Retake the ALEKS Placement Assessment?

Yes, you may take up to 5 placement assessments. However, to make each attempt worthwhile, it is important that you spend time working in your ALEKS Prep and Learning Module in between placement assessments so that you can improve your skills.

Are ALEKS Placement Assessments proctored?

No. You can take the placement assessment, work in the Prep and Learning module and retake the assessment online at any time, at home, at a Chicago Public Library or at one of the colleges. If you prefer to take the assessments in a quiet testing lab, you may also schedule a time to do that by contacting the Testing Center at one of the colleges.

Can I retake the ALEKS Placement Assessment immediately?

You can but there is generally no benefit to re-taking the assessment immediately after completing a prior attempt. Unlike the SAT or ACT, you cannot improve your results by simply re-taking the assessment without spending time in the Prep and Learning Module to refresh material that you may have forgotten or to learn new material.

Must I work in my ALEKS Prep and Learning Module between placement assessments?

You do not need to between the 1st and 2nd placement assessments but it is highly recommended. You are not required to complete more than 2 placement assessments.

May I use any other resources during a placement assessment?
