software requirements will be discussed. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Architecture 170 or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

ARCHITECTURE 173
Architecture: CAD with Third Party Applications
Introduction to third party programs used to develop architectural designs and construction documents via Computer-Aided Design (CAD). Add-on programming to the base drafting package AutoCAD. The student will have hands-on experience with automated architectural programs that streamline management of file handling and the basic command structure. Utilization of comprehensive library symbols with smart features. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Architecture 171, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

ARCHITECTURE 174
Computer-Aided Design V for Architectural Drafting
Introduction to third party programs used to develop architectural designs and construction documents via Computer-Aided Design (CAD). Add-on program to the base drafting package AutoCAD. The student will have hands-on experience with 3D studio. This course will include three-dimensional modeling with complete rendering. The model will include texture of materials, various lighting schemes with shade and shadow. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Architecture 171, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

ARCHITECTURE 202
General Construction
Study of materials used in building construction, their growth or manufacture, preparation and application; emphasis on frame and masonry construction types; working drawings and structural details. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Architecture 121, and completion of or concurrent enrollment in Architecture 172, or consent of Department Chairperson.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

ARCHITECTURE 204
General Construction, Advanced
Continuation of Architecture 202. Emphasis on advanced structural detailing and working drawings. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Architecture 202, or consent of Department Chairperson.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

ARCHITECTURE 266
Architectural Planning
Application of planning concepts to basic architectural problems through development of selected design projects emphasizing relation of form to function; project presentation will employ models and pictorial rendering techniques in various media; current architectural thought explored through examples of various building types. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Architecture 166, or consent of Department Chairperson.
4 LECTURE HOURS. 2 LAB HOURS. 5 CREDIT HOURS.

ART

ART 103
Art Appreciation
Appreciation of art works taken from all cultures and periods. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

ART 114
Appreciation of Photography
Topics from the history and technical development of photography from its invention to the present. Influence of other arts and sciences. May include darkroom work. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

ART 115
Photography
Basic principles of black and white photography, 35 mm cameras, exposure, development and printing processes, composition and presentation. Writing assignments, as appropriate to the discipline, are part of the course.
6 LAB HOURS. 3 CREDIT HOURS.

ART 116
Advanced Photography
Advanced techniques in development and printing. Introduction to other formats. Writing assignments, as appropriate to the discipline, are part of the course.
Pre requisite(s): Grade of C or better in Art 115, or consent of Department Chairperson.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

ART 117
Beginning Color Photography
Introduction to techniques, art and theory of color photography; printing from color negatives and/or transparencies, developing color negatives and/or transparencies; characteristics of different color film types, lighting for color photography; covers color theory and use of color in composition. Writing assignments, as appropriate to the discipline, are part of the course.
Pre requisite(s): Grade of C or better in Art 115 and 116, or consent of Department Chairperson.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

ART 126
Printmaking I
Processes of lithography and relief printmaking; includes line, shape, texture, value, and color in stone lithography, wood, linoleum printmaking. Writing assignments, as appropriate to the discipline, are part of the course.
6 LAB HOURS. 3 CREDIT HOURS.

ART 127
Printmaking II
Processes of intaglio, dry point, and screen printmaking, includes line, shape, texture, value, and color in printmaking process. Writing assignments, as appropriate to the discipline, are part of the course.
6 LAB HOURS. 3 CREDIT HOURS.
ART 130
African-American Art
Survey of African-American art over last 150 years; covers African-American crafts and sculpture during 19th Century; realistic painters of early 20th Century; cubistic and abstractionist influences on painting and sculpture; non-revolutionary artists such as Charles White, Henry O. Tanner, Aaron Douglas and Hughie Lee-Smith. Writing assignments, as appropriate to the discipline, are part of the course.

3 LECTURE HOURS. 3 CREDIT HOURS.

ART 131-2
General Drawing
Still-life, landscape and human figure; experimentation with various media. Writing assignments, as appropriate to the discipline, are part of the course.

6 LAB HOURS. 3 CREDIT HOURS.

IAI/MAJOR: WR

ART 132
Advance General Drawing
This course builds on and refines the experiences of general drawing focusing on a variety of color media. Emphasis is on invention and formal concerns. Explorations into abstraction, non-objective, and fabricated image making are covered in this class. Course includes vocabulary development, critical analysis activities, and reference to historic models of drawing. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Art 131.

6 LAB HOURS. 3 CREDIT HOURS.

IAI/MAJOR: WR

ART 141
Introduction to the Visual Arts
Practical application of fundamentals of visual arts. Includes study of line, texture, color, shape, and volume in various media. Recommended for pre-teachers. Writing assignments, as appropriate to the discipline, are part of the course.

1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

6 LAB HOURS. 3 CREDIT HOURS.

* ART 144-1
Two-Dimensional Design
A studio course exploring the fundamentals of the formal systems and basic elements of visual organization through two-dimensional design principles and theories using a variety of media. Fundamental design and experimentation in relationships of line, shape, textures, and color. Writing assignments, as appropriate to the discipline, are part of the course.

6 LAB HOURS. 3 CREDIT HOURS.

IAI/MAJOR: WR

ART 145-1
Three-Dimensional Design
Study of the fundamentals of the formal systems and basic elements of visual organization through three-dimensional design principles and theories; use of a variety of media, including recent and traditional materials, such as clay and plaster. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Art 144, or consent of Department Chairperson.

6 LAB HOURS. 3 CREDIT HOURS.

IAI/MAJOR: WR

ART 146
Crafts Workshop
Creation and construction of art forms in clay, metal, cloth, fibers, plaster, and wood; art process in both two and three dimensions; recommended for pre-teachers. Writing assignments, as appropriate to the discipline, are part of the course.

1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

6 LAB HOURS. 3 CREDIT HOURS.

ART 161
Freehand Drawing
Elementary drawing in charcoal and pencil from simple groups of block forms, still life, and architectural ornament; includes developing pencil technique. No previous drawing experience necessary. Writing assignments, as appropriate to the discipline, are part of the course.

6 LAB HOURS. 3 CREDIT HOURS.

ART 162
Architectural Representations
Continuation of Art 161. Experimentation with water colors and their use in rendering of architectural representation of building materials, textures, and nature; includes exterior and interior perspectives. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Art 141 and Art 161, or consent of Department Chairperson.

1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

ART 163
Watercolor Painting
Elementary painting and sketching including still life, landscape, and figure painting. Writing assignments, as appropriate to the discipline, are part of the course.

1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

ART 166
Oil Painting Techniques
A studio course that serves as an introduction to basic painting techniques and color principles applied to the exploration of oil and acrylic painting media. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Art 131, or consent of Department Chairperson.

6 LAB HOURS. 3 CREDIT HOURS.
Art 167
Advanced Oil Painting Techniques
Advanced techniques and experimentation in use of materials and the development of creative styles in oil painting. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Art 166, or consent of Department Chairperson.
6 Lab Hours. 3 Credit Hours.

Art 172
Communications Design I
Design application and merchandising of products and ideas; theory of design of form and function applied to products, brochures, packaging, display, and other commercial designs; application of design in television, newspapers, magazines, billboards, and posters for advertising industry. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Art 144, or consent of Department Chairperson.
2 Lecture Hours. 2 Lab Hours. 3 Credit Hours.

Art 176
Graphic Design I
Creative approach to graphics, using traditional and modern media, such as drawing, painting, photography, and constructed and sculptured art; includes reproduction of illustrations relating to advertising, and periodical and book publishing. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Art 144.
2 Lecture Hours. 2 Lab Hours. 3 Credit Hours.

Art 177
Graphic Design II
Continuation of Art 176. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Art 176.
2 Lecture Hours. 2 Lab Hours. 3 Credit Hours.

Art 196
Ceramics
Ceramics formed by coil, slab, or free form methods. Writing assignments, as appropriate to the discipline, are part of the course.
6 Lab Hours. 3 Credit Hours.

Art 197
Advanced Ceramics and Sculpture
Advanced work in pottery and sculpture, use of molds and various materials, individual experiments in pottery and sculpture. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Art 196, or consent of Department Chairperson.
6 Lab Hours. 3 Credit Hours.

Art 198
Sculpture I
The creation of sculpture using the formal systems and elements of visual organization in a study of materials and processes; this is done using a variety of tools and media, including but not limited to contemporary and traditional materials. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Concurrent enrollment in Art 145, or consent of Department Chairperson.
6 Lab Hours. 3 Credit Hours.

Art 200
Individual Art Projects
For advanced students who have completed beginning level studies in the corresponding discipline specific course, or an equivalent course at another institution, or who can demonstrate proficiency through portfolio review in the skills taught in the corresponding 100 level course. Work is completed on an independent project, the subject of which is designed through dialogue between students and instructor. Writing assignments, as appropriate to the discipline, are part of the course.
Allowed Repeatable Course: Not more than an accumulated six credit hours will be counted towards graduation. ARC: 3 times.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
1 Lecture Hour. 2 Lab Hours. 2 Credit Hours.

CREDIT COURSE DESCRIPTIONS

ART 200-P
Art Projects: Crafts Workshop
For advanced students who have taken all or most other art courses. Work on individual projects. Hours scheduled at convenience of student and instructor. Writing assignments, as appropriate to the discipline, are part of the course. **ARC: 3 times.**
Prerequisite(s): Grade of C or better in English 100 or Art 150, or consent of Department Chairperson.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

ART 200-Q
Art Projects: Freehand Drawing
For advanced students who have taken all or most other art courses. Work on individual projects. Hours scheduled at convenience of student and instructor. Writing assignments, as appropriate to the discipline, are part of the course. **ARC: 3 times.**
Prerequisite(s): Grade of C or better in English 100 or Art 166, or consent of Department Chairperson.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

ART 200-R
Art Projects: Architectural Rep
For advanced students who have taken all or most other art courses. Work on individual projects. Hours scheduled at convenience of student and instructor. Writing assignments, as appropriate to the discipline, are part of the course. **ARC: 3 times.**
Prerequisite(s): Grade of C or better in English 100 or Art 162, or consent of Department Chairperson.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

ART 200-S
Art Projects: Watercolor Painting
For advanced students who have taken all or most other art courses. Work on individual projects. Hours scheduled at convenience of student and instructor. Writing assignments, as appropriate to the discipline, are part of the course. **ARC: 3 times.**
Prerequisite(s): Grade of C or better in English 100 or Art 163, or consent of Department Chairperson.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

ART 200-T
Art Projects: Oil Painting
For advanced students who have taken all or most other art courses. Work on individual projects. Hours scheduled at convenience of student and instructor. Writing assignments, as appropriate to the discipline, are part of the course. **ARC: 3 times.**
Prerequisite(s): Grade of C or better in English 100 or Art 166, or consent of Department Chairperson.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

ART 200-U
Art Projects: Advanced Oil Painting
For advanced students who have taken all or most other art courses. Work on individual projects. Hours scheduled at convenience of student and instructor. Writing assignments, as appropriate to the discipline, are part of the course. **ARC: 3 times.**
Prerequisite(s): Grade of C or better in English 100 or Art 167, or consent of Department Chairperson.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

ART 200-V
Art Projects: Communication Design I
For advanced students who have taken all or most other art courses. Work on individual projects. Hours scheduled at convenience of student and instructor. Writing assignments, as appropriate to the discipline, are part of the course. **ARC: 3 times.**
Prerequisite(s): Grade of C or better in English 100 or Art 172, or consent of Department Chairperson.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

ART 200-W
Art Projects: Advanced Communication Art
For advanced students who have taken all or most other art courses. Work on individual projects. Hours scheduled at convenience of student and instructor. Writing assignments, as appropriate to the discipline, are part of the course. **ARC: 3 times.**
Prerequisite(s): Grade of C or better in English 100 or Art 174, or consent of Department Chairperson.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

ART 200-X
Art Projects: Graphic Design I
For advanced students who have taken all or most other art courses. Work on individual projects. Hours scheduled at convenience of student and instructor. Writing assignments, as appropriate to the discipline, are part of the course. **ARC: 3 times.**
Prerequisite(s): Grade of C or better in English 100 or Art 176, or consent of Department Chairperson.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

ART 200-Y
Art Projects: Graphic Design II
For advanced students who have taken all or most other art courses. Work on individual projects. Hours scheduled at convenience of student and instructor. Writing assignments, as appropriate to the discipline, are part of the course. **ARC: 3 times.**
Prerequisite(s): Grade of C or better in English 100 or Art 177, or consent of Department Chairperson.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

ART 200-Z
Art Projects: Ceramics
For advanced students who have taken all or most other art courses. Work on individual projects. Hours scheduled at convenience of student and instructor. Writing assignments, as appropriate to the discipline, are part of the course. **ARC: 3 times.**
Prerequisite(s): Grade of C or better in English 100 or Art 196, or consent of Department Chairperson.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

ART 272
Communication Design II
Story boards for television commercials, graphic design for television, and development and making of television commercials. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Art 172, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.
ART 275-1
Computer Art and Applications
An introduction and exploration of electronic imaging through hands-on experience of applications in computer graphics. A variety of software packages pertaining to art will be utilized, as well as input and output devices. The goal of the course is to begin to develop imaging skills in graphics systems. Students will also be introduced to computer concepts of design, color, image importing and exporting, image manipulation, and sequencing techniques. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

ASTRONOMY

ASTRONOMY 201
Descriptive Astronomy
Descriptive survey of major astronomical facts, concepts, and relationships, starting with the solar system and extending to stars, galaxies, and cosmogonies. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: DA MX TR HW WR

AUTOMOTIVE TECHNOLOGY

AUTOMOTIVE TECHNOLOGY 101
Introduction to Automotive Technology
Lecture and laboratory course covering the operating principles of the modern automobile. Subjects will include Preventive maintenance of the cooling system, fuel system, tires and wheels, lubrication system, and accessories. Course will include career exploration and automotive academics. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
2 LECTURE HOURS. 6 LAB HOURS. 4 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 103
Engine Concepts
Disassembly, inspection, and service of automotive engines with major emphasis on operational diagnostic and service. Students gain skills based on industry standards to perform precise diagnostics to solve operational issues related to the automotive engine. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better or concurrent enrollment in Automotive Technology 101 or consent of Department Chairperson.
2 LECTURE HOURS. 6 LAB HOURS. 4 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 104
Electrical Systems and Power Accessories
Introduction to theory, diagnosis, and repair of automotive electrical and electronic components and systems. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better or concurrent enrollment in Automotive Technology 101 or consent of Department Chairperson.
2 LECTURE HOURS. 6 LAB HOURS. 4 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 105
Fuel Management I
Service techniques and theories of operations necessary to maintain modern fuel delivery systems. Service will be performed on modern fuel injection systems. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Automotive Technology 103 or 104, or consent of Department Chairperson.
2 LECTURE HOURS. 6 LAB HOURS. 4 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 106
Fuel Systems
This further study of the fuel system provides students with an opportunity to acquire knowledge of the construction, operating principles and components of automotive fuel systems. Students perform service on carburetors as well as fuel injection systems in accordance with established industry standards. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Automotive Technology 101 and 104.
2 LECTURE HOURS. 9 LAB HOURS. 5 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 107
Automotive Body Welding
Students will acquire knowledge and skills using MIG, TIG and spot welding equipment in butt and lap welding on light-gauge metal. Course will include replacement of body panels using adhesive techniques. All work performed must be in accordance with established collision industry standards. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 6 LAB HOURS. 4 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 108
Work Based Learning I
Introduction to applied automotive technology in an actual work setting. Provides hands-on experience in an automotive shop. Students work on actual vehicles, carrying jobs from assignment through completion. Business operators will supervise students at the worksite. Instructors will supervise all on-campus work, and also visit off-campus worksites to observe, monitor, and critique student performance. Writing assignments, as appropriate to the discipline, are part of the course.
1-2 LECTURE HOURS. 10-20 LAB HOURS. 3-6 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 109
Automotive Brakes
Theory of operation and servicing of braking systems, both conventional and computerized anti-lock brake systems. Emphasis on diagnostic procedures; inspection techniques and service. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better or concurrent enrollment in Automotive Technology 101 or consent of Department Chairperson.
2 LECTURE HOURS. 6 LAB HOURS. 4 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 111
Auto Parts Specialist I
Lecture and laboratory course covering the principles of selling automotive parts in retail and wholesale parts establishments. Subjects will include: customer relations, parts identification and usage, stockings control, products knowledge, telephone ethics, selling skills, and cataloging. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 9 LAB HOURS. 6 CREDIT HOURS.
AUTOMOTIVE TECHNOLOGY 112
Auto Parts Specialist II
Lecture and laboratory course covering skills necessary to manage an automotive parts retail store. Subjects will include customer relations, building team staff, inventory control, corporate relationships, conflict resolution, and business analysis. Writing assignment, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Automotive Technology 111.
1 LECTURE HOUR. 10 LAB HOURS. 3 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 117
Auto Body Reconstruction I
Study of the principles and techniques of auto body sheet metal connections, use and care of basic tools, types and application of fillers, analysis of the extent of damage, and performance required repair operations. Students develop skills in repairing and/or removing and replacing damaged body panels. Emphasis is placed on developing proficiency in repairing body damage according to established collision industry standards. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Automotive Technology 111.
1 LECTURE HOUR. 6 LAB HOURS. 4 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 118
Auto Body Repainting I
Students will execute the techniques of preparing body surfaces, selecting and mixing paint, and spraying. Refinishing techniques will be performed on individual panels until each student demonstrates competency to refinish a live vehicle. Course will also emphasize recognizing and performing repair techniques for damage paint finishes in accordance with collision industry standards. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 6 LAB HOURS. 3 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 119
Automotive Body Detailing
Study of the principles of auto body detailing for post collision repaired vehicles and new and used car customer delivery service. Students will develop skills in selection and use of proper cleaning and polishing materials, proper buffing and polishing techniques, preparation of plastic bumpers and accessories, steam cleaning of engine components, care of rubber parts, and interior cleaning. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 9 LAB HOURS. 5 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 130
Topics in Alternative Fuel Technology
This course will introduce students to special topics in alternative fuel vehicles and all related technology. Additionally, the course will provide the knowledge base needed to understand alternative fuel vehicles, green technology, and their effect on the current and future of the world. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Automotive Technology 101, 104, 105, 204, 205 and 206; or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 204
Electrical Systems II
This course is designed to provide the necessary knowledge and skills to service today's automotive electrical systems. Selected topics include the reading of wiring diagrams, diagnosing electrical accessories, and operating and designing ignition systems. Students learn circuit testing on today's modern multiplex and CAN/BUS system protocol. Course will emphasize proper handling of advanced solid-state electronics such as air bags and computers. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Automotive Technology 101 or 104, or consent of Department Chairperson.
2 LECTURE HOURS. 6 LAB HOURS. 4 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 205
Fuel Management II
Emphasis on servicing of computerized engine and body controlled modules. Emphasis on service techniques for OBD II foreign and domestic computer control system. Students will gain skills in the use and interpretation of data related to modern diagnostic test equipment. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Automotive Technology 105.
2 LECTURE HOURS. 6 LAB HOURS. 4 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 206
Fuel Management III
This course builds upon the knowledge gained in previous fuel management courses with emphasis on diagnosis and repairs to sensors and actuators that control engine performance. Students will gain advanced diagnostic skills to interpret waveform patterns through the use of laboratory scopes. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Automotive Technology 205.
2 LECTURE HOURS. 6 LAB HOURS. 4 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 207
Transmission Transaxle and Drive
This course will cover three, four, and five speed manual transmissions/transaxles and all automotive transmissions/transaxles used on front wheel drive passenger cars. Diagnosis and repair procedures will be covered in detail. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Automotive Technology 101 and 212.
2 LECTURE HOURS. 6 LAB HOURS. 4 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 208-1
Work Based Learning II
Advanced hands-on experience in an automotive shop. Students work on actual vehicles, carrying jobs from assignment through completion. Business operators will supervise students at the worksite. Instructors will supervise all off-campus work based learning students, and also visit off-campus worksites to observe, monitor, and critique student performance. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 20 LAB HOURS. 6 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 208-2
Work Based Learning II
Advanced hands-on experience in an automotive shop. Students work on actual vehicles, carrying jobs from assignment through completion. Business operators will supervise students at the worksite. Instructors will supervise all on-campus work based learning students, and also visit off-campus worksites to observe, monitor, and critique student performance. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 10 LAB HOURS. 3 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS
Credit Courses

AUTOMOTIVE TECHNOLOGY 209
Steering and Suspension Systems
Theory of operation in servicing of suspension systems both rear and front wheel drive systems. Students gain skills in the use of computerized four-wheel alignment equipment, servicing McPherson struts, shock absorbers, rack and pinion and conventional steering systems. Diagnosis and service of Tire Monitoring Systems (TMS) is now part of the course. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better or Concurrent enrollment in Automotive Technology 101 or consent of Department Chairperson.
2 LECTURE HOURS. 6 LAB HOURS. 4 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 210
Performance and Driveability
This course covers the construction, operations, and testing of the ignition systems. Training is offered on the use of oscilloscopes, infrared gas analyzers, and other diagnostic equipment such as scan tool testing. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Automotive Technology 101, 104, 106, and 204.
2 LECTURE HOURS. 9 LAB HOURS. 5 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 211
Auto Service Management
Instruction in management skills related to inventory control, writing estimates and repair orders, billing, employee relations, time management, vendor relation, business financials, and customer relations. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 6 LAB HOURS. 4 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 212
Manual Drive Train and Axles
Upon successful completion of this course students will demonstrate understanding of design, construction, operation and the service principles of automotive clutches, manual transmissions, drivelines, differentials, and rear axles. Service work includes using appropriate repair and test equipment, determining problems or extent of damage, and performing corrective work in accordance with established industry standards. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better or Concurrent enrollment in Automotive Technology 101 or consent of Department Chairperson.
2 LECTURE HOURS. 6 LAB HOURS. 4 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 215
Auto Temperature Control Systems
Service procedures and theory of operation of both manual and electronically controlled heating and air conditioning systems. Emphasis will be on diagnosis, service, and replacement of air conditioning components. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 6 LAB HOURS. 4 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 217
Auto Body Reconstruction II
Students will increase their knowledge and skills by repairing more complex, extensive damages. Removal and installation of trim, body panels, welding, aligning various body components of the body, repairing of body hardware and accessories. Repairing or replacement of mechanical components as required for complete reconstruction of the vehicle is emphasized in this course. Students will utilize estimating skills to estimate the extent of damaged, repair time, cost of repairs, and repair strategies. All work will be performed in accordance with established collision industry standards. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Automotive Technology 117.
1 LECTURE HOUR. 6 LAB HOURS. 3 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 218
Auto Body Repainting II
Students will build on their refinishing skills learned in Automotive Technology 118 course. Advanced refinishing techniques are emphasized through practical application of auto body refinishing techniques on live vehicles as well as panels. As refinishing skills increase in proficiency, students will acquire skills to perform color matching to refinish weathered finishes and localized panel damage repairs. Students will be evaluated on their ability to complete refinishing assignments in accordance with industry standards. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Automotive Technology 118.
1 LECTURE HOUR. 6 LAB HOURS. 3 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 220
Collision Estimating
Estimating for automotive insurance claims and adjusting damages. Emphasis will be on appraisal procedures, flat rate computations, use of collision estimator, and preparation of insurance claim forms. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 6 LAB HOURS. 4 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 230
Introduction to Alternative Fuel Technology
This course will introduce students to the theories and service techniques of alternative fuel vehicles in today's society. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 6 LAB HOURS. 4 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 231
AFT Hybrid Fuel Vehicles
This course builds upon the knowledge gained in the previous alternative fuel courses with an emphasis on theories and servicing techniques of hybrids and fuel-cell vehicles. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Automotive Technology 101, 104, 105, 204, 205 and 206; or consent of Department Chairperson.
2 LECTURE HOURS. 6 LAB HOURS. 4 CREDIT HOURS.

AUTOMOTIVE TECHNOLOGY 232
Hybrid and Fuel Cell Vehicles
In this course, students will learn about alternative fuel technologies, apply advanced service techniques, and experiment with electric, hybrids, fuel-cell and other alternative energy source vehicles. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Automotive Technology 101, 104, 105, 204, 205 and 206; or consent of Department Chairperson.
2 LECTURE HOURS. 9 LAB HOURS. 5 CREDIT HOURS.

BAKING AND PASTRY

BAKING AND PASTRY 765
Introduction to Baking
The focus of this course will be an introduction to culinary history with emphasis on baking and pastry; instruction in principles and procedures of basic equipment and its use; and beginning fundamentals of baking. A look at the contemporary employment options in this field will compare restaurant, specialty (e.g., wedding cakes), retail, and wholesale careers. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 100, Reading 125, and Mathematics 98; concurrent enrollment in Baking and Pastry 766, 767, 768, and 769.
3 LECTURE HOURS. 3 CREDIT HOURS.
BAKING AND PASTRY 766
Baking Safety and Sanitation
An introduction to safe food production practices. Topics will include prevention of food-borne illness, HACCP procedures, facility sanitation, legal guidelines, kitchen safety, and safe food preparation, storing, and reheating guidelines. The National Restaurant Association ServSafe® examination will be a part of this course. Students who pass the exam will receive the ServSafe® certification. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 100, Reading 125, and Mathematics 98; concurrent enrollment in Baking and Pastry 765, 767, 768, and 769.
1 LECTURE HOUR. 6 LAB HOURS. 3 CREDIT HOURS.

BAKING AND PASTRY 767
Baking Techniques
This course provides an introduction to the functions of baking ingredients (flour, sugar, fat, eggs, and liquids) and mixing methods for doughs, fermentation techniques, and bread baking. Special emphasis will be placed on lean dough production and enriched dough methods (laminating, rubbing, and cut-in). Training in evaluation techniques of finished products will be emphasized. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 100, Reading 125, and Mathematics 98; concurrent enrollment in Baking and Pastry 765, 766, 768, and 769.
1 LECTURE HOUR. 6 LAB HOURS. 3 CREDIT HOURS.

BAKING AND PASTRY 768
Pastry Techniques
An introduction to pastry products and methods, this course will include lamination, short crust, liaison, meringue, pastry cream, pate a choux, vanilla sauce, ganache, custard, and mousse. Assembling the various components into completed pastries will include filling, glazing, garnishing, and making a variety of sauces. Students will learn to evaluate the quality of the items that are produced. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 100, Reading 125, and Mathematics 98; concurrent enrollment in Baking and Pastry 765, 766, 767, and 769.
1 LECTURE HOUR. 6 LAB HOURS. 3 CREDIT HOURS.

BAKING AND PASTRY 769
Cookies and Tarts
An introduction to a variety of mixing methods, doughs, batters, fillings and glazes with emphasis on preparing unfilled and filled cookies, mignardises, tarts, a variety of petit fours and other one bite items. Emphasis will be on production and will include specialty preparations, like gingerbread houses. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 100, Reading 125, and Mathematics 98; concurrent enrollment in Baking and Pastry 765, 766, 767, and 769.
1 LECTURE HOUR. 6 LAB HOURS. 3 CREDIT HOURS.

BAKING AND PASTRY 770
Basic and Classical Cakes
With emphasis on the different mixing and assembly methods, students will prepare a variety of classical cakes from simple pound cakes to elaborate filled cakes and tortes. Classical preparations will include Sacher Torte, Dobos Torte, Opera Torte, Marjolaine, Gateaux St. Honore, and Charlottes. Piping skills will be introduced and practiced. Writing assignments, as appropriate to the discipline,
Prerequisite(s): Grade of C or better in Baking and Pastry 767, 768 and 769; concurrent enrollment in Baking and Pastry 771, 772, and 773.
1 LECTURE HOUR. 6 LAB HOURS. 3 CREDIT HOURS.

BAKING AND PASTRY 771
Special Occasions Cakes
Decorating techniques will be practiced, including flowers and borders, royal icing, fondant draping, crimping and ruffling and gum paste flowers. Students will prepare special occasion cakes, seasonal cakes, and classical and contemporary wedding cakes. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Baking and Pastry 765, 767, 768 and 769; concurrent enrollment in Baking and Pastry 770, 772, and 773.
1 LECTURE HOUR. 6 LAB HOURS. 3 CREDIT HOURS.

BAKING AND PASTRY 772
Individual Pastries
Quantity production will be a key element of this course. From scaling recipes and calculating yields to working a pastry station, each student will be exposed to volume production for pastry buffet tables and retail operations. Emphasis will include presentation and plate designs for banquet desserts. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Baking and Pastry 767, 768 and 769; concurrent enrollment in Baking and Pastry 770, 771, and 773.
1 LECTURE HOUR. 6 LAB HOURS. 3 CREDIT HOURS.

BAKING AND PASTRY 773
Confectionary Arts
Display pieces are an important art in the pastry chef’s repertoire. This course will serve as an introduction to chocolate, sugar, marzipan, finishing techniques, molds and templates. Each student will create a centerpiece utilizing the skills learned. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Baking and Pastry 767, 768 and 769; concurrent enrollment in Baking and Pastry 770, 771, and 772.
1 LECTURE HOUR. 6 LAB HOURS. 3 CREDIT HOURS.

BAKING AND PASTRY 774
Hearth Breads and Rolls
Learn to mix, shape, bake and store bread and rolls. Emphasis will be on efficiency and increased speed in production of quality products. Students will use traditional fermentation methods, equipment, and methods to emphasize flavor, texture, and appearance as well as techniques that increase shelf life. Students will learn to evaluate the quality of the items that are produced. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Baking and Pastry 767, 768 and 769; concurrent enrollment in Baking and Pastry 775 and 776.
1 LECTURE HOUR. 9 LAB HOURS. 4 CREDIT HOURS.

BAKING AND PASTRY 775
Specialty Breads
This course will introduce advanced bread principles and techniques, including regional and ethnic breads. Production will include mult-grain breads, sourdoughs, bagels, pretzels, holiday or seasonal breads, and flat breads. Special emphasis will be placed on mixing, shaping, and finishing specialty breads; and innovative baking methods. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Baking and Pastry 767, 768 and 769; concurrent enrollment in Baking and Pastry 774 and 776.
1 LECTURE HOUR. 9 LAB HOURS. 4 CREDIT HOURS.
BAKING AND PASTRY 776
Advanced Baking Principles
We live in a world where many people have special dietary needs. This course examines baking methods and principles from a nutritional and chemical/physical point of view. Topics to be covered include: diets such as vegan, diabetic, low-carb and gluten-free, nutritional analyses, and preparation of items for persons with special dietary needs. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Baking and Pastry 767, 768 and 769; concurrent enrollment in Baking and Pastry 774 and 775.
1 LECTURE HOUR. 6 LAB HOURS. 3 CREDIT HOURS.

BAKING AND PASTRY 777
Chocolate and Confections
This course introduces students to the tempering of chocolate, creation of chocolate sculptures and simple centerpieces, and production of chocolates and other confections including fudge, fondant, nougat, caramel, toffee and truffles. Emphasis will be on creating confections by hand and with special equipment. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Baking and Pastry 767, 768, 769, 773, and 776; concurrent enrollment in Baking and Pastry 778.
1 LECTURE HOUR. 6 LAB HOURS. 3 CREDIT HOURS.

BAKING AND PASTRY 778
Contemporary Desserts
Assembled and decorated with a modern approach, desserts will be produced using the latest technology and equipment. Students will use specialized equipment, practice new presentation methods, and focus on freshness, simplicity of style, and ease of production. Each student will produce a plated dessert and centerpiece using a variety of the techniques learned throughout the program and showing key elements of production, design, freshness of flavor and consistency. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Baking and Pastry 767, 768, 769, 773, and 776; concurrent enrollment in Baking and Pastry 777.
1 LECTURE HOUR. 15 LAB HOURS. 6 CREDIT HOURS.

BIOLOGY

BIOLOGY 100
Critical Readings in Biology
Prepares students to read in the life sciences. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

BIOLOGY 101
General Course Biology I
Basic principles and concepts of biology; general considerations of biological processes, including cellular and organismic levels. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

BIOLOGY 102
General Course Biology II
Continuation of Biology 101. Basic principles and concepts of biology, including how organisms reproduce and inherit; how life on earth evolved and how present day organisms relate to each other. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Biology 101, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

BIOLOGY 103
Biology of Human Sexuality
Structure and function in human sexuality; sexuality related to physical, mental, and emotional health; the relationships between sexual behavior and human ecology, population, gene frequencies, and society. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

BIOLOGY 107
Nutrition-Consumer Education
Science of food as it relates to health, including food composition and utilization, food preparation and preservation, nutrition, special diets, fad foods, and foods of the future; social and political aspects of food in the world’s future. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

BIOLOGY 109
Human Genetics and Evolution
Basis of inheritance; analysis of human pedigrees; sex-linkage; physical and behavioral aspects of human evolution. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

BIOLOGY 110
Human Ecology
Effects of dense population, effect of humans on air, minerals, water, noise; and how these affect humans. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

BIOLOGY 113
The Biology of Women
A comprehensive look at the human female throughout her entire life span. Deals with biological sex differentiation, fetal development and reproductive anatomy. Explains events of a woman’s reproductive life from menarche to menopause, sexuality, birth control, infertility, and pregnancy. Discusses sexually transmitted diseases, gynecological problems, breast cancer, controversial treatments and healthcare. Examines sociological and cultural health factors that influence a woman’s nutrition, physical activity, use of cosmetics, and use and abuse of drugs. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

BIOLOGY 114
General Education Biology
A laboratory course emphasizing scientific inquiry through selected concepts of biology, such as organization, function, heredity, evolution, and ecology. Biological issues with personal and social implications will be introduced to enable students to make informed decisions. This course is equivalent to the Illinois Articulation Initiatives General Education generic course numbered L1900L. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

BIOLOGY 209
Biochemistry
Biochemistry is designed to give students in life sciences, allied health fields, and biotechnology a basic understanding of the biological processes at the molecular, cellular and organismic level. An emphasis is placed on the use of laboratory tools and equipment in order to familiarize students with current biochemical techniques. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Biology 226, or consent of Department Chairperson.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

BIOLOGY 210
Survey of Biotechnology
This course will serve to introduce students to modern biotechnology which is based on recent developments in molecular biology, especially those in genetic engineering and bioengineering. Students will explore the diversity of the field focusing on such areas as medicine, biohazard, bioremediation, biocatalysis, biosafety, agriculture, forensics, quality control and assurance, testing, regulation, law and policy, intellectual property, proteomics, pharmacogenomics, nutrition, and product development. This course will incorporate speakers that are representative of specific areas in biotechnology. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Biology 121, and one year high school Chemistry or consent of Department Chairperson.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

BIOLOGY 226
Human Structure and Function I
Human anatomy and physiology. This laboratory course is recommended for those contemplating a career in the health professions and emphasizes the structure and function of the human body. Microscopic and gross anatomy are correlated with physiology. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Biology 121 or consent of Department Chairperson.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

BIOLOGY 227
Human Structure and Function II
Continuation of Biology 226. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Biology 226, or consent of Department Chairperson.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

BIOLOGY 236
Environmental Biology II
This course is a continuation of Biology 119. Environmental sampling and analysis techniques will be taught in the laboratory. Topics such as environmental toxicology, bioremediation, genetic contamination of plant species, conservation biology, and environmental law, policy and ethics may be covered in the lecture. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

BIOLOGY 240
Vertebrate Embryology
Introduction to the major morphogenetic events in vertebrate development, including development of gametes, fertilization, and the development of organ systems. Special attention will be paid to human development, developmental anomalies, and teratogens. Laboratory required. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Successful completion or concurrent enrollment in Biology 227 or Consent of Department Chairperson.
5 CREDIT HOURS. 4 LECTURE HOURS. 2 LAB HOURS.

BIOLOGY 241-1
Genetics
Principles of heredity, structure of genetic material, mechanism of transmission, and the role of genetics in evolution. Application of these principles to human and other organisms is included. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Biology 101 and 102, or Biology 114 and 115, or consent of Department Chairperson.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

BIOLOGY 241-2
Genetics
Principles of heredity, structure of genetic material, mechanism of transmission, and the role of genetics in evolution. Application of these principles to human and other organisms is included. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Biology 101 and 102 or Biology 114 and 115 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

BIOLOGY 242-1
Evolution
Origin, history and development of plants and animals. Includes evidence from anatomy, paleontology, comparative physiology, biochemistry, immunology, and genetics. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Biology 101 and 102, or Biology 114 and 115, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

BIOLOGY 242-2
Evolution
Origin, history and development of plants and animals. Includes evidence from anatomy, paleontology, comparative physiology, biochemistry, immunology, and genetics. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Biology 101 and 102, or Biology 114 and Biology 115 or consent of Department Chairperson.
2 LECTURE HOURS. 2 CREDIT HOURS.

BIOLOGY 250
Introduction to Molecular Biology
The first course in a three-part series in the biotechnology Program/Plan 215. This course stresses an introduction to current concepts and progress in modern molecular biology with emphasis on DNA science and genetic engineering as it applies to molecular, cellular and organismic biology. Writing assignments, as appropriate to the discipline, are part of the course. Allowed Repeatable Course: Not more than an accumulated six credit hours will be counted toward graduation.
Prerequisite(s): Grade of C or better in Biology 121, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

BIOLOGY 251
Molecular Biology I
The second course in a three-part series in the biotechnology Program/Plan 215. The course stresses the theory and practice of separation techniques and safety procedures that would be employed in the purification and assay of such biomolecules as nucleic acids, proteins and other related substances and the relationship of these molecules to living organisms. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Biology 250, or consent of Department Chairperson.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.
BIOLOGY 252
Molecular Biology II
The third course in a three part series, stresses the theory and practice of current techniques
used in DNA science, protein isolation, immunology and introduces selected biotechnology
protocols. An emphasis is placed on the use of laboratory tools and equipment in order
to familiarize students with current biochemical techniques. Writing assignments, as
appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Biology 251, or consent of Department Chairperson.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

BIOLOGY 253
Plant Molecular Biology
This course is designed for students in the life sciences, and biotechnology to understand
how plants function at the molecular level and discuss the current advances in plant
molecular biology and genetic engineering. Writing assignments, as appropriate to the
discipline, are part of the course.
Prerequisite(s): Grade of C or better in Biology 121 or 250, or consent of Department
Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

BIOLOGY 260
Introduction to Bioinformatics
This course will cover a range of bioinformatics, research using a case-based, problem-
solving approach. The course will consist of a combined lecturer-computer laboratory format
to provide hands-on experience in applying bioinformatics to a variety of research problems,
including genomic analysis, DNA microarray analysis, phylogenetics, three-dimensional
structure prediction, and proteomics. Special attention will be paid to ethical, legal and
personal concerns in the practice of bioinformatics. Writing assignments, as appropriate to the
discipline, are part of the course.
Prerequisite(s): Grade C or better in Biology 121 or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

BIOLOGY 299
Special Topics in Biology
Special topics in biology and biotechnology will be discussed along with appropriate lab and/
or field trip activities. New developments will be emphasized, especially materials useful in K-12 education and industry. Writing assignments, as appropriate to the discipline, are part of the course. ARC: 4 times.
0.5–5 LECTURE HOURS. 1–2 LAB HOURS. 1–6 CREDIT HOURS.

BOTANY

BOTANY 201
General Botany I
General biological principles applied to anatomy, physiology, reproduction, and heredity of
seed plants. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or
consent of Department Chairperson.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

IAI/GE: DA TR WR

BUSINESS

BUSINESS 111
Introduction to Business
This course is one of the required courses in the Paralegal AAS Program/Plan 304. It
explores essential knowledge in the American legal system. It explores essential knowledge in the
American legal system. It examines the role of the paralegal in family law. Writing assignments, as appropriate to the
discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 141
Business Mathematics
Review of basic arithmetic principles, application of arithmetic operations to business forms
and to analysis and solution of problems of percentage, markup and markdown, discounts,
interest, prorating, life and property insurance, taxation, and payrolls. Writing assignments,
as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 147
Introduction to Paralegal Studies
This course is the first of the required courses in the Paralegal AAS Program/Plan 304. It
provides an overview of the American legal system. It explores essential knowledge in the
paralegal field, including the basic skills, concepts, and reasoning processes for success
in a paralegal career. This course explores basic paralegal roles and responsibilities and
specific limitations as they relate to the legal system and the law office environment. Writing
assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101 AND College Level Mathematics.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 148
Civil Litigation
This course is one of the requirements of the Paralegal AAS Program/Plan 304. It introduces
students to procedural concepts of the civil litigation process in state and federal courts with
an emphasis on Illinois and federal civil codes. It examines the role of the paralegal from
the initial phases of the pre-trial investigation and discovery through the appeals process
and to analysis and solution of problems of percentage, markup and markdown, discounts,
interest, prorating, life and property insurance, taxation, and payrolls. Writing assignments,
as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101 AND College Level Mathematics.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 149
Family Law
This course is one of the requirements of the Paralegal AAS Program/Plan 304. It is an overview of the basic principles of family law and domestic relations, with an emphasis on Illinois law. It examines the areas of marital contracts, divorce, annulment, issues affecting children, and other legal matters relating to domestic relations. It also covers client interviews, the drafting of necessary pleadings and supporting documents, and the performance of basic research relating to family law and domestic relations as well as the
role of the paralegal in family law. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101 AND College-level Mathematics.
3 LECTURE HOURS. 3 CREDIT HOURS.
BUSINESS 150
Legal Research and Writing I
This course is one of the requirements of the Paralegal AAS Program/Plan 304. It provides an overview of the fundamentals of legal research and writing. This course covers the use of primary and secondary source materials to research legal questions. It examines different types of legal documents and provides training in legal analysis. The course also includes principles and techniques of legal writing and their application to legal correspondence and documents as well as the role of the paralegal in legal research and writing. This is a writing intensive course. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 102 and Business 220 and 223.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 155
Working in Warehousing Environment
Provides learners with an overview of the functional and structural composition of warehousing and distribution centers. Topics include product flow, warehousing processes, working safely in a warehousing environment, principles in running a business, workplace ethics and how employees affect the bottom line. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

BUSINESS 161
Principles of Bank Operations
This course covers the fundamentals of bank functions in a descriptive fashion. Topics include banks and the monetary system, the relationship of banks to depositors, the payment functions, bank loans and accounting, regulations, and examinations. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 176
Records Management
This course provides an introduction to the increasingly comprehensive field of records and information management. It emphasizes the principles and practices of effective records management for manual systems while offering practical information. Basic manual systems concepts needed for understanding retrieval methods are discussed and applied. Emphasis is placed upon control for ensuring that the records system achieves its stated goals. Students will also be introduced to the electronic file management system. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 177
Clerical Bookkeeping
This is an applied course that prepares students for the functions of clerical bookkeeping duties within the accounting department of an organization. It focuses on the procedures of how to handle accounts receivables, accounts payables, sales and receipts, depreciation and inventory. Basic manual systems concepts as they apply to the reporting of financial data and other economic events of a business enterprise. Emphasis is on recording, analyzing, and interpreting historical data and showing its effect on the business financially. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Business 176 and 177, or concurrent enrollment in Business 176 and 177, or consent of Department Chairperson.
4 LECTURE HOURS. 4 CREDIT HOURS.

BUSINESS 178
Bookkeeping Computer Applications
This is an applied bookkeeping course that prepares students for the functions of pre-accounting duties within the accounting department of an organization. It focuses on the responsibilities of a bookkeeper and will include learning how accounts are categorized via the elements of the accounting equation. Students will gain knowledge of the trial balance, end-of-period procedures and closing the books. A familiarity with key financial statements will be obtained. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Business 176 and 177, or concurrent enrollment in Business 176 and 177, or consent of Department Chairperson.
4 LECTURE HOURS. 4 CREDIT HOURS.

BUSINESS 180
Fundamentals of Accounting
This course emphasizes an understanding of basic accounting principles and other business concepts as they apply to the reporting of financial data and other economic events of a business. Emphasis is on understanding and applying basic accounting principles and other concepts that guide the reporting of the effect of transactions and other economic events on the financial condition and operating results of a business. How to analyze and interpret historical financial statements as well as the limitations of using these statements in making forward-looking business decisions are included. The primary content emphasis will be accounting for current assets and liabilities, long-term assets and liabilities, corporations, cash flow statements and financial statement analysis. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 181
Financial Accounting
This course presents accounting as an information system that produces summary financial statements, primarily for users external to a business or other enterprise. Students study the forms of business organization and the common transactions entered into by businesses. The emphasis is on understanding and applying basic accounting principles and other concepts that guide the reporting of the effect of transactions and other economic events on the financial condition and operating results of a business. How to analyze and interpret historical financial statements as well as the limitations of using these statements in making forward-looking business decisions are included. The primary content emphasis will be accounting for current assets and liabilities, long-term assets and liabilities, corporations, cash flow statements and financial statement analysis. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Business 111 or 141, or Mathematics 98 or higher; or concurrent enrollment in Business 141; or placement test or consent of Department Chairperson.
4 LECTURE HOURS. 4 CREDIT HOURS.

BUSINESS 182
Managerial Accounting
This course presents accounting as a system of producing information for use in internally managing a business. The course emphasizes the identification, accumulation and interpretation of information for planning, controlling and evaluating the performance of the separate components of a business. Included is the identification and measurement of the costs of producing goods or services and how to analyze and control these costs. Decision models commonly used in making specific short-term and long-term business decisions are included. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Business 181, or consent of Department Chairperson.
4 LECTURE HOURS. 4 CREDIT HOURS.

BUSINESS 183
Payroll Accounting
A comprehensive course that prepares students for the functions of payroll within an organization. Introduces principles, procedures, and terminology for business applications of payroll methods. Emphasizes federal and state payroll records and forms. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Business 178 or 181, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
BUSINESS 203
Introduction to Cost Accounting
General accounting principles applied to factory operations. Includes methods of finding costs of specific orders, lots and processes, and basis of allocating overhead expenses. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Business 182 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 204
Computer Applications Intermediate Accounting
Utilizes a computer to perform major accounting tasks such as recording entries, posting to ledgers, generation of trial balances and financial statements, as well as special reports, all encountered in Business 205. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Concurrent enrollment in Business 205.
1 LECTURE HOUR. 1 CREDIT HOUR.

BUSINESS 205
Intermediate Accounting
Application of funds, analysis of working capital, investments, inventories, amortization and depreciation, and cost expirations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Business 182 and concurrent enrollment in Business 204.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 206
Auditing
Includes external balance-sheet audits, recent developments in techniques of auditing cash, receivables, inventories, investments, fixed assets, and liabilities. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Business 205 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 207
Intermediate Accounting II
Accounting for the rights of creditors and stockholders; principles of fund accounting; statement analysis; special problems. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Business 205.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 208
Federal Income Tax
Study of the principles of the Internal Revenue Code, practical application of tax rules to the preparation of returns, application of accounting rules to tax matters. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Business 182 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 211
Business Law I
Laws of business transactions, including contracts, agency, employment and partnerships, and study of the Uniform Commercial Code. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 212
Business Law II
Continues study of laws covering corporations, negotiable instruments, sales, real estate, and bailments. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 213
Data Visualization and Presentation for Business
The course provides a foundation for technologies and functions of Spreadsheets, Presentations, and Business Intelligence. The course introduces and expands students understanding of Presentation and Spreadsheet software through experimentation, critical thought, and personalization. Concepts introduced in this course aim to develop an understanding of the different types of business data, various analytical approaches, and application of these approaches to solve business problems. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 214
The Legal and Social Environment of Business
A study of the legal and social environment of business with emphasis on business ethics and corporate social responsibilities. Areas of concentration include governmental regulation of business, securities law, consumer protection law, labor law and employment law. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 215
Corporate and Entity Federal Income Tax
Study of federal income taxation of business organizations, including corporations, partnerships, limited liability companies (LLC), limited liability partnerships (LLP), limited liability limited partnership (LLP) low-cost limited companies (LLC), and estates. Taxation of partnerships, with emphasis on the tax laws related to the formations, operations, allocations, distributions, liquidations, and sales/exchanges of partnership interests. Federal estate and gift tax laws with emphasis on the preparation of related tax returns. Ethics and research as appropriate to the discipline are integrated in the course. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Business 208.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 216
Entrepreneurship
Entrepreneurial skills, organization, promotion and management in self-employment or administration in occupations and organizations; research and discussions with successful owners and managers in the business community. Students receive practice in planning, decision-making and self-evaluation. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 217
Nonprofit Accounting
Financial transaction analysis and recording system; budget preparation and control; concepts and principles underlying the financial reports of nonprofit organizations in accordance with generally accepted accounting principles (GAAP) and Governmental Accounting Standards Board (GASB). Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Business 181, and Grade of C or better or concurrent enrollment in Business 203, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
**BUSINESS 218**  
**Advanced Accounting**  
Financial accounting theory for business combinations, presentation of consolidated financial statements, international transactions and investments, fund accounting, foreign exchange derivatives, investments and partnership accounting. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Grade of C or better in Business 205 or 207, or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.

**BUSINESS 219**  
**Real Estate Law for the Paralegal**  
This course is one of the requirements of the Paralegal AAS program. It introduces the fundamentals of real estate law, with the emphasis on Illinois law, and provides a basic understanding of the elements of the real estate industry. The course covers real property law, categories of ownership, legal descriptions, contracts, financial aspects, and special issues in real estate law. It examines the real estate transaction from the beginning of the process to the closing. It emphasizes the drafting of legal descriptions of property, preparing closing documentation and performing a title search. It also examines the role of the paralegal in a law office, financial institution, or title company. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Grade of C or better in Business 147 and 148.  
3 LECTURE HOURS. 3 CREDIT HOURS.

**BUSINESS 220**  
**Criminal Law for the Paralegal**  
This course is one of the requirements of the Paralegal AAS program. It explores the Illinois and federal court systems as well as defines the categories of crime and the types of legal defenses. It introduces the concepts involved in criminal proceedings and explores the stages of criminal litigation from the arrest through post-trial procedures. It enables students to understand all procedural aspects of criminal cases and the role of the paralegal in aiding an attorney in trial preparation, the trial itself, and post-trial procedures and appeals. This is a writing intensive course. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Grade of C or better in Business 147 and 148.  
3 LECTURE HOURS. 3 CREDIT HOURS.

**BUSINESS 221**  
**Insurance**  
Preparation for the agents or brokers licensing examination. Includes life and casualty insurance, automobile, fire, health and accident, and worker compensation. Writing assignments, as appropriate to the discipline, are part of the course.  
3 LECTURE HOURS. 3 CREDIT HOURS.

**BUSINESS 222**  
**Business Law for the Paralegal**  
This course is one of the requirements of the Paralegal AAS Program/Plan 304. It provides students with an in-depth analysis of the law pertaining to types of business organizations, contract formation, resolution of contract disputes and the impact of the Uniform Commercial Code on traditional contract theory. The role of a corporate paralegal is covered as it relates to the business environment. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Grade of C or better in Business 147 and 148.  
3 LECTURE HOURS. 3 CREDIT HOURS.

**BUSINESS 223**  
**Tort Law**  
This course is one of the requirements of the Paralegal AAS Program/Plan 304. It examines the fundamental elements of tort law and the principles of tort litigation. It introduces the different categories of torts and focuses on the role of the paralegal in tort litigation from the point of view of both the plaintiff and the defendant. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Grade of C or better in Business 147 and 148.  
3 LECTURE HOURS. 3 CREDIT HOURS.

**BUSINESS 224**  
**Wills, Trusts, and Probate**  
This course is one of the requirements of the Paralegal AAS Program/Plan 304. It covers both the theoretical and practical knowledge needed in the estate planning and probate processes. It covers wills, trusts, and estate administration. The course emphasizes the role of the paralegal in the drafting of estate planning documents and carrying out probate procedures. Emphasis is placed on applicable Illinois law and Federal tax laws. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Grade of C or better in Business 149, 219, and 222.  
3 LECTURE HOURS. 3 CREDIT HOURS.

**BUSINESS 225**  
**Legal Research and Writing II**  
This course is one of the requirements of the Paralegal AAS Program/Plan 304. It is a continuation of Legal Research and Writing I and provides a more in-depth, hands-on exploration of legal research, writing, and analysis. It provides additional experience in legal research, reasoning, analysis, and writing. This course continues to explore the various legal reference sources, both traditional and non-traditional. It continues to develop legal reasoning skills and strategies to analyze legal authority in case law. This is a writing intensive course. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Grade of C or better in Business 215.  
3 LECTURE HOURS. 3 CREDIT HOURS.

**BUSINESS 226-1**  
**Internship for the Paralegal**  
This course is an elective in the Paralegal AAS program. It is designed to enable students to combine classroom training with practical paralegal work experience through supervised on-the-job training in a public or private legal setting. Periodic seminars are held to discuss experiences, concerns, and topical questions. Students are required to keep journals of their internship experience. A minimum number of hours of on-site time are required for this course. Internship placement must be approved by the Program Coordinator. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Successful completion of all other Paralegal AAS Program requirements with a grade of C or better and consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.

**BUSINESS 227**  
**Elder Law**  
This course is an overview of legal issues that are increasingly relevant as the older population increases. It covers a variety of legal documents and the many legal situations which affect the elderly. It also covers topics such as asset management, estate planning, healthcare, personal planning and protection, resources of both public and private agencies and organizations, and the court systems. It examines the role of the paralegal in interacting with elderly clients as well as in using the various resources available in elder law. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Grade of C or better in Business 219, 221, and 222.  
3 LECTURE HOURS. 3 CREDIT HOURS.

**BUSINESS 242**  
**Financial Markets and Institutions**  
This course examines the different financial institutions and financial markets. Topics include interest rate determinants, monetary policy, federal reserve system, financial intermediaries, and regulatory agencies. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Grade of C or better in Business 241 or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.

**BUSINESS 243**  
**Fundamentals of Investments**  
This course examines the institutional investment process. Emphasis on common stocks and other financial securities traded over the financial exchanges. Topics include risks, returns, portfolio selection, and portfolio performance. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Grade of C or better in Business 241 or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.

**BUSINESS 244**  
**Personal Finance**  
Personal investment programs including the sources and uses of investment information. Writing assignments, as appropriate to the discipline, are part of the course.  
3 LECTURE HOURS. 3 CREDIT HOURS.

**BUSINESS 249**  
**Independent Research**  
Independent research and analysis on topic chosen with the faculty consent, requires a study plan, a paper of length and specification required by the faculty member. Writing assignments, as appropriate to the discipline, are part of the course.  
1–6 LECTURE HOURS. 1–6 CREDIT HOURS.

**BUSINESS 250**  
**Computerized Accounting Systems**  
Computerized Accounting focuses on exposing students to various computerized accounting systems and how these systems accomplish the goals of accounting information system of a business entity. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Grade of C or better in Business 181, or Computer Information Systems 120 or equivalent, or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.

**BUSINESS 251**  
**Public Relations**  
This course examines the organization’s process of communication to the public. Topics include multicultural community relations, consumer relations, and crisis management. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Grade of C or better in Business 231 or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.

**BUSINESS 252**  
**Product Planning and Development**  
This course examines the factors influencing product planning and development. Topics include new product strategies, idea generation, perceptual mapping, and product position. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Grade of C or better in Business 231 or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.

**BUSINESS 253**  
**Consumer Behavior**  
This course examines the decision-making process of the consumer. Topics include perception, motivation, lifestyles, and attitudes. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Grade of C or better in Business 231 or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.

**BUSINESS 254**  
**Integrated Marketing Communications**  
This course examines the purposes of objectives integrated marketing communications. Emphasis is on communication strategy formulation and development via various advertising and promotional tools, such as personal selling, public relations, trade promotions, and consumer promotions. **BUSINESS 255**  
**Corporate Finance**  
This course examines the various factors that influence the financial decisions of corporations. Topics include risk and return analysis, capital budgeting, capital structure, dividend policies, and mergers and acquisitions. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Grade of C or better in Business 241 or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.

**BUSINESS 257**  
**Principles of Retailing**  
Functions of retailing, including current trends and problems. Writing assignments, as appropriate to the discipline, are part of the course.  
3 LECTURE HOURS. 3 CREDIT HOURS.

**BUSINESS 258**  
**Small Business**  
Organization and operation of small-scale retail, trading, service, or manufacturing business. Problems of location, financing, labor, accounting and production, taxes, and insurance. Writing assignments, as appropriate to the discipline, are part of the course.  
3 LECTURE HOURS. 3 CREDIT HOURS.

**BUSINESS 259**  
**Principles of Management**  
Analysis of major functions and principles of management; emphasis on supervisory and operating levels of management; theories, policy-making, effective communications and art of decision-making. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Grade of C or better in Business 111, or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.

**BUSINESS 270**  
**Office Management**  
Application of management principles to planning, organization, and controlling of office work. Writing assignments, as appropriate to the discipline, are part of the course.  
3 LECTURE HOURS. 3 CREDIT HOURS.
BUSINESS 271
Human Resources Management
Employment techniques, wages and hours, job evaluation, training, employee ratings, collective bargaining, employment counseling and collateral benefits, such as pensions and fringe benefits. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 272
Sales Management
Planning of sales efforts; management of sales and services; human resources, and controlling sales operations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Business 269 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 273
Organizational Behavior
This course examines the theories and concepts related to human behavior in organizations. Topics include individual behavior, group behavior, and organizational structure and culture. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Business 269.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 274
Industrial Management
Characteristics of industrial enterprise, problems of materials procurement, plant organization and layout; labor relations and human resources policies, efficiency techniques, automation, and production development. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 278
Compensation and Benefits Administration
This course examines the design and implementation of an organization's compensation systems. Topics include job analysis, base pay structure, incentives, and performance measurements. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Business 269 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 279
Human Resources Planning and Staffing
This course examines the functions and objectives of human resources planning and staffing. Includes staffing models and strategies, recruitment, selection, employment and retention. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Business 271 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 281
Office Procedures for Office Administrative Assistants
Records management, editorial duties, correspondence and reports, and work simplification procedures. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 284
Business Communications
Study of communication (including motivation, perception, language, distortions, organizations, listening) and its role in the administrative process; patterns of miscommunications (such as by-passing, deception, generalizations, association, labeling) are examined for better understanding of communication process and to improve organizational environment; consideration given to psychological impact of various communications media. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 285
Real Estate Principles
Preparation for state real estate examination. Includes real property, deeds, agreements of sale, mortgages, financing, valuation and appraisal, leases and closing statements. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Business 111, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 287
Real Estate Practice and Procedure
Sales contracts, closing statements, finance, insurance and the Illinois real estate brokers and salesman laws. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Business 111, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 288
Real Estate Appraisal
Functions and purposes of appraisals, including neighborhood and area trends, site valuation, building cost estimates and depreciation. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Business 285 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 289
Real Estate Management
Property management, including merchandising, residential space, managing furnished buildings, single family units, office buildings, commercial properties, and cooperative apartments, setting store rentals, maintenance problems, and operation of a management office. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Business 285 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 291
Leadership
This course examines the process by which an individual exerts influence over other individuals and inspires, motivates, and directs their activities to help achieve group or organizational goals. Topics include power and influence, participative leadership, leadership theories, and managerial traits and skills. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Business 269 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
BUSINESS 292
Employment Law
This course examines the legal environment relationship, procedure and discrimination. Topics include selection, termination, affirmative action, sexual harassment, and unions and collective bargaining. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Business 269 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS 299
Special Topics
Seminar on a special topic or current issue in one or more business fields. Topic should be listed on the student’s permanent academic record. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Determined by special topic.
1–6 LECTURE HOURS. 1–6 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1

BUSINESS AND COMMERCIAL TECH TC1 100
Public Passenger Vehicle Training/Taxi
This course is designed to prepare individuals to take the license examination required by the City of Chicago to become unrestricted public chauffeurs. The course rules and regulations governing the operations of a public chauffeur in Chicago, focuses on street law, judicial procedures, and mastery of geography through routing exercises. This course also covers cultural sensitivity and diversity, customer service, accessibility training and taxi Access Program (TAP) and safety of the passenger as well as the driver. 1 LECTURE HOUR. 1 CREDIT HOUR.

BUSINESS AND COMMERCIAL TECH TC1 122
Rules and Regulations
The purpose of this course is to inform the students of the rules and regulations that they must adhere to as taxi professionals. The students will learn the legal restrictions and positive duties, how to determine far calculations, driver safety, and how to become a medallion holder. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Must be at least 21-years-old, possess a valid driver’s license, TABE test score of 6.0 or higher, and concurrent enrollment in Business and Commercial Tech TC1 121, 123 and 124.
0.5 LECTURE HOUR. 0.5 CREDIT HOUR.

BUSINESS AND COMMERCIAL TECH TC1 123
Geography
This course is designed to provide students with a clear understanding of the various roads and routes in the City of Chicago. Students will also learn map reading, how to complete routing exercises, how to safely navigate the city, popular tourist destinations, hotel locations and other points of interest in the city. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Must be at least 21-years-old, possess a valid driver’s license, TABE test score of 6.0 or higher, and concurrent enrollment in Business and Commercial Tech TC1 121, 122 and 124.
1 LECTURE HOUR. 1 CREDIT HOUR.

BUSINESS AND COMMERCIAL TECH TC1 124
Taxi Accessibility Program
The purpose of this course is to inform students of the guidelines of the Chicago Taxi Accessibility Program (TAP) and Mobility Direct programs, teach proper techniques and behaviors in servicing persons with disabilities, to ensure that taxi professionals know the legal rights of those with disabilities, vehicle inspection and becoming a Wheelchair Accessible Vehicle (WAV) Driver. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Must be at least 21-years-old, possess a valid driver’s license, TABE test score of 6.0 or higher, and concurrent enrollment in Business and Commercial Tech TC1 121, 122 and 123.
0.5 LECTURE HOUR. 0.5 CREDIT HOUR.

BUSINESS AND COMMERCIAL TECH TC1 503
Business Writing
Fundamentals of business correspondence; includes composing business letters, memorandum and reports using a personal computer. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 506
Basic Keyboarding II
13–2 LAB HOURS. 1–4 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 507
Records Management
Upon completion, students will be able to prepare business documents for indexing, coding, storing and retrieving. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 508
Practicum
Planned and supervised career field experience relating to a student’s occupational program is emphasized. Placement will introduce students to the real world of work in the field of Information Processing. Writing assignments, as appropriate to the discipline, are part of the course.
5–20 LAB HOURS. 1–2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 509-1
Office Practices and Procedures
This course emphasizes fundamentals for keeping records communicating by telephone, receiving visitors, handling mail; and introduces students to word processing terminology. Writing assignments, as appropriate to the discipline, are part of the course.
9 LAB HOURS. 3 CREDIT HOURS.
BUSINESS AND COMMERCIAL TECH TC1 509-2
Office Practices and Procedures
This course emphasizes fundamentals for keeping records communicating by telephone, receiving visitors, handling mail; and introduces students to word processing terminology. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 510
Computational Machines
3–9 LAB HOURS. 1–3 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 512
Basic Keyboarding III
Development of greater control and speed; typing of short simple business letters; and word division. Writing assignments, as appropriate to the discipline, are part of the course.
3–12 LAB HOURS. 1–4 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 521
Business Grammar Review
3–4 LECTURE HOURS. 3–4 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 522
Business English and Communication
This course provides skills in oral and written communication with emphasis on a variety of typical business subject matters. Writing assignments, as appropriate to the discipline, are part of the course.
1–4 LECTURE HOURS. 1–4 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 523
Basic Keyboarding IV
This course provides skill development in solving problems in letter arrangements and planning and typing non-letter communications and documents. Emphasis will also be given to greater speed and control. Writing assignments, as appropriate to the discipline, are part of the course.
6 LAB HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 524
Basic Keyboarding V
This course provides refinement of typing skills and knowledge with emphasis on production of business correspondence. Writing assignments, as appropriate to the discipline, are part of the course.
3 LAB HOURS. 1 CREDIT HOUR.

BUSINESS AND COMMERCIAL TECH TC1 525
Introduction to Office Systems
The major components of a computer system, terminology, operating system command structure, and related utilities will be integrated throughout the course. Basic operations, including directories, cataloging, and comparing files are covered. Advanced concepts such as sub directories, folders, and text editing are discussed. Writing assignments, as appropriate to the disciplines, are part of the course.
1 LECTURE HOUR. 3 LAB HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 526
Introduction to Personal Computers
Overview course that ensures students a firm foundation in computer applications. Students will be introduced to operating systems, word processing, database, spreadsheet, desktop publishing, multimedia and telecommunications. This course will also explain the difference between working on a network or a stand-alone environment. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 3 LAB HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 527
Medical Typing I
Upon completion of this course, the trainee will develop greater typing control and speed. He/she will also develop skills in the typing of medical forms, medical reports, and case histories. Trainees will be able to type a medical report, a medical form and a case history into mailable copy with 30 minutes and type 55 gross words per minute with no more than 3 errors. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 3 LAB HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 528
Microcomputer Applications
Microcomputer Applications is a course designed to provide students with skills in word processing, electronic spreadsheet and database management. Students will also learn the basic functions of the disk operating system (DOS). Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 12 LAB HOURS. 5 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 529
Introduction to Word Processing
Fundamentals of word processing: equipment, terminology, creating, editing, and printing business documents on a dedicated word processor. Writing assignments, as appropriate to the discipline, are part of the course.
3 LAB HOURS. 1 CREDIT HOUR.

BUSINESS AND COMMERCIAL TECH TC1 532
Basic Computer Technology
The course introduces management principles and office technology. Writing assignments, as appropriate to the discipline, are part of the course.
1–2 LECTURE HOURS. 1–2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 533
Medical Terminology I
This course provides skills in defining and correctly spelling medical terms related to pediatrics, cardiology, pathology, radiology, endocrinology, dermatology and gastroenterology. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 6 LAB HOURS. 3 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 534
Medical Terminology II
This course provides skills in defining and correctly spelling medical terms related to mental health, neurology, orthopedics, ophthalmology, gynecology, obstetrics and general surgery. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.
BUSINESS AND COMMERCIAL TECH TC1 535
Medical Transcription I
This course provides skills in the operations of the dictation/transcription machines and produce quality communications for transmittal in a hospital or doctor's office. Writing assignments, as appropriate to the discipline, are part of the course.
3 LAB HOURS. 1 CREDIT HOUR.

BUSINESS AND COMMERCIAL TECH TC1 536
Medical Transcription II
This course provides skills in the refinement of transcription to produce quality communications for transmittal in a hospital or doctor's office. Writing assignments, as appropriate to the discipline, are part of the course.
3 LAB HOURS. 1 CREDIT HOUR.

BUSINESS AND COMMERCIAL TECH TC1 538
Business Mathematics I
Provides skills developing sufficient knowledge of the basic mathematical fundamentals such as addition, subtraction, multiplication, division, decimals, percentages, interest and discounts. Writing assignments, as appropriate to the discipline, are part of the course.
1–3 LECTURE HOURS. 1–3 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 539
Business Mathematics II
Develop occupational proficiency in performing business applications such as discounting, percents, interest, decimals, and payrolls. Writing assignments, as appropriate to the discipline, are part of the course.
2–3 LECTURE HOURS. 2–3 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 540
Business Mathematics III
Review basic Mathematics principles and application of occupational proficiency in performing business applications such as discounting, payrolls, decimals, interest, and percentages; includes basic accounting principles as applied to the office environment. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 542
Secretarial Accounting I
Upon completion of this course, trainees will have a knowledge of the basic fundamentals and principles of accounting elements and business transactions. Trainees will be able to identify and describe the fundamental accounting equation, types and functions of various source documents, and perform basic accounting tasks accurately. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 543
Keyboard Microcomputers I
Course will teach students to operate the keyboard by touch and begin development of speed and accuracy levels and also includes formatting of basic documents. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 3 LAB HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 544
Keyboard Microcomputers II
Course will provide training in keyboarding, skill building and document formatting. Students will use word processing software as a tool to build keyboarding speed and accuracy. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 3 LAB HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 545
Keyboard Microcomputers III
Advanced document formatting and skill building on the ten-key number pad are included. Students will use decision-making skills to evaluate document formats and mailability. Apply written communication skill and demonstrating quality and efficiency document production are emphasized. Writing assignments, as appropriate to the discipline, are part of the course.
6 LAB HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 546
Career Development I
Interpersonal skills training to prepare individuals for the world of work with emphasis on community resources, career development, professional grooming, and office etiquette. Writing assignments, as appropriate to the discipline, are part of the course.
1–3 LECTURE HOURS. 1–3 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 547
Career Development II
Develop students' employability plans: enhances their understanding of attitudes, behavior, perceptions, and motivations, and how they affect getting and keeping a job. They will have experienced the work environment through short-term internships; and through the development of problem-solving skills, worked toward minimizing the obstacles that would jeopardize their program completion. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 548
Life Skills III
Designed to increase students' success in occupational training by assisting students in obtaining skills necessary to reach his/her career objectives. Topics include time-planning, test-taking, critical thinking, communication skills, study techniques, question-asking skills, library use and personal issues such as substance abuse and household budgeting that face many students. Writing assignments, as appropriate to the discipline, are part of the course.
1–2 LECTURE HOURS. 1–2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 550
Word Processing Applications
Introduce students to spreadsheet concepts and applications. Students will format spreadsheets using effective designs and principles: entering common spreadsheet formulas, sorting data, using graphic chart functions and importing spreadsheet files. This course is designed to teach students to think analytically, manipulate information and use the computer as productivity tool. Writing assignments, as appropriate to the discipline, are part of the course.
6 LAB HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 551
Spreadsheet Applications
Develop students' employability plans: enhances their understanding of attitudes, behavior, perceptions, and motivations, and how they affect getting and keeping a job. They will have experienced the work environment through short-term internships; and through the development of problem-solving skills, worked toward minimizing the obstacles that would jeopardize their program completion. Writing assignments, as appropriate to the discipline, are part of the course.
6 LAB HOURS. 2 CREDIT HOURS.
BUSINESS AND COMMERCIAL TECH TC1 552

Database Applications
Course will provide training in the concepts of database management and the use of relational database software for business applications. Students will create and manipulate data files and format output as documents and reports. Writing assignments, as appropriate to the discipline, are part of the course.
6 LAB HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 553

Desktop Publishing Applications
Course covers the fundamental concepts of desktop publishing techniques, usage of microcomputers to create high-quality documents, principle page layouts, publications, text and graphic documents, brochures, newsletters, business cards, publications, terminology and applications. Students will create a variety of documents and demonstrate proficiency in software functions. Writing assignments, as appropriate to the discipline, are part of the course.
6 LAB HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 556

Medical Office Procedures I
Upon completion of this course, trainees will have acquired the knowledge and skills to handle specific responsibilities and problems faced by secretaries in a doctor’s office or hospital. They will be able to organize and store medical documents, properly receive patients and visitors, communicate via telephone and telegraph, handling incoming and outgoing mail and establish and maintain doctor’s appointments and schedules accurately. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 557

Medical Office Procedure II
Upon completion of this course, trainees will have acquired the knowledge and skills to handle specific responsibilities and problems faced by secretaries in a doctor’s office or hospital. They will be able to organize and store medical documents, properly receive patients and visitors, communicate via telephone and telegraph, handling incoming and outgoing mail and establish and maintain doctor’s appointments and schedules accurately. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 568

Language Skills I
Course provides comprehensive coverage of the fundamentals of English as applied to business applications. The students will develop a solid foundation of English grammar essential for successful communication. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 569

Language Skills II
This course will teach advanced grammar, punctuation and composition skills. Students will prepare business correspondence, deliver oral presentations and use electronic writing tools. Students will develop sensitivity in communicating with a diverse workforce. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 570

Legal Typing
This course provides skills development in the typing of legal documents and forms. It also provides skill development in typing for greater speed and control. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 3 LAB HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 571

Legal Transcriptions I
This course provides skills in the operations of the dictation/transcription machines and the production of quality communications for transmittal in a legal office. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 3 LAB HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 572

Legal Transcriptions II
This course provides skills in the refinement of transcription skills to produce quality communications for transmittal in a legal office. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 3 LAB HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 573

Legal Terminology I
This course provides skills in defining and correctly spelling legal terms and expressions related to courts, litigations, civil actions, criminal law, probates, property and contracts. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 3 LAB HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 574

Legal Terminology II
This course provides skills in defining and correctly spelling legal terms and common legal expressions related to leases, domestic relations, commercial paper, bankruptcy, equity, partnerships and corporations. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 3 LAB HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 575

Legal Office Procedures
This course provides knowledge of routine office responsibilities and problems faced by secretaries in a law office; filing procedures, telephone and telegraph communications, mail handling and research. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 3 LAB HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 576

Business Law
This course provides knowledge of the legal environment in which a business operates to enhance the trainee’s performance as an office worker. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 LAB HOURS. 4 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 577

Baking Sanitation and Safety
Instruction in regulations, rules, safety and sanitation in the baking/pastry field. Writing assignments, as appropriate to the discipline, are part of the course.
6 LAB HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC1 711

Baking Science Application
Application of instruction in use of ingredients and formulas. Instruction and hands-on experience in producing basic, Continental and ethnic breads and rolls. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 9 LAB HOURS. 4 CREDIT HOURS.
The keyboard skills learned in this course will allow students to interface more efficiently by shortening input time and increasing productivity. Emphasis is placed on learning the alphabetic, numeric, and symbol keys by the touch system. This course is for students who have little or no keyboarding skills. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Business and Commercial Tech TC1 304.

2 LECTURE HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC6 307

Word Processing II

This course explores additional word processing concepts with applications for personal or vocational microcomputer use. Word processing functions including tables, feature forms, paragraph and outline numbering, text columns, graphics, headers and footers, footnotes and endnotes, macros, styles, merge, sort and select, tables of content and indexes will be performed by the student. Students may be required to utilize lab time. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Business and Commercial Tech TC6 303.

2 LECTURE HOURS. 3 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC6 305

Introduction to Spreadsheets

This course will introduce the student to the fundamental information necessary to construct useful spreadsheets. Discussion on how Lotus uses the keyboard, the screen display and the spreadsheet concept will be presented. Writing assignments, as appropriate to the discipline, are part of the course.

2 LECTURE HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC6 304

Computer Keyboarding II

The keyboard is one of the most widely used input devices in communicating with computers. The keyboarding skills learned in this course will allow students to interface more efficiently by shortening input time and increasing productivity. Emphasis is placed on learning the alphabetic, numeric, and symbol keys by the touch system. This course is for students who have little or no keyboarding skills. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Business and Commercial Tech TC6 300.

1 LECTURE HOUR. 3 LAB HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC6 303

Word Processing I

This is an introductory course in word processing designed for the general user including: the student, home computer user, and the office employee. It will include instruction in text entering and editing, cursor movements, character and line formatting, tabs, spellers and thesauruses, page formatting, saving and printing, block operation, disk maintenance, search and replace, standardized text, line draw, and composition exercises. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Business and Commercial Tech TC6 300.

2 LECTURE HOURS. 3 LAB HOURS. 3 CREDIT HOURS.
BUSINESS AND COMMERCIAL TECH TC6 308
Desktop Publishing
This course introduces the practical and essential aspects of desktop publishing. Study area will include software, hardware, creation of various documents. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Business and Commercial Tech TC6 301.
1 LECTURE HOUR. 3 LAB HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC6 309
Basic Office Skills I
This course will introduce general office skills using current technology and procedures. It will also focus on the basic job responsibilities of an office assistant in an electronic office setting. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Business and Commercial Tech TC6 300.
1 LECTURE HOUR. 6 LAB HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC6 310
Office Skills II
This course introduces advanced office procedures including well defined information that is effective to the performance of an office assistant. It will also focus on realistic, practical and meaningful experiences to broaden the students’ knowledge of office procedures. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Business and Commercial Tech TC6 309.
1 LECTURE HOUR. 9 LAB HOURS. 4 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC6 312
Career Development
This course is designed to provide students with job search and career planning techniques. Students will learn to develop their personalized portfolio (resumes, cover letters, references, etc.) Information presented during class discussion will provide knowledge of what business and industry employers are seeking from employment candidates. Topics related to job interviewing will also be covered. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 3 LAB HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC6 313
Introduction to Databases
This course introduces basic database concepts including creation, design, structure and data input. Students will use an electronic database to complete practical applications. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Business and Commercial Tech TC6 300.
1 LECTURE HOUR. 3 LAB HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC6 314
Presentation Graphics
This course introduces the practical applications on how to produce effective and attractive presentation including printed documents and visual media. Topics will include text handling, outlining, drawing, graphing and clip art. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Business and Commercial Tech TC6 301 and 303.
1 LECTURE HOUR. 3 LAB HOURS. 2 CREDIT HOURS.

BUSINESS AND COMMERCIAL TECH TC6 399
Office Technology Independent Study
This course is an independent study for the Office Technology certificate programs. It is designed for the student that is near completion of the certificate program. The course will encompass the major areas of the Office Technology studies. The course is project based study. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Consent of Department Chairperson/Coordinator.
6 LECTURE HOURS. 6 CREDIT HOURS.

CAD TECHNOLOGY

CAD TECHNOLOGY 130
CAD Technology I
Application of pictorial techniques used in preparation of industrial illustrations; study of oblique, axonometric, perspective and exploded views; methods and techniques of shading, commercial media and reproduction processes. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Engineering 100 or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

CAD TECHNOLOGY 170
CAD Technology II
Introduction to programming techniques using computer-aided design (CAD) systems; use of basic command structures, keyboard and menu tablets; text dimensioning and pen and layer selection. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Engineering 100 or 110, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

CAD TECHNOLOGY 171
CAD Technology III
Intermediate programming techniques using computer-aided design (CAD) systems; techniques of file handling, archiving and plotting; drawing manipulations of translation and rotation to prepare for CAD system operation. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Architecture 170, or CAD Technology 170, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

CAD TECHNOLOGY 172
CAD Technology IV
Advanced planning concepts and designs using computer-aided design systems; techniques of file handling, archiving, and plotting; drawing manipulations of translation and rotation to prepare for CAD system operation. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in CAD Technology 171, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.
**CHEMISTRY COURSE DESCRIPTIONS**

**CHEMISTRY 121**

**Basic Chemistry I**
Principles of general inorganic chemistry, including properties of matter, dimensional analysis, fundamentals of stoichiometry, interpretation of the periodic table, nomenclature, and introduction to solution chemistry and commonly used concentration units. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Eligibility for English 101 and eligibility for Mathematics 118 or higher, or consent of Department Chairperson.

2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

IAI/GE: DA KK MX OH TR HW WR

**CHEMISTRY 201**

**General Chemistry I**
Topics include the periodic table of the elements, atomic structure, basic concepts of quantum theory, bonding, stoichiometry of compounds and reactions, thermo-chemistry, the gaseous state, basic concepts of the liquid and solid states, solutions, acids, and bases. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Eligibility for Mathematics 140 or higher and grade of C or better in Chemistry 201, or consent of Department Chairperson.

4 LECTURE HOURS. 4 LAB HOURS. 5 CREDIT HOURS.

IAI/GE: DA KK MX OH TR HW WR

**CHEMISTRY 203**

**General Chemistry II**
Topics include equilibrium, acid-base equilibria, solubility equilibria, kinetics, thermodynamics, electrochemistry, coordination compounds, nuclear chemistry and descriptive topics in organic chemistry. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Chemistry 201, or consent of Department Chairperson.

4 LECTURE HOURS. 4 LAB HOURS. 5 CREDIT HOURS.

IAI/MAJOR: KK MX OH TR HW WR

**CHEMISTRY 204**

**Quantitative Analysis**
Gravimetric, volumetric, and calorimetric procedures; basic techniques of quantitative measurement applied to the determination of percentage composition, equilibrium constants and the reliability of data. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Chemistry 203.

2 LECTURE HOURS. 6 LAB HOURS. 5 CREDIT HOURS.

**CHEMISTRY 205**

**Organic Chemistry I**
Fundamentals of organic chemistry, orbital and structural theory, aliphatic and aromatic hydrocarbons, alkyl halides, structural isomerism, introduction to functional groups, nomenclature, stereochemistry, reaction mechanisms, resonance theory, and spectroscopy. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Chemistry 203 or consent of Department Chairperson.

4 LECTURE HOURS. 4 LAB HOURS. 6 CREDIT HOURS.

IAI/MAJOR: DA KK MX OH TR HW WR

**CHEMISTRY 207**

**Organic Chemistry II**
Continuation of study of organic chemistry: alcohols, aldehydes and ketones, carboxylic acids, functional derivatives of carboxylic acids, O, N and S containing compounds, heterocyclic compounds, spectroscopy; laboratory emphasis on organic synthesis and spectroscopic analysis. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Chemistry 205, or consent of Department Chairperson.

4 LECTURE HOURS. 4 LAB HOURS. 6 CREDIT HOURS.

IAI/MAJOR: DA KK MX OH TR HW WR

**CHEMISTRY 212**

**Survey of Organic and Biochemistry**
Survey of organic chemistry, including nomenclature and reactions of major functional groups essential to biochemistry. An introduction to the structure and function of biomolecules, and the metabolism of proteins, lipids, and carbohydrates. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Chemistry 201 or consent of Department Chairperson.

3 LECTURE HOURS. 3 LAB HOURS. 4 CREDIT HOURS.

**CHEMISTRY 217**

**Introduction to Instrumental Analysis**
Use of modern optical and electrical methods in chemical analysis: filter photometers; visible, ultraviolet and infrared spectrophotometer; gas chromatographs, radioactive counters, and pH meters; potentiometers; refractometers; polarimeters; and polarographs. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Chemistry 201 and 205, or consent of Department Chairperson.

2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

**CHEMISTRY 219**

**Chemistry for Education I: Matter and Structure**
This course is designed to provide educators with a fundamental understanding of matters, its structure and its changes from both a qualitative and quantitative perspective. Physical properties, chemical interactions, bond, and the atomic structure of matter will be explored and mapped to state science education standards. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Student must be a certified middle-grade teacher or consent of Department Chairperson.

3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

**CHEMISTRY 295**

**Independent Research in Chemistry I**
Original laboratory research supervised by a faculty member, either on campus or off-campus. A well-defined academic goal must be outlined by the instructor and students. This course will usually require library research, laboratory work, and the preparation of final and oral reports. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.

1–2 LECTURE HOURS. 5–20 LAB HOURS. 2–6 CREDIT HOURS.

**CHEMISTRY 296**

**Independent Research in Chemistry II**
Original laboratory research supervised by a faculty member, either on campus or off-campus. A well-defined academic goal must be outlined by the instructor and students. This course will usually require library research, laboratory work, and the preparation of final and oral reports. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Chemistry 295 or consent of Department Chairperson.

1–2 LECTURE HOURS. 5–20 LAB HOURS. 2–6 CREDIT HOURS.
CHEMISTRY 297
Independent Research in Chemistry III
Original laboratory research supervised by a faculty member, either on campus or off-campus. A well-defined academic goal must be outlined by the instructor and students. This course will usually require library research, laboratory work, and the preparation of final and oral reports. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Chemistry 296 or consent of Department Chairperson.
1–2 LECTURE HOURS. 5–20 LAB HOURS. 2–6 CREDIT HOURS.

CHEMISTRY 298-1
Independent Research in Chemistry IV
Original laboratory research supervised by a faculty member, either on campus or off-campus. A well-defined academic goal must be outlined by the instructor and students. This course will usually require library research, laboratory work, and the preparation of final and oral reports. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Chemistry 297 or consent of Department Chairperson.
1–2 LECTURE HOURS. 5–20 LAB HOURS. 2–6 CREDIT HOURS.

CHEMISTRY 299
Independent Research in Chemistry V
Original laboratory research supervised by a faculty member, either on campus or off-campus. A well-defined academic goal must be outlined by the instructor and students. This course will usually require library research, laboratory work, and the preparation of final and oral reports. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Chemistry 298 or consent of Department Chairperson.
1–2 LECTURE HOURS. 20–10 LAB HOURS. 2–6 CREDIT HOURS.

CHILD DEVELOPMENT

CHILD DEVELOPMENT 100
Critical Readings in Child Development
Prepares students to read critically in the field of human development. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

CHILD DEVELOPMENT 101
Human Growth and Development I
This course provides a foundation in theory and principles of human development, from conception to early adolescence, including an in-depth study of physical, social, emotional, cognitive, and language development, including children’s play. Five hours observing young children, ranging in age from birth to age eight, are required. Writing assignments and oral presentations as appropriate to the discipline are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
4 LECTURE HOURS. 4 CREDIT HOURS.

CHILD DEVELOPMENT 102
Human Growth and Development II
Continuation of Child Development 101. Emphasizes adolescence through late adulthood. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Child Development 101, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

CHILD DEVELOPMENT 103
Human Growth and Development III
Continuation of Child Development 102. Emphasizes late adulthood. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Child Development 102, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

CHILD DEVELOPMENT 104
Human Growth and Development IV
Continuation of Child Development 103. Emphasizes adulthood. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Child Development 103, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

CHILD DEVELOPMENT 105
Special Topics in Child Development
Study of a single topic in child development that would enhance students’ ability to support children and the families of young children. Writing assignments, as appropriate to the discipline, are part of the course. Allowed Repeatable Course: Not more than an accumulated four credit hours will be counted toward graduation. ARC: 4 times.
Prerequisite(s): Grade of C or better in Child Development 101 or consent of Department Chairperson.
1 LECTURE HOUR. 1 CREDIT HOUR.

CHILD DEVELOPMENT 107
Health, Safety, and Nutrition
This introductory course explores practices that promote good nutrition, dental, physical and mental health, as well as the safety of infants, toddlers, pre-school, and school-aged children in group settings. The course has a dual emphasis on the health, safety, and nutrition of young children and adult students. Health, lifestyle, preventative health, community resources, and emergency response procedures are examined. This course introduces cultural beliefs that influence health, safety, and nutrition. It explores ethical and legal responsibilities of adults in protecting the emotional and physical well-being of young children. Five observation hours observing young children in an early childhood education setting are required. Writing assignments and oral presentations, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

CHILD DEVELOPMENT 109
Language and Literacy Development in Early Childhood
This course explores the developmental process of language and literacy development from birth to age eight. In addition, the course explores the relationship between language, literacy, and all other domains of development. Planning for a variety of developmentally appropriate activities that support language and literacy development are explored, as well as an examination of the role of the environment plays and how to design a language and literacy-rich environment for young children. Bilingualism, multiculturalism, and the role of culture in language and literacy development and early childhood education are explored. Eight hours observing young children in an early childhood education setting are required for this course. Writing assignments and oral presentations as appropriate to the discipline are part of the course.
Prerequisite(s): Grade of C or better in Child Development 101 and Child Development 120 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

CHILD DEVELOPMENT 120
Introduction to Early Childhood Education Group Care
This introductory course is designed to familiarize students with the historic roots and philosophical foundations of early childhood care and education. The course includes an examination of the role of culture in child development and anti-biased practices in early childhood education. Finally, the course defines the profession and explores the profession’s Code of Ethical Conduct. Five hours observing young children in an early childhood education setting are required for the course. Writing assignments and oral presentations, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

CHILD DEVELOPMENT 130
Special Topics in Child Development
Study of a single topic in child development that would enhance students’ ability to support children and the families of young children. Writing assignments, as appropriate to the discipline, are part of the course. Allowed Repeatable Course: Not more than an accumulated four credit hours will be counted toward graduation. ARC: 4 times.
Prerequisite(s): Grade of C or better in Child Development 101 or consent of Department Chairperson.
1 LECTURE HOUR. 1 CREDIT HOUR.

CHILD DEVELOPMENT 141
Activity Programming
Recreational and creative activities as factors which change patterns of behavior in children. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.
CHILD DEVELOPMENT 142
Methods and Materials for Infant and Toddler Care
Acquaints current and prospective caregivers with the ways infant and toddlers play and learn at specific developmental levels. Through use of observations students will plan to meet needs of individual children in a group setting. Emphasis will be on creating a context for responsive and respectful care giving in a group setting. Writing assignments and observations, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Child Development 101 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

CHILD DEVELOPMENT 143
Science and Mathematics for Young Children
This course explores the relationship of play to the content areas of science and Mathematics in early childhood. Planning for a variety of developmentally appropriate experiences in mathematics and scientific inquiry are explored as well as an examination of the role of the early childhood environment in supporting development. The course emphasizes the study of cognitive theory as well as observation and documentation of science and Mathematics learning in diverse early childhood settings. The course includes student reflections of their own attitudes about science and Mathematics. Eight hours observing young children in an early childhood education setting are required for the course. Writing assignments and oral presentations as appropriate to the discipline are part of the course.
Prerequisite(s): Grade of C or better in Child Development 101 and Child Development 120, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

CHILD DEVELOPMENT 144
School-Age Activity Programming
Designed to introduce students to a basic understanding of the benefits of play and recreation for school-age children and adolescents. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

CHILD DEVELOPMENT 149
Creative Activities for Young Children
This introductory course explores the importance of creative activities in the early childhood curriculum and the relationship of creativity to physical, cognitive, language, social, and emotional development. Planning for a variety of developmentally appropriate, creative experiences that allow young children to play with art, music, movement, literature, and drama is explored as well as an examination of the role of the early childhood environment on creative expression. This course emphasizes the importance of the process of creative expression and provides diverse, creative experiences for adult students so they may understand the arts as a means of communicating ideas, feelings, and cultural expression. Eight hours observing young children in an early childhood education setting are required for the course. Writing assignments and oral presentations, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

CHILD DEVELOPMENT 201
Observation, Assessment, and Documentation to Support Young Children and Families
This course provides an examination of developmentally appropriate techniques for observing, documenting, and assessing the development of young children in order to inform curriculum planning and promote positive guidance strategies. The course emphasizes a strengths-based approach to assessment that includes building partnerships with families and professional colleagues. Self-reflection is a major component of the course as well as the examination of bias in the observation and assessment of young children from diverse backgrounds. Fifteen hours observing young children in an early childhood education setting are required for the course. Writing assignments and oral presentations as appropriate to the discipline are part of the course.
Prerequisite(s): Grade of C or better in Child Development 101, 107, 120, and 149 or consent of Department Chairperson. Grade of C or better or concurrent enrollment in Child Development 109, 143 or Child Development 262 is recommended.
3 LECTURE HOURS. 3 CREDIT HOURS.

CHILD DEVELOPMENT 205
Development of the Exceptional Child
Study of children whose development does not follow normal patterns; problems of identification, diagnosis and potential assessment. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Child Development 101, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

CHILD DEVELOPMENT 225
Supervision of the Exceptional Child
Techniques in handling and communicating with the deaf, blind, developmentally delayed, and physically challenged child. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Child Development 205.
3 LECTURE HOURS. 3 CREDIT HOURS.

CHILD DEVELOPMENT 228
Principles of Child Care Practice
Role of the child care worker in group/residential settings; primary objectives and goals; re-examination of child rearing responsibilities in light of treatment goals. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Child Development 101.
3 LECTURE HOURS. 3 CREDIT HOURS.

CHILD DEVELOPMENT 229
Practicum in Residential Child Care
Twenty hours per week of professional, and supervised training in a Child Care Treatment Program; includes two-hour weekly seminar. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Child Development 102, 201, and 228, and Social Services 212, or consent of Department Chairperson.
2 LECTURE HOURS. 20 LAB HOURS. 6 CREDIT HOURS.
CHILD DEVELOPMENT 230
Introduction to Early Intervention
Introduction to the field of early intervention and the role of the Early Intervention Associate. Includes units covering the background and current status of the field, an overview of the characteristics of normal versus at-risk and special needs population of infants and toddlers, and theoretical models and strategies of early intervention, including individualized Family Service (IFS) planning and team building. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Child Development 101, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

CHILD DEVELOPMENT 248
Principles and Practice of Infant and Toddler Care
Acquaints prospective teachers and care-givers of infants and toddlers with theory and practice of care and education of very young children in group settings. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Child Development 101 or consent of Department Chairperson.
4 LECTURE HOURS. 4 CREDIT HOURS.

CHILD DEVELOPMENT 258
Principles and Practices of Pre-school Education
This class provides opportunities to plan developmentally appropriate play-based activities that support all developmental domains including physical, cognitive, language, and socioemotional development with an emphasis on designing appropriate early childhood environments that address the needs of all children. The course emphasizes the process of becoming a professional including the implementation of the NAEYC Code of Ethical Conduct and other professional guidelines as well as fostering an early childhood environment that is conducive to respecting diversity. Students will write/revise their philosophy of early care and education, Thirty hours observing young children in an early childhood education setting are required for the course. Writing assignments and oral presentations as appropriate to the discipline are part of the course.
Prerequisite(s): Grade of C or better in Child Development 101, 107, 109, 120 and 143, or consent of Department Chair. Grade of C or better in Child Development 201 or Child Development 262 recommended.
4 LECTURE HOURS. 4 CREDIT HOURS.

CHILD DEVELOPMENT 259
Practicum in Pre-school
In this capstone course, students spend a minimum of 250 student teaching hours in an early childhood program under the direct mentorship of an on-site supervisor, field supervision by the course instructor, and weekly two-hour seminar discussions with classmates. Students are expected to apply what they have learned in all previous CD courses including: engaging in positive interactions with young children, planning developmentally appropriate activities, and using appropriate assessment techniques. Students will uphold professional and ethical guidelines. Students will design and revise a Child Development Portfolio compiled of artifacts from their previous coursework and other professional experiences. An emphasis is placed on the NAEYC Standards for Professional Preparation. Two-hundred and fifty student teaching hours with on-site supervision in an early childhood education setting are required for this course. Writing assignments and oral presentations, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Child Development 101, 107, 109, 120, 143, 149, 201, 258 and 262. To register for this course, all students must have consent of Department Chairperson.
2 LECTURE HOURS. 20 LAB HOURS. 6 CREDIT HOURS.

CHILD DEVELOPMENT 260
Administration and Supervision of Pre-school Centers
For those with experience as teachers or directors of nursery schools or day care centers who wishes to improve their skills in administration and supervision. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

CHILD DEVELOPMENT 262
Child, Family, and Community Relations
This course explores the importance of building positive relationships between young children, their families, the community, and the early childhood setting. It examines issues of diversity, multiculturalism, and anti-bias approaches in working with young children, their families, and the community as well as current policies, and practices that influence families. This course promotes self-reflection, cross cultural communication, and sensitivity to cultural, linguistic, and ability diversity. Five hours observing young children in an early childhood education setting are required for the course. Writing assignments and oral presentations as appropriate to the discipline are part of the course.
Prerequisite(s): Grade of C or better in Child Development 101 and Child Development 120, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

CHILD DEVELOPMENT 268
Principles and Practice of School-Age Programs
Designed to introduce students to the principles of developmentally appropriate practice in a school-age group setting. The student will review the developmental stages of school-age children in the social, emotional, physical and cognitive domains and apply these principles to the design and establishment of the physical environment, program scheduling, health and safety practices and group management. Techniques for parental involvement will be included. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or grade of C or better in English 100, and grade of C or better in Child Development 101. 4 LECTURE HOURS. 4 CREDIT HOURS.

CHILD DEVELOPMENT 269
Practicum in School-Age Child Care
In this capstone course, students spend a minimum of 250 student teaching hours in a school-age program under the direct mentorship of an on-site supervisor, field supervision by the course instructor, and weekly two-hour seminar discussions with classmates. Students are expected to apply what they have learned in all previous CD courses including: engaging in positive interactions with young children, planning developmentally appropriate activities, and using appropriate assessment techniques. Students will uphold professional and ethical guidelines. Students will design and revise a Child Development Portfolio compiled of artifacts from their previous coursework and other professional experiences. An emphasis is placed on the NAEYC Standards for Professional Preparation. Two-hundred and fifty student teaching hours with on-site supervision in an early childhood education setting are required for this course. Writing assignments and oral presentations, as appropriate to the discipline, are part of the course. Students spend 20 hours a week, under supervision, working with children in a school-child care setting. 17 weeks with a 2 hour seminar. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
2 LECTURE HOURS. 20 LAB HOURS. 6 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS

Credit Courses

CHILD DEVELOPMENT 299
Special Topics in Child Development/Early Childhood
Special topics in Child Development or Early Childhood Education will be discussed. New developments such as the latest brain research and its implication to working with your children will be emphasized. Writing assignments, as appropriate to the discipline, are part of the course. **Allowed Repeatability Course**: Course may be repeated up to three times when topics are different, and may count for a maximum of four variable credits. Consent of Department Chairperson required for repeatability. **ARC: 4 times**.

Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.

1–4 LECTURE HOURS. 1–4 CREDIT HOURS.

CHINESE

CHINESE 101
Introduction to Chinese
This course introduces the basic elements of Mandarin Chinese that will enable students to develop communicative language skills, basic conversational skills, as well as grammar and vocabulary knowledge in Chinese. Intensive drills on sound and tones, vocabulary, and sentence patterns in meaningful contexts will be used in order for students to communicate appropriately and accurately in authentic contexts. The course will introduce students to the diverse culture, history, and social etiquette of China. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): EACTFL Writing Proficiency Test (Score 1.00), or eligibility for English 101, or consent of Department Chairperson.

4 LECTURE HOURS. 4 CREDIT HOURS.

CHINESE 102
Chinese II
This course is designed for students who have acquired some oral proficiency, but lack formal training and literacy. It teaches more advanced grammar rules while reviewing basic ones. Students will learn how to use a bilingual dictionary to assist their reading of essays and short stories. They will learn to write notes, letters, and paragraphs. The course will introduce students to the diverse culture, history, and social etiquette of China. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Chinese 101, or consent of Department Chairperson.

4 LECTURE HOURS. 4 CREDIT HOURS.

CHINESE 103
Chinese III
This course is designed for students who have acquired some oral proficiency and basic grammar rules of Mandarin Chinese. It will emphasize four skills: speaking, listening, reading, and writing in culturally authentic situations. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Chinese 102 or consent of Department Chairperson.

4 LECTURE HOURS. 4 CREDIT HOURS.

CHINESE 104
Chinese IV
This course provides intensive work in the use of Mandarin Chinese through listening, speaking, reading, and writing and through continued enhancement of the cultural awareness intrinsic to these four skills. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Chinese 103 or consent of Department Chairperson.

4 LECTURE HOURS. 4 CREDIT HOURS.

CHINESE 198
Study Abroad: Intensive
To prepare students to fully participate in and benefit from the Study Abroad program in China, this course will cover two major aspects of the Chinese studies: culture and language. Students will work collaboratively to discuss different topics about China and learn to speak conversational Chinese in an appropriate manner. Writing assignments as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Chinese 102 or higher and selection by Committee.

2 LECTURE HOURS. 2 CREDIT HOURS.

CHINESE 199-A
Study Abroad: Immersion Xi’an, China
This course will bridge the content delivered in Chinese 198 and provide total immersion in Chinese language and culture. This specially designed course consists of two parts: a pre- and post-set of session in Chicago and two week immersion language program in Xi’an, China. The language program in China, to be delivered by Xi’an International Studies University, will consist of 6-hour daily sessions, Monday through Friday. Writing assignments as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Chinese 198.

4 LECTURE HOURS. 4 CREDIT HOURS.

CLINICAL LABORATORY TECHNOLOGY

CLINICAL LABORATORY TECHNOLOGY 107
Immunohematology I
This course covers an introduction to the basic theory of Blood Banking, donor selection, the ABO and Rh systems and the procedures of ABO, Rh and DU typing tests. Writing assignments, as appropriate to the discipline, are part of the course.

1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

COMMUNICATION MEDIA

COMMUNICATION MEDIA 110
History of Photography
The historical development of photography as an art from 1839 to the present, including critical analysis of photographs and aesthetic movements in photography. Examines photographs for their aesthetic and humanistic values, emphasizing photographs as expressions of ideas and beliefs of photographers within their cultural and social contexts. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.

3 LECTURE HOURS. 3 CREDIT HOURS.

COMMUNICATION MEDIA 161
Beginning Photography
An introduction to black and white photography as an art medium, including the basics of camera and darkroom techniques and relevant aesthetic, historic, and critical issues. Writing assignments, as appropriate to the discipline, are part of the course.

6 LAB HOURS. 3 CREDIT HOURS.

IAI/GE: WR

COMMUNICATION MEDIA 161
Beginning Photography
An introduction to black and white photography as an art medium, including the basics of camera and darkroom techniques and relevant aesthetic, historic, and critical issues. Writing assignments, as appropriate to the discipline, are part of the course.

6 LAB HOURS. 3 CREDIT HOURS.

IAI/GE: MX | HD
COMMUNICATION MEDIA 162
Photography of Persuasion
Advanced photography darkroom skills; past and present use of photography in persuasion as in advertising and political campaigns; different approaches in magazine and newspaper advertising employing photographs. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Communications Media 161 or Art 115, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

COMPUTER INFORMATION SYSTEMS

COMPUTER INFORMATION SYSTEMS 101
Computer Science 101
An introductory course in computer science and programming, with emphasis on the logical analysis of a problem and the formulation of a computer program leading to its solution. Topics include basic concepts of computer systems, computer types, cloud computing, and computer programming languages. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101 based on prior coursework or COMPASS, ACT, or SAT test scores, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.
IAI/Major: DA KK MX OH TR HW WR

COMPARATIVE RELIGION 104
Islamic Scriptures: The Qur’an
The study of the Qur’an with an emphasis on its historical, cultural, and intellectual settings; literary characteristics; and the scholarship related to its various translations and interpretations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: WR

COMPARATIVE RELIGION 106
Comparative Religion I/Eastern Religion
Comparison and investigation of major Eastern religions. Includes origins, rituals, religious knowledge, and destiny. This course concentrates on the religions of the Eastern world. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: DA KK MX TR WR | HD

COMPARATIVE RELIGION 107
Comparative Religion II/Western Religion
Comparison and investigation of major Western religions. Includes origins, rituals, religious knowledge, and destiny. This course concentrates on the religions of the Western world. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: KK OH TR | HD

COMPARATIVE RELIGION

COMPARATIVE RELIGION 101
Introduction to Religion
Introduction to the nature, origin, beliefs, practices, and development of religion in society. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: KK OH TR WR

COMPARATIVE RELIGION 102
The Bible: Hebrew Old Testament
The study of the Old Testament with an emphasis on its historical, cultural, and intellectual settings; literary characteristics; and the scholarship related to its various translations and interpretations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: KK OH TR WR

COMPARATIVE RELIGION 103
The Bible: New Testament
The study of the New Testament, with an emphasis on its historical, cultural, and intellectual settings; literary characteristics; and the scholarship related to its various translations and interpretations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: KK OH TR WR

COMPARATIVE RELIGION 104
Islamic Scriptures: The Qur’an
The study of the Qur’an with an emphasis on its historical, cultural, and intellectual settings; literary characteristics; and the scholarship related to its various translations and interpretations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: WR

COMPARATIVE RELIGION 106
Comparative Religion I/Eastern Religion
Comparison and investigation of major Eastern religions. Includes origins, rituals, religious knowledge, and destiny. This course concentrates on the religions of the Eastern world. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: DA KK MX TR WR | HD

COMPARATIVE RELIGION 107
Comparative Religion II/Western Religion
Comparison and investigation of major Western religions. Includes origins, rituals, religious knowledge, and destiny. This course concentrates on the religions of the Western world. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: KK OH TR | HD

COMPARATIVE RELIGION

COMPARATIVE RELIGION 101
Introduction to Religion
Introduction to the nature, origin, beliefs, practices, and development of religion in society. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: KK OH TR WR

COMPARATIVE RELIGION 102
The Bible: Hebrew Old Testament
The study of the Old Testament with an emphasis on its historical, cultural, and intellectual settings; literary characteristics; and the scholarship related to its various translations and interpretations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: KK OH TR WR

COMPARATIVE RELIGION 103
The Bible: New Testament
The study of the New Testament, with an emphasis on its historical, cultural, and intellectual settings; literary characteristics; and the scholarship related to its various translations and interpretations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: KK OH TR WR

COMPARATIVE RELIGION 104
Islamic Scriptures: The Qur’an
The study of the Qur’an with an emphasis on its historical, cultural, and intellectual settings; literary characteristics; and the scholarship related to its various translations and interpretations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: WR

COMPARATIVE RELIGION 106
Comparative Religion I/Eastern Religion
Comparison and investigation of major Eastern religions. Includes origins, rituals, religious knowledge, and destiny. This course concentrates on the religions of the Eastern world. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: DA KK MX TR WR | HD

COMPARATIVE RELIGION 107
Comparative Religion II/Western Religion
Comparison and investigation of major Western religions. Includes origins, rituals, religious knowledge, and destiny. This course concentrates on the religions of the Western world. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: KK OH TR | HD

COMPARATIVE RELIGION

COMPARATIVE RELIGION 101
Introduction to Religion
Introduction to the nature, origin, beliefs, practices, and development of religion in society. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: KK OH TR WR

COMPARATIVE RELIGION 102
The Bible: Hebrew Old Testament
The study of the Old Testament with an emphasis on its historical, cultural, and intellectual settings; literary characteristics; and the scholarship related to its various translations and interpretations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: KK OH TR WR

COMPARATIVE RELIGION 103
The Bible: New Testament
The study of the New Testament, with an emphasis on its historical, cultural, and intellectual settings; literary characteristics; and the scholarship related to its various translations and interpretations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: KK OH TR WR
CREDIT COURSE DESCRIPTIONS

Credit Courses

COMPANY INFORMATION SYSTEMS 102
Introduction to Programming Logic
Techniques and problem-solving aids necessary for efficient solution of computer programming problems. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

COMPANY INFORMATION SYSTEMS 103
Fundamentals of Programming
How to use a language to program a computer for real world problem-solving in mathematics, science, business and other fields. The course will feature elements of program design, data types and expressions, procedures and modularity, conditions and loops, data and control structures, development of algorithms, and writing and debugging programs. Writing assignments, as appropriate to the discipline, are part of the course. Specific computer language to be selected by the instructor.
Prerequisite(s): Grade of C or better in Mathematics 118 or higher and eligibility for English 101, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

COMPANY INFORMATION SYSTEMS 111
Computer Operations
Operation and routine maintenance of central processing unit; peripheral devices; initial program load; system utilities and system scheduling. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Computer Information Systems 101, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

COMPANY INFORMATION SYSTEMS 112
Advanced Computer Operation
Operating system concepts; program resources, and their allocations, job scheduling, exception handling, set-up, relationship between operating system, hardware and user program, time sharing and teleprocessing. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Computer Information Systems 111.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

COMPANY INFORMATION SYSTEMS 116
Operating Systems I
An overview including a theoretical and practical framework for the study of controlling software in the microcomputer environment using prevailing cooperating systems. The concepts of interrupt handling, scheduling and query techniques, and access and storage methods will be clarified through readings and discussions. Writing assignments, as appropriate to the discipline, are part of the course. Additional earned credit hours up to 6 will be counted towards elective and requires Consent of Department Chairperson.
Prerequisite(s): Grade of C or better in Computer Information Systems 101, or consent of Department Chairperson.
2 LECTURE. 2 LAB HOURS. 3 CREDIT HOURS.

COMPANY INFORMATION SYSTEMS 118
Information Technology Problem Solving
The course introduces students to a wide variety of problem-solving methodologies and Information Technology tools that build problem-solving skills needed to effectively meet the challenges of real world scenarios. They will use a variety of IT tools including programming, social media and networking among others. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

COMPANY INFORMATION SYSTEMS 120
Introduction to Microcomputers
Fundamental concepts of computer information systems as applied to microcomputers in business and personal use; includes hands-on experience with a variety of microcomputer software. Writing assignments, as appropriate to the discipline, are part of the course.
Allowed Repeatable Course: Not more than three credit hours will be counted towards the CIS/IT degree requirements. Additional earned credit hours up to six will be counted towards elective credit and requires the consent of Departments Chairperson. ARC: 3 times.
3 LECTURE HOURS. 3 CREDIT HOURS.

COMPANY INFORMATION SYSTEMS 122
Introduction to Word Processing on Microcomputers
In-depth concepts of word processing as they apply to microcomputers in business and personal use. Laboratory assignments provide hands-on experience with microcomputer word processing software. Writing assignments, as appropriate to the discipline, are part of the course. Allowed Repeatable Course: Not more than three credit hours will be counted towards the CIS/IT degree requirements. Additional earned credit hours up to six will be counted towards elective credit and requires the Consent of Departments Chairperson. ARC: 3 times.
3 LECTURE HOURS. 3 CREDIT HOURS.

COMPANY INFORMATION SYSTEMS 123
Microcomputer Spreadsheets
Fundamental concepts of computer programs as exemplified in the electronic spreadsheet. Emphasis on business applications and personal financial management and tax preparation. Writing assignments, as appropriate to the discipline, are part of the course. Allowed Repeatable Course: Not more than three credit hours will be counted towards the CIS/IT degree requirements. Additional earned credit hours up to six will be counted towards elective credit and requires the consent of Departments Chairperson. ARC: 3 times.
3 LECTURE HOURS. 3 CREDIT HOURS.

COMPANY INFORMATION SYSTEMS 130
Introduction to Assembler Programming
Writing programs demonstrating use of assembler language. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Computer Information Systems 103 and 135, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

COMPANY INFORMATION SYSTEMS 135
Introduction to COBOL Programming
Writing programs in COBOL for typical business problems. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.
COMPUTER INFORMATION SYSTEMS 142
C-based Programming Language
Fundamentals of structured object-oriented programming through a study of program specification and design, algorithm development, flowcharts, problem-solving, programming concepts, classes and methods, control structures, arrays, strings, coding and testing using a modern software development environment. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Computer Information Systems 101 or consent of Department Chairperson.
2 LECTURE. 2 LAB HOURS. 3 CREDIT HOURS.

COMPUTER INFORMATION SYSTEMS 144
Java-Based Programming Language
A block-structured high-level programming language commonly used in internet applications, including procedural and data abstraction programming styles; the concepts of design, testing, and documentation in programming, programming platforms, and software developments; selection, repetition, and sequence control structures; the basic programming elements of arrays, records, and files. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Computer Information Systems 101 or consent of Department Chairperson.
2 LECTURE. 2 LAB HOURS. 3 CREDIT HOURS.

COMPUTER INFORMATION SYSTEMS 145
Database Management
In-depth concepts of database as they apply to micro computers in business and personal use to build information management systems. The network, hierarchical, and relational models are discussed. DBMS on microcomputers are used for lab assignments to implement the rational models. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Computer Information Systems 101 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

COMPUTER INFORMATION SYSTEMS 182
Web Development II/Client Side Scripting
Continuation of the Web Development series. This course integrates all of the skills learned in CIS-181 and focuses on client side scripting to verify data entry, manipulate and control web page elements, and store information on the client machines using cookies. Methods for initiating user authentication will also be covered. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Computer Information Systems 181, or consent of Department Chairperson.
2 LECTURE. 2 LAB HOURS. 3 CREDIT HOURS.

COMPUTER INFORMATION SYSTEMS 183
Advanced Basic Programming
Building on prior COBOL experience, structured programming design, implementation, testing, and documentation using COBOL, including arrays, records, string processing and files, and direct access file techniques, control break logic, master file update, sorting, and searching techniques, and interactive programming. Program linkage and parametric processing. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Computer Information Systems 103, or grade of C or better in Computer Information Systems 142, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

COMPUTER INFORMATION SYSTEMS 184
Advanced C or C++ Language
Building on prior programming experience, design and implementation of large-scale programs; abstract data types; and data structures: files, sets, pointers, lists, stacks, queues, trees, graphs. Program verification and complexity, and dynamic concepts: memory, scope, block structures. Text processing and introduction to searching and sorting algorithms. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Computer Information Systems 142, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

COMPUTER INFORMATION SYSTEMS 203
Advanced Basic Programming
Event-driven programming using the Visual Basic programming language. Includes algorithm development, structured design and file processing, and the use of various controls including control arrays, exception handling and the use multiple forms. Introduces database manipulation using Microsoft Access and database controls. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Computer Information Systems 103, or grade of C or better in Computer Information Systems 142, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

COMPUTER INFORMATION SYSTEMS 235
Advanced COBOL Programming
Building on prior COBOL experience, structured programming design, implementation, testing, and documentation using COBOL, including arrays, records, string processing and files, and direct access file techniques, control break logic, master file update, sorting, and searching techniques, and interactive programming. Program linkage and parametric processing. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Computer Information Systems 135 and Computer Information Systems 142, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

COMPUTER INFORMATION SYSTEMS 242
Advanced C or C++ Language
Building on prior programming experience, design and implementation of large-scale programs; abstract data types; and data structures: files, sets, pointers, lists, stacks, queues, trees, graphs. Program verification and complexity, and dynamic concepts: memory, scope, block structures. Text processing and introduction to searching and sorting algorithms. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Computer Information Systems 142, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

IAI/MAJOR: DA KK TR HW WR
CREDIT COURSE DESCRIPTIONS

Credit Courses

COMPUTER INFORMATION SYSTEMS 244
Advanced Java Programming Language
Use of Internet programming language for design and implementation of large-scale problems; management of abstract data types; data structures (files, sets, pointers, lists, stacks, queues, trees, graphs); program verification and complexity; recursion; dynamic concepts (memory scope, black structures); text processing; and an introduction to searching and sorting algorithms. The programming for computer graphics and animation and implemented for Internet usage. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Computer Information Systems 144 or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

IAI/MAJOR: DA KK MX OH TR HW WR

COMPUTER INFORMATION SYSTEMS 250
Introduction to Systems
Analysis and design of information systems; includes analysis of organization and procedure, forms and work-flow, equipment selection, and implementation of systems. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Computer Information Systems 244 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

COMPUTER INFORMATION SYSTEMS 251
Introduction to Database Management Systems
Examination of data manipulation needs and comparison of traditional processes for meeting needs with data base approach; use of computer simulations to practice and apply database management system (DBMS) techniques. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

COMPUTER INFORMATION SYSTEMS 255
Operating Systems/Client
General principles and specific applications of operating system on various computers. An overview. A theoretical and practical framework for the study of controlling software. The concepts of interrupt handling, multi-programming, multi-processing, scheduling and query techniques, and access and storage methods will be clarified through readings and discussions. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in CIS 116 OR consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

COMPUTER INFORMATION SYSTEMS 257
Introduction to Business Telecommunications
Study of the basic principles that apply to the general design of business telecommunication systems; covers appreciation for the scope of these systems and a logical approach to solving communications problems. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

COMPUTER INFORMATION SYSTEMS 258
Web Development II
This course extends the introductory concepts of CIS 158, using a variety of internet and general networking concepts, including interactive forms and CGI programming for the World Wide Web, multimedia development, intranets, server installation and management, database connectivity, and simple website administration. This will include multimedia additions, setting design styles, and installing on a web server.
Prerequisite(s): Grade of C or better in CIS 158 or consent of Department Chairperson.
2 LECTURE. 2 LAB HOURS. 3 CREDIT HOURS.

COMPUTER INFORMATION SYSTEMS 260
Computer Information Systems Field Project
Provides students with practical application of data processing skills by participation in a planned and coordinated field project. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

COMPUTER INFORMATION SYSTEMS 265
Computer Information Systems Internship
Students gain data processing experience by working at an appropriate and supervised work-training station. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
2 LECTURE HOURS. 5 LAB HOURS. 3 CREDIT HOURS.

COMPUTER INFORMATION SYSTEMS 280
Computer Graphics
Tips, techniques and advice for creating professional business presentations using text, bullets, tables, pie and bar charts, templates and clip art. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Computer Information Systems 120 and Visual Communications 122, or consent of Department Chairperson.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.

COMPUTER INFORMATION SYSTEMS 281
Web Development III/Server Side Programming
Continuation of the CIS 182. Part III presents dynamic web programming using server side programming techniques. Database integration into website is also introduced. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Computer Information Systems 182 or NET 101 with a grade of C or better or consent of Department Chair.
2 LECTURE. 2 LAB HOURS. 3 CREDIT HOURS.

COMPUTER INFORMATION SYSTEMS 282
Web Development IV/Web Database Integration
Continuation of the CIS 281. Part IV covers advanced topics in web development, including but not limited to error handling, email, user profile, content management, basic online store and E-commerce fundamentals.
Prerequisite(s): Grade C or better in Computer Information Systems 281, or consent of Department Chairperson.
2 LECTURE. 2 LAB HOURS. 3 CREDIT HOURS.
COMPUTER INFORMATION SYSTEMS 299
Special Topic Computer Information Systems
Special topics in CIS will be discussed along with appropriate lab and/or field trip activities. New developments will be emphasized, especially materials useful in K12 education and industry. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Computer Information Systems 158, or consent of Department Chairperson.

3 LECTURE HOURS. 3 CREDIT HOURS.

COMPUTER SECURITY AND FORENSIC INVESTIGATION 202
Forensics and Cybersecurity
This course is one of the requirements for the Computer Security and Forensic Investigation certificate Program/Plan 297. Explores the various types of economic Cybercrime, the far-reaching consequences of such crime, and some recovery and countermeasures. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Computer Security and Forensic Investigation 203 and 202.

3 LECTURE HOURS. 3 CREDIT HOURS.

COMPUTER SECURITY AND FORENSIC INVESTIGATION 204
Introduction to Computer Forensics and Law
This course is one of the requirements for Computer Security and Forensic Investigation certificate Program/Plan 297. Designed to provide an introduction to the world of computer forensics and the attendant legal issues concerning privacy and electronic evidence. Explores computer forensics as the science of collecting, preserving and analyzing data from computers so they can be admissible at a company discipline hearing or in a court of law. Surveys problems of maintaining a secure technological environment, protecting the identity of individuals, as well as protecting confidential information. In addition, it will introduce techniques used in the collection and analysis of evidence. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Computer Security and Forensic Investigation 102 and 202.

3 LECTURE HOURS. 3 CREDIT HOURS.

COMPUTER SECURITY AND FORENSIC INVESTIGATION 205
Computer Forensics Technology
This course is one of the requirements for the Computer Security and Forensic Investigation Program/Plan 297. An introduction to the world of computer forensics. Focuses on the areas of search and seizure, the use of some evidence analysis and presentation software and other appropriate software tools. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Computer Security and Forensic Investigation 203 and 204.

6 LAB HOURS. 3 CREDIT HOURS.

COMPUTER SECURITY AND FORENSIC INVESTIGATION 206
Internet Vulnerabilities, Criminal Activities and Investigative Procedures
This course is one of the requirements for the Computer Security and Forensic Investigation Program/Plan 297. An overview of appropriate, lawful investigative procedures for the collection, documentation, preparation and presentation of evidence from internet Cybercrime investigations. The lab course focuses on the areas of search and seizure, the use of some evidence analysis and presentation software and other appropriate software tools. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Computer Information Systems 158, or consent of Department Chairperson.

3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

COMPUTER SECURITY AND FORENSIC INVESTIGATION 213
Information Security Technology
Provides a hands-on review and analysis in a laboratory environment of the following six major areas of information security technology: firewalls, intrusion detection, virus detection, encryption, authentication/authorization, and trending/tracking/logging/analysis. Provides an understanding of each technology on a conceptual level as well as an understanding of specific technology brands. Demonstrates how to build and manage a complete information security architecture within a corporate computing environment. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Computer Security and Forensic Investigation 202 and 204.

6 LAB HOURS. 3 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS
Credit Courses

COMPUTER SECURITY AND FORENSIC INVESTIGATION 214
Information Security Systems Analysis
This course is one of the requirements for Computer Security and Forensic Investigation certificate Program/Plan. Continuation of COMPSFI 103. Identification of classes of security systems and monitoring procedures. Introduces security and monitoring procedures and critical elements of effective security systems. Provides an overview of the challenges faced when attempting to build a secure security systems, and explores possible counter-measures to intrusions. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or grade of C or better in English 100 and grade of C or better in Computer Information Systems 120, or consent of Department Chairperson.
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

COMPUTER SECURITY AND FORENSIC INVESTIGATION 215
Information Security Domains
An overview of the critical information security domains. The Common Body of Knowledge (CBK) in information security is extensive and requires a thorough understanding of the security discipline or domains. This course will cover what each domain is, what area it encompasses, and how it is integral to the information security process. Provide an excellent preparation for those who wish to pursue certification as an information security professional. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Computer Security and Forensic Investigation 214.
3 LECTURE HOURS. 3 CREDIT HOURS.

COMPUTER SECURITY AND FORENSIC INVESTIGATION 216
Information Security Program Management
This capstone course is one of the requirements for the Computer Security and Forensic Investigation certificate Program/Plan 297. Explores the critical areas of security policies and procedures that govern how an institution views the importance, often underestimated, of securing the network environment and the relationship between those policies and procedures and the network security layers that need to be protected. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Computer Security and Forensic Investigation 102 and 215.
3 LECTURE HOURS. 3 CREDIT HOURS.

COMPUTER SECURITY AND FORENSIC INVESTIGATION 231
Internetworking Security
The course provides a detailed understanding of prevailing network security principles and practices. It covers strategies, tools and configurations used to secure network devices and network infrastructures. Students develop the skills necessary to secure routers and switches, and learn how to apply security controls and countermeasures to minimize security risks that modern network infrastructures face. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade C or better in Networking Technologies 122, or consent of the Department Chairperson.
2 LECTURE. 2 LAB HOURS. 3 CREDIT HOURS.

CONSTRUCTION MANAGEMENT 601
Introduction to Construction
The course is designed to give students a foundation in the basic concepts of construction. The course focuses on the fundamental skills needed in the industry for the core construction class, industry related terminology, construction processes and procedures, scale reading, applying construction calculation, measuring, tools and usage, and industry job descriptions. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

CONSTRUCTION MANAGEMENT 602
Methods of Building Construction
The course is designed to develop an understanding of the methods of construction of residential and commercial type building and includes a survey of different types of construction and their advantages and limitations. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

CONSTRUCTION MANAGEMENT 603
Building Materials and Testing
Examination of the characteristics of materials such as wood, masonry, concrete, iron, and steel relative to their basic use in the construction industry. The physical properties of each will be studied relative to actual in-service behavior. This course is an introduction to the field and laboratory methods of testing soils, concrete, and steel. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

CONSTRUCTION MANAGEMENT 604
Blueprint and Specifications
Designed to provide proper knowledge of blueprints reading as it relates the architectural or building construction industry. The course covers the theory of orthographic projections, reading floor plans and elevations drawings, symbols and notations, scaling and dimensioning practices, reading blueprints of structural information, electrical and mechanical trade drawings. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

CONSTRUCTION MANAGEMENT 605
Construction Cost Estimating
This course is designed to provide students with a basic introduction to the methods of construction, estimating and developing the associated costs. Students will gain a working knowledge of materials takeoffs, the estimating process, building and estimating spreadsheets, unit cost, assemblies for different trades, overhead and profit. Manual and computer approaches to solving estimating problems will be used. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Construction Management 604 and Computer Information Systems 120.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

CONSTRUCTION MANAGEMENT 606
Construction Contracting Specs
Introduction the functions and operations of a construction office, including bidding, construction contracts and specifications, bonds and insurance, labor law and labor relations. Legal aspects and interpretation of contracts and specifications. This course is designed to give students a general working knowledge of the various types of contracts, specification, and delivery methods. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Construction Management 604.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

CONSTRUCTION MANAGEMENT 607
Construction Scheduling/Management
An introduction to the methods of construction scheduling and project management. Students will become familiarized with using different scheduling approaches, how to handle worksite paperwork, and to plan the need for manpower, materials, and equipment coordination with the project budget. The course will use manual and computer approaches to solving scheduling programs. Discussion and critical path methods (CPM) and analysis are included in the course. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Construction Management 604 and Computer Information Systems 120.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.
CONSTRUCTION MANAGEMENT 608
Project Management
This course is designed to provide students with a basic understanding of the process of a construction project and provide the tools that are necessary to estimate or manage a construction project. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Construction Management 604, 607, and Computer Information Systems 120.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

CONSTRUCTION MANAGEMENT 609
Construction Safety II
This course covers thirty (30) hours of training, required by the Occupational Health and Safety Act (OSHA) that apply toward the 30-hour Construction Industry course completion card. The course covers topics pertaining to regulations covered by Standard 28 CFR 1926. Upon successful completion of the course, participants will receive an OSHA construction safety and health 30-hour course completion card from the Department of Labor. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

CONSTRUCTION MANAGEMENT 610
Construction Internship
This course is designed to give students the practical application of current construction methods. There will be a variety of projects from the residential and commercial sectors. The sites selected will vary due to availability and weather. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Consent of Department Chairperson.
3 LAB HOURS. 3 CREDIT HOURS.

CONSTRUCTION MATERIALS TECHNICIAN
CONSTRUCTION MATERIALS TECHNICIAN 611
Hot Mix Asphalt Level I
This course will include an introduction to laboratory and field equipment including proper utilization and calibration. Testing and general information on asphalt and the IDOT QC/QA will be presented. Student will be prepared to sit for the IDOT Level I certification in performing Hot Mix Asphalt (HMA) testing in the laboratory and field. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

CONSTRUCTION MATERIALS TECHNICIAN 612
Portland Cement Concrete Level I
The course is designed to prepare students for level ACI/IDOT certification in performing Portland Cement Concrete (PCC) activities in the laboratory test. Testing and general information on the PCC and the eIDOT QC/QA will be covered. Persons completing this course will be able to do the field testing for PCC and QC/QA projects. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

CONSTRUCTION MATERIALS TECHNICIAN 613
Aggregates and Soils Level I
This course is designed to prepare students for IDOT 3 day Aggregates and Soils certification in performing aggregates and soil material testing in the laboratory, including typical laboratory test methods and in the field. Writing assignments, as appropriate to the discipline, are part of the course.
1–3 LECTURE HOURS. 1–3 CREDIT HOURS.

COOPERATIVE WORK EXPERIENCE
COOPERATIVE WORK EXPERIENCE 101
Cooperative Education Exploration
Career planning, job entry skills, guidance to assist students in exploring and assessing their interests, aptitudes and abilities for consideration of career goals; development of skills necessary for job search success and job entry preparation. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 100 or grade of C or better in English 127 and grade of C or better in Reading 125, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

COOPERATIVE WORK EXPERIENCE 105
Business Technologies CWE
The Cooperative Education course is designed to provide employment skills as a concurrent and integral part of a student’s educational program in a number of career areas. Students are placed in an approved employment situation mutually agreed upon by the student, college staff, and employer, with the opportunity to apply knowledge and gain exposure to work methods unavailable in the classroom. College staff members develop with each student a written educational plan, including performance-based measurable objectives. Guidance and supervision are regularly provided by college staff members who visit students at work, confer with the employer, measure progress, and work out any concerns. Follow-up seminars with the staff may be scheduled for up to two hours per week. Students are assigned a job directly related to their academic program/plan, which will enhance educational goals without infringing upon course or program/plan obligations. Academic credit for part-time employment (up to 20 hours per week) is awarded on a ratio of 1 semester hour of credit for each 5 hours of approved employment per week, with a maximum of 2 semester hours credit for the work component. Academic credit for full-time employment (21 or more hours per week) is awarded on a ratio of 1 semester hour of credit for each 10 hours of approved employment per week, with a maximum of 2 semester hours credit for the work component. If offered in conjunction with the work component, 1 semester credit hour is awarded for each seminar hour per week up to a maximum of 1 semester credit hour. In total, variable credit may be acquired depending upon the number of hours on the job and the extent of follow-up seminars, up to a maximum of 3 semester credit hours. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Consent of Department Chairperson/Coordinator.
2 LECTURE HOURS. 20 LAB HOURS. 3–6 CREDIT HOURS.

COOPERATIVE WORK EXPERIENCE 106
Commercial-Data Processing CWE

Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Consent of Department Chairperson/Coordinator.
2 LECTURE HOURS. 20 LAB HOURS. 36 CREDIT HOURS.

COSMETOLOGY 102
Hair Shaping Technology
Students learn to identify, safely use and properly care for the various types of tools used for cutting and shaping hair. Students develop skill and proficiency in shaping hair with scissors and razors, as well as in various methods of cutting hair as required by specific hair styling and permanent waving. Considerable emphasis is placed on efficiency and quality. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Cosmetology 101.
15 LAB HOURS. 5 CREDIT HOURS.

COSMETOLOGY 103
Basic Styling Technology
Through this course, students receive comprehensive instruction regarding the tools, materials, equipment and methods of basic waving and styling. Skills are developed in the proper application of sculpture curls, roller direction, comb-out techniques, and basic styling. Emphasis is placed on adapting hairstyles to suit the individual and recognizing the texture, elasticity and porosity of various types of hair. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Cosmetology 101. Grade of C or better OR concurrent enrollment in 102.
15 LAB HOURS. 5 CREDIT HOURS.

COSMETOLOGY 104
Hair Tinting Technology
Studying the principles and techniques of applying hair tints and bleaches, students learn color-blending methods and they gain knowledge about the composition, merits and limitations of chemicals used in the cosmetology field. Students also learn about potential reactions of various hair and scalp textures to specific chemicals. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Cosmetology 101. Grade of C or better OR concurrent enrollment in 102 and 103.
9 LAB HOURS. 3 CREDIT HOURS.

COSMETOLOGY 105
Salon Technology I
This course provides opportunities for the practical application of specific customer services for which students has received previous training. Work is performed under the direct supervision of a licensed and experienced instructor. Emphasis is placed on the development of proficiency. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Cosmetology 101, 102. Grade of C or better OR Concurrent enrollment in Cosmetology 103 and 104.
15 LAB HOURS. 5 CREDIT HOURS.

COSMETOLOGY 106
Salon Technology II
This course provides continued opportunities for the practical application of specific customer services for which students has received previous training. Work is performed under the direct supervision of a licensed and experienced instructor. Emphasis is placed on the development of proficiency. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Cosmetology 101, 102, 103. Grade of C or better OR concurrent enrollment in 104 and 105.
15 LAB HOURS. 5 CREDIT HOURS.
COSMETOLOGY 201
Advanced Styling Technology
Students receive advance training to increase proficiency in all areas of customer servicing as it relates to cosmetology. Students will refine and further develop specific skills and technique previously learned to enhance hair shaping, coloring, tinting, waving and creative styling. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Cosmetology 101, 102, 103, 104, 105. Grade of C or better OR concurrent enrollment in 106.
12 LAB HOURS. 4 CREDIT HOURS.

COSMETOLOGY 202
Summative Seminar
This course provides the opportunity for practical application of all previously acquired cosmetology knowledge and skills. Although trainees perform all work under direct supervision of a licensed and experienced cosmetology instructor, they are much less dependent upon instructors in carrying out assignments. Considerable emphasis is placed on efficiency and quality of work performed while servicing clients. Finalizing of the portfolio and salon floor plan is required for this course. Preparation and review for the Illinois State exam will be provided. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Cosmetology 101, 102, 103, 104, 105 and 106 and eligibility for 1200 T Proficiency exam.
12 LAB HOURS. 4 CREDIT HOURS.

COSMETOLOGY 211
Post-Graduate Cosmetology Training I
This course covers subjects in the basic Cosmetology curriculum such as proper techniques in roller setting, haircutting, clipper and razor cutting, skin care, and massage, including theory and practice. Presentation of material includes the concepts that are intended to be taught and the skills to be acquired during the various phases of basic education. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite: High school diploma or GED Certificate required. Student must be a graduate of an accredited cosmetology school and possess an active State of IL Cosmetology License.
2 LECTURE HOURS. 4 LAB HOURS. 6 CREDIT HOURS.

COSMETOLOGY 212
Post-Graduate Cosmetology Training II
This course covers subjects in the basic Cosmetology curriculum such as proper techniques in wet hair styling, manicuring, pedicuring, chemical hair treatment, and hair coloring, including theory and practice. Presentation of material includes the concepts that are intended to be taught and the skills to be acquired during the various phases of basic education. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite: High School Diploma or GED Certificate required. Student must be a graduate of an accredited cosmetology school and possess an active State of IL Cosmetology License.
2 LECTURE HOURS. 4 LAB HOURS. 6 CREDIT HOURS.

COSMETOLOGY 223
Basic Teaching Skills for Career Education Instructors
Topics in this course cover educational objectives, student characteristics and development, the learning process and evaluation of learning, classroom management and lesson planning, assessment of learner performance, student motivation, and classroom development. Preparation and organization of subject matter of presentations include teaching objectives to be accomplished and correlate theoretical and practical applications. Salon Business basics are included, as well as applicable Illinois statutes and professional regulations. A portfolio and writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite: High school diploma or GED Certificate required. Student must be a graduate of an accredited cosmetology school and possess an active State of IL Cosmetology License. Proof of 2 years of salon experience or grade of C or better in Cosmetology 211 and 212.
4 LECTURE HOURS. 4 LAB HOURS. 8 CREDIT HOURS.

COSMETOLOGY 224
Principles and Practices in Cosmetology Education
This course is conducted under the direct supervision of an Illinois Licensed Cosmetology Teacher. It prepares the student teacher in presenting theoretical and practical demonstrations to students in the basic cosmetology curriculum. These demonstrations include the use of educational materials used in classroom; use of technology in the classroom; and teaching techniques and technical skills in hair cutting procedures, using the clipper and the razor, procedures for analyzing the skin, care of the skin using massage and the skin care machine, and the development of hair styling techniques. A portfolio is required. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better or concurrent enrollment in Cosmetology 223.
4 LECTURE HOURS. 4 LAB HOURS. 8 CREDIT HOURS.

CRIMINAL JUSTICE

CRIMINAL JUSTICE 102
Administration of Criminal Justice
Operation of the agencies of criminal justice: police, prosecution, courts, correctional institutions, probation and parole. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

CRIMINAL JUSTICE 104
Street Law
The course contains information and activities designed to provide students with the ability to analyze, evaluate and understand legal issues related to business transactions, landlord and tenant relations, marriage and divorce, and constitutional issues like procedural and substantive due process. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

CRIMINAL JUSTICE 114
Administration of Juvenile Justice
Studies in the etiology of juvenile delinquency, analysis of the agencies of control of juvenile behavior, and the roles of courts and correctional institutions in the administration of juvenile justice. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

CRIMINAL JUSTICE 151
Practice of Probation and Parole
Development, philosophy, organization and administration of probation and parole; survey of principles, investigation, supervision, treatment and utilization of community resources to rehabilitate and reintegrate the offender into society. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.
CRIMINAL JUSTICE 155
Introduction to Corrections
This course covers the history and development of corrections at the local, state and federal levels with emphasis on the goals, structure, and operations of correctional institutions. Included are alternatives to incarceration and the future of corrections within the American criminal justice system. This course is equivalent to the Illinois Articulation Initiatives Criminal Justice course numbered CRJ-911. Written assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Grade of C or better in Criminal Justice 102, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/MAJOR: DA TR HW WR

CRIMINAL JUSTICE 170
Scope and Purpose of Private Policing
Study of private policing as an extension of law enforcement in business, industry or mercantile establishments; applications within civil law enforcement; role of the security officer; analysis and development of US public and private policing. Written assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

CRIMINAL JUSTICE 172
Management and Supervision for Private Policing
Study of police supervisory and management principles; concepts of organization, communication, planning and human relationships. Analysis of problems and responsibilities in private security at middle-management; role of security director from behavioral standpoint. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

CRIMINAL JUSTICE 173
Issues and Problems of Private Policing
Analysis of current issues and occupational aspects of private policing; implementation of federal, state and local government recommendations applied to private policing. Written assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

CRIMINAL JUSTICE 174
Law for Private Police
Survey of criminal law and applications for the private police industry; substantial criminal law, rules of evidence, criminal court procedures, court presentation; analysis of current civil court actions relating to private security. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

CRIMINAL JUSTICE 202
Issues in Criminal Justice
Critical issues related to crime and urban society; analysis and evaluation of documents in the field of Criminal Justice. Consideration of newly proposed reforms and the method of implementing these reforms. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

CRIMINAL JUSTICE 210
Industrial Security for Private Policing
Industrial security related to operation of private industrial security force; functions of industrial security; corporate objectives of protection plans and key components of industrial security analyzed as they relate to employee control, industrial espionage, fire prevention and bomb incident management. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

CRIMINAL JUSTICE 211
Introduction to Investigation
Intensive study and analysis in investigative procedures; strategy and tactics of obtaining and analyzing evidence through testimonial evidence, physical evidence and records; reconstructing the crime; preservation of evidence and case preparation. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

CRIMINAL JUSTICE 215
Terrorism
Detailed study of terrorism, counter terrorism, terrorist personalities, and terrorist groups, including types, tactics, and trends on a worldwide scale as well as domestically. This course also examines the issues of prevention, civil liberties, nation building, and homeland security. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

CRIMINAL JUSTICE 221
Police Organization and Management
Police organization as a means by which police goals are achieved. Variations in organizational patterns resulting from differing and changing objectives of police service. Analysis and evaluation of urban law enforcement problems and procedures. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

CRIMINAL JUSTICE 222
Professional Responsibility
Examination of professional ethics and legal responsibilities of the criminal justice practitioner. Legal accountability of criminal justice practitioners; principles and techniques of stress management for maintenance of performance and health. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Consent of Department Chairperson/Coordinator.
3 LECTURE HOURS. 3 CREDIT HOURS.

CRIMINAL JUSTICE 234
Criminal Law and Procedure
Analysis of the nature of substantive criminal law, with emphasis on its historical and philosophical development in the United States. Examination of constitutional rights of the defendant, as these relate to arrest, rules of evidence, and courtroom procedure at pre-trial and trial level. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Consent of Department Chairperson/Coordinator.
3 LECTURE HOURS. 3 CREDIT HOURS.
CRIMINAL JUSTICE 250
Introduction to Criminology
This course covers the basics of criminology, criminological theories, principles and concepts, and the history and development of criminology. Included is the study of society’s reaction to crime and criminals as well as those organizations and agencies designed to combat crime. This course is equivalent to the Illinois Articulation Initiatives Criminal Justice course numbered CRJ-912. Written assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Criminal Justice 102, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

IAI/Major: DA KK OH TR HW WR

CRIMINAL JUSTICE 256
Constitutional Law
Study of the Fourth, Fifth, Sixth, Eighth and Fourteenth Amendments to the United States Constitution, as these govern police and court procedures and the rights of citizens. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Consent of Department Chairperson/Coordinator.
3 LECTURE HOURS. 3 CREDIT HOURS.

CULINARY

CULINARY 700
College Success with Hospitality Perspective
This course introduces students to the expectations of the college community and to the academic skills that promote success during their college career. Through coursework, students will develop strategies to improve their academic and professional skills. Topics will include: note-taking methods, test-taking strategies, computer literacy, time management, stress management, problem-solving and critical thinking, career exploration and presentation skills. Students will also learn the importance of taking personal responsibility for their academic and career choices. Topics will be approached from a variety of interdisciplinary perspectives that focus on connecting individuals to their local and global communities in the culinary and hospitality industries. Through assignments that integrate community engagement, service learning, and hospitality and/or on-campus service projects, students will make connections between their coursework and their lives. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 100 and Reading 125 and Mathematics 98.
3 LECTURE HOURS 3 CREDIT HOURS.

CULINARY 701
Introduction to Food Service I
Introduction to the food service industry (history, organization and future challenges); career opportunities; standards of professionalism; instruction in principles and procedures of basic equipment and its use; basic food and kitchen safety; beginning fundamentals of cooking. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 100 and Reading 125 and Mathematics 98; Concurrent enrollment in Culinary 703, 705, and 708.
3 LECTURE HOURS. 3 CREDIT HOURS.

CULINARY 703
Food Sanitation and Safety I
Topics will include prevention of food-borne illness, HACCP procedures, facility sanitation, legal guidelines, kitchen safety, and safe food preparation, storing, and reheating guidelines. The National Restaurant Association ServSafe® examination will be a part of this course. Students who pass the exam will receive the ServSafe® certification. Writing assignments, as appropriate to the disciplines, are part of the course.
Prerequisite(s): Eligibility for English 100 and Reading 125 and Mathematics 98; Concurrent enrollment in Culinary 701, 705, and 708.
1–2 LECTURE HOURS. 1–2 CREDIT HOURS.

CULINARY 705
Chef’s Training I: Section A
Designed to give students the opportunity to investigate and assess culinary arts as a possible career goal. It covers basic mise en place including knife skills, proper station set-up, classical cooking terminology, standard cooking methods, stock preparation, sauce preparation and heat transfer methods. Develops the basic skills necessary for employment as food service professionals, emphasizing professionalism and teamwork as a basic element for success. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 100, Reading 125 and Mathematics 98; Concurrent enrollment in Culinary 701, 703 and 708.
1 LECTURE HOUR. 9 LAB HOURS. 4 CREDIT HOURS.

CULINARY 706
Chef’s Training II: Section A
Introduces students to Garde Manager-cold kitchen techniques including production of soups, salads, sandwiches, sausages, terrines, pates, galantines, cheese, hors d’oeuvres, canapes, appetizers, condiments, pickles and breakfast items. Includes sanitation as it applied to cold food preparation, the equipment in the Garde Manager kitchen and garnishes, both individual plate presentation and buffet presentation. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Culinary 701, 703, 705, and 708 and concurrent enrollment in Culinary 714 and Culinary 709, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

CULINARY 707
Food Service Technology
Introduces kitchen calculations, including recipe costing and conversion, determining revenue and food cost, menu planning and pricing, cost control in a food service environment, and an overview of the use of computers in a professional kitchen. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 100, Reading 125, and Mathematics 98; Concurrent enrollment in Culinary 721 and Culinary 723, or consent of Department Chairperson.
4 LECTURE HOURS. 4 CREDIT HOURS.

CULINARY 708
Chef’s Training I: Section B
Covers basic mise en place including knife skills, proper station set-up, classical cooking terminology, standard cooking methods, stock preparation, sauce preparation and heat transfer methods. Develops the basic skills necessary for employment as a food service professionals. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 100, Reading 125 and Mathematics 98; Concurrent enrollment in Culinary 701, 703, 705, and 708.
1 LECTURE HOUR. 9 LAB HOURS. 4 CREDIT HOURS.

CULINARY 709
Chef’s Training II: Section B
This course is designed to introduce students to Garde Manager-cold kitchen techniques including production of soups, salads, sandwiches, sausages, terrines, pates, galantines, cheese, hors d’oeuvres, canapes, appetizers, condiments, pickles and breakfast items. The student will not only be introduced to the production of these items but will also become familiar with sanitation as it applies to cold food preparation, the equipment in the Garde Manager kitchen and garnishes, both individual plate presentation and buffet presentations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Culinary 701, 703, 705, and 708 or consent of Department Chairperson; concurrent enrollment in Culinary 714 and Culinary 709.
1 LECTURE HOUR. 9 LAB HOURS. 4 CREDIT HOURS.
CULINARY 714
Nutrition for Chefs
This course provides the basic principles of nutrition and their relation to food preparation. Nutrition's role in culinary techniques, ingredient selection, flavor development and creation of healthful menu options will be applied in lecture and experiential learning. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Culinary 701, 703, 705 and 708 or consent of Department Chairperson.
4 LECTURE HOURS. 4 CREDIT HOURS.

CULINARY 721
Entrée Preparation
Study of principles, methods and techniques involved in the preparation of international cuisines with an emphasis on specialized cooking methods and flavor profiles; practical experience in banquet and buffet production with an emphasis on presentation techniques and design; proper and safe use of tools, materials and quantity food service equipment. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Culinary 701, 703, 705, and 708 or consent of Department Chairperson. Concurrent enrollment in Culinary 707 and 723.
2 LECTURE HOURS. 15 LAB HOURS. 7 CREDIT HOURS.

CULINARY 722
Entrée Sanitation and Safety
Upon completion, students will be able to perform advanced techniques of safety and sanitation as they relate to the main menu items. Writing assignments, as appropriate to the discipline, are part of the course.
3 LAB HOURS. 1 CREDIT HOUR.

CULINARY 723
Food Service Management
Instruction in food service management and executive responsibility in all facets of the food service industry. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 100, Reading 125, and Mathematics 98 or consent of Department Chairperson. Concurrent enrollment in Culinary 707 and 721.
4 LECTURE HOURS. 3 LAB HOURS. 5 CREDIT HOURS.

CULINARY 728
Advanced Cooking
Study of principles, methods and techniques involved in quantity preparation of appetizers, sandwiches, salads, soups, stocks, sauces, meats, seafood, poultry, eggs, milk, cheese, bakery products, desserts and beverages; practical experience in proper and safe use of tools, materials and quantity food-service equipment. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Culinary 701, 703, 705, and 708, or consent of Department Chairperson.
1 LECTURE HOUR. 18 LAB HOURS. 7 CREDIT HOURS.

DENTAL ASSISTING 101
Dental Medical Emergencies
This course is designed to introduce students to the signs, symptoms, and treatment of medical emergencies in the dental office. This course introduces students to the medical history and patient assessment. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, current and valid CPR certification, up-to-date vaccination history and/or provider documentation of exception and admission into the Dental Assisting Program Plan 399.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

DENTAL ASSISTING 102
Dental Assisting Procedures I
This course is designed to provide students with the basic concepts, procedures, and current regulatory mandates related to infection control and the management of hazardous material for the dental team. This course also introduces study of dental materials dealing with the science of development, properties, manipulation, care, evolution and evaluation of materials. It introduces students to basic equipment, instruments, and procedures associated with the dental office, with emphasis placed on four-handed dentistry. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, current and valid CPR certification, up-to-date vaccination history and/or provider documentation of exception and admission into the Dental Assisting Program Plan 399.
3 LECTURE HOURS. 4 LAB HOURS. 5 CREDIT HOURS.

DENTAL ASSISTING 103
Dental Assisting Procedures II
This course is designed to increase skill competency taught in DENTAL 102 relating to operative and surgical dentistry. Patient care, management, and diagnosis and treatment planning will be presented. This course also incorporates more advanced study of dental materials dealing with the science of development, properties, manipulation care, evolution and evaluation of materials. It introduces students to more dental specialties and increase chair-side competency.
Prerequisite(s): Grade of C or better in Dental Assisting 102 and consent of Department Chairperson.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

DENTAL ASSISTING 104
Dental Radiography I
This course provides an introduction to dental radiography. The material covered includes basic theory regarding radiography, its equipment and equipment usage, the effects and hazards of radiation, and operator/patient protection. The types of exposures included in this course include bitewings and periapicals. This course provides students with the technical knowledge needed for positioning, exposing, processing, mounting and evaluating dental radiographs. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, current and valid CPR certification, Up-to-date vaccination history and/or provider documentation of exception and admission into the Dental Assisting Program Plan 399.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

DENTAL ASSISTING 105
Dental Radiography II
Utilizing the basic knowledge and skills emphasized in DENTAL 104, this course increases the skill competency levels to prepare diagnostically acceptable intraoral radiographs using different techniques. In addition, this course will encompass the techniques for exposing radiographs on children, edentulous patients, and other special populations. The students will receive practical experience exposing radiographs on mannequins and patients. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Dental Assisting 104 and consent of Department Chairperson.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.
DENTAL ASSISTING 106
Head and Neck Anatomy for Dental Assistant
Head and neck anatomy is designed to increase students understanding of the major anatomical landmarks of the body, head and neck. Covered topics include: nervation, musculature skeleton, and blood supply and function. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, current and valid CPR certification, up-to-date vaccination history and/or provider documentation of exception and admission into the Dental Assisting Program Plan 399.
3 LECTURE HOURS. 3 CREDIT HOURS.

DENTAL ASSISTING 107
Prevention
A review of the etiology of dental care, and a study of dental plaques and periodontal disease with emphasis on prevention and control. The role of the dental assistant in regards to oral health education will be the primary focus. The basic content, including proper nutrition, and oral hygiene, directs students toward the ability to practice their communication skills and nutritional counseling skills as they relate to the preventive dental health education. The student will receive practical experience for the delivery of dental health education. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Dental Assisting 104 and consent of Department Chairperson.
2 LECTURE HOURS. 3 LAB HOURS. 3 CREDIT HOURS.

DENTAL ASSISTING 109
Dental Office Procedures
This course introduces students to the business skills needed to function successfully as a dental secretary/office manager will be explored. Written skills will be stressed and practiced, and proper bookkeeping will be explained and practiced. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Dental Assisting 104 and consent of Department Chairperson.
1 LECTURE HOUR. 1 CREDIT HOUR.

DENTAL ASSISTING 112
Dental Assisting Externship
A clinical practice learning experience to increase dental assisting skill to job-entry level competency. Clinical assignments in various dental specialty practices, as well as general dentistry practices will provide opportunities for advance skill development in chair side assisting techniques, clinical support, and business office procedures. Students will demonstrate effective communications skills. Ethical, legal, and personal responsibilities, testing and certification requirements, employer-employee relationships, job opportunities, professional development and continuing education and current techniques/equipment will be discussed in group settings. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Dental Assisting 104 and consent of Department Chairperson.
1 LECTURE HOUR. 15 LAB HOURS. 5 CREDIT HOURS.

DENTAL HYGIENE 110
Oral Microbiology and Immunology
Introduction to the general principles of microbiology, including the morphology, physiology, and classification of bacteria and related organisms. Basic concepts of immunology, especially in relationship to oral diseases are covered. Specific attention is given to oral microbial infections. Emphasizes concepts of applied microbiology as it pertains to dental hygiene practice. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Dental Hygiene Program/Plan 222, and a grade of C or better in Biology 226 and 227, and Chemistry 121.
2 LECTURE HOURS. 2 CREDIT HOURS.

DENTAL HYGIENE 112
Concepts of Preventive Therapy I
Orientation to the profession of dental hygiene and the role of the dental hygienist in the educational and therapeutic oral health services provided in the development of an individualized plaque control program. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Dental Hygiene Program/Plan 222.
2 LECTURE HOURS. 2 CREDIT HOURS.

DENTAL HYGIENE 121
Principles of Dental Hygiene I Lecture
Fundamental theories and skills necessary to perform oral prophylaxis treatment. Principles of disease transmission, infection control, instrumentation, and the examining and charting of oral conditions will be presented. Concepts and procedures will be systematically presented through the lecture component and applied in the clinical laboratory sessions. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Dental Hygiene Program/Plan 222 and grade of C or better in Dental Hygiene 110 and 112 and consent of Department Chairperson.
2 LECTURE HOURS. 2 CREDIT HOURS.

DENTAL HYGIENE 122
Principles of Dental Hygiene II Lecture
Systematic presentation of additional theories and skills necessary to perform oral prophylaxes and supplementary techniques. Emphasis will be placed on additional principles of instrumentation, instrument sharpening techniques, polishing technique, use of fluorides, taking alginate impressions, comprehensive periodontal evaluation, dental and periodontal charting, blood pressure measurement, medical emergencies in the dental office, classification of dental caries, use of phase microscope, and dental hygiene planning. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Dental Hygiene Program/Plan 222 and grade of C or better in Dental Hygiene 121 and 123.
2 LECTURE HOURS. 2 CREDIT HOURS.

DENTAL HYGIENE 123
Principles of Dental Hygiene I Lab
Companion course designed for the application of concepts presented in Dental Hygiene 121. Practice provided in the pre-clinical laboratory setting. Instrumentation skills are performed on typodonts and on student partners to a specified standard of competency. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Dental Hygiene Program/Plan 222 and grade of C or better in Dental Hygiene 112.
6 LAB HOURS. 2 CREDIT HOURS.

DENTAL HYGIENE 124
Principles of Dental Hygiene II Lab
Companion course designed for the application of concepts presented in Dental Hygiene 122 within the laboratory/clinical setting. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Dental Hygiene Program/Plan 222 and grade of C or better in Dental Hygiene 121, 122 and 123.
9 LAB HOURS. 3 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS

Credit Courses

DENTAL HYGIENE 125
Nutrition and Biochemistry
An introductory study to provide an integrated background of the fundamental principles of general biochemistry, metabolism, oral biochemistry and nutrition. Particular reference is made to the molecular components of cells, their chemical processes, the biological basis of dental disease, and the clinical application of nutritional theory on the counseling of dental patients. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Dental Hygiene Program/Plan 222 and grade of C or better in Chemistry 121 and consent of Department Chairperson.
2 LECTURE HOURS. 2 CREDIT HOURS.

DENTAL HYGIENE 126
Dental Radiology
The application of the fundamental principles of radiology in the study of teeth and surrounding structures. Provides pre-clinical laboratory and beginning clinical experience in exposing, processing, mounting, and basic interpretation of dental radiographs. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Dental Hygiene 131 and 133, and admission to the Dental Hygiene program/plan 222 or consent of Department Chair.
2 LECTURE HOURS. 2 CREDIT HOURS.

DENTAL HYGIENE 128
General and Oral Pathology
A survey of general and oral pathology with emphasis on diseases and their manifestations in the oral cavity. Recognition and detection of such deviations from normal is also studied. Writing assignments, as appropriate to the discipline, the course.
Prerequisite(s): Admission to the Dental Hygiene Program/Plan 222 and grade of C or better in Dental Hygiene 131 and 133.
2 LECTURE HOURS. 2 CREDIT HOURS.

DENTAL HYGIENE 130
Dental Materials
Introduces students to the basic concepts of material science and physical properties while gaining practical experience in the manipulation of restorative materials used in dental hygiene practice. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Dental Hygiene Program/Plan 222 and consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

DENTAL HYGIENE 131
Oral Structures and Function
Introduction to the microscopic, embryologic and morphologic characteristics of the cells, tissues and structures associated with the oral cavity. Emphasis is placed on the development, structure and function of periodontal tissues, external and internal morphology of the teeth and basic concepts of occlusion. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Dental Hygiene Program/Plan 222 and grade of C or better in Biology 226 and 227, and consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

DENTAL HYGIENE 133
Head and Neck Anatomy
This course consists of lectures, readings, study of models and prosection that will introduce students to the gross anatomical structure and function of the human head and neck including the face, oral cavity, and deep structure of the face. Clinical implications and correlations will be discussed. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Dental Hygiene Program/Plan 222 and grade of C or better in Biology 226 and 227, and consent of Department Chairperson.
2 LECTURE HOURS. 2 CREDIT HOURS.

DENTAL HYGIENE 135
Concepts of Preventive Therapy II
Continuation of Preventive Therapy I with special emphasis on the psychology of motivation, special patient care, and specific population groups. Procedures will be introduced for developing and presenting dental health educational materials primarily to children in the school setting. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Dental Hygiene Program/Plan 222 and grade of C or better in Dental Hygiene 112 and consent of Department Chairperson.
1 LECTURE HOUR. 1 CREDIT HOUR.

DENTAL HYGIENE 200
Summer Clinic
A continuation of dental hygiene theory and clinical concepts applicable to dental hygiene practice. Emphasis will be placed upon specific topics pertinent to acquiring clinical expertise. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Dental Hygiene 122 and 124.
1 LECTURE HOUR. 6 LAB HOURS. 3 CREDIT HOURS.

DENTAL HYGIENE 202
Critique of Dental Literature
Introduction to the fundamental concepts and skills needed to understand, interpret and critique professional literature. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Dental Hygiene Program/Plan and consent of Department Chairperson.
1 LECTURE HOUR. 1 CREDIT HOUR.

DENTAL HYGIENE 233
Expanded Functions
Principles and techniques utilized in comprehensive dental hygiene care. Instruction will include the mixing and placement of amalgam, composite, and other restorative materials. Special attention is paid to pain management with the use of local anesthesia and conscious sedation agents commonly utilized in the dental treatment setting. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Dental Hygiene Program/Plan 222 and grade of C or better in Dental Hygiene 131 and 133.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

DENTAL HYGIENE 235
Community Dental Health I
An introduction to the current principles and issues in community health and their relationship to the delivery of dental care to the public sector. The role of the dental hygienist in the community disease prevention and health promotion activities will be emphasized. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Dental Hygiene Program/Plan and consent of Department Chairperson.
2 LECTURE HOURS. 2 CREDIT HOURS.

DENTAL HYGIENE 241
Dental Pharmacology
This course includes a study of principles of pharmacology and understanding of the characteristics of major drug groups and their utilization in medicine and dentistry. Emphasis is placed on developing an understanding of these drugs used for medical treatment which require treatment modification by the dentist or dental hygienist and those drugs used in dental practice. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Biology 227 and Dental Hygiene 121, 123 and 128.
2 LECTURE HOURS. 2 CREDIT HOURS.
DENTAL HYGIENE 243
Periodontics
A lecture course which includes the etiology, classification, symptomatology, diagnosis, treatment, and prognosis of periodontal disease. Emphasis will be placed on the phases of periodontics pertinent to a dental hygienist. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Dental Hygiene 121.
2 LECTURE HOURS. 2 CREDIT HOURS.

DENTAL HYGIENE 250
Oral Diagnosis
An overview course given as an introduction to the art of differential diagnosis as it relates to lesions occurring in and about the oral cavity. Attention is directed to the discussion of pathology, history, radiographic and clinical appearance, prognosis and treatment. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Dental Hygiene Program/Plan 222, and consent of Department Chairperson.
2 LECTURE HOURS. 2 CREDIT HOURS.

DENTAL HYGIENE 251
Clinical Dental Hygiene I
Enrichment of skills in performing oral health services in the clinical setting. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Dental Hygiene 200.
1 LECTURE HOUR. 12 LAB HOURS. 5 CREDIT HOURS.

DENTAL HYGIENE 252
Clinical Dental Hygiene II
Enrichment of skills in performing oral health services in the clinical setting. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Dental Hygiene 251.
1 LECTURE HOUR. 12 LAB HOURS. 5 CREDIT HOURS.

DENTAL HYGIENE 254
Dental Specialties
This course is designed to acquaint the dental hygiene student with the various dental specialties and current trends in dental treatment. Guest lecturers, who are specialists in the field, will provide pertinent information and in some cases, supervise practical experiences during clinical rotation. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Dental Hygiene Program/Plan 222, and consent of Department Chairperson.
1 LECTURE HOUR. 1 CREDIT HOUR.

DENTAL HYGIENE 256
Community Dental Health II
A continuation of Dental Hygiene 235 developing, implementing and evaluating a community dental health program; utilization of healthcare services, epidemiology of dental disease, healthcare financing and healthcare delivery will also be discussed. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Dental Hygiene 235.
2 LAB HOURS. 1 CREDIT HOUR.

DENTAL HYGIENE 258
Ethics and Jurisprudence
Provides students with information on the personal and professional aspects of dental hygiene practice. Topics of discussion include: interpersonal and inter-professional communication, licensure and credentialing, elements of practice management, employment opportunities and strategies, ethics, legal responsibilities, and the professional organization. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Dental Hygiene Program/Plan 222 and consent of Department Chairperson.
2 LECTURE HOURS. 2 CREDIT HOURS.

DENTAL HYGIENE 260
Senior Seminar
The course is a review of all material found on the national, regional and state dental hygiene board examinations. The course is designed to prepare students for the Dental Hygiene Board examinations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Dental Hygiene Program/Plan 222 and consent of Department Chairperson.
2 LECTURE HOURS. 2 CREDIT HOURS.

DIAGNOSTIC MEDICAL SONOGRAPHY

DIAGNOSTIC MEDICAL SONOGRAPHY 206
Physics of Medical Sonography
The study of the physical principles of diagnostic medical sonography is the major emphasis of this course. Application of modern sonography equipment for the conduction of various procedures in highlighted. The nature, production, propagation and attenuation of sonographic waves will also be presented. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

LOGISTIC/TRANSPORTATION/DISTRIBUTION 111
Introduction to Diesel Technology
This course introduces students to the fundamentals of basic, personal and shop safety industry requirements for Diesel Tech. In this course students will learn to identify, use and care for hand and power tools commonly found in the diesel repair industry. In this course students will focus on the basic components and systems found within the Diesel industry. Students will gain an understanding of the basic movement and parking procedures of vehicles and equipment. They will also learn about the history of the industry and explore career and employment opportunities in dealerships and independent shops, from maintenance to major overhaul. Additional topics of discussion include hazardous material handling and storage. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101 and Mathematics 107.
3 CREDIT HOURS.

LOGISTIC/TRANSPORTATION/DISTRIBUTION 112
Diesel Electrical Systems I
This course will include electrical safety practices; tool use; connecting and disconnecting techniques; direct current symbols, components, and schematics; principles of DC voltage and current; Ohm’s Law; and troubleshoot, repairing and calibration of electrical/electronic systems. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101 and Mathematics 107. Grade of C or better in Logistic/Transportation/Distribution 111 and 113.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS

Credit Courses

LOGISTIC/TRANSPORTATION/DISTRIBUTION 113
Introduction to Diesel Engine Construction
In this course students will learn the fundamentals of engine operation, diagnosis and repair including lubrication systems and cooling systems. Emphasis on overhaul of selected engines, identification and inspection, measurements, disassembly, repair and reassembly of the engine. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101 and Mathematics 107.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

LOGISTIC/TRANSPORTATION/DISTRIBUTION 114
Diesel Engine Construction I
This course will provide students with concepts and skills required for engine construction, tune-up and troubleshooting procedures of diesel engines. Students will gain an understanding of alphanumeric coding and the integration of additional foundational skills required to identify and repair diesel engines. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101 and Mathematics 107. Grade of C or better in Logistic/Transportation/Distribution 111 and 113.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

LOGISTIC/TRANSPORTATION/DISTRIBUTION 115
Suspension and Steering
This course will introduce students to the basic fundamental skills, technology, and service of automotive suspension and steering systems. Areas of study include: diagnosis and repair of steering systems, diagnosis and repair of front suspension systems, diagnosis and repair of rear suspension systems, miscellaneous suspension and steering systems, and diagnosis and adjustment of wheel alignment. Group and individual activities engage students in problem-solving techniques and manipulative skills while completing industry related activities. Safety instruction is integrated into all activities. Students will also learn to identify and describe various steering systems used on diesel-powered vehicles and have an opportunity to inspect, diagnose, and repair steering problems. They will make needed repairs on the suspension system and perform wheel alignments. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101 and Mathematics 107. Grade of C or better in Logistic/Transportation/Distribution 111 and 113.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

LOGISTIC/TRANSPORTATION/DISTRIBUTION 116
Diesel Brakes
This course is designed to provide students with an introduction to the basic principles of brake systems of diesel powered equipment. Emphasis is on maintenance, repairs and troubleshooting. The student will apply knowledge and understanding of the basic theory and operation of the brake systems, diagnose brake components for wear and usability, repair brake components by rebuilding or replacing parts, and adjust brake components. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101 and Mathematics 107. Grade of C or better in Logistic/Transportation/Distribution 111, 112, 113, 114, 115, and Physical Science 112.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

LOGISTIC/TRANSPORTATION/DISTRIBUTION 209
Diesel Electrical Systems II
This course will include the study of DC resistance and conductors, principles of DC circuits, fundamentals of alternating current and semiconductors, basic electronic circuits, and digital electronics. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101, Mathematics 107, Logistic/Transportation/Distribution 111, 112, 113, 114, and 115, and Physical Science 112.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

LOGISTIC/TRANSPORTATION/DISTRIBUTION 211
Diesel Preventative Maintenance
This course introduces students to the knowledge base and technical skills for all courses in the diesel preventative maintenance and inspection concentration. Areas of study include engine system maintenance, under hood and cab maintenance, electrical/electronic systems, frame and chassis maintenance. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101, Mathematics 107, Logistic/Transportation/Distribution 111, 112, 113, 114, and 115, and Physical Science 112.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

LOGISTIC/TRANSPORTATION/DISTRIBUTION 213
Diesel Engine Construction II
This course will provide students with concepts and skills required for engine construction, advanced diagnostics of diesel engines, rebuilding and testing, repair of injection pumps and governors; troubleshooting engines and fuel system failures as well as the operation and adjustment of Cummins Pressure-Time System. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101, Mathematics 107, Logistic/Transportation/Distribution 111, 112, 113, 114, and 115, and Physical Science 112.
3 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

LOGISTIC/TRANSPORTATION/DISTRIBUTION 214
Emission Controls
This course will provide students with in-depth study of how technology is used in the trucking industry. Current emissions control systems operations, troubleshooting and repair will be thoroughly addressed. Regulatory compliance, electronic vehicle management systems diagnostics, testing and adjustments will be discussed, along with hands on electronic diagnostic systems testing. Various OEM electronic fuel systems and diagnostic software will also be discussed and used. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101, Mathematics 107, Logistic/Transportation/Distribution 111, 112, 113, 114, 115, 116, 209, 211, and 213, and Physical Science 112.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

LOGISTIC/TRANSPORTATION/DISTRIBUTION 215
Diesel Engine Performance
This course will provide students with theoretical and practical applications needed for the operation, servicing, and troubleshooting of various types of diesel engines. It will include the study of diesel fuels, diesel fuel supply systems, mechanical and electronic injection systems, computerized engine controls, as well as soot particle reductions. Diagnostic tools usage and problem-solving to enhance engine performance are also incorporated in to the class. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101, Mathematics 107, Logistic/Transportation/Distribution 111, 112, 113, 114, 115, 116, 209, 211, and 213, and Physical Science 112.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

LOGISTIC/TRANSPORTATION/DISTRIBUTION 216
Heavy Duty Drives I (Manual)
This course introduces students to power train systems used on medium/heavy duty trucks. Topics include: introduction to power trains, clutches and flywheels, powertrain electronic systems, auto-shift mechanical transmissions, power take-offs, trucks drive lines, differentials and final drives, torque converters, and automatic transmissions. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101, Mathematics 107, Logistic/Transportation/Distribution 111, 112, 113, 114, 115, 116, 209, 211, and 213, and Physical Science 112.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS
Credit Courses

LOGISTIC/TRANSPORTATION/DISTRIBUTION 217
Heavy Duty Drives II (Automatic)
This course will provide students with theoretical and practical applications of power train systems used on medium and heavy duty trucks. Areas of focus will include power take-offs, truck drive lines, introduction to power trains, clutches and flywheels, powertrain electronic systems, differentials and final drives, torque converters and automatic transmissions. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101, Mathematics 107, Logistic/Transportation/ Distribution 111, 112, 113, 114, 115, 116, 209, 211, 213, 214, 215, 216, and 218, and Physical Science 112.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

LOGISTIC/TRANSPORTATION/DISTRIBUTION 218
Heating and Air Conditioning
This course introduces systems used in medium/heavy duty trucks and heavy equipment. Classroom instruction on HVAC theory and operation along with local, state, and federal regulations are strongly emphasized. Topics include: HVAC safety, HVAC system theory and operation, A/C system component diagnosis and repair, HVAC system diagnosis and repair, HVAC operating systems and related controls, and refrigeration recovery, recycling, and handling procedures. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101, Mathematics 107, Logistic/Transportation/ Distribution 111, 112, 113, 114, 115, 116, 209, 211, and 213, and Physical Science 112.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

LOGISTIC/TRANSPORTATION/DISTRIBUTION 219
Hydraulic Systems
This course will provide students with theoretical and practical applications of hydraulic principles into mobile hydraulic circuits. Students will gain an enhanced learning of basic hydraulic components including assembly and disassembly of valves, pumps and cylinders; servicing, diagnosing, and preventive maintenance procedures will be performed on trucks and heavy equipment. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101, Mathematics 107, Logistic/Transportation/ Distribution 111, 112, 113, 114, 115, 116, 209, 211, 213, 214, 215, 216, and 218, and Physical Science 112.
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

LOGISTIC/TRANSPORTATION/DISTRIBUTION 220
Advanced Diagnostics
The Advanced Diagnostics course will challenge students and expand upon skills and knowledge learned in previous Diesel Technology-related courses. Students will perform diagnostic testing, and engage in problem-solving techniques and replicate real-world diesel maintenance and repair conditions. Topics include diagnosis and repair of emission systems, computerized engine performance systems, and advanced low and high-pressure fuel systems; proper use of advanced engine performance diagnostic equipment will be addressed. Prepares students for ASE A9 certification test. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101, Mathematics 107, Logistic/Transportation/ Distribution 111, 112, 113, 114, 115, 116, 209, 211, 213, 214, 215, 216, and 218, and Physical Science 112.
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

DIET TECHNICIAN

DIET TECHNICIAN 104
Fundamentals of Nutrition
Nutrition and its role in healthcare and maintenance. Study of the major nutrients in foods and how the body uses them. Nutrient composition of foods, the food exchange list system, balanced diets, the basic four food groups, ideal body weights, energy and protein requirements. Recommended daily allowances for nutrients, principles of meal planning for normal nutrition, dietary guidelines, nutrient calculations and analysis. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21–36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

DIGITAL MULTIMEDIA DESIGN

DIGITAL MULTIMEDIA DESIGN 105
Two-Dimensional Animation
This is a studio course that investigates the principles, practices, and philosophy of both traditional and 2D digital animation. Students will develop storyboards, drawings, flip books, and short computer animations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Art 131 recommended or taken concurrently, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

DIGITAL MULTIMEDIA DESIGN 115
Digital Audio
Students will be exposed to recording, editing, mixing, sound design techniques and concepts as they apply post-production and media design. The use of professional sound and editing techniques will be emphasized. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, Computer Information Systems 120 or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

DIGITAL MULTIMEDIA DESIGN 121
Three-Dimensional Modeling
This is a studio course for which primary orientation is the development of students' portfolio. The course will introduce students to 3D graphics, principles of perspective and basic principles of 3D modeling. The theory of 3D on the computer will be explored. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101 and Digital Multimedia Design 168, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

DIGITAL MULTIMEDIA DESIGN 130
Principles of Design and Development for Digital Media
Introduction to fundamental design and development principles within the context of digital media production. The course covers principles of design, color theory, typography, information architecture, and layout as it applies to digital media. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, Computer Information Systems 120 or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.
DIGITAL MULTIMEDIA DESIGN 131
Beginning Multimedia Design and Development
This course is an introduction to multimedia authoring using industry standard web authoring software applications. Students will use industry standard vector and WYSIWYG development software to design and develop web and desktop applications. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, Digital Multimedia Design 130, and Digital Multimedia Design 168, or consent of Department Chairperson.
6 LAB HOURS. 3 CREDIT HOURS.

DIGITAL MULTIMEDIA DESIGN 168
Computer Art I
Students will be introduced to the concepts of computer art using representative programs and concepts from the profession. Students will be introduced to both raster paint/photo retouching programs and professional quality vector drawing programs. Students will also be introduced to the history of computer art. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or grade of C or better in English 100, or consent of Department Chairperson.
6 LAB HOURS. 3 CREDIT HOURS.

DIGITAL MULTIMEDIA DESIGN 179
Digital Video I
Students will learn digital camcorder operation, basic shooting and lighting techniques, basic editing, storyboard creation and video production planning. The history, theory and criticism of video will be discussed. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, Computer Information Systems 120 or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

DIGITAL MULTIMEDIA DESIGN 205
Advanced Animation
This studio course is a continuation of the exploration and development of 2D animation. Students will develop observational and storytelling skills, utilizing and experimental animation techniques, including stop motion, live-action compositing, cutouts, time-lapse, and drawn animation. Students will explore the use of animation as a creative tool, art form, and distinct personal language through character development, timing, movement study, camera movement, observation and soundtrack implementation. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101, working knowledge of Macintosh platform, Digital Multimedia Design 105 required, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

DIGITAL MULTIMEDIA DESIGN 221
Three-Dimensional Animation
This is a studio course whose primary orientation is the development of students’ portfolio. The course will develop students understanding of 3D graphics, 3D dimensional modeling with an emphasis on movement, using systems and inverse kinematics and the use of constraints and bones. Advanced modeling will be used such as skins and mesh deformation. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Digital Multimedia Design 121 and 168, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

DIGITAL MULTIMEDIA DESIGN 231
Intermediate Multimedia Design and Development
This course builds upon the technical and design skills learned in DMD 130 and 131. Focus in on design skills, intermediate programming skills, basic concepts of object oriented scripting, open source libraries, and designing for mobile devices. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Digital Multimedia Design 131, or consent of Department Chairperson.
6 LAB HOURS. 3 CREDIT HOURS.

DIGITAL MULTIMEDIA DESIGN 233
Advanced Multimedia Design and Development
This course builds upon the technical and design skills learned in DMD 231. Focus is placed on advanced scripting and programming skills along with team-based projects. Students will develop an understanding of team roles, time management, and legal and technical considerations for completing a project. Students work in teams to design and complete a client-based web site. This will provide an opportunity to plan, design, develop, and implement solutions for web/multimedia projects requiring students to analyze, integrate, and synthesize knowledge acquired from previous work. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Digital Multimedia Design 231, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

DIGITAL MULTIMEDIA DESIGN 268
Advanced Computer Art
This studio course develops an understanding of and skills in computer art at an advanced level. This course builds upon the basic skills developed in DMD 168 and explores more advanced features in both bitmap and vector painting and drawing programs. Students will learn to utilize filters, layers, channels, gradient mesh, advanced type techniques, color correction, and surface and texture creation. This course will also explore preparing images for the web and using vector and bitmap programs in tandem. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Digital Multimedia Design 168, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

DIGITAL MULTIMEDIA DESIGN 279
Digital Video II
Builds upon the foundation of Digital Video I course. Students will learn advanced camera, editing, lighting, special effects, and audio techniques. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Digital Multimedia Design 115 or Digital Multimedia Design 179, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

DIGITAL MULTIMEDIA DESIGN 299
Portfolio and Professional Practice Seminar
Students develop an online portfolio using technical and design skills learned in prior multimedia classes. Professional issues related to the business of interactive design will be covered. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Digital Multimedia Design 130, 131, 231, and 233, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.
ECONOMICS

ECONOMICS 133
Consumer Economics
Principles of intelligent buying, investments, shelter, insurance, and basic commodities; development of consumer cooperative movement, advertising, fraud, monopoly, and competition, and role of government in promoting consumer welfare. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

ECONOMICS 201
Principles of Economics I
Covers macro or income analysis; includes money, income determination, public finance, and economic development. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

ECONOMICS 202
Principles of Economics II
Covers micro or price analysis; includes the markets, production function, income distribution, and international trade. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

ECONOMICS 203
Current Economic Problems
Representative contemporary economic problems and possible solutions. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Economics 201 or Social Science 102, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

ECONOMICS 204
Money and Banking
Economic history and operation of US monetary and banking systems; business cycles, international exchange, Federal Reserve System, and use of national fiscal policies as instruments of economic control. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Economics 201 and 202, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

EDUCATION

EDUCATION 101
Introduction to Education
This course will provide an introduction to teaching as a profession in the American education system. The course offers a variety of perspectives on education including historical, philosophical, social, legal, and ethical issues in a diverse society. It includes organizational structure and school governance. A field experience is required. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

EDUCATION 102
Using Technology in the Class
Prepare pre-service and in-service teachers to integrate technology, including computer and multimedia software, into pre-K through 12th grade classes. Surveys concepts of technology use, provides hands-on experience with hardware and software, and addresses human, social, and ethical issues related to the use of technology in education. Meets national and state technology standards. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

EDUCATION 103
Students with Disabilities in School
A survey course that presents the historical, philosophical and legal foundations of special education, as well as an overview of the characteristics of individuals with disabilities, the Individual with Disabilities Act (IDEA) and the services that are provided under this act, and the diversity of exceptional populations with implications for service delivery. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Education 101 or Psychology 207.
3 LECTURE HOURS. 3 CREDIT HOURS.

EDUCATION 203
Educational Psychology
Assessment of aptitudes, capacities, interests, and achievements; and the educational implications of physical, emotional and social development. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Psychology 201, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

EDUCATION 205
Introduction to Teacher Assistant
This course is one of the requirements of the Teacher’s Assistant certificate program. It is designed to provide an introduction to the rules and duties, the responsibilities and expectations of the teacher’s assistant in the Chicago Public Schools (CPS). The course includes an orientation to the profession of teaching; the role of the teacher and the teacher’s assistant; current trends and problems in education, particularly in the CPS. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
EDUCATION 208
School Leadership and Support Professionals
This course is one of the requirements of the Teaching, Leadership and Support Professionals AAS degree Program/Plan 055 and the Advanced Certificate Program/Plan 057. This course will examine the administrative process at educational institutions. Emphasis will be on the role of the principal and staff relations. Functions in an elementary/secondary schools and community colleges will be highlighted. In addition, school finance, planning, personnel, organizational structure, governance, and problem-solving in elementary/secondary and community colleges will be explored. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.

4 LECTURE HOURS. 4 CREDIT HOURS.

EDUCATION 209
Observation/Seminar Elementary Education
Provides authentic experiences and knowledge which impact teaching in the elementary school classroom. Students will evaluate and design unit and lesson plans based on Illinois Learning Standards (ILS); review curriculum and instructional materials; shadow an entry-level elementary school leader and education support personnel; maintain an observation log; maintain a reflective journal with daily entries; and complete written reports on topics relevant to teaching and leadership support in elementary schools. This experience will be evaluated under the guidance of the classroom teacher and monitored by the college instructor. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Education 208.

2 LECTURE HOURS. 20 LAB HOURS. 6 CREDIT HOURS.

EDUCATION 210
Observation/Seminar Secondary Education
Provides authentic experiences and knowledge which impact teaching in the elementary school classroom. Students will evaluate and design unit and lesson plans based on Illinois Learning Standards (ILS); review curriculum and instructional materials; shadow an entry-level secondary school leader and educate support personnel; maintain an observation log; maintain a reflective journal with daily entries; and complete written reports on topics relevant to teaching and leadership support in secondary schools. This experience will be evaluated under the guidance of the classroom teacher and monitored by the college instructor. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Education 208.

2 LECTURE HOURS. 20 LAB HOURS. 6 CREDIT HOURS.

EDUCATION 256
The American Public School
Function of the school as a social institution; organization, administration, and finance of public education and the major educational issues and trends. Designed for general education students and for prospective teachers. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Social Science 101, or consent of Department Chairperson.

3 LECTURE HOURS. 3 CREDIT HOURS.

EDUCATION 260
Principles of Practice in Elementary Education
Organizational procedures, curriculum, principles of classroom management, and the role of the teacher in stimulating learning. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.

3 LECTURE HOURS. 3 CREDIT HOURS.

EDUCATION 269-1
Practicum in Elementary Education: 16 Weeks
Students spend 20 hours per week, under supervision, as teacher aides in primary grade classrooms, 8 or 16 weeks; course includes 2-hour weekly seminar. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Child Development 102 and Child Development 107 and Education 256 and consent of Department Chairperson.

2 LECTURE HOURS. 20 LAB HOURS. 6 CREDIT HOURS.

EDUCATION 269-2
Practicum in Elementary Education: 8 Weeks
Students spend 20 hours per week, under supervision, as a teacher aide in primary grade classroom, 8 or 16 weeks; course includes 2-hour weekly seminar. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Child Development 102 and 107 and Education 256 and consent of Department Chairperson.

2 LECTURE HOURS. 20 LAB HOURS. 3 CREDIT HOURS.

EDUCATION 277
Philosophy
Comparative study of philosophical views on the relationship of education to political institutions, social processes, material conditions and individual ideas. Designed primarily for future teachers; open to all students. Writing assignments, as appropriate to the discipline, are part of the course.

3 LECTURE HOURS. 3 CREDIT HOURS.

EDUCATION 299
Special Topics in Education
Special Topics in Education will be discussed. New developments in research and practice, including the use of technology in the classroom will be emphasized. Writing assignments, as appropriate to the discipline, are part of the course. ARC: 4 times.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.

1–4 LECTURE HOURS. 1–4 CREDIT HOURS.

ELECTRONICS

ELECTRONICS 116
Basic Electronics DC/AC
Beginning course covering fundamentals in advanced electronics; basic laws of alternating and direct current circuit theory and operation of electronics devices and circuitry; including operation of modern electronic test equipment in practical laboratory application. This course covers essentially the same material as covered in Electronics 101 and Electronics 102 but in an accelerated, one semester approach. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Consent of Department Chairperson.

2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

ELEVATOR

ELEVATOR 750
Fundamentals of Print Reading
Fundamental training in blueprint interpretation. Upon completion, students will be able to read and understand prints used in the elevator industry. Writing assignments, as appropriate to the discipline, are part of the course.

1 LECTURE HOUR. 1 CREDIT HOUR.
ELEVATOR 751
Material Handling: Rigging/Hoisting
This course is designed to introduce students to the fundamentals of rigging and hoisting. Topics of discussion include the principles of handling and storing materials and how to properly use the tools for rigging and hoisting. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 1 CREDIT HOUR.

ELEVATOR 752
Basic Electricity
This course introduces information on basic electricity. Student will learn how to apply basic mathematics skills to the needs of the elevator industry and properly use mechanical and electrical measuring devices. Instruction provided on how to interpret graphs of simple electrical concepts and safe work practices. Writing assignments, as appropriate to the discipline, are part of the course.
2.5 LECTURE HOURS. 4 LAB HOURS. 4.5 CREDIT HOURS.

ELEVATOR 753
Meters
This course is designed to introduce students to the various measuring devices used in the elevator industry.
1 LECTURE HOUR. 1 CREDIT HOUR.

ELEVATOR 754
Hydraulics
This course covers operation and basic hydraulic troubleshooting used in the elevator industry. Topics include instruction on different types of hole drilling; welding procedures for the cylinder and plumbing the jack; installing the power and connecting pipe lines, car sling and cab assembly; and temporary car operation.
2 LECTURE HOURS. 2 CREDIT HOURS.

ELEVATOR 755
DC Generator and Motors
This course provides in-depth information on the types of DC generators and motors in the elevator industry. Topics include maintenance and services of these units and the various components of DC generators and motors.
1 LECTURE HOUR. 1 LAB HOUR. 1.5 CREDIT HOURS.

ELEVATOR 756
Basic Elevator Solid State Electronics
This course is designed to give students information on the electrical concepts and applications used in the elevator industry. The course also covers how to properly use mechanical and electrical measuring devices. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

ELEVATOR 757
Circuit Tracing
The procedures that must be followed to successfully perform circuit tracing currently in use in the elevator industry are covered in this course. Students learn systematic methods for diagnosing system malfunctions and analyzing control circuitry to efficiently locate trouble source. Instruction also provided on basic relay components, logic reasoning applied to circuits and measuring current with a multimeter.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

ELEVATOR 758
Elevator Industry Safety Fundamentals
This course introduces students to some of the main OSHA standards and provides information to assist students in using and interpreting the Code of Federal Regulations, intended to increase workplace safety awareness and compliance. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

ELEVATOR 759
Machine Room/Overhead Installation
Allows students to learn the proper job layout plans for the machine and machine room accessory installation. Topics include car and counterweight assembly, installation and alignment of deflector and secondary sheaves; and the types and classification of machines, governors, selectors, controllers, rope construction, enclosures used in relation to the elevator industry.
1 LECTURE HOUR. 1 CREDIT HOUR.

ELEVATOR 760
Car/Counterweight Assembly/Reroping
This course examines procedures for the elements of car and counterweight assembly of car slings and platforms, car top accessories counterweight frames and components, types of ropes construction, and the handling and reparation of ropes, hoist governor, and compensation rope installation is explored and practiced.
1.5 LECTURE HOURS. 1 LAB HOUR. 2 CREDIT HOURS.

ELEVATOR 761
Pit Structure and Guide Rails
Designed to provide students in the elevator industry with the fundamental knowledge and skills related to pit structure and installation of guide rails.
2 LECTURE HOURS. 2 CREDIT HOURS.

ELEVATOR 762
Doors and Operators
The methods and procedures used in the elevator industry to install, adjust, and construct elevator doors and gates for passenger, freight and dumbwaiters entrances. Writing assignments, as appropriate to the discipline, are part of the course.
1.5 LECTURE HOURS. 2 LAB HOURS. 2.5 CREDIT HOURS.

ELEVATOR 763
Construction Wiring Fundamentals
This course is designed to educate those in the elevator industry on the current terminology for the various types of electrical fittings; how to prepare the elevator to run properly; to plan and properly install raceway duct and conduit. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

ELEVATOR 764
Escalator and Moving Walks
This course allows students to learn the mechanical components; how to interpret wiring and installation drawing; and the installation procedures for escalators and moving walks.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

ELEVATOR 765
Elevator Maintenance
This course is designed to educate those individuals in the elevator industry on the system components and requirements to safely perform routine maintenance and repairs.
1 LECTURE HOUR. 1 LAB HOUR. 1.5 CREDIT HOURS.
# Credit Courses

This course is designed to prepare an organized program for apprentices to practice and develop the skills performed by an elevator constructor. Materials covered include: safety procedures, interpretation of drawings and layout, industry terminology, materials, equipment, and tools. Writing assignments, as appropriate to the discipline, are part of the course.

**ELEVATOR 766**  
OJT-Technical Concentration I  
4 LAB HOURS. 2 CREDIT HOURS.

This course is a continuation of Elevator Constructor Apprentice Training V. Apprentices in this phase of training will continue to develop the skills and perform the tasks required of a four-year apprentice in the elevator constructor industry.  
Prerequisite(s): Grade of C or better in Elevator 770.  
4 LAB HOURS. 2 CREDIT HOURS.

## Emergency Medical Technician

**EMERGENCY MEDICAL TECHNICIAN 100**  
Emergency Medical Technician: First Responder Training  
Development of basic skills in patient assessment and emergency medical care procedures required for minimizing patient suffering and the prevention of further injury. Writing assignments, as appropriate to the discipline, are part of the course.

**EMERGENCY MEDICAL TECHNICIAN 101**  
Emergency Medical Technician: Basic  
This course provides training to recognize the nature or extent of a patient’s condition, administer appropriate emergency medical care to stabilize their patient’s condition and transport him/her safely to the proper medical facility. This course follows United States Department of Transportation (DOT) guidelines for EMT-B Training. Students will receive appropriate in-class clinicals in addition to the course lecture, CPR training/certification and ten (10) hours working in a hospital clinical setting. Writing assignments, as appropriate to the discipline, are part of the course.

**EMERGENCY MEDICAL TECHNICIAN 221**  
Essentials of Paramedic Medicine I  
This course introduces students to the roles of the paramedic. The content focuses on the introduction, assessment, management and stabilization of various patient conditions. This course follows the United States Department of Transportation Guidelines for Paramedic Training. Writing assignments, as appropriate to the discipline, are part of the course.

**EMERGENCY MEDICAL TECHNICIAN 222**  
Paramedic Medicine Practicum I  
This course provides students the opportunity to focus on the integration of the principles learned in EMT 221 and apply this knowledge into practical application. Includes: direct patient care, patient simulation, clinical rotations and ambulance ride time. This course follows the United States Department of Transportation Guidelines for Paramedic Training. Writing assignments, as appropriate to the discipline, are part of the course.

**EMERGENCY MEDICAL TECHNICIAN 223**  
Essentials of Paramedic Medicine II  
This course provides continued instruction which was introduced in EMT 221. The content focuses on the assessment, management and stabilization of various patient conditions. This course follows the United States Department of Transportation Guidelines for Paramedic Training. Writing assignments, as appropriate to the discipline, are part of the course.

278  
THIS INFORMATION IS SUBJECT TO CHANGE
EMERGENCY MEDICAL TECHNICIAN 224
Paramedic Medicine Practicum II
This course provides students the opportunity to focus on the integration of the principles learned in EMT 221, 222 (and concurrent course 223) and apply this knowledge in practical application. Includes: direct patient care; patient simulation, clinical rotations and ambulance ride time. This course follows the United States Department of Transportation guidelines for Paramedic Training. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in EMT 221 and 222, concurrent enrollment in EMT 223 and consent of Department Chairperson.
2 LECTURE HOURS. 6 LAB HOURS. 5 CREDIT HOURS.

EMERGENCY MEDICAL TECHNICIAN 227
Paramedic Medicine Field Internship
This course provides students the opportunity to integrate, synthesize and apply the knowledge gained in EMT 221, 222, 223 and 224 toward in field situations. The student will work under the direct supervision of Paramedic Preceptors and will work with assigned Resource Hospitals as well as the Course Coordinator. This course will involve ambulance ride time. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in EMT 221, 222, 223, and 224 and consent of Department Chairperson.
3 LECTURE HOURS. 6 LAB HOURS. 6 CREDIT HOURS.

EMERGENCY MEDICAL TECHNICIAN 250
EMS Instructor
This course is designed to provide students with those skills necessary to successfully complete any of the Department of Transportation National Highway Traffic Safety Administration EMS courses. The course provides a solid foundation in learning theory, yet moves directly into hands-on application. With the emphasis on practical skill development, instructor trainees will complete the course with the confidence that they can successfully teach any course in the National Standard Curricula for which they are technically qualified. Successful completion of this course enables the participant to acquire state recognition as an EMS Lead Instructor. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENGINEERING

ENGINEERING 100
Elements of Engineering Drawing
Drawing survey course for students in technical and engineering science major programs. Study of more advanced software “AutoCAD Mechanical Program”; also draw geometric figures, multi-view drawings, pictorial drawing, charts and graphs with emphasis on graphic elements of machine parts drawing. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

ENGINEERING 110
Introductory Drafting
For students in non-technical and non-engineering science major programs. Learn to use “AutoCAD general program” to draw geometric figures, multi-view drafting, pictorial drawing, charts and graphs. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

ENGINEERING 111
Introduction to the Engineering Profession
History of engineering profession, engineer’s role in a technological society, his/her work, and the relationship of engineering to other professions. Includes study of general and related areas, ethics and responsibility of engineers and guidance. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

ENGINEERING 115
Engineering Communications: Blueprint Reading
For students in technical and non-technical curricula; principles and practices involved in interpretations of engineering graphics communications; emphasis on machine and structural graphic communications. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENGINEERING 131
Engineering Graphics and Introduction to Design
Graphics, both manual and computer-aided drafting and design. Introduction to design techniques in graphics and multi-view drawing, auxiliary views, selecting, tolerance dimensioning, and technical sketching. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Engineering 111 or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

ENGINEERING 132
Descriptive Geometry
Theory of projections. Solution by graphical methods of problems concerning the relation of points, lines, planes, and surfaces. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Engineering 131 or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

ENGINEERING 165
Current Engineering Topics
Study of current topics including pollution control, transportation systems, water recycling, computer applications, automation and engineering analysis of these problems. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

ENGINEERING 190
Computer Applications in Engineering
FORTRAN or C with emphasis in engineering and scientific programming languages such as FORTRAN and APT, with emphasis on engineering problems encountered in design and manufacturing. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Mathematics placement test, or credit in Mathematics 207 and Engineering 131.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENGINEERING 202
Advanced Drafting and Basic Machine Design
Application of fundamental stress analysis to design of complete machine units involving machine elements such as shafts, springs, gears and screws, mechanical properties of materials and their significance in design; and classification of fits, specification of materials in use, and the manufacturing processes. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Engineering 131 or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.
### Engineering and Industrial TC1

#### Engineering and Industrial TC1 103
**Photography**
This course is designed to teach the principles and practical application of photography related to the use of the darkroom, exposure developing and printing process. Writing assignments, as appropriate to the discipline, are part of the course.

- **1 Lecture Hour. 3 Lab Hours. 2 Credit Hours.**

#### Engineering and Industrial TC1 300
**Introduction to Computer-Aided Design**
This course introduces students to the use of the microcomputer for computer-aided design and drafting, using measuring instruments, special perception workpiece scales. Writing assignments, as appropriate to the discipline, are part of the course.

- **2 Lecture Hours. 3 Lab Hours. 3 Credit Hours.**

#### Engineering and Industrial TC1 301
**Computer Numeric Control Operations**
Students are provided the opportunity to learn the operations and set up of CNC controlled vertical mills and CNC controlled lathes. Writing assignments, as appropriate to the discipline, are part of the course.

- **2 Lecture Hours. 3 Lab Hours. 3 Credit Hours.**

#### Engineering and Industrial TC1 302
**Computer Numeric Control Programming I**
This course provides knowledge and skills needed for entry level employment in CNC programming, as well as advanced programming dealing with the lathe and mill. Programming of complex parts with the aid of a computer is also part of this course. Writing assignments, as appropriate to the discipline, are part of the course.

- **2 Lecture Hours. 3 Lab Hours. 3 Credit Hours.**

### Engineering and Industrial TC1 303
**Computer Numeric Control Programming II**
This course provides advanced part programming dealing with the lathe and mill. Programming of complex parts with the aid of a computer. Writing assignments, as appropriate to the course are part of the course.

- **2 Lecture Hours. 3 Lab Hours. 3 Credit Hours.**

### Engineering and Industrial TC1 304
**CAD/CAM Numerical Control**
This course is designed to acquaint students with NC part programming as it applies to a CAD/CAM system. Writing assignments, as appropriate to the discipline, are part of the course.

- **2 Lecture Hours. 3 Lab Hours. 3 Credit Hours.**

### Engineering and Industrial TC1 305
**Introduction to Computer Applications in Manufacturing**
This course reviews the mechanical elements of English and provides practical applications of traditional reading, writing, spelling and punctuation skills. In addition, it presents the fundamental concepts of computer information system as it applies to micro-computers in the manufacturing field. Students will be introduced to specialized software formats in word processing, spreadsheets, databases and graphics. The course includes “hands on” experience using a variety of software employed in the manufacturing field. Writing assignments, as appropriate to the discipline, are part of the course.

- **4 Lecture Hours. 4 Credit Hours.**

### Engineering and Industrial TC1 539
**Metallurgy**
This course provides the trainee with basic knowledge in the composition, structure and selection of steel and other metals used in modern machining processes. Emphasis is placed on the common properties of metals such as: density, ductility, tensile strength and hardness, as well as showing how some metals respond to heat treatment processes. Writing assignments, as appropriate to the discipline, are part of the course.

- **2 Lecture Hours. 3 Lab Hours. 3 Credit Hours.**

### Engineering and Industrial TC1 715
**Introduction to Hand and Power Tools**
This course will enable students to identify, maintain, and illustrate proper handling and care of the various hand and power tools. Writing assignments, as appropriate to the discipline, are part of the course.

- **1 Lecture Hour. 6 Lab Hours. 3 Credit Hours.**

### Engineering and Industrial TC1 761
**Machine Shop Mathematics**

- **3 Lecture Hours. 3 Credit Hours.**

### Engineering and Industrial TC1 762
**Machine Shop Mathematics II**

- **3 Lecture Hours. 3 Credit Hours.**

### Engineering and Industrial TC1 763
**Machine Shop Mathematics III**

- **3 Lecture Hours. 3 Credit Hours.**
CREDIT COURSE DESCRIPTIONS

ENGINEERING AND INDUSTRIAL TC1 764
Machine Shop Technology
4 LECTURE HOURS. 4 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC1 765
Machine Shop Technology II
4 LECTURE HOURS. 4 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC1 766
Machine Shop Technology III
3 LECTURE HOURS. 3 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC1 767
Blueprint Reading I
2 LECTURE HOURS. 2 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC1 770
Machine Tool Operation I
Introduction to basic machine tool operations, including band saws, engine lathes, drill presses, milling machines, grinding of drill and tool bits, bench work and related layout work and inspection. Writing assignments, as appropriate to the discipline, are part of the course.
9 LAB HOURS. 3 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC1 771
Machine Tool Operation II
The opportunities and requirements associated with various specialized machining occupations are introduced in this course. Emphasis is placed on occupational safety and health requirements, employer/employee relations, employment opportunities. Materials, set-up tools and production economics are also emphasized in relation to a variety of machining processes. Writing assignments, as appropriate to the discipline, are part of the course.
9 LAB HOURS. 3 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC1 777
Statistical Process Control
This introductory course provides an overview of quality as it applies to producing quality products and services. Students learn the terminology and techniques necessary to control the processes and systems, including the control of procured materials, equipment and services. The course starts with the history of quality control, standards, inspection, calibration, preventative maintenance, systems and OSHA standards. Production parts will be used to calculate the measured dimensions and determine quality compared to the standard (usually a print or other documents). These skills will be applied to the lab portion of the program. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC1 779
Internship
The goal of the internship is to gain on-the-job experience as a machinist or computer numerical control machine operator. The internship introduces a student to work only after 75% of the course work has been completed. The internship gives the company an opportunity to observe the intern’s work skills. The intern will most likely be an assistant to a CNC operator or do other machine work until basic work procedures are learned. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Consent of Department Chairperson/Coordinator.
5 LAB HOURS. 1 CREDIT HOUR.

ENGINEERING AND INDUSTRIAL TC6 101
Machine Trades Blue Reading
This course is designed to study the principles, which are essential for visualization and training in the interpretation of blueprints and sketches of machine parts. Attention is given to representations of common machine processes, special forms of dimensioning, sections, auxiliary views, symbols, surface finishes and other drafting and design principles. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC6 102
Machine Shop I
This course is designed to present students with an introduction to machining and machine shop practices. Study topics include hand tools, measurement, cut off machines, drilling machines, taps and dies, turning machines, milling machines and general safety. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Engineering and Industrial TC6 101.
2 LECTURE HOURS. 3 LAB HOURS. 3 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC6 103
Machine Shop Mathematics I
This course is designed to provide students with the basic principles of mathematics with application that relate to typical machine shop problems. Subjects to be studied include the review of fractions, decimals, measurement, ratios, proportions, and percent. An introduction to algebra, measuring systems, precision and accuracy as they relate to machining will also be included in the course. Electronic calculators required for this course.
Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC6 106
Machine Shop II
This course is designed as a continuation of material and information presented in Machine Shop I. Additional topics of study include advanced operations on the lathe and vertical milling machine, heat treating and materials usage. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Engineering and Industrial TC6 102.
1 LECTURE HOUR. 6 LAB HOURS. 3 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC6 201
CAD/CAM Principles
This course will introduce students to the role of computers used in design and manufacturing processes. Individuals responsible for selection implementation, integration and use of a CAD/CAM system as it relates to an existing manufacturing environment should benefit from this course. Topics covered include the role of computers in modern manufacturing and the selection of CAD/CAM systems for special uses. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC6 202
Technical Drafting I
This course is designed as an introductory course in basic drafting for those individuals interested in enrolling into the CAD/CAM specialty. Information concerning the tools and techniques of the drafting profession are presented. Topics covered include: Geometric constructions, multiviews, sections, dimensioning and tolerancing, along with pictorial drawings. Student must furnish basic required equipment used in the class. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 3 LAB HOURS. 3 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS
Credit Courses

ENGINEERING AND INDUSTRIAL TC6 203
AutoCAD I
This course is designed to introduce students to the use of the microcomputer for the aided design and drafting. Software to be emphasized in this course will be AutoCAD Release II provided by Autodesk, Inc. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Engineering and Industrial TC6 202.
2 LECTURE HOURS. 3 LAB HOURS. 3 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC6 204
Introduction to Intergraph Microstation I
This course will introduce students to the Intergraph Microstation CAD system, a PC version of the popular CAD software. Topics include two and three-dimensional modeling, drawing on various levels, dimensioning and related topics. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Engineering and Industrial TC6 202.
2 LECTURE HOURS. 3 LAB HOURS. 3 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC6 206
CAD/CAM Numerical Control
Computer-Aided Design and Manufacturing processes are discussed and implemented in this course. Students will be given the initial opportunity to draw up manufacturing piece parts in the CAD lab environment. Numerical control instruction necessary to drive a simple 3 axis machine tool to make these parts, will be presented in the Computer-Aided Manufacturing (CAM) environment. This activity will take place in the Precision Metalworking program area. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Engineering and Industrial TC6 203.
2 LECTURE HOURS. 3 LAB HOURS. 3 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC6 207
CAD/CAM CNC Machining
This course will introduce students to the Computer-Aided Design/Computer Assisted Manufacturing/Computer Numerical Control process used to produce a machine part on a miniature milling machine. Information concerning, producing a dimensional CAD drawing in the DXF format; identifying cutting parameters and tool paths in a NC program; and verifying, then running the program to produce the machine part, will be presented. Students will learn to use various programming standards and modes in the process of manufacturing a piece part. As a result of this course, students will gain knowledge on the integration of computer-aided design into the computer assisted manufacturing process. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Engineering and Industrial TC6 203.
2 LECTURE HOURS. 3 LAB HOURS. 3 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC6 208
Intergraph Microstation II
This course is a continuation of Intergraph Microstation I and prepares students to use all the capabilities of the Intergraph software including two and three dimensional modeling, drawing on various levels of geometry and converting designs into engineering drawings. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Engineering and Industrial TC6 204.
2 LECTURE HOURS. 3 LAB HOURS. 3 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC6 209
AutoCAD II
This course is a continuation of AutoCAD I and prepares students to use all the capabilities of AutoCAD software including 3D, menus, MARCos, Introduction to Auto-LISP, Advanced DOS, and third party software. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Engineering and Industrial TC6 203.
2 LECTURE HOURS. 3 LAB HOURS. 3 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC6 210
AutoCAD III
This course is designed to introduce students to advanced 3D modeling using industry standards CAD software (AutoCAD). Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Engineering and Industrial TC6 209.
2 LECTURE HOURS. 3 LAB HOURS. 3 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC6 500
AC/Fundamentals
This course will introduce students to AC circuitry fundamentals including basic sine wave analysis, inductance capacitance, voltage and current phase relationships in AC circuits. AC problem-solving, complex rotation and application of theory will be studied in a laboratory setting. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 3 LAB HOURS. 3 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC6 501
DC/Fundamentals
This course will introduce students to DC circuitry fundamentals including static electricity, resistance, power, network theorems, and network solutions and magnetism. Various aspects of DC theory and problem-solving activities will be conducted in a laboratory setting. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 3 LAB HOURS. 3 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC6 502
Electrical Wiring
This course will introduce students to electrical wiring, repair and construction techniques in a laboratory setting. Students will also acquire proficiency in the identification and use of various electrical components associated with wiring activities. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 3 LAB HOURS. 3 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC6 503
Applied Mathematics
This course introduces students to the use of fractions mixed numbers, decimals, order of operations, ratio, proportion and percent problems as they relate to industrial maintenance activities. Measurement and graphical representation will be explored and the skill of estimating and solving word problems will be emphasized. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC6 504
Introduction to Pneumatic Technology
This course in pneumatic technology will teach students how air is harnessed as a source of power to do work. The pneumatic trainer will be used to illustrate how pneumatic circuits are used in real-life and industrial applications. Students will also learn how to use a variety of pneumatic instruments, components and systems through a series of enjoyable and interesting experiments. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 3 LAB HOURS. 2 CREDIT HOURS.
ENGINEERING AND INDUSTRIAL TC6 505
Solid State Fundamentals
This course will focus upon the use of discrete solid state devices in electronics. Topics on instruction will include: semi conduction, diodes, optoelectronic devices, DC and small signal analysis of bipolar transistors and FETS, power amplifiers, tuned amplifiers, frequency response and other associated electronic devices. The theory and application of solid state electronics will be studied in a laboratory setting. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 3 LAB HOURS. 3 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC6 506
Industrial Motors
This course will introduce students to the principles and applications of electric motors used in industry. Topics to be studied include: motor and generator fundamentals, single and three-phase AC motors, DC and universal motors, stepper motors, servo motors, motor load characteristics, motor specifications and ratings, efficiency characteristics, motor specifications and ratings, efficiency characteristics, motor testing and protective devices and testing and troubleshooting procedures for motors. The theory and application of motors used by industry will be studied in a laboratory setting. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Engineering and Industrial TC6 500, 501, and 503.
2 LECTURE HOURS. 3 LAB HOURS. 3 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC6 507
Industrial Controls
This course will introduce students to the AC power control system used in the industry. Topics to be studied include: ladder diagramming, motor starters, relays, timers, solid state motor controls, photo electronic and proximity control devices and an introduction to programmable controllers. The theory and application of industrial controls will be studied in a laboratory setting. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Engineering and Industrial TC6 503 and 506.
2 LECTURE HOURS. 3 LAB HOURS. 3 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC6 508
Digital Electronics Fundamentals
This course will introduce students to electronic digital fundamentals through the study of combinational and sequential logic circuits. Topics of study will include Boolean algebra, number codes, latches, flip-flops, counters and shift registers. The theory and application of digital electronics will be studied in a laboratory setting. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Engineering and Industrial TC6 503.
2 LECTURE HOURS. 3 LAB HOURS. 3 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC6 509
Industrial Programmable Controllers
This course will introduce students to the basic operations of programmable controllers, central circuit programming and industrial programmable controller applications used in automated manufacturing. The theory and application of programmable controllers will be studied in a laboratory setting. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Engineering and Industrial TC6 503 and 505.
2 LECTURE HOURS. 3 LAB HOURS. 3 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC6 510
Industrial Hydraulics
This course will introduce students to the basic concepts of hydraulics and its applications in an industrial setting. A hydraulics laboratory trainer will be utilized to help students learn hydraulics through the use if a variety of test instruments, gauges, components and control systems. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Engineering and Industrial TC6 503.
2 LECTURE HOURS. 3 LAB HOURS. 3 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC6 511
Introduction to Industrial Maintenance
This is an introductory course designed to provide an introduction and overview of the area of Industrial Maintenance. Topics to be presented include Industrial Maintenance activities, diagnosis, troubleshooting and repair, automated system applications, manufacturing processes and employment requirements. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 1 CREDIT HOUR.

ENGINEERING AND INDUSTRIAL TC6 512
Internship
Placement on the job monitored by supervisor will introduce students to the real world of work. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Placement test and trade of C or better in Engineering and Industrial TC6 500, 501, and 513.
10 LAB HOURS. 2 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC6 515
Principles of DC/AC
This course will introduce students to DC and AC circuiting fundamentals including current and voltage resistive elements, Ohm’s law, series, parallel, and series-parallel DC and AC circuits analysis, conductors and insulators, basic electric measurements instruments, capacitors, magnetic circuits and electromagnetism, inductance, sinusoidal alternating current and voltage, and various types of transformers. Various aspects of DC and AC theory and problem-solving activities will be conducted in a laboratory setting. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): 432 Engineering 503.
4 LECTURE HOURS. 4 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC6 516
Quality Assurance
This introductory course provides an overview of quality assurance as it applies to producing products and services based primarily upon processes and systems, and including the control of procured materials, equipment and services. It will include an overview of the history of quality assurance, standards, inspection, calibration, preventative maintenance, systems and OSHA standards. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

ENGINEERING AND INDUSTRIAL TC6 517
National Electric Code
This course in the National Electronic Code (NEC) helps students understand how the NEC is constructed, how to read the code, from beginning students to experienced electricians. A series of enjoyable lectures that clarify confusing and seemingly conflicting rules from the 1996 NEC. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS
Credit Courses

ENGINEERING AND INDUSTRIAL TC6 518
Introduction to Power Systems
This course will introduce and develop students’ critical thinking process, enabling them to reach a sound understanding of a broad range of topics related to power systems, while motivating their interest in the electrical power industry. Both theory and modeling are developed from simple beginnings so that students can be readily extended to new and complex situations. The course reviews basic phasor concepts, single phase, as well as three phase circuits, power transformers, transmission lines parameters, power system control, including turbine-generator controls and multi machine stability. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

ENGLISH

ENGLISH 98
Composition
Elements of reading, writing and speaking basic English. Writing assignments, as appropriate to the discipline, the course.
Prerequisite(s): Eligibility for English 98 determined by COMPASS test scores or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENGLISH 99
English ARC: Accelerated Reading and Composition
ARC is an integrated reading and writing course designed to increase student’s critical thinking, reading, and writing abilities and to promote their academic literacy for long-term success. To meet these ends, this course provides a structured, rigorous learning environment that nurtures student engagement through a shared, sustained classroom experience, and it fosters collaboration in a curriculum that respects students’ individuality and humanity and that prepares them to meet college-level expectations. It also encourages students to invest in a network of support services and resources to enhance long-term academic and professional success. There will be extensive reading and analysis of college-level texts, frequent essay writing, relevant discussions, and collaborative work. The course has strict requirements and high expectations and may only be repeated once. Writing assignments, as appropriate to the discipline, are part of the course. ARC: 2 times.
Prerequisite: Grade of C or better in English 98 and Reading 99, or placement test scores of COMPASS e-Write (5-6) and Reading (50 or >), ACT English (12-13), or SAT Writing (320-350), or CCC Writing score of 14-20, or SAT Writing score of 360-480, or consent of Department Chairperson.
6 LECTURE HOURS. 6 CREDIT HOURS.

ENGLISH 100
Basic Writing Skills
Emphasis on individual expression in paragraph form, sentence clarity through knowledge of sentence structure, and correct word forms. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 100, or grade of C or better in English 98, or ACT English score of 14-20, or SAT Writing score of 360-480, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENGLISH 101
Composition I
Development of critical and analytical skills in writing and reading of expository prose. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENGLISH 102
Composition II
Continuation of English 101. Introduces methods of research and writing of investigative papers. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: DA KK MX OH TR HW WR

ENGLISH 105
Business Writing
Fundamentals of basic forms of business correspondence. Writing assignments, as appropriate to the discipline, the course.
Prerequisite(s): Grade of C or better in English 101 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENGLISH 107
Report Writing
Letters and reports, methods of collecting and organizing data, and methods of presenting facts and ideas effectively. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENGLISH 107-2
Report Writing
Letters and reports, methods of collecting and organizing data, and methods of presenting facts and ideas effectively. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

ENGLISH 107-3
Report Writing
Letters and reports, methods of collecting and organizing data, and methods of presenting facts and ideas effectively. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 1 CREDIT HOUR.

ENGLISH 121
Communications
Ability to communicate: listen, view, talk, read, write; study of communications theory, investigation of other media: radio, television, film, records, tape, magazine, newspaper advertisements. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENGLISH 127
Textual Analysis
Relating thinking to reading by analysis of written materials. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
ENGLISH 150
College Newspaper
News reporting and writing, feature writing, makeup and editorial work; discussion of problems of policy and newspaper. Lab work correlated with publication of college newspapers. Students will carry out all the tasks involved in the writing, publication and distribution of the college newspaper. Writing assignments, as appropriate to the discipline, are part of the course. Allowed Repeatable Course: Not more than an accumulated four hours will be counted toward graduation. ARC: 4 times.
1 LECTURE HOUR. 1 CREDIT HOUR.

ENGLISH 152
Introduction to Mass Communication
Scope of modern journalism and dominant theories of communication; influences of the media in today’s society. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENGLISH 151
News Reporting and Writing
Survey of journalism, including news reporting and writing, feature writing, makeup and editorial work, business and advertising problems. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

IAI/MAJOR: TR WR

ENGLISH 153
Journalism
Survey of print journalism, including news, editorial and feature writing, newspaper organization, copy editing, printing technology and circulation. In addition to classroom instruction, students will practice these skills by carrying out all the tasks involved in publishing the college newspaper. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 151.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.

IAI/MAJOR: HW WR

ENGLISH 197
Communications Skills
This course provides additional support to English 101 students emphasizing critical reading, academic writing, and standard English grammar. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENGLISH 201
Advanced Composition
Intensified work in expository and argumentative writing for students who need to improve writing skills for professional careers. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 102.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENGLISH 209
Creative Writing: Poetry
Descriptive and narrative writing, concentrating on the writing of poetry, drama, and fiction. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENGLISH 222
Intercultural Communication
Examination of communication barriers through a study of the varieties of English, including dialects, structural and phonetic differences among ethnic groups, both present and historical, beginning with the Old English period and moving to the present. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENGLISH 243
Creative Writing: Fiction
Students will understand the structure and elements of fiction and the writing process, produce fully-developed works of fiction, and demonstrate an understanding of the critical terminology of the creative writer. Student will experiment with different approaches to plot, point-of-view, dialogue, voice, sequence and structure. A minimum of 25-30 finished pages of original work is recommended. Journals, a midterm, and a final exam may also be required. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENGLISH 245
Creative Writing: Poetry
Students will understand the structure and elements of poetry and the writing process, produce fully-developed works of poetry, and demonstrate an understanding of the critical terminology of the creative writer. Students will experiment with different approaches to form, voice, narration, imagery, translation, creative response, and revision. A minimum of 200-250 finished lines of original work is recommended. Journals and exams may also be required. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENGLISH 276
Feature Writing for Newspapers and Magazines
This course teaches feature writing for newspapers and magazines. Study and applied skill emphasize idea development for the extended feature article.
Prerequisite(s): Grade of C or better in English 101.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENGLISH 299
Special Topics in English
Selected topics in English for students interested in further developing their understanding of specific authors, movements, genres, styles of writing, and forms of language; emphasis on linguistic structure, social contact, and interpretation. Writing assignments, as appropriate to the discipline, are part of the course. Allowed Repeatable Course: Course may be repeated up to three times when topics are different, and may count for a maximum of six variable credits. Consent of Department Chairperson required for repeatability. ARC: 4 times.
1–3 LECTURE HOURS. 1–3 CREDIT HOURS.
ENTREPRENEURSHIP

ENTREPRENEURSHIP 201
Introduction to Entrepreneurship
This interdisciplinary course introduces participants from various disciplines to the concept of sustainable entrepreneurship, a manageable process applicable across careers, work settings, and time. The course focuses on building entrepreneurial attitudes and behaviors that will lead to creative solutions within the business community and other organizational environments. Course topics include the history of entrepreneurship, the role of entrepreneurs and intrapreneurs in the 21st Century global economy, and opportunity identification. The course will examine elements of creative problem-solving, development of an enterprise concept/model. Examination of feasibility studies, and the social/moral/ethical implications of entrepreneurship. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Eligibility for English 101 and Mathematics 118, or consent of Department Chairperson.

3 LECTURE HOURS. 3 CREDIT HOURS.

ENTREPRENEURSHIP 202
Opportunity Recognition and Development
Participants will learn techniques and processes leading to opportunity (value) recognition to include the assessment of target market, current economic, social, and political climate that provide value opportunities for entrepreneurial ventures. Entrepreneurial opportunities will be assessed relative to personal strengths and weaknesses, financial, professional, social, and personal goals. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Eligibility for English 101 and Mathematics 118, and grade of C or better in Entrepreneurship 201, or consent of Department Chairperson.

3 LECTURE HOURS. 3 CREDIT HOURS.

ENTREPRENEURSHIP 203
Entrepreneurial Accounting and Finance
An advanced entrepreneurial course structured to expose participants to accounting and financial methodologies in order to assess or predict the financial performance of their enterprise. Building upon their business concepts or existing enterprise, participants will be introduced to core financial and managerial accounting concepts: financial analysis techniques will enable them to prepare short and long-term financial operations plans, including cash requirements for enterprise startup and ongoing operations. Participants will be trained to use computerized accounting software as part of a managerial tool kit to support operation assessment. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Eligibility for English 101 and Mathematics 118, and grade of C or better in Entrepreneurship 201 and 202, or consent of Department Chairperson.

4 LECTURE HOURS. 4 CREDIT HOURS.

ENTREPRENEURSHIP 204
Entrepreneurial Marketing and Sales
Introduces participants to marketing and personal selling strategies designed to support entrepreneurial development and growth. Participants will develop a theoretical and practical understanding of key marketing and sales strategies, including competitive product/services pricing, product/service promotion and distribution, customer and supplier qualification and the closing of sales transactions. This course will utilize the lecture and presentation format supplemented by interactive computer simulation to facilitate the participant’s understanding of marketing and sales. Writing assignments, as appropriate to the discipline, are part of this course.

Prerequisite(s): Eligibility for English 101 and Mathematics 118 and grade of C or better in Entrepreneurship 201 and 202, or consent of Department Chairperson.

3 LECTURE HOURS. 3 CREDIT HOURS.

ENTREPRENEURSHIP 205
Law for the Entrepreneur
This course is a required course in the Entrepreneurship program. It provides students with an overview of the formation and operation of business enterprises, exposes students to types of business organization, contract law, leases, intellectual property and employment law. Students will learn about sole proprietorships, general and limited partnerships, limited liability companies and corporations, the benefits and disadvantages of each type of entity as well as the formation, dissolution and record keeping for each of these entities. Students will apply this information to business plans and will learn about other fundamental areas of law affecting business entities. Writing assignments, as appropriate to the discipline, are part of this course.

Prerequisite(s): Eligibility for English 101 and Mathematics 118, or consent of Department Chairperson.

3 LECTURE HOURS. 3 CREDIT HOURS.

ENTREPRENEURSHIP 206
Entrepreneurial New Venture Start-Up
Participants will explore and identify problems that arise in the start-up phase of an entrepreneurial venture by developing a business plan/concept for a new venture and pitching it to a panel of judges. Alternatively, participants have the option to explore and identify the obstacles to success that occur while managing and operating a business venture in a computer-simulated environment. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Entrepreneurship 201, 202, 203, 204, and 205, or consent of Department Chairperson.

3 LECTURE HOURS. 3 CREDIT HOURS.

ENVIRONMENTAL STUDIES

ENVIRONMENTAL STUDIES 101
Man and Environment I
Interdisciplinary study of humans, the environment and their interrelationships, including resources, processes, wastes, growth, change, values and individual responsibility and involvement; emphasis on ecology of Chicago metropolitan environment; individual in relation to urban systems and urban systems in relation to world environment. Writing assignments, as appropriate to the discipline, are part of the course.

3 LECTURE HOURS. 3 CREDIT HOURS.

ENVIRONMENTAL STUDIES 102
Man and Environment II
Resource and land management, interaction of social, economic and technological systems with environment and relationship of individuals and groups to the environment. Writing assignments, as appropriate to the discipline, are part of the course.

3 LECTURE HOURS. 3 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY

ENVIRONMENTAL TECHNOLOGY 100
Introduction to Emergency Management
This introductory course examines the principles and concepts of emergency management. It presents an overview of the various disciplines involved in preparing for emergencies resulting from many different causes. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.

3 LECTURE HOURS. 3 CREDIT HOURS.

<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Description</th>
<th>Prerequisite(s)</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENVIRONMENTAL TECHNOLOGY 101</td>
<td>Basic Skills in Emergency Management</td>
<td>This course provides a background in the various aspects of emergency management that would apply in any emergency. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.</td>
<td>3</td>
</tr>
<tr>
<td>ENVIRONMENTAL TECHNOLOGY 102</td>
<td>Leadership/Influence/Communication</td>
<td>Among the most important attributes of the successful emergency manager is the ability to fill a strong authority position that will aid them in accomplishment.</td>
<td>Grade of C or better in Environmental Technology 100 and 101 or consent of Department Chairperson.</td>
<td>3</td>
</tr>
<tr>
<td>ENVIRONMENTAL TECHNOLOGY 103</td>
<td>Introduction to Emergency Planning</td>
<td>The importance of planning for emergencies before they occur has long been recognized as the key to minimizing their impact on society. This course is designed to provide a basic overview of the concepts of pre-planning needed to deal with a wide range of emergency situations. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>Grade of C or better in Environmental Technology 100 and 101 or consent of Department Chairperson.</td>
<td>3</td>
</tr>
<tr>
<td>ENVIRONMENTAL TECHNOLOGY 104</td>
<td>Energy Systems Fundamentals</td>
<td>Course covers the basics of building envelopes, HVAC, lighting, insulation, glazing, plumbing and electrical systems, construction materials, and the surrounding environment. Incorporates blueprint/design fundamentals. Focus on construction engineering concepts. Introduces LEED and Energy Star programs, relevant environmental, health and safety principles, impacts, and regulatory implications. Provides a broad overview of energy use and efficiency in structures and why it matters. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>Grade of C or better in Environmental Technology 100 and 101 or consent of Department Chairperson.</td>
<td>3</td>
</tr>
<tr>
<td>ENVIRONMENTAL TECHNOLOGY 106</td>
<td>Introduction to Terrorism</td>
<td>This course will examine the differences and similarities among emergencies resulting from terrorism versus natural disasters or accidents. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>Grade of C or better in Environmental Technology 100 and 101 or consent of Department Chairperson.</td>
<td>3</td>
</tr>
<tr>
<td>ENVIRONMENTAL TECHNOLOGY 107</td>
<td>Environmental Geology</td>
<td>This course will examine human interactions with geologic processes and hazards, including earthquakes, volcanoes, landslides, subsidence, hydrology, and flooding; occurrence and availability of geologic resources, such as energy, water, and minerals; principals of land-use planning, pollution, waste disposal, environmental impact, health, and law. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>Grade of C or better in Environmental Technology 100 and 101 or consent of Department Chairperson.</td>
<td>3</td>
</tr>
<tr>
<td>ENVIRONMENTAL TECHNOLOGY 108</td>
<td>Mitigation Management</td>
<td>The impact of many types of emergencies can be reduced by taking certain actions prior to their occurrence that will lessen the damage when the emergency occurs. This course is designed to introduce the concept of mitigation, and the activities that will accomplish it in a wide range of potential emergency situations. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>Grade of C or better in Environmental Technology 100 or consent of Department Chairperson.</td>
<td>3</td>
</tr>
<tr>
<td>ENVIRONMENTAL TECHNOLOGY 109</td>
<td>Urban Agro-Ecology</td>
<td>Introduction to the ecology of agriculture in urban settings addressing current local food production challenges. This course explores opportunities and efforts for more sustainable agriculture. Laboratory required. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.</td>
<td>3</td>
</tr>
<tr>
<td>ENVIRONMENTAL TECHNOLOGY 110</td>
<td>Basic Incident Command</td>
<td>The Incident Command System provides a management framework for dealing with emergency situations. This course will provide the basic knowledge of what incident command is and how it functions, as well as the importance of having a strong central authority to oversee all aspects of responding to emergency situations. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>Grade of C or better in Environmental Technology 102 or consent of Department Chairperson.</td>
<td>3</td>
</tr>
<tr>
<td>ENVIRONMENTAL TECHNOLOGY 111</td>
<td>Disaster Response and Recovery</td>
<td>This course explores the basic nature of disasters, what they are, what steps must be taken to respond to them, and what is involved in recovering from them. This is a lab class that will culminate by conducting a day-long, campus wide disaster scenario response drill. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>Grade of C or better in Environmental Technology 100 and 101 or consent of Department Chairperson.</td>
<td>3</td>
</tr>
<tr>
<td>ENVIRONMENTAL TECHNOLOGY 112</td>
<td>Emergency Resource Management</td>
<td>In planning for and responding to emergencies, many varied resources will be required. This course identifies what these various resources are and how to put them to use.</td>
<td>Grade of C or better in Environmental Technology 103 or consent of Department Chairperson.</td>
<td>3</td>
</tr>
</tbody>
</table>
ENVIRONMENTAL TECHNOLOGY 114
Renewable Energy Systems
An introductory, work-skills course on principles, concepts, applications, and installation of renewable and alternative energy technologies. Distinguishes between technologies appropriate to industrial/commercial settings versus those intended for residential structures. Covers renewable energy sources (solar, wind, geothermal, etc.) as well as alternative technologies utilized for building operations (microturbines, fuel cells, combined heat and power). Designed to prepare tradesman for the installation of various technologies. Up to five (5) off-campus field trips to alternative energy installations will be scheduled as part of this course. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 115
Introduction to Weapons of Mass Destruction
This course provides an overview of chemical, biological, radiological, and nuclear (CBRN) weapons, and the threat of their use in terrorism events. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Environmental Technology 100 and 101 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 121
Introduction to Hazardous Materials Management
This course is an overview of the environmental impacts resulting from hazardous materials such as asbestos, and their mismanagement. Emphasis is placed on understanding the sources responsible for soil, water, land, and air pollution and the environmental laws governing our natural resources, including asbestos. Emphasis is placed on storage and treatment practices, monitoring, sampling and handling techniques, damaging effects on humans, ecology and environment, as well as governmental regulations concerning soil, water, and air. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 122
Disaster Site Worker
A course that focuses on the skills needed by workers who respond in the recovery phase of major disasters. This course includes the requirements for obtaining the OSHA Construction Worker 10-hour card, which is required for Disaster Site Worker certification. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Environmental Technology 100 and 101 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 123
Chemical Emergency Response
This course is designed to meet the requirements of OSHA for workers that will respond to a hazardous chemical release. The course consists of the five levels of training required under 29CFR1910. 120(q). Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 131
Environmental Health and Safety
Introduction to health and safety principles and skills needed to conduct field operations dealing with hazardous substances and meets initial training requirements of the Occupational Safety and Health Administration for workers engaged in hazardous waste operations. Course includes fundamentals of hazard recognition, toxicology, selection, use, and limitations of personal protective equipment, and safety procedures for conducting waste site use, and limitations of personal protective equipment. It consists of lectures and demonstrations, problem-solving exercises, discussions, and field exercises. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 141
Site Investigation and Sampling
Introduction to the techniques for monitoring and sampling of soil, water, and air. Emphasis is on site investigation procedures for contamination by hazardous materials; the use of specialized sampling equipment, its maintenance and repair, and record keeping for chain-of-custody and other documentation. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 144
Building Systems Maintenance
Course is comprised of seven energy efficiency topics in building operations and maintenance. Building Operators Certification is a professional development program in the energy and resource efficient operation of buildings to qualify operations and maintenance staff for certification. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 150
Introduction to Homeland Security
This course introduces students to the United States legal system, and to the doctrines and statues which regulate the production, treatment, transportation, and disposal of hazardous materials. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 151
Introduction to Environmental Laws and Policies
This course introduces students to the United States legal system, and to the doctrines and statues which regulate the production, treatment, transportation, and disposal of hazardous materials. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 160
Intelligence Analysis: Security Management
This course examines intelligence analysis and its indispensable relationship to the security management of terror attacks, man-made disasters and natural disasters. It also explores vulnerabilities of our national defense and private sectors, as well as the threats posed to these institutions by terrorists, man-made disasters, and natural disasters. This course examines substantive issues regarding intelligence support of homeland security measures implemented by the United States and explore how the intelligence community operates. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Environmental Technology 150, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
ENVIRONMENTAL TECHNOLOGY 163
Asbestos Training for Workers and Supervisors
This course trains workers, supervisors, and contractors on an asbestos abatement job
in hazard assessment, regulations, procedures, operation and maintenance planning,
personal protection, and worksite safety according to AHERA and state regulations. Writing
assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 165
Asbestos Training for Inspectors
All inspectors of asbestos problems in public buildings must receive the equivalent of three
days of Environmental Protection Agency approved training in asbestos control, sampling
and inspection, including health effects, personal protection, regulations and liabilities,
according to AHERA and state regulations. Writing assignments, as appropriate to the
discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 170
Transportation and Border Security
This course provides students with an understanding of the variety of challenges inherent in
modern transportation and border security challenges, as well as the technological solutions
employed to address these challenges. The course covers the period from 9/11 to the
present. The course explores the topics of seaports, ships, aircraft, airports, trains, train
stations, trucks, highways, bridges, rail lines, pipelines, and buses. Students will be required
to discuss the legal, economic, political, and cultural concerns and impacts associated with
transportation and border security. Writing assignments, as appropriate to the discipline, are
part of the course.
Prerequisite(s): Grade of C or better in Environmental Technology 160, or consent of
Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 175
Hazardous Material Handling and Transportation
This course is designed to explore the regulations involving the transportation of hazardous
materials and waste. It includes manifesting, generator and transporter standards,
Department of Transportation hazard classes, placards, labels, markings, spill response,
and driver responsibilities. Writing assignments, as appropriate to the discipline, are part
of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 181
Emergency Response Levels I, II, III
This course will train personnel responding to hazardous materials emergencies on the
requirements outlined in the appropriate OSHA regulations and NFPA standards for Levels
I, II, and III. The emphasis is on hazard and risk assessment, safety, basic chemistry,
personal protective equipment, spill containment and confinement, decontamination, and
incident record keeping and reporting. This course will satisfy the training requirements
for Emergency Response Levels I, II, and III. Writing assignments, as appropriate to the
discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 190
Introduction to Animal Sciences
This is a survey course that will provide a firm biological and natural sciences background
to students for understanding the principles important to the raising and management of
livestock and companion animals. Students will have the opportunity to learn from animal
industry leaders. The course is team taught to incorporate Animal Sciences instructors who
are specialists in their subject matter areas. Writing assignments, as appropriate to the
discipline, are part of the course.
Prerequisite(s): Placement test, or grade of C or better in English 101 and Mathematics 118
or higher.
4 LECTURE HOURS. 4 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 191
Introduction to Crop Sciences
This course is designed to introduce students to the basic principles of plant growth, including
human and environmental influences and the theoretical and practical application of
agronomic principles to crop production. It also serves as an introduction to basic agronomy
revolving around crop production in the Midwest. The subject matter presented will provide
an overview of major aspects of plant and soil management, pest control, and soil and water
conservation issues and practices and how they affect growth and development. Writing
assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Student should be capable of college entry-level reading, writing, and
mathematics.
4 LECTURE HOURS. 4 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 192
Introduction to Soil Science
This course is designed to provide a comprehensive treatment of the basic principles of
soils as they exist and interact in the environment. The course emphasizes soil as a natural
body in nature, its formation, classification, chemical and physical properties. The course
is designed to be equally useful to non-agricultural production students, including those
studying plant science, ecology and environmental science, and to students in curricula such
as agronomy, crop science, soil science, horticulture, and forestry. Writing assignments, as
appropriate to the discipline, are part of the course.
Prerequisite(s): Successful completion of high school chemistry is required.
4 LECTURE HOURS. 4 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 193
Introduction to Horticulture
This course is designed to offer students a general introduction to the principles of plant
growth and development as they apply to the wide range of horticultural crops and the
industries related to production, marketing and utilization of horticultural crops. Writing
assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 203
Advanced Emergency Planning
This course covers the planning required for specific emergency response actions including
emergency evacuation, housing, logistics and others. Course information is presented in the
context of exercise design as part of pre-planning for response. Writing assignments, as
appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Environmental Technology 103 or consent of Department
Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
ENVIRONMENTAL TECHNOLOGY 204
Residential Energy Systems
Course addresses energy systems and energy efficiency technologies utilized in single- and multi-family residential building forms. Covers systems design and installation in both new construction and retrofit projects. Introduces field auditing techniques, environmental impacts (indoor air quality, asbestos, lead, VOC’s, radon, waste disposal issues, etc.), worker health and safety considerations, Energy Star certification, building commissioning procedures, and local regulatory requirements. An off-campus field trip to a residential “green” building/construction site will be scheduled as part of this course. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 205
Terrorism Planning
Prerequisite(s): Grade of C or better in Environmental Technology 103 is highly recommended. This course is designed to focus on the particular management issues associated with large-scale emergencies that require response from multiple entities including the federal government. The course will include a study of the National Incident Management System (NIMS) that is activated for incidents of national significance. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 209
Advanced Urban Agroecology
This course explores ways to apply the knowledge and skills acquired through the full sequence of classes. The student will be expected to identify a practicum location and spend 64 hours working (either with or without compensation) on projects associated with the organization and relevant to the course material. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Environmental Technology 103 is highly recommended. Successful completion of Environmental Technology 103 is highly recommended.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 211
Recycling and Waste Minimizing
This course presents information on reuse and recycling of non-hazardous materials that dominate the municipal waste system. Waste reduction techniques for industrial processes that generate hazardous waste constitute the second half of the course. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 212
Advanced Incident Command
This course is designed to focus on the particular management issues associated with large-scale emergencies that require response from multiple entities including the federal government. The course will include a study of the National Incident Management System (NIMS) that is activated for incidents of national significance. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Environmental Technology 111 and 112 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 214
Institutional Energy Systems
Course covers the types of energy systems and energy efficiency technologies in use in commercial, industrial, and high-rise buildings. Includes design, installation, testing, assessment, and operation of technologies in these structures, and details the integration of system control components. Also encompasses a synopsis of environmental, health and safety for construction and post-construction activities, Energy Star, LEED certification, other pertinent programs and regulatory aspects. An off-campus field trip to an institutional “green” building/construction site will be scheduled as part of this course. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 215
Advanced Weapons of Mass Destruction
Prerequisite(s): Grade of C or better in Environmental Technology 100, 101, 105 and 205 or consent of Department Chairperson. This course applies the basic concepts from EM introduction to weapons of mass destruction (WMD) to specific potential situations where these weapons may be used. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 221
Emergency Management Operations I
Prerequisite(s): Grade of C or better in Environmental Technology 111 and 112 (concurrent enrollment will not qualify) or consent of Department Chairperson. This course applies the basic concepts from EM introduction to weapons of mass destruction (WMD) to specific potential situations where these weapons may be used. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 222
Emergency Management Operations II
Prerequisite(s): Consent of Department Chairperson/Coordinator. A field course in which students will study the application of the concepts covered in the program through direct observation of emergency response activities performed by various government agencies. Students will be placed as interns in government agencies in this course. Students registering for this course must meet all prerequisite requirements and submit to a criminal background check. Writing assignments, as appropriate to the discipline, are part of the course.
20 LAB HOURS. 4 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 225
Psychology of Terrorism
Prerequisite(s): Grade of C or better in Environmental Technology 100, 101, 105 and 205 or consent of Department Chairperson. This course examines the motivations of terrorist groups, the goals of terrorism, and the impacts of terrorism events on societies. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 226
Disaster Psychology
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson. This course examines the psychological impacts of disasters on both victims and responders. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.
ENVIRONMENTAL TECHNOLOGY 231
Treatment/Storage/Disposal of Hazardous Materials
This course introduces treatment, storage, and disposal of hazardous wastes, or hazardous constituents. The emphasis is on various technologies, including treatment, land disposal, surface impoundments, solidification, incineration and disposal management. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 241
Environmental Sampling
This course is an in-depth study of the procedures and concepts used by EPA to investigate sites. Emphasis is on hazardous waste at both controlled and uncontrolled sites. The course will include the investigation of ground water, surface water, air, and soil contamination including health and risk assessments. This course is designed for students interested in the fields of environmental engineering and environmental science. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Environmental Technology 121 and 131.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 243
Environmental Analysis
This course will introduce students to the foundations of environmental chemistry. Man-made and natural systems will be examined. Students will be encouraged to qualify and quantify the relationships between chemistry and the environment. United States Environmental Protection Agency analytical requirements will be surveyed using inductively coupled argon plasma, gas chromatography, mass spectrometry, ion chromatography and UV-Vis spectrometry, among other state-of-the-art analytical technologies. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Chemistry 121 and Biology 106.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 244
Energy Equipment Troubleshooting
A second tier course comprised of four (4) core classes in maintenance, operation, and diagnostics of electrical and HVAC systems, and two of four (2 of 4) possible electives in system specialty topics. Buildings Operator Certification is a professional development program in the energy and resource efficient operation of buildings to qualify operations and maintenance staff for certification. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

ENVIRONMENTAL TECHNOLOGY 271
Legal Issues in Hazardous Waste Management
This course will further students’ knowledge of the legal problems and financial liabilities that may be associated with producing, handling, storage, and disposal of hazardous materials. It is designed to explore the legal aspects and ramifications in production, storage and disposal of hazardous waste. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Environmental Technology 151.
3 LECTURE HOURS. 3 CREDIT HOURS.

ESL INTEGRATED

ESL INTEGRATED 98
Intermediate Integrated ESL
This is an integrated reading/writing course at the intermediate ESL Level designed to increase students’ receptive and productive command of written English. The focus is on grammatical structures, as well as reading and composition at the intermediate level. Writing assignments, as appropriate to the discipline, are part of the course. Allowed Repeatable Course: Course may be repeated up to three times and may count for a maximum of six credit hours. ARC: 4 times.
Prerequisite(s): Consent of Department Chairperson required for repeatability. ESL Placement test and interview, or consent of Department Chairperson.
6 LAB HOURS. 6 LECTURE HOURS.

ESL INTEGRATED 99
High Intermediate ESL
This is an integrated reading/writing course at the high-intermediate ESL level designed to increase students’ receptive and productive command of written English. The focus is on sentence structure, reading and authentic texts, and essay writing. Writing assignments, as appropriate to the discipline, are part of the course. Allowed Repeatable Course: Course may be repeated up to three times and may count for a maximum of six credit hours. ARC: 4 times.
Prerequisite(s): Consent of Department Chairperson required for repeatability. ESL Placement test and interview, or consent of Department Chairperson.
6 LAB HOURS. 6 LECTURE HOURS.

ESL INTEGRATED 100
Advanced Integrated ESL
This is an integrated reading/writing course at the Advanced ESL Level designed to increase students’ receptive and productive command of written English. There is a review of sentence structure and sentences connection; extensive reading of authentic texts, including academic ones; and frequent essay-writing. Writing assignments, as appropriate to the discipline, are part of the course. Allowed Repeatable Course: Course may be repeated up to three times and may count for a maximum of six credit hours. ARC: 4 times.
Prerequisite(s): Consent of Department Chairperson required for repeatability. ESL Placement test and interview or grade of C or better in ESL Integrated 99 or ESL English 99 and ESL Reading 99, or consent of Department Chairperson.
6 LAB HOURS. 6 LECTURE HOURS.

ESL READING

ESL READING 98
Special Reading Skills
Special reading skills for non-native speakers of English; focus is on comprehension and analysis of reading materials and study of American idioms. Writing assignments, as appropriate to the discipline, are part of the course. Allowed Repeatable Course: Course may be repeated up to three times and may count for a maximum of three credit hours. Consent of Department Chairperson required for repeatability. ARC: 4 times.
Prerequisite(s): Qualifying score on ESL Placement test and oral interview, grade of C or better in ESL Writing 98 and ESL Speech 98, or consent of Department Chairperson.
3 LAB HOURS. 3 LECTURE HOURS.
**ESL READING 99**  
**High Intermediate Reading Skills**  
For students who need to improve their reading skills: efficient reading of textbooks and other materials including work in mechanics of reading, vocabulary development, comprehension, and rate of reading. Writing assignments, as appropriate to the discipline, are part of the course.  
*Allowed Repeatable Course:* Course may be repeated up to three times and may count for a maximum of three credit hours. Consent of Department Chairperson required for repeatability.  
**ARC:** 4 times.  
Prerequisite(s): Placement test, or grade of C or better ESL Reading 98, or consent of Department Chairperson.  
3 LAB HOURS. 3 CREDIT HOURS.

**ESL READING 100**  
**Advanced Reading Skills**  
Focus on comprehension and analysis of college-level reading materials and study of American idioms. Writing assignments, as appropriate to the discipline, are part of the course.  
*Allowed Repeatable Course:* Course may be repeated up to three times and may count for a maximum of three credit hours. Consent of Department Chairperson required for repeatability.  
**ARC:** 4 times.  
Prerequisite(s): Placement test, or grade of C or better in ESL Reading 99, or consent of Department Chairperson.  
3 LAB HOURS. 3 CREDIT HOURS.

**ESL SPEECH**

| **ESL SPEECH 98**  | **Intermediate Speech**  | Emphasis on achieving competency required for successful pursuit of higher education: pronunciation drills, pattern drills, participation in group discussion and presentation of brief speeches. Writing assignments, as appropriate to the discipline, are part of the course.  
*Allowed Repeatable Course:* Course may be repeated up to three times and may count for a maximum of three credit hours. Consent of Department Chairperson required for repeatability.  
**ARC:** 4 times.  
Prerequisite(s): Placement Test, or consent of Department Chairperson and grade of C or better in ESL Writing 98 and ESL Reading 98.  
3 LAB HOURS. 3 CREDIT HOURS. |
| **ESL SPEECH 99**  | **High Intermediate Speech**  | Emphasis on conversation, group discussion, and listening skills to improve communication to enhance academic pursuits. Writing assignments, as appropriate to the discipline, are part of the course.  
*Allowed Repeatable Course:* Course may be repeated up to three times and may count for a maximum of three credit hours. Consent of Department Chairperson required for repeatability.  
**ARC:** 4 times.  
Prerequisite(s): Placement test and oral interview or grade of C or better in ESL Speech 98, or consent of Department Chairperson.  
3 LAB HOURS. 3 CREDIT HOURS. |
| **ESL SPEECH 100**  | **Advanced Speech**  | The goal of this speech class is to upgrade the oral communication skills of students whose native language is not English, and to prepare them for Speech 101. Emphasis is placed on oral presentations, as well as comprehensibility and use of conversational techniques. Writing assignments, as appropriate to the discipline, are part of the course.  
*Allowed Repeatable Course:* Course may be repeated up to three times and may count for a maximum of three credit hours. Consent of Department Chairperson required for repeatability.  
**ARC:** 4 times.  
Prerequisite(s): Placement test and oral interview, or grade of C or better in ESL Speech 99, or consent of Department Chairperson.  
3 LAB HOURS. 3 CREDIT HOURS. |

**ESL WRITING**

| **ESL WRITING 98**  | **Special Grammar and Composition**  | Writing skills, linguistic and idiomatic patterns are emphasized. Writing assignments, as appropriate to the discipline, are part of the course.  
*Allowed Repeatable Course:* Course may be repeated up to three times and may count for a maximum of three credit hours. Consent of Department Chairperson required for repeatability.  
**ARC:** 4 times.  
Prerequisite(s): Placement test and oral interview; ESL Reading 98 and ESL Speech 98, or consent of Department Chairperson.  
3 LAB HOURS. 3 CREDIT HOURS. |

| **ESL WRITING 99**  | **High Intermediate Grammar and Composition**  | Intensive review and refinement of grammar and composition. Writing assignments, as appropriate to the discipline, are part of the course.  
*Allowed Repeatable Course:* Course may be repeated up to three times and may count for a maximum of three credit hours. Consent of Department Chairperson required for repeatability.  
**ARC:** 4 times.  
Prerequisite(s): Placement test, or grade of C or better in ESL Writing 98, or consent of Department Chairperson.  
3 LAB HOURS. 3 CREDIT HOURS. |

| **EXERCISE SCIENCE AND SPORTS STUDIES**  | **EXERCISE SCIENCE AND SPORTS STUDIES 101**  | Certified Personal Trainer Preparation  
This course introduces the knowledge and skills necessary to practice as a certified personal trainer for a variety of client populations, including the foundations of client interaction, the assessment of physiological, functional, and biomechanical aspects of human movement in the individual, and the design and supervision of strength and aerobic individual and group exercise programs. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or Consent of Department Chairperson.  
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS. |

| **EXERCISE SCIENCE AND SPORTS STUDIES 102**  | Personal Exercise Trainer Practicum  
The exercise practicum provides practical experience for students enrolled in the personal trainer program. The practicum is focused on the application and synthesis of the knowledge base skills of a personal trainer in a supervised commercial, community or clinical fitness setting in order to actively engage individuals of various ages and functional abilities. The course includes a campus-based lecture series that provides review and supplemental knowledge of the personal training profession. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Grade of C or better in Exercise Science and Sports Studies 101.  
2 LECTURE HOURS. 10 LAB HOURS. 4 CREDIT HOURS. |
EXERCISE SCIENCE AND SPORTS STUDIES 112
Functional Anatomy
The course provides an organized study of anatomy and kinesiology. Emphasis is placed on the integration of structure and function of the skeletal, articular, muscular, nervous, and circulatory systems. Upon completion, students should be able to describe the components and demonstrate function of these systems as applied to physical therapy. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, Biology 116, 120, or consent of Program Director/Department Chairperson.
2 LECTURE HOURS. 3 CREDIT HOURS.

EXERCISE SCIENCE AND SPORTS STUDIES 206
Sports First-Aid
This course will introduce students to the proper protocols to follow to prevent injuries and to administer sports first-aid. Students will learn how to perform physical assessment, conduct emergency action steps, and administer first-aid. Topics presented will include control of bleeding, treatment for tissue damage, and unstable injuries, moving injured athletes and returning athletes to play. Successful completion of the course leads to partial certification through the American Sports Education Program (ASEP) Professional Education Program. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Exercise Science and Sports Studies 101, or consent of Department Chairperson.
2 LECTURE HOURS. 2 CREDIT HOURS.

EXERCISE SCIENCE AND SPORTS STUDIES 209
Corrective Exercise Training
This course will present an evidence-based approach to corrective exercise, the components of a comprehensive solution, and the practical know-how to develop and implement integrated strategies to improve common movement impairments. Students completing this course will be prepared to take National Academy of Sports Medicine (NASM) Corrective Exercise Specialist credentialing examination. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Exercise Science and Sports Studies 102 and 112, or consent of Department Chairperson.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

EXERCISE SCIENCE AND SPORTS STUDIES 214
Exercise and Health Psychology
This course presents an overview of psychological and social aspects as related to health promotion, health compromising and enhancing behaviors, stress management, coping strategies, coping with disease, coping with injury, the influence of social and physical environments on health, cognitive process of health information, health belief models, and models for behavior change. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

FINE ARTS

FINE ARTS 103
Theater Arts
A cross-disciplinary approach to the performing arts. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

FINE ARTS 104
The World of the Cinema
Study of various types of films; covers historical development, production methods, technique of films and critical evaluation. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

FINE ARTS 105
History of Painting, Sculpture and Architecture
Survey of art from pre-historic to contemporary. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

FINE ARTS 107
History of Architecture, Painting and Sculpture I
Survey of art from pre-history through the 17th Century. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

FINE ARTS 108
History of Architecture, Painting and Sculpture II
Survey of art from the 18th Century to the present. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

FINE ARTS 109
History of Cinema
An international survey of the history of cinema, from the silent era to contemporary filmmaking, emphasizing a study of various film genres from around the world and innovations in film production that have had significant influence on film as an art form. Full-length films and film clips will be screened in class. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

FINE ARTS 110
Opera and the Humanities
Study of opera as a medium that communicates the philosophic, aesthetic and psychological perspectives of composers and their eras includes selected operas which parallel those offered in the community and present similar communication experiences. Written material, radio broadcasts of operas, opera commentaries and opera performances will be utilized. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS
Credit Courses

FIRE SCIENCE MANAGEMENT/FIRE SERVICE OPERATIONS 101
Principles of Emergency Services
This course provides an overview of fire protection and emergency services: culture and history of fire science and emergency services, fire loss analysis, organizations of public and private fire protection services, and fire departments as part of local government. This foundation course includes introduction to fire protection, safety, tactics and safety. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Fire Technology 101 or Fire Science Management/Fire Service Operations 101 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

FIRE SCIENCE MANAGEMENT/FIRE SERVICE OPERATIONS 102
Strategies and Tactics I
This course provides the principles of fire ground control through utilization of personnel, equipment, and extinguishing agents. Basic procedures for suppression of fire; application to principles of building construction; coordination of human resources and equipment. Writing assignments, as appropriate to the discipline, are part of the course. This course will meet requirements of the Illinois Fire Protection Personnel Standards and Education Commission for Strategy and Tactics I.
Prerequisite(s): Grade of C or better in Fire Science Management/Fire Service Operations 101 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

FIRE SCIENCE MANAGEMENT/FIRE SERVICE OPERATIONS 103
Fire Behavior and Combustion
History of fire science; theories and fundamentals of fire behaviors including how and why fires start, spread and are controlled. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Fire Science Management/Fire Service Operations 101 or instructor approval.
3 LECTURE HOURS. 3 CREDIT HOURS.

FIRE SCIENCE MANAGEMENT/FIRE SERVICE OPERATIONS 104
Occupational Safety and Health for Emergency Services
This course introduces the basic concepts of occupational health and safety as it relates to emergency service organizations. Topics include risk and hazard evaluation and control procedures for emergency service organizations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Fire Science Management/Fire Service Operations 101.
3 LECTURE HOURS. 3 CREDIT HOURS.

FIRE SCIENCE MANAGEMENT/FIRE SERVICE OPERATIONS 197
Principles of Emergency Responder Safety and Survival
Basic principles and history related to the national firefighter life safety initiatives, focusing on the need for cultural and behavior change throughout the emergency service. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Fire Science Management/Fire Service Operations 101.
3 LECTURE HOURS. 3 CREDIT HOURS.

FIRE SCIENCE MANAGEMENT/FIRE SERVICE OPERATIONS 198
Strategies and Tactics II
Subject areas include strategic concepts in fire-fighting, duties and responsibilities of command officers, incident command system (scene, manpower, apparatus, and Rapid Intervention Teams (RIT) management), multi-company operations, disasters, high-rise operations, critical incident stress, and tactical exercises. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Fire Science Management/Fire Service Operations 102.
3 LECTURE HOURS. 3 CREDIT HOURS.

FIRE SCIENCE MANAGEMENT/FIRE SERVICE OPERATIONS 200
Management and Leadership I
This course is designed to provide information and skills required to act in primary supervisory role with a focus on leadership in fire service. Topics covered include basic management principles and concepts, leadership styles and conflict resolution. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Fire Science Management/Fire Service Operations 101.
3 LECTURE HOURS. 3 CREDIT HOURS.

FIRE SCIENCE MANAGEMENT/FIRE SERVICE OPERATIONS 201
Fire Service Hydraulics
This course provides a foundation of theoretical knowledge in order to understand the principles of the use of water in fire protection and to apply hydraulic principles to analyze and to solve water supply problems. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Demonstration of a competency in high school level algebra or the equivalent.
3 LECTURE HOURS. 3 CREDIT HOURS.

FIRE SCIENCE MANAGEMENT/FIRE SERVICE OPERATIONS 202
Building Construction for Fire Service
This course focuses on the study of the components of building construction related to fire fighting, fire resistance and life safety. The elements of construction and design of structures are shown to be key factors when inspecting buildings, pre-planning fire operations, and operating at emergencies.
Prerequisite(s): Grade of C or better in Fire Technology 101 or Fire Science Management/Fire Service Operations 101 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

FIRE SCIENCE MANAGEMENT/FIRE SERVICE OPERATIONS 203
Fire Suppression and Protection Systems
This course provides information relating to the features of design and operation of fire alarm systems, water-based fire suppression systems, special hazard fire suppression systems, water supply for fire protection and portable fire extinguishers. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Fire Science Management/Fire Service Operations 101.
3 LECTURE HOURS. 3 CREDIT HOURS.

FIRE SCIENCE MANAGEMENT/FIRE SERVICE OPERATIONS 204
Management and Leadership II
This course focuses on the role and responsibility of a fire officer who may be in charge of a single company or station. The course provides information on leadership styles, communication, group dynamics, coaching and counseling and performance appraisal. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Fire Science Management/Fire Service Operations 200.
3 LECTURE HOURS. 3 CREDIT HOURS.

FIRE SCIENCE MANAGEMENT/FIRE SERVICE OPERATIONS 205
Chemistry of Flammable Materials
This course provides basic chemistry relating to the categories of hazardous materials including recognition, identification, reactivity, and health hazards encountered by emergency services. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS

CREDIT COURSE DESCRIPTIONS

Credit Courses

FIRE SCIENCE MANAGEMENT/FIRE SERVICE OPERATIONS 206
Management and Leadership III
This course is the third in a four part sequence focusing on the roles and responsibilities of a department fire officer, cultivating leadership styles and advanced management skills. Writing assignments, as appropriate to the discipline, are part of the course. This course will meet requirements of the Illinois Fire Protection Personnel Standards and Education Commission for Management II - pending approval with OSFM for Fire Officer II requirement. Prerequisite(s): Grade of C or better in Fire Science Management/Fire Service Operations 204 and instructor approval.

3 LECTURE HOURS. 3 CREDIT HOURS.

FIRE SCIENCE MANAGEMENT/FIRE SERVICE OPERATIONS 210
Principles of Fire Prevention
This course provides fundamental knowledge relating to the field of fire prevention. Topics include: history and philosophy of fire prevention; organization and operation of a fire prevention bureau; use and application of codes and standards; plans review; fire inspections; fire and life safety education; and fire investigation. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Grade of C or better in Fire Science Management/Fire Service Operations 101.

3 LECTURE HOURS. 3 CREDIT HOURS.

FIRE SCIENCE MANAGEMENT/FIRE SERVICE OPERATIONS 211
Management and Leadership IV
This course is the fourth in a four part sequence focusing on the roles and responsibilities of a department fire officer, cultivating leadership styles and advanced management skills. Writing assignments, as appropriate to the discipline, are part of the course. This course will meet requirements of the Illinois Fire Protection Personnel Standards and Education Commission for Management IV - pending approval with OSFM for Fire Officer II requirement. Prerequisite(s): Grade of C or better in Fire Science Management/Fire Service Operations 206 and instructor approval.

3 LECTURE HOURS. 3 CREDIT HOURS.

FIRE SCIENCE MANAGEMENT/FIRE SERVICE OPERATIONS 212
Fire Investigation I
This course is intended to provide the student with the fundamentals and technical knowledge needed for proper fire scene interpretations, including recognizing and conducting origin and cause, preservation of evidence and documentation, scene security, motives of the fire setter, and types of fire causes. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Grade of C or better in Fire Science Management/Fire Service Operations 101, 202 and 103.

3 LECTURE HOURS. 3 CREDIT HOURS.

FIRE SCIENCE MANAGEMENT/FIRE SERVICE OPERATIONS 213
Fire Investigation II
This course is intended to provide the student with advanced technical knowledge on the rule of law, fire scene analysis, fire behavior, evidence collection and preservation, scene documentation, case preparation and courtroom testimony. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Grade of C or better in Fire Science Management/Fire Service Operations 212.

3 LECTURE HOURS. 3 CREDIT HOURS.

FIRE SCIENCE MANAGEMENT/FIRE SERVICE OPERATIONS 220
Fire Instructor I
Methods and techniques of teaching for fire service instructors; principles of adult learning; teaching methodology; student assessment and evaluation. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Grade of C or better in Fire Technology 101 or Fire Science Management/Fire Service Operations 101 or consent of Department Chairperson.

3 LECTURE HOURS. 3 CREDIT HOURS.

FIRE SCIENCE MANAGEMENT/FIRE SERVICE OPERATIONS 221
Fire Instructor II
Methods and Techniques for Fire Service Instructor II Training will examine methods and techniques for planning, development, and conducting a Fire Service Training Program. This course is designed for leaders in the emergency services field who desire to analyze, design, implement and evaluate training methods and techniques. Writing assignments, as appropriate to the discipline, are part of the course. This course will meet requirements of the Illinois Fire Protection Personnel Standards and Education Commission for the Standard Level II Instructor Certificate.

Prerequisite(s): Grade of C or better in Fire Science Management/Fire Service Operations 220.

3 LECTURE HOURS. 3 CREDIT HOURS.

FIRE SCIENCE TECHNOLOGY

FIRE SCIENCE TECHNOLOGY 101
Introduction to Fire Science
History of fire science; principles of fire prevention, protecting, and extinguishing; discussion of individual career opportunities. Writing assignments, as appropriate to the discipline, are part of the course.

3 LECTURE HOURS. 3 CREDIT HOURS.

FIRE SCIENCE TECHNOLOGY 102
Fire Fighting Tactics
Basic procedures for suppression of fire; application to principles of building construction; coordination of human resources and equipment. Writing assignments, as appropriate to the discipline, are part of the course.

3 LECTURE HOURS. 3 CREDIT HOURS.

FIRE SCIENCE TECHNOLOGY 103
Fire Suppression Systems
Fire suppression and protection systems, including characteristics and usage of sprinkler systems, wet pipe systems, stand pipe systems, heat detectors, smoke detectors; covers components of sprinkler systems, valves, O.S.Y. and P.I.V valves, spacing of sprinkler heads according to occupancy classification, temperature rating and color coding of sprinkler heads, and Fire Department support, connections and emergency involvement. Writing assignments, as appropriate to the discipline, are part of the course.

3 LECTURE HOURS. 3 CREDIT HOURS.

FIRE SCIENCE TECHNOLOGY 104
Fire Suppression Apparatus
Basic principles of fire apparatus construction, operation, and maintenance; consideration of pumps, pumper procedures and tests, aerial ladders and platforms, elementary hydraulic calculations. Writing assignments, as appropriate to the discipline, are part of the course.

3 LECTURE HOURS. 3 CREDIT HOURS.

FIRE SCIENCE TECHNOLOGY 197
Fire Service Orientation
Organization and operation of the fire department; handling hose, raising ladders, use of ropes, masks, and other fire service appliances; automatic fire alarm and sprinkler systems, telegraph fire alarm and code of signals. Writing assignments, as appropriate to the discipline, are part of the course.

3 LECTURE HOURS. 3 CREDIT HOURS.
### CREDIT COURSE DESCRIPTIONS

<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Description</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>FIRE SCIENCE TECHNOLOGY 198</td>
<td>Emergency Medical Orientation</td>
<td>Instruction in emergency medical care of injured persons; operation of resuscitation and other emergency medical equipment; use of emergency extrication equipment; certification in standard emergency medical practices. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>3 LECTURE HOURS. 3 CREDIT HOURS.</td>
</tr>
<tr>
<td>FIRE SCIENCE TECHNOLOGY 200</td>
<td>Fire Administration</td>
<td>Analysis of basic objectives, personnel management, motor apparatus, equipment, buildings, communications, alarm systems; comparison of local, state, and federal fire control agencies. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>3 LECTURE HOURS. 3 CREDIT HOURS.</td>
</tr>
<tr>
<td>FIRE SCIENCE TECHNOLOGY 201</td>
<td>Fire Service Hydraulics</td>
<td>Review of basic mathematics for study of properties of fluids, force, pressure and flow velocities; operation and characteristics of fire pumps; generation of fire streams and water distribution systems. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>3 LECTURE HOURS. 3 CREDIT HOURS.</td>
</tr>
<tr>
<td>FIRE SCIENCE TECHNOLOGY 202</td>
<td>Building Construction for Fire Service</td>
<td>Study of exterior and interior material and structural construction of buildings in relation to fire resistance, safety, and firefighting. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>3 LECTURE HOURS. 3 CREDIT HOURS.</td>
</tr>
<tr>
<td>FIRE SCIENCE TECHNOLOGY 203</td>
<td>Fire Protection Systems</td>
<td>Study of required standards for water supply, protection systems, automatic sprinklers and special extinguishing systems; analysis of automatic signaling and detection systems. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>3 LECTURE HOURS. 3 CREDIT HOURS.</td>
</tr>
<tr>
<td>FIRE SCIENCE TECHNOLOGY 204</td>
<td>Fire Fighting Tactics II</td>
<td>Study of human labor and apparatus management; types of fires requiring a unique suppression approach.</td>
<td>3 LECTURE HOURS. 3 CREDIT HOURS.</td>
</tr>
<tr>
<td>FIRE SCIENCE TECHNOLOGY 205</td>
<td>Chemistry of Flammable Materials</td>
<td>Properties and fire suppression of chemically active and hazardous materials; flammable liquids, combustible solids, oxidizers, corrosive materials. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>3 LECTURE HOURS. 3 CREDIT HOURS.</td>
</tr>
<tr>
<td>FIRE SCIENCE TECHNOLOGY 206</td>
<td>Fire Codes</td>
<td>Study of national, building, and other codes relating to fire prevention and protection; relationship between building inspection agencies and fire prevention organizations. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>3 LECTURE HOURS. 3 CREDIT HOURS.</td>
</tr>
<tr>
<td>FIRE SCIENCE TECHNOLOGY 210</td>
<td>Fire Prevention Fund I</td>
<td>Principles of fire prevention program; planning and implementation of fire inspection; recognition of fire hazards and causes; building construction types and materials, and private protective systems. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>3 LECTURE HOURS. 3 CREDIT HOURS.</td>

<td>FIRE SCIENCE TECHNOLOGY 220</td>
<td>Fire Service Training I Instructor</td>
<td>Methods and techniques of teaching for fire service instructors; principles of teaching adults, how adults learn, teaching procedures and methods, training aids and services, testing and evaluation; includes practice teaching and evaluation by qualified observers; course will meet requirements of the Illinois Fire Protection Personnel Standards and Education Commission for the Basic Level Instructor Certification. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>3 LECTURE HOURS. 3 CREDIT HOURS.</td>
</tr>
<tr>
<td>FIRE SCIENCE TECHNOLOGY 221</td>
<td>Fire Service Training II Instructor</td>
<td>Methods and techniques for planning, development, and conducting a Fire Service Training Program; covers objectives of a program, evaluating training, techniques of conference leadership; course will meet requirements of the Illinois Fire Protection Personnel Standards and Education Commission for the Standard Level Instructor Certificate. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>3 LECTURE HOURS. 3 CREDIT HOURS.</td>
</tr>
<tr>
<td>FOOD SERVICE ADMINISTRATION</td>
<td>Food Service Sanitation/Recertification</td>
<td>Prepare yourself to be certified or recertified by the City of Chicago and the State of Illinois in Food Service Sanitation, including training and certifying food vendors for outdoor festivals. Food protection will be emphasized through sanitation training.</td>
<td>1 LECTURE HOURS. 1 CREDIT HOURS.</td>
</tr>
</tbody>
</table>
FOOD SERVICE ADMINISTRATION 222
Food Service Sanitation
Sanitation in preparation and service of food; sanitation chemicals, equipment and materials; ordinances and inspection procedures to insure sanitary dispensing of food. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

FOUNDATIONAL STUDIES ESL

FOUNDATIONAL STUDIES ESL 4001
English Academic Purposes I
This is the first of six designed for non-native speakers of English who are in preparation for college. This introduces students to the American College system and focuses on oral language development; speaking, listening, communication, reading skills, and written expression. Writing assignments, as appropriate to the discipline, are part of the course. ARC: 2 times.
3 LECTURE HOURS. 3 CREDIT HOURS.

FOUNDATIONAL STUDIES ESL 4002
English Academic Purposes II
This is the second course designed for non-native speakers of English who are preparing to enter college. This course is a continuation of oral language development—speaking, listening, and communication; reading skills, and written expression. Emphasis placed on listening skills, discussion, and vocabulary development. Writing assignments, as appropriate to the discipline, are part of the course. ARC: 2 times.
3 LECTURE HOURS. 3 CREDIT HOURS.

FOUNDATIONAL STUDIES ESL 4003
English Academic Purposes III
This is the third course of six designed for non-native speakers of English who are preparing to enter college. This course focuses on oral language development, skills for reading college textbooks, skills for writing about subject area content, interpreting graphically presented information, locating and using information, and using the college library and resource center. Writing assignments, as appropriate to the discipline, are part of the course. ARC: 2 times.
3 LECTURE HOURS. 3 CREDIT HOURS.

FOUNDATIONAL STUDIES ESL 4004
English Academic Purposes IV
This is the fourth of six courses designed for non-native speakers of English who are preparing to enter college. This course focuses on oral language development, skills for reading college textbooks, skills for writing about subject area content, interpreting graphically presented information, locating and using information, and using the college library and resource center. Writing assignments, as appropriate to the discipline, are part of the course. ARC: 2 times.
3 LECTURE HOURS. 3 CREDIT HOURS.

FOUNDATIONAL STUDIES ESL 4005
English Academic Purposes V
Study of the form and content of effective writing. Review of the essentials of written and spoken grammar and usage, and intensive practice in writing complete sentences, effective paragraphs and short essays/compositions. Writing assignments, as appropriate to the discipline, are part of the course. ARC: 2 times.
3 LECTURE HOURS. 3 CREDIT HOURS.

FOUNDATIONAL STUDIES ESL 4006
English Academic Purposes VI
This is the last of the six courses designed for non-native speakers of English who are preparing to enter college. This course focuses on critical reading skills, research skills, essay writing, grammar, and discussion of current events and subject areas topics. Writing assignments, as appropriate to the discipline, are part of the course. ARC: 2 times.
3 LECTURE HOURS. 3 CREDIT HOURS.

FOUNDATIONAL STUDIES ESL 4007
ESL: College Prep I
This is the first of six college preparation courses designed for non-native speakers of English who have completed English for Academic Purposes. Each course provides a foundation for study in college content areas. This course focuses on study skills, critical thinking and reading of historical and other non-fiction prose, and correctness of written expression. Writing assignments, as appropriate to the discipline, are part of the course. ARC: 2 times.
3 LECTURE HOURS. 3 CREDIT HOURS.

FOUNDATIONAL STUDIES ESL 4008
ESL: College Prep II
This is the second of six college preparation courses designed for non-native speakers of English who have completed English for Academic Purposes. This course will continue to focus on the study skills and correctness of written expression and will apply critical reading and thinking skills to literature. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

FOUNDATIONAL STUDIES ESL 4009
ESL: College Prep III
This is the third of six concurrent college preparation courses for non-native speakers of English who have completed English for Academic Purposes. This course focuses on listening skills for academic purposes, note taking and study habits, writing to learn, and critical thinking and reading. Writing assignments, as appropriate to the discipline, are part of the course. ARC: 2 times.
3 LECTURE HOURS. 3 CREDIT HOURS.

FOUNDATIONAL STUDIES ESL 4010
ESL: College Prep IV
This is the fourth of six college preparation courses designed for non-native speakers of English who have completed English for Academic Purposes. This course continues to focus on listening skills for academic purposes, note taking and study habits, writing to learn, and critical thinking and reading. Writing assignments, as appropriate to the discipline, are part of the course. ARC: 2 times.
3 LECTURE HOURS. 3 CREDIT HOURS.

FOUNDATIONAL STUDIES ESL 4011
ESL: College Prep V
This is the fifth of six college preparation courses designed for non-native speakers of English who have completed English for Academic Purposes. This course focuses on lectures by visiting college professors, skills for reading science materials, academic writing, and strategies for college success. Writing assignments, as appropriate to the discipline, are part of the course. ARC: 2 times.
3 LECTURE HOURS. 3 CREDIT HOURS.
Credit Courses

This is the second course in a sequence of six courses designed to prepare high school
students for college level course work. This course will help students develop
writing, as appropriate to the discipline, are part of the course. ARC: 2 times.

3 LECTURE HOURS. 3 CREDIT HOURS.

This course is designed for students needing a review of basic Mathematics in order to
take college level Mathematics courses. This course provides a review of the rules of
addition, subtraction, multiplication and division using whole numbers and decimals. Writing
assignments, as appropriate to the discipline, are part of the course. ARC: 2 times.

3 LECTURE HOURS. 3 CREDIT HOURS.

This course is designed for students needing a review of basic Mathematics in order to take
college level Mathematics courses. This course focuses on percents, fractions, and integers.
Writing assignments, as appropriate to the discipline, are part of the course. ARC: 2 times.

3 LECTURE HOURS. 3 CREDIT HOURS.

This course is designed for students needing a review of basic Mathematics in order to take
college level Mathematics courses. This course will review powers and roots; basic concepts
of ratio, proportion, probability, and basic geometry. Writing assignments, as appropriate to the
discipline, are part of the course. ARC: 2 times.

3 LECTURE HOURS. 3 CREDIT HOURS.

This course is the last course in a six course sequence designed to prepare high school graduates
for college level course work. It is a continuation of Reading, Writing, and Critical Thinking I
and is designed to help high school graduates increase these skills for use in college level
course content areas. Writing assignments, as appropriate to the discipline, are part of the
course. ARC: 2 times.

3 LECTURE HOURS. 3 CREDIT HOURS.

This course is the fourth in a sequence of six courses designed to prepare high school graduates
for college level course work. This course will help students increase their reading, writing, and
critical thinking skills. Writing assignments, as appropriate to the discipline, are part of the
course. ARC: 2 times.

3 LECTURE HOURS. 3 CREDIT HOURS.

This course is the fifth in a sequence of six courses designed to prepare high school graduates
for college level course work. It is a continuation of Reading, Writing, and Critical Thinking I
and is designed to help high school graduates increase these skills for use in college level
course content areas. Writing assignments, as appropriate to the discipline, are part of the
course. ARC: 2 times.

3 LECTURE HOURS. 3 CREDIT HOURS.

This course is the third course in a series of six designed to help high school graduates develop
skills essential to effective reading. The emphasis on decoding skills will continue. Writing
assignments, as appropriate to the discipline, are part of the course. ARC: 2 times.

3 LECTURE HOURS. 3 CREDIT HOURS.

This is the second course in a sequence of six courses designed to prepare high school students for
college level course work. This course will help students develop additional
skills essential to effective reading. The emphasis on decoding skills will continue. Writing
assignments, as appropriate to the discipline, are part of the course. ARC: 2 times.

3 LECTURE HOURS. 3 CREDIT HOURS.
FOUNDATIONAL STUDIES WRITING 2003
Writing Mechanics III
This course is designed to improve the college writing skills of each student by understanding and implementing the writing process, mastering both paragraph and essay development—introduction, body, and conclusion—and other type prose and reinforcing grammar and usage skills, as well as punctuation, capitalization, and dictionary usage. Writing workshop methods will be used to enhance students' personal writing styles, improve composition abilities, and build confidence. Writing assignments, as appropriate to the discipline, are part of the course. ARC: 2 times.

3 LECTURE HOURS. 3 CREDIT HOURS.

FOUNDATIONAL STUDIES WRITING 2004
College Writing and Research Skills
This is the last course in a series of analytical writing. This course will concentrate on writing a research paper. The information presented includes choosing a topic, types and sources of data, and collecting and investigating facts and opinions about a limited topic from various sources. Writing assignments, as appropriate to the discipline, are part of the course. ARC: 2 times.

3 LECTURE HOURS. 3 CREDIT HOURS.

FRENCH

FRENCH 101
First Course French
Pronunciation and basic structures, speech patterns, reading, and writing skills. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Placement Exam.

4 LECTURE HOURS. 4 CREDIT HOURS.

FRENCH 102
Second Course French
Continuation of French 101. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Placement test, or grade of C or better in French 101.

4 LECTURE HOURS. 4 CREDIT HOURS.

FRENCH 103
Third Course French
Review and development of basic language skills, conducted in French. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Placement test, or grade of C or better in French 102 and consent of Department Chairperson.

4 LECTURE HOURS. 4 CREDIT HOURS.

FRENCH 104
Fourth Course French
Review of language structure and interpretation of readings, conducted in French. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Placement test or grade of C or better in French 103, and consent of Department Chairperson.

4 LECTURE HOURS. 4 CREDIT HOURS.

FRENCH 206
Intensive French Oral Practice
Practice in spoken language, fluency, and accuracy. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Placement test, or grade of C or better in French 104, and consent of Department Chairperson.

4 LECTURE HOURS. 4 CREDIT HOURS.

FRENCH 210
Modern French Civilization and Culture
Recent social, cultural, and historical trends, conducted in French and English. Writing assignments, as appropriate to the discipline, are part of the course.

3 LECTURE HOURS. 3 CREDIT HOURS.

FRENCH 213
Introduction to Modern French Literature
Selections from contemporary writings, conducted in French. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Placement test, or grade of C or better in French 104, and consent of Department Chairperson.

3 LECTURE HOURS. 3 CREDIT HOURS.

FRENCH 214
Readings in French Literature
Works from selected historical periods, conducted in French. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Placement test, or grade of C or better in French 104, and consent of Department Chairperson.

3 LECTURE HOURS. 3 CREDIT HOURS.

FRENCH PASTRY SCHOOL

FRENCH PASTRY SCHOOL 707
Food Service Technology
Introduces kitchen calculations, including costing and conversion, determining revenue and food cost, menu planning and pricing, cost control in a food service environment, and an overview of the use of computers in a professional kitchen. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 100, Reading 125, and Mathematics 98; concurrent enrollment in Culinary 721 and 723, or consent of Department Chairperson.

4 LECTURE HOURS. 4 CREDIT HOURS.

FRENCH PASTRY SCHOOL 712
Baking Theory and Problems
Instruction in formulas, new formulas and ingredients in the baking/pastry field. Evaluation of convenience mixes. Mathematics for bakers. Writing assignments, as appropriate to the discipline, are part of the course.

5 LECTURE HOURS. 5 CREDIT HOURS.
**FRENCH PASTRY SCHOOL 754**  
**Candy and Confectionery**  
In this course, students will learn about the history of chocolate, chocolate bi-products, tempering and handling of chocolate. They will learn to produce a wide range of chocolate candies. This class is taught using updated methods for traditional recipes with efficient production set-up. Writing assignments, as appropriate to the discipline, are part of the course.  
2 LECTURE HOURS. 2 CREDIT HOURS.

**FRENCH PASTRY SCHOOL 758**  
**Plated Desserts**  
This course focuses on simplified and cost-effective production methods, while stressing the importance of maintaining high quality by using the freshest ingredients. Students will be exposed to refreshing new presentations and elegant designs that will be carried out when they prepare several desserts including hot and cold, frozen desserts, fruit soups, parfaits, and a la minute desserts. Writing assignments, as appropriate to the discipline, are part of the course.  
4 LECTURE HOURS. 4 CREDIT HOURS.

**FRENCH PASTRY SCHOOL 761**  
**Chocolate and Sugar**  
Students will learn about the history, tempering and the fundamentals of chocolate and sugar. They will learn the latest techniques using chocolate colors, spray gun, use of different types of molds, making cut-out decorations, silk screens, pastillage, saturated sugar, pulled and blown sugar, spun and piped, bubble, straw, pured sugar and more. All of these techniques will be applied to the several show pieces each student will create and take home. Writing assignments, as appropriate to the discipline, are part of the course.  
5 LECTURE HOURS. 5 CREDIT HOURS.

**FRENCH PASTRY SCHOOL 762**  
**French Cakes and Pastries**  
In this course, students will learn to produce a wide variety of classical and modern French cakes suitable for restaurants, retail shops for large scale productions, using the latest assembling techniques and cost-effective production methods. These cakes will be highlighted with decorations such as silk screens, printed sponge, logos, chocolate and sugar decorations to name a few. Writing assignments, as appropriate to the discipline, are part of the course.  
4 LECTURE HOURS. 4 CREDIT HOURS.

**FRENCH PASTRY SCHOOL 779**  
**Safety and Sanitation**  
This course conveys the utmost importance of food professionals providing safe food to their customers. Students learn everything about food safety, sanitation, equipment, and food delivery. This is a comprehensive immersion into all aspects of handling food safely. The National Restaurant Association ServSafe® examination will be part of this course. Student must pass this exam in order to pass the 16-week program. Those who do not pass will have the opportunity to re-take the exam. Students who pass will be eligible for city and state certification. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Concurrent enrollment in French Pastry School 780, 781, 782 and 783.  
1 LECTURE HOUR. 1 CREDIT HOUR.

**FRENCH PASTRY SCHOOL 780**  
**Baking, Pastry and Technology**  
This course takes students through the technology and science of the ingredients of pastry. Students learn the differences between various dairy products and eggs, the different types of flours and sugars, and how the interactions of ingredients affect the outcome. Students learn basic skills and modeling, petit fours and party favors, as well as the historical development of celebration cakes. Students immerse themselves in the history of French pastry and cake making, the development of palate, the hierarchy of a kitchen, and an explanation of the wide variety of settings where graduates can use their craft. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Grade of C or better in French Pastry School 779. Concurrent enrollment in French Pastry School 781, 782 and 783.  
2 LECTURE HOURS. 6 LAB HOURS. 4 CREDIT HOURS.

**FRENCH PASTRY SCHOOL 781**  
**Cake Baking and Construction**  
This course covers all aspects of wedding, celebration, and specialty cake baking, constructing, and assembly. Recipe creations with taste and texture profile methods are covered in depth. Students learn a variety of doughs and fillings; the art of cake architecture; European classic recipes, cutting-edge creations, current trends, and sculpted cake methods; all this giving students a solid foundation necessary to create their own. Efficient production methods are taught and students will use these techniques to produce their own designs. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Grade of C or better in French Pastry School 779 and 780. Concurrent enrollment in French Pastry School 782 and 783.  
2 LECTURE HOURS. 9 LAB HOURS. 5 CREDIT HOURS.

**FRENCH PASTRY SCHOOL 782**  
**Cake Decorating Techniques**  
In this course students learn a wide variety of cake decorating techniques including elaborate gumpaste work, detailed piping techniques, French buttercream frosting, making rolled fondant from scratch and rolled fondant cake covering, chocolate decorations specifically tailored for cakes, pastillage and pressed sugar accents, pulled and blown sugar flowers and ribbons, mold making methods, airbrushing skills, figurine modeling and 3D sculpted cakes. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Grade of C or better in French Pastry School 779 and 780. Concurrent enrollment in French Pastry School 781 and 782.  
2 LECTURE HOURS. 9 LAB HOURS. 5 CREDIT HOURS.

**FRENCH PASTRY SCHOOL 783**  
**Cake Business Planning**  
This course provides in-depth lectures focusing on critical information needed to operate a successful wedding cake business such as pricing, customer consultation, cake portions, design, packaging, and delivery logistics. Career counseling and personal attention to each student's career goals are provided. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Grade of C or better in French Pastry School 779 and 780. Concurrent enrollment in French Pastry School 781 and 782.  
1 LECTURE HOUR. 1 CREDIT HOUR.

**GEOGRAPHY 101**  
**World Geography**  
Economic, political, and cultural geography of the modern world; includes the people, raw materials, industrial resources, and trade connections of various parts of the earth. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.

</table>
HEALTH 109
Medical Assisting and Externship Practicum
This course requires a minimum of 160 hours of supervised, non-salaried experience in a variety of healthcare settings. Students will be assigned to clinical sites. This course requires 16 practicum hours per week. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Consent of Department Chairperson.
2 LECTURE HOURS. 20 LAB HOURS. 6 CREDIT HOURS.

HEALTH 250
Health Education
Trends and issues of personal and community health; stress ways to maintain good physical and mental health; ecology, drugs, alcoholism, human sexuality, nutrition, disease and related topics. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

HEALTH 251
First Aid
Standard American Red Cross course in first aid; principles and practices of first aid for all age levels; safety and accident prevention stressed; First Aid Standard and Advanced certificates awarded to students completing the course successfully. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

HEALTH INFORMATION MANAGEMENT

HEALTH INFORMATION MANAGEMENT 101
Introduction to Health Information Technology
This course is designed to provide a working knowledge of healthcare delivery systems; the health information profession; the definition and the purpose of the medical record; the systems and processes for collecting, maintaining and disseminating health information; numbering, retention, and storage of medical information; forms control and design; indexes and registers; release of patient information, security, privacy, confidentiality, and ethical issues; documentation requirements; regulatory requirements of healthcare organization, accrediting and licensing agencies, and computerized information management systems utilized by health information management departments. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

HEALTH INFORMATION MANAGEMENT 102
Medical Billing
This course is designed to provide an introduction to medical billing. Topics covered will include medical billing procedures, billing procedures in different healthcare settings, and types of healthcare insurance. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

HEALTH INFORMATION MANAGEMENT 103
Basic Coding ICD9/ICD10
An introduction to the basic coding guidelines of the International Classification of Diseases (ICD) nomenclature. Topics include the format of ICD-9/10, practice code assignment, ethical coding principles, encoding systems, and software with practice applications. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

HEALTH INFORMATION MANAGEMENT 104
Basic Coding CPT-4
An introduction to the basic coding guidelines of the Current Procedural Terminology (CPT) nomenclature. Topics include the format of CPT and practice code assignment, ethical coding principles, encoding systems and software with practice applications. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Health Information Management 103, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

HEALTH INFORMATION MANAGEMENT 201
Clinical Pathophysiology
This course introduces the nature of disease and its effects on the body systems. The most common diseases and disorders of each body system are presented along with a review of the anatomy and physiology related to the content. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Biology 116, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

HEALTH INFORMATION MANAGEMENT 202
Advanced Coding ICD9/10 and CPT-4
This course provides advanced coding techniques for the CPT-4, ICD-9-CM, and ICD-10M/PCS coding systems with emphasis on official coding guidelines, and sequencing. Emphasis on case studies, health records, and federal regulations regarding perspective payment systems and methods of reimbursement. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Health Information Management 103 and 104, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

HEALTH INFORMATION MANAGEMENT 203
Reimbursement Methodologies
This course introduces terminology, rationale and methodology used by third-party payers to determine the reimbursement for healthcare providers. Proper completion of the 1500 billing form and legal issues related to reimbursement will be discussed, as well as the role health information management plays in the charge master maintenance, reimbursement monitoring, and revenue cycle. An overview of hospital and nursing home billing systems including proper submission of UB-92 billing forms will also be covered. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

HEALTH INFORMATION MANAGEMENT 204
Health Care Statistics
This course introduces healthcare statistics in relation to management, decision-making, government agencies, quality assessment and research. Students are introduced to research techniques and reporting protocol for hospital statistics. Cancer and other specialized registries will be covered. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Health Information Management 101, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
HEALTH INFORMATION MANAGEMENT 205
Health Information Management Seminar I
This course is a capstone course that emphasizes the integration of the knowledge, skills, and abilities developed as a part of the health information management advanced certificate curriculum. This course specifically focuses on students’ ability to demonstrate a comprehensive, integrated response to simulated scenarios students will face in the work environment. Students will also develop their resume and portfolio in preparation for entry into the workforce. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Students must be in their last semester of the Advanced Certificate Program and consent of Department Chairperson.
1 LECTURE HOUR. 1 CREDIT HOUR.

HEALTH INFORMATION MANAGEMENT 206
Health Information Management Seminar II
This course is a capstone course that emphasizes the integration of the knowledge, skills, and abilities developed as a part of the health information management Associate Degree curriculum. This course specifically focuses on students’ ability to demonstrate a comprehensive, integrated response to simulated scenarios students will face in the work environment. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Students must be in their last semester of the Associate Degree Program and consent of Department Chairperson.
1 LECTURE HOUR. 1 CREDIT HOUR.

HEALTH INFORMATION MANAGEMENT 207
Health Information Management Practicum
This course is a practicum course that provides practical experience for students enrolled in the Associates Degree in Health Information Management program. This practicum is focused on the application and synthesis of knowledge, skills, and abilities developed as a part of the health information management associate degree curriculum to a healthcare setting. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Concurrent enrollment in Health Information Management 206. Students must be in their last semester of the Associate Degree Program and consent of Department Chairperson.
1 LECTURE HOUR. 1 CREDIT HOUR.

HEALTH PROFESSIONS

HEALTH PROFESSIONS 101
Patient Care Technician Training
This course is designed for students interested in allied health fields. The course introduces students to the healthcare delivery system, health professions, primary patient care, fundamental clinical skills and healthcare communications. Safety, healthcare professionalism, employability skills, basic infection control, HIPPA, and OSHA are also included. The course will prepare individuals to accurately perform electrocardiograms as a supportive diagnostic procedure. Basic arrhythmia recognition will be taught to enable the student to recognize familiar ECG patterns including major life threatening rhythms. Additionally, the student will learn basic venipuncture techniques and human specimen management for diagnostic purposes. The course will consist of theory and lab experience to promote competence. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better, OR concurrent enrollment in English 101, OR consent of program director. Completion of the H2P orientation program. Current and valid Certified Nursing Assistant Certification or successful completion of a City Colleges of Chicago BNA program. Current and valid CPR certification. Up-to-date vaccination history and/or provider documentation of exception.
4 LECTURE HOURS. 4 LAB HOURS. 6 CREDIT HOURS.

HEALTH PROFESSIONS 102
Health Career Studies
This course introduces students to the integral knowledge and professional skills required to be successful in healthcare careers. It prepares students for the rigor of healthcare career programs. It emphasizes understanding of the professional culture, deep learning of key foundational skills, application of health information technology, and demonstration of cultural competence in interactions with others. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101.
3 LECTURE HOURS. 3 CREDIT HOURS.

HEALTH SCIENCE

HEALTH SCIENCE 101
Trends and Issues in Health Care Delivery
Introduction to healthcare delivery systems. Various health professions will be presented with emphasis on their primary role and how they interact or complement each other in delivery of healthcare services. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

HEALTH SCIENCE 102
Professional Medical and Health Care Practices
This course includes the study of acronyms and current professional jargon used in the medical and healthcare environment. Emphasis includes examination of data used in the delivery of healthcare and the characteristics of the healthcare workforce. Chronic illness and rehabilitative care will be examined as well as primary and specialty care in light of managed care. The process of accrediting and licensure of health science programs will be explored. A case study format involving inter-disciplinary health science programs will be reviewed, emphasizing systematic clinical applications. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

HEALTH TECHNOLOGY

HEALTH TECHNOLOGY 107
Health and the Public
Students will examine both historical and contemporary public health stories focusing on the United States to begin to understand the contexts, systems, professionals, tools and skills associated with the public health enterprise. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

HEALTH TECHNOLOGY 110
Public Health and Global Societies
The course introduces students to the main concepts of the public health field and the critical links between global health and social and economic development. Students are presented with an overview of the determinants of health and how health status is measured. Students also review the burden of disease, risk factors, and key measures to address the burden of disease in cost-effective ways. The course covers key concepts and frameworks, but is very practical in orientation. The course is global in coverage but with a focus on low-and-middle income countries and on the health of the poor. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS

Credit Courses

HEALTH TECHNOLOGY 120
Public Health and the Study of Disease and Epidemics
This course is designed to introduce the basic principles surrounding the distribution of disease and epidemics in human populations. Through the use of lectures and field exercises, students will learn the fundamentals of epidemiology, and the basic science of public health. From historical perspectives to current day context, how disease differentially impacts populations will be the focus. Topics covered include surveillance of disease, the distribution of health outcomes (with particular emphasis on health inequities), outbreak investigation, the impact of the media on health outcomes, measurement of health outcomes, study design, and the impact of epidemiologists on policy development and implementation. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

HEALTH TECHNOLOGY 121
Introduction to Community Health Work
This course provides an overview of the healthcare system and community health work. Students will gain an understanding of the role of community health workers, the scope of their function and the types of services they may provide, and how they interact with other health personnel and resources. It includes principles of effective verbal and non-verbal communication to assist students in encouraging positive interaction. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101, Computer Information Systems 120, and Health Technology 121.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

HEALTH TECHNOLOGY 122
Accessing Community Resources
This course will provide students with a brief overview of public health, its services and core functions in the protection and promotion of health and prevention of disease and injury. It will include selected international, national and local health organizations that influence public health. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101, Computer Information Systems 120, and Health Technology 121.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

HEALTH TECHNOLOGY 123
Community Health Problems
This course will focus on developing community leadership and capabilities to identify and address community health needs. This course is designed to help students develop self, client and community capacities to protect and improve health. Emphasis is on building individual and other community participation in health through information sharing, informal counseling, counseling, social support, instruction, community-wide assessments and promoting changes in negative behavior. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101, Computer Information Systems 120, and Health Technology 121.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

HEALTH TECHNOLOGY 124
Communicable Disease
This course will provide students with an overview of communicable disease. It will provide students with information on prevention, referral sources and treatment. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101, Computer Information Systems 120, and Health Technology 121.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

HEALTH TECHNOLOGY 125
Nutrition, Exercise, and Disease
This course will provide students with the information necessary to promote healthy eating style and proper food preparation for all age groups. This course gives students information about identifying the relationship of diet to disease. Attention is given to the treatment of disease by diet modification. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101, Computer Information Systems 120, and Health Technology 121.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

HEALTH TECHNOLOGY 126
Human Development Overview
This course provides students with information on pre-conceptual, intra-conceptual, prenatal care, fetal development and newborn care. Students will gain an understanding of the various stages of human development and recognize their role in promoting acceptable standards of healthcare. This course includes information of the important role parents have in the development of children. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101, Computer Information Systems 120, and Health Technology 121.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

HEALTH TECHNOLOGY 127
Portfolio Development
This course will provide students an opportunity to carefully select and organize their professionally related academic accomplishments. It provides documentation of students having met the entry-level competency skill standard for community health workers. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101, Computer Information Systems 120, and Health Technology 121.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

HEALTH TECHNOLOGY 128
Adult and Senior Health
This course will focus on adult health throughout the early, middle and later stages of adult development and health issues. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101, Computer Information Systems 120, and Health Technology 121.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

HEALTH TECHNOLOGY 129
Substance Abuse Issues
This course gives students an overview of what substance abuse is and how to recognize it. Students will become familiar with misuse and abuse of substances ranging from over the counter medications to highly controlled narcotics. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101, Computer Information Systems 120, and Health Technology 121.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

HEALTH TECHNOLOGY 130
Mental Health Issues
This course will provide an overview of mental health issues and concerns of community and families. This course also covers the more prevalent disease such as depression, domestic violence, developmental delays, alcoholism, etc. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101, Computer Information Systems 120, and Health Technology 121.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.
HEALTH TECHNOLOGY 131
Case Management Fundamentals
This course is designed to provide students with the basic case management skills. The focus of this course is on the main components of case management, outreach, screening, intake, referrals, and follow-up. Students will learn about home visits, universal precautions and handling emergencies on the job and in the community. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Consent of Department Chairperson/Coordinator.
1 LECTURE HOUR. 10 LAB HOURS. 6 CREDIT HOURS.

HEALTH TECHNOLOGY 132
Field Experience: First Aid and CPR
This course is an introduction to working in the healthcare field. This course will include field experience and basic skills for working effectively in communities providing patient advocacy, professional communication skills, and approaches in working effectively with co-workers and agencies, and awareness of basic research and interviewing skills. It will provide basic skills in performing CPR and First Aid. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Consent of Department Chairperson/Coordinator.
1 LECTURE HOUR. 10 LAB HOURS. 6 CREDIT HOURS.

HEALTH TECHNOLOGY 500
Pediatrics
Basic pediatric nursing; normal growth and development of the child, newborn, through adolescent; congenital anomalies and common childhood diseases. Identification of specific development tasks and ages, symptoms and nursing care associated with each. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 3 LAB HOURS. 3 CREDIT HOURS.

HEALTH TECHNOLOGY 987
Introduction to Health Science
This course includes an overview of therapeutic, diagnostic, informational, environmental service, and biotechnical clusters of a health science career path. The course focuses on health career exploration, healthcare systems roles, and leadership, employability, and communication skills. Students will develop a concept of health maintenance practices, safety, teamwork, and legal/ethical responsibilities. School-to-work shadowing experiences will be implemented in this course. Subject matter will include career choices and application of health concepts relative to becoming a healthcare professional. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

HEALTH TECHNOLOGY 988
Communications for Nurses
This course provides improvement of reading skills through use of SPA materials: improvement of grammar skills through teacher prepared materials and writing experience including a library reference report; improvement of study skills including outlining, note taking and listening skills; introduction to medical terminology including prefixes and suffixes and accurate spelling in preparation for hospital charting. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

HEALTH TECHNOLOGY 991
Refresher Course for LPN’s
4 LECTURE HOURS. 6 LAB HOURS. 6 CREDIT HOURS.
**HEALTH TECHNOLOGY TC6 202**  
**Medical Office Simulation**  
This course will give students an opportunity to become more proficient in the use of MediSoft patient accounting software features. This class is a continuation of Medical Office Insurance Procedures which incorporates computer lab practice time as well as fifteen hours of extended campus internship activities in a medical office. Writing assignments, as appropriate to the discipline, are part of the course. 
Prerequisite(s): Grade of C or better in Health Technology TC6 201.  
3 LAB HOURS. 1 CREDIT HOUR.  

**HEALTH TECHNOLOGY TC6 300**  
**Medical Office Externship**  
The Medical Office Technology Externship is designed to give students exposure to the medical environment; allowing students use the medical terminology, computer, and office skills that they acquired in the classroom setting. Writing assignments, as appropriate to the discipline, are part of the course.  
5 LAB HOURS. 1 CREDIT HOUR.  

**HISTORY**  

**HISTORY 111**  
**History of American People to 1865**  
Exploration of the new world and its colonization; study of colonial life with emphasis on cultural heritage and the American Revolution; emergence of American nation traced through major trends and events in economic, political, cultural, social, and intellectual affairs: includes past and present American cultural patterns. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.  
IAI/GE: DA KK KK OH TR HW WR  

**HISTORY 112**  
**History of American People from 1865**  
American history from the close of the Civil War to the present: political and economic developments, and social, intellectual, and cultural changes. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.  
IAI/GE: DA KK MX OH TR HW WR  

**HISTORY 113**  
**United States Labor History**  
Labor movement development in the United States; worker issues such as wages, hours, and working conditions are analyzed within their historical context; labor legislation, collective bargaining, social insurance, government intervention and prospects for organized labor are examined in their historical setting. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.  

**HISTORY 114**  
**The Afro-American in American History**  
Explores role of the Afro-American in American culture and the historical traditions which give rise to current dilemmas confronting the American community. Traces history of people of African heritage from the background of African culture and slave trade as they became a part of American life. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.  

**HISTORY 115**  
**Afro-American History Since 1865**  
Reconstruction period after the Civil War; black politics in the new South; rise of Jim Crow sentiment; alliance of northern industry and southern Bourbonism; early northward migrations and urban culture; growth of civil rights organizations; W.E.B. DuBois and Booker T. Washington; blacks in World Wars I and II; post-war developments. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.  

**HISTORY 117**  
**History of Chicago Metropolitan Area**  
Evolution of Chicago metropolitan area from frontier outpost to modern metropolis; economic, social, political, and cultural changes; analysis of institutions; discussion of current problems requiring solution in context of their historical background. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.  

**HISTORY 118**  
**Women in American History**  
Introduction to history of women in America; women’s changing status in society; effect of major events and forces on women’s lives; women’s role in reform; and discussion of recent problems in light of past developments. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.  

**HISTORY 141**  
**History of World Civilization to 1500**  
Definition and flowering of the classical civilizations of Eurasia, Africa, and the Americas. Emphasizes environment, cultural diffusion, and technology as shaping forces in world history; empires and trade links; the major religious systems to 1500 C.E. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.

CREDIT COURSE DESCRIPTIONS
Credit Courses

HISTORY 243
The Far East in the Modern World
Historical development of China, India, and Japan. Evolution of Oriental culture, economy, society, and government; the relation of America and the Far East; and the impact of Western ideas and institutions on the region. Survey of Philippines, Indo-China, Indonesia, and Korea. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: KK WR | HD

HISTORY 247
African History to Colonial Period
Historical background of Africa south of the Sahara; pre-colonial and cultural development including tribal histories, impact of colonialism, and development of African nationalism. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: DA MX OH TR HW WR | HD

HISTORY 248
African History: Modern Period
Growth of colonial government; the economic role of colonies; early opposition movements against European imperialism; the psychology of the colonizer and colonized; civil wars and independence. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: KK MX HW | HD

HISTORY 250
Topics in American History
Selected topics in history for students interested in further developing and understanding specific periods, movements and leaders; emphasis on the social, political, economic, intellectual and philosophical events and implications. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: KK WR | HD

HISTORY 252
History of Science
Basic scientific principles, historic origins, and the evolution of scientific thought in the sciences from ancient civilization to present, with a comparative component between Western and non-Western sciences. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Consent of Department Chairperson/Coordinator.
3 LECTURE HOURS. 3 CREDIT HOURS.

HORTICULTURE

HORTICULTURE 101
Introduction to Ornamental Horticulture
Plant structures, terminology and use of identification keys; study of culture and use of annuals, biennials, herbaceous perennials. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

HORTICULTURE 102
Turfgrass Management
Lawn grasses and ground covers and insects, diseases and pests common to them; lawn planning, constructions, renovation, weed control and fertilizing. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

HORTICULTURE 103
Landscape Pest Management
Diagnosis of plant diseases and disorders, physiological and pathological, and application of control measures for insects, diseases and pests of ornamental plants; survey of diagnostic and identification keys. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

HORTICULTURE 104
Plant Propagation
Techniques used in reproducing plants, both from seed and vegetative parts; propagating units, factors affecting rooting, growth substances, rooting media and seed treatment; principles of heredity, structure of genetic material and mechanics of transmission, and importance of genetics in hybridization. Writing assignments, as appropriate to the discipline, are part of the course.
4 LECTURE HOURS. 4 CREDIT HOURS.

HORTICULTURE 105
Identification of Herbaceous Landscape Plants
This course focuses on identification of herbaceous plants used in the landscape. Study the ornamental value, use and culture of annuals, biennials, and perennials. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

HORTICULTURE 106
Identification of Woody Landscape Plants I
This course focuses on the identification, ornamental value and culture of wood landscape plants. Emphasis on deciduous trees and coniferous evergreen trees and shrubs. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

HORTICULTURE 107
Soils and Fertilizers
Study of soils, the formation of soils, physical and biological properties of soil, the relationship of water in soils. Units to include soil fertility, fertilizers and fertilizers applications, damage to soil, and soilless media. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

HORTICULTURE 201
Supervised Horticulture Experience
This course focuses on placing students with a horticulture company during seasonal semesters. A focus on practical experiences as performed in the horticulture industry. Regular supervisory visits by the instructor.
Prerequisite(s): Admission to the Horticulture Program/Plan 241.
5 LECTURE HOURS. 5 CREDIT HOURS.
HORTICULTURE 202
Landscape Design I
Aesthetic and economic importance of grounds improvement, residential and commercial; site analysis, requirements of landscape plans, scale drawings, and landscape symbols; nursery classification, selection of plant materials, and landscape construction. Writing assignments, as appropriate to the discipline, are part of the course. 
4 LECTURE HOURS. 4 CREDIT HOURS.

HORTICULTURE 203
Landscape Design II
Continuation of Horticulture 202, with emphasis on commercial landscaping; blueprint reading planning and construction of decorative gardens, athletic fields, and public parks. Writing assignments, as appropriate to the discipline, are part of the course. 
4 LECTURE HOURS. 4 CREDIT HOURS.

HORTICULTURE 204
Landscape Installation
This course focuses on landscape construction including site preparation; drainage, irrigation, and lighting systems; installing edging, walls, fences, paving decks, water features, and plantings. Writing assignments, as appropriate to the discipline, are part of the course. 
Prerequisite(s): Admission to the Horticulture Program/Plan 241. 
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

HORTICULTURE 205-1
Arboriculture
Continuation of plants identification, covering use and culture of deciduous and evergreen trees and shrubs. Writing assignments, as appropriate to the discipline, are part of the course. 
3 LECTURE HOURS. 3 CREDIT HOURS.

HORTICULTURE 206
Identification of Woody Land Plants II
This course focuses on a continuation of woody landscape plant identification with emphasis on deciduous shrubs, broadleaf evergreens, vines, and ground covers. Ornamental value and plant culture are also covered. Writing assignments, as appropriate to the discipline, are part of the course. 
Prerequisite(s): Admission to the Horticulture Program/Plan 241. 
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

HOSPITALITY
HOSPITALITY 102
Hotel-Motel Sales Promotion
Organization and function of sales department. Writing assignments, as appropriate to the discipline, are part of the course. 
Prerequisite(s): Grade of C or better in Hospitality 104, or consent of Department Chairperson. 
3 LECTURE HOURS. 3 CREDIT HOURS.

HOSPITALITY 103
Food and Beverage Supervision
Overview of the food and beverage field as part of hospitality industry and the departments that make up food and beverage operation in a hotel. Preparation and service of food and alcoholic beverage are included. The course is taught at a Chicago hotel. Writing assignments, as appropriate to the discipline, are part of the course. 
Prerequisite(s): Grade of C or better in Hospitality 104, or consent of Department Chairperson. 
3 LECTURE HOURS. 3 CREDIT HOURS.

HOSPITALITY 104
Introduction to Hospitality Industries
History and organization of the hospitality industry, hotel-motel, food service, travel-tourism, with emphasis on career opportunities and jobs, economic projections and industry trends, and on the meaning of hospitality in each industry. Writing assignments, as appropriate to the discipline, are part of the course. 
3 LECTURE HOURS. 3 CREDIT HOURS.

HOSPITALITY 108
Introduction to Meeting, Convention Management and Planning
The study of the meeting and convention industry; the role and responsibilities of planners employed by associations, businesses and other segments of the industry. The course will also include the study of key concepts of meeting and convention planning such as: specific goal setting; research and selection of locations; facilities; transportation; support services; and development of marketing, promotion and publicity programs to achieve goals. Writing assignments, as appropriate to the discipline, are part of the course. 
Prerequisite(s): Hospitality 104, or consent of Department Chairperson. 
3 LECTURE HOURS. 3 CREDIT HOURS.

HOSPITALITY 202
Front Office and Room Division Management
Overview of the front office operation within the context of the hotel industry including the understanding of the special problems of room division management. Writing assignments, as appropriate to the discipline, are part of the course. 
Prerequisite(s): Grade of C or better in Hospitality 104, or consent of Department Chairperson. 
3 LECTURE HOURS. 3 CREDIT HOURS.

HOSPITALITY 205
Hospital Industry Purchasing
Study of organization and administration of quantity purchasing policies and procedures; specifications, inventory buying, receiving and issuing of items used in hospitality operations. Writing assignments, as appropriate to the discipline, are part of the course. 
3 LECTURE HOURS. 3 CREDIT HOURS.

HOSPITALITY 206
Applied Meeting and Convention Management
Employs material covered in previous Meeting and Convention Management courses and provides in-depth study of insurance, liabilities, legal aspects, managing exhibits, on-site management of catered events, and emergency and contingency plans. Using a case study format, each student will design and execute a convention/meeting. Writing assignments, as appropriate to the discipline, are part of the course. 
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson. 
3 LECTURE HOURS. 3 CREDIT HOURS.

HOSPITALITY MANAGEMENT
HOSPITALITY MANAGEMENT 806
Customer Service Fundamentals
This class has a defined focus on how to provide the service that is expected when a person is a guest at a hotel, restaurant, banquet hall, casino or other venue. It covers interactions with guests, responses to difficult situations, service recovery and how to develop better interpersonal skills that will lead to outstanding customer service. Writing assignments, as appropriate to the discipline, are part of the course. 
Prerequisite(s): Eligibility for English 100, Reading 125, and Mathematics 98. 
3 LECTURE HOURS. 3 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS

Credit Courses

This Information is Subject to Change

HOSPITALITY MANAGEMENT 807
Hospitality Financial Management
Essential managerial accounting functions utilized in the hospitality industry. This class is meant to be a foundation for managers in the hospitality industry. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 100, Reading 125, and Mathematics 98.
3 LECTURE HOURS. 3 CREDIT HOURS.

HOSPITALITY MANAGEMENT 808
Restaurant Operations
Fundamentals of basic restaurant management are covered in the course where students are exposed to the entry level front-of-house positions that create the core of operations to the management of those employees and beyond including customer service and financial management. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 100, Reading 125, and Mathematics 98.
3 LECTURE HOURS. 1 LAB HOUR. 4 CREDIT HOURS.

HOSPITALITY MANAGEMENT 810
Bar and Beverage Operations
Foundations of creating and maintaining a bar business including equipment, liquor, wine, beer, wine and food pairing, sanitation, employee management, purchasing, receiving and storage, and planning for profit. It emphasizes the importance of revenue generation through alcohol sales in a restaurant while placing a focal point on responsible alcohol service. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 100, Reading 125, and Mathematics 98.
3 LECTURE HOURS. 3 CREDIT HOURS.

HOSPITALITY MANAGEMENT 812
Hotel and Lodging Operations
Fundamentals of basic hotel and lodging management are covered in this class where students will learn the duties and responsibilities associated with hotel operations. Departments explored include front desk, housekeeping, sales and marketing, engineering, food and beverage and accounting. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 100, Reading 125, and Mathematics 98. Grade of C or better in Hospitality Management 806, 807, 808, and Culinary 700, 701, 703, 705, 708 and 723, or consent of Department Chairperson
3 LECTURE HOURS. 3 CREDIT HOURS.

HOSPITALITY MANAGEMENT 814
Hospitality Procurement
Comprehensive look at acquisition of goods and services starting from the buyer determining what is needed to the actual receiving of the goods purchased. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 100, Reading 125 and Mathematics 98. Grade of C or better in Hospitality Management 806, 807, 808, Culinary 700, 701, 703, 705, 708 and 723, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

HOSPITALITY MANAGEMENT 816
Introduction to Hospitality Marketing Principles
Fundamentals and foundations of hospitality marketing. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 100, Reading 125 and Mathematics 98. Grade of C or better in Hospitality Management 806, 807, 808, Culinary 700, 701, 703, 705, 708 and 723, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

HOSPITALITY MANAGEMENT 830
Catering and Events Management
Students will learn aspects of effective planning which in turn leads to successful execution of events and will be exposed to menu design, room selection, cost control, pricing, contracts and managing an event. Sales and marketing, financials, food and beverage service, and staffing will also be covered. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 100, Reading 125 and Mathematics 098. Grade of C or better in Hospitality Management 806, 807, 808, Culinary 700, 701, 703, 705, 708 and 723, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

HOSPITALITY MANAGEMENT 835
Casino Operations
As an introduction to casino organizations and culture, this class will explore the history, systems and technology and marketing crucial to casino and gaming operations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 100, Reading 125 and Mathematics 98. Grade of C or better in Hospitality Management 806, 807, 808, and Culinary 700, 701, 703, 705, 708, and 723, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

HOSPITALITY MANAGEMENT 860
Hospitality and Culinary Internship
This Cooperative Education courses is designed to provide employment skills as a concurrent and integral part of a student’s educational program in hospitality and culinary. Students are placed in an approved employment situation mutually agreed upon by students, college staff, and employer, with the opportunity of applying knowledge and being exposed to work methods unavailable in the classroom.
Prerequisite(s): Grade of C or better in Culinary 701, 703, 705, 708, 723, Baking and Pastry 767, 768, 769, 770, 771, and Hospitality Management 806, 807, 808, and 812.
20 LAB HOURS. 4 CREDIT HOURS.

HUMAN DEVELOPMENT AND FAMILY STUDIES

HUMAN DEVELOPMENT AND FAMILY STUDIES 201
Human Development and Sexuality
A study of the social and psychological aspects of human sexuality. Topics include sexual development, cultural influences, gender identity, sexual dysfunctions, love and relationships. Emphasis will be placed on the mental and emotional aspects of human sexuality as well as current issues. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Psychology 201.
3 LECTURE HOURS. 3 CREDIT HOURS.

HUMAN DEVELOPMENT AND FAMILY STUDIES 202
Intimate Relationships
An overview of theories and research related to intimate/romantic relationships as well as family members, friends, and professional. Students will be encouraged to think critically about the various components of healthy relationships including comparative research within self-expectations and effects of such as perpetuated by the media and other sources. Topics include communication, conflict, love, stress, strains, and overall impact on relationships. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Child Development 101 and 102.
3 LECTURE HOURS. 3 CREDIT HOURS.
HUMAN DEVELOPMENT AND FAMILY STUDIES 203
Family Development/Cross Cultural Perspective
Course includes information on families and culture through an examination of research on child development, child rearing across cultures, and issues of equity, power and privilege. Readings and discussion on how culture and context influence all aspects of development whereby students gain in-depth understanding of families and lifestyles, communication and conflict, domestic violence, dysfunctions within families, and inter-generational families. Course also provides a knowledge base for family assessment, understanding one's own family, tools to prepare one to work with families in a variety of settings and across the lifespan. Topics such as child rearing, language differences, racial identity, cultural traditions, and socio-economic status will be covered. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Child Development 101.
3 LECTURE HOURS. 3 CREDIT HOURS.

HUMAN DEVELOPMENT AND FAMILY STUDIES 204
Family Life Education
Introduction to and history of the professional and practice of family life education, including needs assessment, evaluation of programs, understanding group process, and contexts of family life education. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Child Development 101.
3 LECTURE HOURS. 3 CREDIT HOURS.

HUMAN DEVELOPMENT AND FAMILY STUDIES 205
Internship for Human Development
Participation in occupational area of study, and work experience under supervision of both college and employer. Internship objectives developed by student and faculty advisor, with approval of employer, to provide appropriate work-based learning experience at the site 15 hours per week. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Completed and accepted application, grade of C or better in Child Development 101 and 102, all courses in Human Development and Family Studies program including any special certificates.
2 LECTURE HOURS. 20 LAB HOURS. 6 CREDIT HOURS.

HUMANITIES

HUMANITIES 100
Critical Readings in Humanities
For students with little or no prior exposure to humanistic studies; an opportunity to improve and gain confidence in reading and writing skills in subject areas where creativity and imagination play a much greater part than they do in most basic skills courses. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

HUMANITIES 105
The New World of Mass Media
Analysis and evaluation of the strengths, limitations, impact, and social media biases of both print and electronic mass media. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

HUMANITIES 107
Pop Culture: Mirror of American Life
Interdisciplinary investigation of relationships between American life and popular culture; includes defining popular culture and high culture; role of formulating popular culture in films, role of advertising in popular culture, stereotypes of the sexes and ethnic groups, role of sports in American life, popular music and its audience, and television. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

HUMANITIES 123
Introduction to Arts and Ideas
Interdisciplinary introduction to the arts and ideas through the study of masterpieces past and present. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

HUMANITIES 141
Afro-American Arts
Examination of African and Afro-American music, literature, art, and philosophy, stressing African sources of Afro-American heritage and their contribution to Western culture. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

HUMANITIES 143
Introduction to Latin-American/Latino Studies
This course presents an interdisciplinary study of Latin American cultures, including Latino cultures in the U.S., from literary, artistic and philosophical perspectives. It explores various links between Latino cultures in the U.S. and other Latin American countries through the study of historical and artistic periods, major movements, and integrated theories. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

HUMANITIES 145
Introduction to Diversity/Ethnic Studies
This course presents an introduction to the broad field of diversity/ethnicity through the interdisciplinary study of art, music, literature, history, and philosophy. This course will emphasize the content, style, and historical context of the various diversity/ethnicity-related artifacts, particularly those created by and featuring depictions of diverse/ethnic groups. The course will feature African-American, Latino/Latin-American, Native American, and European American artists, artistic expressions, and portrayals of these groups in the arts, by themselves and “outsiders”, and the impact of these portrayals on the groups and society at large. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
### CREDIT COURSE DESCRIPTIONS

#### Credit Courses

**HUMANITIES 146**  
**Gay, Lesbian, Bisexual and Transgendered**  
The interdisciplinary interpretation of historic and contemporary creative works (art, drama, film, literature, and music) with gay, lesbian, bisexual, and transgendered themes, primarily by multicultural GLBT authors and artists of the Americas. Analysis of GLBT culture from the perspective of Queer theory. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.  
IAI/GE: TR | HD

**HUMANITIES 201**  
**General Course I Humanities**  
Introduction to the interdisciplinary study of arts and ideas, with emphasis on principles of analysis and interpretation. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.  
IAI/GE: DA KK MX OH TR HW WR

**HUMANITIES 202**  
**General Course II Humanities**  
Continuing the interdisciplinary study of arts and ideas, with emphasis on principles of analysis and interpretations. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.  
IAI/GE: DA KK MX OH TR HW WR

**HUMANITIES 203**  
**Arts of Contemporary America**  
Analysis and evaluation of major art forms of today—film, television, poster art, journalism, poetry, fiction, painting, and music. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.  
IAI/GE: HW | HD

**HUMANITIES 205**  
**World Literature I**  
Masterpieces of world literature including principal works from selected literary periods and traditions. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.  
IAI/GE: DA KK MX OH TR HW WR | HD

**HUMANITIES 206**  
**World Literature II Existentialism**  
Introduction to Existentialist philosophers, dramatists, and novelists. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.

**HUMANITIES 207**  
**The Great Books**  
For students who seek enrichment through acquaintance with formulation and ideas of Western civilization. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.  
IAI/GE: DA KK MX HW WR

**HUMANITIES 208**  
**Women in Creative: Performing Arts**  
Examination of the changing views of woman’s nature, her relationship to man and to society as found in the creative and performing arts, and philosophical works of a specific culture or cultures. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.  
IAI/GE: HW WR | HD

**HUMANITIES 210**  
**Comparative Mythology**  
A comparative introduction to mythology throughout the world. The emphasis is on the nature of mythology through the study of mythological themes in folklore, myth, and legendary narratives and the visual representation of those themes. The course includes non-Western and multicultural components. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.  
IAI/GE: KK MX TR HW WR | HD

**HUMANITIES 212**  
**Non-Western Humanities**  
An interdisciplinary survey of significant intellectual and artistic achievements of non-Western cultures through selected works of literature, philosophy, visual art, music, and other performing arts. This course transfers Illinois Articulation Initiative general education generic course numbered HF94N: Non-Western Humanities. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.  
IAI/GE: KK MX TR HW WR | HD

**HUMANITIES 213**  
**Hispano-American Arts and Literature I**  
This course is an interdisciplinary survey of significant intellectual and artistic achievements of Hispano-American cultures through selected works of literature, philosophy, visual arts, music, and other performing arts. Includes reading and analysis of representative masterpieces from a variety of nationalities and epochs focusing on Western literature. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.  
HD
HUMANITIES 214
Hispano-American Arts and Literature II
This course continues the studies of Hispano-American Arts and Literature I, an interdisciplinary survey of significant intellectual and artistic achievements of Hispano-American cultures through selected works of literature, philosophy, visual arts, music, and other performing arts. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

HUMANITIES 215
The Art and Philosophy of the African Continent
African culture of the past and present including art, music, literature, history, language, political science, and economics. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

HUMANITIES 216
A survey of ancient events that emphasizes the role of sports in ancient societies. The course focuses on various aspects of athletics and provides a comparative examination of ancient and modern sports activities and athletic values. Some topics will include: sportsmanship in the ancient world, rules of the games, training and competing, women in ancient athletics, religion in ancient athletics, and athletics in ancient myth. Students will examine and discuss many types of ancient evidence, including readings in translation from several ancient literary texts, paintings, sculpture, and archeological remains. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Placement test or English 100 with a C or better or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

IBEW 702
Electrical Circuitry
This course will include a study in circuitry used in the commercial, industrial and residential housing industry. Skills in testing, troubleshooting, and safety techniques will be mastered. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 4.5 LAB HOURS. 3.5 CREDIT HOURS.

IBEW 703
Conduit Bending I
This course is designed to teach students the various methods of bending conduit employed in the electrical construction industry. The focus of the course is on hand-type benders and methods of conduit installation utilized in the commercial, industrial and residential housing industry. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 4.5 LAB HOURS. 3.5 CREDIT HOURS.

IBEW 704
Construction Technology
This course will include a study of common hardware and wiring materials used in the electrical construction industry. This course will include first aid, personal safety, and job site safety; the use of rope, knot tying, and basic rigging; drill gauges, drilling and tapping holes in metal, and drill sharpening; using knockout sets, hole saws, concrete anchors and fastening devices; and the use and care of hand tools, drill motors, hammer drills and grinding wheels. Writing assignments, as appropriate to the discipline, are part of the course.
3.5 LECTURE HOURS. 3 LAB HOURS. 4.5 CREDIT HOURS.

IBEW 705
Print Reading I
Upon completion of this course, students will have gained a thorough knowledge of reading hand-type and automatic cutting and threading devices will also be mastered. Writing assignments, as appropriate to the discipline, are part of the course.
3.5 LECTURE HOURS. 3.5 CREDIT HOURS.

IBEW 706
Conduit Bending II
Upon completion of this course, students will have gained skills in conduit bending techniques utilizing mechanical leverage benders and hydraulic benders commonly used in the electrical construction industry. Hand-operated and automatic cutting and threading devices will also be mastered. Writing assignments, as appropriate to the discipline, are part of the course.
2.5 LECTURE HOURS. 3 LAB HOURS. 3.5 CREDIT HOURS.

IBEW 707
Fire Alarm Systems
Upon completion of this course, students will have mastered the basic concepts and theory of installation and maintenance of fire alarms systems and fire suppression systems currently in use in the electrical construction industry. Testing, troubleshooting and safety techniques will be mastered. Writing assignments, as appropriate to the discipline, are part of the course.
2.5 LECTURE HOURS. 3 LAB HOURS. 3.5 CREDIT HOURS.

IBEW 708
Motor Control Systems
Upon completion of this course, students will have mastered the basic concepts and theory of installation, operation, and maintenance of motor control devices commonly used in the electrical construction industry. Skills in testing, troubleshooting, and safety techniques will be developed through hands-on training and the use of field simulated problems. In addition, this course includes a discussion of the theory and the practical application of transformers as used in the electrical industry. Writing assignments, as appropriate to the discipline, are part of the course.
2.5 LECTURE HOURS. 3 LAB HOURS. 3.5 CREDIT HOURS.

IBEW 709
Print Reading II
Upon completion of this course, students will have gained thorough knowledge of commercial and industrial construction prints, and their use with both the Chicago Electrical Code and National Electrical Code. Writing assignment, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS
Credit Courses

IBEW 710
Programmable Control
Upon completion of this course, students will have mastered the basic concepts and theory of installation, operation, and maintenance of programmable control systems commonly used in the electrical industry. Programming techniques and hands-on training will be provided in the lab on Allen-Bradley systems PL5/20, PLC5/11, and SLC 5/03 CPU programmable controllers. Writing assignments, as appropriate to the discipline, are part of the course.
3.5 LECTURE HOURS. 3 LAB HOURS. 4.5 CREDIT HOURS.

IBEW 711
Communications
The BICSI Installer level telecommunications cabling installation training is designed for individuals with two to five years of low voltage cabling experience. The class combines lecture with hands-on skills practice using tools and equipment provided in class. The following areas are covered: ANSI/TIA/EIA wiring Standards and the National Electrical Code. LAN cabling system characteristics and network topologies, media and media characteristics, transmission fundamentals, connectorization, grounding and bonding, pulling and terminating copper and fiber, testing and troubleshooting copper and fiber, splicing fiber, fire stopping site surveys and safety practices. There will be a final examination and a period of structured on-the-job training to be completed at students' workplace. Writing assignments, as appropriate to the discipline, are part of the course.
2.5 LECTURE HOURS. 4.5 LAB HOURS. 4 CREDIT HOURS.

IBEW 712
HVAC Systems
Upon completion of this course, students will have mastered the theory of thermal dynamics and the processes used in the heating, ventilation and air-conditioning systems. Hands-on training is an integral part of the course. The course will cover skills in piping, brazing, soldering, and the EPA standards for charging, and evacuating air-conditioning and refrigeration systems. This course meets the Refrigeration Service Engineers Society Technician Certification Standard. The midterm examination shall be the RSES Technician Certification test. It will be mandatory to pass the RSES Technician Certification test before becoming a journeyman. Writing assignments, as appropriate to the discipline, are part of the course.
3.5 LECTURE HOURS. 3 LAB HOURS. 4.5 CREDIT HOURS.

IBEW 713
Instrumentation
Upon completion of this course, students will have mastered the basic concepts and theory of installation, operation, and maintenance of instrumentation control process commonly used in the electrical construction industry. The student will master the theory of flow, pressure, temperature, and level. Calibration techniques are taught through hands-on training, bench testing, and lab work with a variety of instruments, the Fluke 702 Calibrator and the Rosemount Communicator. Writing assignments, as appropriate to the discipline, are part of the course.
3.5 LECTURE HOURS. 3 LAB HOURS. 4.5 CREDIT HOURS.

IBEW 714
Technical Mathematics I
Upon completion of this course, students will have mastered the calculations and applications of the formulas used daily in the first year apprentice course of study, and in the electrical construction industry. Writing assignment, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

IBEW 715
Technical Mathematics II
Upon completion of this course, students will have mastered code calculations and problem-solving techniques used in the application of Ohm's Law in accordance with the National Electrical Code. Writing assignment, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

IBEW 716
Electronics
This course covers basic electronic and its application to the communications industry. The course will cover basic electric theory, direct current, alternating current, Writing Ohm's Law, the use and calibration of electrical test equipment, electrical safety, soldering skill, series, parallel and combination circuits, and electronic components. Writing assignments, as appropriate to the discipline, are part of the course.
3.5 LECTURE HOURS. 3 LAB HOURS. 4.5 CREDIT HOURS.

IBEW 717
Structured Wiring
This course provides students with a thorough knowledge of the wiring materials commonly used in the communications industry. This course provides instruction on personal safety, jobsite safety and shop safety as it applies to the communications industry. In addition, there will be instruction in applicable EIA/TIA standards, BICSI requirements, media characteristics, transmission characteristics, fire protection, documentation, grounding, bonding, electrical protection, and other relevant industry practices. Upon satisfactory completion of the course, students will be eligible for the BICSI Level I Installer Examination. Writing assignments, as appropriate to the discipline, are part of the course.
3.5 LECTURE HOURS. 3 LAB HOURS. 4.5 CREDIT HOURS.

IBEW 718
Integrated Systems I
This course will introduce students to the basic concepts and theory of digital and analog based audio communications systems. This course will cover skills in installation, balancing, testing and troubleshooting of audio communications equipment. Included are constant voltage audio systems, paging systems, background music system, and sound reinforcement systems. Writing assignments, as appropriate to the discipline, are part of the course.
2.5 LECTURE HOURS. 3 LAB HOURS. 3.5 CREDIT HOURS.

IBEW 719
Integrated Systems II
This course will cover the basic concepts and theory of transmission and distribution of digital and analog based video signals. This course will cover transmission line theory and signal propagation along with installation, testing and troubleshooting of video communications equipment. Writing assignments, as appropriate to the discipline, are part of the course.
3.5 LECTURE HOURS. 3 LAB HOURS. 4.5 CREDIT HOURS.

IBEW 720
Communication Systems Verification
This course covers the testing, benchmarking and troubleshooting of fiber optic and copper based communications systems. Also covered are the proper use of field test equipment, electrical safety, transmission characteristics, fault location, and analysis of field test results. Writing assignments, as appropriate to the discipline, are part of this course.
2.5 LECTURE HOURS. 3 LAB HOURS. 3.5 CREDIT HOURS.

IBEW 721
Fiber Optics
This course covers the basic concepts and theory of digital transmission of communications over fiber optic communications cabling. This course will cover skills in installation, testing and troubleshooting of fiber optic connectors and cabling systems. This course meets the Fiber Optic Association Certification standards for Fiber Optic Association Certification standards for fiber optic installation. Writing assignments, as appropriate to the discipline, are part of this course.
2.5 LECTURE HOURS. 3 LAB HOURS. 3.5 CREDIT HOURS.
IBEW 722
Computer Networking
This course provides students with an overview of the basics of networking from the component hardware to the topology and theoretical foundation of networks. Various types of networks and network topologies will be covered. Writing assignments as appropriate to the discipline, are part of this course.
3.5 LECTURE HOURS. 3 LAB HOURS. 4.5 CREDIT HOURS.

IBEW 723
Industrial Control Systems
Upon completion of this course, students will be proficient in the field of industrial control and planning. Industrial control training will focus on modern systems incorporating feedback loops, analog and pneumatic signals, and the smart family of transmitters. The dominant process variables – temperature, pressure, level, and flow – will be employed in the development of these skills. The planning section of this course will cover electrical layout with an emphasis on initial conduit installation, reading blueprints of various building trades, calculating loads based on the electrical code, designing distribution systems, and sizing and protecting electrical conductors. Writing assignments, as appropriate to the discipline, are part of the course.
3.5 LECTURE HOURS. 2 LAB HOURS. 4.5 CREDIT HOURS.

IBEW 724
Electrical Power Systems
Upon completion of this course, students will have mastered the theory of distribution and usage of electricity in common industrial settings. Hands-on training is an integral part of the course. The student will learn the basics of power distribution with an emphasis on transformers and the four basic power systems: delta, corner grounded delta, high leg delta, and wye. The student will learn about the largest user of this distributed power: rotating equipment-motors. The motors portion of the course covers single phase and three phase motors. The single phase motors include shaded pole, AC series, permanent split capacitor and motors with starting relays. The three phase motors include wye, delta and wye/delta motors. Finally, students will learn the newest technique for motor control, variable speed drives. The course will cover the theory of pulse width modulation and the safe operation of frequency drive motors. The student will learn about line lengths, over voltage, overheating, harmonics, and drive components. Writing assignments, as appropriate to the discipline, are part of the course.
3.5 LECTURE HOURS. 2 LAB HOURS. 4.5 CREDIT HOURS.

IBEW 725
Low Voltage Systems
Upon completion of this course, students will have mastered the basic concepts and theory of the installation and maintenance of low voltage systems currently in use in the electrical construction industry. Installation, testing, troubleshooting and safety techniques through hands-on training and field simulated problems are developed. This course will cover topics in security, life safety, access, environmental controls, communications, data transfer, and data storage. The associated electrical codes are included in daily discussions as they pertain to installation and maintenance of low voltage systems. Writing assignments, as appropriate to the discipline, are part of the course.
2.5 LECTURE HOURS. 3 LAB HOURS. 3.5 CREDIT HOURS.

INSPECTOR 614
Field Inspector Fundamentals I
This course will explore the practices and procedures utilized in the construction and building inspection industry. Also included will be an introduction to basic plan reading and examination of professional ethics in construction and building inspection and unionism. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 1 CREDIT HOUR.

INSPECTOR 615
Introduction to Nuclear Gauge Density
Prepares students to operate a nuclear density gauge on asphalt quality control/quality assurance (QC/QA) projects. This course covers the use of the Nuclear Density gauge and paperwork involved. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 1 CREDIT HOUR.

INSPECTOR 616
HMA I
This course is designed to provide students with general information on Illinois Department of Transportation Quality Control/Quality Assurance (QC/QA) program as it relates to Hot Mix Asphalt (HMA). Persons completing this course will be able to do the field testing for PCC on QC/QA projects and will also receive certification from ACI as a Field Testing Technician-Grade 1. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

INSPECTOR 617
PCC I
This course is designed to provide students with general information on Illinois Department of Transportation Quality Control/Quality Assurance (QC/QA) program as it relates to Portland Cement Concrete (PCC). Persons completing this course will be able to do the field testing for PCC on QC/QA projects and will also receive certification from ACI as a Field Testing Technician-Grade 1. Writing assignments, as appropriate to the discipline, are part of the course. 
3 LECTURE HOURS. 3 CREDIT HOURS.

INSPECTOR 618
Plan Reading and Basic Design
This course is designed to teach students specific knowledge of print reading, along with proper sketching technique for report writing utilized by construction, and building field inspectors. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 1 CREDIT HOUR.

INSPECTOR 619
Field Inspector Fundamentals II
A continuation of Field Inspector Fundamentals I. This course further examines the professional ethics and legal responsibilities of field inspectors. Writing assignments, as appropriate to the discipline, are part of the course. 
Prerequisite(s): Grade of C or better in Inspector 614.
1 LECTURE HOUR. 1 CREDIT HOUR.

INSPECTOR 620
Soil Types and ASTM Standards I
This course is designed to familiarize students with types of soils, geological history and American Society Testing and Materials Standards. Vocabulary and geographical knowledge will also be a part of the course. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 1 CREDIT HOUR.

INSPECTOR 621
Soil Types and ASTM Standards II
This course is a continuation of Soil Types and ASTM Standards I. Students will become further familiarize with understanding of soil density, bearing capacity, soil stabilization and ASTM standards. Vocabulary and geographical knowledge will also be a part of the course. Writing assignments, as appropriate to the discipline, are part of the course. 
Prerequisite(s): Grade of C or better in Inspector 620.
3 LECTURE HOURS. 3 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS

Credit Courses

**INSPECTOR 622**
**Introduction to Grade Stakes**
This course is designed to familiarize students with reading and shooting grade staked in the field. This course will also teach basic civil plan reading technique. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 1 CREDIT HOUR.

**INSPECTOR 623**
**PCC II**
A continuation to Portland Cement Concrete Level I. Persons completing this course will be able to do the batch plant inspections for PCC on QC/QA projects and will also qualify to take to the American Concrete Institute (ACI) as a Field Testing Technician-Grade II. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Inspector 613 and 617.
3 LECTURE HOURS. 3 CREDIT HOURS.

**INSPECTOR 624**
**Soil Training II**
This course will acquaint students with terminology used in the industry and general information on how to conduct routine tasks under general daily supervision, in the field of soils. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

**INSPECTOR 625**
**Soil Training III**
The course will provide student the basic knowledge needed to become an intermediate-level soil technicians. Students will learn how to work with standards, plans, specifications, and instructions in the field of soils. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Inspector 624.
2 LECTURE HOURS. 2 CREDIT HOURS.

**INSPECTOR 626**
**Hot Mix Asphalt II**
This course is a continuation of Hot Mix Asphalt Level I. Student will be provided with general information on the Illinois Department of Transportation (IDOT) quality control and quality assurance (QC/QA) program as it applies to asphalt. Persons completing this course will be able to do plant testing for asphalt on QC/QA projects and will also qualify to take the IDOT certification exam for Field and Plant Testing Technician-Grade II. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Inspector 616 and 618.
3 LECTURE HOURS. 3 CREDIT HOURS.

**INSPECTOR 627**
**HMA III**
This course is a continuation to Hot Mix Asphalt Level II. Students will be provided with information on Asphalt and the Illinois Department of Transportation (IDOT) quality control and quality assurance (QC/QA) program as it applies to asphalt. Students completing this course will be able to do plant and field testing for asphalt on QC/QA projects along with mix design and editing. Students will also qualify to take the industry certification exam for Hot Mix Asphalt Technician-Grade III. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Inspector 626.
2 LECTURE HOURS. 2 CREDIT HOURS.

**INSPECTOR 628**
**Structural Welding Code**
This class is designed to familiarize students with the AWS D1.1 codebook. The class will cover types of metal, filler metal, joints and inspections procedures for all types of weldments. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 1 CREDIT HOUR.

**INSPECTOR 628-1**
**Structural Welding Code**
This class is designed to familiarize students with the AWS D1.1 codebook. The class will cover types of metal, filler metal, joints and inspections procedures for all types of weldments. Writing assignments, as appropriate to the discipline, are part of the course.
2–3 LECTURE HOURS. 2–3 CREDIT HOURS.

**INSPECTOR 629**
**UL Charts and ICC Fireproofing**
This course covers Underwriter Laboratories’ (UL) specifications and standards for the application and inspection of fireproofed structural members. The course will focus on reading and finding information in the listed UL charts. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 1 CREDIT HOUR.

**INSPECTOR 630**
**Post Tension**
The course is designed to acquaint students with general information on post tension concrete concepts and theory. Information provided on inspection procedures, how to properly install barrier cables, document findings, and how to troubleshoot and inspect repairs. Upon completion of this course, students will take the Post Tension Institute Level 1 and 2 certification exam. Writing assignments, as appropriate to the discipline, are part of the course.
1–2 LECTURE HOURS. 1–2 CREDIT HOURS.

**INSPECTOR 631**
**Concrete National Standards**
Provided information on concrete testing according to American Concrete Institute National Standard. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 1 CREDIT HOUR.

**INSPECTOR 632**
**Admixtures, Mortar, and Grout**
This course covers specifications and standards for the inspection of admixtures, mortar and grout. Material provided will focus on acceptance criteria purposes and types. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 1 CREDIT HOUR.

**INSPECTOR 633**
**ICC Reinforced Concrete Inspector**
This course is designed to provide students with the information required to review approved plans and specifications for special inspection requirements as mandated by the International Code Council (ICC). Students will learn how to comply with special inspection requirements of the enforcing jurisdiction. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Inspector 617.
2 LECTURE HOURS. 2 CREDIT HOURS.
INSPECTOR 634
ICC Pre-stressed Concrete Inspector
This course is designed to provide students with the skills required to review approved plans and specifications to conduct Pre-stress Concrete Inspector to the specification of the International Code Council (ICC). Students will also learn how to comply with special inspection requirements of the enforcing jurisdiction. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

INSPECTOR 635
ICC Reinforced Masonry Inspector
This course is designed to provide students with the information required to review approved plans and specifications for masonry special inspection to the specification of the International Code Council (ICC). Students will cover the importance of complying with special reinforced masonry inspection requirements of the enforcing jurisdiction. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

INSPECTOR 636
ICC Bolt Inspector
Review approved plans and specifications for bolt inspection to the specification of the International Code Council (ICC). Students will cover the importance of complying with special bolt inspection requirements of the enforcing jurisdiction. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

INSPECTOR 637
ICC Welding Inspector
This course is designed to review approved plans and specifications for welding special inspection to the specification of the International Code Council (ICC). Students will cover the importance of complying with special welding inspection requirements of the enforcing jurisdiction. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

INSPECTOR 638
AWS Certified Welding Inspector I
This course will review various terminology and procedures of the American Welding Society and exercises to familiarize students with welding terminology and procedures. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

INSPECTOR 639
AWS Certified Welding Inspector II
This course is a continuation of AWS Welding Inspector I. It is designed to further acquaint students to the terminology, standards and procedures utilized in the welding industry. Upon completion of the course students will qualify to take the American Welding Society Certification Exam. This course contains both a preparatory class and the AWS CWI exam itself. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Inspector 638.
2 LECTURE HOURS. 2 CREDIT HOURS.

INSPECTOR 640
ASNT Magnetic Particles
This course is designed to teach the fundamental knowledge of magnetic particle units and the principals behind it for weld inspections as specified by the American Society of Nondestructive Testing (ASNT). Materials provided will prepare students to take both Level 1 and 2 American Society of Non-destructive Testing Certification examinations. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

INSPECTOR 641
ASNT Liquid Penetrant
This course is designed to teach the fundamental knowledge of liquid penetrant units and the principals behind it for weld inspections as specified by the American Society of Nondestructive Testing (ASNT). Materials provided will prepare students to take both Level 1 and 2 American Society of Non-destructive Testing Certification examinations. Writing assignments, as appropriate to the discipline, are part of the course.
3 LAB HOURS. 3 CREDIT HOURS.

INSPECTOR 642
ASNT Visual Testing
This course is designed to teach the fundamental knowledge of visual testing equipment and the principals behind it for weld inspections as specified by the American Society of Nondestructive Testing (ASNT). Materials provided will prepare students to take both Level 1 and 2 American Society of Non-destructive Testing Certification examinations. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

INSPECTOR 643
ASNT Ultrasonic Testing
This course is designed to teach the fundamental knowledge of Ultrasonic testing units and the principals behind it for weld inspections as specified by the American Society of Nondestructive Testing (ASNT). Materials provided will prepare students to take both Level 1 and 2 American Society of Non-destructive Testing Certification examinations. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

INSPECTOR 644
Structure Steel Members and Fasteners
This course is designed to familiarize the inspector with the codes listed in American Institute of Steel Construction's Manual of Steel Construction. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

INTERDISCIPLINARY STUDIES
INTERDISCIPLINARY STUDIES 101
College Success Course
Introduction to academic skills that foster success in college and after college, critical thinking, reading, and writing as well as study skills, time management and stress management, and use of technology for communication and research. These skills will be learned through the topic of the course which will be based in the idea of “Self and Community,” but will vary depending on the instructor and department teaching the course. Topics will be approached from a variety of perspectives that represent interdisciplinary academic inquiry, and students will consider how to take personal responsibility for academic and career choices through exploration of relationships between self and community. Students will be required to do either twelve hours of service learning related to the content of the course, or to meet other criteria for an equivalent number of hours spent in outside activities as determined by the instructor. Writing assignments, as appropriate to the discipline, are part of the course.
1–3 LECTURE HOURS. 1–3 CREDIT HOURS.

INTERDISCIPLINARY STUDIES 102
Career Development and Decision Making
This course helps students develop additional skills to aid in the transition from being a college student to being an employee. Learners will identify personal challenges that might affect their success and develop specific plans to address them. Overall, students will use critical thinking and self-reflection to develop soft skills that enhance employment preparedness. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for Reading 99 or consent of Department Chairperson.
1–3 LECTURE HOURS. 1–3 CREDIT HOURS.
INTERDISCIPLINARY STUDIES 103
News Literacy and Civic Engagement
Fundamental critical evaluation of diverse news formats through the application of information literacy and media literacy. Topics explored in relation to the culture of civic engagement. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Eligibility for English 101 and Reading 125. 1–3 LECTURE HOURS. 1–3 CREDIT HOURS.

INTERDISCIPLINARY STUDIES 104
College Success: Special Topics
This course introduces students to the expectations of the college community and helps them develop skills that promote success during and after their college career. Topics will include note-taking methods, study and test-taking strategies, problem solving and critical thinking, oral communication, use of technology and library resources, campus support services, time and stress management strategies, and career exploration. Students will also learn the importance of taking personal responsibility for their academic and career choices. Topics may be approached from a variety of interdisciplinary perspectives that focus on connecting individuals to their local and global communities. Through assignments that integrate community engagement, service learning, and/or on-campus service projects, students will make connections between their coursework and their lives. ARC: 3 times. 1 LECTURE HOUR. 1 CREDIT HOUR.

INTERDISCIPLINARY STUDIES 299
Independent Study and Service
Students will engage in independent study to augment their educational plan. The course will engage students in service related projects and support activities such as professional networking, scholarly research, and attendance at seminars. Students will work outside the classroom setting and learn to become a practitioner in their field. Writing assignments, as appropriate to the discipline, are part of the course. Allowed Repeatable Course: Course may be repeated up to three times, and count for a maximum of 9 credit hours. ARC: 1 time. Prerequisite(s): Eligibility for English 101 and consent of Department Chairperson. 1–3 CREDIT HOURS.

ITALIAN

ITALIAN 101
First Course Italian
Pronunciation and basic structures, speech patterns, reading, and writing skills. Writing assignments, as appropriate to the discipline, are part of the course. 4 LECTURE HOURS. 4 CREDIT HOURS.

ITALIAN 102
Second Course Italian
Continuation of Italian 101. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Placement test, or Italian 101, or consent of Department Chairperson. 4 LECTURE HOURS. 4 CREDIT HOURS.

ITALIAN 103
Third Course Italian
Review and development of basic language skills, conducted in Italian. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Placement test, or Italian 102, or consent of Department Chairperson. 4 LECTURE HOURS. 4 CREDIT HOURS.

ITALIAN 104
Fourth Course Italian
Review of language structure and interpretation of readings, conducted in Italian. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Placement test, or Italian 103, or consent of Department Chairperson. 4 LECTURE HOURS. 4 CREDIT HOURS.

ITALIAN 206
Intensive Italian Oral Practice
Practice in spoken language, fluency and accuracy. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Placement test, or Italian 104, or consent of Department Chairperson. 4 LECTURE HOURS. 4 CREDIT HOURS.

ITALIAN 213
Introduction to Modern Italian Literature
Selections from contemporary writings, conducted in Italian. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Placement test, or Italian 104, or consent of Department Chairperson. 3 LECTURE HOURS. 3 CREDIT HOURS.

ITALIAN 214
Readings in Italian Literature
Works from selected historical periods, conducted in Italian. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Placement test, or Italian 104, or consent of Department Chairperson. 3 LECTURE HOURS. 3 CREDIT HOURS.

JAPANESE

JAPANESE 101
First Course Japanese
Pronunciation and basic structures, speech patterns, reading, and writing skills. Writing assignments, as appropriate to the discipline, are part of the course. 4 LECTURE HOURS. 4 CREDIT HOURS.

JAPANESE 102
Second Course Japanese
Continuation of Japanese 101. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Placement test, or Japanese 101, or consent of Department Chairperson. 4 LECTURE HOURS. 4 CREDIT HOURS.

JAPANESE 103
Third Course Japanese
Review and development of basic language skills, conducted in Japanese. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Placement test, or Japanese 102, or consent of Department Chairperson. 4 LECTURE HOURS. 4 CREDIT HOURS.
JAPANESE 104
Fourth Course Japanese
Review of language structure and interpretation of readings, conducted in Japanese. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Placement test, or Japanese 103, or consent of Department Chairperson.
4 LECTURE HOURS. 4 CREDIT HOURS.

LATIN 101
First Course Latin
This course is the study of the Latin language that includes mastery of vocabulary and grammar, accent, syntax, and etymology. The courses focuses on developing skills and strategies for acquiring new vocabulary and the understanding of sentences structure that increases students’ readiness to acquire other languages, related and non-related, and provides techniques that students can apply in many other fields. Students will analyze Latin roots of English words, parse and translate passages from Latin literature, recognize derivatives found in the Romance languages, and discuss the cultural content. (This course transfers to a four-year state universities as elective credit.) Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
4 LECTURE HOURS. 4 CREDIT HOURS.

LATIN 102
Second Course Latin
This course is the study of more complex grammatical and syntactical constructions. The course will increase students’ Latin vocabulary and understanding of etymology. Students will analyze Latin roots and English words, parse and translate more difficult passages from actual works of Latin literature, and continue to recognize derivatives found in the Romance Languages. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Latin 101 with a C grade or better or consent of Department Chairperson.
4 LECTURE HOURS. 4 CREDIT HOURS.

LIBRARY AND INFORMATION SCIENCE
LIBRARY AND INFORMATION SCIENCE 101
Information Literacy
This course is to help students gain the information literacy skills that enable them to find, retrieve, gather, analyze, and use information so they can prosper as a student, citizen and life-long learner. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

LIBRARY AND INFORMATION SCIENCE 105
Information Literacy Basics
This course is to help students gain the information literacy skills that enable them to find, retrieve, gather, analyze, and use information from a variety of print and electronic sources so they can prosper as students, citizens and life-long learners. Writing assignments, as appropriate to the discipline, are part of the course. ARC: 3 times.
Prerequisite(s): Eligibility for English 100 or consent of Department Chairperson.
1 LECTURE HOUR. 1 CREDIT HOUR.
CREDIT COURSE DESCRIPTIONS

Credit Courses

THIS INFORMATION IS SUBJECT TO CHANGE

LINGUISTICS

LINGUISTICS 101
Language and Culture
Examines the relationship between language and culture. Includes the language socialization of children, gender differences in language, standard varieties and dialects of language, the effects of language on thought, and the nature of language in personal relationships. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

LITERATURE

LITERATURE 110
Introduction to Literature
Representative poetry and prose. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: DA KK MX OH TR HW WR

LITERATURE 111
Poetry
Reading of representative poems from various periods for analysis. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: DA KK MX OH TR HW WR

LITERATURE 112
Drama
Reading of representative plays from various periods for analysis. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: DA KK MX OH TR HW WR

LITERATURE 113
Fiction
Reading of representative novels and short stories from various periods for analysis. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: DA KK MX OH TR HW WR

LITERATURE 114
Ideas in Prose
Introduction to significant prose writing in major areas of thought. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: DA MX

LITERATURE 115
Great Books Seminar/Topic Literature
This course focuses on the Great Books Foundations and Great Books texts and examines in-depth the global themes in the literature for enrichment, stimulation, pleasure, and greater self-knowledge. Writing assignments, as appropriate to the discipline, are part of the course.
Allowed Repeatable Course: Course may be repeated up to three times and may count for a maximum of three credit hours. Consent of Department Chairperson required for repeatability. ARC: 4 times.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: WR

LITERATURE 116
American Literature from Colonial Days to Civil War
Early American social and political documents, novels, short stories, and poems. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: KK MX HW WR

LITERATURE 117
American Literature from the Civil War to the 20th Century
American prose and poetry from 1865 to 1914. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: DA KK TR HW WR

LITERATURE 118
English Literature from its Beginnings to the Age of Johnson
Important writers and representative literary forms. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: HW WR

LITERATURE 119
English Literature from the Romantic Revival to the 20th Century
Important writers and representative literary forms. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: KK MX HW WR
LITERATURE 120
Contemporary British and American Literature
Major British and American writers of fiction, poetry, and drama of the 20th Century. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: HW WR | HD

LITERATURE 121
Contemporary African-American Literature
Survey of major African-American writers from the period of Harlem Renaissance to present day. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: KK MX OH HW WR | HD

LITERATURE 122
Perspectives in Black Literature
Sequence and scope of writing development by blacks in America; analysis and interpreting of major works of prose, poetry, and drama. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: KK MX | HD

LITERATURE 123
Literature of the U.S. from the Civil War to the Present
Development of the literature of the United States from the Civil War to the present through the analysis of representative texts.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: OH

LITERATURE 124
Experimental Literature
New directions in writing; experiments in poetry, prose, drama, and exploratory writing. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

LITERATURE 125
Psychology in Black Literature
Analysis of books by African-American writers from a psychological point of view; begins with autobiography of Frederick Douglass and concludes with black experiences by contemporary writers Cleaver and Jones. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Psychology 201 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
HD

LITERATURE 126
Contemporary American Literature
Major American writers of fiction, poetry, drama, and essays of the 20th Century. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: HW WR

LITERATURE 127
Contemporary British Literature
Major British, Irish, and Scottish writers of fiction, poetry, drama, and essays of the 20th Century. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: WR

LITERATURE 128
Latin American Literature
This course spans the centuries and the Western Hemisphere. It includes the pre-Columbian Mayan Indian authors of Popol Vuh and the world-renowned contemporary practitioners of magic realism. The course includes authors from Mexico, the Caribbean, Central America, and South America. Close attention will be paid to the historical and cultural context of the works. Readings, lectures, and course work will be in English. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: MX TR HW | HD

LITERATURE 129
U.S. Latino(a) Literature
This course explores the trends and movements of various periods of U.S. Latino(a) literature in relation to U.S. Latino(a) social and cultural history. As part of the literatures of the United States, these works are distinct from, although sometimes influenced by, Latin American literature, which is written in Spanish or Portuguese by authors native to Latin American and Caribbean countries. The U.S. Latino(a) texts in this course--poetry, fiction, drama, memoir, and chronicle--depict various issues and themes pertinent to this ethnic segment of the United States, including Latino(a) writers' stylistic and thematic contributions to American mainstream literature. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: HW WR | HD

LITERATURE 130
Children's Literature
Survey of children's books, stories, magazines, and related audio-visual material; criteria evaluated for building literature program within the classroom. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English program, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

<tbody>
<tr>
<td>LITERATURE 131</td>
<td>Survey of Afro-American Poetry</td>
<td>Historical and critical survey of Afro-American poetry; minor emphasis on Harlem Renaissance and major emphasis on contemporary Afro-American arts movements. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.</td>
<td>3 LECTURE HOURS. 3 CREDIT HOURS.</td>
</tr>
<tr>
<td>LITERATURE 132</td>
<td>Native American Literature</td>
<td>Emphasizing perceptions and perspectives, this introductory course will examine the construction of Native American identity by exploring the works of different Native American writers and filmmakers. It will carry out its pursuit by engaging with and interrogating the Eurocentric view of the Native Americans and the Native Americans' view of themselves. The course will emphasize the history, style, and content of the literature, situating it in a political, social, and cultural context. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.</td>
<td>3 LECTURE HOURS. 3 CREDIT HOURS.</td>
</tr>
<tr>
<td>LITERATURE 133</td>
<td>African-American Fiction</td>
<td>Aesthetic values that determine quality of fiction written by African-Americans who profess a national consciousness; short fiction from anthologies, environment, style, and social implications emphasized; critical and creative writings required. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.</td>
<td>3 LECTURE HOURS. 3 CREDIT HOURS.</td>
</tr>
<tr>
<td>LITERATURE 137</td>
<td>The Black Woman in Black Fiction</td>
<td>Exploration of images of the African-American woman in novels and short stories through lectures, discussion, and optional out-of-class group sessions. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.</td>
<td>3 LECTURE HOURS. 3 CREDIT HOURS.</td>
</tr>
<tr>
<td>LITERATURE 140</td>
<td>Great Books: Literary Sources of Art</td>
<td>This course focuses on the Great Books Foundation's Great Books texts and examines literary works as inspiration for art. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td></td>
<td>3 LECTURE HOURS. 3 CREDIT HOURS.</td>
</tr>
<tr>
<td>LITERATURE 150</td>
<td>Women's Literature</td>
<td>Ideas and philosophy of women writers as represented in their works; problems of women and works portraying women characters in modern British and American works. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.</td>
<td>3 LECTURE HOURS. 3 CREDIT HOURS.</td>
</tr>
<tr>
<td>LITERATURE 153</td>
<td>Gay and Lesbian Literature</td>
<td>Guided each year by a central sub-theme of the larger Queer Culture, this course focuses on literary works by gay, lesbian, bisexual, and transgendered individuals. Students will learn and combine principles of argumentation, making clear distinctions between emotion and rationality in their responses (in both oral and written form) to course content. As historical and cultural content for these readings are provided, the course will examine the authors' theories (for instance, on topics related to class, race, and gender) and the extent of their relevance in contemporary Queer Culture. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>Eligibility for English 101 based on prior coursework or COMPASS, ACT, or SAT test scores, or consent of Department Chairperson.</td>
<td>3 LECTURE HOURS. 3 CREDIT HOURS.</td>
</tr>
<tr>
<td>LITERATURE 155</td>
<td>Literature and Film</td>
<td>Analysis of literature in film; comparison of literary and film techniques, verbal and visual language, and film and modern literature. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.</td>
<td>3 LECTURE HOURS. 3 CREDIT HOURS.</td>
</tr>
<tr>
<td>LITERATURE 156</td>
<td>Creative Non-Fiction</td>
<td>A survey course of creative non-fiction in a variety of forms; personal narrative essays, true crime non-fiction novels, and first-person cultural criticism. This course introduces students to a genre of literature, to practical approaches to the determination of literary meaning, and to the concerns of literature in general. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.</td>
<td>3 LECTURE HOURS. 3 CREDIT HOURS.</td>
</tr>
<tr>
<td>LITERATURE 157</td>
<td>Graphic Novels</td>
<td>The world of graphic novels is a vast universe of stories ranging from the realistic and contemporary to the supernatural and historical. Students will read and discuss representative works with some attention to critical work and increase their enjoyment and appreciation of a variety of graphic novels, genres and creators while determining literary meaning, form, and value. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.</td>
<td>3 LECTURE HOURS. 3 CREDIT HOURS.</td>
</tr>
</tbody>
</table>
LITERATURE 211
Shakespeare
Critical reading and discussion of representative Shakespearean histories, tragedies, comedies, and sonnets. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

LITERATURE 220
World Literature
Survey of masterpieces in world literature: principal works and writers, literary periods, and traditions with selections from ancient times through present day. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

LITERATURE 221
Topics in Literature: Romanticism in British and American Literature
A study of works that exhibit the trends in literature and thought in Britain and America in the 19th Century, and their Continental cross-currents. The course may emphasize particular authors, literary movements, or the development of a genre, or early examples of contemporary concerns. It may trace a problem, such as industrialization of the shift to urban life. Topics may change from semester to semester but the chronological parameter will remain the same and the relevance to Literature 220 will be emphasized. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Literature 220 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

LITERATURE 223
Introduction to Literary Genres
Introduction to basic literary genres and their characteristics. Includes development of critical judgment and skill in analysis of literary works. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

LITERATURE 299
Science Fiction: Psychology and Prophecy
A survey of major writers of science fiction. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

LOGISTIC/TRANSPORTATION/DISTRIBUTION 150
Introduction to Transportation Administration
This course provides an overview of basic principles in both the public and private sectors; covers state and federal regulations; provides a historical look at transportation in the U.S. and the impact it has on the economy; characteristics of different modes of transportation will be discussed. Review support functions for transportation management. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

LOGISTIC/TRANSPORTATION/DISTRIBUTION 151
Central Store: Applied Logistics
This course allows students to perform entry-level job functions in "The Central Store," which is a live logistics operation. In this course, students work in the Central Store under supervision, allowing them an opportunity to gain the skills needed to demonstrate preparedness for full time employment in a logistics environment. Additionally, students will apply critical thinking and business communications skills. Writing assignments, as appropriate to the discipline, are part of the course. ARC: 3 times.
Prerequisite(s): Grade of C or better in Business 150.
4 LECTURE HOURS. 2 LAB HOURS. 6 CREDIT HOURS.

LOGISTIC/TRANSPORTATION/DISTRIBUTION 152
Introduction to Business Logistics
An introduction of general customer service roles and functions. Functions include: import/export, vendor management inventory, order management deduction management, credit, and business communications skills. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

LOGISTIC/TRANSPORTATION/DISTRIBUTION 154
Traffic Management/Customer Service
An introduction to the interrelated activities involved with the inbound, in process and outbound movement and storage of goods as well as the related information from the emphasis placed on how the functional areas of logistics warehousing and packing impact supply chain decision-making. Introduction and analysis of the logistics concepts to include a brief history of logistics, the management of transportation, inventory, packaging, warehousing, materials handling, order processing, facility location, and customer service. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

LOGISTIC/TRANSPORTATION/DISTRIBUTION 156
Warehousing and Distribution
This course covers warehouse layout and usage based on product requirements such as refrigeration, storage requirements, hazardous materials; staging areas for multiple trailer/railcar loading or unloading; timely locator system including computer controlled systems; material handling and equipment; racking; packaging and just in time/cross docking. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Logistic/Transportation/Distribution 150.
3 LECTURE HOURS. 3 CREDIT HOURS.
Credit Courses

LOGISTIC/TRANSPORTATION/DISTRIBUTION 158
Purchasing
Overview of purchasing responsibilities, process and procedures. Understanding supplier selection and administration. Sourcing strategies and identifying new suppliers. Negotiation strategies and techniques. The influence of purchasing on profitability and cost reduction techniques. How to write purchase orders, blanket orders, and contracts. Supplier quality assurance. Role of purchasing in the logistics process and organization. Developing understanding of a commodity. Understanding total cost in evaluating suppliers, supplier stocking programs, consignment. Writing assignments, as appropriate to the discipline, are part of the course.

3 LECTURE HOURS. 3 CREDIT HOURS.

LOGISTIC/TRANSPORTATION/DISTRIBUTION 200
Export/Import Management
A study of import/export shipping procedures including customs clearance, bonded shipping, import financing and letters of credit, diversion, customer regulations, insurance, import duties and trade restrictions; will discuss selection of transportation mode; covers raw materials, components and finished goods. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Logistic/Transportation/Distribution 150, 156, 158 and 200.

3 LECTURE HOURS. 3 CREDIT HOURS.

LOGISTIC/TRANSPORTATION/DISTRIBUTION 204
Global Logistics Management
The course is designed to survey the impact of the emerging global marketplace on today’s business environment. In particular, this case study course will integrate the concepts, theories, and evolving practices of global supply chains with today’s marketplace. Topics include international terms of sale, impact of e-commerce on global strategies, international transportation carriers, documentation issues, global third-party providers, global sourcing and ethical considerations. Emphasis will be on how logistics functions as a tool for the integration of international operations. Case studies of companies involved in global logistics practices will be utilized in conjunction with other source materials. Special emphasis will be placed in identifying, analyzing, and solving complex business problem situations. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Logistic/Transportation/Distribution 152.

3 LECTURE HOURS. 3 CREDIT HOURS.

LOGISTIC/TRANSPORTATION/DISTRIBUTION 208
Supply Chain Optimization/Information System
Understand tool supply chain cost. Material flow from suppliers. Warehousing and distribution cost and optimization. Performance measurements for the supply chain. Customer relationship management. Strategic alliances in the supply chain. Relationships with other parts of the organization. Sales and operations planning. An overview and analysis of the various information management technology tools used across the supply chain. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Logistic/Transportation/Distribution 150, 156, 158 and 200.

3 LECTURE HOURS. 3 CREDIT HOURS.

LOGISTIC/TRANSPORTATION/DISTRIBUTION 210
Inventory Control
Fundamental principles of inventory control. Inventory classification—raw materials, work-in-process, and finished goods. Using the 80/20 rule and ABC classifications. Importance of inventory record accuracy. Inventory turnover and other inventory measurements. Principles of Material Requirements Planning and MRP II. Inventory control systems. Internal and external lead time and cumulative lead time. Excess and obsolete inventory. Role of inventory control in the logistics process and organization. Physical inventories and cycle counting. Scheduling techniques. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Logistic/Transportation/Distribution 150.

3 LECTURE HOURS. 3 CREDIT HOURS.

LOGISTIC/TRANSPORTATION/DISTRIBUTION 212
Supervised Work-Based Learning
Learning is designed to provide an opportunity to perform in a supply-chain/warehousing setting. Students are placed in a college-approved employment situation for 200 hours during a semester. The students may work full or part-time to complete this requirement. Writing assignments, as appropriate to the discipline, are part of the course.

25 LAB HOURS. 5 CREDIT HOURS.

MANUFACTURING

MANUFACTURING 102
Blueprint Reading, Dimensioning, and Tolerances
This course is an introduction to blueprint reading in the Manufacturing Technology program. Emphasis on analysis and interpretation of drawings applicable to all gear manufacturing. Includes principles and multi-view projection, sections, dimensions, characteristics, notes and specifications. Writing assignments, as appropriate to the discipline, are part of the course.

3 LECTURE HOURS. 3 CREDIT HOURS.

MANUFACTURING 103
Introduction to Total Quality Control
Introduction to quality control and the development of the concept of total quality control in manufacturing, process improvement and quality information systems. Writing assignments, as appropriate to the discipline, are part of the course.

3 LECTURE HOURS. 3 CREDIT HOURS.
MANUFACTURING 104
Statistical Process Control
This course introduces the use of statistical process control (SPC) which ensures that production systems maintain quality through predictive control of variations. Various distribution curves and statistical control charts are introduced through specific production problems. The interpretation and use of process and product control data is presented through simulations of real scenarios. The course will also prepare students for the Manufacturing Skill Standards Council’s Quality Practices and Measurement exam. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Manufacturing 139, and grade of C or better or concurrent enrollment in Mathematics 125; or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

MANUFACTURING 111
Machining Processes I
This course is an introduction to machine tools and metal-cutting processes used in manufacturing. Students complete projects that require precision layout, set-up, machining, and inspection. These projects require students to perform various operations on engine lathes, drill presses and power saws. Students are also prepared to take the NIMS Level 1 Measurement, Materials and Safety test, and the MSSC Safety test. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for Reading 99 or consent of Department Chairperson.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.

MANUFACTURING 112
Machining Processes II
This course is an introduction to machine tools and metal-cutting processes used in manufacturing. Students complete projects that require precision layout, set-up, machining, and inspection. These projects require students to perform various operations on vertical milling machines, power saws and surface grinders. Students also have the opportunity to earn one or more NIMS Level 1 machining credentials including Job Planning Benchwork and Layout, Milling, Drill Press, and/or Surface Grinding. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for Reading 99 or consent of Department Chairperson.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.

MANUFACTURING 123
CNC Milling Operations and Programming
This course introduces the programming setup and operation of CNC machining center. Topics include programming formats, control functions, program editing, part production, and inspection. Various projects will strengthen students’ skills in the proper use, programming, troubleshooting of this equipment. Students will also earn the NIMS level 1 CNC Milling Program, Setup, and Operate credentials. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Manufacturing 140 and 112, or consent of Department Chairperson.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.

MANUFACTURING 137
CNC Turning Operations and Programming
This course introduces the programming, setup, and operation of Computer Numerical Control (CNC) turning centers. Topics include: programming formats, control functions, program editing, part production and inspection. Various projects will strengthen students’ skills in the proper use, programming and troubleshooting of this equipment. Students will also have the chance to earn the NIMS Level 1 CNC Turning Program, Setup, and Operate Credential. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Manufacturing 140 and 111-1 or consent of Department Chairperson.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.

MANUFACTURING 138
Introduction to SolidWorks
This course covers part modeling, detailing and assembly design using SolidWorks software. SolidWorks is a feature-based parametric solid modeler used for mechanical design and manufacturing. The topics include the basic functions needed to use SolidWorks to create parts, assemblies and production drawings. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for Mathematics 99 and grade of C or better in Manufacturing 139 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

MANUFACTURING 139
Print Requirements: Quality Assurance
This course focuses on the fundamentals of print reading and the measuring skills needed to verify print requirements. Visualization of 3D objects from orthographic views and the use of micrometers and dial calipers are stressed. The concepts of Geometric Dimensioning and Tolerancing, and quality tools (such as Pareto diagrams and fishbone charts) are introduced. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for Mathematics 98 and Reading 99 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

MANUFACTURING 140
CNC Fundamentals
This course introduces students to the CNC process, the operation of the CNC lathe and mill, and to the basic set up, tooling, operation, and trouble shooting of CNC Machining. Students will earn at least one NIMS Level 1 CNC Operator credential. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for Mathematics 99 and grade of C or better in Manufacturing 111-1 or 112-1, or consent of Department Chairperson.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.

MANUFACTURING 141
Manufacturing Materials and Processes
The course will provide a general understanding of the behavior of the materials commonly used in manufacturing; the basic techniques used in processing them into useful products, the scientific theory underlying those processes, and the criteria for selecting particular tools, machines, and processes. Students will have the opportunity to earn the MSSC Manufacturing Processes and Production credential. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for Reading 99 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

MANUFACTURING 142
Geometric Dimensioning and Tolerancing
This course expands upon students’ basic knowledge of mechanical drawings by adding form and feature controls in order to meet assembly requirements at the lowest cost. The differences between traditional dimensioning and geometric dimensioning will be stressed. This course prepares students for an ASME certification in GDT. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Manufacturing 139 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
MANUFACTURING 143
Advanced Metrology
The course focuses on the use of the Coordinate Measuring Machine (CMM) and the optical comparator to inspect machine parts to the current ASME Y 14.5 Geometric Dimensioning and Tolerancing (GD&T) standards. Lab exercises will focus on the setup and operation of precision measuring tools, including the CMM and the optical comparator, to inspect complex parts. Bore gauges, attribute gauges, gage blocks and pins and their use in calibration will also be covered. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better or concurrent enrollment in Manufacturing 142 or consent of Department Chairperson.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.

MANUFACTURING 144
Wire Electrical Discharge Machining
The course covers operations and procedures for Wire Electrical Discharge Machining systems (Wire EDM). The course content includes an overview of the Wire EDM, EDM operating processes, EDM machine functions, EDM manual part programming, and EDM application in tool rooms and production. Students may also earn the NIMS Wire EDM credential. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Manufacturing 140 or consent of Department Chairperson.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.

MANUFACTURING 145
Computer Integrated Manufacturing (CIM)
Students will study aspects of automated assembly and process control, including programmable controllers, computer assisted part programming, CAD/CAM systems computerized instrumentation and robotics. This course stresses the system approach and how hydraulic, pneumatic and electromechanical components function together as a system. Troubleshooting automation is a major activity of this course. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Manufacturing 291 or consent of Department Chairperson.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.

MANUFACTURING 146
Team Dynamics in Manufacturing
This course provides an exploration into how employees work in groups for the completion of organizational objectives. Emphasis is placed on the growing dependency on self-directed work teams in a manufacturing environment. This course equips students with the ability to manage work teams, work in teams successfully, and to obtain the results via team dynamics. In addition, impacts upon customer satisfaction are explored. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for Reading 125 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

MANUFACTURING 151
Introduction to Welding
This is a beginning welding course that teaches basic welding skills that lead to an American Welding Society qualification Gas Metal Arc Welding (GMAW or MIG). Topics include metallurgy, welding processes, welding safety, and steel designations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for Reading 99 or consent of Department Chairperson.
6 LAB HOURS. 3 CREDIT HOURS.

MANUFACTURING 152
Intermediate Welding
This is a second welding course that teaches basic welding skills that lead to an American Welding Society (AWS) qualification in Gas Tungsten Arc Welding (GTAW or TIG) and/or Shielded Metal Arc Welding (SMAW or Stick). In addition to teaching the theory and practice of GTAW and SMAW welding processes, the course including training in welding with a FANUC robot, resistance welding and torch work. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Manufacturing 151.
6 LAB HOURS. 3 CREDIT HOURS.

MANUFACTURING 191
Industrial Electricity
A study of DC and AC electricity as applied to industrial circuits. The topics include: fundamentals of circuit analysis, single and three phase circuits; and parameters, safety issues in industrial electricity, such as current, voltage and power and troubleshooting methods using test equipment. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for Mathematics 99 and Reading 99 or consent of Department Chairperson.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

MANUFACTURING 201
Supervised Work Based Learning
Supervised Work Based Learning is designed to provide an opportunity to perform in an industrial setting. Students are placed in a college-approved employment situation for eight weeks on a full-time basis. Writing assignments, as appropriate to the discipline, are part of the course.
15 LAB HOURS. 3 CREDIT HOURS.

MANUFACTURING 207
Introduction to MASTERCAM
This course trains students to use Mastercam software to create programs that will drive computerized machine tools (CNC machines). These “g-code” programs are generated from part geometry created in Mastercam software or in a computer-aided-drawing (CAD) software such as Solidworks. Students will learn to create part geometry, generate toolpaths, assign appropriate tools to the toolpaths, and upload their program to a CNC machine, which will precisely cut the part from metal stock. Student projects will focus on 2-D milling operations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Manufacturing 140 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

MANUFACTURING 216
CNC Machining
CNC machinery as it applied to the operator, including introduction to CNC set-up, tooling, operation, and troubleshooting. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

MANUFACTURING 253
Pneumatics
Study of the basic principles of pneumatics with emphasis on schematics, valves, actuators, compressors, instrumentation, applications, and troubleshooting. Course also includes the use of supplier catalogs and technical manuals. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for Mathematics 98 and Reading 99 or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.
MANUFACTURING 255
Industrial Hydraulics
This course is a study of basic principles of hydraulics. The topics in this course include schematic interpretation, valves, actuators, compressors, line sizing, fluid viscosity and reservoir capacity. This course will also include the use of supplier catalogs and technical manuals. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for Mathematics 98 and Reading 99 or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

MANUFACTURING 291
Programmable Logic Controllers
This course covers the basic concepts and skills needed to program and use programmable logic controllers (PLC’s) in automated systems in industry. The topics include an overview of basic terminology, ladder logic programming, memory structure, and processing. Students will use PLC’s to control electro-mechanical devices, pneumatic actuators, and other industrial components. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Manufacturing 191 or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

MANUFACTURING 292
Principles of Mechanisms
This course covers the basic principles of industrial mechanisms. The motion characteristics of drive mechanisms, bearings, lubricants, cams, gears, pulleys are covered in the context of manufacturing processes and factory automation. Troubleshooting and maintenance procedures used in industrial settings are stressed throughout. Students completing the course will be prepared to earn the Manufacturing Skill Standard Council’s Maintenance Awareness module of the Certified Production Technician credential. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for Mathematics 99 or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

MANUFACTURING 295
Electrical Motor Controls
A study of different types of electrical motor controls as they are applied to industrial circuits. The topics include safety issues, instrumentation, and the interpretation of line diagrams. An overview of different types of motor controls is also provided. The student will be able to troubleshoot and repair problems associated with different motor control applications of the industry. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Manufacturing 191 or consent of Department Chairperson.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.

MANUFACTURING 297
Advanced Mechanical Systems
This course builds on the concepts elaborated in Manufacturing 292: Principles of Mechanisms. Topics include: Mechanical Drive Systems, Basic and Key Fasteners, Power Transmission Systems, V-Belt Drives, Chain Drives, Heavy Duty V-Belt Drives, V-Belt Selection and Maintenance, Lubrication Concepts, and Torque and Power Measurement. Students will also learn how to select the proper hand and power tools, ratchets, torque wrenches, and torque settings for equipment assembly. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Manufacturing 292 or consent of Department Chairperson.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.

MASSAGE THERAPY

MASSAGE THERAPY 110
Massage Therapy Practice I
This course is designed to enhance students’ knowledge, skills and ability related to entry level massage therapy practice. Topics that will be presented include Swedish massage techniques, the physiological effects and therapeutic applications of massage therapy, including the history and scope of massage practice, professional ethics, proper hygiene, and sanitation and sheeting skills. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101 and Biology 120, or consent of Department Chairperson.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

MASSAGE THERAPY 111
Integration of Massage Therapy I
This course is designed to enhance students’ knowledge, skills and ability related to entry level massage therapy practice. Topics that will be presented include the basic anatomy and physiology of the human body as it relates to the practice of massage therapy. A thorough analysis of human muscle origins, insertions and muscle origins, insertions and muscle actions specific to a standard massage routine will be covered. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, Biology 120 and Massage Therapy 110, or consent of Department Chairperson.
2 LECTURE HOURS. 6 LAB HOURS. 5 CREDIT HOURS.

MASSAGE THERAPY 120
Massage Therapy Practice II
This course is designed to enhance students’ knowledge, skills and ability related to entry level massage therapy practice. Topics that will be presented include the effects of a massage routine on the systems of the body, therapeutic massage procedures, continued study of muscles and body landmarks, and business skills for massage therapy practice. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, Biology 120 and Massage Therapy 110, Massage Therapy 111, or consent of Department Chairperson.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

MASSAGE THERAPY 121
Integration of Massage Therapy II
This course is designed to enhance students’ knowledge, skills and ability related to entry level massage therapy practice. Topics that will be presented include aspects of muscular tissue, origins, insertions, and joint action of each muscle as it relates to the practice of massage therapy. Pathology of homeostatic diseases as they relate to massage therapy will be introduced during this course. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, Biology 120 and Massage Therapy 110, 111, 120 or consent of Department Chairperson.
2 LECTURE HOURS. 6 LAB HOURS. 5 CREDIT HOURS.

MASSAGE THERAPY 210
Massage Therapy Practice III
This course is designed to enhance students’ knowledge, skills and ability related to entry level massage therapy practice. Topics will be presented include massage techniques of Lomi Lomi and Acupressure, body mobilization techniques of the upper extremities, business and ethics in the practice of massage therapy, and daily operations of the massage therapy practice. Writing assignments, as appropriate to the discipline are part of the course.
Prerequisite(s): Eligibility for English 101, Biology 120 and Massage Therapy 110, 111, 120 or consent of Department Chairperson.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS

Credit Courses

This information is subject to change

MASSAGE THERAPY 211
Integration of Massage Therapy III
This course is designed to enhance students’ knowledge, skills and ability related to entry level massage therapy practice. Topics will include the effects of a massage routine on the systems of the body, therapeutic massage procedures, continued study of muscles and body landmarks and business skills for massage therapy practice. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, Biology 120 and Massage Therapy 210, or consent of Department Chairperson.

2 LECTURE HOURS. 6 LAB HOURS. 5 CREDIT HOURS.

MASSAGE THERAPY 220
Massage Therapy Practice IV
This course is designed to enhance students’ knowledge, skills and ability related to entry level massage therapy practice. Topics that will be presented include evaluation of hands-on mobilization techniques, professionalism, strategies to establish appropriate clientele relationship and business practices. Students will also review for the Massage and Bodywork Licensing Exam (MBLEx). Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, Biology 120, Exercise Science and Sports Studies 210 and 211, or consent of Department Chairperson.

2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

MASSAGE THERAPY 221
Integration of Massage Therapy IV
This course is designed to enhance students’ knowledge, skills and ability related to advanced level massage therapy practice. Topics that will be presented include cardiovascular system impacts that massage, client assessment and data collection, clinical reasoning and treatment planning, safe and effective use of equipment and massage therapist self-care strategy. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, Biology 120, and Massage Therapy 210, or consent of Department Chairperson.

2 LECTURE HOURS. 6 LAB HOURS. 5 CREDIT HOURS.

MATHEMATICS

MATHEMATICS 98
Beginning Algebra with Geometry
Algebra of real numbers, integer exponents, polynomial operations, factoring, rational and complex expressions, linear equations, word problems, quadratic equations and graphical and algebraic solutions of simultaneous linear equations. Writing assignments, as appropriate to the discipline, are part of the course. ARC: 1 time.
Prerequisite(s): Grade of C or better in FS Mathematics 3001 and FS Mathematics 3002, or COMPASS placement test scores within ranges for Pre-algebra (29-99) and Algebra (15-23).

4 LECTURE HOURS. 4 CREDIT HOURS.

MATHEMATICS 99
Intermediate Algebra with Geometry
Algebraic operations involving rational exponents, including scientific notation. Algebraic expressions, including radical and rational expressions. Solutions of quadratic, quadratic in form, rational, radical, and absolute value equations. Solutions of compound linear inequalities. Solutions and manipulations of literal equations of literal equations. Graphical and algebraic solutions of systems of linear equations in two and three variables; graphical solutions to systems of linear inequalities; Graphs of linear and quadratic equations. Geometry topics: perimeter, area of geometric figures, triangles, rectangles, and circles; volume of sphere, cylinder and pyramid. Pythagorean Theorem and distance formula. Similarity and proportions. Applications of problem-solving skills are emphasized throughout the course. Students should be exposed to graphing calculator technology and/or computer algebra systems. Writing assignments, as appropriate to the discipline, are part of the course.

ARC: 1 time.
Prerequisite(s): Grade of C or better in Mathematics 98, or grade of S in FS Mathematics 3004, or COMPASS placement test scores for PRE-ALGEBRA (17-99) and ALGEBRA (24-42), or ACT Mathematics score (17-20), or SAT Mathematics score (400-490), or consent of Department Chairperson.

5 LECTURE HOURS. 5 CREDIT HOURS.

MATHEMATICS 107
Mathematics for Technicians I
Designed to provide mathematical tools for students in terminal technical curricula. Emphasis is on practical aspects of mathematics and less upon the theoretical. Topics include elementary algebra operations, simultaneous and quadratic equations, exponents and radicals, logarithms, introduction to trigonometry, vectors, and use of calculator. Writing assignments, as appropriate to the discipline, are part of the course.

1–5 LECTURE HOURS. 1–5 CREDIT HOURS.

MATHEMATICS 108
Mathematics for Technicians II
Continuation of Mathematics 107. Topics include trigonometric functions, solution of oblique triangles, vectors, Cartesian and polar coordinate systems, graphs of functions and basics of differential and integral calculus. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Mathematics 107, or consent of Department Chairperson.

3–5 LECTURE HOURS. 3–5 CREDIT HOURS.

MATHEMATICS 118
General Education Mathematics
Focuses on mathematical reasoning and solving real life problems, rather than on routine skills and appreciation. A maximum of four of the following topics is studied in depth: geometry, counting techniques and probability, graph theory, logic, game theory, linear programming, and statistics. The use of calculators and computers is strongly encouraged. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Eligibility for Mathematics 118 or consent of Department Chairperson.

4 LECTURE HOURS. 4 CREDIT HOURS.

MATHEMATICS 121
Mathematics for Elementary Teachers I
This course focuses on mathematical reasoning and problem-solving. Topics include operations with rational and irrational numbers, sets, functions, logic, numerical systems and number theory, and solution of linear equations in one variable. Applications are included throughout the course. Problem-solving with the use of calculators and computers is emphasized throughout the course. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Mathematics 99; or COMPASS PRE-ALGEBRA (17-99), ALGEBRA (43-99), and College ALGEBRA (1-50); or ACT Mathematics (min. 21); or SAT Mathematics (min. 500); or ALGEBRA Placement Test Waiver, or consent of Department Chairperson.

4 LECTURE HOURS. 4 CREDIT HOURS.
MATHEMATICS 122
Mathematics for Elementary Teachers II
This course is a continuation of Mathematics 121. Topics include probability and statistics, lines, angles, polygons, Pythagorean Theorem, circles, solids, areas, volume, and measurements. Applications are included throughout the course. Problem-solving with the use of computers is emphasized throughout the course. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Mathematics 121 or consent of Department Chairperson.
4 LECTURE HOURS. 4 CREDIT HOURS.
IAI/GE: DA KK MX OH TR HW WR

MATHEMATICS 125
Introductory Statistics
Basic descriptive statistics including frequency distributions, mode, mean, and standard deviation. Permutations, combinations, probability rules, and Bayes Theorem. Binomial and normal distributions. Basic inferential statistics including sampling theory, confidence intervals for means and proportions, and test of hypotheses. Chi-square distribution. Introduction to correlation and regression. Includes at least one hour per week using computers in statistical application. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Mathematics 99; or COMPASS PRE-ALGEBRA (17-99), ALGEBRA (43-99), and College ALGEBRA (1-50); or ACT Mathematics (min. 21); or SAT Mathematics (min. 500); or ALGEBRA Placement Test Waiver, or consent of Department Chairperson.
4 LECTURE HOURS. 4 CREDIT HOURS.
IAI/GE: DA KK MX OH TR HW WR

MATHEMATICS 126
Algebra for Middle School Teachers
This course focuses on the concept of functions in college algebra. It is designed to meet the needs of middle school teachers in accordance with the National Council of Teachers of Mathematics Standards for Teaching Mathematics. Topics include basic definition of different functions and their properties. The following algebraic concepts will be explored: linear functions, systems of linear equations, quadratic functions, non-linear data, combinatorics, probability, exponential functions, log functions, square root functions, absolute value, and trigonometry as periodic functions. Problem-solving using calculators, CBLs, and computers is emphasized throughout the course. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Mathematics 99, or COMPASS PRE-ALGEBRA (17-99), ALGEBRA (43-99), and College ALGEBRA (1-50); or ACT Mathematics (min. 21); or SAT Mathematics (min. 500); or ALGEBRA Placement Test Waiver, or consent of Department Chairperson.
4 LECTURE HOURS. 4 CREDIT HOURS.
IAI/GE: DA KK MX OH TR HW WR
IAI/MAJOR: KK MX OH TR HW WR

MATHEMATICS 140
College Algebra
Algebra of real and complex numbers, functions, algebraic and graphical solutions of linear, quadratic and systems of equations. Logarithmic and exponential functions. Additional topics from determinants, sequences, series, the Binomial Theorem, Mathematical Induction, and elements of the Theory of Equations. Writing assignments, as appropriate to the discipline, are part of the course. ARC: 1 time.
Prerequisite(s): Grade of C or better in Mathematics 99; or COMPASS PRE-ALGEBRA (17-99), ALGEBRA (43-99), and College ALGEBRA (1-50); or ACT Mathematics (min. 21); or SAT Mathematics (min. 500); or ALGEBRA Placement Test Waiver, or consent of Department Chairperson.
4 LECTURE HOURS. 4 CREDIT HOURS.
IAI/GE: DA KK MX OH TR HW WR

MATHEMATICS 141
Plane Trigonometry
Definition of trigonometric functions, as well as graphs of trigonometric functions and their universes. Applications to triangles, law of sines and cosines, trigonometric identities, equations, vectors, and applications. Complex numbers in trigonometric form, and DeMoivres Theorem. Calculators will be used. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Mathematics 140, placement test, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: DA KK MX OH TR HW WR

MATHEMATICS 143
Precalculus
Emphasizes the notion of function as a unifying concept for the topics of college algebra and trigonometry. Families and their characteristics include: polynomial functions; rational functions; exponential and logarithmic functions; and trigonometric functions and applications involving problem-solving skills. Writing assignments, appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Mathematics 99; or COMPASS PRE-ALGEBRA (17-99), ALGEBRA (43-99), and College ALGEBRA (1-50); or ACT Mathematics (min. 21); or SAT Mathematics (min. 500); or ALGEBRA Placement Test Waiver, or consent of Department Chairperson.
6 LECTURE HOURS. 6 CREDIT HOURS.
IAI/GE: DA KK MX OH TR HW WR

MATHEMATICS 144
Finite Mathematics
Logic, sets, partitions, counting, probability rules and Bayes Theorem, vectors and matrices, and linear programming. Includes applications to behavioral sciences and to business and administration problems. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Mathematics 140, or COMPASS ALGEBRA (43-99), College ALGEBRA (51-99), and TRIGONOMETRY (1-50); or ACT Mathematics (min. 24); or SAT Mathematics (min. 560); or COLLEGE ALGEBRA Placement Test Waiver, or consent of Department Chairperson.
4 LECTURE HOURS. 4 CREDIT HOURS.
IAI/GE: DA KK MX OH TR HW WR
CREDIT COURSE DESCRIPTIONS

MATHEMATICS 146
Discrete Mathematics
Introduction to mathematical analysis of finite collections and mathematical foundations of sequential machines, digital logic circuits, data structures, and algorithms. Includes sets, counting, recursion, graph theory, nets, automata, and formal grammars and languages. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Mathematics 140, or COMPASS Placement Test Score ALGEBRA (43-99) and College ALGEBRA (51-99) and TRIGONOMETRY (1-50), or ACT Mathematics (24-36), or SAT (560-800), or TRIGONOMETRY Placement Test Waiver, or consent of Department Chairperson.
4 LECTURE HOURS. 4 CREDIT HOURS.
IAI/GE: DA HW WR
IAI/MAJOR: DA TR HW WR

MATHEMATICS 202
Number Concepts/Mid-School Teaching
This course has been designed keeping in mind both the Illinois Professional Content Standards for Teaching (Mathematics) and the content necessary to prepare students to be middle school mathematics and science teachers. A wide range of topics across number of theory and measurement will give students a grasp of the depth and breadth of mathematics outside of the traditional course structure. Problem-solving, estimation, measurements, and construction of simple theories of numbers will be treated with and without the use of technology. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Mathematics 113, 126, 140, or 143.
4 LECTURE HOURS. 4 CREDIT HOURS.

MATHEMATICS 204
Calculus for Business and Social Sciences
For students of business and social science. Introduction to differential and integral calculus with applications pertinent to business and social science. The five-credit hour course will include functions of several variables, partial derivatives, maximum, minimum of functions of several variables and Lagrange multipliers. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Mathematics 140, or COMPASS ALGEBRA (43-99), College ALGEBRA (51-99), and TRIGONOMETRY (1-50); or ACT Mathematics (min. 24); or SAT Mathematics (min. 560); or COLLEGE ALGEBRA Placement Test Waiver, or consent of Department Chairperson.
4-5 LECTURE HOURS. 4-5 CREDIT HOURS.
IAI/GE: DA KK MX OH TR HW WR

MATHEMATICS 207
Calculus and Analytic Geometry I
Equations of lines, circles and conic sections, limits, and continuity. Derivatives and their applications to curve sketching, maxima-minima, and related rate problems. The anti-derivative and definite integral, including change of variables and the fundamental theorem of calculus. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Mathematics 140 and 141, or placement test, or consent of Department Chairperson.
5 LECTURE HOURS. 5 CREDIT HOURS.
IAI/GE: DA KK MX OH TR HW WR
IAI/MAJOR: DA MX OH TR WR

MATHEMATICS 208
Calculus and Analytic Geometry II
Derivatives of trigonometric and inverse trigonometric functions, logarithmic and exponential functions. Techniques and applications of integration. Indeterminate forms and L-Hopital’s rule. Improper integrals. Infinite series and power series. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Mathematics 207 or consent of Department Chairperson.
5 LECTURE HOURS. 5 CREDIT HOURS.
IAI/GE: DA KK MX OH TR HW WR
IAI/MAJOR: DA MX OH TR WR

MATHEMATICS 209
Calculus and Analytic Geometry III
Prerequisite(s): Grade of C or better in Mathematics 208 or consent of Department Chairperson.
5 LECTURE HOURS. 5 CREDIT HOURS.
IAI/GE: DA KK OH TR HW WR
IAI/MAJOR: DA MX OH TR WR

MATHEMATICS 210
Differential Equations
A first course in ordinary differential equations: solutions of first order and first degree differential equations, linear differential equations with constant coefficients. Linear differential equations of higher order, special differential equations of second order and differential equations of first order but not of first degree. Numerical methods; series solutions and applications included. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Mathematics 208, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: DA OH TR WR
IAI/MAJOR: DA MX TR HW WR

MATHEMATICS 212
Linear Algebra
Introduction to linear algebra for students who have studied some calculus; computations with vectors and matrices will be emphasized, proofs also will be examined; major topics include systems of linear equations and matrices, determinants, vectors in Euclidean space, abstract vector spaces, linear mappings, computation of eigenvalues and eigenvectors. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Mathematics 208, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: DA MX OH TR HW WR
IAI/MAJOR: DA MX TR HW WR

MATHEMATICS 216
Statistics for Business Majors
The basic concepts of statistical analysis used in business decision-making, including probability and how uncertainty is dealt with in real life. The student will analyze and work out simple problems and should be able to recognize applications of different statistical techniques, interpret the results of analysis and recognize instances in which statistical techniques have been misused. The following concepts and statistical techniques are included: measure of central tendency and variability, random variable and probability distributions, estimation, tests of hypotheses, chi square tests, linear regression and correlations and one-way analysis of variance. Applications are included throughout the course. Problem-solving with the use of calculators and computers is emphasized. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Mathematics 140, Placement Test, or consent of Department Chairperson.
4 LECTURE HOURS. 4 CREDIT HOURS.
IAI/GE: DA OH TR WR
IAI/MAJOR: DA TR

MATHEMATICS 225
Honors Mathematics Survey I
Survey in general mathematics for the liberal arts student; includes history, sets, number bases and logic, algebra of the real number system, an introduction to probability and statistics, calculators, and computers. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.
MATHEMATICS 299
Special Topics Mathematics
Special Topics in Mathematics will be discussed along with appropriate computer and calculator activities. New developments will be emphasized, especially materials useful in K-12 education and industry. Each special topic course will have a sub-title. Students can take courses with different sub-titles and receive credit for each. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Consent of Department Chairperson/Coordinator. 1–5 LECTURE HOURS. 1–5 CREDIT HOURS.

MEDIA COMMUNICATIONS

MEDIA COMMUNICATIONS 102
Announcing
Develops the ability to transform written copy or script into voice performance emphasizing copy preparation, breath control, pronunciation, articulation, use of full dynamic range, microphone techniques, and hand signals. A variety of copy, including commercials, news and public service announcements will be covered. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson. 3 LECTURE HOURS. 3 CREDIT HOURS.

MEDIA COMMUNICATIONS 145
Introduction to Media Communication
A survey of the history, technology, structure and operation of the telecommunications industry. Topics include advertising, audience measurement, network television, radio station operations, cable television, broadcast regulations and licensure, satellite communications, pod casting, and careers in media communications. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson. 3 LECTURE HOURS. 3 CREDIT HOURS.

MEDIA COMMUNICATIONS 160
History of Radio Genres
An in-depth look at the progression of radio since its inception, as well as examination of the huge impact that it had on American culture. Introduction to the different radio genres, and the ways that the drastic transition those genres have undergone over the years. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson. 3 LECTURE HOURS. 3 CREDIT HOURS.

MEDIA COMMUNICATIONS 170
The History of Television
An in-depth look at the progression of television since its inception and examination of the massive impact that its existence has had on American culture. Students will also study the different television program genres, such as soap operas, sitcoms, newscasts, reality shows, and many others, as they examine the sweeping changes that have taken place in television programming over the past several decades. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson. 3 LECTURE HOURS. 3 CREDIT HOURS.

MEDIA COMMUNICATIONS 190
Language, Culture and Media
Television, radio, print and film reflect and transmit culture through language and images. Using these media as a context, this course will examine a variety of depictions of culture and language and will evaluate perceptions about language and culture within various segments of society. Students will be encouraged to think critically about language choices and to analyze the impact of culture and media on those choices. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson. 3 LECTURE HOURS. 3 CREDIT HOURS.

MEDIA COMMUNICATIONS 203
Media Writing
Creation and preparation of scripts for radio and television programs and segments which include news copy, commercial copy, public service announcements, continuity and dramatic copy. Special attention will be paid to correct format and form. Word processing skills will be utilized in this course. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Grade of C or better in English 101. 3 LECTURE HOURS. 3 CREDIT HOURS.

MEDIA COMMUNICATIONS 210
Radio and TV Workshop
Workshop in both mediums, emphasizing variety of producing on the air programs; location instruction and televising of meetings, plays, sports events for TV and radio; both media will be used to compare and isolate various techniques of each area. Writing assignments, as appropriate to the discipline, are part of the course. 2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

MEDIA COMMUNICATIONS 221
Radio Production I
Introduction to the audio control system and training in the operation of related equipment. Emphasis will be placed on how the various components integrate into a system. Demonstration of expertise through class exercises and laboratory projects is required. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Eligibility for English 101 or grade of C or better in English 100, and concurrent enrollment in Media Communications 145, or consent of Department Chairperson. 2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

MEDIA COMMUNICATIONS 222
Radio Production II
Review the audio control system and its various equipment components. Emphasis will be placed upon creating, producing, and directing service announcements, news and drama which may be utilized by Kennedy-King’s own WKKC-FM. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Grade of C or better in Media Communications 221, or consent of Department Chairperson. 2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS

Credit Courses

MEDIA COMMUNICATIONS 223
Advanced Broadcast Writing
As a direct continuation of course Media Communications 203–Media Writing. This class provides experience in writing longer scripts, for various types of media outlets such as television, radio, and the Internet. With an emphasis on content, clarity and flow. Basic script formats, terminology, and writing techniques for documentaries, commercials, public service announcements, promotions, as well as entertainment and fictional programs. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101 and Media Communications 203.
3 LECTURE HOURS. 3 CREDIT HOURS.

MEDIA COMMUNICATIONS 224
Broadcast Performance
Enhances and extends the skills developed in Media Communications 102–Announcing. Develops the ability to perform in various on-air capacities in radio, television and other broadcast formats, emphasizing copy analysis and preparation, ad-libbing, constructive self-critiques, and development of personality, style and conversational delivery. Use of full dynamic range, microphone techniques, and hand signals will be emphasized. A variety of copy and situations, including hosting, anchoring, reporting, commercial announcing, and other specialties will be covered. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or grade of C or better in English 100, and grade of C or better in Media Communications 102 and 203, or consent of Department Chairperson.
4 LECTURE HOURS. 3 CREDIT HOURS.

MEDIA COMMUNICATIONS 231
TV Production I
Introduction to the television production system and training in the operation of the video and audio equipment necessary to produce programming. Emphasis will be on how the various components integrate into a system. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101 or grade of C or better in English 100, and concurrent enrollment in Media Communications 145, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

IAI/MAJOR: KK

MEDIA COMMUNICATIONS 232
TV Production II
Continuation of the development of expertise in the use of various audio and video components. Television production projects will require creating treatments, storyboards, and scripts, for the production of a final program. Emphasis on integration of equipment, production personnel, and script to create finished television production. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Media Communications 231, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

MEDIA COMMUNICATIONS 234
Producing for Television
An examination of the vital role of the television producer, focusing on the three areas of production: pre-production, production, and post-production. Emphasis on the importance of planning, show creation, budgeting, scheduling, management, team building, field producing, and delivery. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Media Communications 231, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

MEDIA COMMUNICATIONS 240
Minicam and Videotape Editing
Evaluate, set-up, light, mike, and properly record in a single-camera remote environment for desired production results. Learn to log and electronically computer edit recorded footage into professional programs and program segments. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Media Communications 231 or 232, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

MEDIA COMMUNICATIONS 241
Video Editing
Introduction to the fundamentals of digital non-linear editing concepts and practices. Basics of importing (digitizing) video; basic editing techniques, trimming clips, basic effect palettes, overlaying audio with video, recording narration and music; and saving the finished production to digital as well as Quick time file. Students learn to storyboard their ideas and develop the ability to edit in sequence to tell a story. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Media Communications 231 and 240.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

MEDIA COMMUNICATIONS 242
Television Graphics
The important function of television graphics in the packaging of television programs will be emphasized. The main focus of the course will be the operation of the character generator, digital effects generator, still store, 35mm projector, 16mm projector, and learning the graphics capabilities of the video switcher and their use in graphics packaging. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Media Communications 231 or 241, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

MEDIA COMMUNICATIONS 244
Advanced Video Gripping and Lighting
Advanced television production experience, focusing on both in studio multi-camera productions, with an emphasis on production (lighting, equipment setup, etc.) as well as single camera EFP (electronic field production), and ENG (electronic news gathering) techniques. Students will examine the tools and techniques of lighting for television, both on location and in the studio. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or grade of C or better in English 100 and grade of C or better in Media Communications 231 and 240, or consent of Department Chairperson.
4 LECTURE HOURS. 3 CREDIT HOURS.

MEDIA COMMUNICATIONS 245
Advanced Production Workshop
Learn the steps necessary to develop a program concept or idea into a completed radio and/ or television program. Emphasis is placed upon the coordinating of technical, budgetary, personnel, scheduling, and equipment aspects of achieving effective productions. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Media Communications 222 and 232, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS

MEDIA COMMUNICATIONS 260
Media Sales and Marketing
A study of sales and marketing relative to broadcasting and cable television. Introduction to the principles of packaging a product for sale to advertisers and program buyers. Review of organization management at television stations, networks, and cable outlets, and Internet Service Providers (ISP). Emphasis is placed upon theoretical and practical aspects of developing presentation skills including instruction and utilization of media research materials such as rating books in positioning sales. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Media Communications 145, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

MEDIA COMMUNICATIONS 261
Project Management and Team Dynamics
Basic principles of management, including the role of “executive producer” of a media related project. The course emphasizes skills and techniques used for goal setting, strategic planning, organization, communication, risk management, and team collaboration. Student will work together in production teams, as they conceptualize, design and execute a digital media production project. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or grade of C or better in English 100 and Media Communications 221 and 231, or consent of Department Chairperson.
4 LECTURE HOURS. 3 CREDIT HOURS.

MEDIA COMMUNICATIONS 270
Introduction to Radio and TV Programming
Survey of programming from various perspectives, including: comparison and contrast of major network approaches versus approaches of independent producers. Introduction to program strategies through elements to be considered in positioning programs on the air.
Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Media Communications 145, 221, and 231, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

MEDIA COMMUNICATIONS 271
Introduction to Interactive Media
A practical introduction to interactive media, otherwise known as the Internet. While in this course, students will become better acquainted with new technologies and methods for creating participatory media, while making it available through nontraditional outlets. Students will develop new ideas for assisting in this tradition, with both the Internet, as well as the traditional broadcast space. Class topics will also cover the technologies that go hand in hand with both the creation and utilization of interactive “new” media. This course will emphasize group projects. Students will be introduced to the unique issues encountered while producing for interactive media, such as streaming, bandwidth, compression, memory allocation, and optimization. Various distribution media will be examined including CD-ROM, DVD, and the Internet. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or grade of C or better in English 100, Media Communications 145, and Computer Information Systems 120, or consent of Department Chairperson.
4 LECTURE HOURS. 3 CREDIT HOURS.

MEDIA COMMUNICATIONS 272
Advanced AUD/VID Production: Interactive Media
Provides advanced practical knowledge and experience in the area of digital video production as it relates to interactive media. Students will explore further the changes and technical challenges associated with web-based video as a communication medium. Through group and individual projects, students will learn to use interactive delivery systems to create effective user experiences. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or grade of C or better in English 100, and Media Communications 231 and 271, or consent of Department Chairperson.
4 LECTURE HOURS. 3 CREDIT HOURS.

MEDIA COMMUNICATIONS 295
Practicum Internship
Practicum or internship provides students with the opportunity to integrate their education and field experience in television and radio. The practicum/internship generally occurs after students has completed eighteen Media Communications credit hours. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Consent of Department Chairperson/Coordinator.
2 LECTURE HOURS. 20 LAB HOURS. 6 CREDIT HOURS.

MEDIA COMMUNICATIONS 298
Audio, Video, or Internet Capstone
After satisfactory completion of all Media Communications courses, this course is intended to provide students with the opportunity to integrate their experience in a major project or a collection of projects that closely relates to their primary career areas. The capstone project will be evaluated using the rubric for the capstone project that is used to grade the Capstone portfolio. The project will be presented in the capstone portfolio.
Prerequisite(s): Consent of Department Chairperson/Coordinator.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

MENTAL HEALTH

MENTAL HEALTH 223
Introduction to Addictions Studies
A study of drug and alcohol abuse and dependence, substance abuse, treatment, patterns, and results of such treatment. Students will have the opportunity to interact with and help clients in all stages of recovery. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

MENTAL HEALTH 224
Principles and Practices of Addiction Studies
Basic clinical skills in alcoholism and substance abuse field; strategies in working with denial and resistance; diagnostic and assessment skills; history-taking; individual, family and group treatment modalities utilized with the alcoholic and/or substance abuser; termination process; aftercare and referral process. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Mental Health 223, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
MENTAL HEALTH 228
Principles of Mental Health Practices
Mental health, the settings in which mental health problems are treated, and common types of mental health problems; review of treatment strategies and methods of intervention. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

MENTAL HEALTH 229
Practicum in Addictions Treatment
Students work 20 hours per week in a mental health setting in the community under supervision of mental health professionals and participate in a two-hour seminar once a week, relating field experiences to mental health theory. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Mental Health 228 or consent of Department Chairperson.
2 LECTURE HOURS. 20 LAB HOURS. 6 CREDIT HOURS.

MENTAL HEALTH 230
Addictions Treatment of Special Populations
Application of needs of special treatment populations, diagnosis and treatment of adolescent and elderly clients, sexual issues; patient education, prevention strategies, spirituality, relapse prevention and employee assistance programming, AIDS and eating disorders. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Mental Health 223 and 224, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

MENTAL HEALTH 231
Addictions Treatment of Special Populations
Study of affects of alcoholism and substance abuse of the family; how spouse, children and extended family react to problematic drinking or drug abuse; examination of treatment including self-help groups. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Mental Health 222 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

MICROBIOLOGY
MICROBIOLOGY 233
General Microbiology
Morphology, physiology, classification and culture of bacteria and related organisms. The role of bacteria related to human welfare and to plants and animals. Writing assignments, as appropriate to the discipline, are part of the course. Allowed Repeatable Course: Not more than an accumulated eight credit hours will be counted towards graduation.
Prerequisite(s): Grade of C or better in Biology 121 or consent of Department Chairperson.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

MICROBIOLOGY 234
Applied Microbiology
A sequence course to a second semester fundamentals course in microbiology. This course is designed for students majoring in biotechnology. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Microbiology 233.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

MICROBIOLOGY 236
Applied and Environmental Microbiology
The goal of this course is to learn about the use of microorganisms (bacteria, archaeabacteria, protists, fungi, and viruses) in the population of pharmaceuticals, foods, and industrial chemicals, as well as in applications such as bioremediation. Specifically, genetic engineering and biotechnology will be discussed. Secondly, interaction of microorganisms with other organisms and the physical environmental will be explored. In particular, microbial ecology, biogeochemical cycles, and public health microbiology will be addressed. Field sampling methods and analytical techniques (including molecular biology methods) will be utilized. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Biology 121.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

MORTUARY SCIENCE
MORTUARY SCIENCE 102
Microbiology for Embalmers
The basic principles of microbiology related to the principles of funeral service education, especially as they pertain to embalming sanitation, morgue disinfection, public health, and embalming practice. The development and use of personal, professional and community hygiene and sanitation is discussed. The methods of transmission of infectious diseases, control procedures of these diseases with special emphasis on protection to the embalmer are described to differentiate between indigenous microorganisms and pathogens and/or opportunists causing diseases commonly associated with the human host and dead human remains. Blackboard Course (BbOC) computer skills recommended but not required. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Biology 120 and 121, and Health Science 102.
3 LECTURE HOURS. 3 CREDIT HOURS.

MORTUARY SCIENCE 103
Chemistry for Embalmers
The basic principles of chemistry related to the principles of funeral service education. Especially stressed are the principles and precautions involved in the sanitation and disinfection of dead human remains, focusing strictly on chemistry and embalming chemicals, modifying agents, supplemental fluids and autopsy compounds. Potentially harmful chemicals used in the preparation room and their regulations are emphasized along with the essential characteristics of fermentation, and putrefaction in the area of the chemistry of decomposition of dead human remains. Blackboard Course (BbOC) computer skills recommended but not required. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Biology 120 and 121, and Health Science 102.
3 LECTURE HOURS. 3 CREDIT HOURS.

MORTUARY SCIENCE 104
Pathology for Embalmers
This course in Pathology is designed to study the pathological conditions of the human body in its postmortem state and how these pathological conditions affect various parts of the body, with particular emphasis on those conditions which relate to or affect the embalming or restorative art process. Pathological conditions discussed will dictate the embalming procedures, methods and chemicals for preservation required by the embalmer. Blackboard Course (BbOC) computer skills recommended but not required. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Biology 120 and 121, and Health Science 102.
3 LECTURE HOURS. 3 CREDIT HOURS.
MORTUARY SCIENCE 108
Accounting in Funeral Service
An introduction to basic principles of accounting theory. Applications to funeral home operations are made through financial statements and their analysis, worksheets, journalizing, receivables, payables, deferrals and accruals. Inventory cost models for funeral merchandise, is covered along with depreciation models and payroll accounting. Accounting proficiencies will enable the understanding of funeral service records and the funeral directors guidelines of funeral arrangements as prescribed by Federal Trade Commission Regulations rule on funeral industry practices. Blackboard Course (BbOC) computer skills recommended but not required. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Acceptance into the Mortuary Science Program/Plan 257.
3 LECTURE HOURS. 3 CREDIT HOURS.

MORTUARY SCIENCE 109
Sociology for Funeral Service
Sociology studies family structures, social structures, and the factors of change within those groups. This course relates those factors of change to the impacts of death and the relationship of the role of the funeral director in providing closure through funeral rites, ceremonies, customs, religion and rituals. Emphasis is placed on the cultural requirements and diversities of each family the funeral director is privileged to serve and an awareness of the changing social factors, which affect American Funeral Rites and the families served. Blackboard Course (BbOC) computer skills recommended but not required. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Acceptance into the Mortuary Science Program/Plan 257.
3 LECTURE HOURS. 3 CREDIT HOURS.

MORTUARY SCIENCE 111
History of Funeral Service
Survey of current expectations in American Funeral Practice with emphasis on task and personality of the practitioner. Trends and issues in embalming practice from ancient Egyptian burial rites to current American practices and foreign procedures. Blackboard Course (BbOC) computer skills recommended but not required. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Acceptance into the Mortuary Science Program/Plan 257.
3 LECTURE HOURS. 3 CREDIT HOURS.

MORTUARY SCIENCE 203
Funeral Directing
This course recognizes the wide variation of funeral customs across the country, attempting to point out some general practices that contain minimal geographic and cultural differences, including general information on notification of death, transfer of remains, conduct of the arrangement conference, pre-funded/pre-planned funerals. Included is the cross-section of religious funeral practices, fraternal and military funerals, shipment of remains, cremation and aftercare. Guidelines for the course are designed to introduce the Federal Trade Commission and the Trade Regulation Rule on Funeral Industry Practices. Blackboard Course (BbOC) computer skills recommended but not required. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Mortuary Science 111.
3 LECTURE HOURS. 3 CREDIT HOURS.

MORTUARY SCIENCE 204
Mortuary and Business Law
The student is introduced to the sources of law, the legal status of the dead human body. The funeral directors responsibilities are examined as practicing professionals in relationship to that of the final disposition. Blackboard Course (BbOC) computer skills recommended but not required. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Completion of two semesters in the Mortuary Science Program/Plan 257.
3 LECTURE HOURS. 3 CREDIT HOURS.

MORTUARY SCIENCE 207
Restorative Art
Study of techniques employed to bring about restoration of a deceased human being to as near a normal appearance as possible. The subject area for restorative art is designed to introduce the techniques and importance of creating an acceptable appearance of the deceased for the benefit of the surviving family members. Blackboard Course (BbOC) computer skills recommended but not required. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Biology 226 recommended.
3 LECTURE HOURS. 3 CREDIT HOURS.

MORTUARY SCIENCE 209
Funeral Management and Merchandise
This course covers the construction and features caskets, outer burial containers, and other funeral related products such as cemetery headstones and markers. Merchandising examines methods of purchasing, pricing, display, and sale of funeral merchandise as well as services. Emphasis are placed on the component parts of funeral merchandise, including materials used, component part styles, finishes, dimensions/functions and pricing methods. General management techniques and theory as they relate to specific funeral home operational procedures and practices are emphasized. Management examines specific areas of funeral service practice and the managerial guidelines for the contemporary concepts of funeral service management as they relate to client families and community, staff personnel, and professional associates and associations/agencies. Blackboard Course (BbOC) computer skills recommended but not required. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Mortuary Science 203.
3 LECTURE HOURS. 3 CREDIT HOURS.

MORTUARY SCIENCE 210
Advance Mortuary Science Practice/Ethics
A survey of topics presented by the Director of the Mortuary Science Program/Plan, providing an overview of various tasks and subjects a director will encounter in the role of a practitioner. Legal and Moral Ethics are covered. An overview of the curriculum and the practical application of theory as it relates to the ethical practice of mortuary science. Exit examinations/core competency capstone course. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Consent of Department Chairperson/Coordinator.
2 LECTURE HOURS. 2 CREDIT HOURS.

MORTUARY SCIENCE 211
Psychology of Funeral Service
The underlying value and relevance of this course for preparing the funeral director is that the symbolic and ritualistic aspects of the funeral have a significant impact upon the emotional experience of the bereaved. Emphasis on the grief process and its variations across individuals as influenced by psychological factors aids the funeral director in becoming a facilitating agent for effective mourning through personal interactions as well as the design and implementation of the funeral service. This course will also prepare the funeral director to know when to make a referral for mental health services. Issues relating to children and death and particular theories/theorist are also stressed. Blackboard Course (BbOC) computer skills recommended but not required. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Acceptance into Program/Plan 257 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

MORTUARY SCIENCE 213
Embalm Theory I
The involvement of all aspects of embalming theory. From the evaluation of features to the case analysis, embalming reports and instrumentation. A study of phenomenon of death in the human body is detailed. Theory I includes the study of government regulations applicable to the embalming process. Blackboard Course (BbOC) computer skills recommended but not required. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Mortuary Science 102, 103, and 104.
3 LECTURE HOURS. 3 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS
Credit Courses

MORTUARY SCIENCE 214
Embalmig Laboratory
Practical application of embalming techniques and laboratory procedures of the deceased human body. Blackboard Course (BbOC) computer skills recommended but not required. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Mortuary Science 102, 207, 213, 215, and 216, and Biology 226, 227, 130, 131.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

MORTUARY SCIENCE 215
Restorative Art Laboratory
Applied experience in restoring damaged human remains to achieve a normal life appearance of the deceased. Blackboard Course (BbOC) computer skills recommended but not required. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Mortuary Science 207, Biology 226 and 227.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

MORTUARY SCIENCE 216
Embalmig Theory II
Course examines the difficulties encountered by the embalmer due to disease and pathological changes of the deceased, examination of preparation of autopsied cases as well as the procedures for handling and embalming more difficult cases. Theory II includes the study of special treatments and techniques for different conditions encountered in the dead human body. Blackboard Course (BbOC) computer skills recommended but not required. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Mortuary Science 213, Biology 226, 227, 130, and 131.
3 LECTURE HOURS. 3 CREDIT HOURS.

MUSIC

MUSIC 101
Fundamentals of Music Theory
Introduction to music theory and application: rhythm, meter, scales, intervals, triads, and musical terminology; development of aural and keyboard skills. Writing assignments, as appropriate to the discipline, are part of the course. No credit toward graduation for music majors.
Prerequisite(s): Eligibility for Mathematics 99 or higher or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

MUSIC 102
Music Theory I
Realization of figured and unfigured bases and harmonization of melodies. Triads and inversions. Harmonic analysis. Keyboard application. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Music 101, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

MUSIC 103
Music Theory II
Realization of figured and unfigured bass and harmonization of melodies. Chords of the seventh and ninth sequences, diatonic modulation. Harmonic analysis. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Music 102, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

MUSIC 105
Group Piano I
Class instruction in beginning piano techniques through study in small groups. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

MUSIC 106
Group Piano II
Continuation of Music 105. Minimum of six hours practice per week required for credit. Students majoring in music are required to take two semesters of study with a private instructor following this course. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Music 105, or consent of Department Chairperson.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

MUSIC 107
Jazz Improvisation Part I
Fundamentals of improvisation; performing improvised solos, both on standard chord changes and original compositions. Topics covered include: ear training, II-V-I progressions, substitutes of the II-V-I progression, simple blues, bebop scales, intervals and random chord exercises which lead to altered dominants and more contemporary concepts. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Music 101 and concurrent enrollment in Music 135, or consent of Department Chairperson.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

MUSIC 108
Jazz Improvisation Part II
Further study of improvisation: performing improvised solos on standard chord changes and original compositions. The covered topics include altered dominant seventh chords, the 12-tone row, advanced blues, rhythm changes, turnarounds, learning tunes by ear, and improvising on them, extensions, substitute chords, modal harmony, free improvisation, note positions and other scales. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Music 107 and concurrent enrollment in Music 135, or consent of Department Chairperson.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

MUSIC 109
Jazz/Pop Ensemble
Rehearsal and performance of songs from jazz and popular music repertoires. In addition, the course will cover the skills needed as a professional musician. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Consent of Department Chairperson/Coordinator.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

MUSIC 110
Jazz/Pop Ensemble: Blues Emphasis
Rehearsal and performance of songs in the blues genre. In addition, the course will cover the skills needed to succeed as a professional musician. Repeatable for credit up to four credit hours. Writing assignments, as appropriate to the discipline, are part of the course.
ARC: 1 time.
Prerequisite(s): Consent of Department Chairperson/Coordinator.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.
MUSIC 111
Aural and Keyboard Skills I
Sight singing, ear training and rhythmic dictation with keyboard application. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Music 101, or consent of Department Chairperson.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

MUSIC 112
Aural and Keyboard Skills II
Continuation of Music 111. Advanced ear training and sight singing, melodic dictation and more complex harmonic structures. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Music 111, or consent of Department Chairperson.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

MUSIC 113
String Class
Class instruction in fundamentals of violin, viola, violoncello and string bass; principles of bow control and elementary left hand technique; each student required to demonstrate techniques and develop performing technique; readings to be assigned. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

MUSIC 114
Guitar Class
Programmed, audio-visual music course, emphasizes the development of guitar playing skills. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

MUSIC 119
Percussion Class
Class instruction in percussion instruments; each student required to demonstrate techniques and develop performing ability; readings to be assigned. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

MUSIC 120
Introduction to Music Business
Overview of the music business including recording, publishing, management, marketing and other related topics. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

MUSIC 121
Introduction to Music
Elements, structure, listening, literature, and aesthetic perspective; concert attendance. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

MUSIC 122
Perspectives in Jazz
Introduction to jazz, its historical background and its development in the United States. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

MUSIC 124
Trends in Modern American Music
Exploration of what has been happening in this century in American music; includes review of social conditions that have nourished these trends and discussion of folk, blues, jazz, country and western, rock, musical theater, and classical music. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

MUSIC 123
Concert Band
Writing assignments, as appropriate to the discipline, are part of the course. Allowed Repeatable Course: Not more than an accumulated four credit hours will be counted towards graduation. ARC: 4 times.
Prerequisite(s): Consent of Department Chairperson/Coordinator.
1 LECTURE HOUR. 0.5 LAB HOURS. 1 CREDIT HOUR.

MUSIC 125
Orchestra
Writing assignments, as appropriate to the discipline, are part of the course. Approved Repeatable Course: Not more than an accumulated four credit hours will be counted towards graduation. ARC: 4 times.
Prerequisite(s): Consent of Department Chairperson/Coordinator.
1 LECTURE HOUR. 0.5 LAB HOURS. 1 CREDIT HOUR.

MUSIC 131
Chorus
This course trains students in vocal performance, familiarizes them with choral literature, and provides opportunities for public performances and musical performances for college functions. Writing assignments, as appropriate to the discipline, are part of the course.
Allowed Repeatable Course: Not more than an accumulated six credit hours will be counted towards graduation. ARC: 4 times.
1 LECTURE HOUR. 0.5–2 LAB HOURS. 1–2 CREDIT HOURS.

MUSIC 133
Instrumental Ensembles
String quartets, brass ensembles, jazz workshops, stage band. Writing assignments, as appropriate to the discipline, are part of the course. Approved Repeatable Course: Not more than an accumulated four credit hours will be counted towards graduation. ARC: 4 times.
Prerequisite(s): Consent of Department Chairperson/Coordinator.
1 LECTURE HOUR. 0.5 LAB HOURS. 1 CREDIT HOUR.

MUSIC 211
Aural and Keyboard Skills III
Continuation of Music 112. Further development of aural perception (melodic, rhythmic, and harmonic dictation) and abilities in sight-singing (single melodies and duets). Application of harmonic concepts at the keyboard. This course is the third in a four-semester sequence of courses in which music majors need to enroll each term of the freshman and sophomore year. The course may be offered separately or with one or more topics combined. Aural skills include sequential development of ear training, sight-singing, and dictation and may also include computer-assisted instruction and/or other applications. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Music 223, or consent of Department Chairperson.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

MUSIC 212
Aural and Keyboard Skill IV
Continuation of Music 113. Further development of aural perception (melodic, rhythmic, and harmonic dictation) and abilities in sight-singing (single melodies and duets). Application of harmonic concepts at the keyboard. This course is the fourth in a four-semester sequence of courses in which music majors need to enroll each term of the freshman and sophomore year. The course may be offered separately or with one or more topics combined. Aural skills include sequential development of ear training, sight-singing, and dictation, and may also include computer-assisted instruction and/or other applications. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Music 213, or consent of Department Chairperson.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

MUSIC 221
Music Literature and History
Introduction to the standard concert repertory through intensive guided listening. Representative works by major composers are chosen to illustrate the principal styles, forms, and techniques of vocal and instrumental music. Assumes a fundamental knowledge and understanding of the elements of music. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: HW WR

MUSIC 223
Music History to 1750
Music from primitive times to 1750. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: MX

MUSIC 224
Music History from 1750
Music from 1750 to the present. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Music 223, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: MX

MUSIC 225
Individual Project
Individual project as determined with the instructor. Students would also be required to complete an internship as chosen through a discussion with the instructor. Eligibility for course repetition for additional credit hours determined by the instructor. Writing assignments, as appropriate to the discipline, are part of the course. Allowed Repeatable Course: Not more than an accumulated four credit hours will be counted towards graduation.
ARC: 1 time.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

MUSIC 281
Applied Music: Sophomore Level I
Individual instruction in applied music. Includes weekly private lesson (minimum of one hour). Third course in a four-course sequence of private music lessons required of students in Associate in Fine Arts music curriculum. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Music 181, or consent of Department Chairperson.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

MUSIC 282
Applied Music: Sophomore Level II
Individual instruction in applied music. Includes weekly private lesson (minimum of one hour). Last course in a four-course sequence of private music lessons required of students in Associate in Fine Arts music curriculum. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Music 281, or consent of Department Chairperson.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

NETWORKING TECHNOLOGIES

NETWORKING TECHNOLOGIES 101
Client-Server Database I
In this course, students shall learn of the basics of client-server database commonly used in industry. The topics include: basic database terminology and concepts, conceptual modeling and Entity Relationship (ER) diagram, normalization, structure query language (SQL), and procedure language (PL/SQL). Prepares student for database administration course. Upon the completion of this course, students shall be equipped with basic skills of distributive network database. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Computer Information Systems 101 or 116, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

NETWORKING TECHNOLOGIES 111
Introduction to Computer Electronics
Introduction to concepts and principles used in modern computers and computer circuits; basic computer numbers systems; computer architecture; exposure to computer languages; digital logic. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Computer Information Systems 116, or consent of Department Chairperson.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS

Credit Courses

This course describes the architecture, components, and operation of routers and switches for advanced functionality, resolve common issues in both IPv4 and IPv6 networks, and implement a WLAN in a small-to-medium network. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Networking Technologies 221, or consent of Department Chairperson.

2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

NETWORKING TECHNOLOGIES 222
Internetworking IV

This course describes the WAN technologies and network services required by converged applications in a complex network. In a complex hierarchical network, students will learn the selection criteria of network devices and WAN technologies to meet network requirements, configure and troubleshoot network devices, resolve common issues with data link protocols, and develop the knowledge and skills needed to implement virtual private network (VPN) operations. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Networking Technologies 221, or consent of Department Chairperson.

2 LECTURE. 2 LAB. 3 CREDIT HOURS.

NETWORKING TECHNOLOGIES 240
Operating Systems/Server I

This course introduces the concepts and components of a domain server to manage and serve the resources available in a network environment. The fundamentals of domain controller including domain are discussed with hands on learning experience. The processes of server installation, configuration, and maintenance will establish the necessary knowledge for planning and implementing advanced services. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Computer Information Systems 116, or consent of Department Chairperson.

2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

NETWORKING TECHNOLOGIES 260
Microcomputers

Introduction to microcomputer architecture, peripheral and input/output devices. Testing, troubleshooting, upgrading and repair of microcomputer systems. Writing assignments, as appropriate to the discipline, are part of the course.

2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

NETWORKING TECHNOLOGIES 270
Local Area Networks

Selection and installation of network hardware and software. Management and maintenance of networks. Writing assignments, as appropriate to the discipline, are part of the course.

Allowed Repeatable Course: Courses may be repeated up to three times and may count for a maximum of four variable credits. Consent of Department Chairperson required for repeatability.

Prerequisite(s): Grade of C or better in Computer Information Systems 116 or Networking Technologies 240, or consent of Department Chairperson.

2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

NETWORKING TECHNOLOGIES 299
Special Topics Networking Systems Technologies

Special topics in networking systems and technology will be discussed along with appropriate lab and/or field trip activities. New developments will be emphasized, especially materials useful in K12 education and industry. Writing assignments, as appropriate to the discipline, are part of the course. ARC: 4 times.

Prerequisite(s): Consent of Department Chairperson/Coordinator.

1–4 LECTURE HOURS. 1–4 CREDIT HOURS.
NURSING 101
Fundamentals of Nursing I
Introduction to the nursing process and practice; impact of illness and hospitalization affecting basic human needs regardless of age, sex or diagnosis; laboratory experience in hospitals and health agencies to acquire skill in application of nursing measures; student to demonstrate preparation for planned learning experience; all clinical laboratories under supervision of professional nurse faculty; clinical laboratory preceded and followed by group seminar. Theoretical concepts and clinical nursing skills contained in this course are consistent with the skills standards developed for the State of Illinois. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission into Practical Nursing Program 240.
4 LECTURE HOURS. 6 LAB HOURS. 7 CREDIT HOURS.

NURSING 102
Fundamentals of Nursing II
Continuation of Nursing 101. Effects of illness and hospitalization on normal growth and development; laboratory experience to develop increased skills in basic nursing measures of care; all clinical laboratory experience supervised by professional nursing faculty, and preceded and followed by group seminar. Theoretical concepts and clinical nursing skills contained in this course are consistent with the skills standards developed for the State of Illinois. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Nursing 101 and Biology 226.
4 LECTURE HOURS. 6 LAB HOURS. 7 CREDIT HOURS.

NURSING 140
Nursing Process and Documentation
Introduction to nursing process and documentation. Nursing theories are briefly surveyed. Emphasis is placed on the development of critical thinking skills in the application of nursing process through exercises in care planning and nursing documentation. Students learn and utilize nursing diagnosis (NANDA), nursing interventions classification (NIC), critical pathways, and other nursing documentation methods for these exercises. Theoretical concepts and clinical nursing skills contained in this course are consistent with the skills standards developed for the State of Illinois. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

NURSING 150
Nursing Fundamentals I
The concepts of holism, nursing practice, multicultural society and communication are studied for purposes of assisting persons to meet their basic needs. The role of the practical nurse in the use of the nursing process is studied and practiced in classroom, laboratory and long-term settings specifically in relation to protection against infection and providing for safety, mobility, comfort, hygiene, elimination and nutrition needs. Theoretical concepts and clinical nursing skills contained in this course are consistent with the skills standards developed for the State of Illinois. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission into Practical Nursing Program 240.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

NURSING 151
Nursing Fundamentals II
Students learn to administer medications and to use the nursing process to care for persons having surgery. The nursing process is also used to assist persons with oxygen, wound care, fluid and electrolyte, and rest and sleep needs and to assist persons who need relief from pain. Learning in classroom, lab and clinical settings fosters professional growth. Theoretical concepts and clinical nursing skills contained in this course are consistent with the skills standards developed for the State of Illinois. Writing assignments, as appropriate to the discipline, are part of the course. ABC: 1 time.
Prerequisite(s): Admission into Practical Nursing Program 240, grade of C or better in Nursing 150, or consent of Department Chairperson.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

NURSING 152
Nursing Perspectives
The course introduces students to the philosophy, conceptual framework, outcomes and competencies of the program. Nursing practice, nursing process and the therapeutic relationship are studied along with the ethical and legal aspects of nursing from the perspective of nursing practice in today’s society. Contemporary healthcare delivery issues are also discussed. Theoretical concepts and clinical nursing skills contained in this course are consistent with the skills standards developed for the State of Illinois. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission into Practical Nursing Program 240.
2 LECTURE HOURS. 2 CREDIT HOURS.

NURSING 153
Nursing Thru Life Span I
Focus on the care of persons throughout the life span experiencing grief and death and the common disorders interfering with oxygenation, nutrition, elimination, hormonal balance, and protection from infection. Students integrate previous related learning and are expected to demonstrate professional growth and to function within the provisions of the Illinois Nursing Act of 2007. Theoretical concepts and clinical nursing skills are consistent with the skills standards developed for the State of Illinois. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Nursing 151 and 152, and Biology 226.
3 LECTURE HOURS. 4 LAB HOURS. 5 CREDIT HOURS.

NURSING 154
Nursing Thru Life Span II
Focus on the care of persons throughout the life span experiencing grief and death and the common disorders interfering with oxygenation, nutrition, elimination, hormonal balance, and protection from infection. Students integrate previous related learning and are expected to demonstrate professional growth and to function within the provisions of the Illinois Nursing Act of 2007. Theoretical concepts and clinical nursing skills contained in this course are consistent with the skills standards developed for the State of Illinois. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Nursing 153 and Biology 227.
2 LECTURE HOURS. 6 LAB HOURS. 5 CREDIT HOURS.

NURSING 155
Nursing Thru Life Span III
This course focuses on the care of persons throughout the life span experiencing the most common disorders interfering with sexuality, mobility, and safety (including mental health disorders). Cancer is also studied because of its interferences with all basic needs. Students integrate previous related learning and are expected to demonstrate professional growth and to function within the provisions of the Illinois Nursing Act of 2007. Theoretical concepts and clinical nursing skills contained in this course are consistent with the skills standards developed for the State of Illinois. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Nursing 154 and Biology 227.
2 LECTURE HOURS. 8 LAB HOURS. 6 CREDIT HOURS.

NURSING 156
Nursing Fundamentals I Lecture
The concepts of holism, nursing practice, multicultural society and communication are studied for purposes of assisting persons to meet their basic needs. The role of the practical nurse in the use of the nursing process is studied and practiced in classroom, laboratory and long-term care settings specifically in relation to protection against infection and providing for safety, mobility, comfort, hygiene, elimination and nutrition needs. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Nursing 157 or consent of Department Chairperson.
2 LECTURE HOURS. 2 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS

Credit Courses

NURSING 157
Nursing Fundamentals I Lab
The concepts of holism, nursing practice, multicultural society and communication are studied for purposes of assisting persons to meet their basic needs. The role of the practical nurse in the use of the nursing process is studied and practiced in classroom, laboratory and long term care settings specifically in relation to protection against infection and providing for safety, mobility, comfort, hygiene, elimination and nutrition needs. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Nursing 156 or consent of Department Chairperson.
4 LAB HOURS. 2 CREDIT HOURS.

NURSING 203
Nursing in Perspective
Survey of the nursing career; responsibilities and changing role of a registered nurse. Theoretical concepts and clinical nursing skills contained in this course are consistent with the skills standards developed for the State of Illinois. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Nursing 210 and 211.
3 LECTURE HOURS. 3 CREDIT HOURS.

NURSING 210
Nursing Process in Alterations in Homeostasis I
Care for the family in crisis. Application of concepts of growth and development, health maintenance and promotion. Emphasis on observational skills, interpersonal relationships; communications and psychodynamics of human behavior. Theoretical concepts and clinical nursing skills contained in this course are consistent with the skills standards developed for the State of Illinois. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Nursing 102, Biology 227, and Microbiology 233.
3 LECTURE HOURS. 6 LAB HOURS. 6 CREDIT HOURS.

NURSING 211
Nursing Process in Alterations in Homeostasis II
Continuation of the nursing process with focus on alteration in health status within the expanding family system. Physical, social and psychological assessments of patients. Theoretical concepts and clinical nursing skills contained in this course are consistent with the skills standards developed for the State of Illinois. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Nursing 102, Biology 227, and Microbiology 233.
3 LECTURE HOURS. 6 LAB HOURS. 6 CREDIT HOURS.

NURSING 212
Nursing Process in Alterations in Homeostasis III
Continuation and implementation of the nursing process in the care of patients within the family unit. Consideration given to various stages of growth and development across the life cycle where patients and family are adapting to stressors. Use of a variety of learning experiences for initiating and implementing change in nursing approaches to client care. Theoretical concepts and clinical nursing skills contained in this course are consistent with the skills standards developed for the State of Illinois. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Nursing 210 and 211.
3 LECTURE HOURS. 6 LAB HOURS. 6 CREDIT HOURS.

NURSING 213
Nursing Process in Alterations in Homeostasis IV
Terminal integrating experiences utilizing the nursing process to meet the needs of patients and families in complex healthcare situations. Theoretical concepts and clinical nursing skills are consistent with the skills standards developed for the State of Illinois. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Nursing 210 and 211.
3 LECTURE HOURS. 6 LAB HOURS. 6 CREDIT HOURS.

NURSING 250
Health Assessment
This course offers an introduction to health assessment through the application of holistic nursing theory and nursing process to clinical nursing practice. The nursing process and the role of the nurse are examined in relation to the health assessment of individuals across their lifespan. Emphasis is placed on modes of investigation and inquiry in gathering data concerning physiological, psychosocial, cultural, and spiritual aspects of human experiences. Legal and ethical considerations related to the nurses role in health assessment are explored. Theoretical concepts and clinical nursing skills contained in this course are consistent with the skills standards developed for the State of Illinois. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Nursing 101, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

NURSING 299
Special Topics Nursing
Special topics in nursing will be presented along with appropriate lab and/or clinical activities. New developments will be emphasized, related to National League of Nursing Accreditation Commission and changes in Illinois Department of Professional Regulations rules, as well as best practices issues. Writing assignments, as appropriate to the discipline, are part of the course. ARC: 4 times.

Prerequisite(s): Admission to the Nursing Program/Plan and as determined by topic.
0–3 LECTURE HOURS. 2–8 LAB HOURS. 1–8 CREDIT HOURS.

OCCUPATIONAL THERAPY ASSISTANT

OCCUPATIONAL THERAPY ASSISTANT 106
Foundations of Human Occupation
This course explores the meaning of human occupation and its relationships to health, illness and disability. The historical roots of occupational therapy are explored and linked to the roles of contemporary occupational therapy practitioners. Students will experience a variety of learning strategies and activities as a means to gaining understanding of occupation, the occupational therapy process and the skills needed by a healthcare professional. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): English 101 placement level.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

OCCUPATIONAL THERAPY ASSISTANT 107
Occupations of Childhood
The first in a sequence of courses addressing the emergence of occupational behaviors, skills and life roles in humans throughout the life span. This course presents occupational and developmental frameworks for understanding the occupational nature of infants and children through 12 years of age, their families and caregivers. Means of applying the occupational therapy process by the occupational therapy assistant is studied within the contexts of a variety of disorders, conditions and circumstances affecting this period of human development. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Consent of Department Chairperson/Coordinator.
4 LECTURE HOURS. 2 LAB HOURS. 5 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS

OCCUPATIONAL THERAPY ASSISTANT 108
Practice Skills of OT Assistant I
Structured experiential learning will provide opportunities for students to solidify knowledge, develop and practice professional skills and behaviors utilized in the occupational therapy process with infants, children through twelve years of age and their families in a variety of settings. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Consent of Department Chairperson/Coordinator.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

OCCUPATIONAL THERAPY ASSISTANT 109
Occupations of Adolescence Early Adulthood
The second in a sequence of courses addressing the emergence of occupational behaviors, skills and life roles in humans throughout the life span. This course presents theoretical frameworks and models for understanding the occupational nature of adolescents and young adults at home, at school and in the community. Approaches to applying the occupational therapy process by the occupational therapy assistant is studied within the contexts of a variety of disorders, conditions and circumstances occurring during this period of human development. Writing assignments, as appropriate to the discipline, are part of the course.
4 LECTURE HOURS. 2 LAB HOURS. 5 CREDIT HOURS.

OCCUPATIONAL THERAPY ASSISTANT 110
Practice Skills of OT Assistant II
Structured experiential learning will provide opportunities for students to solidify knowledge, develop and practice professional skills and behaviors utilized in the occupational therapy process in a variety of settings with adolescents and young adults. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

OCCUPATIONAL THERAPY ASSISTANT 209
Occupation of Middle Adulthood
The third in a sequence of courses addressing the emergence of occupational behaviors, skills and life roles in humans throughout the life span. This course presents theoretical frameworks and models for understanding the occupational nature of the middle adulthood years in home settings, work environments, and in multiple levels of community. Approaches to applying the occupational therapy process by the occupational therapy assistant is studies within the contexts of a variety of disorders, conditions and circumstances affecting this period of human development. Writing assignments, as appropriate to the discipline, are part of the course.
4 LECTURE HOURS. 2 LAB HOURS. 5 CREDIT HOURS.

OCCUPATIONAL THERAPY ASSISTANT 210
Practice Skills of OT Assistant III
Structured experiential learning will provide opportunities for students to solidify knowledge, develop and practice professional skills and behaviors utilized in the occupational therapy process in a variety of settings with middle-aged adults. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

OCCUPATIONAL THERAPY ASSISTANT 211
Special Topics for Occupational Therapy I
The first of a two course sequence designed to develop knowledge and skills needed for the provision of occupational therapy services to special populations. Students will explore the role of the occupational therapy assistant in a variety of service delivery contexts. A variety of strategies used to engage in collaborative occupational therapy supervisory relationships in settings without occupational therapists will be addressed. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

OCCUPATIONAL THERAPY ASSISTANT 212
Occupations of Later Adulthood
The fourth in a sequence of courses addressing the emergence of occupational behaviors, skills and life roles in humans throughout the life span. This course presents theoretical frameworks and models for understanding the occupational nature of later adulthood in multiple living settings, work-related environments, and in community. Approaches to applying the occupational therapy process by the occupational therapy assistant is studied within the contexts of a variety of disorders, conditions and circumstances occurring during this period of human development. Writing assignments, as appropriate to the discipline, are part of the course.
4 LECTURE HOURS. 2 LAB HOURS. 5 CREDIT HOURS.

OCCUPATIONAL THERAPY ASSISTANT 213
Practice Skills of OT Assistant IV
Structured experiential learning will provide opportunities for students to solidify knowledge, develop and practice professional skills and behaviors utilized in the occupational therapy process in a variety of settings with elders. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

OCCUPATIONAL THERAPY ASSISTANT 214
Special Topics for OTA II
The second of a two course sequence designed to develop knowledge and skills needed for the provision of occupational therapy services to special populations. Students will explore the role of the occupational therapy assistant in a variety of service delivery contexts. A variety of strategies used to engage in collaborative occupational therapy supervisory relationships in settings without occupational therapists will be addressed. A special populations independent study incorporating fundamentals of entrepreneurship and marketing is included. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

OCCUPATIONAL THERAPY ASSISTANT 215
Fieldwork Level 2A
Students will apply and synthesize the knowledge base skills and attitudes of an occupational therapy assistant in a supervised healthcare fieldwork experience. Fieldwork placements in a community settings or institutions will afford students opportunities to engage in occupation-based practice with individuals across the lifespan and who may experience a variety of disorders and conditions. The course includes a campus-based student seminar to support the process of professional skills acquisition. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Consent of Department Chairperson/Coordinator.
2 LECTURE HOURS. 20 LAB HOURS. 6 CREDIT HOURS.

OCCUPATIONAL THERAPY ASSISTANT 216
Fieldwork Level 2B
Students will apply and synthesize the knowledge base, skills and attitudes of an occupational therapy assistant in a supervised healthcare fieldwork experience. Fieldwork placements in community settings or institutions will afford students opportunities to engage in occupation-based practice with individuals across the lifespan and who may experience a variety of disorders and conditions. The course includes a campus-based student seminar to support the process of professional skills acquisition. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Consent of Department Chairperson/Coordinator.
2 LECTURE HOURS. 20 LAB HOURS. 6 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS

Credit Courses

OCEANOGRAPHY

OCEANOGRAPHY 101
Introduction to Oceanography
Third dimension of the ocean, its depth, and as new frontier awaiting exploration; interdisciplinary study of ocean and interphase between air and water and how it affects the physical environment. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

PAINTING AND DECORATING

PAINTING AND DECORATING 779
Advanced Safety in the Trades
This applied health and environmental sciences course is designed to provide students with an overview of the anatomy and physiology of the human body, as well as basic concepts of chemistry, electricity, and radiation, and their application in the evaluation of hazardous environments, so that they are able to recognize, evaluate, prevent, and abate safety and health hazards associated with workers on a construction site. Potential hazards and related safety procedures pertaining to loud noises, hazardous materials (including both chemical and radiation hazards), power tools, electricity, and forklifts are discussed. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Painting and Decorating 775 and 776.
3 LECTURE HOURS. 3 CREDIT HOURS.

PAINTING AND DECORATING 780
Introduction to Painting
This course is designed to provide an introduction to the drywall industry and the tools of the trade. Students will learn the fundamentals of the drywall industry, the history and scope of the trade, the rules and regulations of the Joint Apprenticeship Training Committees and the role of the apprentice, past and present. This introductory course will also help tradesmen not only to identify and select the proper tools for producing an efficient and artistic finish to a job, but also help them learn proper handling of the tools to reduce personal strain to the body. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Painting and Decorating 775.
2 LECTURE HOURS. 2 CREDIT HOURS.

PAINTING AND DECORATING 781
Introduction to Wallcovering
This course covers the history and basic principles of wallcovering. Students will learn how to prepare a surface for wallcovering and how to apply wallcovering. Tools and materials of the wall covering trade will also be discussed. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

PAINTING AND DECORATING 782
Techniques of Spray Painting
This course covers the fundamentals of spray painting with a detailed discussion of the most common spray painting systems: electrostatic, turbine, airless, conventional, air, HVLP, and turbine. Students also learn the potential hazards involved with spray equipment and how to use spray equipment safely. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

PAINTING AND DECORATING 783
Techniques of Wallcoverings
This course covers the advanced techniques of wall covering. Specialized decorative techniques such as glazing, antiquing, wood graining, marbling, texturing, gilding, stenciling, and stipple finishing will be discussed. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

PAINTING AND DECORATING 784
Introduction to Drywall
This course is designed to provide an introduction to the drywall industry and the tools of the trade. Students will learn the fundamentals of the drywall industry, the history and scope of the trade, the rules and regulations of the Joint Apprenticeship Training Committees and the role of the apprentice, past and present. This introductory course will also help tradesmen not only to identify and select the proper tools for producing an efficient and artistic finish to a job, but also help them learn proper handling of the tools to reduce personal strain to the body. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Painting and Decorating 778.
2 LECTURE HOURS. 2 CREDIT HOURS.
PAINTING AND DECORATING 785
Materials of the Drywall Trade
This course is designed to provide a working knowledge of the materials used in the construction of drywall. Students will also learn the proper procedure for inspecting a job site to ensure that lighting, pre-filling, personal protective equipment and all tools, equipment and materials are available and properly prepared for use on a job.
Prerequisite(s): Grade of C or better in Painting and Decorating Technology 784.
2 LECTURE HOURS. 2 CREDIT HOURS.

PAINTING AND DECORATING 786
Taping and Filling Techniques
Taping is the process of gluing or adhering paper or fiberglass tape over wallboard joints to reinforce the joints and provide a smooth surface for applying further coats of filler. In this course, participants will demonstrate the taping process using the dry taping method, hopper tape and banjo tape method. This course will also focus on further techniques for applying tape and filling various surfaces during first, second, and third coatings. Students will learn the trowel and broad knife methods of filling by hand and will be able to choose the proper method for filling surfaces such as rounded surfaces, ceilings, walls, angles, joints and beads. Participants will also learn to recognize the proper application of tape and be able to troubleshoot problems with tape that did not adhere or wipe properly. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Painting and Decorating 785.
2 LECTURE HOURS. 2 CREDIT HOURS.

PAINTING AND DECORATING 787
Automatic Taping Tools Strategies
Automatic Taping Tools are the most commonly used methods of taping in the Drywall industry. Students will gain hands on experience while learning the parts, functions, safety, and maintenance procedures for using automatic taping tools. These experiences will also include the operation of the loading pump, loading procedures, proper holding techniques and the taping sequence. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Painting and Decorating 786.
3 LECTURE HOURS. 3 CREDIT HOURS.

PAINTING AND DECORATING 788
Introduction to Industrial Painting
This course covers quality control and quality assurance. Students will learn how to recognize failures of paint coatings, causes of failures and their remedies. Students will also learn to conduct a quality control inspection and the standards that apply to the various tasks performed during the inspection process. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

PAINTING AND DECORATING 789
Surface Preparation
This course covers the tools, materials and methods used for cleaning and preparing surfaces using solvents, hand tools and power tools. Content in this course is based on the methods and procedures specified by SSPC and NACE. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

PAINTING AND DECORATING 790
Materials for Industrial Painting
This course covers the basic components and film-forming processes of paints and coatings. The different systems and functions of paints and coatings are described. The criteria for selecting a coating system based on surface environment and preparation requirements are outlined. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Painting and Decorating 788.
2 LECTURE HOURS. 2 CREDIT HOURS.

PAINTING AND DECORATING 791
Techniques of Industrial Spraying
This course covers the fundamentals of spray painting with a detailed discussion of the most common spray painting systems: electrostatic, turbine, airless, conventional, air, HVLP, and turbine. Students also learn the potential hazards involved with spray equipment and how to use spray equipment safely. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Painting and Decorating 788.
3 LECTURE HOURS. 3 CREDIT HOURS.

PAINTING AND DECORATING 792
Safety for Industrial Painting
This course covers the dangers related to working with lead and the procedures for safe exposure and abatement. In particular, this course will cover what lead is, where it can be found, its health effects, its hazards, worker and community rights related to lead, abatement methods, clean-up, disposal, and laws, regulations, and standards. This course also covers the potential hazards of working with toxic and flammable materials and the related use of personal protective equipment. Additionally, the course covers the potential hazards related to working on raised or unstable platforms. The types of tools and equipment for elevating oneself and one’s work materials are identified. Selection, inspection, setup, safe techniques and proper maintenance of equipment are discussed. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Painting and Decorating 788.
3 LECTURE HOURS. 3 CREDIT HOURS.

PAINTING AND DECORATING 793
Testing and Quality Control
This course covers quality control and quality assurance. Students will learn how to recognize failures of paint coatings, causes of failures and their remedies. Students will also learn to conduct a quality control inspection and the standards that apply to the various tasks performed during the inspection process. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Painting and Decorating 788.
3 LECTURE HOURS. 3 CREDIT HOURS.

PAINTING AND DECORATING 794
Techniques of Painting
This course covers surface preparation, selection and characteristics of materials, and standards and specifications related to abrasive blasting, H20 blasting, and painting. Special emphasis will be placed on characteristics of normal and abnormal surface deterioration and thermal spraying for metal substrates. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

PHARMACOLOGY

PHARMACOLOGY 103
Pharmacology for Nurses
Weights and measures in pharmacy, drug standards and techniques and skills for safe and accurate preparation of oral and hypodermic doses of drugs. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.
PHARMACOLOGY 104
Pharmacodynamics Nursing Care
This course offers an introduction to pharmacodynamics through the application of a holistic nursing theory and nursing process to clinical nursing practice. General principles of drug action are discussed as they relate to the nursing care of patients of all age groups. The uses and modes of action for various classifications of medications will be presented. Principles from the basic sciences to include a holistic nursing perspective will be reinforced. Emphasis is placed on the nursing role in medication administration and evaluation of patient response to medications. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Biology 226 and 227, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

PHARMACY TECHNOLOGY

PHARMACY TECHNOLOGY 100
Intravenous Preparation
This course provides basic understanding and training of intravenous preparations of sterile products, clothing, equipment, calculations and documentation. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Current licensed and certified Pharmacy Technician.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

PHARMACY TECHNOLOGY 101
Pharmacology Allied Health
Principles and characteristics of drugs, including physical and chemical properties, dosage calculations, effects and reactions, toxicity, emergency procedures and methods of administration. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Pharmacy Technology Program/Plan 254.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

PHARMACY TECHNOLOGY 102
Basic Science for Allied Health Personnel
Fundamental biological and biochemical principles as applied to allied health personnel. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Pharmacy Technology Program/Plan 254.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

PHARMACY TECHNOLOGY 103
Introduction to Pharmacy Technology
This course introduces students to the field of pharmacy technology. Included is an overview of the Pharmacy Technician certificate program, definition of the pharmacy technician’s role, and a review of opportunities open to the pharmacy technician. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Pharmacy Technology Program/Plan 254.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

PHARMACY TECHNOLOGY 104
Pharmaceutical Calculations
Designed to provide mathematical tools for students enrolled in the pharmacy technology program. Emphasis is on practical aspects of mathematics and less upon the theoretical. Topics include, but are not limited to: fundamentals of measurement and calculation; interpretation of prescription or medication order; the metric system; calculation of doses; reducing and enlarging formulas; and percentage and ratio calculation. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission into the Pharmacy Technology Program/Plan 254.
3 LECTURE HOURS. 3 CREDIT HOURS.

PHARMACY TECHNOLOGY 105
Prescription Compounding
This course provides a basic understanding and training of compound preparations of products, equipment, calculations and documentation. Writing and reading assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Current licensed and certified Pharmacy Technician.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

PHARMACY TECHNOLOGY 113
Prescription Processing
Provides basic understanding of the person/pharmacy computer prescription processing software and the development of keyboarding skills. Learn to produce all requisite documentation for the pharmacy. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Pharmacy Technology Program/Plan 254.
2 LECTURE HOURS. 2 CREDIT HOURS.

PHARMACY TECHNOLOGY 121
Pharmacy Communication
Provides basic communication skills and pharmacy practice including verbal, nonverbal communication. Communication barriers, listening/empathic responding, assertiveness, interviewing assessment, patient outcomes, communications with special patients/children about medications are explored in this profession. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

PHARMACY TECHNOLOGY 201
Introduction to Pharmacy Law
Overview of legal aspects of the pharmacy practice, including a review of the Federal Controlled Substances Act and Illinois statutes, rules and regulations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Pharmacy Technology Program/Plan 254.
1 LECTURE HOUR. 1 CREDIT HOUR.

PHARMACY TECHNOLOGY 202
Pharmacy Operations
Fundamentals and specifics of drug distribution in hospital and retail pharmacies, including bulk compounding, packaging, quality control, inventory control, drug storage and a variety of drug delivery systems. Mathematical calculations for basic pharmacy operations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Pharmacy Technology Program/Plan 254.
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

PHARMACY TECHNOLOGY 204
Clinical Practicum I
This course is designed to provide employment skills as a concurrent and integral part of a student’s educational program in pharmacy technology. Supervised work experience in ambulatory care pharmacy practice is provided by applying the knowledge and training learned in related pharmacy technology courses. Training also involves progression from role of observer to assistant, then to relative independence under the direct supervision of a registered pharmacist and clinical coordinator. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Pharmacy Technology 103 and Pharmacology 103.
2 LECTURE HOURS. 10 LAB HOURS. 4 CREDIT HOURS.
PHARMACY TECHNOLOGY 205
Clinical Practicum II
This course is designed to provide employment skills as a concurrent and integral part of a student's educational program in pharmacy technology. Supervised work experience in ambulatory care pharmacy practice is provided by applying the knowledge and training learned in related pharmacy technology courses. Training also involves progression from role of observer to assistant, then to relative independence under the direct supervision of a registered pharmacist and clinical coordinator. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Pharmacy Technology 101, 102, 201, and 202, and Pharmacology 103.
2 LECTURE HOURS. 10 LAB HOURS. 4 CREDIT HOURS.

PHI THETA KAPPA

PHI THETA KAPPA 101
Phi Theta Kappa Leadership Development
Development of leadership abilities through the study of classic examples in The Great Books and through experiential exercises. Includes topics on leadership and group dynamics, moral and ethical responsibilities of leadership, delegation of authority, conflict resolution, essential leadership skills, and productive leadership behavior. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

PHILOSOPHY

PHILOSOPHY 105
Logic
This course introduces students to methods of reasoning, inference, and argument. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

PHILOSOPHY 106
Introduction to Philosophy
Introduction to philosophical methods of inquiry through analysis and evaluation of influential philosophical ideas. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

PHILOSOPHY 107
Ethics
Introduction to representative ethical systems; approaches to problems of values and conduct. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

PHILOSOPHY 108
Philosophy of Religion
Introduction to major religious traditions, analyzing various conceptions of God, values, reason, and faith. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

PHILOSOPHY 110
Social/Political Philosophy
Discussion of readings in philosophy covering issues such as justice, authority, obligation, rights, power, freedom and well-being. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

PHILOSOPHY 151
Bioethics
This course will prepare students to develop and apply explicit, coherent reasoning and judgment to important issues in the ethics of healthcare and to address the philosophical issues of human personhood, life, death, and suffering. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

PHILOSOPHY 201
Greek Philosophy to Renaissance
Readings from Plato, Aristotle, St. Augustine, St. Thomas, St. Bonaventure and other Renaissance thinkers. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

PHILOSOPHY 202
Enlightenment to Present
Continuation of Philosophy 201; covers the periods from the 17th Century to the present. Readings from Descartes, Spinoza, Locke, Hume, Kant, Russell and Sartre. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

PHILOSOPHY 215
Problems in Philosophy
Philosophical problems from such fields as ethics, metaphysics, aesthetics, and philosophy of science. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
PHILOSOPHY 216  
Critical Thinking  
Introduction to the development of cognitive skills to evaluate claims and arguments in order to make sound judgments about beliefs and actions. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.

PHILOSOPHY 225  
Philosophy of Art  
Basic artistic concepts, including artistic creation and the aesthetic experiences; focus on values and meaning in the arts. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.

PHLEBOTOMY  
PHLEBOTOMY 109  
Phlebotomy Practicum and Seminar I  
This course provides principles of phlebotomy techniques and examines the phlebotomist’s role as a member of the healthcare delivery team. The students will perform simulated phlebotomy procedures on campus and actual procedures in a clinical setting. Medical terminology, anatomy and physiology, communications, interpersonal relations, professional behavior, safety requirements in the healthcare institution, venipuncture and capillary puncture techniques will be discussed. Writing assignments, as appropriate to the discipline, are part of the course.  
2 LECTURE HOURS. 9 LAB HOURS. 5 CREDIT HOURS.

PHLEBOTOMY 209  
Phlebotomy Practicum and Seminar II  
This course provides students with 200 hours of hands-on experience in both intravenous and capillary blood drawing in a clinical setting, plus 40 lectures on campus in phlebotomy related theory. The student will be expected to perform a minimum of 135 successful unsupervised venipuncture using standard equipment, as well as syringe and butterfly apparatus. Topics such as: stress management, legal aspects, quality control and quality assurance, data entry and basic computer skills, cardiopulmonary resuscitation (CPR), continuation of medical terminology will be discussed. Writing assignments, as appropriate to the discipline, are part of the course.  
3 LECTURE HOURS. 15 LAB HOURS. 6 CREDIT HOURS.

PHYSICAL EDUCATION  
PHYSICAL EDUCATION 110  
Fitness  
Concepts, techniques, methods of personal fitness, stressing effects of exercise, relaxation and weight control; fitness programs directed to individual improvement. Writing assignments, as appropriate to the discipline, are part of the course.  
Allowed Repeatable Course: Not more than an accumulated four credit hours will be counted towards graduation. ARC: 2 times.  
0.5–1 LECTURE HOUR. 1–2 LAB HOURS. 1–2 CREDIT HOURS.

PHYSICAL EDUCATION 112  
Gymnastics and Tumbling  
General calisthenics and fundamentals of combinations of simple tumbling, gymnastics, stunts and/or modern gymnastics and practice; competitive aspects and scoring. Writing assignments, as appropriate to the discipline, are part of the course.  
Allowed Repeatable Course: Not more than an accumulated four credit hours will be counted towards graduation. ARC: 2 times.  
0.5–1 LECTURE HOUR. 1–2 LAB HOURS. 1–2 CREDIT HOURS.

PHYSICAL EDUCATION 114  
Jogging  
Running techniques to improve organic fitness through individualized programs. Writing assignments, as appropriate to the discipline, are part of the course.  
Allowed Repeatable Course: Not more than an accumulated four credit hours will be counted towards graduation. ARC: 2 times.  
0.5–1 LECTURE HOUR. 1–2 LAB HOURS. 1–2 CREDIT HOURS.

PHYSICAL EDUCATION 116  
Self-Defense and Combatives  
Elements of self-defense; understanding of combatives; conditioning, offensive and defensive tactics, rules and strategy for competition. Writing assignments, as appropriate to the discipline, are part of the course.  
Allowed Repeatable Course: Not more than an accumulated four credit hours will be counted towards graduation. ARC: 2 times.  
0.5–1 LECTURE HOUR. 1–2 LAB HOURS. 1–2 CREDIT HOURS.

PHYSICAL EDUCATION 118  
Weight Training  
Development of physical fitness through weight training devices; lifting techniques, circuit training, competitive lifting procedures. Writing assignments, as appropriate to the discipline, are part of the course.  
Allowed Repeatable Course: Not more than an accumulated four credit hours will be counted towards graduation. ARC: 1–2 times.  
0.5–1 LECTURE HOUR. 1–2 LAB HOURS. 1–2 CREDIT HOURS.

PHYSICAL EDUCATION 120  
Team Sports  
Combination of one or more seasonal sports such as basketball, floor hockey, soccer, softball, touch football and volleyball; theory and practice of fundamental skills, rules of the game and strategy; competition and tournaments within classes. Writing assignments, as appropriate to the discipline, are part of the course.  
Allowed Repeatable Course: Not more than an accumulated four credit hours will be counted towards graduation. ARC: 2 times.  
0.5–1 LECTURE HOUR. 1–2 LAB HOURS. 1–2 CREDIT HOURS.

PHYSICAL EDUCATION 122  
Individual Sports  
One or more lifetime sports such as archery, badminton, bowling, fencing, golf, skating, swimming, tennis, and track and field; theory and practice of individual skills, rules of the game, techniques of game strategy; competitive tournaments within class. Writing assignments, as appropriate to the discipline, are part of the course.  
Allowed Repeatable Course: Not more than an accumulated four credit hours will be counted towards graduation. ARC: 2 times.  
0.5–1 LECTURE HOUR. 1–2 LAB HOURS. 1–2 CREDIT HOURS.

PHYSICAL EDUCATION 130  
Fundamentals of Swimming  
For beginning and intermediate swimmers; breathing techniques, basic strokes, diving and water safety skills. American Red Cross card issued to qualifiers. Writing assignments, as appropriate to the discipline, are part of the course.  
Allowed Repeatable Course: Not more than an accumulated four credit hours will be counted towards graduation. ARC: 2 times.  
0.5–1 LECTURE HOUR. 1–2 LAB HOURS. 1–2 CREDIT HOURS.
## Credit Courses

### Aquatic Skills and Synchronized Swimming
Instruction in all strokes to improve efficiency and speed; diving from pool side, springboard, rescue skills and surface dives; preparation for lifesaving course; individual and team competition in such games as water basketball and water polo. American Red Cross Card issued to qualifiers. Writing assignments, as appropriate to the discipline, are part of the course. **Allowed Repeatable Course:** Not more than an accumulated four credit hours will be counted towards graduation. **ARC:** 2 times.

PHYSICAL EDUCATION 206
Football
Analysis, instruction, demonstration of fundamental skills; theory of coaching and officiating, styles of play and team strategy. Writing assignments, as appropriate to the discipline, are part of the course.
0.5 LECTURE HOURS. 1 LAB HOUR. 1 CREDIT HOUR.

PHYSICAL EDUCATION 207
Introduction to Personal Training
This course is designed to prepare students to sit for the personal trainer’s exam. The course bridges the gap between exercise science related course work and the practical application skills of personal training. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

PHYSICAL EDUCATION 212
Volleyball
Instruction, demonstration and practice of skills; coaching and officiating, styles of play and team strategy. Writing assignments, as appropriate to the discipline, are part of the course.
0.5 LECTURE HOURS. 1 LAB HOUR. 1 CREDIT HOUR.

PHYSICAL EDUCATION 216
Track
Skills and teaching techniques of track and field events; rules of competition, strategy and team organization of the sport. Writing assignments, as appropriate to the discipline, are part of the course.
0.5 LECTURE HOURS. 1 LAB HOUR. 1 CREDIT HOUR.

PHYSICAL EDUCATION 218
Basketball
Fundamentals of basketball and techniques of team organization; skills of each position, offensive and defensive skills, team play, strategy and officiating. Writing assignments, as appropriate to the discipline, are part of the course.
0.5–1 LECTURE HOUR. 1–2 LAB HOURS. 1–2 CREDIT HOURS.

PHYSICAL EDUCATION 219
Sports Officiating
Rules and mechanics of officiating of various team and individual sports; responsibilities and qualifications of an official. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

PHYSICAL EDUCATION 221
Play and Rhythmic Activities of Early Childhood
Methods and materials for teaching simple rhythmic games, singing games and other movement experiences for pre-school child; analysis of play situations appropriate to their needs and abilities. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

PHYSICAL EDUCATION 224
Tumbling and Gymnastics
Instruction and practice in teaching fundamental exercises; correct execution, development of skills, methods of giving gymnastic commands, tumbling and pyramid building; instruction and theories of coaching, officiating and competitive needs. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

PHYSICAL EDUCATION 226
Swim and Senior Life Saving
Skills of fundamental strokes to improve efficiency and speed; diving from pool side and springboard, rescue skills and surface dives; introduction to coaching of competitive swimming; safety, accident prevention; defense methods, rescue techniques. American Red Cross card issued to qualifiers. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

PHYSICAL EDUCATION 229
Water Safety Instructor
Swimming skills and techniques in all strokes, skills and techniques of life saving, water safety; practice in class management and teaching progressions; requirements meet those of American Red Cross Water Safety Instructors training program; American Red Cross Water Safety Instructors certificate issued to qualifiers. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

PHYSICAL EDUCATION 230
Baseball and Softball
Basic skills, coaching and officiating styles of play, teaching techniques and team strategy. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

PHYSICAL EDUCATION 234
Soccer
History, basic skills, playing tactics, officiating and teaching methods. Writing assignments, as appropriate to the discipline, are part of the course.
0.5 LECTURE HOURS. 1 LAB HOUR. 1 CREDIT HOUR.

PHYSICAL EDUCATION 236
Fitness Programs
Individual physical development; methods and teaching techniques of various fitness programs; introduction to physiology of exercise. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

PHYSICAL EDUCATION 237
Body Mechanics
Principles of fitness, including exercise, nutrition, diet, self-analysis, relaxation, posture, movement and sport activity analysis. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.
PHYSICAL EDUCATION 244
Tennis
Basic skills, strategy and playing techniques and teaching methods of tennis; rules, history and court etiquette. Writing assignments, as appropriate to the discipline, are part of the course.
0.5 LECTURE HOURS. 1 LAB HOUR. 1 CREDIT HOUR.

PHYSICAL EDUCATION 246
Golf
Basic practices and teaching of grip, stance and swing; rules, strategy, course layout, etiquette. Writing assignments, as appropriate to the discipline, are part of the course.
0.5 LECTURE HOURS. 1 LAB HOUR. 1 CREDIT HOUR.

PHYSICAL SCIENCE
PHYSICAL SCIENCE 101
General Course Physical Science
Introduction to the scientific method, astronomy, geology, and meteorology. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: DA KK MX TR WR

PHYSICAL SCIENCE 102
General Course Physical Science
Introduction to physics and chemistry; the relationship of matter and energy to physical and chemical changes. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: DA MX TR WR

PHYSICAL SCIENCE 105
Physical Science Laboratory
An introduction to the laboratory practices in the physical sciences. Writing assignments, as appropriate to the discipline, are part of the course.
2 LAB HOURS. 1 CREDIT HOUR.

PHYSICAL SCIENCE 107
Current Public Issues in Physical Science
Interdisciplinary approach to physical sciences; current public issues serve as framework for course that covers earth sciences (conservation, pollution, space exploration) as well as other branches of science, and social and humanistic aspects; integrates significant aspects of physical science with students other studies as well as daily living. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: OH TR HW

PHYSICAL SCIENCE 111
General Course I Physical Science
Introduction to the scientific method, astronomy, geology, oceanography, meteorology, and astronomy. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101 and Mathematics 99 or higher or consent of Department Chairperson.
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.
IAI/GE: KK MX OH TR HW WR

PHYSICAL SCIENCE 112
General Course II Physical Science
Introduction to physics and chemistry; the relationship of matter and energy to physical and chemical changes. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101 and Mathematics 99 or higher or consent of Department Chairperson.
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.
IAI/GE: KK MX OH TR WR

PHYSICAL SCIENCE 118
Introduction to Meteorology
An introductory course examining the physical properties of the atmosphere, radiation heating and cooling, precipitation, clouds, weather disturbances, climate controls, map reading, and application of the scientific method in analyses of the weather elements. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101 and Mathematics 99 or higher or consent of Department Chairperson.
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.
IAI/GE: HW

PHYSICAL SCIENCE 201
Fundamentals of Vector GIS
Fundamentals and application of vector GIS, using Arc-GIS. This class will focus on modeling and analyzing spatial problems in many economic sectors and environmental fields in which spatial data can be represented by points, lines and planes. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101, and completion of Mathematics 99 or equivalent placement test, or consent of Department Chairperson.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

PHYSICAL SCIENCE 202
Raster GIS and Remote Sensing
Fundamentals and application of raster GIS, using Arc-GIS. This class will focus on modeling and analyzing spatial problems in many economic sectors and environmental fields in which spatial data can be represented by an arrangements of pixels in a matrix such as digital elevation models and imagery. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101 and completion of Mathematics 99 or equivalent placement test or consent of Department Chairperson.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.
PHYSICAL SCIENCE 295
Independent Research in Physical Science
This course emphasizes independent, student-driven research under the close supervision of a faculty member. Writing assignments, as appropriate to the discipline, are part of the course. **Allowed Repeatable Course:** Eligibility for course repetition for additional credit hours is determined by the instructor. No more than an accumulated 12 credit hours will be counted towards graduation.

Prerequisite(s): Eligibility for English 101 and Mathematics 140, or higher or consent of Department Chairperson.

1 LECTURE HOUR. 6 LAB HOURS. 3 CREDIT HOURS.

PHYSICAL THERAPY ASSISTANT

PHYSICAL THERAPY ASSISTANT 110
Introduction to Physical Therapy
This course introduces the field of physical therapy including the history and standards of practice for the physical therapist assistant and basic treatment techniques. Emphasis is placed on ethical and legal considerations, universal precautions, vital signs, documentation, basic patient preparation and treatment skills, and architectural barrier screening. Upon completion, students should be able to explain the role of the physical therapist assistant and demonstrate competence in basic techniques of patient care. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): English 101, admittance into the Physical Therapy Assistant Program, or consent of Program Director/Department Chairperson.

1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

PHYSICAL THERAPY ASSISTANT 150
Therapeutic Procedures I
This course covers superficial thermal agents, massage, ultrasound, and documentation methods. Emphasis is placed on physiological effects, indications, contraindications, and skills applications of heat, cold, ultrasound, massage, and documentation. Upon completion, students should be able to safely, correctly, and effectively apply these techniques and procedures. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): English 101, admittance into the Physical Therapy Assistant Program, or consent of Program Director/Department Chairperson.

1 LECTURE HOUR. 6 LAB HOURS. 3 CREDIT HOURS.

PHYSICAL THERAPY ASSISTANT 160
Therapeutic Exercise
This course covers superficial thermal agents, massage, ultrasound, and documentation methods. Emphasis is placed on physiological effects, indications, contraindications, and skills applications of heat, cold, ultrasound, massage, and documentation. Upon completion, students should be able to safely, correctly, and effectively apply these techniques and procedures. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): English 101, admittance into the Physical Therapy Assistant Program, or consent of Program Director/Department Chairperson.

2 LECTURE HOURS. 6 LAB HOURS. 4 CREDIT HOURS.

PHYSICAL THERAPY ASSISTANT 170
Therapeutic Procedures II
This course is a continuation of PTA 150, emphasizing the theory and practice of electrotherapy, ultraviolet, hydrotherapy, wound care and burn care, and deep heating modalities. Topics include application of deep heating modalities, aquatic therapy, edema reduction, high and low frequency electrical currents, and biofeedback. Upon completion of this course, students should be able to apply these modalities and treatment techniques effectively and safely and demonstrate knowledge of physiological principles involved. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Physical Therapy Assistant 110, 150 and Exercise Science and Sports Studies 110 or consent of Program Director/Department Chairperson.

1 LECTURE HOUR. 6 LAB HOURS. 3 CREDIT HOURS.

PHYSICAL THERAPY ASSISTANT 190
Therapeutic Procedures III
This course introduces treatment and measurement techniques and discusses treatment programs for neuromusculoskeletal dysfunction and injury. Topics include soft tissue and joint dysfunction; assessment of girth, volume, length, sensation, pain, and muscle strength; and selected exercise programs. Upon completion, students should be able to measure strength and joint motion and identify methods to assess sensation, pain, volume, girth, length, and gait abnormalities. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Physical Therapy Assistant 110, 150, 160 and Exercise Science and Sports Studies 110, or consent of Program Director/Department Chairperson.

1 LECTURE HOUR. 6 LAB HOURS. 3 CREDIT HOURS.

PHYSICAL THERAPY ASSISTANT 200
Pathophysiology
This course is a survey of basic pathology with emphasis on conditions most frequently observed and treated in physical therapy. Topics include etiology, pathology, manifestation, treatment, and prognosis. Upon completion, students should be able to explain repair processes, categorize diseases, define pathology, identify organ/body systems involved, and discuss treatment and prognosis. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Physical Therapy Assistant 110, 150, 160 and Exercise Science and Sports Studies 110, or consent of Program Director/Department Chairperson.

3 LECTURE HOURS. 3 CREDIT HOURS.

PHYSICAL THERAPY ASSISTANT 211
PTA Clinical Education I
This course provides a short-term affiliation for planned learning experiences and practice under supervision. Emphasis is placed on basic skills including patient transfers, elementary exercise programs and other learned skills. Upon completion, students should be able to demonstrate satisfactory performance as an introductory-level physical therapist assistant student. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): First year completion of Physical Therapy Assistant program with a minimum grade point average of 2.0 or consent of Program Director/Department Chairperson.

2 CREDIT HOURS.

PHYSICAL THERAPY ASSISTANT 221
PTA Clinical Education II
This course provides a short-term affiliation for planned learning experiences and practice under supervision. Emphasis is placed on basic skills including patient transfers, elementary exercise programs and other learned skills. Upon completion, students should be able to demonstrate satisfactory performance as an introductory-level physical therapist assistant student. Writing assignments, as appropriate to the discipline, are part of the course.

2 CREDIT HOURS.

PHYSICAL THERAPY ASSISTANT 230
Therapeutic Procedures IV
This course covers normal development, adult and pediatric/CNS dysfunction, spinal cord injuries, amputee rehabilitation techniques, and cardiopulmonary rehabilitation. Topics include neurology review, selected rehabilitation techniques, ADL and functional training, prosthetic and orthotic training, and environmental access. Upon completion, students should be able to demonstrate safe and correct application of selected rehabilitation techniques for neurological dysfunction, cardiopulmonary conditions, and amputations. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): First year completion of Physical Therapy Assistant program with a minimum grade point average of 2.0 or consent of Program Director/Department Chairperson.

3 LECTURE HOURS. 6 LAB HOURS. 5 CREDIT HOURS.
PHYSICAL THERAPY ASSISTANT 260
Advanced PTA Clinical Education
This course provides full-time clinical affiliations for planned learning experiences and practice under supervision. Emphasis is placed on reinforcement of learned skills in direct patient care, communications, and professional behaviors. Upon completion, students should be able to demonstrate satisfactory performance as an entry-level physical therapist assistant and as a member of the physical therapy team. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): First year completion of Physical Therapy Assistant program with a minimum grade point average of 2.0 or consent of Program Director/Department Chairperson.
10 CREDIT HOURS.

PHYSICAL THERAPY ASSISTANT 280
Physical Therapy Assistant Topics
This course covers the physical therapist assistant profession in preparation for the state licensure exam. Topics include developing time management skills and practicing for the competence examinations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Physical Therapy Assistant 260 or consent of Program Director/Department Chairperson.
2 LECTURE HOURS. 2 CREDIT HOURS.

PHYSICIAN’S ASSISTANT

PHYSICIAN’S ASSISTANT 101
Applied Clinical Skills I
Basic skills applicable to the clinical environment including interpretation and theory of body fluids and tissues, and their implications in arriving at preliminary diagnosis. Topics include clinical biochemistry, hematology and urinalysis. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Physician’s Assistant 110 with a grade of C or better and admission to the Physician’s Assistant Program/Plan 262.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

PHYSICIAN’S ASSISTANT 102
Medical Sciences I
Systematic approach to theory of clinical medicine, including the pathophysiology of human disease. Epidemiology, dermatology, otolaryngology, ophthalmology and cardiovascular medicine for pediatric, adult and geriatric patients. The lab will combine and alternate small group discussions and presentations with research and role playing. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Physician’s Assistant 110 with a grade of C or better and admission to the Physician’s Assistant Program/Plan 262.
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

PHYSICIAN’S ASSISTANT 103
History and Physical Assessment I
Clinical data gathering skills, and introduction to physical examination using the problem-oriented medical record and patient simulation. Normal history, physical and neurological exam and progressive case presentations which correlate with the pathophysiology of disease systems covered in Physician’s Assistant 102. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Physician’s Assistant 110, and admissions into the Physician’s Assistant Program/Plan 262.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

PHYSICIAN’S ASSISTANT 104
Applied Clinical Skills II
The student is exposed to the basic concepts and skills of electrocardiography, radiology, intravenous procedures, Laryngoscopy and intubations, suturing skills, casting and splinting. Basic Life Support and Advanced Cardiac Life support certification. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission into the Physician’s Assistant Program/Plan 262.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

PHYSICIAN’S ASSISTANT 105
Medical Sciences II
Continuation of the systematic approach to the theory of clinical medicine including pathophysiology of human disease, illness and injury. Neurology, behavior science, infectious disease, gastroenterology, endocrine, musculoskeletal, hematology and oncology. Professional development and alternative/cultural issues are covered. The lab will combine and alternate small group discussions and presentations with research and role playing. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Physician’s Assistant 102 and admission to the Physician’s Assistant Program/Plan 262.
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

PHYSICIAN’S ASSISTANT 106
History and Physical Assessment II
Normal history, physical and neurological exam and progressive case studies correlating with the clinical symptoms covered in Physician’s Assistant 105 includes obstetrical and gynecological exam using patient simulations and patient models, and physical assessment. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission into the Physician’s Assistant Program/Plan 262, and Physician’s Assistant 105 course.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

PHYSICIAN’S ASSISTANT 107
Medical Pharmacology I
Basic principles of pharmacology including pharmacokinetics, drug action, interaction and toxicity. Physiological and biochemical actions, absorption, distribution, metabolism. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission into the Physician’s Assistant Program/Plan 262.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

PHYSICIAN’S ASSISTANT 108
Medical Sciences III
Continuation of systematic approach to the theory of clinical medicine to include the following areas of concentration: pediatrics, OB/Gyn, geriatrics and long-term care and surgery. Basic concepts and procedures of surgery including preoperative and postoperative conditions including orientation in anesthesia, radiology and emergency triage and care. Professional development and alternative/cultural issues are covered. The students will also be oriented to the care and management of patients in a long term care facility. The lab will combine and alternate small group discussions and presentations with research and role playing. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Physician’s Assistant 105 with a grade of C or better and admission to the Physician’s Assistant Program/Plan 262.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

PHYSICIAN’S ASSISTANT 110
Gross Anatomy for Physician’s Assistants
This course covers identification and description of major organ systems relevant to the practicing clinician in primary care. The course includes laboratory (cadaver) experience and pathophysiology. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission into the Physician’s Assistant Program/Plan 262.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.
PHYSICIAN’S ASSISTANT 111
Professional Development for Physician’s Assistants
A first year course for Physician’s Assistant that reviews the history and an overview of core competencies that discuss political issues, ethical issues, cross-cultural perspectives, and current trends of Physician’s Assistant profession in the healthcare industry. Writing assignments, as appropriate to the discipline are part of the course (15 hours of lecture and presentations will be provided).
1 LECTURE HOUR. 1 CREDIT HOUR.

PHYSICIAN’S ASSISTANT 112
Pathophysiology I for Physician’s Assistants
This course in Pathophysiology for Physician’s Assistants provides an introduction to clinical medicine. Topics include a presentation of the mechanisms underlying disease and how such mechanisms facilitate basic disease entities. Other topics include cell structure and function, cell response, genetic function of cell function, and genetic and congenital disorders. Writing assignments, as appropriate the discipline, are part of the course.
Prerequisite(s): Admission into the Physician’s Assistant Program/Plan 262.
2 LECTURE HOURS. 2 CREDIT HOURS.

PHYSICIAN’S ASSISTANT 113
Pathophysiology II for Physician’s Assistants
A first year course in pathophysiology for Physician’s Assistant covering an introduction to clinical medicine. The course is designed to present an orientation to disease as altered health physiology. The understanding of the mechanisms underlying disease and to facilitate the basic disease entities will be presented. The analyzing the mechanism of production of the symptoms and signs of different disease syndromes is presented by organ systems through two semesters. The second semester covers: disorders of the cardiovascular system/disease, respiratory function, renal function and fluid and electrolytes, the nervous system, Neoplasia and blood disorders, gastrointestinal disease and liver disease, disorders of the exocrine pancreas, disorders of the parathyroid and calcium metabolism, disorders of the endocrine pancreas, disorders of the hypothalamus and pituitary gland, thyroid disease, disorders of the adrenal cortex, disorders of the female reproductive tract, disorders of the male reproductive tract. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission into the Physician’s Assistant Program/Plan 262.
2 LECTURE HOURS. 2 CREDIT HOURS.

PHYSICIAN’S ASSISTANT 114
Medical Pharmacology I
Students are introduced to the basic principles of pharmacology including pharmacokinetics, drug actions, drug interaction and drug toxicities involved in the clinical use of drugs. Emphasis will be placed on the physiological and biochemical actions, absorption, distribution, metabolism, excretions and therapeutic use of drugs in the following areas: oral hypoglycemic/insulin, thyroid agents, steroids, hormones, analgesics, antipyretics, gastrointestinal medications, anticonvulsant, psychotropic medications, antineoplastics, and over the counter medications. Counter medications. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission into the Physician’s Assistant Program/Plan 262.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

PHYSICIAN’S ASSISTANT 201
Internal Medicine
Students on site in the Department of Medicine will, under supervision, be assigned patients for medical history, physical examination, diagnostic testing and patient management within the limitations imposed by their education and experience. They also will attend daily rounds and special conferences, participating, where possible, in diagnosis and formulation of therapeutic plans. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission into the Physician’s Assistant Program/Plan 262.
2 LECTURE HOURS. 5 LAB HOURS. 3 CREDIT HOURS.

PHYSICIAN’S ASSISTANT 202
Emergency Medicine
Students on site in the Department of Medicine will, under supervision, participate in the assessment, diagnosis and treatment of diseases and disorders in internal medicine. Students will rotate through Intensive Care Unit, Coronary Care Unit and Emergency Room. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission into the Physician’s Assistant Program/Plan 262.
2 LECTURE HOURS. 5 LAB HOURS. 3 CREDIT HOURS.

PHYSICIAN’S ASSISTANT 203
General Surgery
Students on site in the Department of Surgery will be assigned patients for medical history review, physical examination, diagnostic testing, and within limits imposed by education and previous experiences, patient management, including supportive involvement in major and minor surgical procedures. They will attend daily rounds and special conferences, participating, when possible, in preoperative confirmation of clinical impression and preparation of patient surgical procedures, as well as in post-surgical care. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission into the Physician’s Assistant Program/Plan 262.
2 LECTURE HOURS. 5 LAB HOURS. 3 CREDIT HOURS.

PHYSICIAN’S ASSISTANT 204
Trauma Surgery
Students on site in the Department of Surgery, under supervision, will be assigned patients for medical history review, physical examination, diagnostic testing, and within limits imposed by education and previous experience, patient management, including supportive involvement in major and minor surgical procedures. They will attend daily rounds and special conferences, participating, when possible, in preoperative confirmation of clinical impression and preparation of patient surgical procedures, as well as post-surgical care. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission into the Physician’s Assistant Program/Plan 262.
2 LECTURE HOURS. 5 LAB HOURS. 3 CREDIT HOURS.

PHYSICIAN’S ASSISTANT 205
Pediatrics
Students on site in the Department of Pediatrics will, under supervision, participate in patient care activities in outpatient clinics, emergency room, and pediatric inpatient services. They will be assigned patients for medical history review, physical examinations, and diagnostic testing in preparation for supportive roles, in the patients management. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission into the Physician’s Assistant Program/Plan 262.
2 LECTURE HOURS. 5 LAB HOURS. 3 CREDIT HOURS.

PHYSICIAN’S ASSISTANT 206
Obstetrics and Gynecology
Students on site in the Department of Obstetrics and Gynecology will, under supervision, participate in patient care activities with emphasis during this rotation on patients who have reproductive tract abnormalities and to those involved with normal or complicated pregnancies. Students will be assigned patients for medical history review, physical examination and diagnostic testing in preparation for a supportive role during labor and delivery or gynecologic surgery. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission into the Physician’s Assistant Program/Plan 262.
2 LECTURE HOURS. 5 LAB HOURS. 3 CREDIT HOURS.
PHYSICIAN’S ASSISTANT 207
Family Practice
Students on site in the Department of Family Practice will, under supervision, be assigned patients for medical history review, physical examinations, diagnostic testing, and within limitations imposed by education and experience, patient management. They will also attend daily rounds and special conferences, participating in the diagnosis and formulation of therapeutic plans. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Admission into the Physician’s Assistant Program/Plan 262.
2 LECTURE HOURS. 5 LAB HOURS. 3 CREDIT HOURS.

PHYSICIAN’S ASSISTANT 208
Psychiatry and Mental Health
Students on site in Department of Psychiatry and Mental Health will, under supervision, be assigned patients for medical history, physical examinations, diagnostic testing and patient management, performance of psychiatric history and mental status examination, and participation in and understanding of basics of therapeutics in the Mental Health Education Log. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Admission into the Physician’s Assistant Program/Plan 262.
2 LECTURE HOURS. 5 LAB HOURS. 3 CREDIT HOURS.

PHYSICIAN’S ASSISTANT 209
Geriatric Medicine
Students on site with a combination of patient care in geriatric medicine and long-term care, under the supervision of a physician, will be assigned patients for medical history, physical examinations, diagnostic testing, medical procedure, and patient management within the limitations imposed by their education and experience. Students will attend and participate in daily medical rounds and special education conferences. Students will participate, where possible, in the diagnostic and formulation of medical plans and interventions. Students are expected to be familiar with diagnostic interviews, therapeutic communications, and an interdisciplinary approach to patient healthcare management. Patient and family education, critical thinking, evidence based writing assignments, and intense self-directed study, as appropriate to the discipline, are part of the course. Weekly contact with program through the Clinical Coordinator is also required. Course requires a minimum of 40 clinical rotation hours per week for 4 weeks including on call, weekend, and swing shift medical coverage. Two of the weeks will be spent at the campus doing a clinical lab for developing teaching skills with focus in geriatric issues.

Prerequisite(s): Admission into the Physician’s Assistant Program/Plan 262.
2 LECTURE HOURS. 5 LAB HOURS. 3 CREDIT HOURS.

PHYSICIAN’S ASSISTANT 210
Orthopedics
Students on site in the Department of Surgery will, under the supervision of a physician, be assigned patients for medical history, physical examinations, diagnostic testing, medical procedure, and patient management within the limitations imposed by their education and experience. Students will attend and participate in daily medical rounds and special education conferences. Students will participate, where possible, in the diagnosis and formulation of medical plans and interventions. Students are expected to be familiar with preoperative clinical assessments, patient preparation for surgical procedures, post-operative patient management, diagnostic work-up, and an interdisciplinary approach to patient healthcare management. Patient and family education, critical thinking, evidence based writing assignments, and intense self-directed study, as appropriate to this discipline, is part of this course. Weekly contact with program through the Clinical Coordinator is also required. Course requires a minimum of 40 clinical rotation hours per week for 4 weeks including on call, weekend, and swing shift medical coverage. After eight weeks students return to the campus for didactic seminars and board reviews.

Prerequisite(s): Admission into the Physician’s Assistant Program/Plan 262.
2 LECTURE HOURS. 5 LAB HOURS. 3 CREDIT HOURS.

PHYSICIAN’S ASSISTANT 211
Elective Clinical Rotation
Student will select an area of medical interest for their elective rotation. Focus on primary care is encouraged. Elective rotations site will follow established departmental guidelines plus any additional restrictions mandated by rotation site. Established general outline for our students are that students are under physician supervision, that they be assigned to patients for medical history, physical examinations, diagnostic testing, medical procedures, and patient management within the limitations imposed by their education and experience. Students will attend and participate, in daily medical rounds and special medical education conferences. Students will participate, where possible, in the diagnosis and formulation of medical plans and interventions. Students are expected to be familiar with an interdisciplinary approach to patient healthcare management. Patient and family education, critical thinking, evidence based writing assignments, and intense self-directed study, as appropriate to this medical discipline, are part of this course. Additional students guidelines will be addressed, defined, and agreed to by the Clinical Rotation site, students, and the Physician’s Assistant Program/Plan 262 prior to the beginning of the clinical clerkship. Weekly contact with program through the Clinical Coordinator is also required. Course requires a minimum of 40 clinical rotation hours per week for 4 weeks including on call, weekend, and swing shift medical coverage. This course is taken near the end of the Program/Plan 262.

Prerequisite(s): Admission into the Physician’s Assistant Program/Plan 262.
2 LECTURE HOURS. 5 LAB HOURS. 3 CREDIT HOURS.

PHYSICIAN’S ASSISTANT 213
Special Topics in Health Care
Seminars, discussions, board reviews and peer mentoring group sessions that focus on special topics in healthcare. The primary areas of study include topics related to but not limited to internal medicine, primary care and issues of the PA professions. Students are required to take a minimum of 1 credit hour per semester. Writing assignments, as appropriate to the discipline, are part of the course. Allowed Repeatable Course: Courses may be repeated up to three times and may count for a maximum of four variable credits. Consent of Department Chairperson required for repeatability.

Prerequisite(s): Admission into the Physician’s Assistant Program/Plan 262.
2–4 LECTURE HOURS. 2–4 CREDIT HOURS.

PHYSICIAN’S ASSISTANT 214
Independent Study
Course is designed to increase students level of medical knowledge on a specific topic and to serve as an introduction for advanced medical research for future projects. Elements of medical research will be discussed to enhance students critical thinking skills. Students will be required to select a specific topic related medical issues in an under-served population or community. Students are required to perform independent research skills and interpret their own findings, as well as the supporting evidence found in current medical literature. Findings will be written and orally presented by students at the end of the second academic year. (Students sign up each semester for a one credit hour.) Writing assignments, as appropriate to the discipline, are part of the course. Allowed Repeatable Course: Course may be repeated up to three times and may count for a maximum of six credit hours. Consent of Department Chairperson required for repeatability. ARC: 4 times.

Prerequisite(s): Admission to the Physician’s Assistant Program/Plan 262.
1–3 LECTURE HOURS. 1–3 CREDIT HOURS.

PHYSICIAN’S ASSISTANT 215
Nutritional Concepts
Concepts of applied anatomy, physiology and chemistry in human metabolism and nutrition; planning, selecting and preparing diets for specific diseases or combination of disorders requiring modified diets. Included are enteral and parenteral nutrition support. Relates pathophysiology of the cardiovascular, renal, digestive, endocrine systems, and metabolic imbalances to the application of diet therapy. Skills and techniques for modifying diets for individuals including diet counseling are emphasized relative to diseases and symptom, and relative to health promotion. Writing assignments, as appropriate to the discipline, are part of the course.

3 LECTURE HOURS. 3 CREDIT HOURS.
PHYSICS

PHYSICS 102
Alternating Current
Principles of electromotive force, current and power in AC circuits, vector solution of AC circuits, series and parallel resonance, measurements, transformer, impedance matching. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Physics 132, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

PHYSICS 131
Mechanics and Power
A limited number of principles are covered with emphasis placed on applications. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

PHYSICS 132
Electricity, Heat, and Light
Continuation of Physics 131. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Physics 131, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

PHYSICS 215
Statics
Rigid bodies, fluid statics, friction, moments of inertia, centroids, and virtual work. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Physics 235 and Mathematics 208, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/MAJOR: DA HW WR

PHYSICS 216
Dynamics
Problems in kinematics, dynamics of a particle and a system of particles, dynamics of a rigid body, work, energy, small oscillations, and general plane motion. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Physics 235 and Mathematics 208, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/MAJOR: DA HW WR

PHYSICS 217
Mechanics of Materials
Study of elastic and inelastic relationships of external forces acting on deformable bodies. Includes stresses and deformations produced by tension and compression, torsion and bending, combined stresses, buckling, repeated loads, impact, and influence of properties of materials. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Physics 215, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI MAJOR: DA HW WR

PHYSICS 220
Physics Calculations and Practice
Detailed practice in problems and application of theory for better understanding of physics; application of ideas of physics such as conservation laws, wave motion, invariance and trigonometry, analytic geometry, vector analysis, probability, and statistics. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Concurrent enrollment in Physics 221 or Physics 231, or consent of Department Chairperson.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.
IAI/GE: TR

PHYSICS 221
Mechanics, Waves, and Heat
Continuation of Physics 220. Exploration of Electromagnetism, Light and Modern Physics using an algebra based approach. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Physics 221 and Mathematics 141 or higher, or concurrent enrollment in Mathematics 141 or 143 and Eligibility for English 101, or consent of Department Chairperson.
2 LECTURE HOURS. 6 LAB HOURS. 5 CREDIT HOURS.
IAI/GE: DA KK MX OH TR HW WR

PHYSICS 222
Electricity, Light, and Modern Physics
Electrostatics, magneto statics, laws of DC and AC circuits, electromagnetic radiations and elementary electronics. Primarily for liberal arts students and those in pre-medical curricula. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Physics 235, or consent of Department Chairperson.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

PHYSICS 224
Physics Calculations and Practice
For students majoring in engineering or physical sciences. Detailed practice in problems and application of theory involving calculus to provide better understanding of physics. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Physics 235, or consent of Department Chairperson.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

PHYSICS 231
General Physics I: Mechanics and Wave Motion
Statics and dynamics of a particle and a rigid body and oscillatory and wave motion with application to sound. Primarily for liberal arts students and those in pre-medical curricula. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Concurrent enrollment in Physics 220 and grade of C or better or concurrent enrollment in Mathematics 141, or consent of Department Chairperson.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.
IAI/GE: TR

PHYSICS 232
General Physics II: Electricity and Magnetism
Electrostatics, magneto statics, laws of DC and AC circuits, electromagnetic radiations and elementary electronics. Primarily for liberal arts students and those in pre-medical curricula. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Physics 231, or Physics 235, or consent of Department Chairperson.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

PROCESS TECHNOLOGY

PROCESS TECHNOLOGY 115
Introduction to Process Technology
This course provides an introduction to the field of process industry operations and a review of the roles and responsibilities of process technicians, the environment in which they work, and the equipment and systems that they operate. Students will be introduced to many process industry equipment concepts, including purpose, components, operation, and the Process Technician’s role toward the equipment. Writing assignments, as appropriate to the discipline, are part of the course.

3 LECTURE HOURS. 3 CREDIT HOURS.

PROCESS TECHNOLOGY 116
Process Instrumentation I
This course provides an introduction to the instrumentation used in process industries. Students will develop knowledge of instruments and instrument systems used to monitor and control variables in production processes, especially in the petrochemical industry. Terminology, process variables, symbology, control loops and basic troubleshooting will be covered. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Process Technology 115.

3 LECTURE HOURS. 3 CREDIT HOURS.

PROCESS TECHNOLOGY 117
Process Instrumentation II
This course is to provide an overview into the field of instrumentation as it relates to operations within the process industries. In this course, students will develop their knowledge of equipment, systems and instrumentation, to understand the operation of the entire unit. Students study concepts related to commissioning, normal startup, normal operations, normal shutdown, turnarounds and abnormal situations as well as the Process technician’s role in performing the task associated with these concepts within an operating unit. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Process Technology 116.

3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

PROCESS TECHNOLOGY 118
Process Technology Equipment
This course provides an overview and introduction to some of the equipment and vessels, and their operations within process industries. Students will be introduced to process industry equipment fundamentals such as purpose, terminology, components, and operation. They will also learn the Process Technician’s role in operating and troubleshooting equipment. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Process Technology 116 and 124.

4 LECTURE HOURS. 4 LAB HOURS. 6 CREDIT HOURS.

PROCESS TECHNOLOGY 119
Safety, Health, and Environment
Introduction to various types of plant hazards, safety and environmental systems and equipment, and regulations under which the process industry is governed. This course is also designed to impart the knowledge and skills that dictate the attitudes and behaviors required for safe and environmentally sound work habits. Emphasis is on safety, health and environmental issues in the performance of all job tasks and regulatory compliance issues. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Process Technology 115.

3 LECTURE HOURS. 3 CREDIT HOURS.

PROCESS TECHNOLOGY 120
Quality Control
Introduces the concepts of system and plant economics; studies the interrelation of process systems by ranging process equipment into basic systems, explains how factors affecting process systems are controlled under normal conditions, and recognizes abnormal process conditions. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Process Technology 125.

6 LECTURE HOURS. 6 CREDIT HOURS.

PROCESS TECHNOLOGY 121
Unit Systems
Introduces the concepts of system and plant economics; studies the interrelation of process systems by ranging process equipment into basic systems, explains how factors affecting process systems are controlled under normal conditions, and recognizes abnormal process conditions. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Process Technology 125.

6 LECTURE HOURS. 6 CREDIT HOURS.

PROCESS TECHNOLOGY 122
Operations
Introduces the concepts of system and plant economics; studies the interrelation of process systems by ranging process equipment into basic systems, explains how factors affecting process systems are controlled under normal conditions, and recognizes abnormal process conditions. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Process Technology 125.

6 LECTURE HOURS. 6 CREDIT HOURS.

PROCESS TECHNOLOGY 123
Process Troubleshooting
This course integrates the application of process control with the use of computer-simulated exercises. The use of process control simulations challenges the student to exercise logical troubleshooting techniques to solve operational problems. The course utilizes “what if drills” to enhance troubleshooting skills. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Process Technology 125 and 203. Grade of C or better or concurrent enrollment in Computer Information Systems 120.

3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS

PSYCHIATRIC REHABILITATION

PSYCHIATRIC REHABILITATION 101
Survey of Psychiatric Rehabilitation
This course is the first in the series for the Psychiatric Rehabilitation certificate. Courses in the series focus on a rehabilitative approach to servicing individuals with severe mental illness. This approach is based on the premise that consumers set the goals for the rehabilitation team. The survey course is based on major themes: understanding psychiatric disability and current approaches to treatment, the mental health system and surrounding legal issues, psychiatric rehabilitation through vocational and skills training, and family and community support systems. The orientation of the course is more practical than theoretical and there is considerable opportunity to observe and practice relevant skill. Consumers serve as guest speakers to highlight issues of empowerment and stigma and to increase understanding of consumer experiences with the mental health system. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

PSYCHIATRIC REHABILITATION 102
Psychiatric Rehabilitation Skills
This course is the second in the series for the Psychiatric Rehabilitation Certificate. The orientation of the course is more practical than theoretical, and there is considerable opportunity to observe and practice relevant skills. Students learn basic techniques for conducting interviews for use in assessment, treatment planning, and therapeutic interactions with consumers. Students learn to conduct skills training groups and apply behavioral techniques for implementing programs that promote desired skills. Techniques for intervening in crisis situations and preventing and managing aggression are presented. Writing assignments, as appropriate to the discipline, are part of the course. Allowed Repeatable Course: Course may be repeated up to three times and may count for a maximum of six credit hours. Consent of Department Chairperson required for repeatability.
ARC: 4 times. 
Prerequisite(s): Grade of C or better in Psychiatric Rehabilitation 101.
3 LECTURE HOURS. 3 CREDIT HOURS.

PSYCHIATRIC REHABILITATION 103
Health Skills for Psychiatric Rehabilitation
This course examines three-dimensions of wellness: physical, emotional and environmental. Students will learn the fundamentals of physical wellness, including diet, nutrition, exercise, sanitation, disease prevention and control, and special health considerations for persons with severe mental illness. The emotional dimension of wellness includes social support, physical and sensory accommodations, and geriatric and developmental disabilities. Students will learn the essentials of environmental safety, including use of safety equipment and proper body mechanics. Students will develop and practice skills for determining vital signs and documenting their observations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Psychiatric Rehabilitation 101.
3 LECTURE HOURS. 3 CREDIT HOURS.

PSYCHIATRIC REHABILITATION 104
Vocational and Community Living Skills
This course emphasizes the practical applications of vocational and community living skills development for individuals with severe mental illness. Students will observe and practice the fundamentals of vocational rehabilitation, including the duties and tasks commonly required in vocational settings and the development of employment sites. Practical application of current policies affecting employment sites are presented. Networking skills, common state and federal benefit programs, and community-based service provisions are presented. Writing assignments, as appropriate to the discipline, are part of the course. 
Prerequisite(s): Grade of C or better in Psychiatric Rehabilitation 101.
3 LECTURE HOURS. 3 CREDIT HOURS.

PSYCHIATRIC REHABILITATION 105
Internship
This internship requires a minimum of 240 clock hours of field experience by the student. Experiences are a combination of observation and participation/interaction with consumers of mental health services. The student will perform activities from the following required areas: 1. general milieu activities, 2. interview activities, 3. skills training, 4. wellness activities related to physical, social, emotional, and environmental wellness, 5. vocational rehabilitation activities, 6. case management activities, 7. behavior definition and/or task analysis, 8. aggression management, 9. assessment and treatment planning and/or crisis intervention. All experience should focus on a rehabilitative approach to serving individuals with severe mental illness. Group or individual supervision with on-site clinical staff and supervision by field placement director is also required. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Psychiatric Rehabilitation 101, 102, 103, and 104.
15 LAB HOURS. 3 CREDIT HOURS.

PSYCHOLOGY

PSYCHOLOGY 201
General Psychology
Historical survey of psychology and a study of the sensory and perceptual processes: learning, thinking, remembering, emotional behavior, motivation, mechanism of adjustment, and the total personality. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: DA KK MX OH TR HW WR

PSYCHOLOGY 203
The Psychology of Women
An application of the general principals of psychological scholarship and research to the subject of gender and women. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

PSYCHOLOGY 205
Applied Psychology
Applications of principles of psychology in industry, business, the professions, social welfare, and personal adjustment; career selection, industrial efficiency, advertising, sales, and the arts; and detection and treatment of delinquents and criminals. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
PSYCHOLOGY 206
Business and Industrial Psychology
Psychological principles and techniques applied to activities and problems in business and industry; selling, advertising, market research, personnel work, employee selection and training, supervision, and morale. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Psychology 201 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

PSYCHOLOGY 207
Child Psychology
Development, adjustment, and psychological problems of the child from birth through adolescence; relationship of scientific psychological findings to practical methods of child guidance and training by parents, teachers, and others. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Psychology 201 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

PSYCHOLOGY 208
Psychology of Exceptional Children
Considers children who do not respond to usual classroom teaching procedures. Includes problems of identification, diagnosis and potential assessment; surveys appropriate instruction and remedial teaching of mentally retarded, physically handicapped, gifted, culturally deprived, and maladjusted children. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Psychology 201 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

PSYCHOLOGY 209
Black Psychology
Relationship of psychology to colonized situation; understanding colonial experience in psychological terms, emphasis on effects for black and white persons in America of status of blacks during and after legalized slavery. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

PSYCHOLOGY 210
Principles of Supervisory Psychology
Psychological principles applied to problems with employees, both from the standpoint of management and of employees. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Psychology 201, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

PSYCHOLOGY 211
Social Psychology
Analyzes development of personality structures and patterns: cultural environment, social roles and status, attitude formation, personality types, and measurement of personality. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Psychology 201 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

PSYCHOLOGY 212
Introduction to Personality
Continuation of Psychology 207. Physical, intellectual, educational, personality, and social development of adolescents in contemporary society; emphasis on problems of the adolescent's adjustment to personal and social environment. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Psychology 201 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

PSYCHOLOGY 213
Abnormal Psychology
Abnormal behavior and its social significance; symptoms and dynamics of psychological disorders; neuroses and psychosomatic reactions, sociopathic psychoses; consideration of therapies and theories of prevention. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Psychology 201, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

PSYCHOLOGY 214
Adolescent Psychology
Continuation of Psychology 207. Physical, intellectual, educational, personality, and social development of adolescents in contemporary society; emphasis on problems of the adolescent's adjustment to personal and social environment. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Psychology 201 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

PSYCHOLOGY 215
Psychology of Personality
Major personality theories to familiarize students with systems concerned with comprehensively and dynamically interrelating developmental, motivational, and adaptive aspects of behavior; methods of personality assessment and experimental evidence relevant to the theories will also be considered. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Psychology 201, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

PSYCHOLOGY 216
Adult Development and Aging
Introduction to psychological problems, issues, facts, and theories relating to later adulthood and old age; societal values and institutions, socioeconomic variables, biological and psychological changes, perception, cognition, psychosocial development, personality factors, sexuality and relationships, work and skill issues, adjustment and coping, psychopathology, and therapeutic intervention. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Psychology 201 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

PSYCHOLOGY 217
Death, Dying and Bereavement
This course will introduce students to psychological problems, issues, facts, theories, opinions, and controversies pertaining to death or loss, the dying process, and bereavement as a response to loss. It will deal with societal values, institutions, psychological variables, the nature of dying and bereavement, the effects of loss on the surviving individual, adjustment and coping problems, relevant behavioral and emotional reactions, and alternatives to societal institutions surrounding death. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Psychology 201 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS
Credit Courses
This information is subject to change.

PSYCHOLOGY 224
Life Span Developmental Psychology
Life Span Developmental Psychology is an introductory course in developmental psychology covering fundamental biological, cognitive, and psychological factors as they apply to the whole span of development. Theories, research design and findings, facts, and principles, as they apply to each age level, will be examined.
Prerequisite(s): Grade of C or better in Psychology 201 or consent of Department Chairperson.
3 Lecture Hours. 3 Credit Hours.

PSYCHOLOGY 240
Research and Statistical Methods in the Behavioral Sciences
Study of methods used in the systematic study of psychology, including psychometric concepts, understanding and application of statistical operations (computer-based), and critique of scholarly empirical reports. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Psychology 201 or consent of Department Chairperson.
2 Lecture Hours. 2 Credit Hours.

PSYCHOLOGY 299
Special Topics in Psychology
Special topics in Psychology will be discussed along with appropriate lab and/or field trip activities. New developments in the field will be emphasized. Writing assignments, as appropriate to the discipline, are part of the course. Allowed Repeatable Course: Course may be repeated up to three times when topics are different, and may count for a maximum of six variable credits. Consent of Department Chairperson required for repeatability.
Prerequisite(s): Grade of C or better in Psychology 201 or consent of Department Chairperson.
6 Lecture Hours. 6 Credit Hours.

PUBLIC SERVICE 130
Police Operations I
Orientation; police administration and organization; rules and regulations; policy and procedures. Writing assignments, as appropriate to the discipline, are part of the course.
1 Lecture Hour. 1 Credit Hour.

PUBLIC SERVICE 131
Communication and Case Reporting
Fundamentals of note taking, directives, traffic reports and interviews. Emphasis will include composition of police narrative writing primarily in terms of the organization and language of such reports commonly used by law enforcement officers. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Public Service 130, or consent of Department Chairperson.
2 Lecture Hours. 2 Credit Hours.

PUBLIC SERVICE 132
Law and Court Procedures
Principles of constitutional law, arrest, ethics, search and seizure; review of court systems, procedures from initial incident to final court disposition. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Public Service 130, or consent of Department Chairperson.
3 Lecture Hours. 3 Credit Hours.

PUBLIC SERVICE 133
Law Codes I
Analysis of state and municipal codes as they apply to law enforcement. Emphasis on structure, essential elements and most frequently used sections. Review of day to day duties of a law enforcement officer. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Public Service 130, 131, and 132, or consent of Department Chairperson.
3 Lecture Hours. 3 Credit Hours.

PUBLIC SERVICE 134
Criminal Investigation I
Fundamentals of investigation, identification and arrest; collection of evidence; modus operandi. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Public Service 130, 131, and 132, or consent of Department Chairperson.
4 Lecture Hours. 4 Credit Hours.

PUBLIC SERVICE 135
Problems in Human Behavior
Study of normal and deviant behavior, collective behavior and narcotics offenses. Study of interpersonal relations from the perspective of working and serving the public from various background and cultures. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Public Service 130 and Public Service 132, or consent of Department Chairperson.
2 Lecture Hours. 2 Credit Hours.

PUBLIC SERVICE 136
Professional Skills for Police Officers
Field training and techniques used in conducting criminal investigations, or in another appropriate area of law enforcement approved by the instructor. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Public Service 130, 131, 132, and 133, or consent of Department Chairperson.
2 Lecture Hours. 2 Credit Hours.

PUBLIC SERVICE 230
Police Operations II
Review of police line operations including patrol, traffic and special operational units; operations for civil disorders and disasters. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Public Service 130, 131, 132, and 133, or consent of Department Chairperson.
2 Lecture Hours. 2 Credit Hours.

RADIOGRAPHY
RADIOGRAPHY 101
Introduction to Radiation Sciences
Fundamental concepts of medical imaging and the radiation sciences; includes origins of the profession, common terminology and chemicals; technical factors influencing development of the radiograph and technical factors which produce the image. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission into the Radiography Program/Plan 246.
1 Lecture Hour. 2 Lab Hours. 2 Credit Hours.
**RADIOGRAPHY 102**  
**Attitudes in Patient Care**  
Skills needed for proper patient care; includes physical and psychological skills necessary to cope with various situations. Writing assignments, as appropriate to the discipline, are part of the course.  
*Prerequisite(s): Admission into the Radiography Program/Plan 246.*  
*2 LECTURE HOURS. 2 CREDIT HOURS.*

**RADIOGRAPHY 105**  
**Imaging Physics**  
Structure of matter, electric circuitry, especially the x-ray circuit, interactions between ionizing radiation and matter and principles necessary for production of radiographic image. Writing assignments, as appropriate to the discipline, are part of the course.  
*Prerequisite(s): Admissions into the Radiography Program/Plan 246 and grade of C or better in Radiography 101.*  
*2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.*

**RADIOGRAPHY 115**  
**Basic Principles of Image Production**  
Analysis of various technical factors and accessories which affect radiographic image; includes basic qualitative factors of image production, and laboratory experiments. Writing assignments, as appropriate to the discipline, are part of the course.  
*Prerequisite(s): Admissions into the Radiography Program/Plan 246 and grade of C or better in Radiography 101.*  
*2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.*

**RADIOGRAPHY 124**  
**Introduction to Patient Care**  
Proper positioning and basic nursing procedures necessary for patient care; includes proper placement and manipulation of patient and equipment. Writing assignments, as appropriate to the discipline, are part of the course.  
*Prerequisite(s): Admission into the Radiography Program/Plan 246.*  
*1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.*

**RADIOGRAPHY 128**  
**Image Evaluation**  
Analysis of image and quality of radiographs images submitted for interpretation; covers patients size, cooperation and pathological condition relative to and influencing accuracy and quality of resultant image. Writing assignments, as appropriate to the discipline, are part of the course.  
*Prerequisite(s): Admission into the Radiography Program/Plan 246.*  
*1 LECTURE HOUR. 1 CREDIT HOUR.*

**RADIOGRAPHY 131**  
**Radiographic Procedures I**  
Proper positioning of patient for demonstration of suspect pathology of abdomen and its contents; correlated with course in anatomy and physiology, and routine and contrast media procedures. Writing assignments, as appropriate to the discipline, are part of the course.  
*Prerequisite(s): Admission into the Radiography Program/Plan 246.*  
*1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.*

**RADIOGRAPHY 140**  
**Introduction to Clinical Education**  
Physical and technical skills needed to apply ionizing radiation to human beings; clinical orientation and assessment to determine professional preparedness. Writing assignments, as appropriate to the discipline, are part of the course.  
*Prerequisite(s): Admission into the Radiography Program/Plan 246.*  
*1 LECTURE HOUR. 30 LAB HOURS. 4 CREDIT HOURS.*

**RADIOGRAPHY 141**  
**Radiography Clinical Education I**  
Orientation and initial skills development in basic radiographic procedures; visualization of abdomen and its contents stressed to prepare student for further study in major area of specialization; includes communication, operation of equipment, patient care and technical skills development. Writing assignments, as appropriate to the discipline, are part of the course.  
*Prerequisite(s): Admission into the Radiography Program/Plan 246.*  
*1 LECTURE HOUR. 30 LAB HOURS. 4 CREDIT HOURS.*

**RADIOGRAPHY 200**  
**Pathology**  
Covers disease process with radiographic manifestations; laboratory sessions include use of radiographs and images from other modalities to visualize various types of pathologic conditions. Writing assignments, as appropriate to the discipline, are part of the course.  
*Prerequisite(s): Admission into the Radiography Program/Plan 246.*  
*2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.*

**RADIOGRAPHY 202**  
**Radiology Management**  
Administration, purchasing and personnel control; practical experience in department administration. Writing assignments, as appropriate to the discipline, are part of the course.  
*Prerequisite(s): Advanced standing in the Radiography Program/Plan 246.*  
*1 LECTURE HOUR. 1 CREDIT HOUR.*

**RADIOGRAPHY 205**  
**Applied Radiographic Techniques**  
Practical applications of previously learned concepts; effects of technical factor selection, use of accessories and changes in patient type and condition. Writing assignments, as appropriate to the discipline, are part of the course.  
*Prerequisite(s): Advanced standing in the Radiography Program/Plan 246.*  
*2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.*

**RADIOGRAPHY 206**  
**Imaging**  
The components of radiological imaging system chains; imaging systems will be explored, including current systems and new and emerging modalities. Writing assignments, as appropriate to the discipline, are part of the course.  
*Prerequisite(s): Admission into the Radiography Program/Plan 246.*  
*1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.*

**RADIOGRAPHY 208**  
**Radiobiology**  
Effects of radiation on cells, organs, and organisms and implications on present and future populations, use of ionizing radiation in internal and external treatment of benign and malignant disease. Writing assignments, as appropriate to the discipline, are part of the course.  
*Prerequisite(s): Admission into the Radiography Program/Plan 246.*  
*2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.*

**RADIOGRAPHY 232**  
**Radiographic Procedures II**  
Positioning and patient-care skills applied to additional body systems and correlated with clinical study; proper positioning of patient for demonstration of suspect pathology correlated with previous procedures; includes skeletal and urinary systems. Writing assignments, as appropriate to the discipline, are part of the course.  
*Prerequisite(s): Admission into the Radiography Program/Plan 246.*  
*3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.*
CREDIT COURSE DESCRIPTIONS
Credit Courses

RADIOGRAPHY 233
Radiographic Procedures III
Study of additional body systems; includes procedures less frequently performed and those requiring special skills or equipment; procedures covered will not normally require invasive techniques. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Admission into the Radiography Program/Plan 246.
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

RADIOGRAPHY 234
Special Radiographic Procedure
Procedures frequently performed in modern department but which employ surgical or other invasive techniques and injection of contrast media into circulatory system; covers emergency procedures and pertinent aspects of some pharmaceuticals. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Admission into the Radiography Program/Plan 246.
1 LECTURE HOUR. 40 LAB HOURS. 5 CREDIT HOURS.

RADIOGRAPHY 242
Radiography Clinical Education II
Application of concepts learned in related radiography classes; emphasis on progression from role of observer to assistant, then to relative independence under supervision of qualified clinical instructors, radiographers and faculty. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Admission into the Radiography Program/Plan 246.
1 LECTURE HOUR. 30 LAB HOURS. 4 CREDIT HOURS.

RADIOGRAPHY 243
Radiography Clinical Education III
Progression from role of assistant to greater independence under supervision of qualified clinical instructors. Quality and related aspects of special consent will be covered. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Admission into the Radiography Program/Plan 246.
1 LECTURE HOUR. 30 LAB HOURS. 4 CREDIT HOURS.

RADIOGRAPHY 244
Radiography Clinical Education IV
Progression of student to full clinical independence, upon demonstrating clinical competency. Student can refine skills through independent practice. Includes field experiences in elective specialization. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Admission into the Radiography Program/Plan 246.
1 LECTURE HOUR. 40 LAB HOURS. 5 CREDIT HOURS.

READING 125
Developmental Reading Skills II
For students who need to improve their reading skills; efficient reading of textbooks and other materials including work in mechanics of reading, vocabulary development, comprehension, and rate of reading. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Grade of C or better in Reading 99, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

READING 126
Structural Analysis and Critical Reading
Ability to read and to analyze college level materials. For students with advanced reading skills. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Grade of C or better in Reading 125, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

RENAL TECHNOLOGY/NEPHROLOGY

RENAL TECHNOLOGY/NEPHROLOGY 101
Introduction to Hemodialysis and Hemodialysis Procedures
Study of structure and function of kidneys and role of kidneys in maintaining homeostasis. Basic chemistry of body fluids and electrolytes. Acid base balance, fluid overload and calculation of fluid overload for dialysis patients. Chronic kidney disease and stages of chronic kidney disease. End stage renal disease and treatment options. Professionalism, ethical issues and continuous quality improvement in hemodialysis. Today's dialysis environment and the role of regulatory agencies and organizations for hemodialysis and peritoneal dialysis patient care. Infection control and safety in dialysis units. Patient assessment for hemodialysis and data collection. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Eligibility for English 101, grade of C or better in Health Professions 101 or consent of Department Chairperson and admission into the Renal Dialysis Technology Program/Plan 248.
1 LECTURE HOUR. 4 LAB HOURS PER WEEK. 3 CREDIT HOURS.

RENAL TECHNOLOGY/NEPHROLOGY 102
Basic Hemodialysis Procedures I
Study of dialysis equipment, and machine assembly, blood lines, side ports and monitors, blood pump, air bubble detector, types of dialyzers, dialysis solution circuit and monitors. Individual versus central dialyzer proportioning system, conductivity meter, machine preparation for operation, safety checks for dialysis machine, safety monitors and safety alarms, machine disassembly, internal and external machine disinfection, water treatment (deionization and reverse osmosis), uses of medication for dialysis patients and patient education on the use of medication, coagulation mechanisms, anticoagulation, heparinization and heparin pump and heparin free dialysis. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Eligibility for English 101, grade of C or better in Health Professions 101 or consent of Department Chairperson and admission into the Renal Dialysis Technology Program/Plan 248.
1 LECTURE HOUR. 4 LAB HOURS PER WEEK. 3 CREDIT HOURS.

RENAL TECHNOLOGY/NEPHROLOGY 103
Basic Hemodialysis Principles and Practice I
Study of uremic syndrome and its manifestations, advantages and disadvantages of different replacement therapies. Dialysis adequacy and factors affecting dialysis adequacy. Dialysis prescription and patient care plans for hemodialysis treatment. Access and different types of access for hemodialysis. Access complications, access care, cannulation technique and patient education on hemodialysis access. Patient and machine related complications, identification and management. Patient data recording and analysis. Anticoagulation, heparin use and complications. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Eligibility for English 101, grade of C or better in Health Professions 101 or consent of Department Chairperson and admission into the Renal Dialysis Technology Program/Plan 248.
1 LECTURE HOUR. 4 LAB HOURS PER WEEK. 3 CREDIT HOURS.
Credit Courses

CREDIT COURSE DESCRIPTIONS

**RENAL TECHNOLOGY/NEPHROLOGY 104**
Hemodialysis Procedures I
Advantages and disadvantages of various types of machines, dialyzers and supplies. Dialysis related problems: disequilibrium, air embolism, excessive ultrafiltration, dialyzer rupture, dialyzer clotting, line separation, pyrogenic reaction, hemolysis, convulsions, hepatitis. Conductivity and temperature; effect of end stage renal disease on the patient, family, and dialysis personnel; disease control. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Admission into the Renal Dialysis Technology Program/Plan 248.

6 LAB HOURS PER WEEK. 3 CREDIT HOURS.

**RENAL TECHNOLOGY/NEPHROLOGY 105**
Heparinization/Bacteriology in Dialysis
Aseptic technique, medical ethics, legal aspects in the field of nephrology, infectious disease control, isolation techniques, patient care techniques, professional relationships of being a member of a healthcare team, legal aspects of medical records, patient care plan, physician orders, EKG for normal ESRD and arrhythmias. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Admission into the Renal Dialysis Technology Program/Plan 248.

6 LAB HOURS PER WEEK. 3 CREDIT HOURS.

**RENAL TECHNOLOGY/NEPHROLOGY 106**
Diagnostic Tests and Procedures in Nephrology
Diagnostic tests and their interpretation, an overview of bacteriology, virology, hematology, biochemistry and immunology as related to the renal patients. Infection control practices at dialysis units and hospitals will be covered. Hemodialysis access to blood stream, cannulation skills and techniques will be presented and practiced in the lab. Participation in community health screening for detection of early kidney disease. Pharmacological aspects of renal failure and access care will be explored. Patient education regarding nutrition and dietary restrictions for the dialysis patient and on dietary control. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Health Professions 101, Renal Technology/Nephrology 101, 102, 103 and 108. Admission into the Renal Dialysis Technology Program/Plan 248 or consent of Department Chairperson.

6 LAB HOURS PER WEEK. 3 CREDIT HOURS.

**RENAL TECHNOLOGY/NEPHROLOGY 107**
Hemodialysis Procedures II
Theory of negative pressure; laboratory instructions in building, sterilizing, priming, testing, washing, and preparing for use. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Admission into the Renal Technology Program/Plan 248.

1 LECTURE HOUR. 4 LAB HOURS PER WEEK. 3 CREDIT HOURS.

**RENAL TECHNOLOGY/NEPHROLOGY 108**
Clinical Experience I
Orientation to hemodialysis facility. Orientation to the water treatment equipment for in center dialysis unit and methods to treat water for hemodialysis use. Water testing for contaminants. Auxiliary medical equipment use. Infection control at dialysis units. Laboratory tests for hemodialysis patients and analysis. Blood draw techniques for lab testing in hemodialysis patients. Introduction to patient care, machine set up and breakdown. Patient assessment for start of dialysis, monitoring during dialysis and termination of dialysis. Types of hemodialysis access, assessment and care. Professionalism and communication in the dialysis units. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Eligibility for English 101, grade of C or better in Health Professions 101 or consent of Department Chairperson and admission into the Renal Dialysis Technology Program/Plan 248.

1 LECTURE HOUR. 4 LAB HOURS PER WEEK. 3 CREDIT HOURS.

**RENAL TECHNOLOGY/NEPHROLOGY 109**
Clinical Experience II
Continuation of clinical experience at assigned clinical sites to enhance the skills of hemodialysis with emphasis on speed and accuracy. Perform access checks and access assessments with accuracy. Enhance cannulation skills under supervision to independently perform cannulation in a safe manner, depending on the unit of policy. Identify access complications, stenosis, infections, clotting or recirculation. Introduces students to new patient education for hemodialysis, learn theory of CRRT (Continuous Renal Replacement Therapy), principles of extravascular modalities for solute removal, hemofiltration, and hemodialfiltration, learn to handle portable home hemodialysis machine if available at the unit. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Prerequisite(s): Eligibility for English 101, grade of C or better in Health Professions 101, Renal Technology/Nephrology 101, 102, 103 and 108, or consent of Department Chairperson and admission into the Renal Dialysis Technology Program/Plan 248.

1 LECTURE HOUR. 6 LAB HOURS PER WEEK. 4 CREDIT HOURS.

**RENAL TECHNOLOGY/NEPHROLOGY 201**
Renal Physiology and Renal Diseases
Anatomy of the kidney; microscopic description of renal parenchyma; physiology-general mechanism of urine formation; urinary renal function; principal symptoms of end stage renal disease. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Admission into the Renal Technology Program/Plan 248.

1 LECTURE HOUR. 4 LAB HOURS PER WEEK. 3 CREDIT HOURS.

**RENAL TECHNOLOGY/NEPHROLOGY 202**
Renal Disease and Pathophysiology
The pathophysiology of acute kidney injury, chronic kidney disease, end stage kidney disease, its causes, manifestations and treatment will be presented. Hemodialysis in elderly patients and patients with complications along with dialysis related complications and treatment plans will be discussed. The role of the dialysis technician in providing quality long-term hemodialysis, peritoneal dialysis, patient preparation and education for renal replacement therapy, and transplant medicine are presented. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Eligibility for English 101, grade of C or better in Health Professions 101, Renal Technology/Nephrology 101, 102, 103 and 108. Admission into the Renal Dialysis Technology Program/Plan 248.

1 LECTURE HOUR. 4 LAB HOURS PER WEEK. 3 CREDIT HOURS.

**RENAL TECHNOLOGY/NEPHROLOGY 203**
Clinical Experience III
This course provides continuation of clinical experience at an assigned clinical site. The student through scheduled rotation receives hands on training and experience to independently put the patient on dialysis and to take the patient off. The student will enhance their skills in managing ESRD patients with co-morbidities like anemia, multiple drug regiments, diabetes, heart and lung disease. The student will identify dialysis related complications and intervene as required. The student will learn the aspects involved in high flux dialysis. The student will get an opportunity to enhance the skills of machine technology and machine maintenance needed to work as hemodialysis technician. Perform safety checks on the machines; perform machine operation evaluation and maintenance of records. Learn the basic functioning of water treatment component systems, evaluation and maintain the water treatment system as required by the regulatory agencies. Learn to perform hemodialysis using reprocessed dialyzer. The student will participate in personal and professional development activities. BONENT exam review will also be a part of this course. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Eligibility for English 101, grade of C or better Health Professions 101, 102, 103, 106, 108, 109 and 202 or consent of Department Chairperson and admission into the Renal Dialysis Technology Program/Plan 248.

2 LECTURE HOURS. 4 LAB HOURS PER WEEK. 4 CREDIT HOURS.
**RENAL TECHNOLOGY/NEPHROLOGY 204**  
Clinical Experience IV  
Continuation of clinical experience in medical facility. Primary emphasis on developing new skills in care and treatment of acute and chronic renal patient; equipment maintenance procedures, emergency procedures, special procedures patient dietary and fluid regulation. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Admission into the Renal Technology Program/Plan 248.  
1 LECTURE HOUR. 4 LAB HOURS PER WEEK. 3 CREDIT HOURS.

**RENAL TECHNOLOGY/NEPHROLOGY 205**  
Uremic Syndrome  
Renal failure; chronic renal disease; classification—glomerular, tubular, interstitial, vascular, and others; general manifestations of chronic renal disease; anemia; water imbalance, electrolyte abnormalities, gastrointestinal manifestation, neurological manifestations of renal disease; treatment, chronic hemodialysis; renal transplantation and acute hemodialysis. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Admission into the Renal Technology Program/Plan 248.  
1 LECTURE HOUR. 4 LAB HOURS PER WEEK. 3 CREDIT HOURS.

**RENAL TECHNOLOGY/NEPHROLOGY 206**  
Advanced Technology in Nephrology  
Completion of didactic experiences in a classroom setting. New modalities in dialysis; CAPD and new delivery system for dialysis, self-care, home training, complications. Patient pre-and post-teaching for nephrectomy and transplants; peritoneal dialysis; manual and automated. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Admission into the Renal Technology Program/Plan 248.  
150 MINUTES PER WEEK. 3 CREDIT HOURS.

**RENAL TECHNOLOGY/NEPHROLOGY 207**  
Clinical Experience V  
Continuation of clinical experience in medical facility, under the supervision of the college coordinator, clinical instructor, staff personnel, and nephrologist. Development of the following skills: advanced cannula and fistula care, administration of blood, blood sample collection, medical community support; advanced principles of hemodialysis, dietary and fluid review. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Grade of C or better in Renal Technology 203, and Renal Technology 204, or consent of Department Chairperson.  
1 LECTURE HOUR. 6 LAB HOURS PER WEEK. 3 CREDIT HOURS.

**RENAL TECHNOLOGY/NEPHROLOGY 208**  
Clinical Experience VI  
Completion of clinical experiences in medical facility CAPD and new delivery systems for dialysis, self-care, home training, complications; chronic and acute patients. Patient pre-and post-teaching for nephrectomy and transplants; peritoneal dialysis, manual and automated; complications and emergency procedures, plasmapheresis, bicard, short-time, hemoperfusion. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Grade of C or better in Renal Technology 203, and Renal Technology 204, or consent of Department Chairperson.  
1 LECTURE HOUR. 6 LAB HOURS PER WEEK. 3 CREDIT HOURS.
RESPIRATORY THERAPY 119
Respiratory Care Lab I
Introduction to basic equipment: design, function, troubleshooting and care of respiratory care devices and circuitry used to deliver therapy, humidification and aerosol therapy, bronchial hygiene, hyperinflation modalities. Professionalism, communication techniques, monitoring will be practiced in conjunction with laboratory simulated hospital procedures and situations. Basic CPR certification and all proficiency testing of clinical procedures will be done. Clinical simulations, tutorials, and writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Respiratory Care 114, 116, 117, 118, and 119 or consent of Department Chairperson.
6 LAB HOURS. 3 CREDIT HOURS.

RESPIRATORY THERAPY 127
Clinical Practice I
Introduction to the hospital setting and the set-up, maintenance and discontinuation of oxygen; aerosol and humidity therapy; intermittent modalities to include bronchial hygiene and hyperinflation therapies. Clinical simulations, tutorials and writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Respiratory Care 114, 116, 117, 118, and 119 or consent of Department Chairperson.
12 LAB HOURS. 3 CREDIT HOURS.

RESPIRATORY THERAPY 129
Clinical Practice II
Supervised clinical course with an introduction to airway management techniques, basic ventilator care techniques, pediatric respiratory care and refinement of floor therapy skills with acute patients. Clinical simulations, tutorials and writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Respiratory Care 115, 127, 137, 139, and 141 or consent of Department Chairperson.
12 LAB HOURS. 3 CREDIT HOURS.

RESPIRATORY THERAPY 137
Advanced Pathology and Clinical Application
Acute and chronic respiratory and cardiac pathological processes and their associated renal complications and compensations: diagnostic testing including arterial blood gases, basic radiographic interpretation, pulmonary function studies, interpretation of laboratory studies, treatment and prevention of disease processes. Clinical simulations, tutorials, and writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Respiratory Care 114, 116, 117, 118, and 119 or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

RESPIRATORY THERAPY 139
Respiratory Care Lab II
Introduction to hospital specific policies and procedures, continuation of application and practice of respiratory care modalities, now applied to the critically ill patient. Emphasis on airway management, mechanical ventilators, circuitry, mechanical ventilation management and techniques: Comprehensive laboratory competency testing. Clinical cases presented as technical management corollaries. Clinical simulations, tutorials, and Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Respiratory Care 114, 116, 117, 118, and 119 or consent of Department Chairperson.
4 LAB HOURS. 2 CREDIT HOURS.

RESPIRATORY THERAPY 141
Ventilatory Mechanics I
Theory of basic mechanical ventilator function, methods of ventilation, modes, classification of ventilators, demonstration of basic equipment and circuitry. Airway management indications, selection of type, intubation, management assessment, hazards, extubation and troubleshooting the artificial airway will be covered. Clinical simulations, tutorials, and writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Respiratory Care 114, 116, 117, 118, and 119 or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

RESPIRATORY THERAPY 146
Ventilatory Mechanics II
Introduction to the theory of mechanical ventilation in the adult patient. Selection of ventilator parameters, commitment, maintenance, weaning. In depth presentation, discussion, demonstration of specific adult ventilator systems, CPAP, BIPAP circuits, practice and testing. Clinical simulations, tutorials, and Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Respiratory Care 115, 127, 137, 139, and 141 or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

RESPIRATORY THERAPY 200
Respiratory Care Lab III
In depth presentation, discussion, demonstration of specific pediatric/neonatal ventilator systems, CPAP circuits, practice and testing. Continuation of adult ventilator practice, practice and integration of other critical care procedures. Clinical simulations, tutorials, and Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Respiratory Care 129 and 146, or consent of Department Chairperson.
4 LAB HOURS. 2 CREDIT HOURS.

RESPIRATORY THERAPY 222
Clinical Practice III
Supervised clinical course providing advanced airway management skills, advanced ventilator techniques and diagnostic procedures in the hospital setting. Clinical simulations, tutorials, and writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Respiratory Care 129 and 146, or consent of Department Chairperson.
12 LAB HOURS. 3 CREDIT HOURS.

RESPIRATORY THERAPY 224
Clinical Practice IV
Supervised clinical course providing advanced airway management skills, advanced adult ventilatory techniques, neonatal respiratory procedures and advanced cardiopulmonary diagnostic procedures. Exposure to alternate sites of care. Clinical simulations, tutorials, and writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Respiratory Care 200, 222, 225 and 227, or consent of Department Chairperson.
24 LAB HOURS. 4 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS
Credit Courses

RESPIRATORY THERAPY 225
Age-Specific Care
Introduction to age appropriate considerations of patient education, application of therapeutic modalities and manifestations of cardiopulmonary diseases throughout the human life span. This course will also address managed care, management, patient care plans and alternate sites of care. Clinical simulations, tutorials, and writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Respiratory Care 129 and 146, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

RESPIRATORY THERAPY 227
Critical Care Services
Advanced cardiopulmonary monitoring is presented with emphasis on ECG interpretation and hemodynamic and exhaled gas monitoring and therapeutic interventions. Chest radiograph, CT and MRI interpretation will be introduced. Pharmacological agents that affect the cardiopulmonary, renal, and acid base regulating systems; paralyzing agents, analgesics, sedatives, administration safety, dose ranges, monitoring response to and basic fluid and electrolyte balance will be presented. Clinical simulations, tutorials, and Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Respiratory Care 200, 222, 225 and 227, or consent of Department Chairperson.
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

RESPIRATORY THERAPY 230
Advanced Cardiopulmonary Monitoring
Case studies with PFTs, blood gases, hemodynamic profiles, ECGs and related diagnostic testing will be presented along with related pathophysiological changes of cardiopulmonary diseases. Advanced adult, pediatric, neonatal cardiopulmonary life support will be covered. Clinical simulations, tutorials, and Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Respiratory Care 200, 222, 225 and 227, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

RESPIRATORY THERAPY 250
Cardiopulmonary Rehabilitation Home Care
Care of patients with chronic cardiopulmonary disease in a sub-acute setting and in their homes. Long term therapeutic prescriptions, equipment selection, cleaning and asepsis of equipment in the non-acute care setting. Pulmonary rehabilitation goals and programs presented along with adjunct exercises, equipment and assistive devices. Clinical simulations, tutorials, and Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Respiratory Care 200, 222, 225 and 227, or consent of Department Chairperson.
1 LECTURE HOUR. 1 CREDIT HOUR.

RESPIRATORY THERAPY 260
Advanced Specialty Topics
Respiratory care research topics presented, ethics and board examination preparation, computer-assisted clinical simulations along with branching logic, latent image practice and mock certification and registry examination preparation and practice. Resume, portfolio and job interview preparation will also be included. Clinical simulations, tutorials, and writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Respiratory Care 200, 222, 225 and 227, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SHORT-TERM BUSINESS MANAGEMENT

SHORT-TERM BUSINESS MANAGEMENT 101
Introduction to Microcomputers
Students will receive an uncomplicated approach to understanding hardware, an introduction to Windows Operating Systems, a discussion of networks, an overview of 2 applications packages, a word processor and a spreadsheet; and an introduction to the Internet. Students required to purchase text.
1 LECTURE HOUR. 1 CREDIT HOUR.

SHORT-TERM BUSINESS MANAGEMENT 102
Keyboarding Skills I: Alpha
This course lays the foundation, or refreshes the knowledge for students to become touch typists. The course is taught on a computer keyboard using a word processing program. Upon completion, students will be able to complete basic keyboarding skills. Speed Goal: 14 wpm. Accuracy Goal: Five (5) errors or less on a one minute timed typing test. Homework required.
1 LECTURE HOUR. 1 CREDIT HOUR.

SHORT-TERM BUSINESS MANAGEMENT 139
Introduction to the Internet
Take a ride on the Information Superhighway. Find out what people are talking about. Students will learn basic concepts and terminology about the Internet and its history and how to connect to the Internet and evaluate an Internet Service Provider. Students will get hands-on experience visiting a variety of Web sites and learning how to find information using portals, search engines and directories.
1 LECTURE HOUR. 1 CREDIT HOUR.

SHORT-TERM BUSINESS MANAGEMENT 167
A+ Certification Exam Prep
Students will prepare to take the A+ certification exam through drills and case study examples. Effective test taking strategies will be explored.
4 LECTURE HOURS. 4 CREDIT HOURS.

SHORT-TERM BUSINESS MANAGEMENT 190
Keyboarding
ARC: 1 time.
1 LECTURE HOUR. 1 CREDIT HOUR.

SHORT-TERM BUSINESS MANAGEMENT 204
Keyboarding I
1 LECTURE HOUR. 1 CREDIT HOUR.

SHORT-TERM BUSINESS MANAGEMENT 206
Excel I
1 LECTURE HOUR. 1 CREDIT HOUR.

SHORT-TERM BUSINESS MANAGEMENT 230
Desktop Publishing I
This course will provide students with the opportunity to learn to use basic features of desktop publishing software to create all types of publications: flyers, brochures, newsletters, and advertisements. Included in the course will be basic page layout and design principles and integrating text and graphics to create attractive business publications. This course will be taught with industry standard software. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 1 CREDIT HOUR.
CREDIT COURSE DESCRIPTIONS
Credit Courses

SHORT-TERM BUSINESS MANAGEMENT 231
Implementing Microsoft WIN2K Prof/Server
2.5 LECTURE HOURS. 2.5 CREDIT HOURS.

SHORT-TERM BUSINESS MANAGEMENT 232
Administrating Microsoft Windows NT
This course provides students with the knowledge and skills necessary to perform post-installation and day-to-day administration tasks in a single-domain or multiple-domain Microsoft Windows NT based network. It also provides students with the prerequisite knowledge and skill required for other Microsoft supporting courses. Writing assignments, as appropriate to the discipline, are part of the course.
2.5 LECTURE HOURS. 2.5 CREDIT HOURS.

SHORT-TERM BUSINESS MANAGEMENT 233
Implementing/Administering Microsoft WIN2K DIR SVCS
This course provides the core foundation for support Microsoft Windows NT operating system version 4.0. The goal of the course is to provide support professionals with the skills necessary to install, configure, customize, optimize, network, integrate, and troubleshoot Windows NT 4.0. Writing assignments, as appropriate to the discipline, are part of the course.
2.5 LECTURE HOURS. 2.5 CREDIT HOURS.

SHORT-TERM BUSINESS MANAGEMENT 234
Designing Microsoft WIN2K Networking Services
This course provides a training solution for support professionals working in a Microsoft Windows NT based enterprise environment. The goal of the course is to provide support professionals with the skills necessary to install, configure, customize, optimize, network, integrate, and troubleshoot Windows NT 4.0. Writing assignments, as appropriate to the discipline, are part of the course.
2.5 LECTURE HOURS. 2.5 CREDIT HOURS.

SHORT-TERM BUSINESS MANAGEMENT 235
Managing Microsoft WIN2K Networking Environment
This course is a self-paced training kit designed to prepare Microsoft Certified Professional candidates to successfully complete the Networking Essentials exam. It is also designed to provide students with the background necessary to understand the local area networking information in Microsoft courses on workstations and networking. Writing assignments, as appropriate to the discipline, are part of the course.
2.5 LECTURE HOURS. 2.5 CREDIT HOURS.

SHORT-TERM BUSINESS MANAGEMENT 236
Administering Microsoft SQL Server 2K Database
This course provides students with the knowledge and skills required to set up, configure, use and support Transmission Control Protocol/Internet Protocol (TCP/IP) on Microsoft Windows NT operating systems version 4.0. Writing assignments, as appropriate to the discipline, are part of the course.
2.5 LECTURE HOURS. 2.5 CREDIT HOURS.

SHORT-TERM BUSINESS MANAGEMENT 238
Illinois Real Estate Broker Pre-License
This course was designed to meet the 75-hour licensing curriculum requirements for real estate brokers as set forth by the State of Illinois. Topics included are Illinois license law, agency, state and federal law, relationships with employing brokers, working with sellers and buyers, real property, fair housing, ownership, contracts, real estate valuation, environmental issues, construction, real estate closings, advertising, property management, and commercial real estate. The course includes presentation of facts, concepts, and key terms with real-life scenarios to illustrate the topics being taught, as well as assessment of such. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): COMPASS Test Scores: Reading Score: 72 or higher. Mathematics Score: Algebra scores of 49 or higher
6 LECTURE HOURS. 6 CREDIT HOURS.

SHORT-TERM BUSINESS MANAGEMENT 239
Illinois Broker Applied Real Estate Principles-Interactive
This course includes student participation in five three-hour interactive lessons with an instructor to apply the knowledge learned in the Illinois Real Estate Broker Pre-License topics course. Fifteen (15) hours must be classroom or interactive media required by the Illinois Department of Financial and Professional Regulation to complete the 90-hours of Real Estate training to be allowed to test for the Real Estate Broker’s exam. Each interactive lesson begins with a review of principles, concepts, requirements for compliance and violations, summary of best practices, and/or applicable laws/licensee requirements. Students will also participate in a variety of interactive activities (i.e., quizzes, content review exercises, class and small group discussion) where they will apply their knowledge to a variety of real-world scenarios designed to provide valuable analysis and decision-making experience. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Successful completion of Short-Term Business Management 238-II. Real Estate Broker Pre-Licensure course.
1 LECTURE HOUR. 1 CREDIT HOUR.

SHORT-TERM BUSINESS MANAGEMENT 240
Introduction to PC Hardware
This course begins with the introduction to PC technology as identified by the objectives in CompTIA’s A+ certification. The class provides the framework for understanding how a computer works from the inside out. It is the perfect start into PC hardware and operating systems.
1 LECTURE HOUR. 1 CREDIT HOUR.

SHORT-TERM BUSINESS MANAGEMENT 241
PC Repair and Troubleshooting
Students will learn about PC hardware and system maintenance procedures. Topics include a detailed look at hardware components, power supply, upgrades, networking, maintenance and troubleshooting. In hands-on exercises, students will assign configuration settings, upgrade systems, configure SCSI devices, install printers and monitors, remove and replace components, and troubleshoot POST errors.
2.5 LECTURE HOURS. 2.5 CREDIT HOURS.

SHORT-TERM BUSINESS MANAGEMENT 242
PC Operating Systems
Students will learn about PC hardware and system maintenance procedures. Topics include networking, communication protocols, Internet access and troubleshooting. In hands-on exercises, students will install Windows operating systems, manage Windows devices, use the FDISK utility, perform backups, manage system files, configure networks, configure Internet access, and troubleshoot operating system errors.
2.5 LECTURE HOURS. 2.5 CREDIT HOURS.

<thead>
<tr>
<th>Credit Course</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>SHORT-TERM BUSINESS MANAGEMENT 243</strong></td>
<td><strong>Network + Certification</strong>&lt;br&gt;This course is designed to prepare students for the 2002 ComTITae Network + Exam N10-002. Earning the Network + Certification means that students have the knowledge needed to use and maintain a wide range of network technologies. Writing assignments, as appropriate to the discipline, are part of the course. 2.5 LECTURE HOURS. 1 LAB HOUR. 3 CREDIT HOURS.</td>
</tr>
<tr>
<td><strong>SHORT-TERM BUSINESS MANAGEMENT 244</strong></td>
<td><strong>Legal Research</strong>&lt;br&gt;Learn the fundamentals of legal research, including the tools necessary to find legal citations and court rulings. You will use tools and techniques for writing arguments and counterarguments to defend a legal position. You may be expected to visit a local law library. A textbook may be required. Writing assignments, as appropriate to the discipline, are part of the course. 1 LECTURE HOUR. 1 CREDIT HOUR.</td>
</tr>
<tr>
<td><strong>SHORT-TERM BUSINESS MANAGEMENT 245</strong></td>
<td><strong>Legal Writing</strong>&lt;br&gt;Writing is an essential skill for paralegals. In this course, you will learn the fundamentals of legal analysis and legal reasoning. You will also learn about case analysis, statutory analysis and legal reasoning. You will also learn about case analysis, statutory analysis, drafting letters and other correspondence, and writing legal memoranda. A textbook may be required. Writing assignments, as appropriate to the discipline, are part of the course. 1 LECTURE HOUR. 1 CREDIT HOUR.</td>
</tr>
<tr>
<td><strong>SHORT-TERM BUSINESS MANAGEMENT 246</strong></td>
<td><strong>Estates, Wills and Trust</strong>&lt;br&gt;Many legal assistants are now working in the probate area. You’ll learn the essential requirements of drafting wills and trusts, the tax laws that govern this area, the procedures involved in the administration of an estate, and the responsibilities delegated to paralegals in this specialty area. No textbook is required. Writing assignments, as appropriate to the discipline, are part of the course. 1 LECTURE HOUR. 1 CREDIT HOUR.</td>
</tr>
<tr>
<td><strong>SHORT-TERM BUSINESS MANAGEMENT 247</strong></td>
<td><strong>Criminal Law and Procedures</strong>&lt;br&gt;The need for legal assistants in the area of criminal justice is increasing rapidly. This course is designed to teach students the law and legal procedures, the laws governing arrest, search and seizure, and the role of the paralegal in criminal law. A textbook may be required. Writing assignments, as appropriate to the discipline, are part of the course. 1 LECTURE HOUR. 1 CREDIT HOUR.</td>
</tr>
<tr>
<td><strong>SHORT-TERM BUSINESS MANAGEMENT 248</strong></td>
<td><strong>Civil Procedure and Litigation</strong>&lt;br&gt;Learn about the litigation process in this course. You will learn how to prepare pleadings and motions, how and where to file pleadings, investigative and discovery techniques used in trial preparation, and the role of the paralegal in civil procedures and litigation. Writing assignments, as appropriate to the discipline, are part of the course. 1 LECTURE HOUR. 1 CREDIT HOUR.</td>
</tr>
<tr>
<td><strong>SHORT-TERM BUSINESS MANAGEMENT 249</strong></td>
<td><strong>Business Law</strong>&lt;br&gt;Students will learn about proprietorships, partnerships, and corporations, determine which entity is better for particular purposes, know what to include in the articles of incorporation, and prepare documents needed to form a business entity. A textbook may be required. Writing assignments, as appropriate to the discipline, are part of the course. 1 LECTURE HOUR. 1 CREDIT HOUR.</td>
</tr>
<tr>
<td><strong>SHORT-TERM BUSINESS MANAGEMENT 250</strong></td>
<td><strong>Contracts</strong>&lt;br&gt;Contracts are part of every attorney’s practice. Learn how to analyze contracts, the laws that apply to contracts, what it takes to form a contract, how contracts can be enforced, remedies for breach of contract, and how to draft contracts. Writing assignments, as appropriate to the discipline, are part of the course. 1 LECTURE HOUR. 1 CREDIT HOUR.</td>
</tr>
<tr>
<td><strong>SHORT-TERM BUSINESS MANAGEMENT 251</strong></td>
<td><strong>Real Estate and Property Transfers</strong>&lt;br&gt;Real estate specialists are in great demand, not only in law firms, but also in banks, title companies, and brokerage. This course covers all aspects of real estate law, including reading property descriptions, the real estate closing process, preparing deeds and contracts, setting landlord-tenant disputes, and preparing leases. Writing assignments, as appropriate to the discipline, are part of the course. 1 LECTURE HOUR. 1 CREDIT HOUR.</td>
</tr>
<tr>
<td><strong>SHORT-TERM BUSINESS MANAGEMENT 252</strong></td>
<td><strong>Family Law</strong>&lt;br&gt;Learn about the laws and procedures of the broad area of family law, which includes divorce, separation, and annulment; adoption and paternity; support and visitation; and juvenile proceedings. You will learn how to interview clients. Prepare pleadings, and research cases in this area. A textbook is required. Writing assignments, as appropriate to the discipline, are part of the course. 1 LECTURE HOUR. 1 CREDIT HOUR.</td>
</tr>
<tr>
<td><strong>SHORT-TERM BUSINESS MANAGEMENT 253</strong></td>
<td><strong>Paralegal Profession: Nature and Scope</strong>&lt;br&gt;Learn what a paralegal does on a day-to-day basis. You will learn about the role of professionalism and ethics, skills required, legal office terminology, and a basic overview of the law. You’ll also learn career planning and job search strategies, and interview preparation. A textbook is required. Writing assignments, as appropriate to the discipline, are part of the course. 1 LECTURE HOUR. 1 CREDIT HOUR.</td>
</tr>
<tr>
<td><strong>SHORT-TERM BUSINESS MANAGEMENT 254</strong></td>
<td><strong>Torts/Personal Injury</strong>&lt;br&gt;Learn about intentional torts, negligence, and tort liability. The area of torts includes everything from simple battery to products liability and medical malpractice. Special attention will be given to personal injury law, including assessing claims and damages, adjudication or personal injury cases, and making out-of-court settlements. Writing assignments, as appropriate to the discipline, are part of the course. 1 LECTURE HOUR. 1 CREDIT HOUR.</td>
</tr>
<tr>
<td><strong>SHORT-TERM BUSINESS MANAGEMENT 255</strong></td>
<td><strong>Paralegal Overview</strong>&lt;br&gt;Come to this one-day seminar to learn about career opportunities for paralegals, and about Truman College’s paralegal training program. The paralegal field can be exciting and rewarding. Paralegals work in a variety of settings including corporations, private law firms, consumer organizations, courts, and government agencies. According to the Bureau of labor Statistics, employment in the field is expected to grow faster than average through 2010, with many employers seeking paralegals who are multi-lingual. Writing assignments, as appropriate to the discipline, are part of the course. 0.5 LECTURE HOURS. 0.5 CREDIT HOURS.</td>

SHORT-TERM BUSINESS MANAGEMENT 256
Dreamweaver
Use Adobe Dreamweaver to quickly create web pages and web sites without hand-coding. You will learn to use Dreamweaver’s excellent tools for Cascading Style Sheets (CSS), templates, libraries, JavaScript behaviors, image manipulation, Flash insertion, and forms development. With emphasis on Dreamweaver’s tableless design and CSS tools, you will make your own six-to ten-page website. HTML/XHTML and CSS skills are required for this course. Students who have not taken HTML/XHTML at Truman College must contact the instructor for permission.
1 LECTURE HOUR. 1 CREDIT HOUR.

SHORT-TERM BUSINESS MANAGEMENT 257
HTML/XHTML
Learn HTML/XHTML, the fundamental language used in website creation. While many applications generate HTML/XHTML code (including Dreamweaver, knowing how to manipulate underlying code is vital for any web developer. After learning basic HTML/XHTML coding, you will be introduced to advanced topics including tables, cascading style sheets, Javascript and PHP. You will also learn file management in a cross platform environment. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 1 CREDIT HOUR.

SHORT-TERM BUSINESS MANAGEMENT 258
Flash
Learn Macromedia Flash, which is an outstanding software tool for creating multimedia animation with vector graphics. This animation format has transformed the web into a colorful, moving medium. Using Macromedia Flash, you will explore the fundamentals of flash and produce your own interactive compositions for the web. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 1 CREDIT HOUR.

SHORT-TERM BUSINESS MANAGEMENT 259
Photoshop
Adobe Photoshop is the industry standard photographic manipulations used by photographers, visual artist and graphic design professionals. It provides powerful tools for photo retouching, image resizing, collage, drawing, painting, text manipulations, page layout and optimization for the web. This class focuses on creating bitmap graphics to be used in print for web pages or imported into Macromedia Flash to create complete web animations. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 1 CREDIT HOUR.

SHORT-TERM BUSINESS MANAGEMENT 260
Illustrator
Adobe Illustrator is the powerful graphic program used by visual artists and graphic design professionals. It provides unique illustration tools for drawing, painting, text manipulations, page layout, title design and optimization for the web. This class focuses on creating compact, vector graphics to be used in web pages or exported to Flash to create complex web animation. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 1 CREDIT HOUR.

SHORT-TERM BUSINESS MANAGEMENT 256

SHORT-TERM HEALTH

SHORT-TERM HEALTH 102
Phlebotomy Technician
This program prepares professionals to collect blood specimens for laboratory analysis. Students will become familiar with all aspects of blood collection and will develop comprehensive skills to perform venipunctures completely and safely. Classroom and lab work included terminology, anatomy, and physiology, blood collection procedures, specimen hands-on practice, and training in skills and techniques to perform puncture methods. Note: As part of the learning objectives for this course, you will take on the role of patient and technician. There is not outside externship rotation included with this program.
Prerequisite(s): Students must be 18 years of age. A high school diploma or GED certificate is required for national certification.
12 LECTURE HOURS. 12 CREDIT HOURS

SHORT-TERM HEALTH 107
Communications for Healthcare
Individuals working in the healthcare profession come in contact with many different people. This class is designed to give you techniques in verbal and written communication, including phone skills.
1 LECTURE HOUR. 1 CREDIT HOUR.

SHORT-TERM HEALTH 108
Anatomy/Physiology
Understanding the function and components of the human body. Students working towards becoming a Certified Phlebotomy Technician may use this towards meeting the requirements for the certification exam.
7 sessions.
2 LECTURE HOURS. 2 CREDIT HOURS.

SHORT-TERM HEALTH 110
Introduction Phlebotomy/EKG
If you are interested in a career in phlebotomy, this introductory course is a great place to start. Learn the procedures for venipuncture, skin puncture, other blood drawing techniques, EKGs and vital signs. The course includes seven sessions of theory and lab including practice on manikins and fellow students. Upon successful completion, students will receive a certificate for 28 hours of phlebotomy and EKG training. Required book available Wright bookstore.
7 sessions. ARC-99 times.
2 LECTURE HOURS. 2 CREDIT HOURS.

SHORT-TERM HEALTH 115
Dental Assisting I
You will learn office procedures, inventory, dental charting and the basics of chairside assisting. You will learn to work on behalf of the patient as well as the dentist in helping to assure a high level of professional excellence in oral healthcare delivery.
1 LECTURE HOUR. 1 CREDIT HOUR.

SHORT-TERM HEALTH 116
Dental Assisting II
This class will introduce students to dentition, cavity classification, instruments, oral surgery procedures and techniques as well as basic tray setups, aseptic practices and restoration methods.
1 LECTURE HOUR. 1 CREDIT HOUR.
SHORT-TERM HEALTH 117
Dental Assisting III
Clinical Practice.
Prerequisite(s): Dental Assistant, Part Two, Communications for Healthcare, CPR, Law and Ethics for Medical Career.
1 LECTURE HOUR. 1 CREDIT HOUR.

SHORT-TERM HEALTH 139
Fundamentals of Phlebotomy
This course will prepare students in the basic concepts of phlebotomy as well as safety in the workplace. Successful completion of this course is a requirement to continue in the phlebotomy certificate program. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

SHORT-TERM HEALTH 140
Phlebotomy Practice and Procedure
This course will instruct the Phlebotomy student on how to draw blood from manikins as well as fellow students in preparation for clinical practice. Successful completion of this course is a requirement to continue in the phlebotomy certificate program. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

SHORT-TERM HEALTH 141
Phlebotomy Clinical Practice
This course will prepare students in the basic concepts of phlebotomy as well as safety in the workplace. Successful completion of this course is a requirement to continue in the phlebotomy certificate program. Writing assignments, as appropriate to the discipline, are part of the course.
9 LECTURE HOURS. 9 CREDIT HOURS.

SHORT-TERM HEALTH 150
Homemaker/Home Health Aide
This course provides students with the necessary skills mandated by the national Homemaker Council including all elements of person care, vital signs, body mechanics, safety measures, resident’s rights, infection control, communication, and observation. Exploration of geriatric and Alzheimer’s patients is also included. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 4.5 CREDIT HOURS.

SHORT-TERM HEALTH 151
Personal Trainer Preparation
This personal trainer preparation is designed to provide theoretical knowledge and practical skills in preparation for a national certification exam in personal training. Topics include guidelines for instructing safe, effective, and purposeful exercise, essentials of the client-trainer relationship, conducting health and fitness assessments, and designing and implementing appropriate exercise programming. Writing assignments, as appropriate to the discipline, are part of the course.
1.5 LECTURE HOURS. 1.5 CREDIT HOURS.

SHORT-TERM HEALTH 152
Emergency (911) Dispatch
This course will provide basic fundamental tools to help students seek and maintain a salaried Emergency Services Telecommunication position with any public safety (police, fire, EMS or standalone dispatch center) agency in the country. Students will be exposed to samples of state of the art computer equipment commonly used in many dispatch centers nationwide, learn call-taking and dispatch skills and hear real 911 calls and police and fire radio traffic. Students will learn terminology and radio etiquette and be introduced to the basics about state and national law enforcement computer database. Writing assignments, as appropriate to the discipline, are part of the course.
2.5 LECTURE HOURS. 2.5 CREDIT HOURS.

SHORT-TERM HEALTH 153
Medical Terminology
Basic medical vocabulary for allied health professionals and others with a minimal background in anatomy and physiology; includes study of the human body systems. Students will learn terminology for common pathologies (diseases) and diagnostic tests, with a focus on proper pronunciation, usage and spelling. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

SHORT-TERM HEALTH 154
Human Anatomy and Physiology
A basic understanding of the anatomy and physiology of the various body systems is the sound foundation upon which all healthcare careers are built, including those providing direct patient care and those in support services such as medical billing. This course examines basic anatomy (structure) and physiology (function). Abnormal function (pathology) will be discussed briefly as well as the most common diagnostic tests used to identify it. Writing assignments, as appropriate to the discipline, are part of the course.
4 LECTURE HOURS. 4 CREDIT HOURS.

SHORT-TERM HEALTH 155
Commercial Government and Billing/Insurance
Preparation for administrative positions in the healthcare field. The course is designed to introduce students to the different types of health insurance available. The course reviews government and commercial insurance types. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 1 CREDIT HOUR.

SHORT-TERM HEALTH 158
EKG Technician
Students will learn the skills needed to become an EKG/cardiovascular technician in this comprehensive course. Students will learn the anatomy and physiology of the heart, medical disease processes, medical terminology, medical ethics, and legal aspects of patient contacts. Students will also be introduced to the associated areas of laboratory assisting, and electrocardiography. The hands-on practice students receive will help in preparing for the national exam administered through (NCCT) National Center for Competency Training. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

SHORT-TERM HEALTH 164
EMT Basic Clinical I
This State-approved program will prepare the student to work on an ambulance or in a hospital emergency room. It is the mandatory requirement for entry into a Paramedic Program. EMT’s must be able to lift, carry and balance patients. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.
SHORT-TERM HEALTH 165
EMT Basic Clinical II
This state-approved program will prepare the student to work on an ambulance or in a hospital emergency room. It is the mandatory requirement for entry into a Paramedic Program. EMT’s must be able to lift, carry and balance patients. Writing assignments, as appropriate to the discipline, are part of the course.
6 LECTURE HOURS. 6 CREDIT HOURS.

SHORT-TERM HEALTH 170
Introduction to Computers in Healthcare
This course will focus on effective modeling and analysis of complicated healthcare related processes through the use of computer usage and simulation techniques. Students will learn the day-to-day usage of the computer in the healthcare setting and will also develop skills to evaluate alternative courses of actions for purposes of improving the efficiency of the healthcare system. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 1 CREDIT HOUR.

SHORT-TERM HEALTH 171
Pharmacy I
This course will take students through the history of pharmacy as well as the current roles and responsibilities of the pharmacist technician today. The student will explore different career opportunities and paths throughout the field of pharmacy. The introductory course will develop the basic terminology of pharmacy as well as the basic calculations used. The student will be introduced to the laws and ethics that the foundation of pharmacy is built on and the patients have come to expect of the profession. The course will include lecture and role playing activities. As part of the pharmacy law, students will be expected to obtain an IL State Technician License. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

SHORT-TERM HEALTH 172
Pharmacy II
This course will include building on the skills developed in Pharmacy I by continuing with pharmacy terminology and calculations; will also have a “hands-on” compounding section as well as an introduction to inventory management and third party billing. The student will continue learning via lecture and hands on compounding activities. Writing assignments, as appropriate to the discipline, are part of the course.
Pre requisite(s): Grade of C or better in Short-Term Health 171 and concurrent enrollment in Short-Term Health 173.
2 LECTURE HOURS. 2 CREDIT HOURS.

SHORT-TERM HEALTH 173
Pharmacy III
This course is a clinical experience in a working pharmacy. The student is assigned a preceptor and given worksheets and activities to complete while in the “live” pharmacy environment. The preceptor will be licensed pharmacist at the location they are assigned. The student will complete activities around workflow, inventory, patient “pick-up”, cash management, third party billing, prescription production, and computer order processing along with patient record keeping. The experience will have a concentration on customer service skills and confidentiality of patient records. Writing assignments, as appropriate to the discipline, are part of the course.
Pre requisite(s): Grade of C or better in Short-Term Health 171 and concurrent enrollment in Short-Term Health 172 and consent of Department Chairperson.
0.5 LECTURE HOURS. 12 LAB HOURS. 4.5 CREDIT HOURS.

SHORT-TERM HEALTH 624
Fundamentals of Nursing Assistant Personnel
This course is part of the curriculum designed to prepare individuals to work in the healthcare industry as Basic Nursing Assistant (BNA). Concurrent enrollment in other BNA program classes may be required. The student is introduced to the discipline of nursing and the basic approaches of patient care. The concepts of caring for the whole person, nursing practice, multi-cultural society, and communication are addressed as students assist the licensed nurse and other members of the healthcare team to meet the basic needs of older persons is studied and practiced in the classroom laboratory. Writing assignments, as appropriate to the discipline, are part of the course.
Pre requisite(s): Concurrent enrollment in Short-Term Health 625.
6 LECTURE HOURS. 6 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 104
Developing Your Family Child Care Business
Developing Your Family Child Care Business is a facilitated interactive business development program to help individuals launch or grow successful family child care businesses. This twelve-session program includes: Identify market advantages/disadvantages related to the business location; develop promotional strategies; begin the process of pricing services and understanding finances and setting policies for the child care center. Writing assignments, as appropriate to the discipline, are part of the course.
1.5 LECTURE HOURS. 1.5 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 106
Road Driving
Designed for individuals with little or no commercial driving experience, this course provides the theoretical foundation to become a commercial driver. Students will learn the regulations that governs each classification and why commercial vehicles are identified by classifications. Through this course, students will be eligible to obtain their commercial driver’s license. Upon successful completion, students will receive a certificate of completion and a class A Commercial driver’s license. Writing assignments, as appropriate to the discipline, are part of the course.
4 LAB HOURS. 2 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 113
Limousine/Residential Chauffeur Training
This course is a ONE DAY CLASS that must be successfully completed before applying to the City of Chicago to take the restricted chauffeur’s license examination. This examination is required before anyone can drive a livery or medical carrier in Chicago. This workshop covers the rules and regulations governing chauffeurs and the geography and important locations in the city. Writing assignments, as appropriate to the discipline, are part of the course. ARC: 3 times.
1 LECTURE HOUR. 1 CREDIT HOUR.
SHORT-TERM TRADE/INDUSTRIAL/TRANS 114
Defensive Driving/Attitudinal
This course is designed for licensed chauffeurs who have a record of rule and regulations violations and newly licensed chauffeurs who have not been driving in the U.S. for at least three years. This one day course has been deemed mandatory by the Chicago Department of Business Affairs and Customer Protection. The topics would include a review of violated rules and regulations, cultural sensitivity training, anger management, and conflict resolution training, and behavior modification approach to effective customer service. The student would end with a sense of how his earnings can be seriously affected by not being knowledgeable, courteous and safe driver. This course also reviews the Illinois Rules of the Road handbook and prepares the inexperienced chauffeur driver for the road. Writing assignments, as appropriate to the discipline, are part of the course. **ARC: 3 times.**

1 LECTURE HOUR. 1 CREDIT HOUR.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 144-4
Defensive Driving/Attitudinal
This course underscores the importance of alertness, anticipation, courtesy, hazard recognition and other critical factors that prevent crashes. The teaching techniques used in this course involve ten-minute video sessions that help examine specific high-risk choices (such as keeping a short following distance) and take an inside look at what really happens to drivers and passengers in a vehicle crash. **ARC: 3 times.**

1 CREDIT HOUR.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 115
Commercial Vehicle Training: Class B
The purpose of this course is to provide students with the necessary training required to become a safe commercial motor vehicle operator. Students receive training in Class B commercial vehicles. Upon completion of this course students will receive a certificate of completion and Class B Commercial driver’s license.

1.5 LECTURE HOURS. 3 LAB HOURS. 3 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 116
Class B: Passenger Endorsement
The purpose of this course is to provide students with the necessary training required to safely transport passengers in commercial in motor vehicles. Students receive training in pre-trip and post-trip inspection, loading and unloading, use of brake-door interlocks, passenger transportation and prohibited practices. Upon completion of this course students will receive a certificate of completion and a Passenger Endorsement on their Commercial driver’s license.

0.5 LECTURE HOURS. 1 LAB HOUR. 1 CREDIT HOUR.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 117
Class B: School Bus Endorsement
The purpose of this course is to provide students with the necessary training required to become safe school bus drivers. Training will include pre-trip and post-trip inspection, loading and unloading, transporting students with special needs, proper securement of child safety seats, evacuation, railroad crossings and school bus operations. Upon completion of this course, students will receive a certificate of completion and a School Bus and Passenger Endorsement on their Commercial driver’s license.

1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 118
Forklift Operator
The Forklift Operator course prepares students for the workplace. Upon completion of this course, students will have a working knowledge of the basic need and use of the lift truck. Students will also be able to safely inspect and operate the lift truck. This course includes theory and practical training.

1.5 LECTURE HOURS. 1 LAB HOUR. 2 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 119
Unarmed Security Guard
Intensive instruction in the technical aspects of private security employment. Emphasis is on legal rules, security techniques and processes, life safety, and public relations. Successful completion satisfies the 40-hour basic training requirement for unarmed private security certification under Illinois revised statutes. This course is in compliance with the Illinois Public Act 93-0438 effective August 5, 2003 and the Private Detective, Private Alarm, Private Security and Locksmith Act of 2004. Writing assignments, as appropriate to the discipline, are part of the course.

2 LECTURE HOURS. 2 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 120
Workplace Safety/Industrial Safety and Health
This course covers basic instruction including OSHA requirements and other concerns (MSDS, confined space, lock out/tag out, zero energy state, hazardous materials, storage of flammable materials, storage of fuel gas and high pressure gas cylinders, portable powered tool safety, record keeping, training, employer enforcement of safety regulations, right to know, etc.) Writing assignments, as appropriate to the discipline, are part of the course.

1 LECTURE HOUR. 1 CREDIT HOUR.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 121
Print Reading and Measurement
This course provides an introduction to reading and interpreting machine shop symbols, shop prints and working drawings used in metal working industry. Focuses on dimension, shape, fabrication and assembly. Applies basic mathematics to the solution of print and performance problems. Students will learn how to use basic measuring instruments and gages like caliper, micrometer, height gage, and pin gages. Writing assignments, as appropriate to the discipline, are part of the course.

1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 122
Basic Machining Processes
This course is an introduction to machine tools and processes associated with the machine trade. Topics include industrial safety and environmental protection, basic hand tools, benchwork, layout, power saw operations, drilling, milling, and lathe operations. Upon completion, students should be able to safely perform the basic operations of drilling, sawing, milling and turning. Writing assignments, as appropriate to the discipline, are part of the course.

2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 123
Basic CNC Machining
This course is designed to enable students to become familiar with CNC machinery as it applies to the operator. The information presented will include introduction to CNC set-up, tooling, operations and trouble shooting. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisites: Grade of C or better in Short-Term Trade/Industrial/Trans 122.

2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 124
Product Design Using Mastercam
This course covers MASTERCAM software to create part geometry and assign toolpath to the geometry. By translating using a post-processor, CNC programs can be automatically generated and communicated to the machine tools in Daley’s Manufacturing Lab. Both 2-D and 3D toolpaths are used to make parts using machines with various controllers. Writing assignments, as appropriate to the discipline, are part of the course.

1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.
SHORT-TERM TRADE/INDUSTRIAL/TRANS 125
NIMS Credentialing
This course provides an overall view of National Metalworking Standard Institutes (NIMS) credentialing process and how to find resources to prepare for credentialing examination. Students will achieve NIMS credential after passing online examination administered by NIMS. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Short-Term Trade/Industrial/Trans 122.
0.5 LECTURE HOURS. 0.5 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 126
Machining Processes I
This course is an introduction to machine tools and processes associated with the machine trade. Topics include industrial safety and environmental protection, basic hand tools, shop floor Mathematics, job planning, benchwork, layout, power saw operations, drilling machines, milling machines, and print readings. Upon completion, students should be able to perform the basic operations of measuring, layout, drilling, sawing, and milling. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 127
Machining Processes II
This course further develops students' knowledge, skills and abilities in machining building on the fundamental principles covered in Machining Process I. Students manufacture projects that require precision layout, set-up, machining, and inspection. These projects require students to perform various operations on engine lathes, and surface grinders. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Short-Term Trade/Industrial/Trans 126.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 128
Computer Numerical Control Fundamentals
The course is designed to enable students to become familiar with CNC machinery as it applies to the operator. The information presented will include introduction to CNC set-up, tooling, operation, and trouble shooting. Writing assignments, as appropriate, are the part of the course.
Prerequisite(s): Grade of C or better in Short-Term Trade/Industrial/Trans 126 and 127 or with the consent of the instructor.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 129
CNC Milling Operations and Programming
This course introduces the programming, setup, and operation of CNC machining centers. Topics include programming formats, control functions, program editing, part production, and inspection. Various projects will strengthen the proper use, programming, troubleshooting of this equipment in the manufacturing setting. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Short-Term Trade/Industrial/Trans 128.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 130
CNC Turning Operations and Programming
This course introduces the programming, setup, and operation of CNC turning centers. Topics include programming formats, control functions, program editing, part production, and inspection. Various projects will strengthen the proper use, programming and troubleshooting of this equipment in the manufacturing setting. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Short-Term Trade/Industrial/Trans 129.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 131
Machine Shop Mathematics I
This course is designed to provide student with the basic principles of Mathematics with applications that relate to typical machine shop problems. Topics to be studied include the review of fractions, decimals, measurements, ratios, proportions, and percent. An introduction to algebra, measuring systems, precision and accuracy as they relate to machining will also be included in the course. Electronic calculators are required for this course. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 132
Introduction to Welding Principles
This course is designed to introduce students the principles of basic welding techniques, welding shop measurement, layout work, Mig and Tig welding operations and various equipment used in welding shops. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 133
Intermediate Welding
Course is designed to continue development of knowledge and skills in Arc, Mig and Tig welding processes. Students will complete various common joints in mild steel in the horizontal and vertical positions using single and multi-pass welds as assigned. Welding safety will be emphasized. Students will gain practice in metrology, weld inspection and an introduction to weld testing. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Short-Term Trade/Industrial/Trans 132 with a grade of C or better or consent of Department Chairperson.
3 LECTURE HOURS. 4 LAB HOURS. 3 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 134
Blueprint Reading for Welders
This course prepares student to interpret blueprints and apply the information contained therein in the welding and fabrication trades. Emphasis is placed on the relationship between the two-dimensional drawing and the actual three-dimensional object. Basic and complex welding symbols will be covered. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 135
Advanced Welding
Course is designed to advance development of knowledge and skills in Arc, Mig and Tig welding processes. Arc and Mig students will complete various common joints in the vertical and overhead positions with mild steel using single and multi-pass welds as assigned. Tig welders will weld mild steel, aluminum and stainless steel in the horizontal and vertical positions. Welding safety will be emphasized. Students will continue practice in metrology, weld inspection and interpretation welding drawings and symbols. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Short-Term Trade/Industrial/Trans 133 with a grade of C or better or consent of Department Chairperson.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 136
Basic Horticulture
This course will introduce students to basic concepts of Horticulture with emphasis on basic anatomy, terminology, and functions of plants and professions surrounding culture and use of ornamental plants. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS
Credit Courses

SHORT-TERM TRADE/INDUSTRIAL/TRANS 137
Managing Urban Green Space
This subject will provide an understanding of how to manage urban green spaces. The study policy, planning and process issues, community consultation, structures, systems and contractual relationships, landscape documentation, project planning and implementation, life-cycle analysis of landscape elements, urban vegetation planning, implementation and maintenance, sustainability concepts and examples. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Short-Term Trade/Industrial/Trans 136.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 138
Horticultural Plant Science
This course covers the structure and function of plants and plant tissues, cell physiology, energy transformations, metabolism, photosynthesis, plant nutrition, water and nutrient uptake and transport and whole plant physiology. By the conclusion of this course students should be able to demonstrate their proficiency and the integration of these processes in the physiology of plant growth. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Short-Term Trade/Industrial/Trans 136.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 139
Urban Horticultural Floral
This course will provide students with a working knowledge of plant science, anatomy, morphology, physiology, taxonomy, reproduction and genetics as they relate to horticultural ornamental plants. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Short-Term Trade/Industrial/Trans 136.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 140
Greenhouse Crop Production
This course will cover information on the production of greenhouse crops and the cultural practices required for growth. Subjects including seeding, watering, fertilization, containers, growing media, temperature control, insect and disease control will be covered. Greenhouse plants and pot crops will be grown throughout the semester. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Short-Term Trade/Industrial/Trans 136.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 141
Soil Fertility and Assessment
This course introduces students to the ways that farmers and gardeners develop and maintain soil fertility in sustainable farming systems. Subjects include introduction to the tools, techniques and rational behind soil cultivation, soil analysis, soil physical properties, components, nutrient deficiency, soil chemistry, and soil fertility. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Short-Term Trade/Industrial/Trans 136.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 142
Management of Plant and Animal Invasion
This course will provide insight and learning of the invasions that are natural ecological phenomena. Dispersing individuals encounter suitable habitat, establish, spread and evolve. In this way, species have radiated outwards from their origins, colonized distant offshore islands, and species have spread in response to changes in climate. Human-induced invasions of plants, animals and diseases in modern times have dramatically altered the scales of time and distance over which invasions take place. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Short-Term Trade/Industrial/Trans 136.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 143
Sustainable Farming Practices
This course is designated for those interested in or presently working in the area of grounds care and maintenance. Areas of study including pruning, fertilizing, pesticide use, digging and replacement of landscape plants, general turf care and maintenance of equipment. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Short-Term Trade/Industrial/Trans 136, 140 and 141.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 144
Practicum/Internship
This Practicum/Internship is designed for those who have successfully completed the course work for all courses associated with the Sustainable Urban Horticulture program. This Practicum/Internship will allow students to experience the full vision and mission of the program. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Short-Term Trade/Industrial/Trans 136, 137, 138, 139, 140, 141, 142, 143 and consent of Department Chairperson.
10 LAB HOURS. 5 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 145
Class C Driver Training
This course provides in-depth coverage of the laws, rules, and regulations that are applicable to the operation of both commercial and non-commercial motor vehicles. Students gain knowledge and skills in the area of vehicle inspection, pre-testing, skill operations and defensive driving techniques.
Prerequisite(s): Must be at least 21 years of age, have a valid driver's license, able to physically operate the vehicle and maintain a negative drug/alcohol testing results.
3 LECTURE HOURS. 3 CREDIT HOURS.

SHORT-TERM TRADE/INDUSTRIAL/TRANS 147
Passenger Driver Practice
This course is designed for individuals with little or no commercial driving experience; it provides the theoretical foundation to become a safe operator of a Class B Commercial Motor Vehicle. Through this course, students will obtain their commercial driver license learner's permit. Students receive training in class B commercial vehicles, they will learn the regulations that governs each classification and why vehicles are identified by specific designations. Upon successful completion of the course, students will receive a Certificate of Completion and a Class B Commercial driver’s license. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Prospective student must be 21 years of age or older, possess a valid Illinois driver’s license, a good driving record (demonstrated through a court ordered motor vehicle report) and meet all Department of Transportation medical requirements.
8 LAB HOURS. 4 CREDIT HOURS.
SHORT-TERM TRADE/INDUSTRIAL/TRANS 148  
Commercial Driving Training Practice  
This course is designed as the continuation of the theory course. This course provides students with behind-the-wheel experience leading them to present their driver’s exam and obtaining the Illinois Commercial driver’s license. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Student must be 21 years of age or older, possess a valid driver’s license, a good driving record (demonstrated thru a court ordered motor vehicle report) and pass a physical exam. Students must have passed CE 013 0337 and obtain a CDL learner’s permit.  
14 LAB HOURS. 7 CREDIT HOURS.  

SHORT-TERM TRADE/INDUSTRIAL/TRANS 149  
Commercial Driver Refresher Training  
This course is designed for individuals with commercial driving experience. This course provides drivers with a review of the current rules, regulations and requirements to which all commercial drivers must adhere. Writing assignments, as appropriate to the discipline, are part of the course.  
2 LECTURE HOURS. 2 CREDIT HOURS.  

SHORT-TERM TRADE/INDUSTRIAL/TRANS 337  
Commercial Driver Training Theory  
Designed for individuals with little or no commercial driving experience, this course provides the theoretical foundation to become a commercial driver. Through this course, students will obtain their commercial driver’s learners permit. Writing assignments, as appropriate to the discipline, are part of the course.  
6.5 LECTURE HOURS. 1 LAB HOUR. 7 CREDIT HOURS.  

SHORT-TERM TRADE/INDUSTRIAL/TRANS 338  
Passenger Driver Theory  
This course is designed for individuals with little or no commercial driving experience and provides the theoretical foundation to become a commercial driver. Through this course, students will obtain their commercial driver’s license learner’s permit. Writing assignments, as appropriate to the discipline, are part of the course.  
5 LECTURE HOURS. 5 CREDIT HOURS.  

SOCIAL SCIENCE 103  
Introduction to Applied Social Science  
General introduction to influence of modern scientific technology on the life of the worker, the study of social problems that will affect lives of working people in the years to come, and contribution of social science to development of social participation skills necessary for vocational and marital success. Applicable for AAS degree only. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.  

SOCIAL SCIENCE 104  
Special Topics in the Social Sciences  
The course focuses upon selected topics in social sciences. The course is offered to students interested in the characteristics of group life, the effect of the local action on the global scene, and the interrelationships between society culture, and the individual. Writing assignments, as appropriate to the discipline, are part of the course.  
Allowed Repeatable Course: Course may be repeated up to three times and may count for a maximum of six credit hours. Consent of Department Chairperson required for repeatability.  
ARC: 1 time.  
Prerequisite(s): Consent of Department Chairperson/Coordinator.  
3 LECTURE HOURS. 3 CREDIT HOURS.  

SOCIAL SCIENCE 105  
American Social Issues  
Critical study of selected current social problems such as labor relations, the welfare system, civil rights, and automation. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.  

SOCIAL SCIENCE 106  
North and South American Social Development  
Structure and culture of modern urban and industrial development; topics include industrialization and leisure, their consequences for status and class organization in the work place and social organization in the wider community, social inequality, social stratification and mobility, and changing values and social structures. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.  

SOCIAL SCIENCE 107  
Introduction to Global Studies  
To prepare students for an increasingly interdependent world, this multi-disciplinary core course cultivates an active conversation about the interconnected global context of our lives. The class examines shared and divergent histories, politics, aesthetics, communication practices, cultures, and economies, as well as human impact on the environment by paying close attention to contradictions among ethnic and religious identities, strong national affiliations, and the fluidity of nation-state borders. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.  

SOCIAL SCIENCE 108  
Introduction to Sociology  
Examination of the social structures that make up our present world, and of the forces that have shaped both the history and the nature of those social structures. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.  

SOCIAL SCIENCE 109  
Introduction to Anthropology  
Current trends and practices in the discipline of anthropology as well as the social and economic changes that are currently occuring in society; the student is introduced to the basic theoretical concepts of the discipline and is encouraged to focus on a particular area of concentration. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.  

SOCIAL SCIENCE 110  
Introduction to Political Science  
Students will learn about the history, structure, and operation of governments. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.  

SOCIAL SCIENCE 111  
Introduction to Economics  
An examination of the economic systems, structures, and institutions that make up a society and their effects on human life. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.  
3 LECTURE HOURS. 3 CREDIT HOURS.
SOCIAL SCIENCE 115
Introduction to Health Education and Prevention
This course is the first requirement of the HIV/STI Prevention Education Basic Certificate Program. It is designed to provide an introduction to the fundamentals of community health education for prevention, early detection, self-care and recovery, particularly with regard to substance abuse. The course surveys health education and outreach programs for diverse populations and communities. It looks at the methods of evaluation to determine the effectiveness of various programs. It examines prevention strategies that attempt to motivate positive behavioral changes and the assessment, planning, and evaluation of interventions. It covers the teacher and application of important life skills. The course also provides an overview of management healthcare systems. This course is designed for those working or interested in community health occupations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SCIENCE 116
HIV/STI Prevention Education
This course is one of the requirements of the HIV/STI Prevention Education Basic Certificate Program. It is designed to provide an introduction to the fundamentals of HIV/STI peer education and prevention education. It surveys prevention education and related outreach programs geared to diverse populations and communities. It examines methods of assessment to determine the health needs of different communities as well as methods of evaluation as applied to health programs to determine their effectiveness. The course also covers the areas of HIV/AIDS, other STIs, safer sex, and harm reduction. It explores specific communities and neighborhoods to discover factors that have a positive or negative impact on both individual and community health, particularly those that foster sexual risk-taking behavior. This course is designed for those working or interested in community health fields. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Social Science 115.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SCIENCE 117
HIV/STI and Special Populations
This course is one of the requirements of the HIV/STI Prevention Education Certificate Program. It is designed as an introduction to the concerns and issues of HIV/STI and their effect on special populations. The course examines related needs and problems of those specific populations, which includes women and children, adolescents and young adults, minorities who have sex with men (MSM), the disabled, and those who are incarcerated. It explores the health needs of the different communities, particularly with regard to prevention, testing, treatment, substance abuse, and care efforts. This course is designed for those working or interested in community health occupations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Social Science 115.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SCIENCE 201
Group Facilitation
This course is one of the requirements of the HIV/STI Prevention Education Certificate Program. It is designed to provide an introduction to both theoretical concepts and practical applications of group dynamics and facilitation skills for people working in the fields of addiction counseling and HIV/STI prevention education. The course explores the basic areas of goal setting, problem-solving skills, effective group facilitation concepts, dealing with different personalities, handling conflict, and reaching consensus. This course includes observation and participation in group dynamics, group membership, and group facilitation. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SCIENCE 221
Black Economics
African-Americans as producers rather than consumers, evaluation, understanding of black power and militancy. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE
SOCIAL SERVICE 101
Introduction to Social Work
Concepts, principles, and processes encountered by social service workers; questions of motivation, acceptance, attitude, techniques of listening and interviewing. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 100, or grade of C or better in English 98, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 102
Introduction to Gerontology
An overview of elder issues including the social, psychological and physical aspects of the aging process. The course will also examine the economic and social impact of the growing elderly population on US society and the global community and will explore career opportunities in this expanding field. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 103
Aging and Social Policy
A study of government policy to familiarize students with programs at the federal, state and local levels that address elder issues from housing to healthcare to employment to nutrition and recreation. Students will learn how public policy is created, the role of elder advocacy groups in shaping legislative agendas and issues affecting current and future government programs such as Medicare and Medicaid. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Social Service 102, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 104
Special Topics in Aging
A study of current issues in aging are examined. Topics such as the economics of aging, sexually transmitted diseases, ageism, quality of life, and support services for those aging in place (at home) will be explored from a holistic approach to problem identification and basic intervention strategies. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
SOCIAL SERVICE 105
Physiology of Aging
An exploration of the basic changes that occur in the physical make-up of men and women as a result of the aging process. Discussion will include the causes and effects of disease and debility, as well as health assessment measures, healthcare options and health maintenance strategies. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Grade of C or better in Social Service 102, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 106
Aging and the Family
An introduction to family theory as found in significant sociological traditions. The course will discuss the effect of the aging process on extended and nuclear families, the changing roles of parent and child, the family stresses and rewards of care giving, the role of aging siblings, relationships between the generations and the financial and psychological impact of caring for the frail elder in the family setting. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Grade of C or better in Social Service 102, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 107
Aging and Leisure
An exploration of the opportunities that are available to the elderly from the well years to the frail years, for personal enrichment, intellectual development, volunteering, health improvement, travel, spiritual growth and second careers. Students will learn the ways in which a majority of an individuals older years may be a time of great opportunities for growth, development and service. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Grade of C or better in Social Service 102, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 109
Report Writing for Social Service Aides
Introduction to records, reports, and forms required in social agencies; report writing and record keeping. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Grade of C or better in English 101 and Social Service 101 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 110
Introduction to Property Management
This survey course is the first of the required courses in the Property Management/Leasing Specialist program. It provides an overview of the different types of multi-family affordable and supportive housing, including housing linked with social services. This course profiles the different populations living in affordable and supportive housing and describes the role of supportive service personnel in aiding at-risk tenants. This course also explores the different housing programs that pay for construction, rehabilitation and operating subsidies at the federal, state, and local levels. It covers applicable legal concerns, such as the Fair Housing Law. It also introduces the major functions of property management including specific responsibilities, usual practices, legal functions and issues, and confidentiality and other ethical concerns. In addition, specific vocabulary to the field is introduced. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 111
Tenant Services and Communications
This course is one of the requirements in the Property Management/Desk Clerk program. It is designed to provide an overview and practice of the interpersonal skills needed for a clerical position in a supportive/affordable housing setting. The course provides ways to understand as well as interact effectively with the different populations living in supportive housing. It explores the areas of front desk cordiality, problem identification and problem-solving, as well as the common procedures for oral and written communications and complaints. The course also provides common procedures for referring tenants for social services. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Grade of C or better in Social Service 110.
2 LECTURE HOURS. 2 CREDIT HOURS.

SOCIAL SERVICE 112
Desk Clerk Operations
This course is one of the requirements in the Property Management/Desk Clerk program. It provides an overview of desk clerk operations, procedures and security. It explores the role of the front desk and the responsibilities of the position in affordable and supportive housing. It covers the areas of front desk policies, safety and security, interaction with externals agencies and authorities, interaction with tenants and non-tenants, confidentiality issues, and maintenance. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Grade of C or better in Social Service 110.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 113
Property Management Clerk Internship
This course is the final requirement in the Property Management/Desk Clerk program. It is designed to enable students to combine classroom training with practical property management clerk work experience through on the job training in a supportive or affordable housing project setting. This course covers legal, ethical, and performance concerns, as well as interviewing and job placement skills. Periodic seminars are held to discuss experiences, concerns, and topical questions. Students are required to keep a journal and prepare a portfolio, which will include a resume, letters of recommendation, and other pertinent materials. A minimum number of hours of on-site time, determined by the numbers of credit hours undertaken, is required for this course. Internship placement must be approved by the Department Chairperson and Program Coordinator. Writing assignments, as appropriate to the discipline, are part of the course. Prerequisite(s): Grade of C or better in Social Service 110, 111, and 112, and consent of Department Chairperson.
1 LECTURE HOUR. 10 LAB HOURS. 1–3 CREDIT HOURS.

SOCIAL SERVICE 114
Marketing and Leasing
This course is one of the requirements in the Property Management/Leasing Specialist program. It is designed to provide an overview of the major functions and practices of the marketing and leasing specialist in a supportive housing environment. This course explores the specific responsibilities, effective communication skills, usual practices, legal functions and issues, as well as applicable ethical concerns facing leasing specialists in a supportive housing setting. The course examines the characteristics of the different populations living in affordable and supportive housing and the various supportive funding streams. The course also covers compliance with government policies and procedures and the specific laws pertaining to supportive housing.
3 LECTURE HOURS. 3 CREDIT HOURS.
SOCIAL SERVICE 115
Finance and Accounting
This course is one of the requirements in the Property Management/Leasing Specialist program. It is designed to provide an overview of the areas of income and expenses for a supportive housing residence, as well as budgeting. It reviews general business Mathematics skills necessary for keeping track of income and expenses. Different programs which subsidize rentals are examined as are low income subsidy regulations. The course includes how to calculate rents under different programs and how to handle rent disputes. It introduces spreadsheets and financial reports. It also examines property management software such as Excel and Yard, how to keep track of income and expenses, and how to compute accurate numbers. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

SOCIAL SERVICE 116
Maintenance and Risk Management
This course is one of the requirements of the Property Management/Leasing Specialist program. It is designed to provide an overview of the major functions and responsibilities involved in property management maintenance and risk management in a supportive housing environment. The course explores building operating systems, maintenance standards and compliance, enforcement, securing of vendor bids, as well as fire, life safety and other inspections. It also covers the areas of insurance, keeping necessary computer data, and maintaining professional relationships with others. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Social Service 114.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 117
Property Management Leasing Internship
This course is the final requirement for the Property Management/Leasing Specialist program. It is designed to enable students to combine classroom training with work experience through on the job training in a supportive or affordable housing project setting. This course covers legal, ethical and performance concerns, as well as interviewing and job placement skills. Periodic seminars are held to discuss experiences, concerns and topical questions. Students are required to keep a journal and prepare a portfolio which will include a resume, letters or recommendation, and other pertinent materials. A minimum number of 75 hours of on-site time, determined by the number of credit hours undertaken, is required for this course. Internship placement must be approved by the Department Chairperson or Program Coordinator. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Social Service 114, 115 and 116, and consent of Department Chairperson.
1 LECTURE HOUR. 10 LAB HOURS. 1–3 CREDIT HOURS.

SOCIAL SERVICE 118
Introduction to Health Education and Prevention
This course is the first requirement of the HIV/STI Prevention Education Basic Certificate Program. It is designed to provide an introduction to the fundamentals of community health education for prevention, early detection, self-care and recovery, particularly with regard to substance abuse. The course surveys health education and outreach programs for diverse populations and communities. It looks at the methods of evaluation to determine the effectiveness of various programs, it examines prevention strategies that attempt to motivate positive behavioral changes and the assessment, planning, and evaluation of interventions. It covers the teacher and application of important life skills. The course also provides an overview of management healthcare systems. This course is designed for those working or interested in community health occupations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 119
HIV/STI Prevention Education
This course is one of the requirements of the HIV/STI Prevention Education Basic Certificate Program. It is designed to provide an introduction to the fundamentals of HIV/STI peer prevention education. It surveys prevention education and related outreach programs geared to diverse populations and communities. It examines methods of assessment to determine the health needs of different communities as well as methods of evaluation as applied to health programs to determine their effectiveness. The course also covers the areas of HIV/AIDS, other STI’s, safer sex, and harm reduction. It explores specific communities and neighborhoods to discover factors that have a positive or negative impact on both individual and community health, particularly those that foster sexual risk-taking behavior. This course is designed for those working or interested in community health fields. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Social Service 118.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 120
HIV/STI and Special Populations
This course is one of the requirements of the HIV/STI Prevention Education Certificate Program. It is designed as an introduction to the concerns and issues of HIV/STI and their effect on special populations. The course examines related needs and problems of those specific populations, which includes women and children, adolescents, young adults, minorities, men who have sex with men (MSM), the disabled, and those who are incarcerated. It explores the health needs of the different communities, particularly with regard to prevention, testing, treatment, substance abuse, and care efforts. This course is designed for those working or interested in community health occupations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Social Service 118.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 121
The ABC’s of STI’s
This course is one of the requirements of the HIV/STI Prevention Education Certificate Program. It is designed to provide an overview of the more common sexually transmitted diseases (other than HIV) and the effect they have on different populations. This course covers the basic epidemiology of these diseases, their transmission, diagnosis and treatment options, and their various stages. It also explores the possibility of contagion and level of incidence, short and long term effects, as well as examines important issues and problems in harm reduction, prevention, and support. This course is designed for those working or interested in community health occupations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Social Service 119.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 122
HIV/STI and GLBT Health
This course is one of the requirements of the HIV/STI Prevention Education Certificate Program. It is designed to provide an overview of the state of health for gay, lesbian, bisexual, and transgender populations. It examines common behavior and trends of these populations as well as related needs and problems, such as accessing health and social services. It explores the health needs of the different communities, particularly in the areas of prevention, testing, treatment, and care. It also analyzes the impact of HIV/AIDS, STI’s, and other diseases on these communities. This course is designed for those working or interested in community health occupations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Social Service 121.
3 LECTURE HOURS. 3 CREDIT HOURS.
SOCIAL SERVICE 123
HIV/STI Outreach Skills
This course is one of the requirements of the HIV/STI Prevention Education Certificate Program. It is designed to provide advanced education and training in HIV/STI risk reduction. It prepares students to conduct peer education and risk reduction counselling in community-based outreach settings. It explores contemporary concerns, as well as recent findings regarding the transmission and risk reduction of STI's. The course analyzes issues relating to gender, sexual orientation, culture, and ethnicity in order to better prepare students to counsel multi-cultural groups. The course covers training in careers in public health education. This course is designed for those working or interested in community health occupations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Social Service 102 and Social Service 106, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 124
CASE Management/Individual Intervention
This course is one of the requirements of the HIV/STI Prevention Education Certificate Program. It is designed to provide an introduction to the areas of the case management process in health advising. It focuses on skills development in the areas of communication skills and techniques for client-centered health advising for different populations, particularly those dealing with HIV/AIDS. It covers the required ethical documentation of case managers. It also covers intake interviewing, data collection and documentation, and effective use of referrals. The course helps students develop the skills necessary to work effectively in HIV/STI prevention health agencies, including the ability to correctly fill in required forms. It also explores strategies for managing cases and encouraging client change in diverse populations. This course is designed for those working or interested in community health occupations. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Social Service 119 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 201
Principles of Social Work Practice
Introduction to social welfare resources of the community; discussion of methods to help persons make use of these resources, including analysis of the helping relationship, role of non-professional worker, problem-solving approach to individual, family, and community problems. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 202
Aging and Human Services
This course explores the history of gerontological social work and the methods employed in providing the greatest benefits of human services to the elderly population. Students will learn the practical principles of case management from interviewing to evaluation and become familiar with the characteristics of the service settings in which they will encounter the elderly in the role of Gerontology Specialist. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Social Service 102 and Social Service 106, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 203
Inter Communication with the Elderly
This course is a study of the basic principles of communication as employed in counseling and human services settings. It will emphasize the development of the listening, speaking, behavioral and attitudinal skills that are required by gerontology professionals at the level of social work assistant. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Social Service 102 and Social Service 106, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 204
Cross-Culture Studies in Gerontology
A comparative study of aging in a variety of cultures from traditional to modern. Students will learn that the attitude of a culture towards its aging population is based on the complex set of interrelationships between its social, religious and historical traditions. The course will examine Native American, traditional Chinese, modern European, dominant and minority American cultures and their attitudes toward the elderly and how these attitudes are crystallized into social policy. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Social Service 102, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 205
Ethical Issues in Aging
As the population of those fifty (50) and above increases, so do the emerging issues relative to ethics. Issues such as elder abuse, dementia, intergenerational equity, guardianship and living wills, decision making, and personal safety will be explored in the context of preparation for those who work with the targeted population. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 206
Human Development and Aging
This course builds on human growth and development, specifically designed to focus on development tasks relative to those who are fifty (50) and beyond. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 207
Group Facilitation
This course is one of the requirements of the HIV/STI Prevention Education Certificate Program. It is designed to provide an introduction to both theoretical concepts and practical applications of group dynamics and facilitation skills for people working in the fields of addiction counseling and HIV/STI prevention education. The course explores the basic areas of goal setting, problem-solving skills, effective group facilitation concepts, dealing with different personalities, handling conflict, and reaching consensus. This course includes observation and participation in group dynamics, group membership, and group facilitation. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 212
Introduction to Group Process
For persons who work with groups; parent groups, community action programs, recreation programs, church groups, or in child care programs. How individuals function as group members; role of the leader; encouraging participation and group action for achieving group goals. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.
SOCIAL SERVICE 213
Advanced Group Process
For students who desire to develop skill in working with groups; discussion of techniques for working most effectively with different types of groups. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Social Service 212.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 215
Social Problems and Social Action I
For group workers, community leaders, and teachers. Problems of urbanization, industrialization, cultural and educational deprivation, juvenile delinquency, and techniques and programs organized to combat these problems. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 228
Methodology for Social Work
Principles of casework applied to work with families; community resources available to meet economic, emotional, and health needs, and techniques for implementing referrals for such services. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Child Development 101 and 102, and Social Service 215 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 229
Social Service Practicum
Field work placement in a family welfare agency 20 hours per week, 8 or 16 weeks; two-hour weekly seminar. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Social Service 228 and Child Development 101 and 102, or consent of Department Chairperson.
2 LECTURE HOURS. 20 LAB HOURS. 6 CREDIT HOURS.

SOCIAL SERVICE 230
Domestic Violence Practicum
This course will provide students with both a micro and macro perspective of a silent problem that is drastically impacting society today—Domestic Violence. This course will introduce students to the history of domestic violence, and theories and methods used to study domestic violence. This course will be devoted to discussions of different forms of domestic violence including elder abuse, child abuse, and intimate partner violence. There will be a focus on how to evaluate the psychological nature of violence and the role that social location, race, class, and gender play. Additional discussions will include special topics in domestic violence regarding heterosexual and homosexual families, religion, the military, and American and Global cultures students will use both in a classroom setting and their cooperative work experiences to learn and practice intervention, as well as prevention strategies utilized by social service agencies and the criminal justice system. Upon a successful completion of this course and cooperative work experience hours students will receive the Illinois Domestic Violence 40 certificiate (provided by an approved Illinois Domestic Violence training site). Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101, concurrent enrollment in Social Service 228, or consent of Department Chairperson.
1 LECTURE HOUR. 10 LAB HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 248
Principles of Youth and Group Work
Social development and behavior of young people and other adults in all group settings; church groups, street gangs, tutoring programs, recreational groups, YMCA’s and YWCA’s, and settlement or delinquency prevention programs. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101 or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 249
Practicum in Youth Work
Field work assignment in youth agency 20 hours per week, 8 or 16 weeks; 2-hour weekly seminar. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Child Development 101 and 102, and Social Service 212, or consent of Department Chairperson.
2 LECTURE HOURS. 20 LAB HOURS. 6 CREDIT HOURS.

SOCIAL SERVICE 250
Practicum I
This course combines classroom training with field placement at a community agency or institution serving older persons. Students apply learning about the organization and management of aging services, explore community resources, demonstrate work habits, assess their attitudes and career skills in gerontology, and relate current aging research to practice. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Social Service 102 and 105, and Psychology 222.
2 LECTURE HOURS. 5 LAB HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 251
Practicum II
This capstone course provides a review of gerontology course work, field placement experience at a human services agency or institution serving older persons, advanced classroom training in practice concepts related to service delivery to older adults, an overview of the issues related to long-term care, and other related topics. Students apply learning about the organization and management of aging services, explore community resources, and relate current aging research to practice. Writing assignment, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Social Service 250.
2 LECTURE HOURS. 5 LAB HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 252
Nursing Home Administration
This course introduces students to administrative practices in long-term care facilities including organization, financial management, staffing, community relations, managing the physical plant, in-service training, and alternatives to institutionalization. In preparation for taking the Nursing Home Administrator licensing exam, students will also learn about the relationship of community health systems, auxiliary agencies and programs, chronic diseases and infirmities, the aging process and the care of the aged, and related local, state, and federal legislation.
Prerequisite(s): Eligibility for English 101, or ACT English Score ranges within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIAL SERVICE 253
Accounting for Long-Term Care
This course is designed to give students, who will be essentially non-financial managers, the financial knowledge needed to perform the duties of a healthcare administrator in the long-term care setting.
Prerequisite(s): Eligibility for English 101, or ACT English Score ranges within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
### SOCIAL SERVICE 258
**Principles of Practice in Community Organization**
For students who work with community action programs, community planning, or neighborhood improvement. Writing assignments, as appropriate to the discipline, are part of the course.

**Prerequisite(s):** Grade of C or better in Child Development 102, and Social Service 101, 201, and 213, or consent of Department Chairperson.

3 LECTURE HOURS. 3 CREDIT HOURS.

### SOCIAL SERVICE 259
**Practicum in Community Service**
Field work placement in a community service agency plus weekly seminars. Writing assignments, as appropriate to the discipline, are part of the course.

**Prerequisite(s):** Grade of C or better in Social Service 258, or consent of Department Chairperson. 2 lecture hours and 20 lab hours.

6 CREDIT HOURS.

### SOCIOLOGY

#### SOCIOLOGY 110
**Religion and Society**
Sociological investigation into relationship between religious values and forms of social organization. Concentration on contemporary religious movements and includes examples from Christian, Jewish, Islamic and non-western religions. Writing assignments, as appropriate to the discipline, are part of the course.

**Prerequisite(s):** Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.

3 LECTURE HOURS. 3 CREDIT HOURS.

#### SOCIOLOGY 201
**Introduction to the Study of Society**
Characteristics of group life, the effect of the group on human conduct, and the interrelationships between society, culture, and the individual. Writing assignments, as appropriate to the discipline, are part of the course.

**Prerequisite(s):** Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.

3 LECTURE HOURS. 3 CREDIT HOURS.

IAI/GE: DA KK MX OH TR HW WR | HD

#### SOCIOLOGY 202
**Sociology of Urban Life**
Study of urbanization, personal and social disorganization, collective behavior, social movements and voluntary associations, race and ethnic relations, social stratification, industrial relations, and political sociology. Writing assignments, as appropriate to the discipline, are part of the course.

**Prerequisite(s):** Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.

3 LECTURE HOURS. 3 CREDIT HOURS.

#### SOCIOLOGY 203
**Marriage and the Family**
Study of the family as a dynamic social institution; emphasis on love, sex, dating, courtship and marriage, child rearing, marital problems, and divorce. Writing assignments, as appropriate to the discipline, are part of the course.

**Prerequisite(s):** Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.

3 LECTURE HOURS. 3 CREDIT HOURS.

IAI/GE: DA KK MX OH TR HW WR

#### SOCIOLOGY 204
**The Sociology of Race and Ethnic Relations**
Environmental factors that identify African-Americans as an ethnic group in the United States; study of social values, attitudes, definition, behavior, social institutions, and processes of this ethnic group. Writing assignments, as appropriate to the discipline, are part of the course.

**Prerequisite(s):** Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.

3 LECTURE HOURS. 3 CREDIT HOURS.

#### SOCIOLOGY 205
**Social Problems**
Understanding current social problems; sociological concepts student learns in Social Science 101 and Sociology 201 will be employed in analysis of concrete social problems. Writing assignments, as appropriate to the discipline, are part of the course.

**Prerequisite(s):** Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.

3 LECTURE HOURS. 3 CREDIT HOURS.

IAI/GE: DA KK TR WR

#### SOCIOLOGY 207
**The Sociology of Sex and Gender**
Examines the difference between behavior based on what society says is appropriate in order to be masculine or feminine. Examines the question of what forces in society are most influential in determining the place of men and women with special emphasis on power. Examines how this influence works through the process of socialization and core social institutions, including marriage and family, education, religion, the economy, and politics. Writing assignments, as appropriate to the discipline, are part of the course.

**Prerequisite(s):** Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.

3 LECTURE HOURS. 3 CREDIT HOURS.

IAI/GE: DA HW WR | HD

#### SOCIOLOGY 209
**The Black Man in the U.S.**
A comparative analysis of racial, religious, and ethnic groups. The course examines how this influence works through the process of socialization and core social institutions, including marriage and family, education, religion, the economy, and politics. Writing assignments, as appropriate to the discipline, are part of the course.

**Prerequisite(s):** Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.

3 LECTURE HOURS. 3 CREDIT HOURS.

#### SOCIOLOGY 210
**The Sociology of Sex and Gender**
Examines the difference between behavior based on what society says is appropriate in order to be masculine or feminine. Examines the question of what forces in society are most influential in determining the place of men and women with special emphasis on power. Examines how this influence works through the process of socialization and core social institutions, including marriage and family, education, religion, the economy, and politics. Writing assignments, as appropriate to the discipline, are part of the course.

**Prerequisite(s):** Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.

3 LECTURE HOURS. 3 CREDIT HOURS.

#### SOCIOLOGY 211
**Race and Ethnic Relations**
A comparative analysis of racial, religious, and ethnic groups. The course examines how group identity is formed and how it is maintained or persists. It includes how group identity affects inter-group relations, social movements, government policy, and related social problems. Writing assignments, as appropriate to the discipline, are part of the course.

**Prerequisite(s):** Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.

3 LECTURE HOURS. 3 CREDIT HOURS.

IAI/GE: DA KK MX OH TR HW WR | HD

#### SOCIOLOGY 212
**Social Problems**
Understanding current social problems; sociological concepts student learns in Social Science 101 and Sociology 201 will be employed in analysis of concrete social problems. Writing assignments, as appropriate to the discipline, are part of the course.

**Prerequisite(s):** Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.

3 LECTURE HOURS. 3 CREDIT HOURS.

IAI/GE: TR WR | HD
CREDIT COURSE DESCRIPTIONS
Credit Courses

SOCIOL 225
Introduction to Criminal Justice
Philosophical background of criminal justice; history, constitutional limitations, agencies, processes of justice, and human nexus; efficiency, morality, legality, and compassion criteria for judgment; research areas and trends. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIOL 241
Institutional Racism
Survey of racism in basic institutions of American life: education, law enforcement, health services, government, business, industry, religion, entertainment, science, and housing. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SOCIOL 280
Human Relations
Social and psychological aspects of inter-group relations; relationships between the dominant group and minority religious, ethnic, racial, and social class groups. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SPAN 101
First Course Spanish
Pronunciation and basic structures, speech patterns, reading, and writing skills. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Placement Exam.
4 LECTURE HOURS. 4 CREDIT HOURS.

SPAN 102
Second Course Spanish
Continuation of Spanish 101. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Placement test or grade of C or better in Spanish 101.
4 LECTURE HOURS. 4 CREDIT HOURS.

SPAN 103
Third Course Spanish
Review and development of basic language skills, conducted in Spanish. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Spanish 102; or Placement Exam and Interview with World Language Faculty.
4 LECTURE HOURS. 4 CREDIT HOURS.

SPAN 104
Fourth Course Spanish
Review of language structure and interpretation of readings, conducted in Spanish. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Spanish 103; or Placement test and Interview with World Language Faculty.
4 LECTURE HOURS. 4 CREDIT HOURS.

SPAN 111
Spanish for Hispanics
Formal structure of Spanish and preparation for enrollment in advanced courses. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

SPAN 113
Spanish for Near Native Speakers I
Review of formal structure and sound system of language for near-native speakers; emphasis on accurate, fluent, and effective oral expression. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Consent of Department Chairperson/Coordinator.
4 LECTURE HOURS. 4 CREDIT HOURS.

SPAN 114
Spanish for Near-Native Speakers II
Continuation of Spanish 113. Emphasis on reading and writing skills. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Spanish 113 or consent of Department Chairperson.
4 LECTURE HOURS. 4 CREDIT HOURS.

SPAN 191
Survival Spanish Nursing
Provides trans-cultural training for nurses and future nurses. Emphasis is on enhancing quality patient care. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SPAN 192
Survival Span for Law Enforcement Officers
Provides trans-cultural training for non-Spanish speaking police officers. Emphasis is on enhancing quality communications skills when aiding victims and contact with offenders. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
SPANISH 199
Study Abroad: Immersion Salamanca, Spain
Utilizing a collaborative cohort model, this course prepares students to fully participate in, and benefit from, the Spanish summer language and cultural immersion study abroad program. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Spanish 198 with a grade of C or better.
4 LECTURE HOURS. 4 CREDIT HOURS.

SPANISH 206
Intensive Oral Practice Spanish
Practice in spoken language, fluency, and accuracy. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Spanish 104 or Placement test, or consent of Department Chairperson.
4 LECTURE HOURS. 4 CREDIT HOURS.

SPANISH 210
Modern Civilization and Culture Spanish
Recent social, cultural, and historical trends, conducted in Spanish and English. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: KK WR | HD

SPANISH 213
Introduction to Modern Literature Spanish
Selections from contemporary writings, conducted in Spanish. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: HW | HD

SPANISH 214
Readings in Literature Spanish
Works from selected historical periods, conducted in Spanish. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: DA HW WR | HD

SPEECH 100
Introduction to Oral Communication
Study of process of communication as it applies to interpersonal, group, or mass communication; emphasis on practical applications of communications in our lives; recommended for students in occupational and general studies programs. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SPEECH 101
Fundamentals of Speech Communication
Theory and practice of oral communication: development of poise and confidence, delivery, and speech organization; public speaking practice; small group discussion; and development of standards of criticism. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.
IAI/GE: DA KK MX OH TR HW WR

SPEECH 102
Public Speaking
Advanced theory and practice of oral communication in public speaking in speaker-audience situation; discussion of psychological effects of speech techniques, choice of words, attitudes, and structuring; role of speech in gaining consensus in a confrontation of the rhetoric of agitation and control; studies of outside speakers from personal viewing, television viewing, and examination of speech texts, argumentative techniques used in the persuasive speech. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Speech 101, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SPEECH 104
Group Communication
Principles and theories involved in discussion techniques; participation in various kinds of discussion groups to prepare student for leadership roles in community, business, and professional groups. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Speech 101, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SPEECH 106
Human Communications
Types of verbal and nonverbal communication, oral and visual, as transmission of data and information to elicit a response; includes methods of encoding information for communication, history, social consequences of modern communication, both verbal and visual. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

SPEECH 112
Introduction to Oral Communication
Process of communication applied to interpersonal group and mass communication; emphasis on practical application of communication in our daily lives. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

SPEECH 131
Introduction to the Theater
Elementary principles of acting, directing, scene design, scene construction, costuming, lighting, sound, and makeup for the stage. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS
Credit Courses

SPEECH 135
Speech Projects
A speech project performed outside of the classroom as an activity. Writing assignments, as appropriate to the discipline, are part of the course. Allowed Repeatable Course: Not more than an accumulated two credit hours will be counted towards graduation. ARC: 2 times.
Prerequisite(s): Consent of Department Chairperson/Coordinator.
3 LAB HOURS. 1 CREDIT HOUR.

SPEECH 140
Speech Clinic
For students with problems in voice or diction. Huskiness, lack of vocal melody, nasality, slovenly diction, sound substitution, lack of ease in precise articulation of consonant and vowel sounds are treated. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

SPEECH 143
Training the Speaking Voice
Improvement and development of an individual's voice, speech, pitch, volume, and overall articulation through use of phonetics of American English. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

SPEECH 144
Oral Reading and Interpretation
Study of communication skills required for effective oral reading; experience in oral interpretation of representative examples from prose, poetry, and drama. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Speech 101, or consent of Department Chairperson.
2–3 LECTURE HOURS. 2–3 CREDIT HOURS.

SPEECH 145
Radio and Television
Historical development of broadcasting and analysis of existing programs; objectives of radio and television, study of program types, acceptable standards for broadcasting, and career opportunities. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

SPEECH 160
Business and Professional Speech
Speech techniques used in selling, administrative reporting, public relations, program speaking, conference procedures, and other industrial and professional presentations. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

SPEECH 205
Family Communication
A study of the family as a communication system and the use of principles of healthy communication within a family context. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SPEECH 206
Argumentation
Role of debate in a democratic society; principles of investigation and analysis of issues, types and tests of evidence and reasoning as applied to public questions. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Speech 101, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SPEECH 243
Speech for Teachers
Correcting common errors of articulation, identifying and directing remedial cases, reading aloud with interest, controlling and directing simple classroom discussions, developing good speaking voices, and selecting and presenting assembly programs. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Speech 101, or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

SURGICAL TECHNOLOGY

SURGICAL TECHNOLOGY 111
Introduction to Surgical Technology
This course is designed to present the basic concepts and principles for developing skill competencies required to assist in surgery. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Surgical Technology Program/Plan 267 or Surgical Technology Program/Plan 268.
3 LECTURE HOURS. 3 CREDIT HOURS.

SURGICAL TECHNOLOGY 112
Preparation for Surgery
This course acquaints students with skills necessary to help prepare the operating room for surgery. Emphasis is placed on psychosocial and physical needs of the patient requiring surgery. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Surgical Technology Program/Plan 267 or Surgical Technology Program/Plan 268.
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

SURGICAL TECHNOLOGY 113
Special Patient Care
This course prepares students to acquire skills necessary to take care of unique patients, emphasis is placed on ambulatory, geriatric, pediatric trauma surgeries and contemporary issues. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Surgical Technology Program/Plan 267 or Surgical Technology Program/Plan 268.
3 LECTURE HOURS. 3 CREDIT HOURS.
CREDIT COURSE DESCRIPTIONS

SURGICAL TECHNOLOGY 114
Surgical Interventions I
The clinical portion of the course allows students to put into action the theory acquired in Surgical Technology 112. Emphasis is placed on reading a preference card, acquiring items needed for the case, hand washing, OSHA and CDC guidelines, don sterile gowns and gloves for self and others, ORSPD, back table set-up, and getting to their field successfully. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Surgical Technology 111, 112, and 113, and Admission to the Surgical Technology Program/Plan 267 or Surgical Technology Program/Plan 268.
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

SURGICAL TECHNOLOGY 115
Surgical Interventions II
A study of surgical procedures with emphasis on surgery of the liver, biliary tract pancreas and spleen thyroid and parathyroid, breast surgery, ophthalmic, otology surgeries. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Surgical Technology 111, 112, and 113 and Admission to the Surgical Technology Program/Plan 267 or Surgical Technology Program/Plan 268.
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

SURGICAL TECHNOLOGY 116
Surgical Interventions III
A study of surgical procedures with emphasis on laryngologic, head and neck orthopedic, neurosurgery, plastic and reconstructive surgery. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Surgical Technology 111, 112, and 113 and Admission to the Surgical Technology Program/Plan 267 or Surgical Technology Program/Plan 268.
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

SURGICAL TECHNOLOGY 117
Surgical Pharmacology
Introduces the scientific principles of compound and chemicals as they are used in the surgical setting. This course defines the rationale for use of specific drugs, and their side effects. It renders students competent in safe handling and labeling medications. Helps student measure and mix medications given to them by the nurse or physician to be used on the field. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Surgical Technology Program/Plan 267 or Surgical Technology Program/Plan 268.
2 LECTURE HOURS. 2 CREDIT HOURS.

SURGICAL TECHNOLOGY 200
Application Aseptic Techniques
The clinical portion of the course allows students to put into action the theory acquired in previous courses. Hand washing, gowning self and other, gloving self and other, establishing and maintaining a sterile field, getting to the field successfully. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admission to the Surgical Technology Program/Plan 267 or Surgical Technology Program/Plan 268.
15 LAB HOURS. 3 CREDIT HOURS.

SURGICAL TECHNOLOGY 211
Surgical Interventions IV
A study of surgical procedures with emphasis on thoracic, vascular and cardiac surgery. There is also emphasis placed on resume writing, job placement, interviewing and negotiating in the job market. Review for the national exam. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Surgical Technology 200.
2 LECTURE HOURS. 1 LAB HOUR. 2 CREDIT HOURS.

SURGICAL TECHNOLOGY 212
Clinical Practicum I
A clinical course designed to provide opportunities for students to more fully develop proficiency in the skills required of an entry level Surgical Technologist. Current issues in surgery, resume writing, interviewing and negotiating in the job market. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Surgical Technology 211.
15 LAB HOURS. 5 CREDIT HOURS.

SURGICAL TECHNOLOGY 213
Clinical Practicum II
After successful completion of all Surgical Technology courses, a forum for the discussion of salient issues related to the practice of surgery as they affect the Surgical Technologist. Preparation for employment, as well as review of comprehensive exam. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Successful completion of all Surgical Technology courses.
24 LAB HOURS. 8 CREDIT HOURS.

SURGICAL TECHNOLOGY 214
Obstetrics/Gynecologic Technology
This course is designed to present the basic concepts and principles for developing skills competencies required for assisting in surgery. The course will offer knowledge in aseptic techniques, scrubbing, gowning and gloving the female anatomy, proper positioning, patient safety, skin preparation instrumentation, supplies and drugs, equipment, and the surgical interventions. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101 and consent of Department Chairperson and Concurrent enrollment in Surgical Technology 215.
2 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

SURGICAL TECHNOLOGY 215
Obstetrics/Gynecologic Technology
This course is designed to present the basic concepts and principles for developing skills competencies required for assisting in surgery. The course will offer knowledge and application in aseptic techniques, scrubbing, gowning and gloving the female anatomy, proper positioning, patient safety, skin preparation instrumentation, supplies and drugs, equipment, and the surgical interventions. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in English 101 and consent of Department Chairperson and concurrent enrollment in Surgical Technology 214.
12 LAB HOURS. 4 CREDIT HOURS.

SURGICAL TECHNOLOGY 216
Sterile Processing Technology
This course is designed to present the basic concepts and principles for developing skills and competencies required for infection prevention and control in the sterile processing department in a healthcare facility. This course will offer knowledge in cleaning, disinfecting, decontamination, sterilization, Standard precautions, and Universal precautions. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Completion of English Composition 101 and consent of program director; and co-enrollment in Sterile Processing Tech Laboratory 217 with grade of C or better.
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.
SURGICAL TECHNOLOGY 217
Sterile Processing Technology Lab
This course is designed to provide clinical training and the application of principles required for infection prevention and control in the sterile processing department in a healthcare facility. This course will offer clinical experience in cleaning, disinfecting, decontamination, sterilization, Standard precautions, and Universal precautions. Writing assignments, as appropriate to the discipline.
Prerequisite(s): Completion of English Composition 101 and consent of program director; and co-enrollment in Sterile Processing Tech Laboratory 0216 with a grade of C or better.
12 LAB HOURS. 4 CREDIT HOURS.

SURGICAL TECHNOLOGY 218
Sterile Processing Clinical Practicum II
This course is designed to present the basic concepts and principles for developing skills and competencies required for infection prevention and control in the sterile processing department. This course will offer knowledge in cleaning, disinfecting, decontamination, sterilization, Standard precautions, and Universal precautions. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admissions into the Surgical Technology program or consent of Department Chairperson. Grade of C or better in Surgical Technology 216 and 217.
24 LAB HOURS. 8 CREDIT HOURS.

SURGICAL TECHNOLOGY 219
Professional Readiness
This course is designed to help the Sterile Processing Technology student transition into the professional role of Sterile Processing Technology. It includes preparation for employment, attaining certification, and maintaining certification status. This capstone course is an opportunity for students to demonstrate that they have achieved the goals for learning about sterile processing and professional readiness. The course is designed to assess cognitive, affective and psychomotor learning and to do so in a student-centered and student-directed manner which requires the command, analysis and synthesis of knowledge and skills. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Admissions into the Sterile Processing Technology Program or consent of Department Chairperson. Grade of C or better in Surgical Technology 216 and 217. Concurrent enrollment in
2 LAB HOURS. 1 CREDIT HOUR.

TECHNOLOGY (0330)

TECHNOLOGY 577
Reading for Information
This course is designed to provide the skills necessary to analyze reading materials effectively. Writing assignments, as appropriate to the discipline, are part of the course.
1–3 LECTURE HOURS. 1–3 CREDIT HOURS.

TECHNOLOGY (0332)

TECHNOLOGY 400
Scaffold Safety
General safety guidelines for constructing and dismantling scaffolds, including a review of local municipal and OSHA codes, rules and regulations. Writing assignments, as appropriate to the discipline, are part of the course. ARC: 1 time.
1 LECTURE HOUR. 1 CREDIT HOUR.

TECHNOLOGY 401
Introduction to Labor and Trade Occupations
This course will provide students with information about trades and crafts related training programs, unions, and working conditions. Writing assignments, as appropriate to the discipline, are part of the course.
1–2 LECTURE HOURS. 1–2 CREDIT HOURS.

TECHNOLOGY 406
Construction Materials/Methods
This course will provide students with the information needed on construction materials and methods used in the construction of buildings. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

TECHNOLOGY 407
Quality Abatement Supervisor
This course emphasizes the supervisory responsibilities required to safely remove hazardous materials as asbestos and lead. The course will provide instruction on potential health effects, personal protective equipment and information on such hazardous materials as asbestos, lead and mold; removal practices and procedures and other related safety and health concerns. Writing assignments, as appropriate to the discipline, are part of the course.
4 LECTURE HOURS. 4 CREDIT HOURS.

TECHNOLOGY 408
Environmental Safety Worker
This course is designed to provide students with the general knowledge for environmental safety workers. It fulfills OSHA’s requirements to perform class I and II work. Students will receive instruction on the potential health effects, personal protective equipment, background information on such hazardous materials as asbestos, lead, and mold; removal practices and procedures, and other safety and health concerns. Writing assignments, as appropriate to the discipline, are part of the course.
4 LECTURE HOURS. 4 CREDIT HOURS.

TECHNOLOGY 409
Construction Safety
This course is intended to provide students with a basic understanding of safety practices found in the construction industry. Emphasis will be placed upon those areas in construction that are most hazardous, using OSHA standards as a guide. Upon successful completion, students will be issued the OSHA construction safety and health 10-hour course completion card. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 1–3 LAB HOURS. 1–2 CREDIT HOURS.

TECHNOLOGY 410
Interior Construction I
This course will provide students with the opportunity to practice and master the task required for entry level carpentry positions. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 9 LAB HOURS. 4 CREDIT HOURS.

TECHNOLOGY 411
Interior Construction II
This course will provide students with the opportunity to practice and master the installation and the finishing techniques of interior carpentry, which are required for entry-level employment as a carpentry apprentice. Particular attention will be given to the installation of finish trim, doors, windows, flooring, hardware, ceilings, counters, cabinets and the finishing of woodworking and trim. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 9 LAB HOURS. 4 CREDIT HOURS.

TECHNOLOGY 416
Exterior Construction I
This course will present material and methods used in various types of concrete forming for building construction. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 9 LAB HOURS. 4 CREDIT HOURS.

<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>TECHNOLOGY 417</td>
<td>Exterior Construction II</td>
<td>This course will focus on rough framing and exterior walls, stairs, porches, decks, roofs and dormers. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>1 Lecture, 9 Lab, 4 Credit</td>
<td></td>
</tr>
<tr>
<td>TECHNOLOGY 418</td>
<td>Exterior Construction III</td>
<td>This course focuses on installation of banisters, fascia, siding, windows, doors, screens, gutters, downspouts, roofing materials, and other exterior trim. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>1 Lecture, 9 Lab, 4 Credit</td>
<td></td>
</tr>
<tr>
<td>TECHNOLOGY 419</td>
<td>Building Maintenance Mathematics</td>
<td>Basic principles of Mathematics with application relative to building maintenance and repair. Course content includes: fractions, decimals, percents, measurements, ratios and proportions. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>1 Lecture, 1 Credit</td>
<td></td>
</tr>
<tr>
<td>TECHNOLOGY 420</td>
<td>Carpentry Maintenance</td>
<td>Basic carpentry skills used in building maintenance and repair. Course content includes: tools, safety, materials, doors, windows, walls, ceiling, and interior trim. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>1 Lecture, 1 Credit</td>
<td></td>
</tr>
<tr>
<td>TECHNOLOGY 421</td>
<td>Electrical Maintenance</td>
<td>Basic electrical skills used in building maintenance and repair. Course content includes: troubleshooting, testing, repairing, and replacing faulty devices and controls. Use of electric test meters and devices will also be included. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>1 Lecture, 1 Credit</td>
<td></td>
</tr>
<tr>
<td>TECHNOLOGY 422</td>
<td>Plumbing Maintenance</td>
<td>Basic plumbing skills used in building maintenance and repair. Course content includes: troubleshooting, repairing, and replacing faulty plumbing and fixtures. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>1 Lecture, 1 Credit</td>
<td></td>
</tr>
<tr>
<td>TECHNOLOGY 424</td>
<td>Drywall and Interior Wood Trim</td>
<td>This course is designed to provide students with the basic fundamentals of how to install drywall, apply tape and joint compound, sand to a smooth surface, as well as, install wood trim to baseboards, windows, and doors. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>1 Lecture, 9 Lab, 4 Credit</td>
<td></td>
</tr>
<tr>
<td>TECHNOLOGY 425</td>
<td>Window and Door Installation</td>
<td>This course is designed to provide students with the knowledge and skills required to install windows and doors. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>1 Lecture, 9 Lab, 4 Credit</td>
<td></td>
</tr>
<tr>
<td>TECHNOLOGY 426</td>
<td>Introduction to Concrete Masonry</td>
<td>This course provides an overview of the concrete masonry trade, which includes the history and safety standards. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>3 Lecture, 3 Credit</td>
<td></td>
</tr>
<tr>
<td>TECHNOLOGY 427</td>
<td>Masonry Tools and Equipment</td>
<td>This course is designed to provide students with an overview of the types of tools and equipment used in the concrete masonry industry. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>2 Lecture, 2 Credit</td>
<td>Grade of C or better in Engineering and Industrial TC1 426.</td>
</tr>
<tr>
<td>TECHNOLOGY 428</td>
<td>Mortar</td>
<td>This course is designed to introduce students to mortar applications. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>2 Lecture, 3 Credit</td>
<td></td>
</tr>
<tr>
<td>TECHNOLOGY 429</td>
<td>Basic Mathematics and Specifications</td>
<td>This course is designed to teach basic applications of mathematics pertinent to the trade. Emphasis will be placed on actual measurements and calculations, different types of specifications used in the building industry as related to the trade. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>2 Lecture, 2 Credit</td>
<td></td>
</tr>
<tr>
<td>TECHNOLOGY 430</td>
<td>Masonry Installations Process</td>
<td>This course is designed to provide students the practical skills required to install masonry units. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>1 Lecture, 6 Lab, 3 Credit</td>
<td>Grade of C or better in Engineering and Industrial TC1 426.</td>
</tr>
<tr>
<td>TECHNOLOGY 431</td>
<td>Specifications and Building Code</td>
<td>This course will enable students to adhere to established local codes and laws governing construction and rehabilitation of buildings; measure and estimate costs of labor, time and materials; develop written proposals for specific projects. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>2 Lecture, 2 Credit</td>
<td></td>
</tr>
<tr>
<td>TECHNOLOGY 432</td>
<td>Basic Arc Welding</td>
<td>In this course, students will concentrate and master basic welding skills and techniques. An overview of the safety rules and procedures will also be provided. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>3 Lab, 1 Credit</td>
<td></td>
</tr>
</tbody>
</table>
TECHNOLOGY 434  
Introduction to Plumbing  
This course is designed to provide an overview of the plumbing trade which includes the history and safety and sanitation procedures. Writing assignments, as appropriate to the discipline, are part of the course.  
3 LECTURE HOURS. 3 CREDIT HOURS.

TECHNOLOGY 435  
Plumbing Tools and Equipment  
This course is designed to provide students with an overview of the types of tools and equipment used in the plumbing trades. Writing assignments, as appropriate to the discipline, are part of the course.  
2 LECTURE HOURS. 2 CREDIT HOURS.

TECHNOLOGY 436  
Plumbing Codes  
This course is designed to introduce students to the regulations of Illinois Department of Public Health. Writing assignments, as appropriate to the discipline, are part of the course.  
1 LECTURE HOUR. 1 CREDIT HOUR.

TECHNOLOGY 437  
Basic Plumbing Related Mathematics  
1 LECTURE HOUR. 1 CREDIT HOUR.

TECHNOLOGY 438  
Introduction to Fire Protection  
This course is designed to provide an overview of the fire protection and sprinkler trade. Writing assignments, as appropriate to the discipline, are part of the course.  
3 LECTURE HOURS. 3 CREDIT HOURS.

TECHNOLOGY 439  
Home Plumbing System  
This course is designed to provide an overview of the plumbing systems within a home. Those systems include: waste, vent and water piping. Writing assignments, as appropriate to the discipline, are part of the course.  
2 LECTURE HOURS. 6 LAB HOURS. 4 CREDIT HOURS.

TECHNOLOGY 441  
Flooring/Floor Covering  
This course will instruct students in safety precautions for working with adhesives and mastic; safety operation of equipment, and installation of carpeting/padding, as well as the replacement of damaged tiles. Writing assignments, as appropriate to the discipline, are part of the course.  
1 LECTURE HOUR. 2 CREDIT HOURS.

TECHNOLOGY 442  
Introduction to Bricklaying  
This course is designed to provide an overview of the bricklaying trade, which includes its history and safety standards. Writing assignments, as appropriate to the discipline, are part of the course.  
3 LECTURE HOURS. 3 CREDIT HOURS.

TECHNOLOGY 443  
Bricklaying Tools and Equipment  
This course is designed to provide students with an overview of the tools and equipment used in the bricklaying industry. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Grade of C or better in Engineering and Industrial TC1 442.  
2 LECTURE HOURS. 2 CREDIT HOURS.

TECHNOLOGY 444  
Bricklaying Installation Procedures  
This course is designed for students to develop and practice the skills and techniques required in bricklaying. Writing assignments, as appropriate to the discipline, are part of the course.  
Prerequisite(s): Grade of C or better Engineering and Industrial TC1 442.  
1 LECTURE HOUR. 6 LAB HOURS. 3 CREDIT HOURS.

TECHNOLOGY 445  
Introduction to Electrical Theory  
Offers a general introduction to Ohm’s law, the National Electrical Code and general procedures. Writing assignments, as appropriate to the discipline, are part of the course.  
1 LECTURE HOUR. 1 CREDIT HOUR.

TECHNOLOGY 446  
Foundations and Flatwork  
This course is designed to teach basic forms for continuous, grade bean concrete footings including edge forms used for slabs and other structures. Theory and hands-on application are emphasized through the completion of the course. Writing assignments, as appropriate to the discipline, are part of the course.  
1–3 LECTURE HOURS. 1–3 CREDIT HOURS.

TECHNOLOGY 447  
Materials  
This course is designed to describe uses of work materials and grading systems. The course will also describe various kinds metals, fasteners, and adhesive used for roadwork carpentry. Theory and hands-on applications are emphasized through the completion of the course. Writing assignments, as appropriate to the discipline, are part of the course.  
1 LECTURE HOUR. 1 CREDIT HOUR.

TECHNOLOGY 448  
Vocational Physical Training I  
Vocational Physical Training focus on preparing students for the physical challenges that line worker careers require. Students learn the basic of nutrition and how what we eat fuels our bodies. Students will learn proper techniques to stretch, warm up and physically train. Emphasis is given to cardiovascular training as well as leg and upper body strength. Instructors work with students to overcome physical challenges and fears for basic pole climbing. Student must earn a “C” or better in course to advance to Vocational Physical Training II. Writing assignments, as appropriate to the discipline, are part of the course.  
2 LAB HOURS. 1 CREDIT HOUR.
TECHNOLOGY 449
Professional Development
This course is designed to provide students with a basic understanding of the human relations skills necessary to obtain employment and succeed in a quality work environment. This course includes resume development, cover letter writing, job searching skills, networking skills, interviewing techniques, and post-interview skills. Additionally, this course helps students succeed while on the job by exposing students to current workplace trends, team building skills, customer and co-worker relations, attitude and motivation, stress management, and financial management and planning. Writing assignments, as appropriate to the discipline, are part of the course. ARC: 1 time.
2 LECTURE HOURS. 2 CREDIT HOURS.

TECHNOLOGY 451
Plumbing
This course will enable students to identify pipe fittings and standard plumbing symbols, install rough plumbing for bath and kitchen fixtures, and install water heating systems. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 9 LAB HOURS. 4 CREDIT HOURS.

TECHNOLOGY 452
Basic Electrical Theory
This class covers the theories behind basic electricity. The emphasis is on electron theory, magnetism, Ohm’s Law, and circuitry. Alternating current concepts such as circuits with resistance, inductive and capacitive reactive circuits, and power factor correction are covered. Basic Mathematics skills are used. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

TECHNOLOGY 453
Overhead Techniques and Projects I
This first semester discusses basic electric system layout from generator to electrical equipment, trailers, cable pullers and tensioners. Student must earn a grade of C or better in course to advance. Writing assignments, as appropriate to the discipline, are part of the course.
ARC: 1 time.
Prerequisite(s): Grade of C or better in Mathematics 107, English 197, Technology 448 and 449.
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

TECHNOLOGY 458
Overhead Techniques and Projects II
In this second semester class, students learn about and use advanced levels of topics such as aerial climbing, rope knots and splices, electrical connectors, electrical test equipment, as well as hand and power tools. Students also learn basic hydraulic principles. Application and installation of various electrical apparatus in a lab environment is completed by students. Overhead distribution structures are constructed, protective grounding is introduced and live line work such as rubber gloving and hot stick use (de-energized lines). Underground distribution (UD) equipment is introduced including cable terminating tools and cable locating equipment. Students will install and terminate UD cable, Three-phase concepts such as metering and UD are covered. The class covers various components of electrical distribution equipment. The class is introduced to current prospective devices including automatic throw overs, high voltage fuses, sectionalizers and oil current reclosers. Students learn to identify various switch types and are introduced to step-type voltage regulators. Students practice safety concepts common to line workers. Students also identify and read distribution maps. A trencher/cable plow, trucks and other mobile equipment are used by students. The student must earn a C or better in this course. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Technology 452, 453, and 462.
3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

TECHNOLOGY 459
Construction Safety and Rescue
This course is intended to provide students with a basic understanding of safety practices found in the construction industry. The student will be provided specific instruction in Flagging and Cardiopulmonary Resuscitation (CPR). Emphasis will be placed upon those areas in construction that are the most hazardous, using OSHA standards as a guide. Upon completion, students will be issued the OSHA construction safety and health 10-hour course completion card. The student will be provided a basic knowledge of bucket truck and pole top rescue. Emphasis will be placed upon those areas in the electrical line worker profession. Student must earn a "C" or better in course to advance. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Technology 452, 453, and 462.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

TECHNOLOGY 462
Vocational Physical Training II
Vocational Physical Training focuses on preparing students for the physical challenges that line worker careers require. Students will build upon the skills developed in Vocational Physical Training I. Students will learn how to select foods to provide optimum health and the best sources of energy. Students will learn how to read labels and how to use food to cleanse and maintain overall health. Students will build upon techniques for stretching, warming up and physical training. Student must earn a grade of C or better in course to advance to Vocational Physical Training III. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Technology 448.
2 LAB HOURS. 1 CREDIT HOUR.

TECHNOLOGY 463
Vocational Physical Training III
Vocational Physical Training focuses on preparing students for the physical challenges that line worker careers require. Students will build upon the skills developed in Vocational Physical Training II. Students will learn how to produce ideal body composition through food intake and how to balance other physical dimensions of self through physical activities. Students will learn advanced techniques to stretch, warm up and physically train. Student must earn a C or better to satisfy course and certificate completion. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Technology 462.
2 LAB HOURS. 1 CREDIT HOUR.

TECHNOLOGY 464
Power Equipment Operations I
This course provides instruction in preparation for obtaining a commercial driver’s license. In addition, the class covers the operation and use of a variety of power equipment commonly used in the electric power industry including the use of bucket trucks, power take-off equipment, trailers, cable pullers and tensioners. Student must earn a grade of C or better in course to advance. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Mathematics 107, English 197, Technology 448 and 449.
2 LECTURE HOURS. 1 LAB HOUR. 2.5 CREDIT HOURS.

TECHNOLOGY 465
Painting and Decorating
1 LECTURE HOUR. 6 LAB HOURS. 2–3 CREDIT HOURS.
**TECHNOLOGY 466**
Introduction to Painting
The course is designed to provide an overview of the painting and decorating trade, which includes the history of the industry, job ethics, and terminology utilized within the industry. Critical thinking employability skills will also be covered. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

**TECHNOLOGY 467**
Introduction to Painting Tools
The course is designed to provide students with an overview of the proper use and care of painting tools, equipment, selection, mixing, and application of materials used in painting. Emphasis will also be on safety practices and the storage and disposal of materials. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 3 LAB HOURS. 2 CREDIT HOURS.

**TECHNOLOGY 468**
Basic Taping
The course is designed to provide students with instruction in the preparation of surfaces of taping. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 3 LAB HOURS. 2 CREDIT HOURS.

**TECHNOLOGY 469**
Advance Plumbing/Pipefitting
This course offers students the opportunity to increase their skills and knowledge in the plumbing industry. Course material covered will include art of pipe sizing, print reading, fitting allowance, code review, thermodynamics/pipe connection above and below grade. A review of the proper procedure for solving offset problems will also be covered. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Technology 434, or one year experience in the plumbing industry.
1 LECTURE HOUR. 6 LAB HOURS. 3 CREDIT HOURS.

**TECHNOLOGY 470**
Power Equipment Operations II
This course is a continuation of Technology 464 to provide instruction in preparation for obtaining a commercial driver’s license. In addition, the class covers the operation and use of a variety of power equipment commonly used in the electric power industry including the use of bucket trucks. Power take-off equipment, trailers, cable pullers and tensioners. Students must earn a grade of C or better in the course to advance. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Mathematics 107, and English 197, and Technology 448, 449, and 464.
2 LECTURE HOURS. 1 LAB HOUR. 2.5 CREDIT HOURS.

**TECHNOLOGY 471**
Exterior Repair and Remodeling
This course will instruct students to remove and replace doors and windows; install exterior hardware; install weatherization, insulation and roofing materials. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 9 LAB HOURS. 4 CREDIT HOURS.

**TECHNOLOGY 481**
Interior Repair and Remodeling
This course will instruct students to make minor plaster repairs; install interior hardware; replace/repair damaged wood flooring, tile and other floor coverings; apply wallpaper, paints, and other coatings. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 9 LAB HOURS. 4 CREDIT HOURS.

**TECHNOLOGY 491**
Residential Electrical Wiring
This course will instruct students in writing of various electrical configurations commonly found in residential systems. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 9 LAB HOURS. 4 CREDIT HOURS.

**TECHNOLOGY 509**
Introduction to Basic Arc Welding
1–2 LECTURE HOURS. 3–12 LAB HOURS. 2–6 CREDIT HOURS.

**TECHNOLOGY 510**
Blueprint, Layout and Fabrication
2 LECTURE HOURS. 2 CREDIT HOURS.

**TECHNOLOGY 515**
Related Mathematics I
4 LECTURE HOURS. 4 CREDIT HOURS.

**TECHNOLOGY 516**
Related Mathematics II
4 LECTURE HOURS. 4 CREDIT HOURS.

**TECHNOLOGY 518**
Manufacturing Materials and Processes
An introduction to manufacturing materials, methods, and processes for drafting and design technicians is provided. Basic cold and hot working processes, used to join, form, weld, shape and cut materials to specified sizes are also taught. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 1 CREDIT HOUR.

**TECHNOLOGY 520**
Arc Welding
This course provides continued development of the basic skills for performing operations with mild steel plates. Student progress in welding from flat to vertical, down to horizontal, and to vertical up positions. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Technology 509.
2 LECTURE HOURS. 6 LAB HOURS. 4 CREDIT HOURS.

**TECHNOLOGY 526**
Welding Mathematics I
1–2 LECTURE HOURS. 1–2 CREDIT HOURS.

**TECHNOLOGY 530**
Advanced Welding
4 LECTURE HOURS. 6 LAB HOURS. 4 CREDIT HOURS.
TECHNOLOGY 581
Concrete Framing
This course will acquaint students with industry terminology, the tools used in the trade, and safety procedures. Instruction and demonstration will introduce students to the application of footings, foundation walls, and slab, and stair construction. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 3 LAB HOURS. 2 CREDIT HOURS.

TECHNOLOGY 582
Residential Carpentry
Training consists of an orientation into the field of carpentry, industry terminology, and the discipline and the uses of tools of the trade. Students will receive hands-on training in the recognition and application of the materials used in residential structures. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 3 LAB HOURS. 2 CREDIT HOURS.

TECHNOLOGY 583
Basic Hand Tools
This course is designed to introduce students to the operation and safe use of various types of hand tools. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

TECHNOLOGY 767
Blueprint Reading I
Principles and practices involved in the interpretation of blueprints of varied complexity related to actual trade projects. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

TECHNOLOGY 768
Blueprint Reading II
Continuation of Blueprint Reading I. This course will further develop students' ability to interpret drawings of intermediate and advanced complexity related to actual trade projects. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 CREDIT HOURS.

THEATER ART 129
Introduction to Theater History
Introduction to theater history from its origins to the present, including theatrical styles and literature. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

THEATER ART 130
Stagecraft
Introduces safety procedures and basic techniques of scenery and property construction, tool use, scene painting, and backstage organization. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

THEATER ART 131
Introduction to Theater
Introduction to Theater is a survey of theater, including basic elements and principles of production, styles, and historical perspectives of theater, dramatic literature, and criticism. Writing assignment, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson.
3 LECTURE HOURS. 3 CREDIT HOURS.

THEATER ART 132
Theater Production, Direction and Management
Production and direction of plays; experience in play selection, theater organization, scheduling, audience analysis, box office and record keeping, and publicity. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

THEATER ART 133
Acting I
Acting techniques, stressing exercises, improvisations, prepared and general acting situations; theories of method and technical methods explained and presented; survey of acting styles. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

THEATER ART 134
Theater Diversity in the U.S.
Examination of various dramatic expressions that reflect the experience and construction of racial or cultural minority identity in the United States. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

THEATER ART 135
Stage Makeup
Course is an introduction to the basic techniques and philosophies concerning the effective application of theatrical makeup. The objective of the course is to give the student a practical, working knowledge of the principles of highlighting, shadowing, and contouring the human face with makeup in a workshop environment. Explorations into the basic techniques involved in working with crepe hair, and various three-dimensional processes will also be undertaken.
3 LECTURE HOURS. 2 LAB HOURS. 2 CREDIT HOURS.
## CREDIT COURSE DESCRIPTIONS

### THEATER ART 137
**Stage Lighting**
Comprehensive study of theory and technique of lighting for the theater; use of all instruments and dimming controls, work on sound in theater. Writing assignments, as appropriate to the discipline, are part of the course.

1–2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

### THEATER ART 138
**Topics in Theater**
Special survey courses introducing employment opportunities and procedures in theater. Writing assignments, as appropriate to the discipline, are part of the course. Course runs in a rotation of 3 topics. Courses may be repeated for a total of 3 credit hours. ARC; 3 times.

1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

### THEATER ART 140
**Sound for Theater**
Comprehensive Study of theory and technique of sound and sound engineering; use of all instruments amplification and recording equipment. Writing assignments as appropriate to discipline are part of the course.

Prerequisite(s): Grade of C or better in Mathematics 118.

3 LECTURE HOURS. 3 CREDIT HOURS.

### THEATER ART 141
**Costumes and Wardrobe**
Introduces theory of costume design, focusing on safety procedures and basic techniques of costume and accessory construction, tool use, fitting and draping, and costume shop organization through projects in cutting, stitching, and finishing costumes for production. Writing assignments as appropriate to discipline are part of the course.

Prerequisite(s): Grade of C or better in Theater Art 133 or consent of Department Chair.

2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

### THEATER ART 143
**Acting Workshop**
Practical workshop in performance styles, stage techniques, timing, scene study and improvisations; students will cooperate in class-produced one-act plays. Writing assignments, as appropriate to discipline, are part of the course.

1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

### THEATER ART 144
**Practice in Modern Theater**
Workshop in production of modern plays; readers theater methods will be used in total concept of modern theater production; less emphasis on detail than in Theater Art 143. Writing assignments, as appropriate to the discipline, are part of the course.

1 LECTURE HOUR. 2 LAB HOURS. 2 CREDIT HOURS.

### THEATER ART 230
**Stage Management**
Practice in stage management. Students will work with scenes and plays as a stage manager, will operate special sound effects and recording equipment, and will make a complete sound track for a play. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Theater Art 131, or consent of Department Chairperson.

2 LECTURE HOURS. 4 LAB HOURS. 4 CREDIT HOURS.

### THEATER ART 232
**Theater Workshop**
Participation in production of one-act and full length plays with class, operated as a theater company; students will work in all phases of theater including touring theater, acting, directing, and other areas of theater as a full company experience. Writing assignments, as appropriate to discipline, are part of the course.

2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

### THEATER ART 233
**Theater Design**
Scene design including preparation of plans, scale models and ground plans; history of design; project: full design for play currently produced in the theater. Writing assignments, as appropriate to the discipline, are part of the course.

3 LECTURE HOURS. 3 CREDIT HOURS.

### THEATER ART 235
**Acting II**
A continuation of Acting I with an emphasis on an intensive approach to acting exercises, improvisation and scene study. Writing assignments, as appropriate to the discipline, are part of the course.

Prerequisite(s): Grade of C or better in Theater Art 133 or 134.

3 LECTURE HOURS. 3 CREDIT HOURS.

### THEATER ART 236
**Voice and Movement**
The study of using voice and movement to interpret and perform works of literature, such as essays, letters, novels, poetry, and short stories, with an emphasis on communicating that interpretation to an audience. Writing assignments as appropriate to discipline are part of the course.

Prerequisite(s): Grade of C or better in Theater Art 133 or 134.

3 LECTURE HOURS. 3 CREDIT HOURS.

### THEATER ART 237
**Theater Production and Management**
Production and management of plays and theaters; survey of theater and production organization, scheduling audience analysis, box office operation, record keeping and publicity. Writing assignments as appropriate to discipline are part of the course.

Prerequisite(s): Grade of C or better in Mathematics 118 and Theater Art 230, or consent of Department Chairperson.

3 LECTURE HOURS. 2 LAB HOURS. 4 CREDIT HOURS.

### THEATER ART 240
**Play Production**
A literary exploration of the relationships between dramatic text and the play in performance, with special emphasis on basic terminology and methodology. Representative plays are studied in their genre, historical, and social contexts. Writing assignments as appropriate to discipline are part of the course.

3 LECTURE HOURS. 3 CREDIT HOURS.
THEATER ART 242
Improvisational Theater Workshop
Theory and practice of improvisational acting techniques; development of scripting in the moment, development of character and styles; designing and performing an improvisational show. Writing assignments, as appropriate to the discipline, are part of the course.
3 LECTURE HOURS. 3 CREDIT HOURS.

THEATER ART 252
Children's Theater Workshop
The students will participate in a production of a play for children. The class will operate as a theater company and students will work in all phases of theater including acting, directing, stage managing and producing as a full company experience. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

VISUAL COMMUNICATIONS

VISUAL COMMUNICATIONS 101
Introduction to Visual Communication
Introduction to the history and industry of visual communication. Basic design principles and practical application of visual communication design in illustration, typography, photography and publication, website production and motion graphics. Writing assignments, as appropriate to the discipline, are part of the course.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.

VISUAL COMMUNICATIONS 102
Website Design I
Basic procedures in preparing website design and production; includes web code techniques, color theory, typography and composing style sheets and photo layout. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Eligibility for English 100, and grade of C or better in Visual Communications 101, 122 and 224, or consent of Department Chairperson.
1 LECTURE HOUR. 4 LAB HOURS. 3 CREDIT HOURS.

VISUAL COMMUNICATIONS 103
Commercial Photography
Basic procedures of digital image capture of products and people. Explores the use of digital cameras as related to visual communication. Covers the basic commercial photography techniques in lighting, editing and effects. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

VISUAL COMMUNICATIONS 104
Digital Photography
Basic study of the industry and practice of photography using the digital camera. Topics include basic camera operations and techniques, portraits, lighting, and post-production techniques such as editing and retouching. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

VISUAL COMMUNICATIONS 110
Digital Production
A study of the digital pre-press and print production procedures for commercial printing; includes planning and problem-solving in layout and design, desktop publishing, digital imaging, proofing and digital print work. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Visual Communications 101, 104, 122, and 224.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

VISUAL COMMUNICATIONS 114
Stripping I
Basic instruction and practice in stripping of line film, halftone film, and platemaking. Screen tints, color blocking, butting and overlapping; contacting, step and repeat procedures, proofing, preparation and folding dummies, outlining, and master marks; handling and use of paper, plastic, photo-direct, direct image, and pre-sensitized plates; masking, ruling, screen work, and image construction. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

VISUAL COMMUNICATIONS 122
Graphic Software
This course is designed to familiarize the student with hardware and software used in the visual communication industry. Software includes Adobe Illustrator, Photoshop, In design and other computer graphic software used for page layout design. Emphasis on the study and use of computer hardware equipment as: Monitors, keyboards, scanners, printers and digital cameras, etc. Writing assignments, as appropriate to the discipline, are part of the course. Approved Repeatable Course: Not more than an accumulated six credit hours will be counted towards graduation.
3 LECTURE HOURS. 3 CREDIT HOURS.

VISUAL COMMUNICATIONS 132
Publication Design
Basic study of the design of publications using current industry-standard software. Page design and techniques, pagination, pacing, photo usage, and production. Writing assignments, as appropriate to the discipline, are part of the course. ARC: 2 times.
Prerequisite(s): Grade of C or better in Visual Communications 101, 122, and 224, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

VISUAL COMMUNICATIONS 134
Logo Identity Design
Basic study of logo design, branding, and corporate identity. Emphasis is placed on actual creation, design briefs, the research of companies, concepts, the use of symbols, typography, word marks, and imagery, and how each culminate into a unique identity for a business or institution. Writing assignments, as appropriate to the discipline, are part of the course. ARC: 2 times.
Prerequisite(s): Grade of C or better in Visual Communications 101, 122, and 224.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

VISUAL COMMUNICATIONS 201
Design Management
The study of design management practices in the visual communication industry; sales, marketing, strategic planning, graphic production, job cost, services, studio layouts, purchasing, inventory control, staff positions/management and proposal writing. Writing assignments, as appropriate to the discipline, are part of the course.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.

VISUAL COMMUNICATIONS 202
Web Design II
Focus on website design and production; includes web code techniques, color theory, typography and composing style sheets and photo layout. Explores animation on the web using current web publishing software applications. Writing assignments, as appropriate to the discipline, are part of the course.
Prerequisite(s): Grade of C or better in Visual Communications 102, or consent of Department Chairperson.
2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.
### CREDIT COURSE DESCRIPTIONS

#### Credit Courses

This information is subject to change.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Description</th>
<th>Prerequisite(s)</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>VISUAL COMMUNICATIONS 203</td>
<td>Offset Presswork II</td>
<td>Advanced study in principles and practices of digital and offset presswork, including operation and maintenance of medium size offset press. Includes the study of feed, register, delivery, dampening and inking systems, selection of stock, basic press operations including make-ready selection of inks, safety, quality control, and preventive maintenance. Writing assignments, as appropriate to the discipline, are part of the course.</td>
<td>Grade of C or better in Visual Communications 224, or consent of Department Chairperson.</td>
<td>2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS.</td>
</tr>
</tbody>
</table>

| VISUAL COMMUNICATIONS 206 | Digital Image Capture II | Use of digital photography as related to graphic communications processes. Emphasis on advanced operation and setup of digital camera equipment and utilization of a digital studio for completion of projects. Writing assignments, as appropriate to the discipline, are part of the course. | Eligibility for English 100 and grade of C or better in Visual Communications 224, or consent of Department Chairperson. | 2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS. |

| VISUAL COMMUNICATIONS 210 | Newspaper Production | Theory and practice of mechanical procedures involved in production of a small newspaper by digital and offset lithographic process, includes desktop publishing, graphic design, page layout, scanning, proofing and presswork. Writing assignments, as appropriate to the discipline, are part of the course. | Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson. | 2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS. |

| VISUAL COMMUNICATIONS 212 | Motion Graphics I | Basic study of animation using industry-standard vector software to create motion, including animated shorts, information graphics, and multimedia presentations. Writing assignments, as appropriate to the discipline, are part of the course. | Completion of the Visual Communications curriculum or consent of Department Chairperson. | 2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS. |

| VISUAL COMMUNICATIONS 214 | Electronic Stripping and Platemaking II | Advanced instruction and practice in image assembly utilizing electronic stripping software, including the creation of electronic stripping software, electronic impositions, templates, and platemaking, and master marks; handling and use of dummies, color proofing, platemaking, and master marks; and the handling of RIP and CTP systems. Writing assignments, as appropriate to the discipline, are part of the course. | Completion of the Visual Communications curriculum or consent of Department Chairperson. | 2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS. |

| VISUAL COMMUNICATIONS 224 | Digital Typography | This course is designed to familiarize the student with the computer hardware and software application used in the visual communication industry. Emphasis on the study of typography font design, specification, effects and copy fitting. Also, a study of the historical developments of typography from ancient to modern times will be studied. Writing assignments, as appropriate to the discipline, are part of the course. | Eligibility for English 101, or ACT English Score range within (21-36), or consent of Department Chairperson. | 2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS. |

| VISUAL COMMUNICATIONS 228 | Digital Image Creation/Manipulation II | An advanced level course used to further explore image editing and retouching applications as related to graphic communications and the printing industry. Emphasis on creating projects for output to print and the web. Use of tools for advanced electronic image creation and manipulation. Writing assignments, as appropriate to the discipline, are part of the course. | Grade of C or better in Visual Communications 224, or consent of Department Chairperson. | 2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS. |

| VISUAL COMMUNICATIONS 232 | Advanced Electronic Publishing | Page layout software application used in the graphics industry for desktop and electronic publishing, pre-press, and image setting. Emphasis on creating projects for output to print and the web, including the handling of RIP ad CTP systems. Writing assignments, as appropriate to the discipline, are part of the course. | Grade of C or better in Visual Communications 224, or consent of Department Chairperson. | 2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS. |

| VISUAL COMMUNICATIONS 290 | Practicum Internship | This course is designed to provide students with further academic support while completing the Visual Communications practicum internship to gain experience in the field. On-the-job strategies, furthering student's design education and training, seminars for career development as well as other topics that are career-related will be discussed. Writing assignments, as appropriate to the discipline, are part of the course. | Completion of the Visual Communications curriculum or consent of Department Chairperson. | 2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS. |

| VISUAL COMMUNICATIONS 298 | Design Studio | This capstone class prepares students for the visual communications industry, including the study of design and the design business: sales, marketing, strategic planning, production, estimating, services, studio layouts, staff positions, management and proposal writing. Writing assignments, as appropriate to the discipline, are part of the course. | Completion of the Visual Communications curriculum or consent of Department Chairperson. | 2 LECTURE HOURS. 2 LAB HOURS. 3 CREDIT HOURS. |

Credit Program
Requirements
CREDIT PROGRAMS
Associate Degree Requirements

ASSOCIATE IN APPLIED SCIENCE

The Associate in Applied Science (AAS) degrees are occupational programs that are structured for students primarily interested in acquiring Career Technical Education (CTE) skills in order to enter the job market. However, a number of four-year institutions offer baccalaureate degrees designed to accommodate AAS degree graduates. Students planning to transfer to a four-year institution should meet with an advisor from the institution to which he/she plans to attend to discuss transferability of the AAS degree and individual courses.

Students seeking an AAS degree must select a program of study, (e.g., Child Development, Manufacturing Technology, Nursing) in order to determine the specific general education courses, the program core courses, and electives that are required to complete the program. An AAS degree is comprised of 50 to 75% of required technical core and specialty course work. Additionally, the AAS degree requires a minimum of 15 credit hours of general education. Requirements for specific programs can be found starting on page 410.

General Education 15 Credit Hours
Degree Core and Electives 45 Credit Hours
Total Degree Credit Hours 60 Credit Hours

DEGREE OFFERED AT: DA KK MX OH TR HW WR

ASSOCIATE IN ARTS (210)

The Associate in Arts (AA) degree prepares an individual for transfer to a four-year college or university. Consistent with the IAI model and the ICCB Administrative Rules, City Colleges of Chicago requires that the degree is inclusive of a minimum of 37 semester hours of General Education.

For students who want to earn an associate degree before transferring to a 4-year college, the Associate Degree in Arts (AA) is the traditional choice for most students. The AA degree indicates a student has mastered the basics of higher education. This degree plan provides you with the IAI General Education Core Curriculum (GECC) courses explained above, and in addition, you will select elective courses, or simply select an AA semester map as a guide.

General Education 37 Credit Hours
Students are required to take at least one general education course that fulfills the State of Illinois Human Diversity (HD) requirement for the Associate Degree.

ASSOCIATE IN FINE ARTS

Art (Studio) (216)
The Associate in Fine Arts degree offers courses required for transfer to a four-year institution for students majoring in art (studio), music education, or music performance. Completion of the AFA degree does not fulfill the requirements of the Illinois Transferable General Education Core Curriculum (IAI GECC). A student must complete the general education requirements of the college or university to which they transfer.

For more info on the Associate in Fine Arts degree in Art (Studio), please visit www.ccc.edu/programs/Pages/Associate-in-Fine-Arts--Art-(Studio).aspx.

CREDIT PROGRAMS
Associate Degree Requirements

ASSOCIATE IN FINE ARTS
Music Performance (205)
The Associate in Fine Arts Degree with a concentration in Music Performance provides the necessary foundation for more advanced study in music performance, music theory, music history, or music composition at four-year colleges, universities, and music conservatories. Performance areas include all musical instruments and voice. Employment opportunities are varied and are usually based on the student’s personal interest and area of specialization, including all professions based in the musical arts (performance, composition, research and analysis, music management, library science, music publishing, music therapy, among others).

For more info on the Associate in Fine Arts degree in Music Performance, please visit www.ccc.edu/programs/Pages/Music-Performance-Associate-in-Fine-Arts_bak.aspx.

Students should consult with a College Advisor for course selection.

Program Electives 4 Credit Hours
Students should consult with a College Advisor for course selection.

Total Program Credit Hours 68 Credit Hours

ASSOCIATE IN GENERAL STUDIES (203)
The Associate in General Studies (AGS) degree provides students the ability to explore a broad range of college-level courses to develop new skills or investigate a personal interest. Courses may transfer individually to a four-year university, but the degree as a whole is not designed for transfer or as an occupational degree. Students should work closely with an advisor to determine if the AGS is the right degree program to reach their individual goals. City Colleges of Chicago requires that the degree is inclusive of a minimum of 20 semester hours of General Education.

General Education 20 Credit Hours
Students are required to take at least one general education course that fulfills the State of Illinois Human Diversity (HD) requirement for the Associate Degree.

Degree Electives 40 Credit Hours

Total Degree Credit Hours 60 Credit Hours

DEGREE OFFERED AT:

ASSOCIATE IN SCIENCE (211)
The Associate in Science (AS) degree prepares an individual for transfer to a four-year college or university. Consistent with the IAI model and the ICCB Administrative Rules, City Colleges of Chicago requires that the degree is inclusive of a minimum of 37 semester hours of General Education.

For students who already know they are interested in science, technology, engineering, or math (the “STEM” fields), the Associate in Science degree or even the Associate in Engineering Science (AES) is probably the one to pursue. This is also a transfer degree, and it is similar to the Associate in Arts. The main difference early on concerns the selection of specific math and science courses, which will be different for students who want to major in a STEM field. Again, working closely with your advisor will ensure that you enroll in the right classes to achieve your goals.

General Education 37 Credit Hours
Students are required to take at least one general education course that fulfills the State of Illinois Human Diversity (HD) requirement for the Associate Degree.

English (0035)
101 Composition I ................................................................. 3

Advanced Manufacturing

COMPUTER-AIDED DRAFTING (CAD) TECHNOLOGY

Association in Applied Science (144)
The Associate in Applied Science degree program in Computer-Aided Design (CAD) Technology provides the technical instruction and skill development for the graduate to become successfully employed in the drafting fields of the mechanical, architectural, and construction industry. Instruction is directed toward theoretical and technical skills in the use of modern drafting tools and equipment with emphasis placed on the training of CAD techniques.

For more info on the Associate in Applied Science degree in Computer-Aided Drafting (CAD) Technology, please visit www.ccc.edu/programs/Pages/CAD-Technology-Associate-in-Applied-Science.aspx.

CREDIT PROGRAM REQUIREMENTS

Advanced Manufacturing

**COMPUTER NUMERIC CONTROL TECHNICIAN**

**Basic Certificate (826)**

The instructor certified CNC certificate program is for students interested in manufacturing in the area of Computer Numeric Control. By enrolling in 200 hours of training to become a machinist CNC set-up or operator, students will learn the safety and maintenance procedures of manufacturing; operate machinery such as drill press, lathes and mills; learn CNC machining such as writing G/M code, and run simulations of writing and running programs on the CNC machinery.

**Required Program Core**

`15 Credit Hours`

- Short-Term Trade/Industrial/Trans (0504)
  - 126 Machining Processes I .......................................................... 3
  - 127 Machining Processes II ............................................................ 3
  - 128 Computer Numerical Control Fundamentals ............................ 3
  - 129 CNC Milling Operations and Programming .............................. 3
  - 130 CNC Turning Operations and Programming ............................ 3

**Total Program Credit Hours**

`15 Credit Hours`

**FACTORIAL AUTOMATION**

**Advanced Certificate (727)**

Factory Automation technicians operate, maintain, repair, and install automated production equipment used through manufacturing. In addition to the traditional mechanical and electrical skills, modern production requires digital, programmable skills such as robotic programming, sensor technology, and the use of Programmable Logic Controllers. This certificate provides foundational mechanical and electrical skills for entry level jobs in maintenance, repair and installation of manufacturing production equipment. Program completers will be employable as a maintenance mechanic trainee or helper, and as a building maintenance trainee. Students will also have the opportunity to earn the Manufacturing Skill Standards Council’s (MSSC) credential in Maintenance Awareness.

For more info on the Basic Certificate in Factory Automation, please visit www.ccc.edu/programs/Pages/Factory-Automation-Basic-Certificate.aspx.

**Required Program Core**

`38 Credit Hours`

- English (0035)
  - 101 Composition I ................................................................. 3
- Mathematics (0045)
  - 125 Introductory Statistics ..................................................... 4

CREDIT PROGRAM REQUIREMENTS
Advanced Manufacturing

INDUSTRIAL MAINTENANCE

Advanced Certificate (790)
The Advanced Certificate program in Industrial Maintenance applies the theory and application of electricity and electronics to wiring, motors, industrial controls, electronic instrumentation, and programmable logic controllers. The program integrates academic and occupational education and leads to an internship at an actual work-site. These skills will help students expand their career opportunities and career plans in occupations related to power and control of buildings and equipment. Projects will demonstrate wiring, motor controls, switches, power operated mechanical devices, and other set-ups of systems that apply to electric/electronic power controls.

Required Program Core 36 Credit Hours

Engineering and Industrial TC6 (0432)
- 502 Electrical Wiring .......................................................3
- 503 Applied Mathematics ..................................................3
- 504 Introduction to Pneumatic Technology .........................2
- 505 Solid State Fundamentals .............................................3
- 506 Industrial Motors .......................................................3
- 507 Industrial Controls .....................................................3
- 508 Digital Electronics Fundamentals .................................3
- 509 Industrial Programmable Controllers ..........................3
- 510 Industrial Hydraulics ..................................................3
- 512 Internship .................................................................2
- 515 Principles of DC/AC ..................................................4
- 516 Quality Assurance ....................................................2
- 517 National Electric Code ................................................2

Total Program Credit Hours 36 Credit Hours

MANUFACTURING TECHNOLOGY

Associate in Applied Science (770)
The Associate in Applied Science degree program in Manufacturing Technology offers the technologies required for maintenance mechanics in the manufacturing or service industries and covers theory and practical projects. The program is appropriate for career changers, high school graduates, general education diploma holders, and machining workers with a need to enhance their careers.

For more info on the Associate in Applied Science degree in Manufacturing Technology, please visit www.ccc.edu/programs/Pages/Manufacturing-Technology-Welding-Associate-in-Applied-Science.aspx.

General Education 16 Credit Hours

English (0035)
- 101 Composition I .........................................................3

Mathematics (0045)
- 125 Introductory Statistics ...............................................4
- Fine Arts & Humanities course ..........................................3
- Social & Behavioral Sciences course ..................................3
- Human Diversity course ..................................................3

Required Program Core 31 Credit Hours

Manufacturing (0340)
- 104 Statistical Process Control (SPC) .................................3
- 111 Machining Processes I .................................................3
- 138 Introduction to SolidWorks ..........................................3
- 139 Print Requirements: Quality Assurance ......................3
- 140 CNC Fundamentals ..................................................3
- 141 Manufacturing Materials and Processes ......................3
- 142 Geometric Dimensioning and Tolerancing .................3
- 143 Advanced Metrology ................................................3
- 191 Industrial Electricity ..................................................4
- 292 Principles of Mechanisms ..........................................3

Program Electives 15 Credit Hours
Students must select a minimum of 15 credit hours from the following courses:

Manufacturing (0340)
- 112 Machining Processes II .............................................3
- 123 CNC Milling Operations and Programming .................3
- 137 CNC Turning Operations and Programming ...............3
- 144 Wire Electrical Discharge Machining ..........................3
- 145 Computer Integrated Manufacturing (CIM) .................3
- 146 Team Dynamics in Manufacturing ..............................3
- 151 Introduction to Welding .............................................3
- 201 Supervised Work-Based Learning ...............................3
- 253 Pneumatics ............................................................3
- 255 Industrial Hydraulics ................................................3
- 291 Programmable Logic Controllers .............................3
- 295 Electric Motor Controls .............................................3
- 297 Advanced Mechanical Systems ...............................3

Business and Commercial Tech TC1 (0330)
- 152 Introduction to Business Logistics ............................3
- Computer Information Systems (0032)
- 120 Introduction to Microcomputers ...............................3

Engineering (0034)
- 111 Introduction to the Engineering Profession ................2
- 131 Engineering Graphics and Introduction to Design .........3
- 132 Descriptive Geometry .............................................3

Physics (0077)
- 131 Mechanics and Power .............................................3

MECHANICAL TECHNOLOGY: CAD

Basic Certificate (163)
Completion of the Basic Certificate in Mechanical Technology: CAD provides the technical instruction and skills development for graduates to find successful employment in the field of drafting, working for mechanical, architectural and construction companies.

For more info on the Basic Certificate in Mechanical Technology: CAD, please visit [www.ccc.edu/programs/Pages/Mechanical-Technology-CAD-Basic-Certificate.aspx](http://www.ccc.edu/programs/Pages/Mechanical-Technology-CAD-Basic-Certificate.aspx).

WELDING

**Basic Certificate (765)**

Welding is a challenging and rewarding career that combines the manual techniques of traditional welding processes with new digital skills used in robotic welding. With continual advances in welding technology, students in this program will study manufacturing materials and processes, including basic metallurgy and electricity, as well as print reading and fundamental quality assurance concepts. The welding processes that students will master include Gas Metal Arc Welding (GMAW or "MIG" welding), Shielded Metal Arc Welding (SMAW or "stick"), and Gas Tungsten Arc Welding (GTAW or "TIG"). Automated welding is taught using a FANUC robot and controller with a Lincoln Electric welder. Basic Certificate completers will be able to gain jobs as welders and entry level jobs in automated (or robotic) welding.

For more info on the Basic Certificate in Welding, please visit [www.ccc.edu/programs/Pages/Welding-Basic-Certificate.aspx](http://www.ccc.edu/programs/Pages/Welding-Basic-Certificate.aspx).

**WELDING (INDUSTRIAL TECHNOLOGY)**

**Basic Certificate (827)**

The Industrial Welding Technology certificate program provides students with welding skills in a shop setting. Students are taught ARC, MIG, and TIG welding and all welding positions. Plasma and oxy-gas cutting are also taught. In addition, students examine job safety, ethics, and metallurgy. Graduates find entry-level employment as welders, solderers, and braziers. Upon program completion, students will receive Scaffold Safety Certification and the 10-Hour OSHA Construction Certification.

MANAGEMENT/MARKETING

Associate in Applied Science (021)
The Associate in Applied Science degree program in Management/Marketing is the study of basic business skills along with more in-depth study in a chosen field such as management, marketing, or entrepreneurship. Completion of the program can lead to employment as assistant, trainee, supervisor, or manager in manufacturing, merchandising, service firms, or government service. The program also prepares graduates to start a business or improve the operations of a currently existing business.

For more info on the Associate in Applied Science degree in Management/Marketing, please visit www.ccc.edu/programs/Pages/Management---Marketing---Associate-in-Applied-Science.aspx.

## PARALEGAL

### Associate in Applied Science (304)

The Associate in Applied Science degree program for Paralegal prepares students with the skills to become highly trained paralegals to meet the needs of corporations, law firms and offices, and other sectors where law-related work is performed. Program completion can lead to employment in any area where law-related work is conducted. Paralegals may not provide legal services directly to the public, except as permitted by law. The program is approved by the American Bar Association.

For more info on the Associate in Applied Science degree in Paralegal, please visit [www.ccc.edu/programs/Pages/Paralegal-Associate-in-Applied-Science.aspx](http://www.ccc.edu/programs/Pages/Paralegal-Associate-in-Applied-Science.aspx).

### BUILDING ENERGY TECHNOLOGIES

**Basic Certificate (159)**

The Basic Certificate program in Building Energy Technologies is designed for students seeking expertise in the practical application of energy efficiency and renewable energy systems in the building construction industries. An emphasis on integration into traditional building construction and operation allows the graduate to effectively coordinate with architects, engineers, and contractors on the installation and operation of these systems.

PROGRAM OFFERED AT:
COMMUNICATIONS TECHNOLOGY

Associate in Applied Science (750)
The Associate in Applied Science degree program in Communications Technology is a cooperative effort between Richard J. Daley College and the Electrical Joint Apprenticeship and Training Trust (EJATT) which is made up of the National Electrical Contractors Association (NECA) and the International Brotherhood of Electrical Workers (IBEW) Local Union 134. Through the joint effort of the college and EJATT, the program is dedicated to consistently provide state-of-the art education and training to apprentices, and through them to the residential and commercial building contractors in the Chicagoland area. This commitment to both the individual and industry requires not only providing electricians for today’s market, but also for tomorrow’s market and future technologies.

PROGRAM OFFERED AT:
CONCRETE MASONRY

Basic Certificate (759)
The Basic Certificate in Concrete Masonry includes orientation to the cement masonry trade, industry terminology and blueprint reading. Hands-on training includes the proper use and maintenance of tools and instruction in job safety procedures. Students will learn the basic ingredients of concrete, rodding placement and floating, basic set-up and form work, and clean-up.

For more info on the Basic Certificate in Concrete Masonry, please visit www.ccc.edu/programs/Pages/Concrete-Masonry-Basic-Certificate.aspx.

BAKING AND PASTRY ARTS

Associate in Applied Science (365)
The Associate in Applied Science degree program in Baking and Pastry Arts is a sequential learning program taught over four semesters. All semesters include lecture, discussion, demonstration and hands-on production that allow students to practice the techniques of Baking and Pastry production in a commercial bakeshop environment. This program includes production for restaurant and bakeshop sales, offering the student real-world experience in the field.

For more info on the Associate in Applied Science degree in Baking and Pastry Arts, please visit www.ccc.edu/programs/Pages/Baking-and-Pastry-Arts-Associate-in-Applied-Science.aspx.

General Education Coursework 15 Credit Hours
Students should meet with a College Advisor for selection of specific course requirements for the 15 credit hour minimum General Education portion of the Associate in Applied Science degree.

CULINARY ARTS

Associate in Applied Science (362)
The Associate in Applied Science degree program in Culinary Arts is a sequential learning program taught over four semesters. All semesters include lecture, discussion, demonstration and hands-on production that allow students to practice the techniques of food production in a commercial food service environment. The curriculum includes additional methods and techniques that will increase the student’s repertoire of ethnic and classical menus. In addition, the coursework covers management skills, cost control, budgeting techniques, merchandising, business planning, resume writing and interviewing techniques. General education classes must be completed to satisfy the degree requirements. Students will receive the ServSafe® Sanitation Certification and will be eligible for the City of Chicago and State of Illinois Sanitation certificates upon completion.

L’ART DU GÂTEAU
Cake Decorating and Baking Program
Basic Certificate (392)
The Basic Certificate program in Professional Cake Decorating and Baking allows students to learn from internationally-renowned master chef instructors in L’art du Gâteau offered by Kennedy-King College’s French Pastry School. This all-inclusive, 16-week, full-time certificate program is custom-designed to meet the needs of students who want to specialize in the prestigious art of cake baking and decorating. This unique, hands-on program focuses on all aspects involving the creation of special cakes and pastries. Personal attention from chef mentors is given every day in the kitchen, providing a comfortable, yet thorough training.

For more info on the Basic Certificate in L’art du Gâteau (Cake Decorating and Baking Program), please visit www.ccc.edu/programs/Pages/Cake-Decorating-and-Baking-(Professional)-Basic-Certificate.aspx.

CREDIT PROGRAM REQUIREMENTS

HEALTHCARE

DENTAL ASSISTANT

Basic Certificate (868)
In the Dental Assistant certificate program, students learn the comprehensive and varied duties of a dental assistant. This career choice will enable students to become part of the dental healthcare team. Students will learn office procedures, inventory, dental charting, and the basics of assisting the dentist. Topics will include the introduction to definition, cavity classification, instruments, oral surgery, procedures, and techniques, as well as basic tray setups, aseptic practices, and restoration methods.

For more info on the Basic Certificate in Dental Assistant, please visit www.ccc.edu/programs/Pages/Dental-Assistant-Basic-Certificate.aspx.

DENTAL HYGIENE

Associate in Applied Science (222)
The Dental Hygiene AAS degree program provides specialized educational, clinical, and therapeutic services in preventive oral healthcare preparing graduates for national, regional, and state board examinations required for licensure as registered dental hygienist. Major responsibilities include examination of the teeth and oral structures; the removal of plaque, calculus and stain from teeth; exposing and developing x-rays; and educating patients in home oral healthcare techniques.

A unique partnership with the University of Illinois at Chicago (UIC) College of Dentistry gives students the opportunity to complete prerequisite and general education courses at Kennedy-King College followed by the core professional courses and clinical training at the UIC’s College of Dentistry.

For more info on the Associate in Applied Science degree in Dental Hygiene, please visit www.ccc.edu/programs/Pages/Dental-Hygiene-Associate-in-Applied-Science.aspx.

EMERGENCY MEDICAL TECHNICIAN (EMT)

**Basic Certificate (867)**
The EMT certificate program provides training to recognize the nature or extent of patients’ condition, administer appropriate emergency medical care to stabilize their condition, and transport them safely to the proper medical facility. The curriculum follows the United States Dept. of Transportation (DOT) guidelines for EMT-B Training. Students receive appropriate in-class clinical, lecture, CPR training/certification and ten (10) hours of hands-on in a hospital clinical setting.

**Program Requirements for Admission**
Courses run for three consecutive semesters, starting each fall semester, Applications are accepted the previous spring. To be considered for admission the applicant must:

- Be a high school graduate or GED Certificate holder.
- Be currently licensed by the State of Illinois as an EMT-B.
- Demonstrate a competency in Anatomy and Physiology by earn a passing grade of C or better in college-level course (or military course) or successfully complete an equivalency exam. City College courses that apply include Biology 116, 121, and 226.
- Have a current CPR card.
- Submit, by deadline, completed program application with transcripts, to the Paramedic Program Director at Malcolm X College.
- Achieve acceptable scores on admissions examination.
- Ambulance experience as an EMT-B by start of program is strongly recommended.

Students enrolled in a current spring semester EMT class from any other college who have not completed the state exam are not eligible to apply. Students enrolled in the spring semester EMT class at MXC is eligible to apply with a current course grade of B or better.

**Applicant Interviews and Student Selection**
Interviews are with the EMS Region XI Admissions Committee are granted to those applicants who have met or exceeded admission criteria. Selection of candidates for this program is highly competitive and selections are made based on interview. Evaluation of applicant ability is based on academic history, EMS work experience, references, and communication skills. Emphasis is placed on academic history as demonstrated by GPA, and motivation as demonstrated by commitment and adaptability to the EMS field.

EMT (II)–PARAMEDIC

Associate in Applied Science (263)
Malcolm X College offers the only paramedic program in the city of Chicago and is one of the few colleges in Illinois to offer an AAS degree in this professional specialty. Successful completion of the Paramedic Core Curriculum, in addition to complementary general education courses, enables the paramedic student to attain an AAS degree. Completion of the degree can broaden the student’s marketability as well as provide a strong basis for continued professional learning.

This program is presented as a collaborative effort by Malcolm X College, the Chicago Fire Department, and the Chicago Resource Hospitals: Advocate Illinois Masonic Medical Center, Northwestern Memorial Hospital, and University of Chicago Hospitals. The Paramedic Program is approved and accredited by the Illinois Department of Public Health, Division of Emergency Medical Services and Highway.

Program Requirements for Admission
Courses run for three consecutive semesters starting each fall semester. Applications are accepted the previous spring. To be considered for admission the applicant must:

- Be a high school graduate or GED Certificate holder.
- Be currently licensed by the State of Illinois as an EMT-B.
- Demonstrate a competency in Anatomy and Physiology by earning a passing grade of C or better in college-level course (or military course) or successfully complete an equivalency exam. City College courses that apply include Biology 116, 121, and 226.

HEALTH INFORMATION MANAGEMENT

**Associate in Applied Science (393)**
The Health Information Management (HIM) program prepares students with the knowledge, skills, and abilities to organize and manage health information data in both paper and electronic systems. Students will acquire knowledge and develop application skills for a variety of classification systems to code for reimbursement, databases and registries, and the maintenance of patients’ medical and treatment histories. This program prepares students for the Registered Health Information Technician Exam administered by the Commission on Accreditation for Health Informatics and Health Information Education (CAHIIM).

For more info on the Associate in Applied Science degree in Health Information Management, please visit [www.ccc.edu/programs/Pages/Health-Information-Management-HIM.aspx](http://www.ccc.edu/programs/Pages/Health-Information-Management-HIM.aspx).

**HEALTH PROFESSIONS–PATIENT CARE TECHNICIAN**

**Basic Certificate (396)**
The Health Professions–Patient Care Technician basic certificate provides the educational background required for pursuing a career in the healthcare industry. The curriculum covers the foundational knowledge, skills, and abilities needed to function as an entry level healthcare provider. The program focuses on student development in the following competencies essential to all healthcare providers: effective communication, accountability, cultural competence, use of information systems, and patient safety. Upon completion of the BC, students will demonstrate that they can deliver safe, culturally-competent, and evidence-based patient care.

For more info on the Basic Certificate in Health Professions–Patient Care Technician, please visit [www.ccc.edu/programs/Pages/Health-Professions-Basic-Certificate.aspx](http://www.ccc.edu/programs/Pages/Health-Professions-Basic-Certificate.aspx).

MASSAGE THERAPY

Advanced Certificate (398)

The Advanced Certificate Massage Therapy program will provide students with the skills and knowledge to sit for the Massage and Bodywork Licensing Exam (MBLEX). Course completers will be eligible to apply for massage therapy licensing through the Illinois Department of Financial and Professional Regulation. The program provides the educational background required for pursuing a career as a massage therapist. The curriculum covers the foundational knowledge, skills, and abilities needed to function as a licensed massage therapist. The program focuses on student development in therapist-client communication, ethical massage practice, professionalism, business skills, self-care practices, and cultural competence. Employment opportunities for massage therapist include spas, health clubs, chiropractic practices, physical therapy clinics, hospitals and private practice.

For more info on the Advanced Certificate in Massage Therapy, please visit www.ccc.edu/programs/Pages/Massage-Therapy-Advanced-Certificate.aspx.

## MORTUARY SCIENCE

### Associate in Applied Science (257)

The Associate in Applied Science degree program in Mortuary Science prepares students enrolled in the program with work-based experiences in how to embalm and restore human remains, arrange and conduct religious and humanistic funerals, memorial services, manage funeral home operations, sell funeral merchandise, assist grieving families, and assist members of the medical profession in areas related to human remains. Funeral home establishments may employ students prior to the state of Illinois required internship. The program is in compliance with the standards, guidelines, and curriculum of the American Board of Funeral Service Education (ABFSE), the Conference of Funeral Service Examining Boards (ICFSE), the City Colleges of Chicago (CCC), and the Illinois Department of Financial and Professional Regulations (IDFPR).

### Objectives of the Program

- To increase the background and knowledge of students about the funeral service profession; to educate students in every phase of funeral service and to help enable them to develop proficiency and skills necessary for the profession; to educate students concerning the responsibilities of the funeral service profession to the community at large.
- To emphasize high standards of ethical conduct; to provide a curriculum at the post-secondary level of instruction; to encourage student and faculty research in the field of funeral service.

### Aims of the Program

The central aim recognizes the importance of funeral service education personnel as:

- Members of human services profession, members of the community in which they serve, participants in the relationship between bereaved families and those engaged in the funeral service profession.
- Professionals knowledgeable of and compliant with federal, state, provincial and local regulatory guidelines as well as professionals sensitive to the responsibility for public health and welfare in caring for human remains.

### Goals of the Program

- Provide a relevant, current and comprehensive ABFSE (American Board of Funeral Service Education) curriculum
- Provide a comprehensive public safety and technical experiences through laboratory education
- Establish mastery levels at which students can successfully complete all program requirements and pass the International Conference of Funeral Service Exam (ICFSE)
- Provide students with the necessary academic preparation to become licensed by the Illinois Department of Financial and Professional Regulations (IDFPR)
- Establish and maintain program policies that supports a well-rounded professional for empowerment

Accreditation Agency Information:

ABFSE 1 3414 Ashland Ave., Suite G | St. Joseph, MO 64506 | (816) 233-3747
www.ABFSE.org

### NURSING

#### Associate in Applied Science (239)

The Associate in Applied Science degree program in Nursing prepares students through the study of nursing theory and patient care techniques to take the licensure examination for Registered Nurses (RN). Both classroom instruction and clinical experiences in Chicago and surrounding suburban area hospitals and primary care facilities are provided. The curriculum is designed to lead the student to employment as a Registered Professional Nurse in hospitals, clinics, nursing homes, physicians’ offices, schools, public health, government, and military, or industry.

For more info on the Associate in Applied Science in degree Nursing, please visit www.ccc.edu/programs/Pages/Nursing-Associate-in-Applied-Science.aspx.

**NURSING HOME ADMINISTRATION**

**Basic Certificate (341)**

The Basic Certificate in Nursing Home Administration addresses the educational needs of managers who will work with the elderly population in health care settings. The program prepares students for employment in long-term care facilities, as well as to sit for the nursing home administrator licensure exam. The program includes both gerontology and business courses based on the requirements of the nursing home administrator’s job description. Career possibilities include: Medical and Health Services Managers.

For more info on the Basic Certificate in Nursing Home Administration, please visit [www.ccc.edu/programs/Pages/Nursing-Home-Administration-Basic-Certificate.aspx](http://www.ccc.edu/programs/Pages/Nursing-Home-Administration-Basic-Certificate.aspx).

**OCCUPATIONAL THERAPY ASSISTANT (OTA)**

**Associate in Applied Science (259)**

The Associate in Applied Science degree program in Occupational Therapy Assistant (OTA) is the study of occupational therapy as a skilled healthcare service that uses occupation to promote meaningful living. Occupational therapy assistants, under the guidance of occupational therapists, adapt activities, tasks, and the environment in order to enable people of all ages and backgrounds to fulfill their chosen occupations and life roles. Career options can include employment in hospitals, clinics, schools, specialized community care settings, and wellness programs. The program’s mission is to prepare competent and effective occupational therapy practitioners who value occupation as both a means and as an end to quality living for self and others through a sound educational experience that includes preparation in:

- The occupational therapy process
- The impact of culture
- Use of self as an agent of change
- Ethical professional practice
- Teaching and learning processes
- Collaborating as a healthcare professional
- Working in a variety of practice environments
- Oral and written communication skills

The Occupational Therapy Assistant program is accredited by the Accreditation Council for Occupational Therapy Education. Graduates of the program are eligible to sit for the National Certification Exam for Occupational Therapy Assistants administered by the National Board for Certification in Occupational Therapy, Inc. (NBCOT). After successful completion of this exam, an individual becomes a Certified Occupational Therapy Assistant. Determination of exam eligibility for applicants who have a felony related charge or conviction requires individualized review by NBCOT, Inc. Most states require licensure in order to practice. Illinois license issuance is based upon the results of the NBCOT Certification exam.

For more info on the Associate in Applied Science degree in Occupational Therapy Assistant (OTA), please visit [www.ccc.edu/programs/Pages/Occupational-Therapy-Assistant-OTA-Associate-in-Applied-Science.aspx](http://www.ccc.edu/programs/Pages/Occupational-Therapy-Assistant-OTA-Associate-in-Applied-Science.aspx).

## PERSONAL FITNESS TRAINER

### Basic Certificate (397)

The Basic Certificate program provides students with the educational background required for pursuing a career in the health and fitness industry. The curriculum provides the basic foundational skills needed to assess human body mechanics and the ability to develop and implement exercise training programs designed to improve and maintain health-related components of fitness and performance. This knowledge will prepare students to achieve personal trainer certification from the National Academy of Sports Medicine (NASM). Employment opportunities with this certification include personal trainer, group exercise instructor, and/or entry-level positions available at corporate or community fitness centers (i.e., health clubs, hospital fitness centers, YMCA, community recreational centers, etc.).

For more info on the Basic Certificate in Personal Fitness Trainer, please visit [www.ccc.edu/programs/Pages/Personal-Fitness-Trainer-Basic-Certificate.aspx](http://www.ccc.edu/programs/Pages/Personal-Fitness-Trainer-Basic-Certificate.aspx).

### PHARMACY TECHNICIAN

#### Basic Certificate (802)

The Pharmacy Technician certificate program provides comprehensive training that prepares students to enter the pharmacy field to work in hospitals, community, and retail pharmacies. Emphasis is placed on definitions of drugs by name and the reading and interpretation of medical prescriptions. Students will also learn IV flow rate, dosage calculations, drug compounding and dose conversions, inventory control and much more. Clinical experience will be included. The program is designed to prepare students for the national certification examinations.

For more info on the Basic Certificate in Pharmacy Technician, please visit [www.ccc.edu/programs/Pages/Pharmacy-Technician-Basic-Certificate.aspx](http://www.ccc.edu/programs/Pages/Pharmacy-Technician-Basic-Certificate.aspx).

### PHARMACY TECHNOLOGY

#### Advanced Certificate (254)

Pharmacy technicians assist and support licensed pharmacists in providing health care and medications to patients. They may perform many of the same duties as pharmacists, but all technicians’ work must be checked by a pharmacist before medication is dispensed. While Pharmacy Technicians can work everywhere pharmacists work, some state laws may limit the duties they perform. A special application is required for entry into the program. Upon acceptance into the program, students must provide proof of current health insurance and recent medical examination.

**PHLEBOTOMY**

**Basic Certificate (219)**

The Basic Certificate program in Phlebotomy leads to certification through the National Phlebotomy Association (NPA), the American Society of Clinical Pathologists (ASCP), and the American Society of Phlebotomy Technicians (ASPT).

The phlebotomist is an entry level health care worker who serves as the direct link between the patient and the laboratory. The position is responsible for drawing both venous and arterial blood specimens from patients and sending blood to the laboratory. In some cases, physician approval is required. The laboratory technologist relies on the integrity and accuracy of the phlebotomist in procuring the proper specimens; accurate diagnosis of a patient’s condition can depend on quality work. Phlebotomists can further their education and become laboratory technicians or technologists.

*For more info on the Basic Certificate in Phlebotomy, please visit [www.ccc.edu/programs/Pages/Phlebotomy-Basic-Certificate.aspx](http://www.ccc.edu/programs/Pages/Phlebotomy-Basic-Certificate.aspx)*.

**PHLEBOTOMY TECHNICIAN**

**Basic Certificate (803)**

The Phlebotomy Technician 90-hour program prepares professionals to collect blood specimens for laboratory analysis. Students will become familiar with all aspects of blood collection and will develop comprehensive skills to perform venipunctures completely and safely. Classroom and lab work includes terminology, anatomy and physiology, blood collection procedures, specimen hands-on practice, and training in skills and techniques to perform puncture methods. As part of the learning objectives for the coursework, students will take on the role of patient and technician. Also, the coursework includes extensive hands-on laboratory and preparation for the national certification.

*For more info on the Basic Certificate in Phlebotomy Technician, please visit [www.ccc.edu/programs/Pages/Phlebotomy-Technician-Basic-Certificate.aspx](http://www.ccc.edu/programs/Pages/Phlebotomy-Technician-Basic-Certificate.aspx)*.

# Radiography

## Associate in Applied Science (246)

The Associate in Applied Science degree program in Radiography is the study of the theory, technical skills, patient care, and techniques necessary to use radiation in the diagnosis of disease. Completion of the program can lead to employment as an X-ray technologist or radiographer in private and public hospitals, clinics, and laboratories. The AAS degree in Radiography provides the necessary professional skills, progressive maturity, and the intellectual, social, and emotional values necessary for a graduate to be a trustworthy member of the healthcare team.

## General Education Coursework

**17 Credit Hours**

- **Biology (0023)**
  - 226 Human Structure and Function I ......................................................... 4
  - 227 Human Structure and Function II ......................................................... 4
- **English (00035)**
  - 101 Composition I .......................................................... 3
  - 201 General Psychology .......................................................... 3
- **Psychology (0087)**
  - 118 General Education Mathematics ......................................................... 4
- **Mathematics (0045)**
  - 203 Clinical Experience III .......................................................... 4

Please note: students are required to complete Biology 120 or Health Science 102 as a program prerequisite.

## Required Program Core

**58 Credit Hours**

- **Radiography (0021)**
  - 101 Introduction to Radiation Sciences ......................................................... 2
  - 102 Attitudes in Patient Care .......................................................... 2
  - 105 Imaging Physics .......................................................... 3
  - 115 Basic Principles of Image Production ......................................................... 3
  - 124 Introduction to Patient Care .......................................................... 2
  - 128 Image Evaluation .......................................................... 1
  - 131 Radiographic Procedures I .......................................................... 2
  - 140 Introduction to Clinical Education ......................................................... 4
  - 141 Radiography Clinical Education I ......................................................... 4
  - 200 Pathology .......................................................... 3
  - 202 Radiology Management .......................................................... 1
  - 205 Applied Radiographic Techniques ......................................................... 3
  - 206 Imaging .......................................................... 2
  - 208 Radiobiology .......................................................... 3
  - 232 Radiographic Procedures II .......................................................... 4
  - 233 Radiographic Procedures III .......................................................... 4
  - 234 Special Radiographic Procedure .......................................................... 2
  - 242 Radiography Clinical Education II ......................................................... 4
  - 243 Radiography Clinical Education III ......................................................... 4
  - 244 Radiography Clinical Education IV ......................................................... 5

## Total Program Credit Hours

**75 Credit Hours**

*Students who first enroll in the Radiography program at Wright College in Fall 2015 will move to the new Malcolm X program in Spring 2016 to complete their degree.*

---

# Renal Dialysis Technology

## Advanced Certificate (248)

The Advanced Certificate program Renal Dialysis Technology leads to certification through the Board of Nephrology Examiners Nursing and Technology. It prepares students for employment as Dialysis Technicians or Nephrology Technologists. They perform treatment and services to patients with end stage renal disease and/or dysfunction.

Healthcare

RESPIRATORY CARE

Associate in Applied Science (234)

The Associate in Applied Science degree in Respiratory Care will offer the study of theory and techniques instrumental in diagnosis, treatment, management, and preventive care of patients with cardiopulmonary problems. It will prepare the student to become a well-rounded professional and competent advanced respiratory therapist. The graduate will be eligible to take the National Board For Respiratory Care entry-level respiratory care practitioner examination to become a “Certified Respiratory Therapist” and the advanced level respiratory care practitioner examination to become a “Registered Respiratory Therapist.” Successful completion of the program will lead to employment as a respiratory therapist in hospitals, clinics or home settings or branch off into research, sales, education or other career opportunities.

For more info on the Associate in Applied Science degree in Respiratory Care, please visit www.ccc.edu/programs/Pages/Respiratory-Care-Associate-in-Applied-Science.aspx.

RN COMPLETION

Associate in Applied Science (381)

The Associate in Applied Science degree in RN Completion provides students who have completed the Practical Nursing program with the Nursing coursework that will result in an AAS degree in Nursing. This is a ladder program designed to provide an opportunity for Practical Nursing (RN) graduates to continue their education by building on their previous education rather than repeating previously learned material. The AAS degree in Nursing prepares students to become registered nurses (RN) through licensure from the Illinois Department of Financial and Professional Regulation (IDFPR), and meet critical, local, state and national needs for nursing professionals. Successful completion of the program will allow students to apply to sit for the NLE-RN licensure examination.

For more info on the Associate in Applied Science degree in RN Completion, please visit www.ccc.edu/programs/Pages/Nursing-(RN-Completion)-Associate-in-Applied-Science.aspx.

PROGRAM OFFERED AT: MCH
STERILE PROCESSING CLINICAL

Basic Certificate (269)
The Basic Certificate program in Sterile Processing Clinical presents the basic concepts and principles for developing skills and competencies required for infection prevention and control in the sterile processing department in a health care facility. The program offers basic knowledge related to instrumentation connected with surgical procedures. Students will be involved in processes such as cleaning, disinfecting, decontamination, sterilization, standard precautions, and universal precautions, as well as gain basic knowledge concerning various types of central service equipment such as ultrasonic cleaning, washer sterilizers, cart washers, autoclaves, steril, sterrad and ethylene oxide (ETO) machines.

Note: Graduates are eligible to write the International Association of Healthcare Central Service Material Management Exam (IAHCSSMM).

For more info on the Basic Certificate in Sterile Processing Clinical, please visit www.ccc.edu/programs/Pages/Sterile-Processing-Clinical-Basic-Certificate.aspx.

SURGICAL TECHNOLOGY

Associate in Applied Science (267)
The Associate in Applied Science degree program in Surgical Technology is designed for surgical technologies (formerly called operating room technicians) who perform many different responsibilities in the operating room. They act as the scrub person, as the circulator, and as the first assistant on the surgical team. Surgical technologists’ responsibilities involve preparing the operating rooms and instruments, equipment, and supplies that will be needed; positioning and preparing the patient for surgery; and passing instruments, sponges, and sutures to the surgeon. Surgical technologists are the surgical team’s expert in aseptic technique, being constantly vigilant for any break in the technique that could endanger the sterile field. Surgical technologists belong to a separate non-nursing profession and are highly skilled, having completed the necessary specialized education and training focusing on working in the operating room.

For more info on the Associate in Applied Science degree in Surgical Technology, please visit www.ccc.edu/programs/Pages/Surgical-Technology-Associate-in-Applied-Science.aspx.

## ADDICTIONS STUDIES

### Associate in Applied Science (344)

The Associate in Applied Science degree program in Addictions Studies is ideal for prospective mental health practitioners or those already working in the field who wish to receive training and credentials in Addictions Studies. Many Addictions Studies practitioners find employment in medical and non-medical detoxification centers, rehabilitation programs, community mental health centers and family service centers, halfway houses, therapeutic communities, business, or industry. Some combine counseling with such primary professions as nursing, social work, school guidance counseling, or the clergy.

The program is accredited by the Illinois Alcoholism and Other Drug Abuse Professional Certification Association (IAODAPCA).

For more info on the Associate in Applied Science degree in Addictions Studies, please visit [www.ccc.edu/programs/Pages/Addictions-Studies-Associate-in-Applied-Science.aspx](http://www.ccc.edu/programs/Pages/Addictions-Studies-Associate-in-Applied-Science.aspx).

CREDIT PROGRAM REQUIREMENTS
Human Sciences (Liberal Arts)

ART (STUDIO)

Associate in Fine Arts (216)
The Associate in Fine Arts degree offers courses required for transfer to a fouryear institution for students majoring in art (studio), music education, or music performance. Completion of the AFA degree does not fulfill the requirements of the Illinois Transferable General Education Core Curriculum (IAI GECC). A student must complete the general education requirements of the college or university to which they transfer.

For more info on the Associate in Fine Arts degree in Art (Studio), please visit www.ccc.edu/programs/Pages/Associate-in-Fine-Arts---Art-(Studio).aspx.

General Education Coursework 31 Credit Hours

English (0035)
101 Composition I ......................................................... 3
102 Composition II ......................................................... 3

Speech (0095)
101 Fundamentals of Speech Communication ...................... 3

Mathematics (0045)
118 General Education Mathematics OR ............................. 4
125 Introductory Statistics .................................................. 4

Physical & Life Sciences
Minimum one course each in Physical & Life Sciences; one course must be a lab.
2 courses ........................................................................ 6

Social & Behavioral Sciences
2 courses ........................................................................ 6

Fine Arts & Humanities
2 courses ........................................................................ 6

Students can take only one of Humanities 123 or Humanities 201 to satisfy the above requirement.

Required Program Core 21 Credit Hours

Art (0010)
131 General Drawing ......................................................... 3
132 Advanced General Drawing .......................................... 3
142 Figure Draw and Composition ....................................... 3
144 Two-Dimensional Design .............................................. 3
145 Three-Dimensional Design ............................................ 3

Fine Arts (0042)
107 History of Architecture, Painting, and Sculpture I ............. 3

COSMETOLOGY

Advanced Certificate (349)
The Advanced Certificate program in the field of Cosmetology offers challenging and rewarding opportunities designed to give students thorough training in the art, skill and applied science used in the treatment of hair, nails, and skin. The program meets the standards of the Illinois Department of Finance and Professional Regulation (IDFPR) in total hours, teaching staff, equipment, facilities, libraries, and course content.

Students are required to complete a specific number of hours in the Technical Center Styling Salon. Once students have completed all coursework and laboratory hours, they are ready to sit for the licensure examination through the IDFPR. Students must be licensed in order to practice Cosmetology in Illinois.

For more info on the Advanced Certificate in Cosmetology, please visit www.ccc.edu/programs/Pages/Cosmetology-Advanced-Certificate.aspx.

Required Program Core 36 Credit Hours

Cosmetology (0163)
101 Introduction to Cosmetology/Cosmetic Art ....................... 5
102 Hair-Shaping Technology ............................................. 5
103 Basic Styling Technology .............................................. 5
104 Hair Tinting Technology .............................................. 3
105 Salon Technology I ..................................................... 5
106 Salon Technology II ................................................... 5
201 Advanced Styling Technology ....................................... 4
202 Summative Seminar .................................................... 4

### MEDIA COMMUNICATIONS

**Audio/Video/Internet/Production (AVIP)**

**Associate in Applied Science (083)**

The Associate in Applied Science degree program in Media Communications is a modification and extension of the former Radio and TV Broadcasting Program. Students may choose specialized courses that qualify them in the following areas: 1) Audio/Video/Internet Production (AVIP), which include Television; 2) Radio Production/Broadcasting; 3) Media Sales and Marketing; and 4) Interactive Media Design. All areas focus on the use of technology, including computers. Therefore, computer literacy is required for successful completion of this program.

The program prepares graduates for entry level positions in related fields and for possible transfer to a four-year institution.

In this specialty area, you will learn to create short video and audio projects and learn all facets of video and audio production from program design (pre-production), and hands-on recording (production) through the editing process (post-production). You will take courses in web-casting and streaming media using state-of-the-art digital technology, facilities, and instruction. By the end of the program, you will have basic knowledge of lighting, camera operation, storyboarding and basic scripting, editing, sound, and producing techniques. Students will assume roles as producers, directors, camera operators and video editors. Pre- and post-production, scripting, graphics, lighting, legal requirements, and nonlinear video editing skills will be emphasized.

For more info on the Associate in Applied Science degree in Media Communications, please visit [www.ccc.edu/programs/Pages/Media-Communications-Audio-Video-Internet-Production-(AVIP)-Associate-in-Applied-Science.aspx](http://www.ccc.edu/programs/Pages/Media-Communications-Audio-Video-Internet-Production-(AVIP)-Associate-in-Applied-Science.aspx).

Associate in Applied Science (083)

The Associate in Applied Science degree program in Media Communications is a modification and extension of the former Radio and TV Broadcasting Program. Students may choose specialized courses that qualify them in the following areas: 1) Audio/Video/Internet Production (AVIP), which include Television; 2) Radio Production/Broadcasting; 3) Media Sales and Marketing; and 4) Interactive Media Design. All areas emphasize the use of technology, including computers. Therefore, computer literacy is required for successful completion of this program. The program prepares graduates for entry level positions in related fields and for possible transfer to a four-year institution.

The curriculum for Sales and Marketing as part of the Media Communications program is designed to put graduates on the front lines of the business world and, more specifically, to prepare students to understand and communicate the value of media properties (TV, radio, newspaper and Internet). Each course in the Sales and Marketing program is focused and detailed, yet part of a broad-based curriculum that balances relevant management principles with hands-on marketing procedures and techniques.

MEDIA COMMUNICATIONS

Radio Production and Broadcasting

**Associate in Applied Science (083)**

The Associate in Applied Science degree program in Media Communications is a modification and extension of the former Radio and TV Broadcasting Program. Students may choose specialized courses that qualify them in the following areas: 1) Audio/Video/Internet Production (AVIP), which include Television; 2) Radio Production/Broadcasting; 3) Media Sales and Marketing; and 4) Interactive Media Design. All areas emphasize the use of technology, including computers. Therefore, computer literacy is required for successful completion of this program. The program prepares graduates for entry level positions in related fields and for possible transfer to a four-year institution.

The Radio Production/Broadcasting course of study provides a comprehensive overview of the Media Communications industry with a focus in radio. The program provides a real world, hands-on overview of the art and business of radio broadcasting, while developing in-depth knowledge and skills regarding the total operation of a radio station, including the history of radio broadcasting from its inception to the latest radio technology. The program will train students in the areas of on-air talent, production, programming, or business, which includes radio marketing, promotions, and sales.

For more info on the Associate in Applied Science degree in Media Communications, please visit [www.ccc.edu/programs/Pages/Media-Communications-Radio-Production-and-Broadcasting-Associate-in-Applied-Science.aspx](http://www.ccc.edu/programs/Pages/Media-Communications-Radio-Production-and-Broadcasting-Associate-in-Applied-Science.aspx).

**MUSIC BUSINESS**

**Basic Certificate (093)**

The Basic Certificate program in Music Business prepares students for the study of the techniques and standards needed for a career as a manager, publisher, professional musician, or agent. Completion of the Music Business program can lead to employment with such businesses as recording companies, management firms, publishing companies, music festivals, or music production companies. Practical experience within the music industry is included. The field is highly competitive, but employment opportunities are expanding rapidly.

MUSIC EDUCATION

Associate in Fine Arts (208)

Music educators are passionate about developing their students’ musical talents and guiding them in their pursuit of music careers. But they also enjoy helping all students have fun, develop discipline, and enrich their lives by learning to play music. Follow the Music Education pathway and learn how to teach music and music appreciation to various ages and abilities. You might find yourself taking courses in curriculum design, music theory, music history, classroom management, and technology for music teachers. People with degrees in music education can choose to become music teachers, recreational therapists, musicians, sound engineers, and more.

For more info on the Associate in Fine Arts degree in Music Education, please visit [www.ccc.edu/programs/Pages/Music-Education-Associate-in-Fine-Arts_bak.aspx](http://www.ccc.edu/programs/Pages/Music-Education-Associate-in-Fine-Arts_bak.aspx).

MUSIC PERFORMANCE

Associate in Fine Arts (205)

The Associate in Fine Arts Degree with a concentration in Music Performance provides the necessary foundation for more advanced study in music performance, music theory, music history, or music composition at four-year colleges, universities, and music conservatories. Performance areas include all musical instruments and voice. Employment opportunities are varied and are usually based on the student’s personal interest and area of specialization, including all professions based in the musical arts (performance, composition, research and analysis, music management, library science, music publishing, music therapy, among others).

For more info on the Associate in Fine Arts degree in Music Performance, please visit [www.ccc.edu/programs/Pages/Music-Performance-Associate-in-Fine-Arts_bak.aspx](http://www.ccc.edu/programs/Pages/Music-Performance-Associate-in-Fine-Arts_bak.aspx).

SOCIAL WORK: YOUTH WORK

Associate in Applied Science (370)
The Associate in Applied Science degree in Social Work: Youth Work can lead to employment in government, community, or private social service agencies. Enrollment in the program is open to anyone interested in working with youth during out-of-school time, e.g., after-school workers, school-age workers, grassroots youth workers, community activists, outreach workers, probation officers, prevention specialists, teen reach workers, managers, and supervisors. As an option under Social Work, the academic program for the professional development worker includes basic and advanced certificates and an Associate in Applied Science degree. Where applicable, under this professional development option, college credit will be awarded for prior learning experiences up to a maximum of fifteen credit hours.

PROGRAM OFFERED AT:
**CREDIT PROGRAM REQUIREMENTS**

**Information Technology**

### A+ CERTIFIED COMPUTER TECHNICIAN

**Basic Certificate (806)**
The A+ Certified Computer Technician certificate program is an internationally recognized credential backed by major computer hardware and software companies. As a CompTIA Certified A+ Technician, graduates will be able to: analyze computer problems; disassemble any computer for rebuild or upgrade; design and operate a company’s computer maintenance; recommend compatible hardware and software; and limit downtime and expensive repairs by providing immediate in-house action.

**Required Program Core** 6 Credit Hours

### COMPUTER INFORMATION SYSTEMS

#### Associate in Applied Science (011)*
The Associate in Applied Science degree can lead to entry-level jobs as programmer analysts, computer programmers, systems analysts, operations managers, network administrators, or unit supervisors in private and public firms or organizations. Advances in technology have increased the computer’s application in the factory, the office and the telecommunications industry. As computer use grows, so will the need for workers who are able to cope with change and adapt to new technologies.

**General Education Coursework** 15 Credit Hours

Students should meet with a College Advisor for selection of specific course requirements for the 15 credit hour minimum General Education portion of the Associate in Applied Science degree.

**Required Program Core** 36 Credit Hours

WEB DESIGN

Basic Certificate (811)
In the Web Design certificate program, students explore the essential elements of web design and utilize practical activities and step-by-step procedures to design, build, and post a website. Students will create templates for page layout and learn techniques for fine-tuning and modifying prepackaged Web page development software. They will learn how to convert and scale artwork and photographs for Web publication and use tables and templates to organize layouts.

For more info on the Basic Certificate in Web Design, please visit www.ccc.edu/programs/Pages/default.aspx.

### WEB DEVELOPMENT

#### Associate in Applied Science (409)

The Web Development Associate in Applied Science program prepares students for entry-level positions in website design, development, and administration. Students will learn various programming principles, languages, and web technologies to effectively create and deploy dynamic dynamic websites. Students will also learn how to integrate web and database servers to increase the productivity and interactivity of a website. Potential job opportunities for students in this program include web designer, web developer, e-commerce manager, web technician, or web server administrator.

### WEB DEVELOPMENT

#### Advanced Certificate (155)

The Advanced Certificate program in Web Development prepares students for entry-level positions as Web site editors, developers, or designers. Students acquire an understanding of programming principles and languages incorporated in Web pages, and become proficient in HTML and related technologies. This program will also be useful to individuals whose job duties have expanded to include web site responsibilities or who wish to develop web pages for their businesses.

PROGRAM OFFERED AT:

CHEMICAL LABORATORY TECHNOLOGY

Associate in Applied Science (137)
The Associate in Applied Science degree program for Chemical Laboratory Technology focuses on the study of the development, production and utilization of industrial chemicals, and methods used in modern chemical laboratories. The program can lead to employment as a chemical lab technician (working under supervision of senior technicians), engineer, or scientist in production or testing, as well as in commercial utilization of chemicals and chemical products.

For more info on the Associate in Applied Science degree in Chemical Laboratory Technology, please visit www.ccc.edu/programs/Pages/Chemical-Laboratory-Technology-Associate-in-Applied-Science.aspx.

ENVIRONMENTAL TECHNOLOGY

Associate in Applied Science (160)
The Associate in Applied Science degree program for Environmental Technology prepares students with the skills and knowledge needed to participate in environmental careers including environmental compliance in public and private sector organizations, pollution prevention, environmental remediation, workplace health and safety, and emergency response preparedness. You will learn to develop procedures for proper hazardous materials handling techniques and design training programs used to implement existing and future regulatory requirements to ensure compliance. Upon graduation, you will be prepared to work in the health and safety field in such positions as compliance officer, environmental safety specialist, laboratory technician, hazardous materials emergency response technician, and environmental coordinator.

For more info on the Associate in Applied Science degree in Environmental Technology, please visit www.ccc.edu/programs/Pages/Environmental-Technology-Associate-in-Applied-Science.aspx.

ALTERNATIVE FUEL VEHICLE TECHNOLOGY

Basic Certificate (099)
The AFVT Program has been designed to prepare students to apply their skills and knowledge to correctly diagnose and repair alternative fuel vehicles such as hybrid power units in accordance with manufacturer’s specifications. The AFVT program will also give emergency response, auto insurance and salvage yard personnel working knowledge to safely perform their tasks when working on or inspecting hybrid fuel vehicles. This program will also prepare automotive technicians and instructors to sit for the Automotive Service Excellence (ASE) Advanced Engine Performance examination.

### AUTOMOTIVE TECHNOLOGY

#### Track I

**Associate in Applied Science (125)**

The AAS degree in Automotive Technology provides the necessary foundation and practical experience to pursue entry-level positions that meet the changing demands of the automotive industry. Entry-level positions may be found in automotive dealerships and franchises, independent service repair shops, auto parts stores, or through self-employment. Students will learn the skills essential to employment in the field of maintenance technology, auto body care, chassis, diesel, and power train, leading to employment in service, maintenance, and areas of technological specialty such as detailing, auto body paint and refinishing, as well as management occupations or self-employment. Students will also be able to consider transferring Industrial Engineering Technology credits to state universities.

For more info on the Associate in Applied Science degree in Automotive Technology, please visit [www.ccc.edu/programs/Pages/Automotive-Technology-Automotive-Technology.aspx](http://www.ccc.edu/programs/Pages/Automotive-Technology-Automotive-Technology.aspx).

COMMERCIAL DRIVER TRAINING

(Class A)

Basic Certificate (876)
The Commercial Driver Training certificate program is designed for individuals with little or no commercial driving experience. The Commercial Driver Training program trains students for entry level employment as commercial motor vehicle operators. In partnership with the Illinois Department of Transportation, this program prepares students to obtain a Commercial Driver’s License in the State of Illinois.

For more info on the Basic Certificate in Commercial Driver Training, please visit www.ccc.edu/programs/Pages/Commercial-Driver-Training-Basic-Certificate.aspx.

DEFENSIVE DRIVING: ATTITUDINAL

Basic Certificate (890)
The Defensive Driving Attitudinal certificate program comprises an eight-hour workshop which addresses the needs of those individuals who are repeat violators of traffic rules and regulations and newly licensed chauffeurs who have been driving in the United States for at least three years. This training component is certified by the National Safety Council. Topics include the violation of rules and regulations, cultural sensitivity, anger management and conflict resolution, as well as behavior modification approaches for effective customer service. Additionally, the training also reviews the Illinois Rules of the Road Handbook and prepares the inexperienced chauffeur driver for the road. Students will receive the National Safety Council certificates of completion once they successfully complete the workshop program.

For more info on the Basic Certificate in Defensive Driving: Attitudinal, please visit www.ccc.edu/programs/Pages/Defensive-Driving-Attitudinal-Basic-Certificate.aspx.

### DIESEL TECHNOLOGY

#### Associate in Applied Science (400)*

*COMING TO OLIVE-HARVEY FALL 2016*

The Associate in Applied Science degree in Diesel Technology equips students with the skills necessary to repair and maintain diesel-powered highway, industrial, and marine vehicles and equipment. Students will gain more detailed instructions in how diesel maintenance techniques and principles are applied in diagnosing malfunctions and prescribing corrective action. The course work highlights diesel service management, critical thinking and problem solving, theory and skills of refrigeration, electronic and mechanical fuel injection, chassis maintenance, vehicle inspection, tune-up, engine overhaul, transmission repair, brake service, handling hazardous waste and preventative maintenance. Students will also be eligible to take the National Institute of Automotive Service Excellence (NAISE) examinations in heavy truck mechanics, Allison Transmission certification, and Hybrid certification.

#### DIESEL TECHNOLOGY

#### Advanced Certificate (401)*

*COMING TO OLIVE-HARVEY FALL 2016*

The Diesel Technology Advanced Certificate program provides students with the training needed for maintaining and repairing heavy-duty diesel powered equipment. Instructional training is heavily focused on diesel engines performance, hydraulics, electrical, air conditioning, and drive trains.

CREDIT PROGRAM REQUIREMENTS
Transportation, Distribution, and Logistics

**DIESEL TECHNOLOGY**

**Basic Certificate (402)**

*COMING TO OLIVE-HARVEY FALL 2016*

The Diesel Technology Basic Certificate Program introduces students to the basic fundamentals of diesel technology and provides them with the necessary entry-level skills and theory to enter either the medium/heavy duty or construction equipment service/repair fields. This certificate prepares students to become repair technicians. Graduates will be qualified for positions requiring diagnosis and repair of diesel engines, suspension and steering, brakes, and electrical and electronic systems.

or more info on the Basic Certificate in Diesel Technology, please visit www.ccc.edu/programs/Pages/Diesel-Technology-Basic-Certificate.aspx.

**PROGRAM OFFERED AT:**

**FORKLIFT OPERATION AND SAFETY**

**Basic Certificate (848)**

The Forklift Operation and Safety Certificate Program prepares students to become safe and effective forklift operators. Upon completion of the program, students will have working knowledge of the basic use of lift trucks, as well as the ability to safely inspect and operate lift trucks. The curriculum includes theory and practical training.

For more info on the Basic Certificate in Forklift Operation and Safety, please visit www.ccc.edu/programs/Pages/Forklift-Operation-and-Safety-Basic-Certificate.aspx.

**PROGRAM OFFERED AT:**

**LIMOUSINE–RESTRICTED CHAUFFEUR TRAINING**

**Basic Certificate (889)**

The Limousine-Restricted Chauffeur Training basic certificate program is an intensive, one-day training that prepares individuals to become restricted public chauffeurs. Students participating in this training are eligible to become licensed to drive a livery/limousine. The training is offered four times each month and is intended to serve as a preparatory course to assist individuals with the successful completion of the restricted public chauffeur’s license exam. Students learn current chauffeur rules and regulations, as well as information on new cultural attractions, buildings, hospitals and hotels.

For more info on the Basic Certificate in Limousine–Restricted Chauffeur Training, please visit www.ccc.edu/programs/Pages/Limousine-Residential-Chauffeur-Training-Basic-Certificate.aspx.

**PROGRAM OFFERED AT:**

**PUBLIC PASSENGER VEHICLE TRAINING: TAXI**

**Basic Certificate (715)**

The Basic Certificate program for Public Passenger Vehicle Training: Taxi is designed to prepare individuals to become public chauffeurs in the City of Chicago and to take the Public Chauffeur License examination issued by the Chicago Department of Business Affairs and Consumer Protection. This six-day comprehensive training program covers Chicago geography navigation, departmental rules and regulations, accessibility training, and professional development.

For more info on the Basic Certificate in Public Passenger Vehicle Training-Taxi, please visit www.ccc.edu/programs/Pages/Public-Passenger-Vehicle-Training-Taxi-Basic-Certificate.aspx.

## CREDIT PROGRAM REQUIREMENTS

### TRANSPORTATION, DISTRIBUTION, AND LOGISTICS

#### Associate in Applied Science (737)

The Associate in Applied Science degree in Transportation, Distribution, and Logistics provides students with a direct experience working in a logistics environment, building skills critical to success including: operations/business development, receiving, shipping, and case analysis. The program prepares students for working from entry level to supervisory positions. Students will receive three semesters of practical logistics operations experience, working at the college’s on-site distribution center, the “Central Store”.

Compliance Statement
Equal Opportunity in Programs, Services and Activities
City Colleges of Chicago does not discriminate on the basis of race, color, national origin, ethnicity, gender, age, religion, citizenship, sexual orientation, marital status, disability, veteran status, genetic information, pregnancy, membership or lawful participation in the activities of any organization, or the exercise of rights guaranteed by local, state, or federal law with respect to hire, terms and conditions of employment, continued employment, admissions, or participation in Board programs, services, or activities as required by Title IX of the Educational Amendments of 1972, the Americans with Disabilities Act of 1990 and the Amendments Act, Section 504 of the Rehabilitation Act of 1973, Title VI or Title VII of the Civil Rights Act of 1964, and other applicable statutes and City Colleges of Chicago policies. The EEO Office is responsible for investigating and responding to equal opportunity concerns, including sexual harassment, of CCC employees, applicants for employment, students or applicants for admission or any other person.

Complaints of discrimination or harassment may be made by or against employees, students, or other participants in Board programs, activities, or services. Any person who believes that he or she has suffered from a violation of CCC’s equal opportunity policies with respect to discrimination or harassment may file a complaint with the District’s EEO Office.

Complaints must be in writing and filed within 180 days of the discriminatory or harassing act. All complaints must be directed to the EEO Office in the Office of Human Resources and Staff Development at 226 W. Jackson Boulevard, 12th Floor, Chicago, Illinois 60606, or at eeoofficer@ccc.edu. For information regarding the EEO Policy and procedures, please contact the EEO Office at (312) 553-2865.

The complete text of the District’s non-discrimination policy is contained in the Student Policy Manual. Copies of the City Colleges of Chicago Equal Opportunity Complaint Procedures and the Discrimination Complaint Form are available in the District Office, Office of Human Resources at the above address, and in the Personnel Office at each of the seven City Colleges of Chicago locations. CCC’s non-discrimination policies, and complaint procedures and form are also available on the CCC website at www.ccc.edu/departments/Pages/Equal-Opportunity-Office-(EEO).aspx.

Prohibition Against Retaliation and Intimidation
Retaliation against and/or intimidation of employees, students, program participants, witnesses or any other persons who make complaints or who cooperate in EEO investigations is strictly prohibited. Anyone who feels he or she is the victim of retaliation or intimidation should contact the EEO Office to report such incidents immediately.

Smoke-Free Workplace
City Colleges of Chicago is a smoke-free environment.

Prohibition on Unlawful Drug and Alcohol Use
City Colleges of Chicago prohibits the use or distribution of alcoholic beverages in or on college property, or in conjunction with any college activities, except as authorized by state law and specifically approved by the college president or the chancellor. The unlawful manufacture, distribution, dispensation, use or possession of controlled substances (as defined in the Controlled Substances Act, 21 U.S.C. 812, section 202, schedules I through V) in or on college property is strictly prohibited.

The Board of Trustees of the Community College District No. 508, is governed by the Illinois Public Community College Act, (110 ILCX 805/1-1, et seq.) and the Rules for the Management and Government of City Colleges of Chicago, with any amendments enacted or thereafter. A student or employee who is found to be in violation of the above stated prohibitions will be subject to disciplinary action, up to and including expulsion and/or dismissal from employment.

Privacy of Educational Records
City Colleges of Chicago complies with the Family and Educational Records Protection Act with respect to students’ right of access to their educational records and the disclosure of educational records to third parties. For more information, please visit www.ccc.edu/menu/Pages/ccc_ferpa_compliance.aspx#legal.
