Apprenticeships

- City Colleges website for various apprenticeship opportunities-

<https://apprenticeship.ccc.edu/studentgateway-2/#opportunities>

Other Opportunities

- **The Chicago CHEC Fellows Program:**

For undergraduate and postbaccalaureate students at Northeastern Illinois University, University of Illinois at Chicago, Northwestern University, the City Colleges of Chicago, and other Community/ Junior Colleges in the Chicago metropolitan area who are planning to apply to graduate or medical school. This program is focused on the development of academic, technical, and professional skills in preparation for careers in social, behavioral, and biomedical research and in healthcare. ChicagoCHEC Fellows will spend the summer in seminars and research rotations learning from leading researchers. Following the summer intensive program, ChicagoCHEC Fellows will have the option to be matched with a research mentor and research project (depending on mentor and project availability) during the academic year. <https://chicagochec.org/fellows/>

- **MICRO-CCS: Microbial Interactions Create Research Opportunities for Community College Students:**

The “MICRO-CCS: Microbial Interactions Create Research Opportunities for Community College Students” program provides research opportunities, scientific training, and mentoring for community college students interested in research about microbial interactions in food, agricultural, and environmental sciences.

<https://publish.illinois.edu/micro-ccs/>

- **The NASA Community College Aerospace Scholars (NCAS) Program:**

For students interested in pursuing a career in STEM, the NASA Community College Aerospace Scholars (NCAS) program is available exclusively to community college students. Students get a closer look at NASA’s unique missions, diverse workforce, and world-class facilities and learn how to develop their talents, interests, and passion to become future STEM professionals. <https://www.nasa.gov/learning-resources/nasa-community-college-aerospace-scholars/>

- **The Pattis Family Foundation Summer Leadership Program:**

Women Employed's Summer Leadership Program, generously sponsored by The Pattis Family Foundation, provides a unique opportunity for professional skill building and practical experience by exposing a team of interns to leadership training, front-line

research, and an awareness of the barriers low-paid workers experience. The program seeks to introduce students and recent graduates to all areas of nonprofit work through workshops, guest speakers, and projects.

<https://womenemployed.org/summer-leadership-program/>

- **Princeton University Undergraduate Summer Research in Molecular Biophysics:**

The mission of this training program in molecular biophysics is to enable students of the physical, mathematical, or engineering sciences from colleges with limited research opportunities to address important problems in biology. The summer undergraduate program offers cross-disciplinary research experience with leading faculty mentors who apply the intellectual, experimental, or theoretical tools of those sciences to biological questions.

- **The U.S. Department of State Internship Program:**

The Student Internship Program offers paid internship opportunities. It is intended to expand global opportunities for students from all backgrounds who are pursuing post-secondary degrees. Internships provide opportunities to gain experience and insight into the business of diplomacy as employees work to advance U.S. interests worldwide.
